THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements include the accounts of The Estée Lauder Companies Inc. and its subsidiaries (collectively, the Company). All significant intercompany balances and transactions have been eliminated.

The unaudited interim consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments of a normal recurring nature considered necessary for a fair presentation have been included. The results of operations of any interim period are not necessarily indicative of the results of operations to be expected for the full fiscal year. For further information, refer to the consolidated financial statements and accompanying footnotes included in the Company's Annual Report on Form 10-K for the year ended June 30, 2011.

All share (except par value per share), earnings per common share and cash dividends declared per common share information for the current period and all prior-year periods reflect the two-for-one stock split on the Company's Class A and Class B Common Stock, which was effected in the form of a stock dividend for each share held by stockholders of record at the close of business on January 4, 2012. The number of shares of the Company's Class A Common Stock issuable upon exercise of outstanding stock options and vesting of other stock-based awards were proportionately increased in accordance with the terms of the respective plans.

Management Estimates

The preparation of financial statements and related disclosures in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses reported in those financial statements. Certain significant accounting policies that contain subjective management estimates and assumptions include those related to revenue recognition, inventory, pension and other post-retirement benefit costs, goodwill, other intangible assets and long-lived assets, income taxes and derivatives. Descriptions of these policies are discussed in the notes to consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended June 30, 2011. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, and makes adjustments when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ significantly from those estimates and assumptions. Significant changes, if any, in those estimates and assumptions resulting from continuing changes in the economic environment will be reflected in the consolidated financial statements in future

periods.

Currency Translation and Transactions

All assets and liabilities of foreign subsidiaries and affiliates are translated at period-end rates of exchange, while revenue and expenses are translated at weighted average rates of exchange for the period. Unrealized translation gains or losses are reported as cumulative translation adjustments through other comprehensive income (loss) (OCI). Such adjustments, attributable to The Estée Lauder Companies Inc., amounted to \$(18.1) million and \$4.9 million of unrealized translation gains (losses), net of tax, during the three months ended December 31, 2011 and 2010, respectively, and \$(131.4) million and \$91.6 million of unrealized translation gains (losses), net of tax, during the six months ended December 31, 2011 and 2010, respectively. For the Company's Venezuelan subsidiary operating in a highly inflationary economy, the U.S. dollar is the functional currency. Remeasurement adjustments in financial statements in a highly inflationary economy and other transactional gains and losses are reflected in earnings.

The accompanying consolidated statements of earnings include net exchange gains (losses) on foreign currency transactions of \$6.7 million and \$(3.6) million during the three months ended December 31, 2011 and 2010, respectively, and \$(3.1) million and \$(0.8) million during the six months ended December 31, 2011 and 2010, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Accounts Receivable

Accounts receivable is stated net of the allowance for doubtful accounts and customer deductions totaling \$35.5 million and \$33.9 million as of December 31, 2011 and June 30, 2011, respectively.

Concentration of Credit Risk

The Company is a worldwide manufacturer, marketer and distributor of skin care, makeup, fragrance and hair care products. The Company's sales are made primarily to department stores, perfumeries and specialty retailers. The Company grants credit to all qualified customers and does not believe it is exposed significantly to any undue concentration of credit risk.

The Company's largest customer sells products primarily within the United States and accounted for \$261.7 million, or 10%, and \$246.3 million, or 10%, of the Company's consolidated net sales for the three months ended December 31, 2011 and 2010, respectively, and \$575.0 million, or 11%, and \$528.3 million, or 12%, of the Company's consolidated net sales for the six months ended December 31, 2011 and 2010, respectively. This customer accounted for \$120.9 million, or 9%, and \$92.3 million, or 10%, of the Company's accounts receivable at December 31, 2011 and June 30, 2011, respectively.

Inventory and Promotional Merchandise

	2,877.7	2,862.1
Less accumulated depreciation and amortization	1,726.3	1,719.0
	\$ 1,151.4	\$ 1,143.1

The cost of assets related to projects in progress of \$228.2 million and \$183.5 million as of December 31, 2011 and June 30, 2011, respectively, is included in their respective asset categories above. Depreciation and amortization of property, plant and equipment was \$69.1 million and \$63.8 million during the three months ended December 31, 2011 and 2010, respectively, and \$136.4 million and \$129.2 million during the six months ended December 31, 2011 and 2010, respectively. Depreciation and amortization related to the Company's manufacturing process is included in cost of sales and all other depreciation and amortization is included in selling, general and administrative expenses in the accompanying consolidated statements of earnings.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Income Taxes

The effective income tax rate was 32.6% and 31.0% for the three months ended December 31, 2011 and 2010, respectively. The increase in the effective income tax rate was principally due to favorable income tax reserve adjustments booked in the prior-year period, including a tax and interest benefit of \$11 million, net of tax, attributable to concluding the examination by the U.S. Internal Revenue Service (IRS) of fiscal 2006 through 2008. The prior-year rate was also favorably impacted due to the reinstatement of the U.S. federal research and experimentation tax credit, retroactive to January 1, 2010, the majority of such benefit recorded discretely in the prior-year period.

The effective income tax rate was 32.6% and 31.7% for the six months ended December 31, 2011 and 2010, respectively. The increase in the effective income tax rate was principally due to favorable income tax reserve adjustments booked in the prior-year period, including a tax and interest benefit of \$11 million, net of tax, attributable to concluding the examination by the IRS of fiscal 2006 through 2008.

As of December 31, 2011 and June 30, 2011, the gross amount of unrecognized tax benefits, exclusive of interest and penalties, totaled \$96.7 million and \$104.8 million, respectively. The total amount of unrecognized tax benefits at December 31, 2011 that, if recognized, would affect the effective tax rate was \$61.5 million. The total gross interest and penalties accrued related to unrecognized tax benefits during the three and six months ended December 31, 2011 in the accompanying consolidated statements of earnings was \$6.1 million and \$9.2 million, respectively. The total gross accrued interest and penalties in the accompanying consolidated balance sheets at December 31, 2011 and June 30, 2011 was \$45.0 million and \$37.7 million, respectively. On the basis of the information available as of December 31, 2011, it is reasonably possible that the total amount of unrecognized tax benefits could decrease in a range of \$25 million to \$30 million within 12 months as a result of projected resolutions of global tax examinations and controversies and a potential lapse of the applicable statutes of limitations.

During the six months ended December 31, 2011, the Company formally concluded the IRS examination of fiscal years 2009 and 2010. The conclusion of this examination did not materially impact the Company's consolidated financial statements.

Recently Adopted Accounting Standards

In December 2010, the Financial Accounting Standards Board (FASB) amended its authoritative guidance related to Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more-likely-than-not that a goodwill impairment exists. In determining whether it is more-likely-than-not that a goodwill impairment exists, consideration should be made as to whether there are any adverse qualitative factors indicating that an impairment may exist. This guidance became effective for the Company's fiscal 2012 first quarter. The adoption of this standard did not have an impact on the Company's consolidated financial statements.

In December 2010, the FASB amended its authoritative guidance related to business combinations entered into by an entity that are material on an individual or aggregate basis. These amendments clarify existing guidance that if an entity presents comparative financial statements that include a material business combination, the entity should disclose revenue and earnings of the combined entity as though the business combination that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period. The amendments also expand the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. This guidance became effective prospectively for business combinations for which the acquisition date was on or after the first day of the Company's fiscal 2012. This disclosure-only guidance did not have an impact on the Company's results of operations, financial position or cash flows.

In January 2010, the FASB issued authoritative guidance that requires entities to make new disclosures about recurring or nonrecurring fair-value measurements of assets and liabilities. The Company adopted the new guidance in its fiscal 2010 third quarter, except for certain detailed recurring Level 3 disclosures, which became effective for the Company's fiscal 2012 first quarter. The Company currently does not have any recurring Level 3 assets or liabilities.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Recently Issued Accounting Standards

In December 2011, the FASB issued authoritative guidance that creates new disclosure requirements about the nature of an entity's rights of offset and related arrangements associated with its financial instruments and derivative instruments. This revised guidance helps reconcile differences in the offsetting requirements under U.S. GAAP and International Financial Reporting Standards (IFRS). These requirements mandate that entities disclose both gross and net information about instruments and transactions eligible for offset in the statement of financial position as well as instruments and transactions subject to an agreement similar to a master netting arrangement. This disclosure-only guidance becomes effective for the Company's fiscal 2013 third quarter, with retrospective application required. The Company currently does not hold any financial or derivative instruments that are subject to an enforceable master netting arrangement. However, the Company currently utilizes the right of offset when netting certain negative cash balances in its statement of financial position. This guidance is not expected to have an impact on the Company's results of operations, financial position or cash flows, but may require certain additional disclosures if such balances are material or if the Company enters into additional arrangements that fall under the provisions of this guidance.

In September 2011, the FASB amended its authoritative guidance related to testing goodwill for impairment. Under the revised guidance, entities testing goodwill for impairment have the option of performing a qualitative assessment before performing Step 1 of the goodwill impairment test. If entities determine, on the basis of qualitative factors, that the fair value of the reporting unit is more-likely-than-not less than the carrying amount, the two-step impairment test would be required. This guidance becomes effective in the beginning of the Company's fiscal 2013, with early adoption permitted. The Company is currently evaluating the timing of adopting this guidance which will not have an impact on the Company's consolidated financial statements.

In September 2011, the FASB amended its authoritative guidance related to multiemployer benefit plans. This revised guidance is intended to provide enhanced qualitative and quantitative disclosures about an employer's significant financial obligations to a multiemployer pension plan and, therefore, help financial statement users better understand the financial health of all significant plans in which the employer participates. To the extent the information required under the revised standard is not available in the public domain, as may be the case for some foreign plans, employers should include more qualitative information about the plan. This disclosure-only guidance becomes effective for the Company's fiscal 2013, with early adoption permitted and full retrospective application required. The Company is currently evaluating the timing of adopting and the impact of this guidance on the Company's consolidated financial statements.

In June 2011, the FASB amended its authoritative guidance related to the presentation of comprehensive income, requiring entities to present items of net income and other comprehensive income either in one continuous statement or in two separate consecutive statements. This guidance also required entities to present reclassification adjustments for each component of accumulated other comprehensive income in both net income and other comprehensive income on the face of the financial statements. In December 2011, the FASB issued an update to this guidance deferring the requirement to present reclassification adjustments on the face of the financial statements. However, the Company is still required to present reclassification adjustments on either the face of the financial statement where comprehensive income is reported or disclose the reclassification adjustments in the notes to the financial statements. This guidance, including the deferral, becomes effective for the Company's fiscal 2013 first quarter, with early adoption permitted and full retrospective application required. The Company is currently evaluating the impact of adopting this guidance but believes that it will result only in changes in the presentation of its consolidated financial statements and will not have a material impact on the Company's results of operations, financial position or cash flows.

In May 2011, the FASB amended its authoritative guidance related to fair value measurements to provide a consistent definition and measurement of fair value, as well as similar disclosure requirements between U.S. GAAP and IFRS. This guidance clarifies the application of existing fair value measurement and expands the existing disclosure requirements. This guidance becomes effective for the Company's fiscal 2012 third quarter. This guidance is not expected to have a material impact on the Company's results of operations, financial position or cash flows, but may require certain additional disclosures.

Trademarks and other			117.5			125.1
Total intangible assets			\$ 211.8			\$ 227.5

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

The aggregate amortization expense related to amortizable intangible assets for the three months ended December 31, 2011 and 2010 was \$3.4 million and \$3.9 million, respectively, and for the six months ended December 31, 2011 and 2010 was \$6.9 million and \$7.5 million, respectively. The estimated aggregate amortization expense for the remainder of fiscal 2012 and for each of fiscal 2013 to 2016 is \$6.7 million, \$13.6 million, \$13.5 million, \$13.4 million and \$13.3 million, respectively.

Impairment Testing During the Six Months Ended December 31, 2011

During the second quarter of fiscal 2012, the Ojon reporting unit identified a potential decline in its projected results of operations, primarily resulting from a softness in the direct response television channel, which caused the Company to review and revise Ojon's long-term forecast. The Company concluded that these changes in the business of the Ojon reporting unit triggered the need for an interim impairment test of its trademarks as of December 31, 2011. These changes in circumstances were also an indicator that the carrying amount of the customer list may not be recoverable. The Company performed an interim impairment test for the trademarks and a recoverability test for the customer list as of December 31, 2011. For the trademarks, the Company concluded that the carrying value exceeded its estimated fair value, which was based on the use of a royalty rate to determine discounted projected future cash flows (relief-from-royalty method). As a result, the Company recognized an impairment charge of \$6.7 million. This charge was reflected in the hair care product category in the Americas region. The Company concluded that the carrying value of the customer list is recoverable.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 RETURNS AND CHARGES ASSOCIATED WITH RESTRUCTURING ACTIVITIES

In an effort to drive down costs and achieve synergies within the organization, in February 2009, the Company announced the implementation of a multi-faceted cost savings program (the Program) to position itself to achieve long-term profitable growth. The Company anticipates the Program will result in related restructuring and other charges, inclusive of cumulative charges recorded to date and through the remainder of the Program, totaling between \$350 million and \$450 million before taxes. While the Company will continue to seek cost savings opportunities, the Company's current plans are to identify and approve specific initiatives under the Program through fiscal 2012 and execute those initiatives through fiscal 2013. The total amount of charges (pre-tax) associated with the Program, recorded, plus other initiatives approved through December 31, 2011, is approximately \$307 million to \$312 million, of which approximately \$202 million to \$204 million relates to restructuring charges, approximately \$50 million of other costs to implement the initiatives, approximately \$39 million to \$42 million in sales returns and approximately \$16 million in inventory write-offs. The restructuring charges are comprised of approximately \$154 million to \$156 million of employee-related costs, approximately \$27 million of other exit costs and contract terminations (substantially all of which have resulted in or will result in cash expenditures), and approximately \$21 million in non-cash asset write-offs. The total amount of cumulative charges (pre-tax) associated with the Program recorded from inception through December 31, 2011 was \$249.6 million.

