Risk Factors

Please see the Preliminary Offering Documents for a description of certain risks related to this investment, including, but not limited to, the following:

• If the notes are not automatically called, depending on the performance of the Market Measure as measured shortly before the maturity date, you may lose up to 100% of the principal amount.

Edgar Filing: CANADIAN IMPERIAL BANK OF COMMERCE /CAN/ - Form FWP

If the notes are called, your investment return is limited to the return represented by the applicable Call Premium.

• Payments on the notes, including any repayment of principal, are subject to the credit risk of CIBC, and actual or perceived changes in the creditworthiness of CIBC are expected to affect the value of the notes. If CIBC becomes insolvent or is unable to pay its obligations, you may lose your entire investment.

• The initial estimated value of the notes on the pricing date will be less than their public offering price.

• If you attempt to sell the notes prior to maturity, their market value may be lower than both the public offering price and the initial estimated value of the notes on the pricing date.

• You will have no rights of a holder of the securities represented by the Market Measure, and you will not be entitled to receive securities or dividends or other distributions by the issuers of those securities.

- Your return on the notes may be affected by exchange rate movements and factors affecting the international securities markets.
- · An investment in the notes will involve risks associated with emerging markets.

Final terms will be set on the pricing date within the given range for the specified Market-Linked Investment. Please see the Preliminary Offering Documents for complete product disclosure, including related risks and tax disclosure.
