PROXY STATEMENT

INFORMATION CONCERNING SOLICITATION AND VOTING

General

The enclosed Proxy is solicited on behalf of the Board of Directors of Paradigm Medical Industries, Inc., a Delaware corporation (the "Company") for use at the Annual Meeting of Shareholders (the "Annual Meeting") to be held on Friday, August 11, 2006, beginning at 10:00 a.m., local time (MST), or at any adjournment(s) thereof. The purposes of the meeting are set forth herein and in the accompanying Notice of Annual Meeting of Shareholders. The Annual Meeting will be held at the Company's corporate headquarters at 2355 South 1070 West, Salt Lake City, Utah. This Proxy Statement and accompanying materials are being mailed on or about July 10, 2006. The Company will bear the cost of this solicitation.

Record Date

Shareholders of record of the Company's Common Stock at the close of business on June 26, 2005 are entitled to notice of and to vote at the meeting. At the record date, 193,956,828 shares of the Company's Common Stock, \$.001 par value, 5,627 shares of the Series A Preferred Stock, 8,986 shares of Series B Preferred Stock, no shares of Series C Convertible Preferred Stock, 5,000 shares of Series D Convertible Preferred Stock, 250 shares of Series E Convertible Preferred Stock, 4,598.75 shares of Series F Preferred Stock, and 588,235 shares of Series G Preferred Stock were issued and outstanding. Shareholders of Series A, Series B, Series C, Series D, Series E, Series F and Series G Preferred Stock are not entitled to vote at the Annual Meeting. Shareholders holding at least one-third of the outstanding shares of Common Stock represented in person or by proxy shall constitute a quorum for the transaction of business at the Annual Meeting.

Revocability of Proxies

Shareholders may revoke any appointment of proxy given pursuant to this

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form PRE 14A

solicitation by delivering the Company a written notice of revocation or a duly executed proxy bearing a later date or by attending the meeting and voting in person. An appointment of proxy is revoked upon the death or incapacity of the shareholder if the Secretary or other officer of the Company authorized to tabulate votes receives notice of such death or incapacity before the proxy exercises its authority under the appointment.

Voting and Solicitation

Each shareholder will be entitled to one vote for each share of Common Stock held at the record date. Assuming a quorum is present, a plurality of votes cast by the shares entitled to vote in the election of directors will be required to elect each director. Because the shares of Series A, Series B, Series C, Series D, Series E, Series F and Series G Preferred Stock are non-voting securities, the holders thereof will not be entitled to vote at the Annual Meeting. To approve the granting of the stock options to the outside directors of the Company, holders of a majority of the shares entitled to vote at the Annual Meeting must vote in favor of the stock options. The principal executive offices of the Company are located at 2355 South 1070 West, Salt Lake City, Utah. In addition to the use of the mails, proxies may be solicited personally, by telephone, or by facsimile, and the Company may reimburse brokerage firms and other persons holding shares in the Company in their names or those of their nominees for their reasonable expenses in forwarding soliciting materials to the beneficial owners.

ELECTION OF DIRECTORS

Proposal 1

Nominees

The Company's Bylaws do not limit the number of persons serving on the Company's Board of Directors, and it is contemplated that a board of three directors will be elected at the Annual Meeting. The Board of Directors recommends that the shareholders vote "FOR" the election of the four director nominees listed below. Assuming a quorum is present, a plurality of votes cast by the shares entitled to vote in the election of directors will be required to elect each director. Unless otherwise instructed, the proxy holders will vote the proxies received by them for management's four nominees named below, all of whom are presently directors of the Company.

In the event that any management nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who shall be designated by the present Board of Directors to fill the vacancy. In the event that additional persons are nominated as directors, the proxy holders intend to vote all proxies received by them in such a manner as will ensure the election of as many of the nominees listed below as possible. It is not expected that any nominee will be unable or will decline to serve as a director. The term of office of each person elected as a director will continue until the next annual meeting of shareholders and until such person's successor has been elected and qualified. Officers are appointed by the Board of Directors and serve at the discretion of the board.