The Program focuses on a redesign of the Company's organizational structure in order to integrate it in a more cohesive way and operate more globally across brands and functions. The principal aspect of the Program was the reduction of the workforce by approximately 2,000 employees. Specific actions taken since the inception of the Program included:

- **Resize and Reorganize the Organization** The Company continued the realignment and optimization of its organization to better leverage scale, improve productivity, reduce complexity and achieve cost savings in each region and across various functions. This included reduction of the workforce which occurred through the consolidation of certain functions, which the Company achieved through a combination of normal attrition and job eliminations, and the closure and consolidation of certain distribution and office facilities.
- **Turnaround or Exit Unprofitable Operations** To improve the profitability in certain of the Company's brands and regions, the Company has selectively exited certain channels of distribution, categories and markets, and has made changes to turnaround others. This included the exit from the global wholesale distribution of the Company's Prescriptives brand and the reformulation of Ojon brand products. In connection with these activities, the Company incurred charges related to product returns, inventory write-offs, reduction of workforce and termination of contracts.
- **Outsourcing** In order to balance the growing need for information technology support with the Company's efforts to provide the most efficient and cost effective solutions, the Company continued the outsourcing of certain information technology processes. The Company incurred costs to transition services to outsource providers and employee-related termination costs.

Restructuring Charges

The following table presents restructuring charges related to the Program as follows:

(In millions)	Three Months Ended December 31		Six Months Ended December 31	
	2011	2010	2011	2010
Employee-related costs	\$ 2.1	\$ 8.8	\$ 4.3	\$ 9.5

Balance at December 31, 2011	\$ 24.2	\$	\$	\$ 0.4	\$ 24.6

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

Accrued restructuring charges at December 31, 2011 are expected to result in cash expenditures funded from cash provided by operations of approximately \$14 million, \$8 million and \$3 million in fiscal 2012, 2013 and 2014, respectively.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**Total Returns and Other Charges Associated with Restructuring Activities

The following table presents total charges associated with restructuring activities related to the Program:

(In millions)	Three Months Ended December 31		Six Months Ended December 31	
	2011	2010	2011	2010
Sales returns (included in Net Sales)	\$ 0.1	\$ 1.5	\$ (0.6)	\$ 1.5
Cost of sales	(0.1)	3.8		4.6
Restructuring charges	3.9	10.7	6.9	12.4
Other charges	2.2	3.3	3.9	5.4
Total charges associated with restructuring activities	\$ 6.1	\$ 19.3	\$ 10.2	\$ 23.9

During the three and six months ended December 31, 2011, the Company recorded adjustments to reflect revised estimates of sales returns associated with prior initiatives. During the three months ended December 31, 2010, the Company recorded \$1.5 million of sales returns (less a related cost of sales of \$0.5 million) and a write-off of inventory of \$4.3 million associated with turnaround operations, primarily related to the reformulation of Ojon brand products. During the six months ended December 31, 2010, the Company recorded \$1.5 million reflecting sales returns (less a related cost of sales of \$0.5 million) and a write-off of inventory of \$5.1 million associated with turnaround operations, primarily related to the reformulation of Ojon brand products. Other charges in connection with the implementation of the Program primarily relate to consulting and other professional services.

NOTE 4 DERIVATIVE FINANCIAL INSTRUMENTS

The Company addresses certain financial exposures through a controlled program of risk management that includes the use of derivative financial instruments. The Company enters into foreign currency forward contracts and may enter into option contracts to reduce the effects of fluctuating foreign currency exchange rates and interest rate derivatives to manage the effects of interest rate movements on the Company's aggregate liability portfolio. The Company also enters into foreign currency forward contracts and may use option contracts, not designated as hedging instruments, to mitigate the change in fair value of specific assets and liabilities on the balance sheet. The Company does not utilize derivative financial instruments for trading or speculative purposes. Costs associated with entering into these derivative financial instruments have not been material to the Company's consolidated financial results.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

For each derivative contract entered into where the Company looks to obtain hedge accounting treatment, the Company formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking the hedge transaction, the nature of the risk being hedged, how the hedging instruments' effectiveness in offsetting the hedged risk will be assessed prospectively and retrospectively, and a description of the method of measuring ineffectiveness. This process includes linking all derivatives to specific assets and liabilities on the balance sheet or to specific firm commitments or forecasted transactions. The Company also formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items. If it is determined that a derivative is not highly effective, or that it has ceased to be a highly effective hedge, the Company will be required to discontinue hedge accounting with respect to that derivative prospectively.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Foreign Currency Cash-Flow Hedges

The Company enters into foreign currency forward contracts to hedge anticipated transactions, as well as receivables and payables denominated in foreign currencies, for periods consistent with the Company's identified exposures. The purpose of the hedging activities is to minimize the effect of foreign exchange rate movements on costs and on the cash flows that the Company receives from foreign subsidiaries. The majority of foreign currency forward contracts are denominated in currencies of major industrial countries. The foreign currency forward contracts entered into to hedge anticipated transactions have been designated as foreign currency cash-flow hedges and have varying maturities through the end of September 2013. Hedge effectiveness of foreign currency forward contracts is based on a hypothetical derivative methodology and excludes the portion of fair value attributable to the spot-forward difference which is recorded in current-period earnings.

The ineffective portion of foreign currency forward contracts is recorded in current-period earnings. For hedge contracts that are no longer deemed highly effective, hedge accounting is discontinued and gains and losses accumulated in OCI are reclassified to earnings when the underlying forecasted transaction occurs. If it is probable that the forecasted transaction will no longer occur, then any gains or losses in accumulated OCI are reclassified to current-period earnings. As of December 31, 2011, the Company's foreign currency cash-flow hedges were highly effective in all material respects. The estimated net gain as of December 31, 2011 that is expected to be reclassified from accumulated OCI into earnings, net of tax, within the next twelve months is \$8.5 million. The accumulated gain (loss) on derivative instruments in accumulated OCI was \$16.8 million and \$(13.2) million as of December 31, 2011 and June 30, 2011, respectively.

At December 31, 2011, the Company had foreign currency forward contracts in the amount of \$1,486.3 million. The foreign currencies included in foreign currency forward contracts (notional value stated in U.S. dollars) are principally the British pound (\$333.4 million), Swiss franc (\$259.4 million), Euro (\$219.7 million), Canadian dollar (\$109.2 million), Australian dollar (\$98.8 million), South Korean won (\$74.7 million) and Japanese yen (\$60.0 million).

Credit Risk

As a matter of policy, the Company only enters into derivative contracts with counterparties that have a long-term credit rating of at least A- or higher by at least two nationally recognized rating agencies. The counterparties to these contracts are major financial institutions. Exposure to credit risk in the event of nonperformance by any of the counterparties is limited to the gross fair value of contracts in asset positions, which totaled \$16.9 million at December 31, 2011. To manage this risk, the Company has established strict counterparty credit guidelines that are continually monitored. Accordingly, management believes risk of loss under these hedging contracts is remote.

Certain of the Company's derivative financial instruments contain credit-risk-related contingent features. At December 31, 2011, the Company was in a net asset position for certain derivative contracts that contain such features with two counterparties. The fair value of those contracts as

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

of December 31, 2011 was approximately \$0.8 million. As of December 31, 2011, the Company was in compliance with such credit-risk-related contingent features.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****NOTE 5 FAIR VALUE MEASUREMENTS**

The Company records its financial assets and liabilities at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability, in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants at the measurement date. The accounting for fair value measurements must be applied to nonfinancial assets and nonfinancial liabilities, which principally consist of assets and liabilities acquired through business combinations, goodwill, indefinite-lived intangible assets and long-lived assets for the purposes of calculating potential impairment, and liabilities associated with restructuring activities. The Company is required to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are as follows:

Level 1: Inputs based on quoted market prices for identical assets or liabilities in active markets at the measurement date.

Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. The inputs are unobservable in the market and significant to the instrument's valuation.

The following table presents the Company's hierarchy for its financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2011:

(In millions)	Level 1	Level 2	Level 3	Total
Assets:				
Foreign currency forward contracts	\$	\$ 16.9	\$	\$ 16.9
Available-for-sale securities	5.9			5.9
Total	\$ 5.9	\$ 16.9	\$	\$ 22.8
Liabilities:				
Foreign currency forward contracts	\$	\$ 7.0	\$	\$ 7.0

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

The following table presents the Company's hierarchy for its financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2011:

(In millions)	Level 1	Level 2	Level 3	Total
Assets:				
Foreign currency forward contracts	\$	\$ 15.0	\$	\$ 15.0
Available-for-sale securities	6.6			6.6
Total	\$ 6.6	\$ 15.0	\$	\$ 21.6
Liabilities:				
Foreign currency forward contracts	\$	\$ 30.9	\$	\$ 30.9

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The following table presents the Company's hierarchy as of December 31, 2011 and impairment charges for the three and six months ended December 31, 2011 for certain of its nonfinancial assets measured at fair value on a nonrecurring basis, due to a change in circumstances that triggered an interim impairment test:

(In millions)	Impairment charges	Carrying Value December 31, 2011	Level 1	Level 2	Level 3 (1)
Other intangible assets, net	\$ 6.7	\$ 3.3	\$	\$	\$ 3.3
Total	\$ 6.7	\$ 3.3	\$	\$	\$ 3.3

(1) See Note 2 for discussion of the valuation techniques used to measure fair value, the description of the inputs and information used to develop those inputs.

Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of the Company's other classes of financial instruments for which it is practicable to estimate that value:

Cash and cash equivalents The carrying amount approximates fair value, primarily because of the short maturity of cash equivalent instruments.

Available-for-sale securities Available-for-sale securities are generally comprised of mutual funds and are valued using quoted market prices on an active exchange. Available-for-sale securities are included in Other assets in the accompanying consolidated balance sheets.

Foreign currency forward contracts The fair values of the Company's foreign currency forward contracts were determined using an industry-standard valuation model, which is based on an income approach. The significant observable inputs to the model, such as swap yield curves and currency spot and forward rates, were obtained from an independent pricing service. To determine the fair value of contracts under

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

the model, the difference between the contract price and the current forward rate was discounted using LIBOR for contracts with maturities up to 12 months, and swap yield curves for contracts with maturities greater than 12 months.

Current and long-term debt The fair value of the Company's debt was estimated based on the current rates offered to the Company for debt with the same remaining maturities. To a lesser extent, debt also includes capital lease obligations for which the carrying amount approximates the fair value.

The estimated fair values of the Company's financial instruments are as follows:

(In millions)	December 31 2011		June 30 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Nonderivatives				
Cash and cash equivalents	\$ 999.1	\$ 999.1	\$ 1,253.0	\$ 1,253.0
Available-for-sale securities	5.9	5.9	6.6	6.6
Current and long-term debt	1,212.5	1,404.3	1,218.1	1,293.5
Derivatives				
Foreign currency forward contracts asset (liability)	9.9	9.9	(15.9)	(15.9)

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****NOTE 6 PENSION AND POST-RETIREMENT BENEFIT PLANS**

The Company maintains pension plans covering substantially all of its full-time employees for its U.S. operations and a majority of its international operations. The Company also maintains post-retirement benefit plans which provide certain medical and dental benefits to eligible employees. Descriptions of these plans are discussed in the notes to consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended June 30, 2011.

