PROXY STATEMENT
for
Annual Meeting of Stockholders

to be held April 21, 2004

GENERAL INFORMATION

This proxy statement is being furnished to the stockholders of Gold Banc Corporation, Inc., a Kansas corporation (the "Company"), in connection with the Annual Meeting of Stockholders to be held in Cottonwood 3 Ballroom at the Sheraton Overland Park, 6100 College Blvd, Overland Park, Kansas on Wednesday, April 21, 2004, at 9:00 a.m. local time. This proxy statement was first mailed on or about March 22, 2004 to all stockholders entitled to vote at the Annual Meeting.

The Company's Board of Directors is soliciting proxies in order to provide every stockholder with an opportunity to vote on all matters scheduled to come before the Annual Meeting and to be able to transact business at the meeting. Whether or not you are able to attend the Annual Meeting, you are urged to sign, date and return the proxy in the enclosed envelope. Upon execution and return of the enclosed proxy, the shares represented by it will be voted by the persons designated therein as proxies in accordance with the stockholder's directions. A stockholder may vote on a matter by marking the appropriate box on the proxy or, if no box is marked for a specific matter, the shares will be voted as recommended by the Board of Directors on that matter.

The enclosed proxy may be revoked at any time before it is voted by (a) so notifying the Corporate Secretary of the Company in writing, (b) executing a proxy with a later date and delivering such later proxy to the Corporate Secretary of the Company prior to the Annual Meeting or (c) attending the Annual Meeting and voting in person. Unless the proxy is revoked or is received in a form that renders it invalid, the shares represented by it will be voted in accordance with the instructions contained therein.

Employees of the Company and its affiliates who participate in either the Gold Banc Corporation, Inc. Employees' Stock Ownership Plan and Trust may vote shares of common stock of the Company credited to their account by instructing Gold Trust Company, St. Joseph, Missouri, the trustee of the plan. The enclosed proxy card will serve as the instruction card. The trustee of the plan will vote such shares in accordance with duly executed instructions received by April 11, 2004. The trustee at its discretion will vote shares credited to a participant's account for which no instructions are received. Each participant may revoke previously given voting instructions by filing with the trustee a written notice to that effect by April 14, 2004.

For the purpose of determining whether the stockholders have approved

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

matters other than the election of directors, abstentions are treated as shares present or represented and voting, so abstaining has the same effect as a negative vote. With respect to the election of directors, abstentions and instructions on the accompanying proxy card to withhold authority to vote for one or more of the nominees will result in the respective nominees receiving fewer votes. If no instructions are given on the accompanying proxy, the shares registered thereby will be voted for the nominees listed herein. Shares held by brokers who do not have discretionary authority to vote on a particular matter and who have not received voting instructions from their customers are not counted or deemed to be present or represented for the purpose of determining whether stockholders have approved that matter, but they are counted as present for the purpose of determining the existence of a quorum at the Annual Meeting.

The Company will bear the cost of solicitation of proxies, which will be principally conducted by mail; however, certain officers of the Company may also solicit proxies by telephone, internet, facsimile or in person. Such cost may also include ordinary charges and expenses of brokerage firms and others for forwarding soliciting material to beneficial owners.

On March 4, 2004, the record date for determining stockholders entitled to vote at the Annual Meeting and any postponements and adjournments thereof, the Company had outstanding and entitled to vote approximately 39,845,068 shares of common stock, par value \$1.00 per share (the "Common Stock"). Each outstanding share of Common Stock entitles the record holder to one vote.

ELECTION OF DIRECTORS

The Board of Directors is divided into three classes, elected for terms of three years and until their successors are elected and qualified. Three Class II directors are to be elected at the Annual Meeting. The proxies named in the accompanying proxy intend to vote for the election of Allen D. Petersen, J. Gary Russ and Donald C. McNeill as Class II directors. In the event Messers. Petersen, Russ and McNeill should become unavailable for election, which is not anticipated, the proxies will be voted for such substitute nominee as may be nominated by the Board of Directors. The Company's bylaws require all nominations for director by stockholders to be submitted to the corporate secretary of the Company no later than 120 days prior to the day corresponding to the date on which the Company released its proxy statement in connection with the previous year's annual meeting of stockholders. No nominations were received by the Company from stockholders. for their service on the Company's Audit Committee in connection with the investigation regarding the misappropriation of funds by Mr. Gullion. In 2003, continuing non-employee directors received options to purchase 5,000 shares of the Company's common stock at an exercise price of \$10.41 per share and new non-employee directors received options to purchase 2,500 shares of the Company's common stock at an exercise price of \$12.75 per share for serving on the Board of Directors. Options granted to directors vest and become fully exercisable on the first anniversary of the grant date. Accordingly, the options granted by the Company to the continuing non-employee directors have vested on January 22, 2004 and the options to the new non-employee directors will vest on October 22, 2004. All options will automatically vest upon a change in control of the Company. As of the date of this proxy, the Company has granted options for 176,268 shares of Common Stock to non-employee directors. In addition, the Company reimburses directors for expenses incurred in connection with attendance at meetings of the Board of Directors and committees thereof. Employees of the Company receive no additional compensation for serving as a director.