The name and certain information regarding each nominee is set forth below. See also "Certain Relationships and Related Transactions."

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form PRE 14A

contributions to its employees who choose to participate in the plan. The plan allows the board to determine the amount of the contribution at the beginning of each year. The board adopted a contribution formula specifying that such discretionary employer matching contributions would equal 100% of the participating employee's contribution to the plan up to a maximum discretionary employee contribution of 3% of a participating employee's compensation, as defined by the plan. All persons who have completed at least six months' service with the Company and satisfy other plan requirements are eligible to participate in the plan. The plan is currently available to the Company's employees at the employees' expense with no matching contribution from the Company.

The compensation committee administers the 1995 Stock Option Plan. In general, the compensation committee will select the person to whom options will be granted and will determine, subject to the terms of the plan, the number, exercise, and other provisions of such options. Options granted under the plan will become exercisable at such times as may be determined by the compensation committee. Options granted under the plan may be either incentive stock options, as such term is defined in the Internal Revenue Code, or non-incentive stock options. Incentive stock options may only be granted to persons who are employees. Non-incentive stock options may be granted to any person, including, but not limited to, its employees, independent agents, consultants as the compensation committee believes has contributed, or will contribute, to its success as the compensation committee believes has contributed, or will contribute, to its success. The compensation committee determines the exercise price of options granted under the 1995 Stock Option Plan, provided that, in the case of incentive stock options, such price is not less than 100% (110% in the case of incentive stock options granted to holders of 10% of voting power of its stock) of the fair market value (as defined in the plan) of the common stock on the date of grant. The aggregate fair market value (determined at the time of option grant) of stock with respect to which incentive stock options become exercisable for the first time in any year cannot exceed \$100,000.

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form PRE 14A

The term of each option shall not be more than ten years (five years in the case of incentive stock options granted to holders of 10% of the voting power of its stock) from the date of grant. The Board of Directors has a right to amend, suspend or terminate the 1995 Stock Option Plan at any time; provided, however, that unless ratified by its shareholders, no amendment or change in the plan will be effective that would increase the total number of shares that may be issued under the plan, materially increase the benefits accruing to persons granted under the plan or materially modify the requirements as to eligibility and participation in the plan. No amendment, supervision or termination of the plan shall, without the consent of an employee to whom an option shall heretofore have been granted, affect the rights of such employee under such option.

Each member of the audit committee is considered independent and qualified in accordance with applicable independent director and audit committee listing standards. In addition, the Audit Committee has met with the Company's independent auditors, Tanner & Co., and discussed all matters required to be discussed by the auditors with the Audit Committee under Statement on Auditing Standards No. 61 (communication with audit committees). The Audit Committee received and discussed with the auditors their annual written report on their independence from the Company and its management, which is made under Independence Standards Board Standard No. 1 (independence discussions with audit committees), and considered with the auditors whether the provision of financial information systems design and implementation and other non-audit services provided by them to the Company during 2005 was compatible with the auditors' independence.

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form PRE 14A

In performing these functions, the Audit Committee acts only in an oversight capacity. In its oversight role, the Audit Committee relies on the work and assurances of the Company's management, which is responsible for the integrity of the Company's internal controls and its financial statements and reports, and the Company's independent auditors, who are responsible for performing an independent audit of the Company's financial statements in accordance with generally accepted auditing standards and for issuing a report on these financial statements.

Pursuant to the reviews and discussions described above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2005 for filing with the Securities and Exchange Commission.

Such persons are also required to furnish the Company with copies of all Section 16(a) reports they file. Based solely on its review of the copies of such reports received by it with respect to fiscal 2005, or written representations from certain reporting persons, the Company believes that its directors, officers and greater than 10% beneficial owners complied with all Section 16(a) filing requirements applicable to them.

