Item 12. Results of Operations and Financial Condition.

On May 11, 2004 the Company issued a press release concerning its results of operations for the quarter ended March 31, 2004 and providing information regarding a conference call to be held at 2:30 CDT on May 11, 2004 to discuss these results.

The text of this release is as follows:

**TeraForce Reports
First Quarter 2004 Results**

NEWS RELEASE

Operating Profit Almost \$2 Million

Contact: Patty Dickerson, Investor Relations - 469-330-4969
pdickerson@teraforce-tech.com

RICHARDSON, TEXAS (May 11, 2004) □ TeraForce Technology Corporation (OTCBB: TERA) today announced financial results for the first quarter ended March 31, 2004.

Financial Results

Net income for the first quarter of 2004 was \$1,587,000 (\$0.01 per share) compared to a net loss of \$2,191,000 (\$0.01 per share) in the first quarter of 2003. Net revenues in the first quarter of 2004 amounted to \$4,607,000 versus \$953,000 in the first quarter of 2003. Operating profit for the three months ended March 31, 2004 amounted to \$1,922,000 versus an operating loss of \$1,716,000 in the same period of 2003. Results for the first quarter of 2004 reflect product shipments of \$1,657,000 and license fees of \$2,950,000, compared to product shipments of \$953,000 and no license fees in the first quarter of 2003.

Engineering and development expenses in the first quarter of 2004 were \$501,000 as compared to \$785,000 in the first quarter of 2003, reflecting the completion of various outsourced tasks last year. Selling and administrative expenses increased slightly to \$1,303,000 in the first quarter of 2004 versus \$1,204,000 in the first quarter last year. The increase is due primarily to increased sales commissions associated with higher product shipments.

Herman Frietsch, chairman and chief executive officer of TeraForce Technology Corporation commented, □Profitability in the first quarter marks another major milestone in the Company□s progress and provides a strong beginning for the year ahead. The boost in revenues from license fees highlights the importance of our new relationship with Curtiss-Wrights□s VISTA Controls unit. Although the license fees are not expected to be recurring at this level in the foreseeable future, we do expect to see further benefits as our relationship expands with the marketing of the ruggedized products that we are jointly developing.

□Product shipments, while slightly below our record level in the fourth quarter of 2003, are up substantially year over year. We believe this highlights the emerging revenue growth from production programs in which we have obtained design wins for our products. We expect to see shipments increase over the course of 2004 as our existing and anticipated design wins move into higher production levels. Due to the timing of specific orders and shipments, this growth may not be consistent from quarter to quarter.

-more-

□Overall, we have never felt more confident about the Company□s position in the marketplace or more optimistic about our prospects.□

Conference Call Scheduled

The Company will also host a management conference call Tuesday, May 11, 2004 at 2:30 p.m. Central Daylight Time, to review the matters discussed in this release. Shareholders and investors interested in attending the conference call should dial 904-779-4713 ten minutes prior to the call and enter reservation code 23712909. A live webcast of the conference call will also be available on the TeraForce website at <http://www.teraforcetechnology.com/> and click on □Investor Relations.□

A replay of the conference call will be available later that day from 5:30 p.m. Eastern Daylight Time through 5:30 p.m. Eastern Daylight Time on June 11, 2004. To access the playback, please call 402-220-2491. The reservation code for the replay is 23712909. A replay will be available online through the TeraForce website at <http://www.teraforcetechnology.com/> and click on [Investor Relations.]

About TeraForce Technology Corporation

Based in Richardson, Texas, TeraForce Technology Corporation (OTCBB: TERA) designs, develops, produces and sells high-density embedded computing platforms and digital signal processing products, primarily for applications in the defense electronics industry. TeraForce's primary operating unit is DNA Computing Solutions, Inc.

Except for the historical information contained herein, the statements in this announcement are forward looking statements which involve risks and uncertainties that could cause actual results to differ materially from those expressed in, or implied by, the forward looking statements. Factors that might cause such a difference include, but are not limited to, those relating to: general economic conditions in the markets in which the Company operates; success in the development and market acceptance of new and existing products; dependence on suppliers, third party manufacturers and channels of distribution; contingent liabilities; customer and product concentration; fluctuations in customer demand; maintaining access to external sources of capital; ability to attract and retain key management and technical personnel; issues regarding intellectual property rights; overall management of the Company's expansion; and other risk factors detailed from time to time in the Company's filings with the Securities and Exchange Commission.