The components of net periodic benefit cost for the three months ended December 31, 2011 and 2010 consisted of the following:

(In millions)	Pension Plans				Other than Pension Plans Post-retirement			
	2011	U.S. 2010	2011	International 2010	2011	2010	2011	2010
Service cost	\$ 6.9	\$ 6.4	\$ 5.7	\$ 5.4	\$ 0.9	\$ 0.9		
Interest cost	7.4	7.0	4.8	5.0	2.1	1.9		
Expected return on plan assets	(9.7)	(8.7)	(5.3)	(5.6)	(0.3)	(0.1)		
Amortization of:								
Prior service cost	0.2	0.2	1.0	0.5				
Actuarial loss	2.0	2.4	1.2	1.5	0.5	0.5		
Net periodic benefit cost	\$ 6.8	\$ 7.3	\$ 7.4	\$ 6.8	\$ 3.2	\$ 3.2		

The components of net periodic benefit cost for the six months ended December 31, 2011 and 2010 consisted of the following:

(In millions)	Pension Plans				Other than Pension Plans Post-retirement			
	2011	U.S. 2010	2011	International 2010	2011	2010	2011	2010
Service cost	\$ 13.8	\$ 12.8	\$ 11.6	\$ 10.5	\$ 1.8	\$ 1.8		
Interest cost	14.9	14.0	9.7	9.7	4.2	3.8		
Expected return on plan assets	(19.4)	(17.4)	(10.7)	(10.9)	(0.6)	(0.2)		
Amortization of:								
Prior service cost	0.3	0.4	2.0	1.0				
Actuarial loss	4.0	4.8	2.4	2.9	0.9	1.0		
Net periodic benefit cost	\$ 13.6	\$ 14.6	\$ 15.0	\$ 13.2	\$ 6.3	\$ 6.4		

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

During the six months ended December 31, 2011, the Company made contributions to its international defined benefit pension plans totaling approximately \$18 million. The expected contributions to the international defined benefit pension plans increased to approximately \$24 million from approximately \$16 million for the fiscal year ending June 30, 2012 due to an updated funding strategy for a particular plan.

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7 CONTINGENCIES

Legal Proceedings

The Company is involved, from time to time, in litigation and other legal proceedings incidental to its business. Management believes that the outcome of current litigation and legal proceedings will not have a material adverse effect upon the Company's results of operations, financial condition or cash flows. However, management's assessment of the Company's current litigation and other legal proceedings could change in light of the discovery of facts with respect to legal actions or other proceedings pending against the Company, not presently known to the Company or determinations by judges, juries or other finders of fact which are not in accord with management's evaluation of the possible liability or outcome of such litigation or proceedings. Except as disclosed below, reasonably possible losses in addition to the amounts accrued for litigation and other legal proceedings are not material to the Company's consolidated financial statements.

During the fiscal 2007 fourth quarter, the former owner of the Darphin brand initiated litigation in the Paris Commercial Court against the Company and one of its subsidiaries seeking to recover 60.0 million Euros (\$78.4 million at the exchange rate at December 31, 2011) that he claims he was owed as additional consideration for the sale of Darphin to the Company in April 2003. On December 23, 2011, the Paris Commercial Court issued its judgment, awarding the former owner 22.9 million Euros (\$29.9 million at the exchange rate at December 31, 2011) plus interest from 2007. The Company has filed a notice of appeal with the Paris Court of Appeal. In accordance with the judgment, in January 2012, the Company paid 25.3 million Euros (\$32.3 million at the exchange rate at January 12, 2012) to the former owner and received from him a bank guarantee to assure repayment to the Company of such sum (or any part thereof) in the event that the judgment is reversed by the Paris Court of Appeal. Based upon its assessment of the case, as well as the advice of external counsel, the Company is maintaining the amount it previously accrued as an amount that it believes will ultimately be paid based on the probable outcome of the appeal. Such amount is less than the Paris Commercial Court's award.

Other Income

In November 2011, the Company settled a commercial dispute with third parties that was outside its normal operations. In connection therewith, the Company received a \$10.5 million cash payment, which has been classified as other income in its consolidated statement of earnings.

NOTE 8 STOCK-BASED COMPENSATION

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

The Company has various stock-based compensation programs (the Plans) under which awards, including stock options, performance share units (PSU), restricted stock units (RSU), share units and a market share unit (MSU), may be granted. As of December 31, 2011, approximately 23,320,900 shares of the Company's Class A Common Stock were reserved and available to be granted pursuant to these Plans.

Total net stock-based compensation expense is attributable to the granting of, and the remaining requisite service periods of stock options, PSUs, RSUs, MSU and share units. Compensation expense attributable to net stock-based compensation is as follows:

(In millions)	Three Months Ended December 31				Six Months Ended December 31			
	2011		2010		2011		2010	
Compensation expense	\$	31.2	\$	23.8	\$	76.6	\$	54.4
Income tax benefit		10.3		8.0		25.2		18.1

As of December 31, 2011, the total unrecognized compensation cost related to unvested stock-based awards was \$124.3 million and the related weighted-average period over which it is expected to be recognized is approximately 2 years.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS*****Stock Options***

The following is a summary of the Company's stock option programs as of December 31, 2011 and changes during the six months then ended:

(Shares in thousands)	Shares	Weighted Average Exercise Price Per Share	Aggregate Intrinsic Value (1) (in millions)	Weighted Average Contractual Life Remaining in Years
Outstanding at June 30, 2011	16,972.5	\$ 22.87		
Granted at fair value	3,345.8	49.21		
Exercised	(1,828.5)	20.47		
Expired	(7.9)	21.23		
Forfeited	(121.3)	29.12		
Outstanding at December 31, 2011	18,360.6	27.86	\$ 519.6	7.2
Vested and expected to vest at December 31, 2011	18,156.4	27.71	\$ 516.7	7.2
Exercisable at December 31, 2011	6,666.2	20.88	\$ 235.2	5.1

(1) The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option.

The following is a summary of the per-share weighted average grant date fair value of stock options granted and total intrinsic value of stock options exercised:

(In millions, except per share data)	Three Months Ended December 31		Six Months Ended December 31	
	2011	2010	2011	2010
Per-share weighted average grant date fair value of stock options granted	\$ 21.67	\$ 12.31	\$ 17.41	\$ 9.46
Intrinsic value of stock options exercised	\$ 60.3	\$ 43.5	\$ 65.8	\$ 51.2

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

	Three Months Ended December 31		Six Months Ended December 31	
	2011	2010	2011	2010
Weighted average expected stock-price volatility	35%	31%	35%	31%
Weighted average expected option life	8 years	9 years	8 years	8 years
Average risk-free interest rate	2.0%	2.4%	1.7%	2.2%
Average dividend yield	1.0%	1.1%	1.0%	1.1%

The Company uses a weighted-average expected stock-price volatility assumption that is a combination of both current and historical implied volatilities of the underlying stock. The implied volatilities were obtained from publicly available data sources. For the weighted-average expected option life assumption, the Company considers the exercise behavior of past grants and models the pattern of aggregate exercises. The average risk-free interest rate is based on the U.S. Treasury strip rate for the expected term of the options and the average dividend yield is based on historical experience.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS*****Performance Share Units***

During the six months ended December 31, 2011, the Company granted 260,000 PSUs, which will be settled in stock subject to the achievement of the Company's net sales, diluted net earnings per common share and return on invested capital goals for the three fiscal years ending June 30, 2014. In September 2011, approximately 275,200 shares of the Company's Class A Common Stock were issued and related accrued dividends were paid, relative to the target goals set at the time of issuance, in settlement of 262,000 PSUs which vested as of June 30, 2011.

The following is a summary of the status of the Company's PSUs as of December 31, 2011 and activity during the six months then ended:

(Shares in thousands)	Shares	Weighted-Average Grant Date Fair Value Per Share
Nonvested at June 30, 2011	699.8	\$ 23.36
Granted	260.0	48.57
Vested		
Forfeited	(3.3)	47.97
Nonvested at December 31, 2011	956.5	30.12

Restricted Stock Units

The Company granted approximately 1,314,500 RSUs during the six months ended December 31, 2011 which, at the time of grant, were scheduled to vest as follows: 747,500 on October 31, 2012, 388,500 on October 31, 2013, 172,100 on October 31, 2014 and 6,400 on December 31, 2015, all subject to the continued employment or retirement of the grantees. Certain RSUs granted in fiscal 2012 are accompanied by dividend equivalent rights that will be payable in cash upon settlement of the RSU and, as such, were valued at the closing market value of the Company's Class A Common Stock on the date of grant. Other RSUs granted in fiscal 2012 are not accompanied by dividend equivalent rights and, as such, were valued at the closing market value of the Company's Class A Common Stock on the date of grant less the discounted present value of the dividends expected to be paid on the shares during the vesting period.

The following is a summary of the status of the Company's RSUs as of December 31, 2011 and activity during the six months then ended:

(Shares in thousands)	Shares	Weighted-Average Grant Date Fair Value Per Share
Nonvested at June 30, 2011	2,870.3	\$ 24.87
Granted	1,314.5	48.65
Vested	(1,716.3)	24.31
Forfeited	(58.4)	31.91
Nonvested at December 31, 2011	2,401.1	38.06

Market Share Unit

As of December 31, 2011, the Company had outstanding one market share unit with a grant date fair value of \$10.6 million that was estimated using a lattice model with a Monte Carlo simulation and the following assumptions: contractual life of 41 months, a weighted average expected volatility of 29%, a weighted average risk-free interest rate of 1.6% and a weighted average dividend yield of 1.0%. The Company used an expected stock-price volatility assumption that is a combination of both current and historical implied volatilities from options on the underlying stock. The implied volatilities were obtained from publicly available data sources. The expected life is equal to the contractual term of the grant. The average risk-free interest rate is based on the U.S. Treasury strip rates over the contractual term of the grant and the average dividend yield is based on historical experience.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS*****Share Units***

The Company grants share units to certain non-employee directors under the Non-Employee Director Share Incentive Plan. The following is a summary of the status of the Company's share units as of December 31, 2011 and activity during the six months then ended:

(Shares in thousands)	Shares	Weighted-Average Grant Date Fair Value Per Share
Outstanding at June 30, 2011	58.4	\$ 21.22
Granted	14.5	57.53
Dividend equivalents	0.7	52.79
Converted		
Outstanding at December 31, 2011	73.6	28.69

Cash Units

Certain non-employee directors defer cash compensation in the form of cash payout share units, which are not subject to the Plans. These share units are classified as liabilities and, as such, their fair value is adjusted to reflect the current market value of the Company's Class A Common Stock. The Company recorded \$2.5 million and \$1.0 million as compensation expense to reflect additional deferrals and the change in the market value for the three months ended December 31, 2011 and 2010, respectively. The Company recorded \$1.0 million and \$1.7 million as compensation expense to reflect additional deferrals and the change in the market value for the six months ended December 31, 2011 and 2010, respectively.

NOTE 9 NET EARNINGS ATTRIBUTABLE TO THE ESTÉE LAUDER COMPANIES INC. PER COMMON SHARE

Net earnings attributable to The Estée Lauder Companies Inc. per common share (basic EPS) is computed by dividing net earnings attributable to The Estée Lauder Companies Inc. by the weighted-average number of common shares outstanding and contingently issuable shares (which satisfy certain conditions). Net earnings attributable to The Estée Lauder Companies Inc. per common share assuming dilution (diluted EPS) is computed by reflecting potential dilution from stock-based awards.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

A reconciliation between the numerators and denominators of the basic and diluted EPS computations is as follows:

(In millions, except per share data)	Three Months Ended December 31		Six Months Ended December 31	
	2011	2010	2011	2010
Numerator:				
Net earnings attributable to The Estée Lauder Companies Inc.	\$ 396.7	\$ 343.9	\$ 675.3	\$ 535.0
Denominator:				
Weighted-average common shares outstanding				
Basic	386.8	393.4	388.7	393.4
Effect of dilutive stock options	6.6	6.6	6.5	6.0
Effect of restricted stock units	1.6	1.8	1.9	1.8
Effect of market share unit	0.2		0.2	
Weighted-average common shares outstanding				
Diluted	395.2	401.8	397.3	401.2
Net earnings attributable to The Estée Lauder Companies Inc. per common share:				
Basic	\$ 1.03	\$ 0.87	\$ 1.74	\$ 1.36
Diluted	1.00	0.86	1.70	1.33

[Table of Contents](#)
THE ESTÉE LAUDER COMPANIES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of December 31, 2011 and 2010, outstanding options to purchase 3.3 million and 0.2 million shares, respectively, of Class A Common Stock were not included in the computation of diluted EPS because their inclusion would be anti-dilutive. As of December 31, 2011 and 2010, 1.0 million PSUs have been excluded from the calculation of diluted EPS because the number of shares ultimately issued is contingent on the achievement of certain performance targets of the Company, as discussed in Note 8.

NOTE 10 COMPREHENSIVE INCOME (LOSS)

On November 3, 2011, the Company's Board of Directors declared a two-for-one stock split on the Company's Class A and Class B Common Stock to be effected in the form of a stock dividend. As a result of this action, one additional share was issued on January 20, 2012 for each share held by stockholders of record at the close of business on January 4, 2012. The stock split did not have an impact on the Company's consolidated financial position or results of operations. In addition, on November 3, 2011, the Company's Board of Directors declared a dividend in the amount of \$.525 per share on the Company's Class A and Class B Common Stock. The dividend was paid in cash on December 14, 2011 to stockholders of record at the close of business on November 28, 2011.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS***Common Stock*

During the six months ended December 31, 2011, the Company purchased approximately 10,651,900 shares of its Class A Common Stock for \$522.4 million.