Callable Secured Convertible Notes and Warrants

April 27, 2005 Sale of \$2,500,000 in Callable Secured Convertible Notes: To obtain funding for the Company's ongoing operations, the Company entered into a securities purchase agreement with four accredited investors on April 27, 2005 for the sale of (i) \$2,500,000 in callable secured convertible notes and (ii) warrants to purchase 16,534,392 shares of its common stock. The sale of the callable secured convertible notes and warrants occurred in three tranches and the investors provided the Company with an aggregate of \$2,500,000 as follows:

- * \$850,000 was disbursed on April 27, 2005;
- * \$800,000 was disbursed on June 23, 2005 after the Company filed a registration statement on June 22, 2005, which registered the shares of common stock underlying the callable secured convertible notes and the warrants; and

- * \$850,000 was disbursed on June 30, 2005, the effective date of the registration statement that registered the shares of common stock underlying the callable secured convertible notes and the warrants.

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form PRE 14A

Under the terms of the securities purchase agreement, the Company agreed not, without the prior written consent of a majority-in-interest of the investors, to negotiate or contract with any party to obtain additional equity financing (including debt financing with an equity component) that involves (i) the issuance of common stock at a discount to the market price of the common stock on the date of issuance (taking into account the value of any warrants or options to acquire common stock in connection therewith), (ii) the issuance of convertible securities that are convertible into an indeterminate number of shares of common stock, or (iii) the issuance of warrants during the lock-up period beginning April 27, 2005 and ending on the later of (A) 270 days from April 27, 2005, and (B) 180 days from the date the registration statement is declared effective.

In addition, the Company agreed not to conduct any equity financing (including debt financing with an equity component) during the period beginning April 27, 2005 and ending two years after the end of the above lock-up period unless it has first provided each investor an option to purchase its pro-rata share (based on the ratio of each investor's purchase under the securities purchase agreement) of the securities being offered in any proposed equity financing. Each investor must be provided written notice describing any proposed equity financing at least 20 business days prior to the closing of such proposed equity financing and the option must be extended to each investor during the 15-day period following delivery of such notice.

The \$2,500,000 in callable secured convertible notes bear interest at 8% per annum from the date of issuance. Interest is computed on the basis of a 365-day year and is payable quarterly in cash, with six months of interest payable up front. The interest rate resets to zero percent for any month in which the stock price is greater than 125% of the initial market price, or \$.0945, for each trading day during that month. Any amount of principal or interest on the callable secured convertible notes that is not paid when due will bear interest at the rate of 15% per annum from the date due thereof until such amount is paid. The callable secured convertible notes mature in three years from the date of issuance, and are convertible into our common stock at the noteholders' option, at the lower of (i) \$.09 or (ii) 60% of the average of the three lowest intraday trading prices for the common stock on the OTC Bulletin Board for the 20 trading days before but not including the conversion date. Accordingly, there is no limit on the number of shares into which the notes may be converted.

The \$2,500,000 in callable secured convertible notes are secured by the Company's assets, including the Company's inventory, accounts receivable and intellectual property. Moreover, the Company has a call option under the terms of the notes. The call option provides the Company with the right to prepay all of the outstanding callable secured convertible notes at any time, provided there is no event of default by the Company and its stock is trading at or below \$.09 per share. An event of default includes the failure by the Company to pay the principal or interest on the callable secured convertible notes when due or to timely file a registration statement as required by the Company or obtain effectiveness with the Securities and Exchange Commission of the registration statement. Prepayment of the callable secured convertible notes is to be made in cash equal to either (i) 125% of the outstanding principal and accrued interest for prepayments occurring within 30 days following the issue date of the notes; (ii) 130% of the outstanding principal and accrued interest for prepayments occurring between 31 and 60 days following the issue date of the notes; and (iii) 145% of the outstanding principal and accrued interest for prepayments occurring after the 60th day following the issue date of the notes.

