Dear Shareholder:

You are cordially invited to attend the annual meeting of shareholders of Principal Financial Group, Inc., to be held on Tuesday, May 17, 2011, at 9:00 a.m., Central Daylight Time, at 711 High Street, Des Moines, Iowa.

We are taking advantage of Securities and Exchange Commission rules that allow companies to provide proxy materials to their shareholders on the Internet. These rules allow us to provide our shareholders with the information they need, while lowering the cost of the delivery of the materials and reducing the environmental impact of printing and mailing paper copies.

The notice of annual meeting and proxy statement accompany this letter and provide an outline of the business to be conducted at the meeting. Also, I will report on the progress of the Company during the past year and answer shareholder questions.

The Company encourages you to read this proxy statement and vote your shares. You do not need to attend the annual meeting to vote. You may complete, date and sign a proxy or voting instruction card and return it in the envelope provided (if these materials were received by mail) or vote by using the telephone or the Internet. Thank you for acting promptly.

Sincerely,

LARRY D. ZIMPLEMAN

Chairman, President and Chief Executive Officer

PRINCIPAL FINANCIAL GROUP, INC.
NOTICE OF ANNUAL MEETING OF SHAREHOLDERS

May 17, 2011

The annual meeting of shareholders of Principal Financial Group, Inc. (the "Company") will be held at 711 High Street, Des Moines, Iowa, on Tuesday, May 17, 2011, at 9:00 a.m., Central Daylight Time. Matters to be voted on are:

1. Election of four Class I Directors;
2. A proposal for the annual election of Directors;
3. An advisory vote on executive compensation;
4. An advisory vote on the timing of future advisory votes on executive compensation;
5. Ratification of the appointment of Ernst & Young LLP as the Company's independent auditors for the year ending December 31, 2011; and
6. Such other matters as may properly come before the meeting.

These items are fully described in the proxy statement, which is part of this notice. The Company has not received notice of other matters that may be properly presented at the annual meeting.

Only shareholders of record at the close of business on March 28, 2011, are entitled to vote at the meeting. It is important that your shares be represented and voted at the meeting. Whether or not you plan to attend the meeting, please vote in one of the following ways:

By telephone: call the toll-free telephone number shown on the proxy or voting instruction card or the instructions in the email message that notified you of the availability of the proxy materials;

Through the Internet: visit the website noted below and in the notice of Internet availability of proxy materials shareholders received by mail, or on the proxy or voting instruction card, or in the instructions in the email message that notified you of the availability of the proxy materials; or

Complete, sign and promptly return a proxy or voting instruction card in the postage-paid envelope provided.

Shareholders will need to register at the meeting and present photo identification to attend the meeting. If your shares are not registered in your name (for example, you hold the shares through an account with your stockbroker), you will need to bring proof of your ownership of those shares to the meeting in order to register. You should ask the broker, bank or other institution that holds your shares to provide you with either a copy of an account statement or a letter that shows your ownership of Principal Financial Group, Inc. common stock on March 28, 2011. Please bring that documentation to the meeting to register.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

By Order of the Board of Directors

JOYCE N. HOFFMAN

Senior Vice President and Corporate Secretary

PROXY STATEMENT

PRINCIPAL FINANCIAL GROUP, INC.

**711 HIGH STREET
DES MOINES, IOWA 50392-0100**

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING

Why didn't I receive a copy of the paper proxy materials?

Securities and Exchange Commission ("SEC") rules allow companies to deliver a notice of Internet availability of proxy materials to shareholders and provide Internet access to those proxy materials. Shareholders may obtain paper copies of the proxy materials free of charge by following the instructions provided in the notice of Internet availability of proxy materials.

Why did I receive notice of and access to this proxy statement?

The Board of Directors ("Board") of Principal Financial Group, Inc. ("Company") is soliciting proxies to be voted at the annual meeting of shareholders to be held on May 17, 2011, at 9:00 a.m., Central Daylight Time, at 711 High Street, Des Moines, Iowa, and at any adjournment or postponement of the meeting ("Annual Meeting"). When the Board asks for your proxy, it must send or provide you access to proxy materials that contain information required by law. These materials were first made available, sent or given to shareholders on April 6, 2011.

What is a proxy?

It is your legal designation of another person to vote the stock you own. The other person is called a proxy. When you designate someone as your proxy in a written document, that document is also called a proxy or a proxy card. The Company has designated three of the Company's officers to act as proxies for the 2011 Annual Meeting: Joyce N. Hoffman, Senior Vice President and Corporate Secretary; Terrance J. Lillis, Senior Vice President and Chief Financial Officer; and Karen E. Shaff, Executive Vice President and General Counsel.

What will the shareholders vote on at the Annual Meeting?

Election of four Directors for three year terms;

A proposal for the annual election of Directors;

An advisory vote on executive compensation;

An advisory vote on the timing of future advisory votes on executive compensation; and

Ratification of the appointment of independent auditors.

Will there be any other items of business on the agenda?

The Company does not expect any other items of business because the deadline for shareholder proposals and nominations has passed. However, if any other matter should properly come before the meeting, the people authorized by proxy will vote according to their best judgment.

Who can vote at the Annual Meeting?

Shareholders as of the close of business on March 28, 2011, ("Record Date") can vote at the Annual Meeting.

How many votes do I have?

You will have one vote for every share of the common stock of Principal Financial Group, Inc. ("Common Stock") you owned on the Record Date.

What constitutes a quorum?

One-third of the outstanding shares of Common Stock as of the Record Date. On the Record Date, there were 321,304,878 shares of Common Stock issued and outstanding. A quorum must be present, in person or by proxy, before any action can be taken at the Annual Meeting, except an action to adjourn the meeting.

Table of Contents

How many votes are required for the approval of each item?

Each nominee for Director will be elected if the votes cast for the nominee exceed those cast against the nominee. Directors are elected by the majority of votes cast in uncontested Director elections.

The proposal for the annual election of Directors will be approved if at least three-fourths ($3/4$) of the outstanding shares of Common Stock that are entitled to vote on the proposal are cast for the proposal.

The advisory vote to approve the Company's executive compensation policies will be approved if the votes cast for the proposal exceed those cast against the proposal.

The advisory vote on frequency of future advisory votes on executive compensation asks shareholders to express their preference for one of three choices for future advisory votes on executive compensation every year, every other year, or every three years. Abstentions have the same effect as not expressing a preference.

The appointment of the independent auditors will be ratified if the votes cast for the proposal exceed those cast against the proposal.

Abstentions and broker non-votes will be treated as being present at the meeting for the purpose of determining a quorum but will not be counted as votes.

What are Broker Non-votes?

If your shares are held in a brokerage account, your broker will ask you how you want your shares to be voted. If you give your broker directions, your shares will be voted as you direct. If you do not give directions, the broker may vote your shares on routine items of business, but not on non-routine items. Proxies that are returned by brokers because they did not receive directions on how to vote on non-routine items are called "broker non-votes."

How do I vote by proxy?

Shareholders of record may vote by mail, by telephone or through the Internet. When using these methods, you may vote "for," "against" or "abstain" from voting for each of the Director nominees, the proposal for the annual election of Directors, the advisory vote on executive compensation and the proposal to ratify the appointment of the independent auditors. For the advisory vote on timing of future advisory votes on executive compensation, you will be asked to indicate your preference for votes every year, every other year or every three years, or you may abstain from voting.

By Mail. Sign and date each proxy or voting instruction card you receive and return it in the prepaid envelope. Sign your name exactly as it appears on the proxy. If you are signing as a representative (for example, as an attorney-in-fact, executor, administrator, guardian, trustee or an officer or agent of a corporation or partnership), indicate your name and your title or capacity. If the stock is held in custody for a minor (for example, under the Uniform Transfers to Minors Act), the custodian should sign, not the minor. If the stock is held in joint ownership, one owner may sign on behalf of all owners.

By Telephone. Follow the instructions on the proxy or voting instruction card or the instructions in the email message that notified you of the availability of the proxy materials. Voting by telephone has the same effect as voting by mail. If you vote by telephone, do not return your proxy or voting instruction card. Telephone voting will be available until 1:00 a.m., Central Daylight Time, on May 17, 2011.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

Through the Internet. You may vote on line at www.investorvote.com. Follow the instructions provided in the notice of Internet availability of proxy materials or on the proxy or voting instruction card. Voting through the Internet has the same effect as voting by mail. If you vote through the Internet, do not return your proxy or voting instruction card. Internet voting will be available until 1:00 a.m., Central Daylight Time, on May 17, 2011.

How do I vote shares that are held by my broker?

If you own shares held by a broker, you may direct your broker or other nominee to vote your shares by following the instructions that your broker provides to you. Most brokers offer voting by mail, telephone and through the Internet.

Table of Contents

How do I vote in person?

If you are going to attend the Annual Meeting, you may vote your shares in person. However, we encourage you to vote in advance of the meeting by mail, telephone or through the Internet even if you plan to attend the meeting.

How do I vote my shares held in the Company's 401(k) plan?

You can vote your shares held in the Company's 401(k) plan by telling the trustees of the plan how you want them to vote your shares. Follow the instructions on the voting instruction card or the instructions in the email message that notified you of the availability of the proxy materials. The trustees vote shares for which voting instructions are not received in their discretion.

How are shares held in the Demutualization separate account voted?

The Company became a public company on October 26, 2001, when Principal Mutual Holding Company converted from a mutual insurance holding company to a stock company (the "Demutualization") and the initial public offering of shares of the Company's Common Stock was completed. In connection with the Demutualization, the Company issued Common Stock to Principal Life Insurance Company ("Principal Life"), and Principal Life allocated this Common Stock to a separate account that was established to fund policy credits received as Demutualization compensation by certain employee benefit plans that owned group annuity contracts. Although Principal Life will vote these shares, the plans give Principal Life voting directions. A plan may give voting directions by following the instructions on the voting instruction card or the instructions in the message that notified you of the availability of proxy materials. Principal Life will vote the shares as to which it received no direction in the same manner, proportionally, as the shares in the Demutualization separate account for which it has received instructions.

Who counts the votes?

Votes will be tabulated by Computershare Trust Company, N. A.

What happens if I do not vote on an issue when returning my proxy?

You should specify your choice on each issue on the proxy or voting instruction card. If no specific instructions are given, proxies that are signed and returned will be voted as the Board of Directors recommends: "For" the election of all Director nominees, "For" the proposal on the annual election of Directors, "For" approval of the Company's executive compensation policies, "For" a vote on executive compensation to be held every three years, and "For" the ratification of Ernst & Young LLP as independent auditors.

What should I do if I want to attend the Annual Meeting?

Please bring photo identification and, if your stock is held by a broker or bank, evidence of your ownership of Common Stock as of March 28, 2011. The notice of Internet availability of proxy materials you received in the mail, a letter from your broker or bank or a photocopy of a current account statement will be accepted as evidence of ownership.

How do I contact the Board?

The Company has a process for shareholders and all other interested parties to send communications to the Board through the Presiding Director. You may contact the Presiding Director of the Board through the Investor Relations section of the Company's website at www.principal.com, or by writing to:

Presiding Director, c/o Joyce N. Hoffman, Senior Vice President and Corporate Secretary
Principal Financial Group, Inc.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

Des Moines, Iowa 50392-0300

All emails and letters received will be categorized and processed by the Corporate Secretary and then forwarded to the Company's Presiding Director.

Table of Contents

How do I submit a shareholder proposal for the 2012 Annual Meeting?

The Company's next annual meeting is scheduled for May 22, 2012. Proposals should be addressed to the Corporate Secretary. If a shareholder wishes to have a proposal considered for inclusion in next year's proxy statement, it must be received by December 8, 2011. In addition, the Company's By-Laws provide that any shareholder wishing to propose any other business at the annual meeting must give the Company written notice by February 17, 2012, and no earlier than January 18, 2012. That notice must provide certain other information as described in the Company's By-Laws, which are on the Company's website, *www.principal.com*.

What is "householding?"

We have adopted a procedure known as "householding," in which we send shareholders of record at the same address only one copy of the proxy materials unless we receive instructions from a shareholder requesting receipt of separate copies of these materials.

If you share the same address as multiple shareholders and would like the Company to send only one copy of future proxy materials, please contact Computershare Trust Company, N.A. at 866-781-1368, or write to it at P.O. Box 43078, Providence, RI 02940-3078.

Where can I receive more information about the Company?

We file reports and other information with the SEC. This information is available on the Company's website at *www.principal.com* and at the Internet site maintained by the SEC at *www.sec.gov*. You may also contact the SEC at 1-800-SEC-0330. The Board committee charters, the Company's corporate governance guidelines, and the Corporate Code of Ethics are also available on the Company's website, *www.principal.com*.

The Board urges you to exercise your right to vote by using the Internet or telephone or by returning the proxy or voting instruction card.

Her senior management experience includes President and Chief Executive Officer of Transcell Technologies, Inc., President of Centocor Pharmaceuticals, member of the Parke-Davis Executive Committee, and Director of Worldwide Strategic Planning for Warner-Lambert. In addition to her leadership and financial management in pharmaceutical and biotechnology firms, she has executive-level experience in multinational companies, international operations, economics, strategic planning, marketing, product development, technology, executive compensation and mergers and acquisitions.

She received a bachelor's degree with honors in mathematics and economics from the University of Nottingham in England.

Ms. Tallett is a director of three other public companies: Coventry Health Care, Inc., IntegraMed America, Inc. and Meredith Corporation. She was also a director of the following other public companies at times during the past five years: Varian, Inc., Varian Semiconductor Equipment Associates, Inc. and Immunicon, Inc.

Class III Directors Continuing in Office Whose Terms Expire in 2013

Michael T. Dan, age 60, has been a Director of the Company and Principal Life since 2006. He has been Chair of the Human Resources Committee since February 2010, and a member of the Committee since 2006. He was Chair of the Strategic Issues Committee in 2010.

Mr. Dan has been Chairman, President and Chief Executive Officer of The Brink's Company, a global provider of secure transportation and cash management services, since 1999. The Brink's Company has 50,000 employees worldwide and operations in over 50 countries, with \$3.1 billion in revenues in 2010. Prior to joining Brinks, Mr. Dan served as president of Armored Vehicle Builder, Inc. In addition to leading and being responsible for financial management of Brinks, Mr. Dan has executive-level experience in international operations, risk management, strategic planning, brand management, executive compensation, customer service, marketing and mergers and acquisitions. He is the Chairman of the Business Roundtable's Partnership for Disaster Response. The Business Roundtable, an association of chief executive officers of leading U.S. companies, works through this partnership with companies, relief agencies, the federal government and others to strengthen how the business community responds to disasters.

He studied business and accounting at Morton College in Cicero, Illinois, and completed the advanced management program at Harvard Business School.

