Form 10-Q
January 04, 2013

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended December 1, 2012
or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-06403
WINNEBAGO INDUSTRIES, INC.
(Exact name of registrant as specified in its charter)

Iowa 42-0802678
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

P. O. Box 152, Forest City, Iowa 50436
(Address of principal executive offices) (Zip Code)

(641) 585-3535
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No
Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web Site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of common stock, par value \$0.50 per share, outstanding January 3, 2013 was 28,105,645.

Winnebago Industries, Inc.

Unaudited Notes to Consolidated Financial Statements

Note 1: Basis of Presentation

The "Company," "we," "our" and "us" are used interchangeably to refer to Winnebago Industries, Inc. and its subsidiary, Winnebago of Indiana, LLC, as appropriate in the context.

We were incorporated under the laws of the state of Iowa on February 12, 1958 and adopted our present name on February 28, 1961. Our executive offices are located at 605 West Crystal Lake Road in Forest City, Iowa. Our telephone number is (641) 585-3535; our website is www.winnebagoind.com. Our common stock trades on the NYSE under the symbol "WGO".

In our opinion, the accompanying condensed unaudited consolidated financial statements contain all adjustments, consisting of normal recurring accruals, necessary to present fairly our consolidated financial position as of December 1, 2012 and the consolidated results of operations and comprehensive income and consolidated cash flows for the first three months of Fiscal 2013 and 2012. The consolidated statement of operations and comprehensive income for the first three months of Fiscal 2013 is not necessarily indicative of the results to be expected for the full year. The consolidated balance sheet data as of August 25, 2012 was derived from audited financial statements, but does not include all of the information and footnotes required by GAAP for complete financial statements. These interim financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto appearing in our Annual Report on Form 10-K for the fiscal year ended August 25, 2012.

Fiscal Period

We follow a 52-/53-week fiscal year, ending the last Saturday in August. Fiscal 2013 is a 53-week fiscal year and the first quarter ending December 1, 2012 was a 14-week quarter. Fiscal 2012 was a 52-week year and the first quarter ending November 26, 2011 was a 13-week quarter.

New Accounting Pronouncements

In June 2011, the FASB issued ASU 2011-05, Presentation of Comprehensive Income, which revised the manner in which entities present comprehensive income in their financial statements. Specifically, the new guidance requires an entity to present components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate but consecutive statements. While the new guidance changed the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income. ASU 2011-05 is effective for fiscal years beginning after December 15, 2011 (our Fiscal 2013). We adopted this guidance as of December 1, 2012, and have presented total comprehensive income in our Unaudited Consolidated Statements of Operations and Comprehensive Income.

In September 2011, the FASB issued ASU 2011-08, Testing Goodwill for Impairment, which simplified the manner in which entities test goodwill for impairment. After assessment of certain qualitative factors, if it is determined to be more likely than not that the fair value of a reporting unit is less than its carrying amount, entities must perform a quantitative analysis of the goodwill impairment test. Otherwise, the quantitative test becomes optional. ASU 2011-08 is effective for fiscal years beginning after December 15, 2011 (our Fiscal 2013). We do not believe that the adoption of this will have a significant impact on our consolidated financial statements.

Note 2: Concentration Risk

One of our dealer organizations, FreedomRoads, LLC, accounted for 28.3% and 25.9% of our consolidated net revenue in the first quarters of Fiscal 2013 and Fiscal 2012, respectively. The loss of this dealer organization could have a significant adverse effect on our business. In addition, deterioration in the liquidity or creditworthiness of FreedomRoads, LLC could negatively impact our sales and could trigger repurchase obligations under our repurchase

agreements.

Note 3: Fair Value Measurements

Assets and Liabilities that are Measured at Fair Value on a Recurring Basis

We account for fair value measurements in accordance with ASC 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measurement and expands disclosure about fair value measurement. The fair value hierarchy requires the use of observable market data when available. In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

Cash Equivalents

The carrying value of cash equivalents approximates fair value as original maturities are less than three months. Our cash equivalents are comprised of money market funds traded in an active market with no restrictions.

Table of Contents

The following tables set forth by level within the fair value hierarchy our financial assets that were accounted for at fair value on a recurring basis at December 1, 2012 and August 25, 2012 according to the valuation techniques we used to determine their fair values:

(In thousands)	Fair Value at December 1, 2012	Fair Value Measurements Using Inputs Considered As		
		Level 1 Quoted Prices in Active Markets for Identical Assets	Level 2 Significant Other Observable Inputs	Level 3 Significant Unobservable Inputs
Short-term investments:				
Student loan ARS with pending redemption	\$250	\$—	\$250	\$—
Long-term investments:				
Student loan ARS	8,823	—	—	8,823
Assets that fund deferred compensation:				
Domestic equity funds	7,853	7,853	—	—
International equity funds	999	999	—	—
Fixed income funds	488	488	—	—
Total assets at fair value	\$18,413	\$9,340	\$250	\$8,823

(In thousands)	Fair Value at August 25, 2012	Fair Value Measurements Using Inputs Considered As		
		Level 1 Quoted Prices in Active Markets for Identical Assets	Level 2 Significant Other Observable Inputs	Level 3 Significant Unobservable Inputs
Long-term investments:				
Student loan ARS	\$9,074	\$—	\$—	\$9,074
Assets that fund deferred compensation:				
Domestic equity funds	7,924	7,924	—	—
International equity funds	957	957	—	—
Fixed income funds	487	487	—	—
Total assets at fair value	\$18,442	\$9,368	\$—	\$9,074

