3. REPURCHASE OF LICENSED OFFICE

During the first quarter of fiscal 2001, the Company acquired one licensed office in New Jersey. Results of operations for the acquired licensed office is recorded in accordance with the Company's licensed revenue recognition policy until the acquisition date. Subsequent to the acquisition date, the direct office revenue recognition policy is utilized.

6

7

REMEDYTEMP, INC.

Had the results of operations for the licensed office been shown as of the beginning of the current and prior year fiscal periods, the consolidated results would not be significantly different. This acquisition is accounted for under the purchase accounting method. The purchase price was allocated primarily to goodwill and is being amortized over an estimated life of twenty years.

4. SUBSEQUENT EVENTS

WORKERS COMPENSATION

Effective April 1, 2001, the Company entered into a contract with Liberty Mutual Insurance Company ("Liberty") for its workers' compensation insurance and claims administration. The Company's deductible under the insurance contract is \$250 per individual claim and Liberty is responsible for costs in excess of the deductible amount. Under the terms of the agreement, the Company is required to maintain a letter of credit to secure repayment to Liberty of the deductible portion of all open claims. Prior to April 1, 2001, the Company utilized a guaranteed cost insurance program.

SEVERANCE PAYMENT

Effective June 30, 2001, Paul Mikos, previously the Company's president and chief executive officer, will relinquish his employment and executive

Edgar Filing: REMEDYTEMP INC - Form 10-Q

responsibilities with the Company, but will remain Chairman of the Board of Directors. The Company expects to record a non-recurring charge of approximately \$2.4 million in the third quarter to provide for the severance benefits outlined in Mr. Mikos's severance agreement dated May 10, 2001.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In addition to historical information, management's discussion and analysis includes certain forward-looking statements made by RemedyTemp Inc. that involve material risks and uncertainties and are subject to change based on factors beyond the control of the company (certain of such statements are identified by use of words such as "anticipate," "believe," "estimate," "intend," "expect" or "future"). Accordingly, the company's actual results may differ materially from those expressed or implied in any such forward-looking statements as a result of various factors, including without limitation, the benefits of proactive measures being taken to improve results and control costs, the ability to open new points of distribution, changes in general or local economic conditions, the availability of sufficient personnel, the company's ability to attract and retain clients and franchisees/licensees, implementation of the company's new IT systems, and other factors described in the company's filings with the Securities and Exchange Commission regarding risks affecting the company's financial condition and results of operations. The company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.

RESULTS OF OPERATIONS

For the Three Fiscal Months Ended April 1, 2001 Compared to the Three Fiscal Months Ended April 2, 2000

Total revenues decreased 3.3% or \$4.4 million to \$130.0 million for the three fiscal months ended April 1, 2001 from \$134.5 million for the three fiscal months ended April 2, 2000. Direct revenues decreased 1.0% to \$72.9 million from \$73.6 million, licensed revenues decreased 5.8% to \$56.5 million from \$60.0 million and franchise royalties decreased 24.1% to \$0.6 million from \$0.8 million for the three fiscal months ended April 1, 2001 and April 2, 2000, respectively. Overall direct revenues were relatively flat as compared to the prior year resulting from a general slowdown in the economy as well as the elimination of revenue from "dot com" companies that existed in the prior year. The decrease in licensed revenues was also impacted by current economic conditions including reduced revenues from a significant customer in the current year quarter. The decrease in franchise royalties resulted from the conversion of three franchised offices to the licensed format as well as lower billings at existing offices. There were no significant changes in the mix between direct, licensed and royalty revenues. The Company's ability to increase revenues depends significantly on the Company's ability to continue to attract new clients, retain existing clients, open new offices, find and retain licensees and office managers and manage newly opened offices to maturity. There can be no assurance that the Company's revenues will increase.