PROPOSAL TWO ANNUAL ELECTION OF DIRECTORS

The Board of Directors is recommending that shareholders vote "For" the proposal to implement the annual election of Directors, on a phased-in basis, as set forth below.

The governing document that describes how the Company is organized under Delaware law is its Certificate of Incorporation. The Certificate of Incorporation requires that the Directors be divided into three classes of approximately equal size, and that the classes of Directors be elected to serve staggered three-year terms. This is commonly referred to as a "classified board" structure, with only a portion of the full board standing for election each year. The four Directors in Class I are standing for election at the Annual Meeting with terms expiring in 2014. The Directors in Class II will stand for election in 2012 with terms expiring in 2015, and the Directors in Class III will stand for election in 2013 with terms expiring in 2016.

The Company adopted a classified board structure as part of our Demutualization and initial public offering in 2001. The Board of Directors recognized the advantages of a classified board structure in promoting continuity and stability in board membership. This continuity and stability allows the Company to pursue its strategy and the Board to focus on long term growth for the benefit of all shareholders. If only a portion of the Directors can be replaced in a single year's election, the Board's negotiating leverage is increased when dealing with a potential acquirer of the Company that may have a short term focus.

The Nominating and Governance Committee and the Board regularly look at the Company's corporate governance practices for continued effectiveness in the current environment. The Committee and the Board undertook a careful review of the classified board structure, including the often cited disadvantage that it does not afford shareholders the opportunity to evaluate and hold directors accountable on an annual basis. The Nominating and Governance Committee and the Board recognized that there are both advantages and disadvantages to a classified board structure, that corporate governance trends indicate companies are moving away from classified boards and that the Principal Financial Group is committed to good corporate governance. Thus, the Board determined to recommend to the shareholders that this proposal on the annual election of Directors be approved and adopted.

The Board of Directors recommends the amendments to the Company's Certificate of Incorporation set forth in Appendix A, to fully implement the annual election of Directors by 2016. If these amendments are approved at the Annual Meeting, the declassified Board structure would be phased-in as follows: The Class I Directors elected at this Annual Meeting, the Class II Directors elected at the 2012 Annual Meeting and the Class III Directors elected at the 2013 Annual Meeting will all be elected for their respective three-year terms. As these three-year terms expire, Directors will be elected for one-year terms. Thus, beginning in 2014 approximately one-third of the Directors will be elected for a one-year term, in 2015 approximately two-thirds of the Directors will be elected for a one-year term and in 2016 and thereafter all Directors will be elected for a one-year term. In addition, in accordance with Delaware law and once the annual election of Directors is fully implemented, Directors may be removed by the vote of shareholders with or without cause.

Delaware law provides that the shareholders must approve this recommendation of the Board of Directors to amend the Certificate of Incorporation before the amendments and these changes can be effective. The Certificate of Incorporation requires that three-fourths of the outstanding shares entitled to vote on this proposal approve the proposal for it to be adopted. If approved by the shareholders, the amendments to the Certificate of Incorporation will be effective upon filing with the Delaware Secretary of State, the Board of Directors will make conforming changes to the Company's By-Laws and the annual election of Directors will be implemented on a phased-in basis as explained in this proposal.

RESOLVED, that the Company's Certificate of Incorporation be amended as set forth in Appendix A.

The Board of Directors recommends that shareholders vote "For" this resolution.

CORPORATE GOVERNANCE

The business of the Company is managed under the direction of the Board. The Board selects and oversees management and provides advice and counsel to the Chief Executive Officer ("CEO"). The Board reviews and discusses the strategic direction of the Company and monitors the Company's performance against goals the Board and management establish.

Board Leadership Structure

The current Board leadership structure is a combined position of Chairman of the Board and Chief Executive Officer, Larry D. Zimpleman, and a Presiding Director, Elizabeth E. Tallett. Betsy J. Bernard is the Alternate Presiding Director. On May 19, 2009, the Board elected Mr. Zimpleman Chairman of the Board in addition to his position as CEO. The Presiding Director is selected by the other independent Directors, and the position does not automatically rotate. The Nominating and Governance Committee reviews the current assignments as Presiding Director and Alternate Presiding Director annually.

The Board regularly reviews its leadership model and has a flexible approach on whether the positions of CEO and Chairman should be split or combined. The decision is based on the tenure and experience of the CEO along with the broader economic and operating environment of the Company.

The Presiding Director and the Chairman jointly make the decisions on the Board's agenda for each regular quarterly meeting. The Presiding Director and Chairman share the duties of presiding at each Board meeting. The Chairman presides when the Board is meeting as a full Board. The Presiding Director presides in the absence of the Chairman and also presides during each executive session of independent Directors ("Executive Sessions"), which generally occur both at the start and end of each regular Board meeting. Executive Sessions were held in conjunction with each regularly scheduled Board meeting during 2010, and all Executive Sessions were led by the Presiding Director.

The Presiding Director plans the content and time devoted to the Executive Sessions and gives input and feedback to the CEO based on Executive Session discussions. The Presiding Director is responsible to take action and call a special Board meeting if the Chairman and CEO is unable to act for any reason.

In the experience of the Company, this more flexible and shared approach towards Board leadership is preferable to a more proscriptive approach that either requires a combined Chairman/CEO or a split of the positions of Chairman and CEO.

Role of the Board of Directors in Risk Oversight

The Company's Board of Directors believes that risk oversight, like strategy, is a responsibility of the full Board. The Board weighs risk versus return in the context of the organization's key risks and risk philosophy when approving corporate strategy and major business decisions, setting executive compensation, and monitoring the Company's progress. The Board uses its committees in carrying out certain of its risk oversight responsibilities, as discussed below. These committees make reports to the full Board at each regular Board meeting. This regular reporting is part of the Board's leadership and governance structure and promotes coordination of the risk oversight function at the level of the full Board. Like all financial services companies, we are exposed to a wide variety of financial, accounting, operational and other business and industry risks and these are regularly reviewed with the Board and its committees. The Company's extensive risk management framework, which includes the Board and its committees, is discussed in more detail on pages 16 - 17 of the Company's annual report on Form 10-K.

The Company has had a Chief Risk Officer since 2005. The Chief Risk Officer works with other members of management including the Chief Executive Officer, Chief Financial Officer, Chief Investment Officer, Chief Information Officer, General Counsel, Controller, Chief Compliance Officer, internal auditor and business unit Presidents in identifying, assessing and managing financial, operational, and other business and industry risks through an entity-wide Enterprise Risk Management ("ERM") program. These officers make periodic reports to and have discussions with the Board and its committees on various aspects of the ERM program, specific risk topics, and how strategy and operational initiatives integrate with the Company's risk objectives. These reports allow the Board to get an increased understanding of the material risks the organization faces and whether management is responding appropriately to potential risks, how certain risks relate to other risks, and the level of risk in proposed actions presented for Board approval.

Table of Contents

Because we are a financial services company with insurance and risk-related businesses supported by investment portfolios of diverse assets, capital adequacy is an important focus of ERM. At each regular Board meeting, management reports on sources and uses of capital, satisfaction of regulatory and rating agency capital requirements, capital management and liquidity. The Chief Investment Officer reports quarterly to the Board on management efforts to position the Company's investment policy to appropriately reflect risk and reward and on risk in the investment portfolio, including credit risk.

The Chief Risk Officer submits a quarterly, in-depth report to the Board on a current risk management topic of interest and annually makes a presentation to the Board on the Company's ERM program. The annual presentation and discussion with the Board includes topics such as risk management philosophy; risk identification; appetite for risk; assessment and mitigation throughout the year; an inventory of the Company's risks related to each of the categories of credit, market, product/pricing and business/operation and where within the Company these risks are managed; risk modeling and capital adequacy analysis using various metrics; relative impact on the organization of various financial risks; and external perspectives on the organization's risk management.

The Audit Committee of the Board discusses policies with respect to risk assessment and risk management, including the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures. The Chief Risk Officer attends Audit Committee meetings and regularly meets along with selected other members of management in executive session with the Audit Committee members.

The Human Resources Committee believes the Company's executive compensation program should be aligned with our strategic plan and compensate executives for an appropriate balance of reward and risk. The Committee reviews all incentive compensation arrangements to confirm that they do not encourage inappropriate risk-taking and adopts policies to limit or mitigate risk. The Committee meets regularly with the Chief Risk Officer and the Committee's independent compensation consultant to evaluate the design and risk implications of the Company's executive compensation program.

In selecting candidates for the Board, the Nominating and Governance Committee takes into account whether the Board as a whole possesses the expertise needed to monitor the risks facing the Company.

In addition to its primary purpose of assisting the Board with respect to the organization's financial, investment and capital management policies, the Board's Finance Committee assists the Board in its oversight of particular risks. The Committee also reviews and provides guidance to the Board on the organization's capital adequacy based on the organization's risk exposures.

Majority Voting

Directors are elected by the majority of votes cast in uncontested Director elections. If an incumbent Director is not elected, and no successor is elected, the Board of Directors will decide whether to accept the resignation that was tendered by the nominee. The Board's decision and reasons for its decision will be publicly disclosed within 90 days of certification of the election results.

Director Independence

The Board determines at least annually whether each Director is independent, and uses the independence standards it has adopted to assist in its determinations. These independence standards include the New York Stock Exchange requirements for independence and may be viewed in their entirety on the Company's website, www.principal.com. In its review of Director independence, the Board considers all commercial, banking, consulting, legal, accounting, charitable and familial relationships and other direct and indirect relationships (as a partner, shareholder or officer of an organization) a Director may have with the Company and its subsidiaries. The Board most recently made these determinations for each Director in February 2011, based on:

A review of relationships and transactions between Directors, their immediate family members or other organizations and the Company, its subsidiaries or executive officers;

Questionnaires completed by each current Director regarding any relationships or transactions that could affect the Director's independence;

The Company's review of its purchasing, investment and customer records; and

Recommendations of the Nominating and Governance Committee.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

Table of Contents

The Board affirmatively determined that the following Directors are independent: Ms. Bernard, Ms. Carter-Miller, Dr. Costley, Mr. Dan, Mr. Ferro, Dr. Gelatt, Ms. Helton, Mr. Kerr (who served on the Board until February 24, 2010), Mr. Keyser, Mr. Mathrani and Ms. Tallett. The Board also affirmatively determined that all current members (and Directors who were members in 2010) of the Audit, Human Resources and Nominating and Governance Committees are independent.

In applying the Board's independence standards referred to above, the Nominating and Governance Committee and the Board considered the following relationships and transactions which it considers to be categorically immaterial to the determination of a particular Director's independence. The Board considers these to be categorically immaterial due to the nature of the transaction and the amount involved (in each of the transactions described below, the annual payments made or received by the Company did not exceed the greater of \$1 million or 2 percent of the recipient's gross revenues):

Ms. Bernard, Ms. Carter-Miller, Dr. Gelatt, Ms. Helton, Mr. Kerr, Mr. Keyser and Ms. Tallett are customers of the Company's subsidiaries. Directors who were in office before the Demutualization were required to personally own an insurance policy or annuity contract issued by Principal Life. All insurance policies, annuity contracts, agreements for trust services and bank accounts held by Directors are on the same terms and conditions offered to the public generally.

Brink's Company (of which Mr. Dan is CEO) has provided armored car transportation services to one of Principal Life's satellite offices in arms-length, ordinary course business transactions that have not exceeded \$10,000 in each of the last three years. The Gelatt family companies (of which Dr. Gelatt is the CEO) own insurance products issued by Principal Life.

Mr. Keyser, Mr. Kerr and Ms. Tallett were directors of for-profit entities with which the Company's subsidiaries have conducted arms-length, ordinary course business transactions.

The Nominating and Governance Committee and the Board also considered one relationship not specifically addressed as categorically immaterial under the independence standards referred to above:

Dr. Costley's son-in-law is a partner in a law firm that has 140 attorneys (93 of whom are partners) in four offices in different cities. A lawyer in a different office than Dr. Costley's son-in-law represents the Company in litigation involving three local insurance claim and pension plan legal matters, and in 2010 we paid \$28,316 for this representation. The law firm was retained in the normal course of the Company's operations, without knowledge that Dr. Costley's son-in-law was a member of the firm, and Dr. Costley's son-in-law has no personal connection to this legal matter. The Company is regularly involved in litigation both as a plaintiff and as a defendant and retains many law firms throughout the world. The Nominating and Governance Committee and the Board concluded that this relationship is immaterial as to the Company, the law firm and Dr. Costley, and it does not impair Dr. Costley's independence.

Certain Relationships and Related Transactions

Nippon Life Insurance Company ("Nippon Life"), which held approximately 5.65% of the Company's Common Stock at the end of 2010, is the parent company of Nippon Life Insurance Company of America ("NLICA"). Nippon Life, NLICA and Principal Life have had an ongoing business relationship for more than 20 years. Principal Life assisted Nippon Life in the start up activities of NLICA, which began business in 1991. Currently, Nippon Life and NLICA are customers of Principal Life and purchase retirement and financial services offered by Principal Life and its subsidiaries. NLICA paid Principal Life approximately \$9.8 million for third party administration services related to its group welfare benefit plans and approximately \$6,700 for wellness services during 2010. Nippon Life and NLICA also paid Principal Global Investors, LLC and its subsidiaries approximately \$926,000 for investment services in 2010, and paid Principal Life approximately \$185,000 for service related to its retirement plans in 2010. The Company owns approximately three percent of the common stock of NLICA.

The Company has a policy for approval or ratification of transactions with Related Parties. The Nominating and Governance Committee or Chair of the Committee must approve all such transactions not deemed "pre-approved" under the Company's Related Party Transaction Policy. At each quarterly meeting, the Nominating and Governance Committee reviews a report of any non-material transactions with Directors or the firms of which they are an executive officer or director, and any other Related Party transactions, including those involving executive officers and more than five percent shareholders. If appropriate, the Committee ratifies these transactions. Transactions involving employment of a relative of an executive officer or Director must be approved

Table of Contents

by the Human Resources Committee. The Company's Related Party Transaction Policy may be found at www.principal.com.

Board Meetings

The Board held eight meetings in 2010, and each of the Directors then in office attended more than 75 percent in the aggregate of the meetings of the Board and the committees of which the Director was a member. The annual meeting of shareholders is scheduled on the same day as the regular meeting of the Board in the second quarter to enable the Directors to attend. All of the Directors attended the 2010 Annual Meeting.

Corporate Code of Ethics

Each Director and officer of the Company has certified compliance with the Corporate Code of Ethics.

Board Committees

Only independent Directors may serve on the Audit, Human Resources and Nominating and Governance Committees. Committee members and committee chairs are recommended to the Board by the Nominating and Governance Committee. The Committees review their charters and evaluate their performance annually. Charters of the Audit, Finance, Human Resources and Nominating and Governance Committees are available on the Company's website, www.principal.com.