The following table provides a reconciliation between the beginning and ending balances of items measured at fair value on a recurring basis in the table above that used significant unobservable inputs (Level 3):

(In thousands)	December 1, 2012	November 26, 2011
Balance at beginning of period	\$9,074	\$10,627
Transfer to Level 2	(250)	(250)
Net change included in other comprehensive income	(1)	(124)
Sales	—	(500)
Balance at end of period	\$8,823	\$9,753

The following table presents quantitative information regarding unobservable inputs that were significant to the valuation of assets measured at fair value on a recurring basis at December 1, 2012 using Level 3 inputs:

(In thousands)	Fair Value	Valuation Technique	Unobservable Input	Range	
				Low	High
Student loan ARS	\$8,823	DCF	Projected ARS yield	1.97%	2.10%

Discount for lack of marketability	2.95%	3.43%
---------------------------------------	-------	-------

6

Table of Contents

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Long-Term and Short-Term Investments

Our long-term and short-term investments are comprised of our ARS as described in Note 4. Our long-term ARS investments are classified as Level 3, as quoted prices were unavailable due to events described in Note 4. Due to limited market information, we utilized a DCF model to derive an estimate of fair value for the ARS at December 1, 2012. The assumptions used in preparing the DCF model included estimates with respect to the amount and timing of future interest and principal payments, forward projections of the interest rate benchmarks, the probability of full repayment of the principal considering the credit quality and guarantees in place and the rate of return required by investors to own such securities given the current liquidity risk associated with ARS. All of our short-term ARS portfolio is classified as Level 2 as they are also in an inactive market, but inputs other than quoted prices were observable and used to value the securities.

Assets that Fund Deferred Compensation

Our assets that fund deferred compensation are marketable equity securities measured at fair value using quoted market prices and primarily consist of equity-based mutual funds. They are classified as Level 1 as they are traded in an active market for which closing stock prices are readily available. These securities fund the Executive Share Option Plan (see Note 10), a deferred compensation program, and are presented as other assets in the accompanying balance sheets.

Assets and Liabilities that are Measured at Fair Value on a Nonrecurring Basis

Our non-financial assets, which include goodwill, intangible assets and property and equipment, are not required to be measured at fair value on a recurring basis. However, if certain triggering events occur, or if an annual impairment test is required, we must evaluate the non-financial asset for impairment. If an impairment did occur, the asset is required to be recorded at the estimated fair value. During the first quarter of Fiscal 2013, no impairments were recorded for non-financial assets.

Note 4: Investments

We own investments in marketable securities that have been designated as "available for sale" in accordance with ASC 320, Investments - Debt and Equity Securities. Available for sale securities are carried at fair value with the unrealized gains and losses reported in "Accumulated Other Comprehensive Income," a component of stockholders' equity.

At December 1, 2012, we held \$9.7 million (par value) of tax-exempt ARS, which are variable-rate debt securities and have a long-term maturity with the interest rate being reset through Dutch auctions that are typically held every 7, 28 or 35 days. Prior to February 2008, these securities traded at par and are callable at par at the option of the issuer. Interest is typically paid at the end of each auction period or semiannually. The ARS we hold are rated AAA by Standard & Poor's Ratings Services and AAA to A by Fitch Ratings, and are collateralized by student loans guaranteed by the US Government under the Federal Family Education Loan Program.

Since February 2008, most ARS auctions have failed and there is no assurance that future auctions for our ARS will succeed and, as a result, our ability to liquidate our investment and fully recover the par value in the near term may be limited or nonexistent. We have no reason to believe that any of the underlying issuers of our ARS are presently at risk of default. We have continued to receive interest payments on the ARS in accordance with their terms. We believe we will ultimately be able to liquidate our ARS related investments without significant loss primarily due to the collateral securing the ARS, but also due to the partial redemptions we have received over the last three fiscal years at par value. However, redemption could take until final maturity of the ARS (up to 29 years) to realize the par value of our investments. Due to the changes and uncertainty in the ARS market, we believe the recovery period for these investments is likely to be longer than 12 months and as a result, we have classified these investments as long-term as of December 1, 2012. During the first quarter of Fiscal 2013 we received notice of a partial redemption on a particular ARS with payment received on December 4, 2012. As a result, of the total \$9.7 million of ARS

investments, we have classified \$9.4 million (par value) as long-term with the remaining amount of \$250,000 classified as short-term investments as of December 1, 2012.

At December 1, 2012, there was insufficient observable ARS market information available to determine the fair value of our ARS investments. Therefore, we estimated fair value by incorporating assumptions that market participants would use in their estimates of fair value. Some of these assumptions included credit quality, final stated maturities, estimates on the probability of the issue being called prior to final maturity, impact due to extended periods of maximum auction rates and broker quotes from independent evaluators. Based on this analysis, we recorded an unrealized temporary impairment of \$577,000 in accumulated other comprehensive income before tax considerations related to our long-term ARS investments of \$9.4 million (par value) at December 1, 2012.

Table of Contents

Note 5: Inventories

Inventories consist of the following:

(In thousands)	December 1, 2012	August 25, 2012
Finished goods	\$34,443	\$30,054
Work-in-process	58,238	45,240
Raw materials	45,058	42,824
Total	137,739	118,118
LIFO reserve	(31,376) (31,024
Total inventories	\$106,363	\$87,094

The above value of inventories, before reduction for the LIFO reserve, approximates replacement cost. Of the \$137.7 million and \$118.1 million inventory at December 1, 2012 and August 25, 2012, respectively, \$127.9 million and \$110.1 million is valued on a LIFO basis. Towables inventory of \$9.8 million and \$8.0 million at December 1, 2012 and August 25, 2012, respectively, is valued on a FIFO basis.