NOTE 12 STATEMENT OF CASH FLOWS

Supplemental cash flow information for the six months ended December 31, 2011 and 2010 is as follows:

(In millions)	2011	2010
Cash:		
Cash paid during the period for interest	\$ 36.7	\$ 35.5
Cash paid during the period for income taxes	\$ 125.3	\$ 91.4
Non-cash investing and financing activities:		
Incremental tax benefit from the exercise of stock options	\$ (4.0)	\$ (7.5)
Capital lease obligations incurred	\$ 0.4	\$ 0.8
Interest rate swap derivative mark to market	\$	\$ 8.7

NOTE 13 SEGMENT DATA AND RELATED INFORMATION

Reportable operating segments include components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker (the Chief Executive) in deciding how to allocate resources and in assessing performance. Although the Company operates in one business segment, beauty products, management also evaluates performance on a product category basis. Product category performance is measured based upon net sales before returns associated with restructuring activities, and earnings before income taxes, other income, net interest expense and total charges associated with restructuring activities. Returns and charges associated with restructuring activities are not allocated to the product categories because they result from activities that are deemed a company-wide program to redesign the Company's organizational structure.

The accounting policies for the Company's reportable segments are substantially the same as those for the consolidated financial statements, as described in the notes to consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended June 30, 2011. The

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

assets and liabilities of the Company are managed centrally and are reported internally in the same manner as the consolidated financial statements; thus, no additional information is produced for the Chief Executive or included herein. There has been no significant variance in the total or long-lived asset values associated with the Company's segment data since June 30, 2011.

In order to meet the demands of consumers, we continually introduce new products, support new and established products through advertising, merchandising and sampling and phase out existing products that no longer meet the needs of our consumers. The economics of developing, producing, launching, supporting and discontinuing products impact our sales and operating performance each period. The introduction of new products may have some cannibalizing effect on sales of existing products, which we take into account in our business planning.

We operate on a global basis, with the majority of our net sales generated outside the United States. Accordingly, fluctuations in foreign currency exchange rates can affect our results of operations. Therefore, we present certain net sales information excluding the effect of foreign currency rate fluctuations to provide a framework for assessing the performance of our underlying business outside the United States. Constant currency information compares results between periods as if exchange rates had remained constant period-over-period. We calculate constant currency information by translating current-period results using prior-year period weighted-average foreign currency exchange rates.

Overview

We believe that the best way to continue to increase stockholder value is to provide our customers and consumers with the products and services that they have come to expect from us in the most efficient and profitable manner while recognizing consumers' changing shopping habits. To be the global leader in prestige beauty, we are continuing to implement a long-term strategy that is guiding us through fiscal 2014. The strategy has

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

numerous initiatives across geographic regions, product categories, brands and functions that are designed to leverage our strengths, make us more productive and grow our sales.

We believe we have a strong, diverse brand portfolio with global reach and potential, and we plan to continue building upon and leveraging our history of outstanding creativity, innovation and entrepreneurship. We have succeeded in expanding our High-Touch service model and will continue to look for ways to expand it in newer channels and within geographic regions. As an example, we are developing capabilities to deliver superior retailing experiences, particularly in freestanding retail stores. We are expanding our efforts to evolve our e-commerce-based online strategy into a multi-pronged digital strategy encompassing e-commerce, as well as digital and social media. We are leveraging our regional organization in an effort to assure that we are locally relevant in each market.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

As part of our strategy, we are continuing to shift our category mix towards higher margin categories with greater global growth potential. Skin care, our most profitable product category, is a strategic priority for our innovation and investment spending, particularly in the Asia/Pacific region. We also focused our attention on luxury consumers across all categories and have seen an improvement in the net sales of many of our higher-end prestige products, due to an improvement in the luxury retail environment.

We are strengthening our geographic presence by seeking share growth in large, image-building cities within core markets such as the United States, the United Kingdom, France, Italy and Japan. In addition, we continue to prioritize efforts to expand our presence and accelerate share growth in emerging markets such as China, Russia, the Middle East, Eastern Europe and Brazil. We continue to expand our digital presence, which has resulted in growth in net sales of our products sold over the Internet. In North America, we recognized the need to drive profitable growth in our traditional department store channel and saw many benefits from the changes we have previously implemented and continued to reshape our organization to meet the needs of the changing retail landscape. Internationally, we continue to take actions to grow profitability in European perfumeries and pharmacies and in department stores in Asia, while emphasizing our skin care and makeup initiatives to boost our travel retail business and continuing efforts to grow our online, specialty retailer and prestige salon businesses. The travel retail business continues to be a source of sales growth and profitability. Our business in this channel is benefiting from the implementation of programs we designed to enhance consumers' High-Touch experiences and convert travelers into purchasers. In addition, we see travel retail as another way to capture the attention of travelers from emerging markets, who either buy in the channel, in stores at their destinations or when they return to their homes.

While our overall business is performing well, we are seeing signs of softening due to the recent global economic uncertainties and volatility in financial markets, particularly in certain European countries, Japan and Australia. Our business in some countries has experienced slower than anticipated net sales growth, while in other countries, net sales declined as compared with the prior-year period. We believe we have been able to offset to some extent the impact of these events as a result of our strategy to mitigate weaknesses we find in certain areas with strengths in others. However, if the degree of uncertainty or volatility worsens or is prolonged, then we expect there to be a further negative effect on ongoing consumer confidence, demand and spending and, as a result, our business. We will continue to monitor these and other risks that may affect our business. The disasters that occurred in Japan during the prior fiscal year did not have a significant impact on our business or our consolidated financial results for the six months ended December 31, 2011, and we do not believe there will be a material impact on our future results.

We plan on continuing to invest in the significant modernization of our global information systems, which includes the Strategic Modernization Initiative (SMI) as well as other initiatives, and shift our focus from gift with purchase activities to advertising, merchandising and sampling initiatives. We expect these strategies will help improve our cost of sales margin but will increase our operating expense margin.

As part of SMI, we anticipate the continued migration of our operations to SAP-based technologies, with the majority of our locations being enabled through 2014. As a result, we have experienced, and may continue to experience, fluctuations in our net sales and operating results resulting from accelerated orders from certain of our retailers to provide adequate safety stock to mitigate any potential short-term business interruption associated with the SAP rollout. In particular, approximately \$30 million of accelerated orders were recorded as net sales in the fiscal 2012 second quarter that likely would have occurred in the fiscal 2012 third quarter. In addition, approximately \$42 million of accelerated orders were recorded as net sales in the fiscal 2011 third quarter that would have occurred in the fiscal 2011 fourth quarter. Combined, these actions will create a difficult comparison between the fiscal 2012 third quarter and the fiscal 2011 third quarter of approximately \$72 million in net sales and approximately \$51 million in operating income.

THE ESTÉE LAUDER COMPANIES INC.

Returns and Charges Associated with Restructuring Activities

In an effort to drive down costs and achieve synergies within our organization, in February 2009, we announced the implementation of a multi-faceted cost savings program (the Program) to position the Company to achieve long-term profitable growth. We anticipate the Program will result in related restructuring and other charges, inclusive of cumulative charges recorded to date and through the remainder of the Program, totaling between \$350 million and \$450 million before taxes. While we will continue to seek cost savings opportunities, our current plans are to identify and approve specific initiatives under the Program through fiscal 2012 and execute those initiatives through fiscal 2013. The total amount of charges (pre-tax) associated with the Program recorded, plus other initiatives approved through December 31, 2011, is approximately \$307 million to \$312 million, of which approximately \$202 million to \$204 million relates to restructuring charges, approximately \$50 million of other costs to implement the initiatives, approximately \$39 million to \$42 million in sales returns and approximately \$16 million in inventory write-offs. The restructuring charges are comprised of approximately \$154 million to \$156 million of employee-related costs, approximately \$27 million of other exit costs and contract terminations (substantially all of which have resulted in or will result in cash expenditures), and approximately \$21 million in non-cash asset write-offs. The total amount of cumulative charges (pre-tax) associated with the Program recorded from inception through December 31, 2011 was \$249.6 million.

We expect that the implementation of this Program, combined with other on-going cost savings efforts, will result in savings of approximately \$675 million to \$725 million (program inception through the end of fiscal 2012 is estimated to be approximately \$675 million to \$705 million) including the reduction of certain costs relative to an assumed normalized spending pattern. Our long-range forecast for operating margin reflects these anticipated savings, net of strategic reinvestments.

The Program focuses on a redesign of our organizational structure in order to integrate the Company in a more cohesive way and operate more globally across brands and functions. The principal aspect of the Program was the reduction of the workforce by approximately 2,000 employees. Specific actions taken since program inception included:

- **Resize and Reorganize the Organization** We continued the realignment and optimization of our organization to better leverage scale, improve productivity, reduce complexity and achieve cost savings in each region and across various functions. This included reduction of the workforce which occurred through the consolidation of certain functions, which we achieved through a combination of normal attrition and job eliminations, and the closure and consolidation of certain distribution and office facilities.
- **Turnaround or Exit Unprofitable Operations** To improve the profitability in certain of our brands and regions, we have selectively exited certain channels of distribution, categories and markets, and have made changes to turnaround others. This included the exit from the global wholesale distribution of our Prescriptives brand and the reformulation of Ojon brand products. In connection with these activities, we incurred charges for product returns, inventory write-offs, reduction of workforce and termination of contracts.
- **Outsourcing** In order to balance the growing need for information technology support with our efforts to provide the most efficient and cost effective solutions, we continued the outsourcing of certain information technology processes. We incurred costs to transition services to outsource providers and employee-related termination costs.

Restructuring Charges

The following table presents restructuring charges related to the Program as follows:

(In millions)	Three Months Ended December 31		Six Months Ended December 31	
	2011	2010	2011	2010
Employee-related costs	\$ 2.1	\$ 8.8	\$ 4.3	\$ 9.5
Asset write-offs	0.4	0.5	0.5	0.6
Contract terminations	1.2	1.5	1.3	1.8
Other exit costs	0.2	(0.1)	0.8	0.5
Total restructuring charges	\$ 3.9	\$ 10.7	\$ 6.9	\$ 12.4

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.**

The following table presents aggregate restructuring charges related to the Program:

(In millions)	Employee- Related Costs	Asset Write-offs	Contract Terminations	Other Exit Costs	Total
Fiscal 2009	\$ 60.9	\$ 4.2	\$ 3.4	\$ 1.8	\$ 70.3
Fiscal 2010	29.3	11.0	2.3	6.2	48.8
Fiscal 2011	34.6	2.4	3.0	1.1	41.1
Six months ended December 31, 2011	4.3	0.5	1.3	0.8	6.9
Charges recorded through December 31, 2011	\$ 129.1	\$ 18.1	\$ 10.0	\$ 9.9	\$ 167.1

The following table presents accrued restructuring charges and the related activities under the Program:

(In millions)	Employee- Related Costs	Asset Write-offs	Contract Terminations	Other Exit Costs	Total
Charges	\$ 60.9	\$ 4.2	\$ 3.4	\$ 1.8	\$ 70.3
Cash payments	(7.5)		(0.5)	(1.6)	(9.6)
Non-cash write-offs		(4.2)			(4.2)
Translation adjustments	0.6				0.6
Other adjustments	(2.4)				(2.4)
Balance at June 30, 2009	51.6		2.9	0.2	54.7
Charges	29.3	11.0	2.3	6.2	48.8
Cash payments	(49.5)		(5.1)	(6.0)	(60.6)
Non-cash write-offs		(11.0)			(11.0)
Translation adjustments	(0.8)				(0.8)
Balance at June 30, 2010	30.6		0.1	0.4	31.1
Charges	34.6	2.4	3.0	1.1	41.1
Cash payments	(30.6)		(2.4)	(1.4)	(34.4)
Non-cash write-offs		(2.4)			(2.4)
Translation adjustments	1.2		(0.1)	0.1	1.2
Balance at June 30, 2011	35.8		0.6	0.2	36.6
Charges	4.3	0.5	1.3	0.8	6.9
Cash payments	(14.8)		(1.9)	(1.0)	(17.7)
Non-cash write-offs		(0.5)			(0.5)
Translation adjustments	(1.1)			0.4	(0.7)
Balance at December 31, 2011	\$ 24.2	\$	\$	\$ 0.4	\$ 24.6

Accrued restructuring charges at December 31, 2011 are expected to result in cash expenditures funded from cash provided by operations of approximately \$14 million, \$8 million and \$3 million in fiscal 2012, 2013 and 2014, respectively.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.**Total Returns and Other Charges Associated with Restructuring Activities

The following table presents total charges associated with restructuring activities related to the Program:

(In millions)	Three Months Ended December 31		Six Months Ended December 31	
	2011	2010	2011	2010
Sales returns (included in Net Sales)	\$ 0.1	\$ 1.5	\$ (0.6)	\$ 1.5
Cost of sales	(0.1)	3.8		4.6
Restructuring charges	3.9	10.7	6.9	12.4
Other charges	2.2	3.3	3.9	5.4
Total returns and charges associated with restructuring activities	\$ 6.1	\$ 19.3	\$ 10.2	\$ 23.9

During the three and six months ended December 31, 2011, we recorded adjustments to reflect revised estimates of sales returns associated with prior initiatives. During the three months ended December 31, 2010, we recorded \$1.5 million of sales returns (less a related cost of sales of \$0.5 million) and a write-off of inventory of \$4.3 million associated with turnaround operations, primarily related to the reformulation of Ojon brand products. During the six months ended December 31, 2010, we recorded \$1.5 million reflecting sales returns (less a related cost of sales of \$0.5 million) and a write-off of inventory of \$5.1 million associated with turnaround operations, primarily related to the reformulation of Ojon brand products. Other charges in connection with the implementation of the Program primarily relate to consulting and other professional services.