The Strategic Issues Committee has the primary responsibility for planning the Board of Directors' annual strategic retreat.

Audit Committee

The Audit Committee is responsible for:

appointment, termination, compensation and oversight of the Company's independent auditor;

Table of Contents

reviewing and reporting to the Board on the audit and non-audit activities of the independent auditor;

approving all audit engagement fees and pre-approval of any compensation of the independent auditor for non-audit engagements, consistent with the Company's Policy on Auditor Independence;

reviewing audit plans and results;

reviewing and reporting to the Board on accounting policies and legal and regulatory compliance; and

reviewing the Company's policies with respect to risk assessment and risk management.

The Committee meets at least quarterly with:

financial management,

the internal auditor,

the independent auditor,

the Chief Financial Officer,

The Chief Risk Officer and

the General Counsel.

The Board has determined that all members of the Audit Committee are financially literate, and that Ms. Helton and Mr. Mathrani are "financial experts" as defined by the Sarbanes-Oxley Act.

Audit Committee Report

The Audit Committee oversees the Company's financial reporting process on behalf of the Board. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed with management the audited financial statements for the fiscal year ended December 31, 2010, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The Committee has discussed with Ernst & Young LLP, the Company's independent auditor, the matters required to be discussed by Statement on Auditing Standards ("SAS") 114, *The Auditor's Communication with those Charged with Governance*, as adopted by the Public Company Accounting Oversight Board (United States) ("PCAOB") in Rule 3200T. SAS 114 requires the independent auditor to communicate (i) the auditor's responsibility under standards of the PCAOB; (ii) an overview of the planned scope and timing of the audit; and (iii) significant findings from the audit, including the qualitative aspects of the entity's significant accounting practices; significant difficulties, if any, encountered in performing the audit; uncorrected misstatements identified during the audit, other than those the auditor believes are trivial, if any; any disagreements with management; and any other issues arising from the audit that are significant or relevant to those charged with governance.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

The Committee has received from Ernst & Young LLP the written disclosures and letter required by applicable requirements of the PCAOB regarding the independent auditor's communications with the Committee concerning independence. The Committee has discussed with Ernst & Young LLP its independence and Ernst & Young LLP has confirmed in its letter that, in its professional judgment, it is independent of the Company within the meaning of the federal securities laws.

The Committee discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board (and the Board has approved) that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, for filing with the SEC. The Committee has also approved, subject to shareholder ratification, the appointment of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending December 31, 2011.

As specified in the Audit Committee charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with generally

accepted accounting principles. That is the responsibility of the Company's independent auditor and management. In giving our recommendation to the Board, the Committee has relied on (i) management's representation that such financial statements have been prepared with integrity and objectivity and in conformity with generally accepted accounting principles, and (ii) the report of the Company's independent auditor with respect to such financial statements.

Nominating and Governance Committee

The Nominating and Governance Committee recommends to the Board:

Director candidates, Board committee assignments and service as Presiding Director and Alternate Presiding Director.

The Committee also reviews and reports to the Board on:

Director independence;

performance of individual Directors;

process for the annual self-evaluations of the Board and its committees;

content of the Company's Corporate Code of Ethics;

Director compensation; and

the Company's Corporate Governance Guidelines.

Director Qualifications, Process for Identifying and Evaluating Director Candidates and Diversity of the Board

The Committee regularly assesses the appropriate mix of skills and characteristics for Board members in light of the current make-up of the Board and the needs of the Company. Periodically, the Committee uses an outside consultant to assist in the strategic process of evaluating the expertise, backgrounds and competencies of the Directors as they relate to the current strategic direction, initiatives and risk factors of the Company. The results of these current needs assessments provide direction in searches for specific Board candidates, which are normally undertaken by the Committee using director search firms.

Individual performance reviews are held for Directors who are eligible for re-nomination in connection with the next Annual Meeting.⁽¹⁾ The process involves reviewing the Director's current contributions to the Board and his or her present occupation and other commitments. For several years, the Committee has engaged an outside consulting firm to perform individual Director evaluations by interviewing the other members of the Board and then assessing the Director's current contributions in light of the needs of the Board.

(1) Dennis H. Ferro joined the Board on November 1, 2010 and is standing for election at the Annual Meeting. As a new Director, Mr. Ferro was not included in this process.

In evaluating both new Board candidates and Directors who are eligible for renomination, the Committee assesses personal and professional ethics, integrity and values, and expertise that is useful to the Company and complementary to the background and experience of other Directors. It is important that the Board includes Directors who are CEOs or retired CEOs and Directors who have financial management or accounting experience. The following competencies are also sought: strategic orientation, results-orientation and comprehensive decision-making. The Board has a mandatory retirement policy that provides that a Director's term shall not extend beyond the annual meeting following the Director's 72nd birthday.

The Committee addresses the qualifications of current Directors and how they relate to the effectiveness of the Board and its committees through the processes described above. Many important attributes apply to all members of the Board, including: backgrounds and experiences

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

which support the Company's core value of integrity; background, training or experience which is useful to the Company considering its current strategy, initiatives and risk factors; and demonstrated willingness to prepare for, attend and participate effectively with the other Directors and management in Board and Committee meetings. Importantly, several Directors have led businesses or major business divisions as CEO or President (Ms. Bernard, Dr. Costley, Mr. Dan, Mr. Ferro, Dr. Gelatt, Mr. Keyser and Ms. Tallett). In addition, the following chart shows areas central to the Company's

strategy, initiatives and operations for which Directors have specific training and executive level experience that assists the Board and its committees in carrying out their responsibilities.

The Board's Corporate Governance Guidelines state that diversity of the Board as a whole is a valued objective. Assessing Board diversity in terms of race, gender and national origin, and with regard to various backgrounds, experiences and areas of expertise, is part of the Nominating and Governance Committee's continual review of the Board's current and future needs. The Board's recognition of diversity as an important factor in Board effectiveness is apparent through observation of past and current Board selections and is not set forth as a formal policy. It is a reflection of the Company's culture and commitment to diversity, for which the Company has received significant recognition from Catalyst, the National Association of Female Executives, *LATINA Style* magazine and others. The composition and effectiveness of the Board has benefitted over time from specific candidate searches to identify nominees who possessed the skills, backgrounds and qualifications needed by the Board and who would also increase the Board's diversity.

The Committee will consider shareholder recommendations for Directors sent to the Nominating and Governance Committee, c/o the Corporate Secretary. Director candidates nominated by shareholders are evaluated in the same manner as Director candidates identified by the Committee, management and search firms.

Finance Committee

The Finance Committee has the primary purpose of assisting the Board with respect to the organization's financial, investment and capital management policies. The Finance Committee is responsible for:

reviewing the capital structure and capital plan of the organization;

reviewing and providing guidance to the Board on significant financial transactions; financial policies; credit ratings; matters of corporate finance including issuance of debt and equity; shareholder dividends; and proposed mergers, acquisitions and divestitures;

reviewing and providing guidance to the Human Resources Committee and the Board on financial goals for the upcoming year;

overseeing the organization's investment policies, strategies and programs, and reviewing the policies and procedures governing the use of financial instruments including derivatives; and

assisting the Board in overseeing and reviewing the organization's enterprise risk management framework, including the significant policies, procedures and practices employed to manage liquidity risk, credit risk, market risk, operational risk and

insurance risk.

Human Resources Committee

The Human Resources Committee is responsible for:

evaluating the performance of the CEO and determining his compensation in light of goals and objectives approved by the Committee;

reviewing and approving compensation for all other officers of the Company and Principal Life at the level of Senior Vice President and above. We will refer to these officers as "Executives" throughout the remainder of this discussion;

Table of Contents

reviewing and approving any employment, severance or change of control agreements and perquisites for Executives;

overseeing Executive development and succession planning;

acting on management's recommendations for salary and employee compensation policies for all other employees;

administering the Company's Annual Incentive Plan, Incentive Pay Plan ("PrinPay Plan") and Stock Incentive Plan, and any other compensation plans that provide compensation to Executives;

acting on management's recommendations that require Director action for all employee pension and welfare benefit plans; and

reviewing the Company's compensation programs to confirm that these programs encourage management to take appropriate risks on an individual risk basis and in the aggregate on a Company wide basis, and to discourage inappropriate risk and behaviors that are inconsistent with the Company's business plan and policies.

Interaction with Compensation Consultant and Management

The Committee has the sole authority to retain, terminate and authorize the compensation payable to executive compensation consulting firms to advise the Committee. The Committee engaged Frederic W. Cook & Co., Inc. ("Cook") as its compensation consultant to advise the Committee on executive compensation program design and the amounts the Company should pay its Executives. Cook reports directly to the Committee regarding Executive compensation. As requested by the Committee Chair, a representative from Cook attends some meetings of the Committee, both with and without members of management present. The Nominating and Governance Committee also uses Cook to advise it on compensation for non-employee Directors. Cook does not and would not be allowed to, perform services for management. It receives no compensation from the Company other than for its work in advising these Board committees and has no other relationships with the Company. No conflicts of interest have arisen in connection with Cook's work for the Nominating and Governance or Human Resources Committees.

Every other year, Cook performs a comprehensive review of the Company's Executive compensation program to assist the Committee in:

determining whether the Company's Executive compensation program is appropriately designed to support the Company's strategic and human resources objectives;

determining whether the target Executive compensation levels are competitive with the market and whether actual compensation levels are reasonable given the Company's performance relative to peers;

designing changes to Executive compensation plans or programs, as appropriate; and

setting pay opportunities, benefits and perquisites for the next year.

During the years in which Cook does not conduct a compensation study, the Committee bases its compensation decisions, in part on survey data provided by the Human Resources Department staff and additional information from Cook as the Committee requests. Cook has reviewed the processes by which management develops the competitive data and believes that the methodology employed by management is appropriate.

Performance Goal Setting Process

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

The Board holds a strategic planning session with management in September of each year to review the Company's long term strategy and discuss how longer-term objectives and near-term priorities will be achieved and balanced against one another. This is an important foundation for the annual performance goal-setting process.

In November the CEO, Chief Financial Officer ("CFO"), Chief Risk Officer and Division Presidents recommend preliminary Company and business unit financial goals and strategic initiatives for the next year and present information to the Board of Directors on how the goals and initiatives were developed and how difficult they will be to achieve. The Finance Committee, after reviewing underlying assumptions, key drivers of financial performance, trends and business opportunities, provides guidance to the Board and Human Resources Committee on the appropriateness of management's preliminary financial goals, including the "stretch" component in the goals. The Human Resources Committee reviews the preliminary goals, including the individual goals the CEO

Table of Contents

proposes for himself, and provides feedback on how these goals should be revised. Based on these discussions, employees throughout the organization, including all Executives, develop individual performance goals with their leaders that support achievement of the goals of the Company and its business units. The final goals for the Company, the CEO and the other individual Executives are determined by the Human Resources Committee after the Finance Committee and the Board of Directors have provided further review and guidance based on year-end financial results.

Executive Committee

The Executive Committee generally acts only on matters specifically delegated to it by the Board. All actions of the Executive Committee must be approved by its independent members. The Executive Committee has all the authority of the Board in the management of the Company's business between Board meetings, except that it has no authority with respect to matters for which the Board has specifically directed otherwise or for certain matters set forth by law and in the Company's By-Laws. The Committee did not meet in 2010.

DIRECTORS' COMPENSATION

Directors serve on the Boards of the Company, Principal Life and Principal Financial Services, Inc. Directors who are also employees do not receive any compensation for their service as members of the Board. The Company provides competitive compensation to attract and retain high-quality Directors. The Company's Director compensation philosophy is to have a compensation program that encourages the Board to be independent and objective, to appropriately challenge the management team and to protect shareholder value, and which provides a reasonable amount of compensation for the time and effort expended by Directors. A substantial proportion of Director compensation is provided in the form of equity to help align Directors' interests with the interests of shareholders.

The Director compensation program is generally reviewed annually. The Nominating and Governance Committee uses Cook to advise on Director compensation. During its reviews, Cook evaluates the design and competitiveness of the Director compensation program. It also reviews corporate governance best practices and trends in director compensation and recommends changes to our program, if appropriate. The competitive analysis of Director compensation is conducted using the same Peer Group as is used for the competitive analysis of Executive compensation. The Human Resources Committee establishes the Peer Group and makes adjustments to it from time to time (see page 26 in the Compensation Discussion and Analysis). As it does for Executive compensation, the Company believes targeting Director compensation at approximately the median of the Peer Group is appropriate.

Cook conducted a review in May of 2010 and reported to the Nominating and Governance Committee that our Director compensation program is well-structured and is aligned with both best practices and competitive practices. Cook also reported that the annualized value of the total program (cash and equity) was currently between the 25th percentile and median of the Peer Group. On the Committee's recommendation, the Board restored the 10% cash compensation pay reduction that was instituted in March of 2009, positioning our total program going forward at the Peer Group median. Also effective on May 17, 2010, an annual retainer of \$18,000 was established for the chair of the Finance Committee, a new Board Committee as of January 1, 2010. There were no other changes to the Director compensation program in 2010.

Restricted Stock Unit Grants

Non-employee Directors receive equity compensation in the form of an annual grant of \$95,000 in restricted stock units ("RSUs"). RSUs are granted at the annual meeting, vest in full at the next annual meeting, and are required to be deferred until at least the date the Director leaves the Board. At payout, the RSUs are converted to shares of Common Stock. Dividend equivalents accumulate in additional RSUs, which vest and are converted to Common Stock at the same time and to the same as extent as the underlying RSU.

Grants are made pursuant to the Principal Financial Group, Inc. 2005 Directors Stock Plan. Directors who join the Board at times other than the annual meeting may receive a grant of RSUs at the discretion of the Nominating and Governance Committee, which may be a portion or the entire amount of the annual grant.

Deferral of Cash Compensation

Directors may defer the receipt of their cash retainers and attendance fees under the Deferred Compensation Plan for Non-Employee Directors of Principal Financial Group, Inc. This Plan provides four investment options: phantom units tied to the Company's Common Stock, the Principal LargeCap S&P 500 Index Inst Fund, the Principal Real Estate Securities Inst Fund and the Principal Bond & Mortgage Securities Inst Fund. All of these funds are available to participants in Principal Life's Excess Plan, described on page 43. The returns realized on these funds during 2010 are listed in the table under the heading "Qualified 401(k) Plan and Excess Plan," on page 44.

Perquisites and Reimbursement of Expenses

Principal Life has a Directors' Charitable Matching Gift Program and it matches the charitable gifts up to an annual aggregate amount for each non-employee Director of \$6,000 per calendar year. Directors' contributions to the United Way are also matched up to \$10,000 per year. These contributions are available during a Director's term and for three years thereafter. Directors who make gifts that are matched by Principal Life receive no financial benefit from the contribution because Principal Life receives the charitable contribution tax deductions for the matching gifts. In lieu of the Directors' Charitable Matching Gift Program, Mr. Griswell participated in the Principal Life Matching Gifts Program as a retired employee of the Company.