Note 6: Property, Plant and Equipment and Assets Held for Sale

Property, plant and equipment is stated at cost, net of accumulated depreciation and consists of the following:

(In thousands)	December 1, 2012	August 25, 2012
Land	\$757	\$757
Buildings and building improvements	49,928	49,641
Machinery and equipment	91,378	90,775
Transportation	8,839	8,858
Total property, plant and equipment, gross	150,902	150,031
Less accumulated depreciation	(130,775) (130,053
Total property, plant and equipment, net	\$20,127	\$19,978

Assets Held for Sale

During the first quarter of Fiscal 2013, an idled fiberglass facility in Hampton, Iowa classified as held for sale, was sold. The sale was finalized on August 30, 2012 and generated \$550,000 in gross proceeds, selling costs of \$28,000 and a loss of \$28,000.

Note 7: Goodwill and Amortizable Intangible Assets

Goodwill and intangible assets are the result of the acquisition of SunnyBrook during Fiscal 2011. Goodwill of \$1.2 million is not subject to amortization for financial statement purposes, but is amortizable for tax return purposes. Amortizable intangible assets are amortized on a straight-line basis. The weighted average remaining amortization period at December 1, 2012 is 7.9 years.

Goodwill is reviewed for impairment annually or whenever events or circumstances indicate a potential impairment. Intangible assets are also subject to impairment tests whenever events or circumstances indicate that the asset's carrying value may exceed its estimated fair value, at which time an impairment would be recorded.

Amortizable intangible assets consist of the following:

(In thousands)	December 1, 2012		August 25, 2012	
	Cost	Accumulated Amortization	Cost	Accumulated Amortization
Dealer network	\$534	\$102	\$534	\$88
Trademarks	196	38	196	32

Edgar Filing: WINNEBAGO INDUSTRIES INC - Form 10-Q

Non-compete agreement	40	11	40	10
Total	\$770	\$151	\$770	\$130

8

Table of Contents

Estimated amortization expense of intangible assets for next five fiscal years is as follows:

(In thousands)		Amount
Year Ended:	2014	\$79
	2015	79
	2016	79
	2017	79
	2018	79

Note 8: Credit Facilities

On October 13, 2012, we terminated our Loan Agreement with Wells Fargo Bank, National Association in accordance with its terms. There was no termination fee associated with this agreement, and no borrowings had been made.

On October 31, 2012, we entered into the Credit Agreement with GECC. The Credit Agreement provides for an initial \$35.0 million revolving credit facility based on the Company's eligible inventory and expires on October 31, 2015, unless terminated earlier in accordance with its terms. There is no termination fee associated with the Credit Agreement.

The Credit Agreement contains no financial covenant restrictions for borrowings where we have excess borrowing availability under the facility of greater than \$5.0 million. The Credit Agreement requires us to comply with a fixed charge ratio if excess borrowing availability under the facility is less than \$5.0 million or if we repurchase more than \$25.0 million of company stock within the first twelve months of the date of the Credit Agreement. In addition the Credit Agreement also includes a framework to expand the size of the facility up to \$50.0 million, based on mutually agreeable terms at the time of the expansion. Interest on loans made under the new facility will be based on LIBOR plus a margin of 3.0%. The initial unused line fee associated with the Credit Agreement is 0.5% per annum and has the ability to be lowered based upon facility usage.

The Credit Agreement contains typical affirmative representations and covenants for a credit agreement of this size and nature. Additionally, the Credit Agreement contains negative covenants limiting our ability, among other things, to incur debt, grant liens, make acquisitions, make certain investments, pay certain dividends and distributions, engage in mergers, consolidations or acquisitions and sell certain assets. Obligations under the Credit Agreement are secured by a security interest in all of our accounts and other receivables, chattel paper, documents, deposit accounts, instruments, equipment, inventory, investment property, leasehold interest, cash and cash equivalents, letter-of-credit rights, most real property and fixtures and certain other business assets. No borrowings have been made under the Credit Agreement as of December 1, 2012 .

Note 9: Warranty

We provide our motorhome customers a comprehensive 12-month/15,000-mile warranty on our Class A, B and C motorhomes, and a 3-year/36,000-mile structural warranty on Class A and C sidewalls and floors. We provide a comprehensive 12-month warranty on all towable products. We have also incurred costs for certain warranty-type expenses which occurred after the normal warranty period. We have voluntarily agreed to pay such costs to help protect the reputation of our products and the goodwill of our customers. Estimated costs related to product warranty are accrued at the time of sale and are based upon past warranty claims and unit sales history and adjusted as required to reflect actual costs incurred, as information becomes available. A significant increase in dealership labor rates, the cost of parts or the frequency of claims could have a material adverse impact on our operating results for the period or periods in which such claims or additional costs materialize. We also incur costs as a result of additional service actions not covered by our warranties, including product recalls and customer satisfaction actions. Estimated costs are accrued at the time the service action is implemented and are based upon past claim rate experiences and the estimated cost of the repairs.