Other Intangible Asset Impairments

During the second quarter of fiscal 2012, the Ojon reporting unit identified a potential decline in its projected results of operations, primarily resulting from a softness in the direct response television channel, which caused us to review and revise Ojon's long-term forecast. We concluded that these changes in the business of the Ojon reporting unit triggered the need for an interim impairment test of its trademarks as of December 31, 2011. These changes in circumstances were also an indicator that the carrying amount of the customer list may not be recoverable. We performed an interim impairment test for the trademarks and a recoverability test for the customer list as of December 31, 2011. For the trademarks, we concluded that the carrying value exceeded its estimated fair value, which was based on the use of a royalty rate to determine discounted projected future cash flows (relief-from-royalty method). As a result, we recognized an impairment charge of \$6.7 million. This charge was reflected in the hair care product category in the Americas region. We concluded that the carrying value of the customer list is recoverable. The excess of the undiscounted cash flows associated with this customer list exceeded the carrying value by approximately 8%. The key assumptions used in the determination of estimated future cash flows were predicated on the effect of marketing initiatives and new product launches, which have a material impact on these estimates. If such plans do not materialize, or if there is a decline in the business environment, we could recognize an impairment charge in the future. As of December 31, 2011, the carrying value of the customer list was \$12.4 million.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

As of our latest annual indefinite-lived asset impairment test on April 1, 2011, we determined that the trademarks related to the Darphin reporting unit had an estimated fair value exceeding its carrying value by approximately 13%. As of December 31, 2011, the carrying value of the trademarks was \$8.2 million. The estimated fair value of the trademarks was based on the relief-from-royalty method. The key assumptions that were used to determine the estimated fair value of the trademarks were predicated on new market initiatives including expanded international distribution. If such plans do not materialize, if there is a delay in new market initiatives, or if there is a decline in the business environment, a resulting change in the key assumptions could have a negative impact on the estimated fair value of these trademarks and it is possible we could recognize an impairment charge in the future.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Second Quarter Fiscal 2012 as Compared with Second Quarter Fiscal 2011

NET SALES

Net sales increased 10%, or \$245.5 million, to \$2,737.5 million, primarily reflecting strong growth in all of our geographic regions and virtually all product categories. In advance of our January 2012 implementation of SAP at certain of our locations and to provide adequate safety stock to mitigate any potential short-term business interruption associated with the rollout, certain of our retailers accelerated their orders during the fiscal 2012 second quarter. Those additional orders, which totaled approximately \$30 million, likely would have occurred in our fiscal 2012 third quarter. The impact of foreign currency translation on net sales was de minimis. The following discussions of Net Sales by *Product Categories* and *Geographic Regions* exclude the impact of adjustments to increase the reserve for anticipated returns associated with restructuring activities of \$0.1 million and \$1.5 million for the three months ended December 31, 2011 and 2010, respectively. We believe the following analysis of net sales better reflects the manner in which we conduct and view our business.

Product Categories

Skin Care

Net sales of skin care products increased 13%, or \$136.7 million, to \$1,165.9 million, reflecting our strategic focus on growing this category. The recent launches of Idealist Even Skintone Illuminator, Idealist Cooling Eye Illuminator and Re-Nutriv Replenishing Comfort Creme from Estée Lauder, the Plantscription line of products from Origins and Turnaround Overnight Radiance Moisturizer from Clinique contributed incremental sales of approximately \$46 million, combined. The relaunch of the reformulated Resilience Lift and Nutritious Vita-Mineral lines of products from Estée Lauder contributed incremental sales of approximately \$59 million, combined. Higher sales from various products from La Mer and Advanced Night Repair Synchronized Recovery Complex from Estée Lauder contributed approximately \$36 million, combined, to the increase. This growth was partially offset by approximately \$41 million of lower sales from the existing lines of Resilience Lift Extreme products from Clinique and Re-Nutriv products from Estée Lauder. Included in the overall net sales growth in this category was approximately \$17 million related to the accelerated orders from certain of our retailers due to our implementation of SAP. The impact of foreign currency translation on skin care net sales was de minimis.

Makeup

Makeup net sales increased 11%, or \$101.4 million, to \$983.6 million, primarily reflecting an increase in net sales from our makeup artist brands of approximately \$64 million, combined. The recent launches of Repairwear Laser Focus All-Smooth Makeup SPF 15 and Lid Smoothie Antioxidant 8-Hour Eye Colour from Clinique, Doublewear Stay-In-Place Makeup SPF 10 from Estée Lauder and the Tom Ford line of cosmetics contributed approximately \$31 million, combined, to the increase. Higher sales from Even Better Makeup SPF 15 from Clinique and Pure Color Lipstick from Estée Lauder contributed approximately \$13 million to the increase. This growth was partially offset by lower sales of Quickliner for Eyes and Repairwear Anti-Aging Makeup SPF 15 from Clinique of approximately \$6 million, combined. Included in the overall net sales growth in this category was approximately \$9 million related to the accelerated orders from certain of our retailers due to our implementation of SAP. Excluding the impact of foreign currency translation, makeup net sales increased 12%.

Fragrance

Net sales of fragrance products decreased 1%, or \$6.5 million, to \$441.1 million. Despite growth in the Americas and Asia/Pacific regions, there was an overall decrease in fragrance net sales due to economic uncertainties in the Europe, the Middle East & Africa region. Lower sales from DKNY Be Delicious, Estée Lauder Sensuous, Tommy Hilfiger Loud for Her and pureDKNY contributed approximately \$35 million to the decrease. Partially offsetting these decreases were approximately \$26 million of sales from the recent launches of Estée Lauder Sensuous Nude, DKNY Golden Delicious, Coach Poppy Flower and Tom Ford Violet Blonde. We continue to expect challenges in this category due to competitive dynamics and global economic uncertainties. Included in the overall net sales amount in this category was approximately \$2 million related to the accelerated orders from certain of our retailers due to our implementation of SAP. The impact of foreign currency translation on fragrance net sales was de minimis.

Hair Care

Hair care net sales increased 9%, or \$9.7 million, to \$121.4 million, reflecting an increase in sales generated from expanded global distribution. The category also benefited from new launches including the Invati line of products from Aveda and Concen-Straight from Bumble and bumble. Partially offsetting these increases were lower net sales of Ojon brand products due, in part, to softness in the direct response television channel. Included in the overall net sales growth in this category was approximately \$2 million related to the accelerated orders from certain of our retailers due to our implementation of SAP. The impact of foreign currency translation on hair care net sales was de minimis.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Geographic Regions

Net sales in the Americas increased 8%, or \$83.3 million, to \$1,071.3 million. The increase during the current-year period was primarily attributable to growth in the United States from our heritage and makeup artist brands, which benefited from a strong holiday retail environment for our products, new skin care offerings and an increase in sales of higher-end prestige skin care products, which resulted in higher net sales in the United States of approximately \$80 million, combined. These increases reflect, in part, our ongoing efforts to work with retailers in the U.S. department store channel on strengthening the High-Touch concepts used to help market our products. Net sales in Latin America increased approximately \$6 million, reflecting growth in emerging markets such as Brazil. Included in the overall net sales growth in this region was approximately \$2 million related to accelerated orders from certain of our retailers due to our implementation of SAP. Excluding the impact of foreign currency translation, net sales in the Americas increased 9%.

In Europe, the Middle East & Africa, net sales increased 5%, or \$53.0 million, to \$1,046.3 million, reflecting our strategy to strengthen our geographic presence and continue to succeed in the travel retail channel. While we believe we are outpacing our competitors, due to the economic uncertainties in Europe, our business in some countries has experienced slower than anticipated net sales growth, while in other countries net sales declined as compared with the prior-year period. Accordingly, we remain cautious in the near term. Net sales increases of approximately \$56 million were driven by our travel retail business, the Middle East and Italy. This was primarily attributable to successful launches of skin care and makeup products from certain of our heritage brands, as well as higher combined sales from our makeup artist brands. The net sales improvement in our travel retail business also reflected an increase in global airline passenger traffic, new points of distribution and benefits of programs designed to enhance consumers High-Touch experiences and convert travelers into purchasers. These increases were partially offset by lower net sales in Russia, the Balkans and the United Kingdom of approximately \$12 million, combined. The lower net sales in Russia primarily reflected destocking associated with ongoing challenges with a certain customer. The lower net sales in the United Kingdom reflected a soft retail market in addition to economic uncertainties. Net sales in the Balkans declined primarily due to a difficult economic environment. Included in the overall net sales growth in this region was approximately \$3 million related to accelerated orders from certain of our retailers due to our implementation of SAP. Excluding the impact of foreign currency translation, net sales in Europe, the Middle East & Africa increased 7%.

Net sales in Asia/Pacific increased 21%, or \$107.8 million, to \$620.0 million, reflecting growth in each product category and from virtually all countries in the region. Approximately \$62 million of this increase was generated in China and Hong Kong, primarily reflecting strong sales of skin care and makeup products. While we continue to gain share in the prestige business in China, we are cautious of macroeconomic factors that could slow the growth trend of the Chinese economy. Net sales growth in Korea, Australia, Thailand and New Zealand included approximately \$25 million related to accelerated orders from certain of our retailers due to our implementation of SAP. Excluding the impact of foreign currency translation, Asia/Pacific net sales increased 18%.

We strategically stagger our new product launches by geographic market, which may account for differences in regional sales growth.

COST OF SALES

Cost of sales as a percentage of total net sales decreased to 20.1% as compared with 21.7% in the prior-year period. This improvement primarily reflected strategic changes in the mix of our business of approximately 130 basis points, favorable manufacturing variances of approximately 20 basis points, lower charges associated with restructuring activities of approximately 20 basis points and the favorable effect of exchange rates of

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

approximately 10 basis points. These improvements were offset by an increase in obsolescence charges of approximately 20 basis points.

Since certain promotional activities are a component of sales or cost of sales and the timing and level of promotions vary with our promotional calendar, we have experienced, and expect to continue to experience, fluctuations in the cost of sales percentage. In addition, future cost of sales mix may be impacted by the inclusion of potential new brands or channels of distribution that have margin and product cost structures different from those of our current mix of business.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

OPERATING EXPENSES

Operating expenses as a percentage of net sales increased to 58.1% as compared with 57.5% in the prior-year period. This change reflected increased spending in advertising, merchandising and sampling costs in line with our strategy of approximately 70 basis points, an increase in general and administrative costs of approximately 50 basis points, in part due to the timing of certain SMI project costs, higher costs related to stock-based compensation of approximately 30 basis points and a current-year period other intangible asset impairment charge of approximately 20 basis points. Partially offsetting these changes were lower selling and shipping costs of approximately 50 basis points, a favorable change in foreign exchange transactions of approximately 30 basis points and lower charges associated with restructuring activities of approximately 30 basis points.

Changes in advertising, merchandising and sampling spending result from the type, timing and level of activities related to product launches and rollouts, as well as the markets being emphasized. We anticipate higher investment spending on global advertising, merchandising and sampling to support major launches and existing franchises in the fiscal 2012 third quarter as compared with the prior-year period.

OPERATING RESULTS

Operating income increased 12%, or \$66.1 million, to \$603.1 million. Operating margin improved to 21.8% of net sales as compared with 20.8% in the prior-year period, reflecting our higher gross margin, partially offset by the increase in our operating expense margin, as previously discussed. The higher results also reflected approximately \$23 million related to accelerated orders from certain of our retailers, as previously discussed. The following discussions of Operating Results by *Product Categories* and *Geographic Regions* exclude the impact of total returns and charges associated with restructuring activities of \$6.1 million, or less than 1% of net sales, for the three months ended December 31, 2011 and \$19.3 million, or 1% of net sales, for the three months ended December 31, 2010. We believe the following analysis of operating results better reflects the manner in which we conduct and view our business.

Product Categories

Skin care operating income increased 20%, or \$52.0 million, to \$312.2 million, primarily reflecting improved results from higher-margin product launches from certain of our heritage brands, as well as increased results from higher-end prestige skin care products. Makeup operating income increased 9%, or \$16.6 million, to \$208.5 million, primarily reflecting improved results from our makeup artist brands. Fragrance operating results increased less than 1%, or \$0.3 million, to \$73.2 million, primarily reflecting increased profitability from Estée Lauder and Jo Malone fragrances, mostly offset by lower results from our designer fragrances, particularly in the Europe, Middle East & Africa region due to economic uncertainties and, to a lesser extent, due to higher spending in support of recent launches. Hair care operating results increased 3%, or \$0.3 million, to \$12.5 million, primarily reflecting higher net sales driven by expanded global distribution and new product launches, partially offset by the other intangible asset impairment, as previously discussed. The accelerated orders from certain of our retailers, as previously discussed, benefited results in the skin care, makeup, fragrance and hair care categories by approximately \$13 million, \$6 million, \$2 million and \$2 million, respectively.