Directors are reimbursed for travel and other necessary business expenses incurred in the performance of their services for the Company. They are also covered under the Company's Business Travel Accident Insurance Policy and Directors' and Officers' insurance coverage.

Directors' Stock Ownership Guidelines

In August of 2006, the Board adopted a guideline that encourages Directors to accumulate a minimum level of Company stock ownership equal to five times their annual Board cash retainer by the later of August 2011, or five years after joining the Board. This program is intended to ensure that Directors accumulate a meaningful amount of stock, which fosters commonality of interest with shareholders. Once this guideline is met, Directors will not need to make additional share purchases if the guideline is no longer met due to a reduction in stock price, as long as the Director's ownership level is not reduced as a result of share sales. All current Directors (except Mr. Ferro, who joined the Board on November 1, 2010) have met the goal of owning an interest in Company stock valued at five times the annual cash retainer for Board members. In addition, Directors must hold RSUs awarded through the Directors' compensation program at least until the Director's retirement or termination of service from the Board.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This section of the Proxy Statement explains the Company's compensation goals and how and why compensation decisions were made for the Company's "Named Executive Officers:"

Larry D. Zimpleman, Chairman, President and CEO

Terrance J. Lillis, Senior Vice President and CFO

Daniel J. Houston, President Retirement, Insurance and Financial Services

James P. McCaughan, President Global Asset Management

Norman R Sorensen, Chairman Principal International

Executive Summary

The Principal Financial Group's products and services include retirement solutions, life insurance, wellness programs and investment and banking products. The Company's Executive compensation program is designed to reward Executives who contribute to the achievement of the Company's business objectives and to attract, retain and motivate talented Executives to perform at the highest level and contribute significantly to the Company's success. The program is designed to tie the delivery of Executive compensation to the achievement of the Company's long and short term financial and strategic goals and align the interests of Executives and shareholders by having a significant portion of the Executives' compensation in equity.

In 2010, the Company:

Reported total Company operating earnings of \$845 million, a 15% increase over 2009;

Full Service Accumulation earnings were \$301 million, up 19% over 2009;

Mutual fund earnings of \$40 million, up 70% over 2009;

Record individual annuity operating earnings of \$119 million, up 18% over 2009;

Record earnings from Principal International of \$137 million, up 15% over 2009 despite the negative impact of the reduced ownership in BrasilPrev, our Brazilian joint venture, as of June 2010; and

Principal Global Investors reported operating earnings of \$59 million, up 53% over 2009.

The Company also had strong total shareholder performance relative to the peer group used for compensation comparisons, with a total shareholder return of 37.7% in 2010, compared to an average total shareholder return of 17.6% for companies in the peer group:

Total Shareholder Return

The Company's net income was positive during the 2007 - 2010 time period, which was not true for all of the companies in the peer group.

The objectives of our Executive compensation programs, which have not changed for several years, include paying for performance, aligning our Named Executive Officer's interests with those of our stockholders, and attracting and retaining qualified Executives. Our Executive compensation program is also designed to support important corporate governance principles and established best practices. For example:

The Human Resources Committee uses an independent compensation consultant to provide input on program design and implementation.

The Human Resources Committee regularly reviews an analysis of the Company's incentive compensation plans to ensure they are designed to encourage behaviors that create and maintain shareholder value and do not encourage excessive risk.

Our Executive compensation is, in large measure, highly variable and directly linked to our short term and long term financial and strategic goals and the performance of the Company's stock price over time.

Executives receive a significant portion of their total compensation opportunity in the form of equity based long term incentives and Executives are required to own stock in the Company to ensure that their interests are aligned with the shareholders' interests and long term performance of the Company.

Starting in 2010, Named Executive Officers will receive one-half of their Adjusted Target Award Opportunity in stock options and one-half in performance based RSUs ("PSUs") that vest based on both continued service and the achievement of certain financial objectives over a three-year period (with each three-year period treated as a "Performance Cycle"). The weighting is not based on a specific formula or algorithm, but rather is intended to create a balance, based on the Committee's judgment, which may change from time to time, between the achievement of specific operating performance objectives and changes in shareholder value. Realized compensation may vary considerably from the Adjusted Target Award Opportunity based on the Company's performance and changes in share price that occur after the grant.

For the 2010 PSUs, the performance requirement is to achieve pre-determined average ROE or cumulative operating income ("OI") targets. For this purpose, the ROE criteria require attaining a simple average ROE of 5% and the OI Objective requires attaining cumulative OI of \$1 billion for the three calendar years during the performance period. If neither the ROE nor the OI objective is met, no performance based PSUs will be earned or paid out. If either the ROE or OI objectives is met or exceeded, the number of units earned is determined using performance scales based on average ROE and average Book Value per Share ("BV/Share") over the performance period.

There was no payout for the 2007 and 2008 performance share awards because the performance measures were not met.

The Company prohibits all employees, including Executive Officers, from purchasing any Company securities on margin (except for the exercise of stock options), engaging in short sales or trading in any put or call options

The Company has a compensation recovery policy to recover incentive compensation paid to Executive Officers if the amount of the compensation was based on achievement of financial results that were subsequently restated, if, in the opinion of the Committee, the Executive Officer engaged in fraud or intentional misconduct that caused the restatement of the Company's financial statements, and the amount of the Executive Officer's incentive compensation or equity award would have been lower had the financial results been properly reported.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

In 2010, we entered into new change of control agreements with Executives, with reduced benefits, including elimination of excise tax gross ups.

We do not provide perquisites to Executives that are not offered to all employees, with the exception of one physical examination per year, and we do not provide income tax gross-ups on perquisites.

Our programs are designed to be financially efficient, from tax, accounting, cash flow and share dilution perspectives. We make efforts to ensure tax deductibility of all compensation.

2010 Executive Compensation Decisions

The Committee made calendar year 2010 compensation decisions for the Named Executive Officers based on the following key factors that are explained more fully below:

the Company's strategic and human resources objectives;

competitive data for the Peer Group (see below) and for a broader group of diversified financial services companies;

corporate and individual performance on key initiatives;

economic conditions;

the Chairman and CEO's compensation recommendations for other Executives;

the advice of the Committee's consultant;

how each element of compensation stands on its own and how it relates to the other elements of compensation as a whole.

A comprehensive study was undertaken by Cook in 2009 for 2010 compensation. The study examined base pay, annual incentive design and targets, long term incentive design and targets, non-qualified benefits, perquisites, stock ownership guidelines, severance and change of control policies. The process included interviews with Executives to discuss organizational strategy and the implications for human resources and compensation policy. Cook's analysis focused on the design and structure of the direct compensation elements (base salary, annual incentive and long term incentives) and their link to the Company's strategic plan. The Company's compensation program was also reviewed relative to the programs of its Peer Group (see below) and the aggregate costs of the program. As part of its study every other year, Cook performs an analysis to ensure that total share dilution and the economic costs of long term incentives are at a reasonable and affordable level for the Company. Cook also reviewed the Executive compensation plans against potential risk areas in compensation design, and determined that the Company's Executive compensation programs are well designed, supportive of the Company's business strategy, and do not provide incentives to Executives to take inappropriate risks.

Use of Compensation Data

The Committee reviews the group of companies it uses to compare Executive compensation practices (the "Peer Group") every other year as part of Cook's comprehensive study. Cook provides information and analysis and recommends an appropriate Peer Group after interviews with Committee members and management. Cook's recommendations for an appropriate Peer Group of public, similarly-sized, diversified financial services, insurance and asset management companies take into account the Company's and the competitors' strategy, mix of business and size (as measured primarily by annual revenues, market capitalization and total assets). As a result of the most recent review, given the current mix of the Company's business lines, reflecting a greater emphasis on asset management, a decision was made to add Ameriprise Financial, Inc. to the Peer Group, and to drop Nationwide, as it became a private company in 2009. The companies in the Peer Group for 2010 compensation comparisons were:

Ameriprise Financial	Lincoln National
CIGNA	Manulife
Franklin Resources	MetLife
Genworth Financial	Prudential Financial
Hartford Financial Services	Sun Life Financial
Legg Mason	T. Rowe Price

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

These companies are the major competitors in one or more of the Company's businesses, but none represent the exact business mix of the Company. Because some of these companies have higher market capitalization and revenue than the Company and some have lower market capitalization and revenue than the Company, we target compensation for the Named Executive Officers at the median of the compensation of the named executive officers at the Peer Group companies.

Cook provides compensation information on an executive-by-executive basis and for the named executive officers of the Peer Group as a group with respect to their base salaries and annual and long term incentive compensation levels. Base salaries and target annual and long term incentive compensation for our Executives may be more or less than the median compensation of the Peer Group based on individual and/or Company

Table of Contents

performance and the importance of the position or Executive to the Company at the current time as well as other retention factors. Also, actual compensation received by the Executive fluctuates above or below target levels for incentive plans based on individual and Company performance, as measured by operating results and changes in shareholder value. The Committee reviews the Company's performance against the performance of Peer Group companies to confirm that the Company's compensation is reasonable relative to its financial performance.

In addition to the analysis of compensation relative to the Peer Group, annual data from published industry surveys produced by third parties provides additional context for the Committee's discussions⁽²⁾. Further, every two to three years, the Company's non-cash benefit programs are compared with those of more than 100 diversified financial services companies. This is a larger group than the Peer Group because the information is used in designing and evaluating our broad-based employee benefit programs. Benefit programs are also compared against those of local employers in Des Moines, Iowa, due to the Company's significant employee population in that location.

(2)

The surveys used were the McLagan Investment Management Survey and Towers Watson U.S. Financial Services Studies Executive Database. The names of the companies participating in these surveys are included in Appendix B.

Each year, the Committee reviews the total compensation paid to the Executives by reviewing compensation reports, called tally sheets. The tally sheets include the dollar value of base salary, annual and long term incentive awards earned, deferred compensation, outstanding equity awards, benefits, perquisites and potential payments for various termination scenarios. The information enables the Committee to analyze the value of total compensation and compensation actually delivered versus the compensation opportunities originally established by the Committee. This information is an important part of the analysis used by the Committee in making future compensation decisions and in the design of the incentive plans, benefits and perquisites and severance programs. The tally sheets are also used to help the Committee determine that the Executive compensation program is consistent with the Company's compensation philosophy and desired positioning relative to market data. The Committee used the tally sheets as a basis for considering changes to the components of the Executive compensation program, but made no adjustments as a result of the analysis in 2010, based on the Committee's determination that the program continues to meet the Company's objectives. The Committee solicits input on the CEO's performance from all Directors and reviews that information with him, and also receives information on the performance of other Executives relative to their goals and other performance measures.

The Committee also considers the tax and accounting consequences of each element of compensation, making reasonable efforts to maximize the tax deductibility of all elements of compensation under Section 162(m) of the Internal Revenue Code ("Tax Code"), which limits the Company from deducting annual compensation exceeding \$1,000,000 for our CEO and the three other most highly compensated Named Executive Officers (other than our CFO) who are in office on the last day of the fiscal year ("Covered Employees"). There is an exception to this rule for performance-based compensation. The Committee generally structures compensation for Covered Employees so that it qualifies for a tax deduction, but it may provide compensation to Covered Employees that is not deductible if it determines that it is appropriate to do so in light of other interests and goals, such as attracting and retaining key Executives. For 2010, Messrs. Zimpleman, Houston, McCaughan and Sorensen were Covered Employees.

Base Salary

Base salary creates a level of compensation for Executives that enables the Company to attract and retain highly skilled individuals at an affordable level of fixed expense. Salaries are intended to be competitive with the market for comparably talented executives. When determining base salary for each Executive, the Committee considers the Peer Group median for comparable executive positions as well as the survey data referenced above, the Executive's proficiency in a specific role, the Executive's work experience, the importance of the position to the Company, how difficult it would be to replace the Executive, and the Executive's performance. Salary increases, if any, generally take effect the first pay period in March of each year. Salary may also be reviewed when an Executive is promoted or has a significant change in responsibilities. Base pay increases in 2010 were effective on March 13, 2010 in connection with the Company's annual pay cycle. Executives' salaries were reduced by 10% in 2009 due to the economic crisis.

Table of Contents**Change in Base Salary(1)**

Name	2008	2009	2010	Percentage Increase from 2009 to 2010
Zimpleman	\$ 737,475	\$ 720,000	\$ 800,000	11.1%
Lillis	\$ 286,181	\$ 287,100	\$ 400,000	39.3%(2)
Houston	\$ 452,154	\$ 414,900	\$ 500,000	20.5%(3)
McCaughan	\$ 561,154	\$ 508,500	\$ 548,500	7.9%
Sorensen	\$ 457,808	\$ 415,800	\$ 450,000	8.2%

- (1) All Named Executive Officers had a 10% reduction in pay in 2009 with no increase in base salary until 2010.
- (2) Mr. Lillis received a substantial increase to bring his salary closer to the market median for his position.
- (3) In 2010, Mr. Houston assumed responsibility for the Company's Life, Health and Specialty Benefits Divisions, and his title changed from President Retirement Investor Services to President Retirement Insurance & Financial Services.

Annual Incentive Pay

The Named Executive Officers are eligible to earn annual cash bonuses under the Principal Financial Group, Inc. Annual Incentive Plan, which has been approved by our shareholders, and qualifies as performance based compensation under §162(m) of the Tax Code. These bonuses are intended to motivate the Named Executive Officers and to promote the achievement of our performance objectives and the strategic initiatives that are important to the Company's success.

This plan establishes a maximum annual bonus pool of 2% of annual income from the Company's continuing operations, minus net realized and unrealized gains and losses, as reported in the Company's financial statements ("Bonus Pool"). In addition, maximum bonuses are established under the Annual Incentive Plan for each participant. For 2010 these maximums were:

Named Executive Officer	Maximum Award as a Percentage of the Bonus Pool	Maximum Potential Award Payment
CEO (Zimpleman)	40%	\$ 8M
Second highest Paid Covered Employee (McCaughan)	20%	\$ 4M
Third highest Paid Covered Employee (Houston)	13.33%	\$ 2.7M
Fourth highest Paid Covered Employee (Sorensen)	13.33%	\$ 2.7M
CFO (Lillis)	13.33%	\$ 2.7M

The Committee applied negative discretion to determine the actual bonuses for the Named Executive Officers by reducing bonuses funded by the Annual Incentive Plan formula, using the following framework. First, the Committee set the target and maximum annual incentive awards for each Named Executive Officer. Maximum annual incentive opportunities, after application of the Committee's negative discretion, are generally 200% of the target annual incentive opportunity. For 2010, the Committee approved the following target awards for Named Executive Officers, expressed as a percentage of base salary.