Changes in our product warranty liability are as follows:

(In thousands)	December 1, 2012	November 26, 2011
----------------	---------------------	----------------------

Edgar Filing: WINNEBAGO INDUSTRIES INC - Form 10-Q

Balance at beginning of period	\$6,990	\$7,335

Table of Contents

Note 10: Employee and Retiree Benefits

Postretirement health care and deferred compensation benefits are as follows:

(In thousands)	December 1, 2012	August 25, 2012
Postretirement health care benefit cost	\$45,386	\$45,132
Non-qualified deferred compensation	23,327	23,630
Executive share option plan liability	7,807	7,798
SERP benefit liability	3,207	3,342
Executive deferred compensation	117	102
Officer stock-based compensation	624	—
Total postretirement health care and deferred compensation benefits	80,468	80,004
Less current portion	(6,042) (4,869
Long-term postretirement health care and deferred compensation benefits	\$74,426	\$75,135

Postretirement Health Care Benefits

We provide certain health care and other benefits for retired employees hired before April 1, 2001, who have fulfilled eligibility requirements at age 55 with 15 years of continuous service. We use a September 1 measurement date for this plan and our postretirement health care plan currently is not funded. Changes in the postretirement benefit plan include:

In Fiscal 2005, we established dollar caps on the amount that we will pay for postretirement health care benefits per retiree on an annual basis so that we were not exposed to continued medical inflation. Retirees are required to pay a monthly premium in excess of the employer dollar caps for medical coverage based on years of service and age at retirement.

In January 2012 the employer established dollar caps were reduced by 10%, which reduced our liability for postretirement health care by \$4.6 million.

In October 2012, our Board of Directors approved an additional reduction in the employer dollar caps to be effective in January 2013 whereby the employer established dollar caps for postretirement health care benefits per eligible employee will be reduced by 10%, which is estimated to reduce our liability for postretirement health care by approximately \$5.6 million and will be amortized as prior service credit over the next seven fiscal years.

Net periodic postretirement benefit income consisted of the following components:

(In thousands)	Quarter Ended	
	December 1, 2012	November 26, 2011
Interest cost	\$394	\$481
Service cost	152	140
Amortization of prior service benefit	(1,176) (1,011
Amortization of net actuarial loss	396	247
Net periodic postretirement benefit income	\$(234) \$(143
Payments for postretirement health care	\$291	\$323

Note 11: Stock-Based Compensation Plans

We have a 2004 Incentive Compensation Plan approved by shareholders (as amended, the "Plan") in place which allows us to grant or issue non-qualified stock options, incentive stock options, share awards and other equity compensation to key employees and to non-employee directors.

On October 10, 2012 the Board of Directors granted an aggregate of 155,600 shares of restricted common stock to our key employees and non-employee directors. The value of the restricted stock award is determined using the intrinsic value method which, in this case, is based on the number of shares granted and the closing price of our common stock on the date of grant.

Stock-based compensation expense was \$687,000 and \$177,000 during the first quarters of Fiscal 2013 and 2012, respectively. Of the \$687,000, \$535,000 related to the October 10, 2012 grant. The remainder is related to the amortization of previously granted restricted stock awards, as well as nonemployee director stock units issued in lieu of their fees. Compensation expense is recognized over the requisite service period of the award or over a period ending with the employee's eligible retirement date, if earlier.

Table of Contents

Note 12: Contingent Liabilities and Commitments

Repurchase Commitments

Generally, manufacturers in the RV industry enter into repurchase agreements with lending institutions which have provided wholesale floorplan financing to dealers. Most dealers' RVs are financed on a "floorplan" basis under which a bank or finance company lends the dealer all, or substantially all, of the purchase price, collateralized by a security interest in the recreation vehicles purchased.

Our repurchase agreements provide that, in the event of default by the dealer on the agreement to pay the lending institution, we will repurchase the financed merchandise. The terms of these agreements, which generally can last up to 18 months, provide that our liability will be the lesser of remaining principal owed by the dealer or dealer invoice less periodic reductions based on the time since the date of the original invoice. Our contingent liability on these repurchase agreements was approximately \$192.6 million and \$165.4 million at December 1, 2012 and August 25, 2012, respectively.

In certain instances, we also repurchase inventory from our dealers due to state law or regulatory requirements that govern voluntary or involuntary relationship terminations. Although laws vary from state to state, some states have laws in place that require manufacturers of recreation vehicles to repurchase current inventory if a dealership exits the business. Incremental repurchase exposure beyond existing repurchase agreements, related to dealer inventory in states that we have had historical experience of repurchasing inventory, totaled \$6.1 million and \$5.0 million at December 1, 2012 and August 25, 2012, respectively.

Our risk of loss related to our repurchase commitments is significantly reduced by the potential resale value of any products that are subject to repurchase and is spread over numerous dealers and lenders. The aggregate contingent liability related to our repurchase agreements represents all financed dealer inventory at the period reporting date subject to a repurchase agreement, net of the greater of periodic reductions per the agreement or dealer principal payments. Based on the repurchase exposure as previously described, we established an associated loss reserve. Our accrued losses on repurchases were \$740,000 as of December 1, 2012 and \$627,000 as of August 25, 2012.

We had no repurchase activity in the first quarter of Fiscal 2013. A summary of repurchase activity is as follows:

(Dollars in thousands)	Quarter Ended	
	December 1, 2012	November 26, 2011
Inventory repurchased:		
Units	—	17
Dollars	\$—	\$1,249
Inventory resold:		
Units	—	12
Cash collected	\$—	\$1,043
Loss recognized	\$—	\$117
Units in ending inventory	—	—

We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our loss reserve for repurchase commitments. A hypothetical change of a 10% increase or decrease in our significant repurchase commitment assumptions at December 1, 2012 would have affected net income by approximately \$208,000.