Total cost of direct and licensed sales, which consists of wages and other expenses related to the temporary associates, decreased 2.5% or \$2.6 million to \$100.1 million for the three fiscal months ended April 1, 2001 from \$102.7 million for the three fiscal months ended April 2, 2000. This decrease

Edgar Filing: REMEDYTEMP INC - Form 10-Q

resulted primarily from decreased revenues. Total cost of direct and licensed sales as a percentage of revenues was 77.0% for the three fiscal months ended April 1, 2001 compared to 76.4% for the three fiscal months ended April 2, 2000. Many factors, including increased wage costs or other employment expenses, could adversely affect the Company's cost of direct and licensed sales.

Licensees' share of gross profit represents the net payments to licensees based upon a percentage of gross profit generated by the licensed operation. The percentage of gross profit earned by the licensee is generally based on the number of hours billed. Pursuant to terms of the Company's franchise agreement for licensed offices executed prior to March 31, 1999, the Company's share of gross profit typically cannot be less than 7.5% of the licensed operation sales, with the exception of national accounts on which the Company's fee is reduced to compensate for lower gross margins. For franchise agreements for licensed offices executed on or after April 1, 1999, the Company's share of gross profit cannot be less than 8.75% of the licensed operation's sales, with the exception of national accounts noted above. Licensees' share of gross profit decreased 5.8% or \$0.6 million to \$9.6 million for the three fiscal months ended April 1, 2001 from \$10.2 million for the three fiscal months ended April 2, 2000 due to decreased billings at existing offices as discussed above. Licensees' share of gross profit as a percentage of licensed gross profit was 68.7% for the three fiscal months ended April 1, 2001 compared to 67.5% for the three fiscal months ended April 2, 2000. This increase resulted from certain licensees earning a larger percentage of gross profit in the current year.

REMEDYTEMP, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Selling and administrative expenses increased 4.8% or \$0.7 million to \$15.2 million for the three fiscal months ended April 1, 2001 from \$14.5 million for the three fiscal months ended April 2, 2000. This increase is primarily attributable to increased bad debt expense and health insurance costs in the current year. Selling and administrative expenses as a percentage of total revenues were 11.7% for the three fiscal months ended April 1, 2001 as compared to 10.8% for the three fiscal months ended April 2, 2000. There can be no assurance that selling and administrative expenses will not increase in the future, both in absolute terms and as a percentage of total revenues. Increases in these expenses could adversely affect the Company's profitability.

Depreciation and amortization increased 23.2% or \$0.3 million to \$1.4 million for the three fiscal months ended April 1, 2001 from \$1.2 million for the three fiscal months ended April 2, 2000. This increase results primarily from depreciation of the Company's new back office information system which was placed in service in October 2000.

Income from operations decreased 37.9% or \$2.2 million to \$3.7 million for the three fiscal months ended April 1, 2001 from \$5.9 million for the three fiscal months ended April 2, 2000 due to the factors described above. Income from operations as a percentage of revenues was 2.8% for the three fiscal months ended April 1, 2001 compared to 4.4% for the three fiscal months ended April 2, 2000.

Net income decreased 27.9% or \$1.0 million to \$2.7 million for the three

Edgar Filing: REMEDYTEMP INC - Form 10-Q

fiscal months ended April 1, 2001 from \$3.7 million for the three fiscal months ended April 2, 2000 due to the factors described above. Interest expense decreased as a result of no line of credit borrowings during the current quarter. Additionally, the Company reduced its effective tax rate as a result of expected Work Opportunity and Welfare to Work Tax Credits. As a percentage of total revenues, net income was 2.0% for the three fiscal months ended April 1, 2001 compared to 2.7% for the three fiscal months ended April 2, 2000.