Geographic Regions

Operating income in the Americas increased 14%, or \$13.5 million, to \$112.4 million, primarily reflecting improved results from our heritage and makeup artist brands driven by improved category mix partially offset by the timing and level of strategic investment spending in the current-year period. Included in the overall improvement in this region was approximately \$1 million related to the impact of accelerated orders from certain of our retailers, as previously discussed. These improvements were partially offset by the other intangible asset impairment charge of \$6.7 million.

In Europe, the Middle East & Africa, operating income increased 3%, or \$8.4 million, to \$310.1 million. Higher results from our travel retail business and the Middle East totaled approximately \$24 million, combined. Partially offsetting these improvements were lower results in Russia, the United Kingdom and the Balkans of approximately \$14 million, combined. Included in the overall improvement in this region was approximately \$2 million related to the impact of accelerated orders from certain of our retailers, as previously discussed.

In Asia/Pacific, operating income increased 32%, or \$44.2 million, to \$180.6 million. Virtually all countries in the region reported higher operating results, led by approximately \$37 million in Korea, Hong Kong, Australia, Taiwan and Thailand, combined. Included in the overall improvement in this region was approximately \$20 million related to the impact of accelerated orders from certain of our retailers, as previously discussed.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

INTEREST EXPENSE, NET

Net interest expense was \$16.6 million as compared with \$16.1 million in the prior-year period.

OTHER INCOME

In November 2011, we settled a commercial dispute with third parties that was outside our normal operations. In connection therewith, we received a \$10.5 million cash payment, which has been classified as other income in our consolidated statement of earnings.

PROVISION FOR INCOME TAXES

The provision for income taxes represents U.S. federal, foreign, state and local income taxes. The effective rate differs from the federal statutory rate primarily due to the effect of state and local income taxes, the taxation of foreign income and income tax reserve adjustments, which represent changes in our net liability for unrecognized tax benefits including tax settlements and lapses of the applicable statutes of limitations. Our effective tax rate will change from quarter to quarter based on recurring and non-recurring factors including, but not limited to, the geographical mix of earnings, enacted tax legislation, state and local income taxes, tax reserve adjustments, the ultimate disposition of deferred tax assets relating to stock-based compensation and the interaction of various global tax strategies. In addition, changes in judgment from the evaluation of new information resulting in the recognition, derecognition or remeasurement of a tax position taken in a prior annual period are recognized separately in the quarter of change.

The effective income tax rate was 32.6% and 31.0% for the three months ended December 31, 2011 and 2010, respectively. The increase in the effective income tax rate of 160 basis points was principally due to favorable income tax reserve adjustments booked in the prior-year period, including a tax and interest benefit of \$11 million, net of tax, attributable to concluding the examination by the U.S. Internal Revenue Service (IRS) of fiscal 2006 through 2008. The prior year rate was also favorably impacted due to the reinstatement of the U.S. federal research and experimentation tax credit, retroactive to January 1, 2010, with the majority of such benefit recorded discretely in the prior-year period.

NET EARNINGS ATTRIBUTABLE TO THE ESTÉE LAUDER COMPANIES INC.

Net earnings attributable to The Estée Lauder Companies Inc. as compared with the prior-year period increased 15%, or \$52.8 million, to \$396.7 million and diluted net earnings per common share, which reflects the impact of the two-for-one stock split on our Class A and Class B Common Stock, which was effected in the form of a stock dividend in January 2012, increased 17% from \$0.86 to \$1.00.

Six Months Fiscal 2012 as Compared with Six Months Fiscal 2011

NET SALES

Net sales increased 14%, or \$630.5 million, to \$5,214.2 million, primarily reflecting growth in all of our major product categories within each geographic region. In advance of our January 2012 implementation of SAP at certain of our locations and to provide adequate safety stock to mitigate any potential short-term business interruption associated with the rollout, certain of our retailers accelerated their orders during the fiscal 2012 second quarter. Those additional orders, which totaled approximately \$30 million, likely would have occurred in our fiscal 2012 third quarter. Excluding the impact of foreign currency translation, net sales increased 12%. The following discussions of Net Sales by *Product Categories* and *Geographic Regions* exclude the impact of adjustments to decrease (increase) the reserve for anticipated returns associated with restructuring activities of \$0.6 million and \$(1.5) million for the six months ended December 31, 2011 and 2010, respectively. We believe the following analysis of net sales better reflects the manner in which we conduct and view our business.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Product Categories

Skin Care

Net sales of skin care products increased 19%, or \$351.9 million, to \$2,238.8 million, primarily reflecting the continued success of our strategic focus on growing this category. The recent launches of Idealist Even Skintone Illuminator, Idealist Cooling Eye Illuminator and Re-Nutriv Replenishing Comfort Crème from Estée Lauder, Turnaround Overnight Radiance Moisturizer from Clinique and the Plantscription line of products from Origins contributed incremental sales of approximately \$120 million, combined. The relaunch of the reformulated Resilience Lift and Nutritious Vita-Mineral lines of products from Estée Lauder contributed incremental sales of approximately \$103 million, combined. Higher sales from various products from La Mer, Advanced Night Repair Synchronized Recovery Complex from Estée Lauder and products in Clinique's 3-Step Skin Care System contributed approximately \$86 million, combined, to the increase. This growth was partially offset by approximately \$65 million of lower sales from the existing line of Resilience Lift Extreme products and Cyber White EX from Clinique and the existing line of Nutritious Vita-Mineral products from Estée Lauder. Included in the overall net sales growth in this category was approximately \$17 million related to the accelerated orders from certain of our retailers due to our implementation of SAP. Excluding the impact of foreign currency translation, skin care net sales increased 16%.

Makeup

Makeup net sales increased 14%, or \$236.0 million, to \$1,912.4 million, primarily reflecting an increase in net sales from our makeup artist brands of approximately \$153 million, combined. The recent launches of Repairwear Laser Focus Makeup and Lid Smoothie Antioxidant 8-Hour Eye Colour from Clinique and Doublewear Stay-In-Place Makeup SPF 10 from Estée Lauder contributed approximately \$59 million, combined, to the increase. Higher sales from the Pure Color eye and lip line of products from Estée Lauder and Even Better Makeup from Clinique contributed approximately \$32 million to the increase. This growth was partially offset by lower sales of Pure Color Lipgloss from Estée Lauder and Repairwear Anti-Aging Makeup SPF 15 from Clinique of approximately \$12 million, combined. Included in the overall net sales growth in this category was approximately \$9 million related to the accelerated orders from certain of our retailers due to our implementation of SAP. Excluding the impact of foreign currency translation, makeup net sales increased 12%.

Fragrance

Net sales of fragrance products increased 2%, or \$15.8 million, to \$797.9 million. Incremental sales from the recent launches of Estée Lauder Sensuous Nude, DKNY Golden Delicious, Coach Poppy Flower and Tom Ford Violet Blonde contributed approximately \$67 million, combined, to the category. Partially offsetting these increases were approximately \$55 million, combined, of lower sales of DKNY Be Delicious, Estée Lauder Sensuous, pureDKNY and Estée Lauder Pleasures Bloom. We continue to expect challenges in this category due to competitive dynamics and global economic uncertainties. Included in the overall net sales growth in this category was approximately \$2 million related to the accelerated orders from certain of our retailers due to our implementation of SAP. Excluding the impact of foreign currency translation, fragrance net sales increased 1%.

Hair Care

Hair care net sales increased 9%, or \$19.1 million, to \$225.2 million, reflecting an increase in sales generated from expanded global distribution and new product launches. The category also benefited from new launches including the Invati line of products from Aveda and

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

Concen-Straight from Bumble and bumble. Partially offsetting these increases were lower net sales of Ojon brand products due, in part, to softness in the direct response television channel. Included in the overall net sales growth in this category was approximately \$2 million related to the accelerated orders from certain of our retailers due to our implementation of SAP. Excluding the impact of foreign currency translation, hair care net sales increased 8%.

Geographic Regions

Net sales in the Americas increased 10%, or \$191.5 million, to \$2,176.7 million. The increase during the current-year period was primarily attributable to growth in the United States from our heritage and makeup artist brands, which benefited from a strong holiday retail environment for our products, new skin care offerings and an increase in sales of higher-end prestige skin care products which resulted in higher net sales in the United States of approximately \$163 million. These increases reflect, in part, our ongoing efforts to work with retailers in the U.S. department store channel on strengthening the High-Touch concepts used to help market our products. Net sales in Latin America increased approximately \$20 million, reflecting growth in emerging markets such as Brazil. Included in the overall net sales growth in this region was approximately \$2 million related to accelerated orders from certain of our retailers due to our implementation of SAP. The impact of foreign currency translation on the Americas net sales was de minimis.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

In Europe, the Middle East & Africa, net sales increased 14%, or \$230.3 million, to \$1,904.5 million, reflecting strong growth in our travel retail business and from most countries in the region and in each major product category. This reflects our strategy to strengthen our geographic presence and continue to succeed in the travel retail channel. While we believe we are outpacing our competitors, due to the economic uncertainties in Europe, our business in some countries has experienced slower than anticipated net sales growth, while in other countries net sales declined as compared with the prior-year period. Accordingly, we remain cautious in the near term. Net sales increases of approximately \$187 million were driven by our travel retail business, the United Kingdom, the Middle East, Italy and Germany. This was primarily attributable to successful launches of skin care and makeup products from certain of our heritage brands, as well as higher combined sales from our makeup artist brands. The net sales improvement in our travel retail business also reflected an increase in global airline passenger traffic, new points of distribution and benefits of programs designed to enhance consumers' High-Touch experiences and convert travelers into purchasers. These increases were partially offset by lower net sales in Russia of approximately \$10 million, primarily reflecting destocking associated with ongoing challenges with a certain customer. Included in the overall net sales growth in this region was approximately \$3 million related to accelerated orders from certain of our retailers due to our implementation of SAP. Excluding the impact of foreign currency translation, net sales in Europe, the Middle East & Africa increased 12%.

Net sales in Asia/Pacific increased 22%, or \$206.6 million, to \$1,132.4 million, reflecting growth in each product category and from all countries in the region, several of which had a significant favorable impact of foreign currency translation. Net sales of approximately \$135 million were driven by China, Korea and Hong Kong, primarily reflecting strong sales of skin care and makeup products. While we continue to gain share in the prestige business in China, we are cautious of macroeconomic factors that could slow the growth trend of the Chinese economy. Our businesses in Japan and Australia continued to be challenged due to difficult economic conditions, but they reported net sales gains of approximately \$24 million, which were generated predominantly from the strengthening of their respective currencies. Additional net sales growth in Korea and Australia, as well as growth in Thailand and New Zealand, included approximately \$25 million related to accelerated orders from certain of our retailers due to our implementation of SAP. Excluding the impact of foreign currency translation, Asia/Pacific net sales increased 17%.

We strategically stagger our new product launches by geographic market, which may account for differences in regional sales growth.

COST OF SALES

Cost of sales as a percentage of total net sales decreased to 20.8% as compared with 22.5% in the prior-year period. This improvement primarily reflected strategic changes in the mix of our business of approximately 140 basis points, the favorable effect of exchange rates of approximately 20 basis points, favorable manufacturing variances of approximately 20 basis points and lower charges associated with restructuring activities of approximately 10 basis points. These improvements were offset by an increase in obsolescence charges of approximately 20 basis points.

Since certain promotional activities are a component of sales or cost of sales and the timing and level of promotions vary with our promotional calendar, we have experienced, and expect to continue to experience, fluctuations in the cost of sales percentage. In addition, future cost of sales mix may be impacted by the inclusion of potential new brands or channels of distribution that have margin and product cost structures different from those of our current mix of business.

OPERATING EXPENSES

Operating expenses as a percentage of net sales decreased to 59.5% as compared with 59.7% in the prior-year period. As a percentage of net sales, this improvement reflected lower selling and shipping costs of approximately 80 basis points and a decrease in general and administrative costs of approximately 40 basis points due to various cost containment efforts implemented as part of the Program and a strategically focused approach to spending. Partially offsetting these improvements were increased spending in advertising, merchandising and sampling costs in line with our strategy of approximately 50 basis points, higher costs related to stock-based compensation of approximately 30 basis points, an unfavorable change in foreign exchange transactions of approximately 10 basis points and a current-year period other intangible asset impairment charge of approximately 10 basis points.