Named Executive Officer	2009	2010
Zimpleman	150%	150%
Lillis	70%	75%
Houston	100%	125%
McCaughan	250%	250%
Sorensen	70%	70%

These target awards were established by the Committee to be at about the median of the Peer Group. Mr. Zimpleman's target award opportunity is greater than that of the other Named Executive Officers (except for Mr. McCaughan) because Mr. Zimpleman has overall responsibility for the Company and greater responsibilities

Table of Contents

than the other Named Executive Officers. The award opportunity for Mr. McCaughan was established by the Committee to be competitive with award opportunities of senior executives within asset management firms. Mr. Lillis's target award was increased to bring his cash compensation closer to the market median for his position. The target award for Mr. Houston increased when he took on additional responsibilities in 2010.

The Committee reviewed past performance across several key financial measures and a series of corporate and divisional quantitative goals to facilitate its assessment of the appropriate annual incentive compensation payable. The Committee did not assign any particular weighting to any of these goals; rather they were intended to provide guideposts to the Committee in exercising its negative discretion pursuant to the Annual Incentive Plan on the basis of its subjective evaluation of these factors.

In determining Corporate performance for 2010, the Committee reviewed Company achievements on these key financial goals:

1. Achieve appropriate operating earnings and earnings per share

One of management's responsibilities is to lead the Company in achieving appropriate operating earnings and earnings per diluted share each year. For 2010, the target for operating earnings was set at \$850 million and the target for earnings per diluted share was set at \$2.64. Actual Company results for operating earnings and earnings per share were \$911.1(3) million and \$2.62, respectively. In addition, Messrs. Houston, McCaughan and Sorensen had operating earnings goals specific to the business units they oversee:

(3)

This number reflects an adjustment of \$66.3 million of earnings from the Health Division that is no longer included in operating earnings due to the decision to exit this business. The operating earning goal of \$850 was set before the decision to discontinue this business was made.

Named Executive Officer	Operating Earnings Goal	Operating Earnings Result
Houston	\$252 million (Retirement & Investor Services)	\$ 584.4 million
	\$116 (Life)	\$ 101.2 million
	\$99 million (Specialty Benefits Division)	\$ 92.5 million
McCaughan	\$20 million (Health Division)	\$ 31.4 million
	\$65 million	\$ 58.5 million
Sorensen	\$125 million	\$ 136.9 million

2. Capital

Maintain a targeted National Association of Insurance Commissioners ("NAIC") risk based capital ratio above 350%. At year end, the NAIC risk based capital ratio was in excess of 400%.

3. Net Income

Lead the corporation in achieving a strategy that appropriately positions our investment portfolio for risk and reward and produces net income of between \$500 - 650 million. Actual net income for 2010 was \$666.3 million.

4. Minimize credit loss

A metric was established to measure whether we are appropriately managing and accounting for our investment portfolio. Ranges were established for after-tax credit losses for corporate credits (35 - 40 basis points) and commercial mortgage loans (45 - 65 basis points). Actual 2010 after-tax credit losses for corporate credits were 34.8 basis points and actual 2010 after-tax losses for mortgage loans were 33.5 basis points.

Table of Contents**5. Achieve identified sales growth**

Growth targets were established for each of the Company's lines of business. The following chart shows actual 2010 sales compared to the targets:

Business Unit	Target	Result
Retirement and Investor Services sales	\$ 17.22 billion	\$ 17.74 billion
Principal Global Investors revenue from new sales	\$ 13.6 million	\$ 11.09 million
Life new premium	\$ 172 million	\$ 164.7 million
Specialty Benefits premium and fees	\$ 1.32 billion	\$ 1.30 billion
Principal International	\$ 532.3 million(4)	\$ 557 million

(4)

Fee based revenue increased from \$532.3 million to \$589 million due to including the joint venture in China and reclassification of net investment income for Brazil.

Final Annual Incentive Pay Award Determination

The following table shows the annual incentive award for each of the Named Executive Officers, as determined by the Committee in its discretion at its February 28, 2011 meeting, based on the factors set forth above. The column entitled "Reduction from Maximum Award" represents the negative discretion exercised by the Committee to reduce the maximum bonuses established under the Annual Incentive Plan to the awards paid.

Named Executive Officer	2010 Salary Earned	2010 Target	Final Award	Reduction from Maximum Award
Zimpleman	\$ 781,538	150%	\$ 1,547,446	\$ 6,452,554
Lillis	\$ 373,946	75%	\$ 336,552	\$ 2,363,448
Houston	\$ 480,362	125%	\$ 720,542	\$ 1,979,458
McCaughan	\$ 539,269	250%	\$ 1,617,807	\$ 2,382,193
Sorensen	\$ 442,108	70%	\$ 389,939	\$ 2,310,061

Executives may defer annual cash incentive awards into a nonqualified supplemental savings plan ("Excess Plan"), as shown in the Non Equity Incentive Compensation column of the Summary Compensation Table, described on page 43.

Long term Incentive Compensation

The long term incentive compensation program is designed to ensure that the interests of Executives are aligned with those of shareholders so that the compensation actually received by the Executives reflects the degree to which multi-year financial objectives are achieved and shareholder value is increased. A long term focus is critical because the Company competes in businesses in which long term performance is important, such as retirement products, life insurance and asset management. The long term incentive compensation program also encourages cooperation among Executives, some of whom represent various business divisions, in pursuing corporate-wide goals.

Table of Contents

The Committee establishes a target long term award opportunity for each Named Executive Officer stated as a percentage of each Executive's base salary based on Peer Group and survey data, referred to above, and the advice of its consultant. The Committee uses the following factors to adjust the target award opportunity and determine the actual percentage of base salary to be awarded to each Named Executive Officer ("Award Granted"): current competitive market data, the Executive's past performance, the Executive's current compensation, any retention concerns, the importance of the Executive to the Company over the long term, the potential impact the Executive could have on the Company's results, and the Executive's performance relative to the Executive's peers within the Company. However, grants are generally administered such that the aggregate grants do not exceed the sum of the target grants for all participants. Realized compensation may vary considerably from the grant-date fair value of the Award Granted based on the Company's performance and changes in share price that occur after the grant. The Target Awards granted for 2010 were based on the Executives' performance in 2009, and are listed below. Some targets were increased between 2009 and 2010, and the Company generally does not grant an award at target the first year after the target has been increased.

Named Executive Officer	Target	Award Granted
Zimpleman	500%	375%
Lillis	225% (1)	175%
Houston	350% (2)	300%
McCaughan	275%	300%
Sorensen	175%	200%

(1) 175% in 2009.

(2) 275% in 2009.

Mr. Zimpleman's award opportunity is greater than that of the other Named Executive Officers because he has overall responsibility for the Company. In addition to the annual grants referred to above, in February 2010, Messrs. Lillis and Sorensen received grants of \$65,000 in RSUs for successful completion of equity and bond offerings made in 2009. Mr. McCaughan received an RSU grant of \$254,000 for retention purposes. Mr. Zimpleman also received an RSU grant of \$500,000, in recognition of his steady leadership in guiding the Company successfully through a difficult economic period and the successful completion of the equity and bond offerings made in 2009, putting the Company in a strong financial position. These restricted stock unit awards are all subject to a three year cliff vesting schedule.

The Committee approved changes to the design of the Company's long term incentive compensation plan starting with the 2009 - 2011 plan cycle. These changes addressed the difficulty in setting reasonable multi-year performance goals in the volatile and uncertain economic environment at the time and the ability of the Company to continue to motivate, attract and retain Executives in uncertain market conditions. In 2009, long term incentive compensation for Executives consisted of a combination of stock options and PSUs, where vesting of the PSUs is tied to the achievement of a return on equity threshold as well as continued service.

In 2010, as the economic environment began to stabilize, the Committee approved changes to the design of long term incentives to migrate back to a design similar to that used in the 2008 - 2010 plan cycle. In 2010, for the Named Executive Officers, one-half of the Award Granted was granted in stock options and one-half in PSUs that will vest based on both continued service and the achievement of certain financial objectives over a three-year period (with each three-year period treated as a "Performance Cycle").

For the 2010 PSUs, the performance threshold is to achieve pre-determined average ROE and cumulative operating income ("OI") targets. For this purpose, the ROE criteria require attaining a simple average ROE of 5% and the OI objective is cumulative OI of \$1 billion for the three calendar years during the performance period. If neither the ROE nor the OI objective is met, no PSUs will be earned or paid out. If either the ROE or OI objectives is met or exceeded, the number of units earned is determined using performance scales based on average ROE and average Book Value per Share ("BV/Share"), each is weighted 50% over the performance period.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

Table of Contents

Depending on the actual ROE and book value per share achieved, Executives may earn 0 or between 25% and 150% of the target number of units that were granted at the beginning of the Performance Cycle. Average ROE and BV/Share needed to achieve the noted award levels are:

Measure	Minimum Award (50% of Target)	Target Award	Maximum Award (150% of Target)
Average ROE	6%	12%	15%
Average BV/share	\$ 23.00	\$ 27.00	\$ 35.00

Straight line interpolation is used to determine awards for performance between minimum and target and between target and maximum. The BV/share measure was selected because of its focus on capital efficiency and growth, which are key indicators of long term success. When combined with the OI measure used in the Annual Incentive Plan, use of ROE and BV/share for this portion of the long term incentive ensures a balanced focus on both short term and multi year profitability, growth and the efficient use of capital. Executives may defer the receipt of PSUs that are earned and would otherwise be paid shortly after the Performance Cycle ends.

In 2008, long term incentive grant values were delivered through a combination of stock options and Performance Share Awards ("PSAs"). The PSAs granted in 2008 had a three year Performance Cycle, which ended on December 31, 2010. Payout of these PSAs was based upon ROE and average earnings per share ("EPS") results. These awards did not pay out because performance thresholds from the 2008 - 2010 cycles were not achieved.

Changes for 2011

No changes were made to the long term incentive compensation program design for 2011.

Stock Ownership Guidelines

Executives are required to own stock in the Company to ensure their interests are aligned with the shareholders' interests and long term performance of the Company. This requirement has been based on multiples of base salary and job level. Once the Executive achieves the required stock ownership level based on market value, the ownership requirement becomes fixed at the number of shares owned at that time, regardless of subsequent changes in stock price or salary.

Until the ownership guideline is met, Executives are required to retain a portion of the "net profit shares" resulting from equity based long term incentive plan grants. Net profit shares are the shares remaining after payment of the option exercise price and taxes owed at time of exercise, vesting of restricted stock or earn out of performance shares. The percentage of profit shares that must be retained until the multiple of salary guidelines are met are shown below:

Executive Level	Retention Ratio	Multiple of Base Salary
CEO (Zimpleman)	75%	5 times
Division Presidents and Executive Vice Presidents (Houston, McCaughan and Sorensen)	50%	3 times
Senior Vice Presidents (Lillis)	50%	2 times

All Named Executive Officers are in compliance with these guidelines.

Compensation Recovery Policy

The Committee has also adopted a compensation recovery policy that applies to executive officers. The Company can recover incentive compensation if the amount of the compensation was based on achievement of financial results that were subsequently restated if, in the opinion of the Committee, the executive officer engaged in fraud or intentional misconduct that caused the restatement of the Company's financial statements, and the amount of the executive officer's incentive compensation or equity award would have been lower had the financial results been properly reported.

Trading Policy

The Company prohibits all employees, including Executive Officers, from purchasing any Company securities on margin (except for the exercise of stock options), engaging in short sales or trading in any put or call options.

Benefits

In 2010, all of the Named Executive Officers participated in Principal Life's broad-based employee benefits program, including a qualified pension plan (except Mr. McCaughan)(5), a 401(k) plan, group health and disability coverage, group life insurance, a discounted employee stock purchase plan, paid time off, and flexible spending account plans. Principal Life also offers all Named Executive Officers, except Mr. McCaughan, defined benefit and defined contribution non-qualified retirement plans (the "DBNQ" and the "Excess Plan"). These benefits are offered to attract and retain talent within the organization and provide long term financial security to employees. The DBNQ helps the Company attract mid-career Executives and retain Executives by providing competitive retirement benefits. The DBNQ is coordinated with the qualified pension plan and is designed to restore benefits that otherwise would accrue to Executives in the absence of Tax Code limitations on the qualified pension plan. The narrative to the Pension Benefits Table on pages 39-42 provides additional information about the DBNQ and the qualified pension plan. Principal Life maintains the Excess Plan to help attract and retain Executives by allowing Executives to save for retirement and to provide matching contributions on those savings, without regard to the limitations imposed by the Tax Code on 401(k) plans. The narrative to the Non-Qualified Defined Contribution and Other Deferred Compensation Plans Table on pages 43-44 provides additional information about the Excess Plan.

(5)

Effective January 1, 2010, Mr. McCaughan no longer participates in the qualified pension plan, DBNQ and Excess Plan. This change was the result of a compensation and benefit review of asset management companies that showed that these are not common benefits for that type of company. This change also applied to other investment professionals who work with Principal Global Investors.

Effective January 1, 2006, Principal Life made several changes to the broad-based employee retirement program that affected all employees, and similar changes were also made to the corresponding DBNQ and Excess Plan. In general, the pension and DBNQ benefit formulas (both traditional and cash balance) were reduced and the 401(k) matching contribution was increased. Employees who were ages 47 or older with at least ten years of service on December 31, 2005, could elect to retain the prior benefit provisions. Employees who elected to retain the prior benefits are referred to as "Grandfathered Choice Participants." These changes were made to better align the pension and 401(k) plans with current market practice, while not adversely impacting more tenured employees.

The value of the retirement and savings plans are targeted to be, in the aggregate, slightly above the median of diversified financial services companies because a large portion of the Company's business centers on the sale of retirement products. The traditional pension plan benefit for Grandfathered Choice Participants has a market value above the median and the 401(k) plan match for Grandfathered Choice Participants is below market median. These benefits, too, were originally designed to be slightly above market median to attract and retain employees. As retirement plans evolved in the marketplace, their value has changed, leading to the realignment with market in 2006.

All other benefits are targeted at market median in the aggregate, which supports the Company's benefit strategy and aids in attracting and retaining talent.

Change of Control and Separation Pay

The Committee believes it is in the best interests of the Company and its shareholders to:

assure that the Company will have the continued service of its Executives;

reduce the distraction of these Executives that would result from the personal uncertainties caused by a pending or threatened Change of Control;

encourage the Executives' full attention and dedication to the Company; and

provide the Executives with compensation and benefits upon a termination related to Change of Control that are competitive with those of similar businesses.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

For these reasons, the Company has entered into "Change of Control" employment agreements with each of the Executives. These agreements would help the Executives more fairly evaluate a potential acquisition of the Company, particularly when the acquisition would result in termination of the Executive's employment. The terms of and benefits provided under these Change of Control employment agreements are based on market practice and do not impact the decisions made regarding other components of the Named Executive Officers' compensation. When entering into these agreements, the Committee reviewed survey data and the Change of Control practices of

Table of Contents

other public insurance and financial services companies. The Committee continues to review market practices in this area for potential future changes in these agreements.