Litigation

We are involved in various legal proceedings which are ordinary routine litigation incidental to our business, some of which are covered in whole or in part by insurance. We believe while the final resolution of any such litigation may have an impact on our results for a particular reporting period, the ultimate disposition of such litigation will not have any material adverse effect on our financial position, results of operations or liquidity.

Note 13: Income Taxes

We account for income taxes under ASC 740, Income Taxes. The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our financial statements or tax returns.

Significant judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities and any valuation allowance recorded against our deferred tax assets. Valuation allowances arise due to uncertainty of realizing deferred tax assets. ASC 740 requires that companies assess whether valuation allowances should be established against their deferred tax assets based on the consideration of all available evidence, using a “more-likely-than-not” standard. In making such assessments, significant weight is given to evidence that can be objectively verified. A company's current or previous losses are given more weight than its future outlook. Based on ASC 740 guidelines, as of December 1, 2012 and August 25, 2012, we have applied a valuation allowance of \$1.6 million and \$1.6 million, respectively, against our deferred tax assets. We will continue to

Table of Contents

assess the likelihood that our deferred tax assets will be realizable at each reporting period and our valuation allowance will be adjusted accordingly, which could materially impact our financial position and results of operations.

We file tax returns in the U.S. federal jurisdiction, as well as various international and state jurisdictions. Although certain years are no longer subject to examinations by the IRS and various state taxing authorities, net operating loss carryforwards generated in those years may still be adjusted upon examination by the IRS or state taxing authorities if they either have been or will be used in a future period. Due to such carryback claims, our federal returns from Fiscal 2004 to present continue to be subject to review by the IRS. As such, the IRS is currently reviewing our Fiscal 2011 federal tax return. A number of years may elapse before an uncertain tax position is audited and finally resolved, and it is often very difficult to predict the outcome of such audits. Periodically, various state and local jurisdictions conduct audits, therefore, a variety of years are subject to state and local jurisdiction review.

As of December 1, 2012, our unrecognized tax benefits were \$5.1 million, of which if realized \$3.1 million could have a positive impact on the overall effective tax rate. It is our policy to recognize interest and penalties accrued relative to unrecognized tax benefits as tax expense. As of December 1, 2012, we had accrued \$2.1 million in interest and penalties which are included in unrecognized tax benefits. We do not anticipate any significant changes in unrecognized tax benefits within the next twelve months. Actual results may differ materially from this estimate.

Note 14: Earnings Per Share

The following table reflects the calculation of basic and diluted income per share:

(In thousands, except per share data)	Quarter Ended	
	December 1, 2012	November 26, 2011
Income per share - basic		
Net income	\$7,391	\$1,035
Weighted average shares outstanding	28,301	29,138
Net income per share - basic	\$0.26	\$0.04
Income per share - assuming dilution		
Net income	\$7,391	\$1,035
Weighted average shares outstanding	28,301	29,138
Dilutive impact of awards and options outstanding	60	74
Weighted average shares and potential dilutive shares outstanding	28,361	29,212
Net income per share - assuming dilution	\$0.26	\$0.04

At the end of the first quarters of Fiscal 2013 and Fiscal 2012, there were options outstanding to purchase 689,328 shares and 924,731 shares, respectively, of common stock at an average price of \$29.57 and \$28.05, respectively, which were not included in the computation of diluted income per share because they are considered anti-dilutive under the treasury stock method per ASC 260, Earnings Per Share.

Note 15: Subsequent Event

We evaluated all events or transactions occurring between the balance sheet date for the quarterly period ended December 1, 2012 and the date of issuance of the financial statements that would require recognition or disclosure in the financial statements. There were no material subsequent events.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

It is suggested this management's discussion be read in conjunction with the Financial Statements contained in this Form 10-Q as well as the Management's Discussion and Analysis and Risk Factors included in our Annual Report on

Form 10-K for the fiscal year ended August 25, 2012.

Forward-Looking Information

Certain of the matters discussed in this Quarterly Report on Form 10-Q are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which involve risks and uncertainties. A number of factors could cause actual results to differ materially from these statements, including, but not limited to, increases in interest rates, availability of credit, low consumer confidence, significant increase in repurchase obligations, inadequate liquidity or capital resources, availability and price of fuel, a slowdown in the economy, increased material and component costs, availability of chassis and other key component parts, sales order cancellations, slower than anticipated sales of new or existing products, new product introductions by competitors, the effect of global tensions, integration of operations relating to mergers and acquisitions activities and other factors which may be disclosed throughout this

12

Table of Contents

report. Although we believe that the expectations reflected in the “forward-looking statements” are reasonable, we cannot guarantee future results, or levels of activity, performance or achievements. Undue reliance should not be placed on these “forward-looking statements,” which speak only as of the date of this report. We undertake no obligation to publicly update or revise any “forward-looking statements” whether as a result of new information, future events or otherwise, except as required by law or the rules of the NYSE.

Executive Overview

Winnebago Industries, Inc. is a leading US manufacturer of RVs with a proud history of manufacturing RV products for more than 50 years. We produce all of our motorhomes in vertically integrated manufacturing facilities in Iowa and we produce all travel trailer and fifth wheels ("towables") in Indiana. We distribute our products primarily through independent dealers throughout the US and Canada, who then retail the products to the end consumer.