Compensation Committee Report on Executive Compensation

The Compensation Committee is composed of D. Patrick Curran, Donald C. McNeill and Allen D. Peterson. The Compensation Committee meets periodically during the course of the year to consider compensation programs for executive officers and senior managers of the Company.

Compensation Philosophy and Objectives

The Company's compensation programs are designed to provide fair and reasonable compensation to all employees, including its executive officers and senior managers. The Committee's specific objectives are to: (i) provide annual compensation that takes into account the Company's performance relative to its financial goals and objectives; (ii) align the financial interests of the executive officers with those of stockholders by providing significant equity-based long-term incentives; and (iii) offer a total compensation program

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

for executive officers based on the level of responsibility of the executive's position and necessary skills and experience relative to other senior management positions and comparative compensation of similarly positioned executives and senior managers of peer financial institutions.

Compensation Components and Process

There are three major components of the Company's executive officer and senior manager compensation programs: (1) base salary, (2) annual incentive awards and (3) long-term incentives.

The process utilized by the Committee in determining executive officer compensation levels for all of these components is based upon the Committee's judgment and takes into account objective qualitative and quantitative factors. However, the Committee emphasizes that in determining executive officer compensation levels, particular attention is placed on tying a significant portion of executive compensation to the success of the executive officer and the Company in meeting established financial and performance goals.

For support in the compensation decision process, the Committee engaged an independent compensation consultant to provide assistance in developing guidelines for executive compensation and providing market data to determine relevant compensation practices of the Company's peer group of banks. The Company's peer group of banks, as developed by the independent compensation consultant, consists of national and regional bank holding companies that offer diversified financial services to its customers and are of comparable asset size. The committee takes into account the peer information when formulating its recommendations, but the Committee does not target total compensation or any component thereof to any particular point within, or outside, the range of the peer group results.

Long-term Incentive Awards

The stock-based awards (typically, Incentive Stock Option Grants) are generally granted to executive officers on an annual basis by the Committee. The stock option awards cannot be issued with an exercise price below the market price of the Company's common stock price at the time of the award and the exercise price cannot be changed after the award is issued, except to accommodate any dividends, stock splits or conversions that would affect all stockholders.

The Committee has historically granted stock options as a means of providing long-term incentives to employees. All options granted under the Company's 1996 Equity Compensation Plan, as amended (the "Plan"), vest incrementally over a five-year period based upon the optionee's continued employment by the Company. The Committee therefore bases its decision with regard to stock options granted to its executive officers primarily upon the total number of options available for grant and the officer's position.

In consultation with its compensation consultant, the Committee in 2003 began granting awards of restricted stock and restricted stock units to certain of its executive officers. These grants benefit the recipients by enabling the recipients to receive the appreciation in the value of the Company's common stock, thus providing additional long-term incentives. In addition, the vesting of awards made to the Company's Chief Executive Officer and Chief Financial Officer are tied to the price of the Company's common stock, thereby aligning the interests of these officers with the Company's stockholders. Restricted stock units also provide an equity-based compensation that may not result in dilution of the Company's stockholders as such awards may be paid out in cash upon vesting.

On October 22, 2003, the Committee awarded Malcolm M. Aslin, the

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

Company's Chief Executive Officer, 132,000 shares of restricted stock and 88,000 restricted stock units. The

5

Committee also awarded Rick Tremblay, the Company's Chief Financial Officer, 60,000 shares of restricted stock and 40,000 restricted stock units. Other executive officers also were awarded various amounts of restricted stock and restricted stock units. The vesting of the restricted stock and restricted stock units awarded to Mr. Aslin and Mr. Tremblay is contingent upon, among other things, the obtainment of certain price thresholds by the Company's common stock, and in some cases, their continued employment with the Company. The vesting of the awards made to the other executive officers will occur on the third anniversary of the date of the award, provided such individual has been continuously employed with the Company during this time period. All awards vest immediately upon a change in control.