The warrants are exercisable until five years from the date of issuance at a purchase price of \$.20 per share. The investors may exercise the warrants on a cashless basis if the shares of common stock underlying the warrants are not then registered pursuant to an effective registration statement. In the event

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form PRE 14A

the investors exercise the warrants on a cashless basis, the Company will not receive any proceeds therefrom. In addition, the exercise price of the warrants will be adjusted in the event the Company issues common stock at a price below market, with the exception of any securities issued as of the date of the warrants or issued in connection with the callable secured convertible notes issued pursuant to the securities purchase agreement.

The noteholders have agreed to restrict their ability to convert their callable secured convertible notes or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of common stock. However, the noteholders may repeatedly sell shares of common stock in order to reduce their ownership percentage, and subsequently convert additional callable secured convertible notes. As of June 26, 2006, a total of \$842,830 in callable secured convertible notes have been converted into 167,251,030 shares of the Company's common stock pursuant to conversion notices from The NIR Group.

February 28, 2006 Sale of \$1,500,000 in Callable Secured Convertible Notes: To obtain additional funding for the Company's ongoing operations, the Company entered into a second securities purchase agreement on February 28, 2006 with the same four accredited investors for the sale of (i) \$1,500,000 in callable secured convertible notes and (ii) warrants to purchase 12,000,000 shares of its

12

common stock. The sale of the callable secured convertible notes and warrants is to occur in three tranches and the investors are obligated to provide the Company with an aggregate of \$1,500,000 as follows:

- * \$500,000 was disbursed on February 28, 2006;
- * \$500,000 was disbursed on June 28, 2006 after the Company filed a registration statement on June 15, 2006, which registered the shares of common stock underlying the callable secured convertible notes and the warrants; and
- * \$500,000 will be disbursed upon the effectiveness of the registration statement that registers the shares of common stock underlying the callable secured convertible notes and the warrants.

Each closing under the securities purchase agreement is subject to the following conditions:

- * The Company delivers to the investors duly executed callable secured convertible notes and warrants;
- * No litigation, statute, regulation or order had been commenced, enacted or entered by or in any court, governmental authority or any self-regulatory organization that prohibits consummation of the transactions contemplated by the securities purchase agreement; and
- * No event occurred that could reasonably be expected to have a material adverse effect on our business.

The Company also agreed not, without the prior written consent of a majority-in-interest of the investors, to negotiate or contract with any party to obtain additional equity financing (including debt financing with an equity component) that involves (i) the issuance of common stock at a discount to the market price of the common stock on the date of issuance (taking into account the value of any warrants or options to acquire common stock in connection therewith), (ii) the issuance of convertible securities that are convertible into an indeterminate number of shares of common stock, or (iii) the issuance of warrants during the lock-up period beginning February 28, 2006 and ending on the later of (a) 270 days from February 28, 2006, or (b) 180 days from the date the

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form PRE 14A

registration statement is declared effective.

In addition, the Company agreed not to conduct any equity financing (including debt financing with an equity component) during the period beginning February 28, 2006 and ending two years after the end of the above lock-up period unless it first provided each investor an option to purchase its pro-rata share (based on the ratio of each investor's purchase under the securities purchase agreement) of the securities being offered in any proposed equity financing. Each investor must be provided written notice describing any proposed equity financing at least 20 business days prior to the closing of such proposed equity financing and the option must be extended to each investor during the 15-day period following delivery of such notice.

The callable secured convertible notes bear interest at 8% per annum from the date of issuance. Interest is computed on the basis of a 365-day year and is payable quarterly in cash, with six months of interest payable up front. The interest rate resets to zero percent for any month in which the stock price is greater than 125% of the initial market price, or \$.0275, for each trading day during that month. Any amount of principal or interest on the callable secured convertible notes that is not paid when due will bear interest at the rate of 15% per annum from the date due thereof until such amount is paid. The callable secured convertible notes mature in three years from the date of issuance, and are convertible into the Company's common stock at the noteholders' option, at the lower of (i) \$.02 or (ii) 60% of the average of the three lowest intraday trading prices for the common stock on the OTC Bulletin Board for the 20 trading days before but not including the conversion date. Accordingly, there is no limit on the number of shares into which the notes may be converted.