Changes in advertising, merchandising and sampling spending result from the type, timing and level of activities related to product launches and rollouts, as well as the markets being emphasized. We anticipate higher investment spending on global advertising, merchandising and sampling to support major launches and existing franchises in the fiscal 2012 third quarter as compared with the prior-year period.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

OPERATING RESULTS

Operating income increased 24%, or \$197.6 million, to \$1,037.2 million. Operating margin improved to 19.7% of net sales as compared with 17.8% in the prior-year period, reflecting our higher gross margin and the decrease in our operating expense margin, as previously discussed. The higher results also reflected approximately \$23 million related to accelerated orders from certain of our retailers, as previously discussed. The following discussions of Operating Results by *Product Categories* and *Geographic Regions* exclude the impact of total returns and charges associated with restructuring activities of \$10.2 million, or less than 1% of net sales, for the six months ended December 31, 2011 and \$23.9 million, or less than 1% of net sales, for the six months ended December 31, 2010. We believe the following analysis of operating results better reflects the manner in which we conduct and view our business.

Product Categories

Skin care operating income increased 31%, or \$125.8 million, to \$535.9 million, primarily reflecting improved results from higher-margin product launches from certain of our heritage brands, as well as increased results from higher-end prestige skin care products. Makeup operating income increased 25%, or \$73.0 million, to \$368.1 million, primarily reflecting improved results from our makeup artist brands. Fragrance operating results decreased 1%, or \$1.7 million, to \$121.5 million, primarily reflecting higher spending in support of recent launches of designer fragrances and lower results as a result of economic uncertainties in the Europe, the Middle East & Africa region. Hair care operating results increased 26%, or \$3.6 million, to \$17.6 million, primarily reflecting higher net sales, partially offset by the other intangible asset impairment, as previously discussed. The increased orders from certain of our retailers, as previously discussed, benefited results in the skin care, makeup, fragrance and hair care categories by approximately \$13 million, \$6 million, \$2 million and \$2 million, respectively.

Geographic Regions

Operating income in the Americas increased 30%, or \$59.6 million, to \$261.6 million, primarily reflecting improved results from our heritage and makeup artist brands driven by improved category mix partially offset by the timing and level of strategic investment spending in the current-year period. Included in the overall improvement in this region was approximately \$1 million related to the impact of accelerated orders from certain of our retailers, as previously discussed. These improvements were partially offset by the other intangible asset impairment charge of \$6.7 million.

In Europe, the Middle East & Africa, operating income increased 13%, or \$57.5 million, to \$497.8 million. Higher results from our travel retail business, the United Kingdom and the Middle East totaled approximately \$69 million, combined. Partially offsetting these improvements were lower results in Russia of approximately \$22 million, primarily reflecting strategic investment spending to support this emerging market, coupled with a decrease in sales as a result of destocking associated with ongoing challenges with a certain customer. Included in the overall improvement in this region was approximately \$2 million related to the impact of accelerated orders from certain of our retailers, as previously discussed.

In Asia/Pacific, operating income increased 41%, or \$80.5 million, to \$277.8 million. Virtually all countries in the region reported higher operating results, led by approximately \$66 million in China, Korea, Hong Kong, Thailand and Australia, combined. Included in the overall improvement in this region was approximately \$20 million related to the impact of accelerated orders from certain of our retailers, as previously

discussed.

INTEREST EXPENSE, NET

Net interest expense was \$32.6 million as compared with \$32.2 million in the prior-year period.

OTHER INCOME

In November 2011, we settled a commercial dispute with third parties that was outside our normal operations. In connection therewith, we received a \$10.5 million cash payment, which has been classified as other income in our consolidated statement of earnings.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

PROVISION FOR INCOME TAXES

The provision for income taxes represents U.S. federal, foreign, state and local income taxes. The effective rate differs from the federal statutory rate primarily due to the effect of state and local income taxes, the taxation of foreign income and income tax reserve adjustments, which represent changes in our net liability for unrecognized tax benefits including tax settlements and lapses of the applicable statutes of limitations. Our effective tax rate will change from quarter to quarter based on recurring and non-recurring factors including, but not limited to, the geographical mix of earnings, enacted tax legislation, state and local income taxes, tax reserve adjustments, the ultimate disposition of deferred tax assets relating to stock-based compensation and the interaction of various global tax strategies. In addition, changes in judgment from the evaluation of new information resulting in the recognition, derecognition or remeasurement of a tax position taken in a prior annual period are recognized separately in the quarter of change.

The effective income tax rate was 32.6% and 31.7% for the six months ended December 31, 2011 and 2010, respectively. The increase in the effective income tax rate was principally due to favorable income tax reserve adjustments booked in the prior-year period, including a tax and interest benefit of \$11 million, net of tax, attributable to concluding the examination by the IRS of fiscal 2006 through 2008.

NET EARNINGS ATTRIBUTABLE TO THE ESTÉE LAUDER COMPANIES INC.

Net earnings attributable to The Estée Lauder Companies Inc. as compared with the prior-year period increased 26%, or \$140.3 million, to \$675.3 million and diluted net earnings per common share, which reflects the impact of the two-for-one stock split on our Class A and Class B Common Stock, which was effected in the form of a stock dividend in January 2012, increased 28% from \$1.33 to \$1.70.

FINANCIAL CONDITION

LIQUIDITY AND CAPITAL RESOURCES

Overview

Our principal sources of funds historically have been cash flows from operations, borrowings pursuant to our commercial paper program, borrowings from the issuance of long-term debt and committed and uncommitted credit lines provided by banks and other lenders in the United States and abroad. At December 31, 2011, we had cash and cash equivalents of \$999.1 million compared with \$1,253.0 million at June 30, 2011. Our cash and cash equivalents are maintained at a number of financial institutions. As of December 31, 2011, approximately 17% of the total balance was insured by governmental agencies. To mitigate the risk of uninsured balances, we select financial institutions based on their credit ratings and financial strength and perform ongoing evaluations of these institutions to limit our concentration risk exposure.

Our business is seasonal in nature and, accordingly, our working capital needs vary. From time to time, we may enter into investing and financing transactions that require additional funding. To the extent that these needs exceed cash from operations, we could, subject to market conditions, issue commercial paper, issue long-term debt securities or borrow under our revolving credit facilities.

Based on past performance and current expectations, we believe that cash on hand, cash generated from operations, available credit lines and access to credit markets will be adequate to support currently planned business operations, information systems enhancements, capital expenditures, potential stock repurchases, commitments and other contractual obligations on both a near-term and long-term basis. Our cash and cash equivalents balance at December 31, 2011 includes cash in offshore jurisdictions associated with our permanent reinvestment strategy. We do not believe that the indefinite reinvestment of these funds offshore impairs our ability to meet our domestic debt or working capital obligations. If these indefinitely reinvested earnings were repatriated into the United States as dividends, we would be subject to additional taxes.

The effects of inflation have not been significant to our overall operating results in recent years. Generally, we have been able to introduce new products at higher prices, increase prices and implement other operating efficiencies to sufficiently offset cost increases, which have been moderate.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.*****Credit Ratings***

Changes in our credit ratings will likely result in changes in our borrowing costs. Our credit ratings also impact the cost of our revolving credit facility as discussed below. Downgrades in our credit ratings may reduce our ability to issue commercial paper and/or long-term debt and would likely increase the relative costs of borrowing. A credit rating is not a recommendation to buy, sell, or hold securities, is subject to revision or withdrawal at any time by the assigning rating organization, and should be evaluated independently of any other rating. As of January 25, 2012, our commercial paper is rated A-1 by Standard & Poor's and P-1 by Moody's and our long-term debt is rated A with a stable outlook by Standard & Poor's and A2 with a stable outlook by Moody's.

Debt

At December 31, 2011, our outstanding borrowings were as follows:

	Long-term Debt	Current Debt (In millions)	Total Debt
6.00% Senior Notes, due May 15, 2037 (2037 Senior Notes)			
(1), (6)	\$ 296.4	\$	\$ 296.4
5.75% Senior Notes, due October 15, 2033 (2033 Senior Notes(2))	197.7		197.7
5.55% Senior Notes, due May 15, 2017 (2017 Senior Notes)			
(3), (6)	338.2		338.2
7.75% Senior Notes, due November 1, 2013 (2013 Senior Notes)			
(4), (6)	230.1		230.1
6.00% Senior Notes, due January 15, 2012 (2012 Senior Notes(5))		119.9	119.9
Other borrowings	6.3	23.9	30.2
	\$ 1,068.7	\$ 143.8	\$ 1,212.5

(1) Consists of \$300.0 million principal and unamortized debt discount of \$3.6 million.

(2) Consists of \$200.0 million principal and unamortized debt discount of \$2.3 million.

(3) Consists of \$300.0 million principal, unamortized debt discount of \$0.3 million and a \$38.5 million adjustment to reflect the termination value of interest rate swaps.

(4) Consists of \$230.1 million principal.

(5) Consists of \$120.0 million principal and a \$0.1 million adjustment to reflect the remaining termination value of an interest rate swap that is being amortized to interest expense over the life of the debt. On January 15, 2012, we repaid the outstanding principal balance of \$120.0 million with cash from operations.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

(6) As of December 31, 2011, we were in compliance with all restrictive covenants, including limitations on indebtedness and liens, and expect continued compliance.

We have a \$750.0 million commercial paper program under which we may issue commercial paper in the United States. At December 31, 2011, there was no commercial paper outstanding. We also have \$163.1 million in additional uncommitted credit facilities, of which \$12.8 million was used as of December 31, 2011. We do not anticipate difficulties in securing this form of working capital financing.

In July 2011, we replaced our undrawn \$750.0 million senior unsecured revolving credit facility that was set to expire on April 26, 2012 (the Prior Facility), with a new \$1.0 billion senior unsecured revolving credit facility that expires on July 14, 2015 (the New Facility). The New Facility may be used to provide credit support for our commercial paper program and for general corporate purposes. As with the Prior Facility, up to the equivalent of \$250 million of the New Facility is available for multi-currency loans. The interest rate on borrowings under the New Facility is based on LIBOR or on the higher of prime, which is the rate of interest publicly announced by the administrative agent, or 1/2% plus the Federal funds rate. We incurred costs of approximately \$1 million to establish the New Facility which are being amortized over the term of the facility. The New Facility has an annual fee of \$0.7 million, payable quarterly, based on our current credit ratings. The New Facility also contains a cross-default provision whereby a failure to pay other material financial obligations in excess of \$100.0 million (after grace periods and absent a waiver from the lenders) would result in an event of default and the acceleration of the maturity of any outstanding debt under this facility. At December 31, 2011, no borrowings were outstanding under this agreement.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

We have a fixed rate promissory note agreement with a financial institution pursuant to which we may borrow up to \$150.0 million in the form of loan participation notes through one of our subsidiaries in Europe. The interest rate on borrowings under this agreement is at an all-in fixed rate determined by the lender and agreed to by us at the date of each borrowing. At December 31, 2011, no borrowings were outstanding under this agreement. Debt issuance costs incurred related to this agreement were de minimis.

We have an overdraft borrowing agreement with a financial institution pursuant to which our subsidiary in Turkey may be credited to satisfy outstanding negative daily balances arising from its business operations. The total balance outstanding at any time shall not exceed 40.0 million Turkish lira (\$21.2 million at the exchange rate at December 31, 2011). The interest rate applicable to each such credit shall be up to a maximum of 175 basis points per annum above the spot rate charged by the lender or the lender's floating call rate agreed to by us at each borrowing. There were no debt issuance costs incurred related to this agreement. The outstanding balance at December 31, 2011 was 24.0 million Turkish lira (\$12.8 million at the exchange rate at December 31, 2011) and is classified as short-term debt in our consolidated balance sheet.

We have a 1.5 billion Japanese yen (\$19.2 million at the exchange rate at December 31, 2011) revolving credit facility that expires on March 31, 2012. The interest rate on borrowings under this credit facility is based on TIBOR (Tokyo Interbank Offered Rate) plus .75% and the facility fee incurred on the undrawn balance is 25 basis points. At December 31, 2011, no borrowings were outstanding under this facility and we do not plan on renewing this facility when it expires.

Total debt as a percent of total capitalization (excluding noncontrolling interests) was 32% at December 31, 2011 and June 30, 2011.

Cash Flows

Net cash provided by operating activities was \$610.2 million during the six months ended December 31, 2011 as compared with net cash provided by operating activities of \$508.0 million in the prior-year period. Cash flows from operating activities increased as compared with the prior-year period, primarily reflecting the increase in net earnings, an increase in accrued income taxes resulting from timing and level of tax payments, a decrease in the levels of inventory and favorable changes in levels of accounts payable due to the timing of payments. These improvements were partially offset by an increase in accounts receivable, primarily due to timing of collections, and the change in other liabilities, primarily due to the timing of payments and costs related to employee compensation and advertising, merchandising and sampling.

Net cash used for investing activities was \$189.2 million during the six months ended December 31, 2011 as compared with \$400.9 million in the prior-year period. The decrease in investing cash outflows primarily reflected a favorable comparison with the fiscal 2011 first quarter acquisition of Smashbox Cosmetics and was partially offset by an increase in capital expenditure activity in the current-year period primarily related to counters and leasehold improvements. We plan on continuing to invest in the significant modernization of our global information systems, which includes SMI as well as other initiatives.

Net cash used for financing activities was \$657.7 million during the six months ended December 31, 2011 as compared with \$199.4 million in the prior-year period. The change in net cash used for financing activities primarily reflected an increase in treasury stock purchases and an

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

increase in the payment of dividends during the current-year period as a result of an increase in the annual dividend rate.