Our retail unit market share, as reported by Stat Surveys based on official state records, is illustrated below. Note that this data is subject to adjustment and is continuously updated.

Highlights of our most recent quarter:

Motorized performance:

We continued to see growing demand for our product during the first quarter of Fiscal 2013 at the wholesale and retail level, as evidenced by the sequential increase of our wholesale deliveries and retail registrations in the table above for the two most recent quarters. We began increasing our weekly production rate this past summer and continued to do so during the fall in response to the growing demand. The ramp up in our production has been accomplished through a combination of overtime and hiring incremental hourly employees; it also required ordering larger quantities of materials. The benefit of the increased production in the first quarter of Fiscal 2013 is evident in our improved operating results, notably due to better absorption of our overhead costs.

In comparison, we experienced a dramatically different environment one year ago during the first quarter of Fiscal 2012. Demand was very weak and as a result we had multiple shortened work weeks during that quarter, thus production was 64% lower than the first quarter of Fiscal 2013. Conversely, the first quarter of Fiscal 2013 benefited from an additional week of operating performance as the first quarter of Fiscal 2013 was 14-week quarter.

Towables performance:

Towables generated an operating loss of \$1.4 million in the first quarter of Fiscal 2013 compared to an operating loss of \$219,000 in the first quarter of Fiscal 2012. The two most significant issues that negatively impacted Towables' operating performance during the first quarter of Fiscal 2013 were increased warranty expense and unfavorable overhead variances due to lower production. Significant changes were made throughout the quarter in key management positions to address the recent performance problems.

(1) Towable wholesale shipments as reported by RVIA, rounded to the nearest hundred.

(2) Towable retail registrations as reported by Stat Surveys for the US and Canada combined, rounded to the nearest hundred.

December 2012 towable wholesale shipments are based upon the forecast prepared by Dr. Richard Curtin of the

(3) University of Michigan Consumer Survey Research Center for RVIA and reported in the RoadSigns RV Winter 2012 Industry Forecast Issue. The revised annual

Table of Contents

2012 wholesale shipment forecast was 235,700 (prior to actual October and November shipments being available) and the annual forecast for 2013 is 249,000.

(4) Stat Surveys has not issued a projection for 2012 retail demand for this period.

The towable retail market has not been as negatively impacted in recent years as the motorized market. The size of the towable market was nearly nine times larger than the motorized market on a unit basis in Calendar 2011. This is primarily due to the fact that average price of a towable unit is considerably less than a motorhome.

Company Outlook

Based on our profitable operating results in recent years, we believe that we have demonstrated our ability to maintain our liquidity, cover operations costs, recover fixed assets, and maintain physical capacity at present levels. Now that we have entered into the towable market, we have the potential to grow revenues and earnings in a market significantly larger than the motorized market.

As evidenced in the following table, our sales order backlog at the end of the first quarter of Fiscal 2013 significantly increased as compared to the end of the first quarter of Fiscal 2012. It has also increased sequentially from the end of Fiscal 2012 fourth quarter, as previously illustrated. We believe the increase is a result of the positive dealer response to our new 2013 model year products and increased retail registration activity of our products this past summer and fall.

As a result of the improved demand, we have been increasing our production throughout the past six months. We plan to continue to increase our weekly production schedule in the second quarter of Fiscal 2013 to meet the growing demand for our products, while managing constraints as they present themselves in relation to labor and component parts.

Our motorized sales order backlog of 2,118 as of December 1, 2012 represents orders to be shipped in the next two quarters. Notably, there are a few key reasons that these orders will not all be delivered in the second quarter of Fiscal 2013:

Timing of new model production: Production of a new Class C model for which orders were taken at the National RV Show at the end of our first fiscal quarter starts in February of 2013 (the last month of our second fiscal quarter), thus a portion of our sales order backlog will not be through the production process and sold until our third fiscal quarter.

Chassis availability: Due to the limited availability of Class A gas chassis, a portion of our sales order backlog will not be produced and sold until our third fiscal quarter of Fiscal 2013.

Fewer production days in our second quarter: Production is shut down over the holidays and to perform a physical inventory observation, thus there are 57 days of production in the second quarter. In comparison, there were 67 production days in our first fiscal quarter which did include one additional week as Fiscal 2013 is a 53-week year.

Orders in backlog can be cancelled or postponed at the option of the dealer at any time without penalty.

We believe that the level of our dealer inventory at the end of the first quarter of Fiscal 2013 is lower than what it should be given the improved retail demand and increased sales order backlog of our product.

Our unit order backlog was as follows:

(In units)	As Of					Increase (Decrease)	% Change	
	December 1, 2012	November 26, 2011						
Class A gas	884	41.7	%	213	34.5	% 671	315.0	%
Class A diesel	389	18.4	%	172	27.8	% 217	126.2	%
Total Class A	1,273	60.1	%	385	62.3	% 888	230.6	%
Class B	111	5.2	%	47	7.6	% 64	136.2	%

Edgar Filing: WINNEBAGO INDUSTRIES INC - Form 10-Q

Class C	734	34.7	%	186	30.1	%	548	294.6	%
Total motorhome backlog ⁽¹⁾	2,118	100.0	%	618	100.0	%	1,500	242.7	%
Travel trailer	557	81.1	%	280	60.9	%	277	98.9	%
Fifth wheel	130	18.9	%	180	39.1	%	(50)	(27.8))%
Total towable backlog ⁽¹⁾	687	100.0	%	460	100.0	%	227	49.3	%

Approximate backlog revenue in thousands

Motorhome	\$226,457		\$70,546		\$155,911	221.0	%
Towable	\$14,049		\$10,381		\$3,668	35.3	%

We include in our backlog all accepted purchase orders from dealers to be shipped within the next six months.