The callable secured convertible notes are secured by the Company's assets, including the Company's inventory, accounts receivable and intellectual property. Moreover, the Company has a call option under the terms of the notes. The call option provides the Company with the right to prepay all of the outstanding callable secured convertible notes at any time, provided there is no event of default by the Company and its stock is trading at or below \$.02 per share. An event of default includes the failure by the Company to pay the principal or interest on the callable secured convertible notes when due or to timely file a registration statement as required by the Company or obtain effectiveness with the Securities and Exchange Commission of the registration statement. Prepayment of the callable secured convertible notes is to be made in cash equal to either (a) 125% of the outstanding principal and accrued interest for prepayments occurring within 30 days following the issue date of the notes; (b) 130% of the outstanding principal and accrued interest for prepayments occurring between 31 and 60 days following the issue date of the notes; or (c) 145% of the outstanding principal and accrued interest for prepayments occurring after the 60th day following the issue date of the notes.

The warrants are exercisable until five years from the date of issuance at a purchase price of \$.10 per share. The investors may exercise the warrants on a cashless basis if the shares of common stock underlying the warrants are not then registered pursuant to an effective registration statement. In the event the investors exercise the warrants on a cashless basis, the Company will not receive any proceeds therefrom. In addition, the exercise price of the warrants will be adjusted in the event the Company issues common stock at a price below

market, with the exception of any securities issued as of the date of the warrants or issued in connection with the callable secured convertible notes issued pursuant to the securities purchase agreement.

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form PRE 14A

The noteholders have agreed to restrict their ability to convert their callable secured convertible notes or exercise their warrants and receive shares of the Company's common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of common stock. However, the noteholders may repeatedly sell shares of common stock in order to reduce their ownership percentage, and subsequently convert additional callable secured convertible notes.

The Company is required to register the shares of its common stock issuable upon the conversion of the callable secured convertible notes and the exercise of the warrants that were issued to the noteholders pursuant to the securities purchase agreement the Company entered into on February 28, 2006. The registration statement must be filed with the Securities and Exchange Commission within 60 days of the February 28, 2006 closing date and the effectiveness of the registration is to be within 135 days of such closing date. Penalties of 2% of the outstanding principal balance of the callable secured convertible notes plus accrued interest are to be applied for each month the registration is not effective within the required time. The penalty may be paid in cash or stock at the Company's option.

Simple Conversion Calculation

The number of shares of common stock issuable upon conversion of the \$3,157,170 in callable secured convertible notes is determined by dividing that portion of the principal of the notes to be converted and interest, if any, by the conversion price. For example, assuming conversion of \$3,157,170 of notes outstanding on June 26, 2006 (consisting of \$4,000,000 in callable secured convertible notes that were sold to the four investors pursuant to the securities purchase agreements dated April 27, 2005 and February 28, 2006, less \$842,830 in callable secured convertible notes that were converted during the period from June 30, 2005 to June 26, 2006) and a conversion price of \$.007 per share, the number of shares issuable upon conversion would be:

$$\$3,157,170 / \$.007 = 451,024,286 \text{ shares.}$$

The continuously adjustable conversion price feature of the callable secured convertible notes could require the Company to issue a substantially greater number of shares, which will cause dilution to the existing shareholders.

The Company's obligation to issue shares upon conversion of its callable secured convertible notes is essentially limitless. The following is an example of the amount of shares of common stock that are issuable upon conversion of \$3,157,170 principal amount of callable secured convertible notes (excluding accrued interest), based on market prices 25%, 50%, and 75% below the market price, as of June 26, 2006 of \$.007.

% Below Market	Price Per Share	With 40% Discount	Number of Shares Issuable	% of Outstanding*
25%	\$.00525	\$.00315	1,002,276,190	516.8%
50%	\$.0035	\$.0021	1,503,414,286	775.1%
75%	\$.00175	\$.00105	3,006,828,571	1,550.3%

*Based on 193,956,828 shares outstanding.