All benefits provided to the Executives upon a Change of Control are paid after both a Change of Control and qualifying termination of employment have occurred (sometimes referred to as a "double-trigger"), except the then current value of the Executive's Excess Plan and DBNQ will be paid upon a Change of Control to ensure that the value of those plans does not erode upon the sale of the Company or other transaction resulting in a Change of Control. New Change of Control Employment Agreements were entered with Executives in 2010 which generally reduced severance amounts as multiples of cash compensation and eliminated excise tax gross-ups. See page 45 for details.

The Company's severance plans cover employees whose employment is terminated by the Company due to a reorganization or reduction in the workforce. Additional payments may be permitted in some circumstances as a result of negotiations with Executives, particularly when the Company requests additional covenants from the Executives. Terms of the severance provisions for Mr. Zimpleman were based on market practice, and did not impact the decisions made regarding other components of his compensation.

Perquisites

The only perquisite for Executives that is not offered to all employees is one physical examination per year.

Human Resources Committee Report

The Human Resources Committee of the Company has reviewed and discussed the foregoing Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management, and based on such review and discussion, the Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

Risk Assessment

In order to ascertain whether any compensation policies or practices are reasonably likely to have a materially adverse effect on the Company, the Chief Risk Officer and members of the Human Resources Department reviewed all of the Company's incentive compensation plans. A summary of this information was then provided to and reviewed with the Human Resources Committee of the Board. Based on the analysis conducted, we have determined that, for all employees, the Company's compensation plans are designed to encourage behaviors that create and maintain shareholder value, and do not encourage excessive risk.

In reaching this determination, the following factors, among others, were reviewed: plan design, potential risks created by the plans, risk mitigation factors within plans, the mix of pay received by the participating employees (base vs. incentive), and whether historical payments were in line with the intended results. Governance practices regarding plan design and revisions were also reviewed. In addition, the Company has a guideline that Executives own Company stock and a compensation recovery policy, and these are factors that are also felt to mitigate risk of incentive compensation plans.

The Company also prohibits all employees from purchasing any Company securities on margin (except for the exercise of stock options), engaging in short sales or trading in any put or call options.

(2) A portion of Mr. Lillis' 2009 non-equity incentive compensation equal to \$119,625 represents the performance unit portion of his long term incentive program award that will be paid in cash based on the 2009 Principal Annual Plan modifier which was achieved at 100%. Fifty percent of the long term cash performance units vested on December 31, 2010 and the remaining 50% of the award will vest on December 31, 2011.

(3) The amounts shown represent annual incentive compensation awards earned in 2010 and paid in 2011 and include the following amounts deferred into the qualified 401(k) Plan and Excess Plan:

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

Amounts represent the aggregate grant date fair value amounts for awards and options granted in the year noted. The assumptions for the valuation of stock and option awards under the FASB ASC Topic 718 for awards are included in the Summary Compensation Table as follows:

Grant Date	Exercise Price	Volatility	Expected Term	Dividend Yield	Risk-Free Interest Rate
February 26, 2008	\$ 60.10	25.33	6 years	1.498%	3.14%
May 19, 2008	\$ 56.42	25.97	6 years	1.595%	3.25%
February 24, 2009	\$ 11.07	55.00	6 years	4.065%	2.08%
February 23, 2010	\$ 22.21	66.60%	6 years	2.251%	2.75%

The grant date fair value per share of each RSU or PSU granted on the same date as an option listed in the above table was equal to the exercise price reported for options granted on such date.

Table of Contents

- (5) Performance based RSUs and PSUs will be earned and paid in shares of Common Stock only if performance requirements are met or exceeded. The performance based RSUs and PSUs are eligible for dividend equivalents. The dividend equivalents are also subject to the same performance requirements as the corresponding performance based RSUs and PSUs and are only earned if the performance measures are met or exceeded. The 2008 PSAs did not pay out because the threshold performance measures were not achieved. The 2009 performance based RSUs maximum payout will not exceed 100% of target. The maximum payout for the 2010 PSUs is 150% of the target number of PSUs. If the 2010 PSUs are earned at the maximum payout, the grant date value of such PSUs would be as shown in the following table, and the amounts reported in the Stock Awards column, above, would be increased by the amount shown in the column to the far right of the following table.

Name	Grant Date Value of PSUs at Maximum Payout	Amount by Which Aggregate Grant Date Values Reported Would be Increased
Zimpleman	\$ 1,499,997	\$ 749,998
Lillis	\$ 350,007	\$ 175,004
Houston	\$ 750,009	\$ 375,005
McCaughan	\$ 822,747	\$ 411,374
Sorensen	\$ 449,997	\$ 224,998

- (6) Assumptions underlying the determination of the amount of increase in actuarial value for both the qualified and non-qualified pension plans are illustrated on page 39. Changes in these assumptions and compensation changes will impact this value annually. There are no above market earnings on deferred compensation.

- (7) All Other Compensation for the Named Executive Officers consists of Principal Life's matching contributions to the 401(k) Plan and the Excess Plan. The Excess Plan's matching contributions are also included in Principal Life's Contributions in the Non-Qualified Deferred Compensation and Other Deferred Compensation Plan table on page 43.

Name	401(k) Matching Contributions Made by Principal Life	Excess Plan Matching Contributions Made by Principal Life	Total

- (1) The maximum award shown is the maximum aggregate award payable under the Annual Incentive Pay Plan for the Named Executive Officers, based on the Bonus Pool. In determining the actual annual incentive award payable, the Human Resources Committee exercises negative discretion to reduce the amount payable from the maximum award determined under the Annual Incentive Pay Plan as described on pages 28-30.
- (2) These columns reflects PSUs granted on February 23, 2010. The PSUs granted in 2010 will vest on December 31, 2012 and will pay out either if the ROE or operating income threshold performance measure is met. The maximum payout for the 2010 PSUs is 150% of the target number of PSUs.
- (3) This column reflects RSUs granted on February 23, 2010 as discussed on pages 30-32.
- (4) The options vest in three equal annual installments beginning on the first anniversary of the grant date. The options are not eligible for dividend equivalents. The number of stock options awarded to each Named Executive Officer in a given year is calculated by dividing the present value of one option into the portion of the Adjusted Target Award Opportunity (50%) to be delivered in options, using the Black-Scholes model (but adjusting for the possibility that some options may be forfeited because Executives may terminate their employment prior to the options vesting).
- (5) The per-share option exercise price is the closing price of the Common Stock on the date of grant.
- (6) Represents the grant date fair value of the award at target.

Retirement Plan Information

Principal Life has a qualified defined benefit retirement plan ("DB Plan") and a DBNQ. The DB Plan vests after three years of service. The DBNQ vests at the later of one year of plan participation or three years of service. The DBNQ is intended to restore benefits that otherwise would accrue to Executives in the absence of Tax Code limitations on qualified pension plans. The DB Plan and DBNQ are coordinated and together are designed to target a replacement ratio of approximately 65% of average cash compensation, less Social Security benefits. On January 1, 2002, Principal Life amended the DB Plan and NQDB to include a cash balance pension formula. The impact of these changes is:

Employees hired before January 1, 2002, will receive the greater of the benefit based on (i) the traditional benefit formula or (ii) the cash balance formula; and

Employees hired on and after January 1, 2002, will receive the cash balance formula.

Effective January 1, 2006, the DB Plan and DBNQ were amended to reduce future benefit accruals under these plans for Non-Grandfathered Choice Participants(6).

Effective January 1, 2010, the DB Plan and the DBNQ were amended to stop future benefit accruals for investment professionals within Principal Global Investors, including Mr. McCaughan, for the reasons stated in the Compensation Discussion and Analysis, page 33. Interest credits on cash balance benefits accrued prior to January 1, 2010, will continue to be provided pursuant to the terms of these plans.

The DB plan and DBNQ formulas are illustrated below and reflect the above referenced changes.

Plan Provision	Benefit Formula for Grandfathered Choice Participants(7)
Benefit Formula DB Plan	39.2% of Average Compensation(8) below the Integration Level(9) plus 61.25% of Average Compensation above the Integration Level.
Benefit Formula DBNQ	The DBNQ benefit formula for employees hired before January 1, 2002, who are also Grandfathered Choice Participants the greater of: 65% of the employee's Average Compensation, offset by Social Security and DB Plan benefits; or The traditional or cash balance DB Plan benefit for Grandfathered Choice Participants (whichever is greater) without regard to Tax Code limits, offset by the benefit that can be provided under the DB Plan.

(6) Non-Grandfathered Choice Participants are employees who were employed as of December 31, 2005, but did not satisfy the age or service requirements as of that date or employees who met the requirements but elected not to retain prior benefits.

(7) Grandfathered Choice Participants are employees who were age 47 or older with at least ten years of service on December 31, 2005, and who elected to retain the prior benefit provisions under the DB Plan and the DBNQ and to forego receipt of the additional matching contributions offered under the 401(k) and Excess Plans.

(8) The highest five consecutive years' total pay out of the past ten years of Pay. "Pay" is the Named Executive Officer's base salary and annual incentive bonus.

Reduction if payments start earlier than Normal Retirement Age

The Company subsidizes early retirement if the Executive remains employed until Early Retirement Age (age 57 with 10 years of service), which is the earliest date an employee may begin receiving retirement benefits.

If the Executive retires after Early Retirement Age but before Normal Retirement Age (age 65), those benefits received by the Executive prior to age 62 are reduced to reflect payments are beginning at an earlier age. The early retirement benefits range from 75% at age 57 to 95% at age 61.

If the Executive terminates employment before reaching Early Retirement Age, Principal Life does not subsidize early retirement. The early retirement benefits range from 58.6% at age 57 to 92.8% at age 64.

Benefits receive a Cost of Living(12) adjustment after retirement benefits commence.

The traditional or cash balance pension plan benefit for Non-Grandfathered Choice Participants (whichever is greater) without regard to Tax Code limits, offset by the benefit that can be provided under the DB Plan.

A different benefit formula was in effect until January 1, 2006, for the DB Plan and DBNQ. For employees that were active participants of the plan on December 31, 2005, their accrued benefit on any date will not be less than their accrued benefit determined as of December 31, 2005.

Reduction if payments start earlier than Normal Retirement Age

The Company subsidizes early retirement if the Executive remains employed until Early Retirement Age (age 57 with 10 years of service), which is the earliest date an employee may begin receiving retirement benefits. The subsidy is less for benefits accrued after December 31, 2005.

If the Executive retires after Early Retirement Age but before Normal Retirement Age (age 65), those benefits received by the Executive prior to age 62 are reduced to reflect payments are beginning at an earlier age. The early retirement benefits range from 75% at age 57 to 95% at age 61 (and 97% at age 64 for benefits earned after December 31, 2005).

If the Executive terminates employment before reaching Early Retirement Age, Principal Life does not subsidize early retirement. The early retirement benefits range from 58.6% at age 57 to 92.8% at age 64.

Benefits accrued as of December 31, 2005 receive a Cost of Living adjustment after retirement benefits commence.

Messrs. Zimpleman and Lillis are Grandfathered Choice Participants. Messrs. Houston and Sorensen are Non-Grandfathered Choice Participants, and will receive the greater of the cash balance benefit or the traditional benefit formula. Prior to January 1, 2010, Mr. McCaughan accrued benefits under the Non-Grandfathered Choice Participants cash balance formula.

Distributions

Participants receive an annuity under the traditional benefit formula in the DB Plan. The earliest this benefit may be received is at age 57 with ten years of service. The qualified cash balance benefit formula in the DB Plan allows for benefits in the form of an annuity or as a lump sum (payable immediately upon termination/retirement or deferred to a later date).

DBNQ benefits may be paid as a lump sum at termination/retirement, or as an annuity at the later of age 57 or termination/retirement. All benefit payments for specified employees, including the Named Executive Officers, will be made no earlier than six months after termination, as required by Section 409A of the Tax Code. Distributions may also be allowed at death or change of control. If an individual was a participant in the plan prior to January 1, 2010, then a mandatory payment occurs at age 65. Additionally, participants in the DBNQ Plan prior to January 1, 2010, could make an election for benefits to be paid to them on a date they specified between age 60 and 65.

Qualified 401(k) Plan and Excess Plan

The qualified 401(k) plan allows for deferral of one to 15% of base salary (one to 100% if not contributing to the Excess Plan) and one to 100% of awards under the Annual Incentive Plan or PrinPay Plan up to the limits imposed by the Tax Code. Principal Life provides matching cash contributions of (i) 50% of deferrals, up to a maximum deferral of six percent of the employee's pay (base salary and annual bonus) for Grandfathered Choice Participants and (ii) 75% of deferrals, up to a maximum of eight percent of the employee's pay (base salary and annual bonus) for all other participants. Effective January 1, 2010, the Excess Plan was amended to exclude investment professionals of Principal Global Investors, including Mr. McCaughan, from participation. These individuals continue to have investment direction over contributions made prior to January 1, 2010, and benefits will be paid in accordance with the terms of the Excess Plan.

The qualified 401(k) plan offers 20 investment options (including the Company's Common Stock) and investment return is based on the participant's investment direction. Distributions from the plan are allowed at various times including at termination of employment, death and disability. Vesting in the qualified plan before January 1, 2006, is a five-year graded schedule and is a three-year cliff schedule after this date.

The Excess Plan allows for deferral of one to 15% of base salary and deferral of one to 100% of awards under the Annual Incentive Plan or PrinPay Plan. Principal Life provides matching cash contributions identical to those in the 401(k) Plan, but without regard to the limitations on

such contributions imposed under the Tax Code. The investment options available to plan participants are set out below. Plan participants can direct their investments, and the participants' investment returns are based on their investment selections. Deferrals and matching contributions in the Excess Plan are immediately vested. Distributions from the Excess Plan are allowed at various

Payments Upon Termination**Employment Agreement**

The Company has an employment agreement dated May 1, 2008, with Mr. Zimpleman for his service as the Company's CEO. The employment agreement has an initial term through May 1, 2011, but the term of the agreement automatically extends to create a new one-year term unless either Mr. Zimpleman or the Company notifies the other of the intention not to extend the agreement. Under his employment agreement, Mr. Zimpleman is entitled to certain benefits if his employment involuntarily terminates under certain circumstances other than upon a Change of Control. The following table illustrates the amounts that would have been payable to him had he been involuntarily terminated on December 31, 2010.