Compensation of Chief Executive Officer

Malcolm M. Aslin became the Chief Executive Officer on March 17, 2003. Mr. Aslin's base salary has been set by the Compensation Committee at \$425,000. See "Employment Contracts."

Compensation of Former Chief Executive Officer

Michael W. Gullion served as Chief Executive Officer during the first quarter of 2003 until his removal on March 17, 2003. Mr. Gullion's base salary for 2003 was set by the Committee at \$500,000. His 2003 compensation also included options for 100,000 shares of common stock. None of these options had vested when Mr. Gullion's employment was terminated and, thus, have been forfeited.

The Compensation Committee operates pursuant to its Charter, a copy of which is available on the Company's web site at www.goldbanc.com. The Compensation Committee is appointed by the Board of Directors to perform specified duties and responsibilities, including the following:

- o reviewing, approving and overseeing the procedures and substance of the Company's compensation policy;
- o evaluating and setting the compensation of the Company's Chief Executive Officer ("CEO");

- o making recommendations to the Board with respect to incentive-compensation plans and equity-based plans; and
- o recommending an appropriate method by which stockholder concerns about compensation may be communicated by stockholders to the Compensation Committee and, as the Compensation Committee deems appropriate, to respond to such stockholder concerns.

Nominating and Corporate Governance Committee. Robert J. Gourley, William R. Hagman and William Randon are members of the Company's Nominating and Corporate Governance Committee. Mr. Gourley is the Chairman of the Nominating and Corporate Governance Committee. The Board of Directors has determined that all members of the Nominating and Corporate Governance Committee are "independent" as defined by applicable listing standards of Nasdaq Stock Market, Inc. The Nominating and Corporate Governance Committee operates pursuant to its Charter, a copy of which is available on the Company's web site at www.goldbanc.com. The Nominating and Corporate Governance Committee is appointed by the Board of Directors to perform specific duties and responsibilities, including the following:

- o evaluating, in consultation with the Chairman of the Board and Chief Executive Officer, the current composition, size, role and functions of the Board and its committees to oversee successfully the business and affairs of the Company in a manner consistent with the Company's Corporate Governance Guidelines, and making recommendations to the Board for approval;
- o making recommendations to the Board concerning the appointment of directors to Board committees and the selection of Board committee chairs consistent with the Company's Corporate Governance Guidelines; and
- o evaluating and review the Company's Corporate Governance Guidelines.

As set forth in the Company's Corporate Governance Guidelines, members of the Board of Directors shall be persons who have the highest personal and professional integrity and who have demonstrated the kind of ability and judgment to work effectively with other members of the Board to serve the long-term interests of the stockholders. Members should act in a thorough and inquisitive manner, be objective and have practical wisdom and mature judgment. The Committee works with the Board of Directors as a whole on an annual basis to determine the appropriate characteristics, skills and experience for the Board of Directors as a whole and its individual members. In evaluating the suitability of nominees for election to the Board of Directors, the Committee takes into account many factors, including the following: a general understanding of management, marketing, accounting, finance and other elements relevant to the Company's success in today's business environment; an understanding of the principal operational, financial and other plans, strategies and objectives of the Company; the results of operations and the

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

financial condition of the Company for recent periods; and educational and professional background. However, this list is not an exhaustive list of all the qualifications used by the Committee in determining the fitness or eligibility of potential director candidates. Appropriate flexibility is needed to evaluate all relevant facts and circumstances in context of the needs of the Board of Directors and the Company at a particular point in time. Accordingly, the Committee reserves the right to consider those factors as it deems relevant and appropriate, including the current composition of the Board of Directors and its committees and the need for Audit Committee expertise.

In determining whether to recommend a director for re-election, the Committee also considers the director's past attendance at meetings and participation in and contributions to the activities of the Board.

The Committee does not have a formal policy of considering stockholder nominations for inclusion in the Company's proxy statement sent to stockholders in connection with the election of directors. However, the Committee will consider nominations from stockholders at the annual meeting of stockholders if the following requirements as set forth in the Company's Amended and Restated Bylaws are met. First, the stockholder making the nominee must be a stockholder of record on the record date for such meeting, must continue to be a stockholder of record at the time of such meeting, and must be entitled to vote thereat. Second, the stockholder must deliver or cause to be delivered a written notice to the Company's Corporate Secretary. The Secretary of the Company must receive such written notice no later than 120 days prior to the day corresponding to the date on which the Company released the proxy statement for the previous year. However, if the date of the annual meeting is changed by more than 30 days from the date of the previous year's annual meeting, the written notice must be received by the Company's Corporate Secretary at a reasonable time prior to the time at which notice of such meeting is delivered to stockholders.