⁽¹⁾ Orders in backlog can be cancelled or postponed at the option of the dealer at any time without penalty and, therefore, backlog may not necessarily be an accurate measure of future sales.

Table of Contents

Net revenues consisted of the following:

(In thousands)	Quarter Ended				Increase	% Change	
	December 1, 2012		November 26, 2011				
Motorhomes ⁽¹⁾	\$ 169,995	87.8	% \$ 111,668	84.7	% \$ 58,327	52.2	%
Towables ⁽²⁾	12,071	6.2	% 10,081	7.6	% 1,990	19.7	%
Motorhome parts and services	3,833	2.0	% 3,637	2.8	% 196	5.4	%
Other manufactured products	7,655	4.0	% 6,451	4.9	% 1,204	18.7	%
Total net revenues	\$ 193,554	100.0	% \$ 131,837	100.0	% \$ 61,717	46.8	%

(1) Motorhome unit revenue less discounts, sales promotions and incentives, and accrued loss on repurchase adjustments.

(2) Includes towable units and parts.

The increase in motorhome net revenues of \$58.3 million or 52.2% was attributed primarily to a 47.5% increase in unit deliveries, as well as an increase in motorhome ASP of 3.2% and the additional week in the first quarter of Fiscal 2013 as compared to the first quarter of Fiscal 2012.

Towables revenues were \$12.1 million in the first quarter of Fiscal 2013, compared to \$10.1 million in the first quarter of Fiscal 2012. The increase was due to increased unit deliveries.

Cost of goods sold was \$172.8 million, or 89.3% of net revenues for the first quarter of Fiscal 2013 compared to \$123.3 million, or 93.6% of net revenues for the first quarter of Fiscal 2012 due to the following:

Total variable costs (materials, direct labor, variable overhead, delivery expense and warranty), as a percent of net revenues, decreased to 83.7% this year from 85.2% last year which was primarily due to lower material costs and greater production efficiencies due to increased production levels.

Fixed overhead (manufacturing support labor, depreciation and facility costs) and research and development-related costs decreased to 5.6% of net revenues compared to 8.4% for Fiscal 2012. This difference was primarily due to higher plant utilization due to the additional week in the first quarter of Fiscal 2013 and significantly higher production run rates in Fiscal 2013.

All factors considered, gross profit increased from 6.4% to 10.7% of net revenues.

Selling expenses increased \$799,000, or 19.2%, in the first quarter of Fiscal 2013. The expense increase was primarily due to advertising expenses associated with the timing of our Louisville show falling in the first quarter of Fiscal 2013 and increased sales compensation expense. As a percent of net revenues, selling expenses were 2.6% and 3.2% in the first quarter of Fiscal 2013 and Fiscal 2012, respectively.

General and administrative expenses increased \$2.1 million, or 56.8% in the first quarter of Fiscal 2013. This increase was due primarily to increases of \$1.5 million in incentives accrued under annual and long-term bonus plans, \$248,000 in stock-based compensation expense associated with the stock grant awarded in the first quarter of Fiscal 2013, and \$232,000 in legal expenses. As a percent of net revenues, general and administrative expenses were 3.0% and 2.8% in the first quarter of Fiscal 2013 and Fiscal 2012, respectively.

During the first quarter of Fiscal 2013 we realized a loss of \$28,000 on the sale of an idled manufacturing facility (Hampton). See Note 6.

Non-operating income increased \$357,000 or 138.9%, in the first quarter of Fiscal 2013. This difference is primarily due to increased proceeds from COLI policies of \$331,000.

The overall effective income tax provision rate for the first quarter of Fiscal 2013 was 30.0% compared to the tax benefit rate of (17.1)% for the first quarter of Fiscal 2012. The increase in tax rate for the first quarter of Fiscal 2013 most notably is a result of a higher level of pretax book income earned during the quarter. We also had a reduced level (in comparison to book income) of benefits recorded for uncertain tax positions during the quarter. Most notably, our effective tax benefit rate for the first quarter of Fiscal 2012 was positively impacted by the relationship of tax-exempt income in relation to book income. The tax-exempt income is primarily tax-free investment income from investments

in life insurance assets and ARS. In addition, we recorded tax benefits in the quarter associated with reductions to reserves for uncertain tax positions.

Net income and diluted income per share were \$7.4 million and \$0.26 per share, respectively, for the first quarter of Fiscal 2013. In the first quarter of Fiscal 2012, the net income was \$1,035,000 and diluted income was \$0.04 per share. The impact of stock repurchases since July, 2012 on diluted net income per share was an increase of \$0.01 for the first quarter of Fiscal 2013. See Part II, Item 2.

Table of Contents

Analysis of Financial Condition, Liquidity and Resources

Cash and cash equivalents decreased \$18.6 million during the first quarter of Fiscal 2013 and totaled \$44.1 million as of December 1, 2012. Significant liquidity events that occurred during the first quarter of Fiscal 2013 were:

Generated income before tax of \$10.6 million.

Increase in inventory of \$19.6 million: The increase was primarily a result of increased work-in-process and raw material inventory due to increased production levels, and higher average cost per unit due to the mix of product ordered by our dealers.