As illustrated, the number of shares of common stock issuable upon conversion of the Company's callable secured convertible notes will increase if the market price of the Company's stock declines, which will cause dilution to the Company's existing shareholders.

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form PRE 14A

The continuously adjustable conversion price feature of the callable secured convertible notes may encourage investors to make short sales in the Company's common stock, which could have a depressive effect on the price of the Company's common stock.

The callable secured convertible notes are convertible into shares of the Company's common stock at a 40% discount to the trading price of the common stock prior to the conversion. The significant downward pressure on the price of the common stock as the noteholders convert and sell material amounts of common stock could encourage short sales by investors. This could place further downward pressure on the price of the common stock. The noteholders could sell

14

common stock into the market in anticipation of covering the short sale by converting their securities, which could cause the further downward pressure on the stock price. In addition, not only could the sale of shares issued upon conversion or exercise of notes, warrants and options, but also the mere perception that these sales could occur, may adversely affect the market price of the common stock.

The issuance of shares upon conversion of the callable secured convertible notes and exercise of outstanding warrants may cause immediate and substantial dilution to existing shareholders.

The issuance of shares upon conversion of callable secured convertible notes and exercise of warrants may result in substantial dilution to the interests of other shareholders since the noteholders may ultimately convert and sell the full amount issuable on conversion. Although the noteholders may not convert their callable secured convertible notes and/or exercise their warrants if such conversion or exercise price would cause them to own more than 4.99% of the Company's outstanding common stock, this restriction does not prevent the noteholders from converting and/or exercising some of their holdings and then converting the rest of their holdings. In this way, the noteholders could sell more than this limit while never holding more than this limit. There is no upper limit on the number of shares that may be issued, which will have the effect of further diluting the proportionate equity interest and voting power of holders of the Company's common stock.

Failure to obtain shareholder approval at the Annual Meeting of Shareholders to increase the number of authorized shares to two times the number of shares issuable upon full conversion of the callable secured convertible notes and exercise of warrants could result in legal action against the Company, which could require the Company to curtail or cease its operations.

At the Annual Meeting of Shareholders to be held on August 11, 2006, the Board of Directors has recommended that the shareholders approve a proposed amendment to its Certificate of Incorporation to increase the number of authorized shares of common stock from 250,000,000 shares to 2,000,000,000 shares. The terms of the callable secured convertible notes and the securities purchase agreements that the Company entered into on April 27, 2005 and February 28, 2006 with four accredited investors require the Company to have authorized, and reserved for the purpose of issuance, two times the number of shares actually issuable upon full conversion of the callable secured convertible notes and exercise of the warrants based on the conversion price of the notes or the exercise price of the warrants in effect from time to time. The Company has filed a registration statement with the Securities and Exchange Commission to register 1,200,000,000 common shares to cover the resale of common shares issuable upon the conversion of the callable secured convertible notes and exercise of the warrants.

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form PRE 14A

In the event the Company is unable to obtain shareholder approval at the August 11, 2006 Annual Meeting of Shareholders to amend the Certificate of Incorporation to increase the number of authorized shares to 2,000,000,000 shares, the Company would be required to pay to the noteholders standard liquidated damages of 3% of the outstanding amount of the callable secured convertible notes per month plus accrued interest on the notes, in cash or shares of its common stock at its option. If the Company elects to pay the noteholders the standard liquidated damages amount in shares of its common stock, such shares would be issued at the conversion price at the time of payment. In addition, failure to obtain shareholder approval to increase the number of authorized shares to two times the number of shares issuable upon full conversion of the notes and exercise of the warrants would constitute an event of default under the securities purchase agreement. If the Company is unable to obtain shareholder approval to increase the number of authorized shares, as required in the securities purchase agreement dated February 28, 2006, the noteholders could commence legal action against the Company and foreclose on all of its assets to recover damages. Any such action would require the Company to curtail or cease operations.