Payments Upon Termination

Name	Lump Sum Payment	Benefits Following Termination	Value of Retirement Enhancement	Outplacement	Total
Zimpleman(1)	\$ 3,000,000	\$ 18,209	\$ 0	\$ 10,000	\$ 3,028,209

(1)

The lump sum amount is one and one-half times the sum of Mr. Zimpleman's annual base salary and target annual bonus. He would also receive life and medical insurance and dental benefits for 24 months following termination (the cost to the Company is illustrated, minus the contributions Mr. Zimpleman would pay).

Severance Plans

Messrs. Houston, Lillis and Sorensen are eligible for severance under the Company's severance plan if they are terminated as a result of lay-offs, position elimination or similar reasons. Executives are disqualified from receiving

Table of Contents

severance benefits if they take another comparable job with Principal Life, fail to sign a release of claims against Principal Life, and/or other specified reasons.

The benefit payable under the severance plan is the greater of one week of base salary for each year the Executive worked for Principal Life, or two weeks of base salary for each \$10,000 of the Executive's annual base salary (rounded to the nearest \$10,000). The severance plan has a minimum benefit of six weeks and a maximum benefit of 52 weeks of base pay, and also provides for three months of reimbursement of premium for continuation of medical, dental and vision insurance under COBRA. The following table illustrates the severance benefits that the Named Executive Officers would have received had they qualified for such benefits on December 31, 2010.

Pursuant to the agreement made with Mr. McCaughan when he was hired, if he is terminated without "Cause", as that term is defined in the Change of Control Employment Agreements (see below), he will be paid (i) one year's base compensation and one year's annual bonus at target, and (ii) all other accrued entitlements, in accordance with the terms of the relevant plan.

Name	Severance	Outplacement Services	COBRA Reimbursement	Total
Lillis	\$ 400,000	\$ 10,500	\$ 1,211	\$ 411,711
Houston	\$ 500,000	\$ 10,500	\$ 3,833	\$ 514,333
McCaughan	\$ 1,919,750	\$ 10,500	\$ 2,408	\$ 1,932,658
Sorensen	\$ 450,000	\$ 10,500	\$ 2,502	\$ 463,002

In circumstances in which the severance plan does not apply, the Human Resources Committee would determine any severance benefits paid to the Named Executive Officers in its discretion.

Change of Control Employment Agreements

The Company entered into new Change of Control Employment Agreements in 2010 with each of the Named Executive Officers, which replaced previously effective agreements. These Agreements have a term of two years and will automatically renew for successive one-year periods unless the Company provides a notice electing not to extend the term. If during the term of these agreements a "Pre-Change of Control Event" or a "Change of Control" occurs, the term of the agreements will extend until the second anniversary of a Change of Control. The new agreements differ from the prior agreements in that the severance benefit for Messrs. Zimpleman, Houston, McCaughan and Sorensen was reduced from three times annual compensation to two times; for all Executives, a provision was eliminated that provided an increase in retirement benefits as though the Executives had additional years of service and age at the time they were terminated, and the provision that authorized an additional payment to offset any excise taxes imposed under Section 4999 of the Tax Code was eliminated. The Company also discontinued the tax gross-up payment provision for all Executive Officers effective December 2010. Instead, these agreements provide that if payments upon termination of employment related to a Change of Control would be subjected to the excise tax imposed by Section 4999 of the Code, and if reducing the amount of the payments would result in greater benefits to the Executive (after taking into consideration the payment of all income and excise taxes that would be owed as a result of the Change of Control payments), the Company will reduce the Change in Control payments by the amount necessary to maximize the benefits received by the Executive Officer, determined on an after tax basis. In addition to the benefit of having to make fewer payments, if the benefits payable to any of the Named Executive Officers are reduced, all of the payments will be eligible to be deducted by the Company for federal income tax purposes.

The severance and other benefits provided under these agreements will be available to covered Executives upon a Change of Control if their employment is terminated following or in connection with a pre-change of control event, or if any third party ends or adversely changes the terms and conditions of the Executive's employment. For an Executive termination prior to a Change of Control, such termination or change in employment is deemed to have occurred immediately following the date on which a Change of Control occurs, rather than at the time the termination or change in employment actually occurs. Under these Agreements, a "Pre-Change of Control Event" means:

an offer that would result in a third party owning 40% or more of the Company's voting securities;

a proxy solicitation or contest for the election of one or more members of the Company's Board; or

an agreement that would result in a Change of Control.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

Table of Contents

Under these Agreements, a Change of Control means:

any person becoming an owner of 40% or more of the Company's Common Stock;

the Directors on the Board on the date of the Agreements (or those thereafter nominated for election, or elected to replace such Directors by certain incumbent Directors) are no longer a majority of the Board;

a merger, reorganization, consolidation or similar transaction in which the shareholders of the Company do not continue to own more than 60% of the voting securities of the surviving corporation or its ultimate parent corporation; or

approval by the shareholders of the Company of a sale of its assets or a plan of liquidation.

These Agreements also:

provide that the Executives receive specified salary, annual incentive compensation and benefits for a period of two years following a Change of Control if the Executive's employment continues after the Change of Control;

provide that if the successor to the Company agrees to issue equity to replace the equity awards the Executives received from the Company, the Executive's outstanding equity awards will continue or will become equity related to the common stock of the successor company ("Successor"). Any outstanding performance-based equity awards will be converted into time-vesting restricted stock or RSUs for Company stock (or the stock of the Successor). If the Successor does not or cannot agree to such substitution, then any such awards that are not converted will become fully vested, exercisable and/or distributable upon the Change of Control. In addition, the Agreements and equity award agreements specify that the Human Resources Committee (as made up immediately prior to the Change of Control) determines whether awards will be settled in cash;

provide for severance and other benefits if the Executive's employment is terminated without "Cause" or by the Executive voluntarily for "Good Reason." Termination without cause or by the Executive for good reason is referred to as a "qualifying termination;" and

provide that the Executive will vest in all benefits previously accrued under the DBNQ and Excess Plans, and these benefits will be paid in accordance with these plans.

The benefits the Executive receives upon a Change of Control without termination of employment include the current vested account balance in the Excess Plan and the current vested benefit in the DBNQ, according to change of control distribution elections on file for these plans.

For purposes of the Agreements, "Good Reason" means negative changes in the terms and conditions of the Executive's employment, consisting of:

failure to pay base salary or any required increase in salary;

failure to pay the annual bonus or a reduction in annual bonus opportunity;

material adverse change in position, authority or duties;

material reduction in the aggregate compensation and benefits;

relocation to any office or location other than where the Executive worked before the Change of Control;

any material breach of the Change of Control Employment Agreement;

any purported termination the Company claims is for Cause, but fails to satisfy the requirements for a Cause termination; or

the failure of the successor to be bound by the Agreements.

"Cause" means any one or more of the following:

commission of certain crimes;

the Executive's misconduct or habitual neglect of duties; or

the Executive's willful or intentional breach of the Executive's Change of Control Agreement.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

Table of Contents

The benefits to be paid or provided under the Agreements if termination occurs for Good Reason or without Cause consist of:

lump-sum severance benefits equal to two times the sum of the annual base salary and target annual bonus.

immediate vesting of all stock options, stock appreciation rights, shares of restricted stock, PSAs, PSUs, performance based RSUs, performance units, RSUs and deferred stock units;

a pro-rated annual bonus for the year of termination minus the amount paid for the bonus at the time of the Change of Control; and

the reimbursement for legal fees and other related expenses to enforce the Agreements.

In addition, until the third anniversary of the date of the Executive's termination (the second anniversary for Mr. Lillis), the Executive and his eligible family members will receive medical, prescription drug, dental, vision, group term life insurance, and accidental death and dismemberment coverages comparable to those received by Executives whose employment continues.

Pursuant to these Agreements, Mr. Zimpleman has agreed that for 18 months, and the other Named Executive Officers for one year, following a termination of employment that results in the Executive receiving the severance benefits described above, the Executive will not work for a competing business, solicit employees or customers, or interfere with the relationships of the Company, its affiliates and subsidiaries with their employees or customers.

Potential Payments Upon Termination Related to a Change of Control

The following table describes the potential payments upon involuntary termination without Cause or voluntary termination for Good Reason following a Change of Control:

The calculations assume:

termination occurred on December 31, 2010;

per share price of the Company's Common Stock was \$32.56, which was the closing price as of December 31, 2010, the last trading day of the year;

	Zimpleman	Lillis	Houston	McCaughan	Sorensen
Cash Severance(1)	\$ 4,000,000	\$ 1,400,000	\$ 2,250,000	\$ 3,839,500	\$ 1,530,000
Spread on Previously Unvested Options	\$ 6,778,662	\$ 889,425	\$ 2,608,567	\$ 3,307,885	\$ 1,804,732
Value of Previously Unvested Restricted Stock and Performance Shares(2)	\$ 5,829,868	\$ 889,637	\$ 3,531,002	\$ 4,674,346	\$ 1,498,802
Value of Previously Unvested Long Term Cash Performance Units(2)	n/a	\$ 119,625	n/a	n/a	n/a
Benefits Continuation(3)	\$ 39,399	\$ 23,935	\$ 53,033	\$ 53,643	\$ 36,886
Accelerated Pension Benefit(4)	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0
Total Termination Benefits (before taxes)	\$ 16,647,929	\$ 3,322,622	\$ 8,442,602	\$ 11,875,374	\$ 4,870,420

(1)

Cash severance equals two times the sum of base salary and target annual bonus. In addition, the Executives would be entitled to a pro-rata bonus for the year of termination.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

- (2) Equals the full value of unvested restricted shares and unearned performance shares as of December 31, 2010, where vesting would be accelerated, at a stock price of \$32.56. Performance shares granted in 2008 are valued using 0% of the target number of shares, based on our performance-to-date as of December 31, 2010. Performance shares granted in 2009 and 2010 are valued at target, based on our performance-to-date as of December 31, 2010. Long term cash performance units are not tied to stock price and therefore are valued at target.
- (3) Includes the estimated cost of continued medical, dental, vision, and life insurance coverage for three years after the Executive's termination and outplacement services, except for Mr. Lillis, who would receive these benefits for two years.
- (4) Represents the lump-sum present value of the accelerated vesting of unvested retirement benefits.

PROPOSAL THREE ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Company's Executive compensation program is designed to reward Executives who contribute to the achievement of the Company's business objectives and attract, retain and motivate talented Executives to perform at the highest level and contribute significantly to the Company's success. The program is designed to tie the delivery of Executive compensation to the achievement of the Company's long and short term financial and strategic goals and to align the interests of Executives and shareholders. The purposes and objectives of, and the rationale behind, the Company's compensation program are described in significant detail in the Compensation Discussion & Analysis, starting on page 24.

Our executive compensation is, in large measure, highly variable and directly linked to our short term and long term financial and strategic goals and the performance of the Company's stock price over time.

There was no payout for the 2007 and 2008 performance share awards because the performance measures were not met.

Executives receive a significant portion of total compensation opportunity in the form of equity based long term incentives and are required to own stock in the Company to ensure their interests are aligned with the shareholders' interests and long term performance of the Company.

The Company prohibits all employees, including Executive Officers, from purchasing any Company securities on margin (except for the exercise of stock options), engaging in short sales or trading in any put or call options.

The Company has a compensation recovery policy to recover incentive compensation paid to Executive Officers if the amount of the compensation was based on achievement of financial results that were subsequently restated, if, in the opinion of the Committee, the Executive Officer engaged in fraud or intentional misconduct that caused the restatement of the Company's financial statements, and the amount of the Executive Officer's incentive compensation or equity award would have been lower had the financial results been properly reported.

In 2010, we entered into new Change of Control Agreements with Executives, with reduced benefits, including elimination of excise tax gross ups.

We do not provide perquisites to Executives that are not offered to all employees, with the exception of one physical examination per year, and we do not provide income tax gross ups on perquisites.

Our programs are designed to be financially efficient, from tax, accounting, cash flow and share dilution perspectives. We make efforts to ensure tax deductibility of all compensation.

Shareholders are being asked to vote on the Company's compensation policies and procedures for the Named Executive Officers, as described in the Compensation Discussion and Analysis and the compensation tables and the accompanying narratives in this Proxy Statement.

This vote is not intended to address any specific item of compensation, but the Company's overall compensation related to our Named Executive Officers. Because your vote is advisory, it will not be binding on the Board and will not overrule any decision by the Board or require the Board to take any action. However, the Human Resources Committee, which is responsible for designing and administering the Company's executive compensation program values shareholder opinions and will consider the outcome of the vote when making future compensation decisions for the Named Executive Officers.

This proposal, commonly known as a "say on pay" proposal, gives shareholders the opportunity to vote "For" or "Against" our fiscal year 2010 Executive compensation programs for the Named Executive Officers through the following resolution:

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

RESOLVED that the compensation paid to the Company's Named Executive Officers as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion is hereby approved.

The Board of Directors recommends that shareholders vote "For" this resolution.

PROPOSAL FOUR FREQUENCY OF SAY ON PAY VOTES

Shareholders are being asked to vote on how often they will be able to vote on approval of the Company's compensation policies and procedures for the Named Executive Officers. Shareholders may vote that this occurs every one, two or three years or may abstain from voting. The Company believes that a vote every three years would:

Promote longer term thinking and is more consistent with the Company's longer term compensation objectives, three year vesting schedule for long term incentive awards and the long term nature of the Company's business and financial results. This long term focus is critical for the Company because we compete in businesses in which long term performance is important, such as retirement products, life insurance and asset management.

Provide shareholders the ability to evaluate the effectiveness of our compensation philosophy, policies and practices in the context of our long term business results, while avoiding an over emphasis on short term business results; and

Provide the Company with time to consider the results of Say on Pay votes, respond to shareholder views and implement changes.

Because your vote is advisory, it will not be binding on the Board and will not overrule any decision by the Board or require the Board to take any action. However, the Human Resources Committee, which is responsible for designing and administering the Company's Executive compensation program values shareholder opinions, and will consider the outcome of the vote when deciding how frequently shareholders should be asked to vote to approve Executive compensation.

The next vote on the frequency of say on pay votes will be held at the Annual Meeting in 2014.

RESOLVED, that the shareholders of the Company indicate by their vote on this resolution, whether the shareholders' advisory vote on executive compensation should take place every year, every two years, or every three years, or that they abstain from voting.

The Board of Directors recommends that shareholders vote that the frequency of the vote on executive compensation be every three years.

PROPOSAL FIVE RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

Subject to shareholder ratification, the Audit Committee has appointed the firm of Ernst & Young LLP to audit the consolidated financial statements of the Company for the fiscal year ending December 31, 2011. The Company or Principal Life has used Ernst & Young LLP as its independent registered public accountants for several years. Ratification of the appointment of the independent registered public accountants requires the affirmative vote of a majority of the shares represented at the meeting and voting on the matter. If the shareholders do not ratify this appointment, the Audit Committee will consider the matter of the appointment of the independent registered public accountants.