For the Six Fiscal Months Ended April 1, 2001 Compared to the Six Fiscal Months Ended April 2, 2000

Total revenues decreased 1.8% or \$5.1 million to \$279.5 million for the six fiscal months ended April 1, 2001 from \$284.6 million for the six fiscal months ended April 2, 2000. Direct revenues decreased 0.2% to \$156.3 million from \$156.6 million, licensed revenues decreased 3.6% to \$121.6 million from \$126.1 million and franchise royalties decreased 11.6% to \$1.6 million from \$1.8 million for the six fiscal months ended April 1, 2001 and April 2, 2000, respectively. Overall direct revenues were relatively flat as compared to the prior year resulting from increased first quarter revenues stemming from fulfillment, distribution and customer care support services to new clients offset by a general slowdown in the economy during the second quarter. Additionally, revenues from "dot com" companies were substantially lower in the current year. The decrease in licensed revenues was also impacted by current economic conditions, including reduced revenues from a significant customer in the current year. The decrease in franchise royalties resulted from the conversion of five franchised offices to the licensed format as well as lower billings at existing offices. There were no significant changes in the mix between direct, licensed and royalty revenues. The Company's ability to increase revenues depends significantly on the Company's ability to continue to attract new clients, retain existing clients, open new offices, find and retain licensees and office managers and manage newly opened offices to maturity. There can be no assurance that the Company's revenues will increase.

Total cost of direct and licensed sales, which consists of wages and other expenses related to the temporary associates, decreased 2.0% or \$4.3 million to \$215.0 million for the six fiscal months ended April 1, 2001 from \$219.3 million for the six fiscal months ended April 2, 2000. This decrease resulted from reduced revenues as described above. Total cost of direct and licensed sales as a percentage of revenues was 76.9% for the six fiscal months ended April 1, 2001 compared to 77.1% for the six fiscal months ended April 1, 2000. Many factors, including increased wage costs or other employment expenses, could adversely affect the Company's cost of direct and licensed sales.

Licensees' share of gross profit decreased 1.1% or \$0.2 million to \$20.6 million for the six fiscal months ended April 1, 2001 from \$20.8 million for the six fiscal months ended April 2, 2000 due to an overall decrease in billings at

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

existing licensed offices offset by higher licensed margins resulting from increased permanent placement billings in fiscal 2001. Permanent placement billings pertain to the fees earned by the Company for placing temporary associates in permanent positions. These billings have higher gross margins than temporary placement billings and the licensee earns a higher percentage of the related gross margin. Licensees' share of gross profit as a percentage of

Edgar Filing: REMEDYTEMP INC - Form 10-Q

licensed gross profit was 68.4% for the six fiscal months ended April 1, 2001 compared to 67.5% for the six fiscal months ended April 2, 2000. This increase resulted from increased permanent placement billings noted above and certain licensees earning a larger percentage of gross profit in the current year.

Selling, general and administrative expenses increased 10.7% or \$3.2 million to \$33.3 million for the six fiscal months ended April 1, 2001 from \$30.1 million for the six fiscal months ended April 2, 2000. This increase is primarily attributable to increased health insurance costs and bad debt expense, including a non-recurring \$1.9 million charge in the first quarter to provide for a large client's account receivable deemed uncollectible. Selling and administrative expenses as a percentage of total revenues were 11.9% for the six fiscal months ended April 1, 2001 as compared to 10.6% for the six fiscal months ended April 2, 2000. There can be no assurance that selling and administrative expenses will not increase in the future, both in absolute terms and as a percentage of total revenues. Increases in these expenses could adversely affect the Company's profitability.

Depreciation and amortization increased 26.1% or \$0.6 million to \$2.8 million for the six fiscal months ended April 1, 2001 from \$2.2 million for the six fiscal months ended April 2, 2000. This increase results primarily from depreciation of the Company's new back office information system which was placed in service in October 2000.

Income from operations decreased 35.5% or \$4.3 million to \$7.9 million for the six fiscal months ended April 1, 2001 from \$12.2 million for the six fiscal months ended April 2, 2000 due to the factors described above. Income from operations as a percentage of revenues was 2.8% for the six fiscal months ended April 1, 2001 compared to 4.3% for the six fiscal months ended April 2, 2000.