11

The notice shall specify: (a) the name and address of the stockholder as they appear on the books of the Company; (b) the class and number of shares of the Company's stock that are beneficially owned by the stockholder; (c) for each nomination sought to be made, a description of the qualifications and business or professional experience of each proposed nominee together with the reasons for each nomination; and (d) a statement signed by each nominee indicating his or her willingness to serve if elected, and disclosing the information about him or her that is required by the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), and the rules and regulations promulgated thereunder to be disclosed in the proxy materials for such meeting.

The Committee also has the authority under its Charter to retain a search firm to assist it in finding appropriate nominees for election to the Board of Directors.

During the 2003 fiscal year, the Board of Directors met 11 times. The Audit Committee met 5 times in 2003. The Compensation Committee met 6 times in 2003. The Nominating and Corporate Governance Committee met 5 times in person in 2003. During 2003, each of the directors attended at least seventy-five percent of the aggregate number of meetings of the Board of Directors and the committees on which they serve. The Company also encourages all directors to attend the annual meeting of stockholders. The Board of Directors typically meets immediately after the annual meeting of stockholders which facilitates their ability to attend the annual meeting of stockholders. Eight directors personally

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

attended the 2003 annual meeting of stockholders.

Audit Committee Report

The role of the Audit Committee is to assist the Board of Directors in its oversight of the Company's financial reporting process. As set forth in the Audit Committee's Charter, management of the Company is responsible for the preparation, presentation and integrity of the Company's financial statements, the Company's accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditors are responsible for auditing the Company's financial statements and expressing an opinion as to their conformity with generally accepted accounting principles.

In the performance of its oversight function, the Audit Committee has considered and discussed the audited financial statements with management and the independent auditors. The Audit Committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standard No. 61, Communication with Audit Committees, as currently in effect. Finally, the Audit Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board No. 1, Independence Discussions with Audit Committees, as currently in effect. The Audit Committee has considered whether audit-related and non-audit services provided by the independent auditors to the Company are compatible with maintaining the auditors' independence and has discussed with the auditors their independence.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting. Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the independent accountants. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements have been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles, or that the Company's auditors are in fact "independent".

12

Based on the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit Committee referred to above and in the Charter, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2003 filed with the Securities and Exchange Commission.

The Board of Directors, upon recommendation of its Audit Committee, has determined to continue the services of KPMG LLP for the current fiscal year ending December 31, 2004. Such services will include the audit of the financial statements of the Company for the fiscal year ending on such date and other appropriate accounting services. A member of KPMG LLP will attend the annual meeting and will have the opportunity to make a statement if desired. Such member will also be available to respond to appropriate questions from the

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

stockholders.

Audit and Non-Audit Fees

The following table presents fees for professional audit services rendered by KPMG LLP for the audit of the Company's annual financial statements for 2003, and fees billed for other services rendered by KPMG LLP. The Audit Committee pre-approves all of the services to be provided by KPMG and thus does not have a formal pre-approval policy for any non-audit services to be provided by the Company's independent auditor.

Audit fees, excluding audit related (1).....
All other fees:	
Audit related fees (2).....
Tax (3).....
Other(4).....

- (1) Audit fees consisted principally of the audits of the Company's 2003 and 2002 consolidated financial statements and review of the Company's 2003 and 2002 quarterly filings, and review of the follow-on registration statement filed in 2002 and issuance of a comfort letter related to such registration statement.
- (2) Audit related fees consisted of audits of the Company's employee benefit plans as well as accounting consultation services.
- (3) Tax fees consists of fees related to the preparation and review of the Company's federal and state income tax returns and tax consulting services.

CERTAIN RELATED TRANSACTIONS

Loans to Executive Officers, Directors and Principal Stockholders

Certain of the officers, directors and principal stockholders of the Company and its subsidiary banks, and members of their immediate families and businesses in which these individuals hold controlling interests, are customers of the Company's banks and it is anticipated such parties will continue to be customers of the banks in the future. Credit transactions with these parties are subject to review by each bank's Board of Directors.

13

Except as discussed below, all outstanding loans and extensions of credit by the banks to these parties were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons, and, in the opinion of management, did not and do not involve more than the normal risk of collectibility or present other features unfavorable to the banks. None of the loans to the directors and executive officers of the Company have been classified by regulatory authorities. The aggregate balance of loans and advances under existing lines of credit to these parties was \$49.1 million and \$54.7 million at December 31, 2003 and 2002, respectively.