RESOLVED, that the appointment of Ernst & Young, LLP to audit the consolidated financial statements of the Company for the fiscal year ending December 31, 2011 be ratified.

The Board of Directors recommends that shareholders vote "for" this resolution.

Representatives of Ernst & Young LLP will be present at the Annual Meeting, will be given an opportunity to make a statement if they so desire and will be available to respond to appropriate questions relating to the audit of the Company's 2010 consolidated financial statements.

Audit Fees

The Company estimates that the aggregate fees billed by its independent registered public accounting firm in 2010 and 2009 for professional services rendered in connection with regulatory audits in accordance with US GAAP, statutory, or foreign accounting principles;

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

consultation on matters addressed during these audits; review of documents filed with regulators including the SEC; other engagements required by statute; or engagements that generally only the Company's independent registered public accounting firm can reasonably provide, such as comfort letters or consents, were approximately \$6,632,313 and \$6,553,300, respectively.

Table of Contents

Audit-Related Fees

The Company estimates that the aggregate fees billed by its independent registered public accounting firm in 2010 and 2009 for professional services rendered in connection with audit-related services such as financial statement audits of employee benefit plans, financial statement audits not required by statute or regulation, accounting consultations in connection with proposed transactions or emerging accounting standards, and other attest and related advisory services not required by statute or regulation, were approximately \$1,111,053 and \$1,109,900, respectively.

Tax Fees

The Company estimates that the fees billed by its independent registered public accounting firm for professional services rendered in connection with tax services consisting of tax consultations and compliance totaled approximately \$34,273 in 2010 and \$10,000 in 2009. Tax compliance generally involves preparation, assistance or attestation related to tax filings in various domestic and non-domestic jurisdictions. Tax consultation generally involves assistance in connection with tax audits, filing appeals, and developing tax-efficient structures for subsidiary operations.

All Other Fees

The Company paid \$10,000 for a software license to its independent registered public accounting firm in 2010. The software is a monthly electronic bulletin that identifies new products, riders, or other guarantees offered by financial services companies within the retirement services business. Quarterly, a summary with more detailed information gathered from public sources and subscribing companies is also published. This service provides subscribers with a continuously updated and comprehensive list of product information and market developments within the retirement services business. The information provided through this service is the same for each subscriber and no additional advisory services are offered through this license agreement with Ernst & Young LLP. The Company paid no fees to its independent registered public accounting firm in 2010 for any other services not described in the three categories listed immediately above.

The Audit Committee has adopted a policy on auditor independence that calls for the Committee to preapprove any service the Company's independent registered public accountant proposes to provide to the Company, its majority-owned subsidiaries, employee benefit plans or affiliates. The policy also calls for the Committee to preapprove any audit service any independent auditor proposes to provide to these entities. The purpose of the policy is to assure that the provision of such services does not impair any auditor's independence. Pursuant to the policy, each quarter Company management presents to the Committee for preapproval a detailed description of each service for which preapproval is sought and a range of fees for each service. The policy accords the Audit Committee Chair authority to preapprove changes to any range of fees applicable to services previously approved by the Audit Committee. The Audit Committee Chair may also preapprove services and a range of fees for those services that arise between regularly scheduled meetings of the Audit Committee. In considering whether to preapprove the provision of non-audit services by the independent registered public accountant, the Audit Committee will consider whether the services are compatible with the maintenance of the independent registered public accountant's independence. The Audit Committee does not delegate its responsibilities to preapprove services performed by an independent auditor to management.

The Audit Committee did not approve the services described above under the captions "Audit-Related Fees," "Tax Fees" and "All Other Fees" by utilizing the *de minimis* exception of SEC Rule 2-01(c)(7)(i)(C).

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

Except as otherwise indicated below, the following table shows, as of March 7, 2011, beneficial ownership of shares of Common Stock by (i) the only shareholders known to the Company to beneficially own more than 5% of the outstanding shares of Common Stock, (ii) each Director, (iii) each Named Executive Officer and (iv) all current Directors and executive officers as a group. Except as otherwise indicated below, each of the individuals named in the table has sole voting and investment power, or shares such powers with his or her spouse, with respect to the shares set forth opposite his or her name.

The information regarding beneficial ownership by T. Rowe Price Associates, Inc. ("Price Associates") is based solely on a Schedule 13G filed by it with the SEC on February 9, 2011, which provided information as of December 31, 2010. According to the Schedule 13G, Price Associates has sole voting power with respect to 4,381,273 shares; shared voting power with respect to 0 shares; sole investment power with respect to 20,673,567 shares; and shared investment power with respect to 0 shares. Price Associates requested the inclusion of the following: These securities are owned by various individual and institutional investors which Price Associates serves as an investment adviser with power to direct investments and/or sole power to vote the securities. For purposes of the reporting requirements of the Securities Exchange Act of 1934, Price Associates is deemed to be a beneficial owner of such securities; however, Price Associates expressly disclaims that it is, in fact, the beneficial owner of such securities.

- (3) The information regarding beneficial ownership by Nippon Life Insurance Company is based solely on a Schedule 13G filed by it with the SEC on February 28, 2009, which provided information as of February 21, 2009. According to the Schedule 13G, Nippon Life has sole voting power with respect to 18,137,000 shares; shared voting power with respect to 0 shares; sole investment power with respect to 18,137,000 shares; and shared investment power with respect to 0 shares.
- (4) Includes 301,506 shares held by Gingko LLC of which Dr. Gelatt is a controlling shareholder, director and executive officer.
- (5) Includes the following shares held in the Demutualization separate account for the benefit of each person indicated, as to which none of such persons has voting power: Mr. Houston, 371; Mr. Lillis, 37; and Mr. Sorensen, 341.

In addition to beneficial ownership of Common Stock, the Company's Directors and executive officers also hold different forms of "stock units" that are not reported in the security ownership table but represent additional financial interests that are subject to the same market risk as Common Stock. These units include shares that may be acquired after May 7, 2011 pursuant to previously awarded stock options, RSUs, performance share units and non-transferable accounting-entry units such as phantom stock units issued pursuant to Company stock-based compensation and benefit plans. The value of such units is the same as the value of the corresponding number of shares of Common Stock.

See "Directors' Compensation" on pages 21-23 for a discussion of the options and RSUs granted to non-employee Directors under the Principal Financial Group, Inc. 2005 Directors Stock Plan and the phantom stock units credited to Directors who participate in the Deferred Compensation Plan for Non-Employee Directors of Principal Financial Group, Inc. See "Compensation Discussion and Analysis" beginning on page 24 for a discussion of the performance units credited to officers who defer receipt of awards under a long term performance plan, the options and RSUs granted under the 2010 Stock Incentive Plan, and phantom stock units credited to officers that defer salary into an employer stock fund available under the Excess Plan.

As of March 7, 2011, the Directors and Executive Officers named in the security ownership table hold a pecuniary interest in the following number of units: Ms. Bernard, 3,397; Ms. Carter-Miller, 3,397; Dr. Costley, 9,764; Mr. Dan, 3,397; Mr. Ferro, 3,358; Dr. Gelatt, 3,397; Mr. Griswell, 0; Ms. Helton, 3,397; Mr. Kerr, 0; Mr. Keyser, 3,397; Mr. Mathrani, 13,402; Ms. Tallett, 6,999; Mr. Houston, 186,163; Mr. Lillis, 68,350; Mr. McCaughan, 242,538; Mr. Sorensen, 98,779; and Mr. Zimpleman, 367,059.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers and Directors, and persons who own more than ten percent of a registered class of the Company's equity securities, to file with the SEC and the New York Stock Exchange reports of ownership of the Company's securities and changes in reported ownership. Officers, Directors and greater than ten percent shareholders are required by SEC rules to furnish the Company with copies of all Section 16(a) reports they file.

Based solely on a review of the reports furnished to the Company, or written representations from reporting persons that all reportable transactions were reported, the Company believes that during the fiscal year ended December 31, 2010, the Company's officers, Directors and greater than ten percent owners timely filed all reports they were required to file under Section 16(a), except for one report for each of two officers. The Company discovered that a report for each of two officers was inadvertently not timely filed to disclose salary deferrals into an account that tracks the performance of the Company's Common Stock in the Excess Plan. The officers involved were Julia M. Lawler, Senior Vice President and Chief Investment Officer, and Mary A. O'Keefe, Senior Vice President and Chief Marketing Officer.

Ms. Lawler and Ms. O'Keefe regularly defer salary into the Company Common Stock account of the qualified 401(k) Plan and Excess Plan. Salary is deferred into the 401(k) plan until the maximum contribution allowed by the Tax Code is reached, at which point salary is deferred into the Excess Plan. Each salary deferral into the 401(k) plan does not require a unique Section 16(a) report; each salary deferral into the Excess Plan does.

In March of 2010, upon satisfying the maximum contribution level in their respective 401(k) plan accounts, Ms. Lawler's and Ms. O'Keefe's "excess" deferrals were made into the Excess Plan, exactly as the process is designed to work. Unfortunately, the movement of salary deferrals from the 401(k) plan to the Excess Plan was not noticed in time to comply with the two-day filing requirement for Section 16(a) reports. The Company undertakes to prepare Section 16(a) reports on behalf of its Directors and officers. A transition of duties and associated lack of communication within the Company caused the reports to be inadvertently filed after the due date.

APPENDIX A
PROPOSED AMENDED ARTICLE V OF THE COMPANY'S AMENDED AND RESTATED
CERTIFICATE OF INCORPORATION TO IMPLEMENT THE ANNUAL ELECTION
OF DIRECTORS, AS EXPLAINED IN PROPOSAL TWO

(New language is underlined; language to be deleted is stricken)

ARTICLE V
BOARD OF DIRECTORS;
MANAGEMENT OF THE CORPORATION

Section 1. *Classified Board.* The Directors of the Corporation, subject to the rights of the holders of shares of any class or series of Preferred Stock, shall be classified with respect to the time for which they severally hold office, into three classes, as nearly equal in number as possible, as shall be provided in the By-laws of the Corporation, one class ("Class I") whose initial term expires at the 2002 annual meeting of stockholders, another class ("Class II") whose initial term expires at the 2003 annual meeting of stockholders, and another class ("Class III") whose initial term expires at the 2004 annual meeting of stockholders, with each class to hold office until its successors are elected and qualified. At each annual meeting of stockholders of the Corporation, the date of which will be fixed pursuant to the By-Laws of the Corporation, and subject to the rights of the holders of shares of any class or series of Preferred Stock, the successors of the class of Directors whose term expires at that meeting shall be elected to hold office for a term expiring at the annual meeting of stockholders held in the third year following the year of their election. At each annual meeting of the Corporation's stockholders commencing with the annual meeting held in 2011 and ending with the annual meeting in 2013, Directors elected to succeed those Directors whose terms then expire shall be elected at such meeting to hold office for a term expiring at the third annual meeting of stockholders following their respective elections. Directors elected at the annual meetings of the Corporation's stockholders in 2014 and 2015 shall each be elected for one-year terms expiring at the respective following annual meetings of stockholders.

Section 2. Elimination of Classified Board. Commencing with the annual meeting of the Corporation's stockholders in 2016, the foregoing classification of the Board of Directors shall cease. At the annual meeting of the Corporation's stockholders in 2016 and at each annual meeting of the Corporation's stockholders thereafter, each nominee for Director shall stand for election to a one-year term expiring at the next annual meeting of stockholders and until their respective successors shall have been duly elected and qualified, subject to prior death, resignation, retirement, disqualification or removal from office.

Section ~~2~~ **3**. *Director Discretion.* In determining what he or she reasonably believes to be in the best interests of the Corporation in the performance of his or her duties as a director, a Director may consider, to the extent permitted by law, both in the consideration of tender and exchange offers, mergers, consolidations and sales of all or substantially all of the Corporation's assets and otherwise, such factors as the Board of Directors determines to be relevant, including without limitation:

- (a) the interests of the policyholders of the Corporation's subsidiaries;
- (b) the long term and short term interests of the Corporation and its stockholders, including the possibility that the interests may be best served by the continued independence of the Corporation;
- (c) whether the proposed transaction might violate state or federal laws;
- (d) if applicable, not only the consideration being offered in a proposed transaction, in relation to the then current market price for the outstanding capital stock of the Corporation over a period of years, the estimated price that might be achieved in a negotiated sale of the Corporation as a whole or in part through orderly liquidation, the premiums over market price for the securities of other corporations in similar transactions, current political, economic and other factors bearing on securities prices and the Corporation's financial condition and future prospects; and
- (e) the interests of the Corporation's employees, suppliers, creditors and customers, the economy of the state, region and nation, and community and societal considerations.

Edgar Filing: PRINCIPAL FINANCIAL GROUP INC - Form DEF 14A

In connection with any such evaluation, the Board of Directors is authorized to conduct such investigations and to engage in such legal proceedings as the Board of Directors may determine.

Section ~~3~~ **4**. *Management of Business.* The following provisions are inserted for the management of the business and for the conduct of the affairs of the Corporation and for the purpose of creating, defining, limiting and regulating the powers of the Corporation and its Directors and stockholders:

- (a) Subject to the rights of any holders of any series of Preferred Stock, if any, to elect additional Directors under specified circumstances, the holders of a majority of the combined voting power of the then outstanding stock of the Corporation entitled to vote generally in the election of Directors may remove any Director or the entire Board of Directors, but only for cause; **provided that Directors elected at annual meetings of the Corporation's stockholders in 2016 and later may be so removed with or without cause.**
- (b) Vacancies in the Board of Directors resulting from death, resignation, retirement, disqualification, removal from office or other cause and newly created Directorships resulting from any increase in the authorized number of Directors shall be filled in the manner provided in the By-Laws of the Corporation.
- (c) Advance notice of nominations for the election of Directors shall be given in the manner and to the extent provided in the By-Laws of the Corporation.
- (d) The election of Directors may be conducted in any manner approved by the Board of Directors at the time when the election is held and need not be by written ballot.
- (e) All corporate powers and authority of the Corporation (except as at the time otherwise provided by law, by this Amended and Restated Certificate of Incorporation or by the By-Laws) shall be vested in and exercised by the Board of Directors.
- (f) The Board of Directors shall have the power without the assent or vote of the stockholders to adopt, amend, alter or repeal the By-Laws of the Corporation, except to the extent that the By-Laws or this Amended and Restated Certificate of Incorporation otherwise provide. In addition to any requirements of law and any other provision of this Amended and Restated Certificate of Incorporation, the stockholders of the Corporation may adopt, amend, alter or repeal any provision of the By-Laws upon the affirmative vote of the holders of three-fourths (³/₄) or more of the combined voting power of the then outstanding stock of the Corporation entitled to vote generally in the election of Directors.