Net income decreased 27.3% or \$2.1 million to \$5.5 million for the six fiscal months ended April 1, 2001 from \$7.6 million for the six fiscal months ended April 2, 2000 due to the factors described above. Interest expense decreased as a result of no line of credit borrowings in the current year. Additionally, the Company reduced its effective tax rate as a result of expected Work Opportunity and Welfare to Work Tax Credits. As a percentage of total revenues, net income was 2.0% for the six fiscal months ended April 1, 2001 compared to 2.7% for the six fiscal months ended April 2, 2000.

LIQUIDITY AND CAPITAL RESOURCES

Cash provided by operating activities was \$14.3 million for the six months ended April 1, 2001 and \$14.5 million for the six fiscal months ended April 2, 2000. The slight overall decrease in cash from operating activities results primarily from the timing of vendor payments, offset by the timing of accounts receivable collection and lower cash outflows in the current year for payroll and related costs, as well as licensees' share of gross profit.

Effective April 1, 2001, the Company entered into a contract with Liberty Mutual Insurance Company ("Liberty") for its workers' compensation insurance and claims administration. The Company's deductible under the insurance contract is \$250 per individual claim and Liberty is responsible for costs in excess of the deductible amount. Under the terms of the agreement, the Company is required to maintain a letter of credit to secure repayment to Liberty of the deductible portion of all open claims. Prior to April 1, 2001, the Company utilized a guaranteed cost insurance program.

Effective June 30, 2001, Paul Mikos, previously the Company's president and chief executive officer, will relinquish his employment and executive responsibilities with the Company but will remain Chairman of the Board of Directors. The Company expects to record a non-recurring charge of approximately

Edgar Filing: REMEDYTEMP INC - Form 10-Q

\$2.4 million in the third quarter to provide for the severance benefits outlined in Mr. Mikos's severance agreement dated May 10, 2001.

Cash used for purchases of fixed assets was \$2.1 million for the six fiscal months ended April 1, 2001 and \$4.1 million for the six fiscal months ended April 2, 2000. The decrease in capital expenditures results from the

10

11

REMEDYTEMP, INC.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF CONSOLIDATED FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

implementation of the Company's information system in October 2000. During the next twelve months, the Company anticipates capital expenditures associated with direct office openings and further investments in the Company's computer-based technologies to approximate \$5.0 million.

The Company acquired one licensed office during the first half of fiscal 2001 (see Note 3 to the consolidated financial statements) and six licensed offices in the comparative prior year period. The Company is contemplating the continued selective repurchase of licensed and franchised offices in certain territories with the intent of expanding the Company's market presence in such regions.

The Company has a revolving line of credit agreement with Bank of America providing for aggregate borrowings and letters of credit of \$40.0 million. The Company has no borrowings outstanding as of April 1, 2001 and is in the process of securing a \$1.75 million letter of credit in accordance with the workers' compensation insurance agreement discussed above. The required letter of credit under this agreement is variable as outlined in the agreement. The line of credit is unsecured and expires on February 28, 2002. The agreement governing the line of credit requires the Company to maintain certain financial ratios and comply with certain restrictive covenants. The Company is in compliance with these covenants.

The Company may continue evaluating certain strategic acquisitions. Such acquisitions may have an impact on liquidity depending on the size of the acquisition.

The Company believes that its current and expected levels of working capital and line of credit are adequate to support present operations and to fund future growth and business opportunities.

SEASONALITY

The Company's quarterly operating results are affected by the number of billing days in the quarter and the seasonality of its clients' businesses. The first fiscal quarter has historically been strong as a result of manufacturing and retail emphasis on holiday sales. Historically, the second fiscal quarter shows a decline in comparable revenues from the first fiscal quarter. Revenue growth has historically accelerated in each of the third and fourth fiscal quarters as manufacturers, retailers and service businesses increase their level of business activity.