Accordingly, as a result of the completion of the financing involving the sale of \$4,000,000 in callable secured convertible notes, the Company is required, under the terms of the callable secured convertible notes and related agreements, to have authorized and reserved for the purpose of issuance, two times the number of shares actually issuable upon full conversion of the notes and additional notes, and exercise of the warrants. Thus, the Board of Directors has recommended it to be in the best interests of the Company and its shareholders to amend Article III of the Company's Certificate of Incorporation to increase the number of authorized shares of common stock of the Company from 250,000,000 shares to 2,000,000,000 shares, and hereby solicits the approval of the shareholders of the amendment. If the shareholders approve the amendment, the Board of Directors currently intends to file an amendment to the Company's Certificate of Incorporation reflecting the amendment with the Secretary of State of the State of Delaware as soon as practicable following such shareholder approval. If the amendment is not approved by the shareholders, Article III of the existing Certificate of Incorporation will continue in effect.

The objective of the increase in the authorized number of shares of common stock is to ensure that the Company will have sufficient shares available for future issuances of shares under the terms of the callable secured convertible notes. The Board of Directors believes that it is prudent to increase the authorized number of shares of common stock to the proposed levels in order to

15

provide a reserve of shares available for issuance upon conversion of the notes and additional notes, and exercise of the warrants under the terms of the notes and related agreements. All authorized but unissued shares of common stock will be available for issuance from time to time for any proper purpose approved by the Board of Directors.

The Company's shareholders do not currently have any preemptive or similar rights to subscribe for or purchase any additional shares of common stock that may be issued in the future and, therefore, future issuances of common stock may, depending on the circumstances, have a diluted effect on the earnings per share, voting power and other interests of the existing shareholders.

Vote Required and Recommendation of the Board of Directors

The affirmative vote of the holders of a majority of the outstanding shares

of the Company's common stock entitled to vote at the Annual Meeting will be required to approve the proposed amendment, assuming a quorum is present.

The Board of Directors recommends that shareholders vote "FOR" approval of the amendment to the Certificate of Incorporation to increase the number of authorized shares of common stock from 250,000,000 to 2,000,000,000 shares.

APPROVAL OF AMENDMENT TO THE 1995 STOCK OPTION PLAN

Proposal 3

The Board of Directors adopted on June 23, 2006, subject to the approval by the shareholders, an amendment to the Company's 1995 Stock Option Plan. The amendment increases from 5,000,000 to 8,000,000 the number of shares of the Company's common stock available for issuance under the 1995 Stock Option Plan. The Company has in the past used, and intends in the future to use, stock options as incentive devices to motivate and compensate its salaried officers and other key employees, and believes that equity incentives represented by stock options enhances the Company's ability in attracting and retaining the best possible persons for positions of significant responsibility by providing its officers and other key employees with additional incentives to contribute to the Company's success.

Management further believes that the availability of such equity incentives has served, and will continue to serve, an important part in the implementation of the Company's acquisition strategy. As of June 26, 2006, options to purchase an aggregate of 85,300 shares of common stock have been exercised under the 1995 plan; as of such date, options to purchase 4,847,500 shares of common stock were outstanding under the 1995 Stock Option Plan. Accordingly, options to purchase only 67,200 shares of common stock remain available for future grants under the 1995 Stock Option Plan as of such date.

The Board of Directors recommends that the shareholders vote "FOR" approval of the amendment to the 1995 Stock Option Plan.

RATIFICATION OF APPOINTMENT OF INDEPENDENT PUBLIC ACCOUNTANTS

The Audit Committee has recommended and the Board of Directors has appointed Chisholm, Bierwolf & Nilson for purposes of auditing the consolidated financial statements of the Company for the fiscal year ending December 31, 2006. It is anticipated that representatives of Chisholm, Bierwolf & Nilson will be present at the Annual Meeting and will be provided an opportunity to make a statement if they desire, and to be available to respond to appropriate questions.

The Board of Directors recommends that shareholders vote "FOR" ratification of the appointment of Chisholm, Bierwolf & Nilson as the Company's registered public independent accountants for fiscal 2006.