Dividends

On November 3, 2011, our Board of Directors declared a two-for-one stock split on our Class A and Class B Common Stock to be effected in the form of a stock dividend. As a result of this action, one additional share was issued on January 20, 2012 for each share held by stockholders of record at the close of business on January 4, 2012. The stock split did not have an impact on our consolidated financial position or results of operations. Share and per share amounts have been restated for the stock split.

During the current-year period, we paid dividends on Class A and Class B Common Stock of \$.525 per share (or an aggregate of \$204.0 million) as compared with \$.375 per share (or an aggregate of \$148.0 million) in the prior-year period.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Pension and Post-retirement Plan Funding

We previously disclosed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2011 that we planned on making approximately \$16 million in cash contributions to our international defined benefit pension plans for the fiscal year ending June 30, 2012. During the six months ending December 31, 2011, we increased our expected contributions to approximately \$24 million for the fiscal year ending June 30, 2012 due to an updated funding strategy for a particular plan.

Commitments, Contingencies and Contractual Obligations

There have been no significant changes to our commitments, contingencies and contractual obligations as discussed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2011.

Derivative Financial Instruments and Hedging Activities

There have been no significant changes to our derivative financial instruments and hedging activities as discussed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2011.

Foreign Exchange Risk Management

We enter into foreign currency forward contracts to hedge anticipated transactions, as well as receivables and payables denominated in foreign currencies, for periods consistent with our identified exposures. The purpose of the hedging activities is to minimize the effect of foreign exchange rate movements on costs and on the cash flows that we receive from foreign subsidiaries. The majority of foreign currency forward contracts are denominated in currencies of major industrial countries. The foreign currency forward contracts entered into to hedge anticipated transactions have been designated as foreign currency cash-flow hedges and have varying maturities through the end of September 2013. Hedge effectiveness of foreign currency forward contracts is based on a hypothetical derivative methodology and excludes the portion of fair value attributable to the spot-forward difference which is recorded in current-period earnings. The ineffective portion of foreign currency forward contracts is recorded in current-period earnings. For hedge contracts that are no longer deemed highly effective, hedge accounting is discontinued and gains and losses accumulated in other comprehensive income (loss) are reclassified to earnings when the underlying forecasted transaction occurs. If it is probable that the forecasted transaction will no longer occur, then any gains or losses in accumulated other comprehensive income (loss) are reclassified to current-period earnings. As of December 31, 2011, these foreign currency cash-flow hedges were highly effective in all material respects.

At December 31, 2011, we had foreign currency forward contracts in the amount of \$1,486.3 million. The foreign currencies included in foreign currency forward contracts (notional value stated in U.S. dollars) are principally the British pound (\$333.4 million), Swiss franc (\$259.4 million), Euro (\$219.7 million), Canadian dollar (\$109.2 million), Australian dollar (\$98.8 million), South Korean won (\$74.7 million) and Japanese yen (\$60.0 million).

Credit Risk

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

As a matter of policy, we only enter into derivative contracts with counterparties that have a long-term credit rating of at least A- or higher by at least two nationally recognized rating agencies. The counterparties to these contracts are major financial institutions. Exposure to credit risk in the event of nonperformance by any of the counterparties is limited to the gross fair value of contracts in asset positions, which totaled \$16.9 million at December 31, 2011. To manage this risk, we have established counterparty credit guidelines that are continually monitored. Accordingly, management believes risk of loss under these hedging contracts is remote.

Certain of our derivative financial instruments contain credit-risk-related contingent features. At December 31, 2011, we were in a net asset position for certain derivative contracts that contain such features with two counterparties. The fair value of those contracts as of December 31, 2011 was approximately \$0.8 million. As of December 31, 2011, we were in compliance with such credit-risk-related contingent features.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Market Risk

Using the value-at-risk model, as discussed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2011, the high, low and average measured value-at-risk for the twelve months ended December 31, 2011 related to our foreign exchange contracts are as follows:

(In millions)	High		Low		Average
Foreign exchange contracts	\$	47.1	\$	17.6	\$ 27.6

The change in the value-at-risk measures from June 30, 2011 related to our foreign exchange contracts reflected an increase in foreign exchange volatilities and a different portfolio mix. We believe that any resulting loss incurred would be offset by the effects of market rate movements on the respective underlying transactions for which the derivative financial instrument was intended.

OFF-BALANCE SHEET ARRANGEMENTS

We do not maintain any off-balance sheet arrangements, transactions, obligations or other relationships with unconsolidated entities, other than operating leases, that would be expected to have a material current or future effect upon our financial condition or results of operations.

CRITICAL ACCOUNTING POLICIES

As disclosed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2011, the discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in conformity with U.S. generally accepted accounting principles. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses reported in those financial statements. These judgments can be subjective and complex, and consequently actual results could differ from those estimates and assumptions. Our most critical accounting policies relate to revenue recognition, inventory, pension and other post-retirement benefit costs, goodwill, other intangible assets and long-lived assets, income taxes and derivatives. Since June 30, 2011, there have been no significant changes to the assumptions and estimates related to our critical accounting policies.

RECENTLY ISSUED ACCOUNTING STANDARDS

Refer to Note 1 of Notes to Consolidated Financial Statements *Summary of Significant Accounting Policies* for discussion regarding the impact of accounting standards that were recently issued but not yet effective, on the Company's consolidated financial statements.

FORWARD-LOOKING INFORMATION

We and our representatives from time to time make written or oral forward-looking statements, including statements contained in this and other filings with the Securities and Exchange Commission, in our press releases and in our reports to stockholders. The words and phrases "will likely result," "expect," "believe," "planned," "may," "should," "could," "anticipate," "estimate," "project," "intend," "forecast" or similar expressions are used in our forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include, without limitation, our expectations regarding sales, earnings or other future financial performance and liquidity, product introductions, entry into new geographic regions, information systems initiatives, new methods of sale, our long-term strategy, restructuring and other charges and resulting cost savings, and future operations or operating results. Although we believe that our expectations are based on reasonable assumptions within the bounds of our knowledge of our business and operations, actual results may differ materially from our expectations. Factors that could cause actual results to differ from expectations include, without limitation:

(1) increased competitive activity from companies in the skin care, makeup, fragrance and hair care businesses, some of which have greater resources than we do;

(2) our ability to develop, produce and market new products on which future operating results may depend and to successfully address challenges in our business;

(3) consolidations, restructurings, bankruptcies and reorganizations in the retail industry causing a decrease in the number of stores that sell our products, an increase in the ownership concentration within the retail industry, ownership of retailers by our competitors or ownership of competitors by our customers that are retailers and our inability to collect receivables;

(4) destocking and tighter working capital management by retailers;

(5) the success, or changes in timing or scope, of new product launches and the success, or changes in the timing or the scope, of advertising, sampling and merchandising programs;

(6) shifts in the preferences of consumers as to where and how they shop for the types of products and services we sell;

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

(7) social, political and economic risks to our foreign or domestic manufacturing, distribution and retail operations, including changes in foreign investment and trade policies and regulations of the host countries and of the United States;

(8) changes in the laws, regulations and policies (including the interpretations and enforcement thereof) that affect, or will affect, our business, including those relating to our products, changes in accounting standards, tax laws and regulations, environmental or climate change laws, regulations or accords, trade rules and customs regulations, and the outcome and expense of legal or regulatory proceedings, and any action we may take as a result;

(9) foreign currency fluctuations affecting our results of operations and the value of our foreign assets, the relative prices at which we and our foreign competitors sell products in the same markets and our operating and manufacturing costs outside of the United States;

(10) changes in global or local conditions, including those due to the volatility in the global credit and equity markets, natural or man-made disasters, real or perceived epidemics, or energy costs, that could affect consumer purchasing, the willingness or ability of consumers to travel and/or purchase our products while traveling, the financial strength of our customers, suppliers or other contract counterparties, our operations, the cost and availability of capital which we may need for new equipment, facilities or acquisitions, the returns that we are able to generate on our pension assets and the resulting impact on funding obligations, the cost and availability of raw materials and the assumptions underlying our critical accounting estimates;

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

(11) shipment delays, depletion of inventory and increased production costs resulting from disruptions of operations at any of the facilities that manufacture nearly all of our supply of a particular type of product (i.e., focus factories) or at our distribution or inventory centers, including disruptions that may be caused by the implementation of SAP as part of our Strategic Modernization Initiative or by restructurings;

(12) real estate rates and availability, which may affect our ability to increase or maintain the number of retail locations at which we sell our products and the costs associated with our other facilities;

(13) changes in product mix to products which are less profitable;

(14) our ability to acquire, develop or implement new information and distribution technologies and initiatives on a timely basis and within our cost estimates and our ability to maintain continuous operations of such systems and the security of data and other information that may be stored in such systems or other systems or media;

(15) our ability to capitalize on opportunities for improved efficiency, such as publicly-announced strategies and restructuring and cost-savings initiatives, and to integrate acquired businesses and realize value there from;

(16) consequences attributable to the events that are currently taking place in the Middle East, as well as from any terrorist action, retaliation and the threat of further action or retaliation;

(17) the timing and impact of acquisitions and divestitures, which depend on willing sellers and buyers, respectively; and

(18) additional factors as described in our filings with the Securities and Exchange Commission, including the Annual Report on Form 10-K for the fiscal year ended June 30, 2011.

We assume no responsibility to update forward-looking statements made herein or otherwise.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk.*

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

The information required by this item is set forth in Item 2 of this Quarterly Report on Form 10-Q under the caption "Liquidity and Capital Resources - Market Risk" and is incorporated herein by reference.

Item 4. Controls and Procedures.

Our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) are designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and to ensure that information required to be disclosed is accumulated and communicated to management, including our principal executive and financial officers, to allow timely decisions regarding disclosure. The Chief Executive Officer and the Chief Financial Officer, with assistance from other members of management, have reviewed the effectiveness of our disclosure controls and procedures as of December 31, 2011 and, based on their evaluation, have concluded that the disclosure controls and procedures were effective as of such date.

As part of our Strategic Modernization Initiative, we anticipate the continued migration of our operations to SAP-based technologies, with the majority of our locations being enabled through 2014. Based on management's evaluation, the necessary steps were taken to monitor and maintain appropriate internal control over financial reporting during the quarter ended December 31, 2011.

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during the second quarter of fiscal 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

Refer to Note 7 of Notes to Consolidated Financial Statements *Contingencies* for discussion of legal proceedings.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Sales of Unregistered Securities

Shares of Class B Common Stock may be converted immediately into Class A Common Stock on a one-for-one basis by the holder and are automatically converted into Class A Common Stock on a one-for-one basis upon transfer to a person or entity that is not a Permitted Transferee or soon after a record date for a meeting of stockholders where the outstanding Class B Common Stock constitutes less than 10% of the outstanding shares of Common Stock of the Company. There is no cash or other consideration paid by the holder converting the shares and, accordingly, there is no cash or other consideration received by the Company. The shares of Class A Common Stock issued by the Company in such conversions are exempt from registration under the Securities Act of 1933, as amended, pursuant to Section 3(a)(9) thereof.

During the three months ended December 31, 2011, the stockholder set forth in the table below converted shares of Class B Common Stock into Class A Common Stock (presented on a post-split basis) on the date set forth below:

Stockholder That Converted Class B Common Stock to Class A Common Stock	Date of Conversion	Number of Shares Converted/ Received
Aerin Lauder Zinterhofer 2000 Revocable Trust	December 6, 2011	186,000

Share Repurchase Program

We are authorized by the Board of Directors to repurchase up to 176.0 million shares of Class A Common Stock in the open market or in privately negotiated transactions, depending on market conditions and other factors. As of December 31, 2011, the cumulative total of acquired shares pursuant to the authorization was 159.8 million, reducing the remaining authorized share repurchase balance to 16.2 million. During the six months ended December 31, 2011, we purchased approximately 10.0 million shares pursuant to the authorization for \$484.9 million as outlined in the following table:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares that May Yet Be Purchased Under the Program(1)
July 2011	2,296,484(2) \$	52.59	2,258,200	23,885,538
August 2011	3,821,600	48.66	3,821,600	20,063,938
September 2011	1,982,464(3)	48.50	1,848,196	18,215,742
October 2011	2,431,866(2)	45.11	1,853,800	16,361,942
November 2011	50,000	54.23	50,000	16,311,942
December 2011	131,740	54.11	131,740	16,180,202
	10,714,154 \$	48.76	9,963,536	16,180,202

(1) The initial program covering the repurchase of 16.0 million shares was announced in September 1998 and increased by 40.0 million shares each in November 2007, February 2007 and May 2005 and 20.0 million shares in both May 2004 and October 2002.

(2) Includes shares that were repurchased by the Company in connection with shares withheld to satisfy tax obligations upon the vesting of restricted stock units.

(3) Includes shares that were repurchased by the Company in connection with shares withheld to satisfy tax obligations upon the vesting of performance share units.

All of the above share and per-share information is presented on a post-split basis.