Stock repurchases of approximately \$7.2 million.

On October 31, 2012, we entered into the Credit Agreement with GECC. The Credit Agreement provides for an initial \$35.0 million revolving credit facility based on our eligible inventory and expires on October 31, 2015 unless terminated earlier in accordance with its terms. There is no termination fee associated with the Credit Agreement.

The Credit Agreement contains no financial covenant restrictions for borrowings where we have excess borrowing availability under the facility of greater than \$5.0 million. The Credit Agreement requires us to comply with a fixed charge ratio if excess borrowing availability under the facility is less than \$5.0 million or if we repurchase more than \$25.0 million of company stock within the first twelve months of the date of the Credit Agreement. In addition, the Credit Agreement also includes a framework to expand the size of the facility up to \$50.0 million, based on mutually agreeable terms at the time of the expansion. See Note 8.

We filed a Registration Statement on Form S-3, which was declared effective by the SEC on March 31, 2010. Subject to market conditions, we have the ability to offer and sell up to \$35 million of our common stock in one or more offerings pursuant to the Registration Statement. The Registration Statement will be available for use for three years from its effective date. We currently have no plans to offer and sell the common stock registered under the Registration Statement; however, it does provide another potential source of liquidity in addition to the alternatives already in place. We intend to file a Registration Statement on Form S-3 in March 2013.

Working capital at December 1, 2012 and August 25, 2012 was \$126.5 million and \$126.1 million, respectively, an increase of \$463,000. We currently expect cash on hand, funds generated from operations and the availability under a credit facility to be sufficient to cover both short-term and long-term operating requirements. We anticipate capital expenditures during the balance of Fiscal 2013 of approximately \$4.6 million, primarily for manufacturing equipment and facilities.

We made share repurchases of \$7.2 million in the first quarter of Fiscal 2013. If we believe the common stock is trading at attractive levels we may purchase additional shares in the remainder of Fiscal 2013.

Operating Activities

Cash used in operating activities was \$10.3 million for the quarter ended December 1, 2012 compared to cash provided by operating activities of \$1.2 million for the quarter ended November 26, 2011. The combination of net income of \$7.4 million in Fiscal 2013 and changes in non-cash charges (e.g., depreciation, LIFO, stock-based compensation, deferred income taxes) provided \$8.9 million of operating cash compared to \$2.0 million in the first quarter of Fiscal 2012. In the quarter ended December 1, 2012 changes in assets and liabilities (primarily inventory increases) used an additional \$19.2 million of operating cash. In the quarter ended November 26, 2011, changes in assets and liabilities (primarily decreases in accounts payable and accrued expenses partially offset by decreases in inventories and accounts receivable and prepaid assets) used \$889,000 of operating cash.

Investing Activities

Cash used in investing activities of \$975,000 for the quarter ended December 1, 2012 was due primarily to payments of COLI borrowings of \$1.4 million and capital spending of \$1.3 million, and was partially offset by proceeds of \$974,000 from COLI policies and proceeds of \$566,000 from the sale of property. In the quarter ended November 26, 2011, cash provided by investing activities was due to COLI proceeds of \$643,000 and \$500,000 of ARS redemptions, partially offset by capital spending of \$456,000.

Financing Activities

Cash used in financing activities of \$7.3 million for the quarter ended December 1, 2012 was primarily due to \$7.2 million in repurchases of our stock. Cash provided by financing activities for the quarter ended November 26, 2011 was \$33,000.

Significant Accounting Policies

We describe our significant accounting policies in Note 1, Summary of Significant Accounting Policies, of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended August 25, 2012. We discuss our critical accounting estimates in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K for the fiscal year ended August 25, 2012. We refer to these disclosures for a detailed explanation of our significant accounting policies and critical accounting estimates. There has been no significant change in our significant accounting policies or critical accounting estimates since the end of Fiscal 2012.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We have market risk exposure to our ARS, which is described in further detail in Note 4.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain "disclosure controls and procedures", as such term is defined under Securities Exchange Act of 1934, as amended ("Exchange Act") Rule 13a-15(e), that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures, which, by their nature, can provide only reasonable assurance regarding management's disclosure control objectives.

We have carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, required by Exchange Act Rule 13a-15(b), as of the end of the period covered by this Report (the "Evaluation Date"). Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of the Evaluation Date.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting as defined in Exchange Act Rule 13a-15(f) that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in various legal proceedings which are ordinary routine litigation incidental to our business, some of which are covered in whole or in part by insurance. We believe, while the final resolution of any such litigation may have an impact on our results for a particular reporting period, the ultimate disposition of such litigation will not have any material adverse effect on our financial position, results of operations or liquidity.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On December 19, 2007, the Board of Directors authorized the repurchase of outstanding shares of our common stock, depending on market conditions, for an aggregate consideration of up to \$60 million. There is no time restriction on this authorization. During the first quarter of Fiscal 2013, approximately 594,000 shares were repurchased under the authorization, at an aggregate cost of approximately \$7.2 million. Approximately 9,700 of these shares were repurchased from employees who vested in Winnebago Industries shares during the first quarter of Fiscal 2013 and elected to pay their payroll tax via shares as opposed to cash. As of December 1, 2012, there was approximately \$45.5 million remaining under this authorization.

This table provides information with respect to purchases by us of shares of our common stock during each fiscal month of the first quarter of Fiscal 2013:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Number of Shares Purchased as Part of Publicly Announced	Approximate Dollar Value of Shares That May Yet Be Purchased Under the
