Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements that reflect the current views of our management with respect to future events. Any statements contained in this report that are not statements of historical fact may be deemed forward-looking statements. Forward-looking statements generally are identified by the words “expects,” “anticipates,” “believes,” “intends,” “estimates,” “aims,” “plans,” “may,” “will,” “will continue,” “seeks,” “should,” or the negative of such terms and similar expressions. We caution you that a number of important factors could cause actual results or outcomes to differ materially from those expressed in, or implied by, the forward-looking statements. These factors include, among other factors: our ability (or inability) to continue as a going concern, the willingness of our controlling stockholders, TGR Capital, LLC and Enerfund, LLC, which are controlled by our CEO, Mike Zoi, to continue investing in Net Element to fund our working capital requirements, our ability (or inability) to obtain additional financing in sufficient amounts or on acceptable terms when needed, our ability (or inability) to adequately address the material weaknesses in our internal control over financial reporting, development or acquisition of additional online media businesses, attracting and retaining competent management and other personnel, successful implementation of our business strategy, continued development and market acceptance of our technology, protection of our intellectual property, and successful integration and promotion of any business developed or acquired by us. If these or other risks and uncertainties (including those described in our Transition Report, as amended, on Form 10-KT/A for the transition period from April 1, 2010 to December 31, 2010 filed with the U.S. Securities and Exchange Commission (the “Commission”) and our subsequent filings with the Commission) materialize, or if the assumptions underlying any of these statements prove incorrect, our actual results may be materially different from those expressed or implied by such statements.

NET ELEMENT, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Basis of Presentation

Net Element, Inc. (OTCQB: NETE) is a developer and publisher of Internet services powered by a video-based technology platform. The Company's platform enables the rapid development, production and distribution of rich media content (including high definition (HD) and three-dimensional (3D) formats), services (Software as a Service (SaaS)) and branded content in entertainment and news. The Company owns and publishes Internet properties and creates social and business communities currently in motorsports, music, film and entertainment. Its portfolio of websites includes: www.Motorsport.com; www.Openfilm.com; www.music1.com; and www.ARLive.com. Net Element was formed in 2004 as Splinx Technology, Inc., a spin-off of Ener1, Inc. (NASDAQ: HEV).

Since April 1, 2010, we have pursued a strategy to develop and acquire applications, services and technologies for use in our media products and services. In furtherance of this strategy, on December 14, 2010, we acquired Openfilm, LLC, a company engaged in the development of technology and operation of a website that supports the advancement of independent film on the Internet. Additionally, on February 1, 2011, we acquired the websites www.Motorsport.com, a news and information website relating to the international motorsport industry, and www.Music1.com and www.ARLive.com, two websites that provide an online social community and marketplace for musicians, songwriters, producers and record companies and an opportunity to showcase artist talent and promote commercial events/transactions. As a result of these acquisitions, we now own and operate several online media websites in the music, film, motorsport and emerging music talent markets.

Prior to April 1, 2010, we engaged in the oil and gas drilling business. On July 16, 2008, we entered into a joint venture arrangement with a Russian corporation and operated an oil and gas drilling business under the name TOT-SIBBNS, Ltd. ("TOT-SIBBNS"). TOT-SIBBNS obtained its first contract and began drilling operations in the Fall 2008. However, financial constraints and the declining price of oil resulted in a suspension of drilling operations in January 2009. Drilling operations did not recommence during the Winter 2009 and most employees were furloughed in April 2009. TOT-SIBBNS had expectations of exploratory drilling (both through its existing customer and new customers), however, in January 2010, after several weeks of exploring other business opportunities, the Company altered its business focus and decided to exercise its option to unwind the joint venture and pursue other development opportunities. Comparative results for the six months ended June 30, 2010, include the discontinued operations of TOT-SIBBNS. Actual results for the six months ended June 30, 2011, do not include TOT-SIBBNS as it was unwound as of March 31, 2010 (See Note 11).

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and pursuant to the rules and regulations of the Commission for reporting on Form 10-Q. Accordingly, certain information and footnotes required for complete financial statements are not included herein. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the results for the interim periods presented have been included. These results have been determined on the basis of generally accepted accounting principles and practices applied consistently with those used in the preparation of the Company's financial statements for the nine months ended December 31, 2010. Operating results for the three and six months ended June 30, 2011 are not necessarily indicative of the results that may be reported for any particular quarterly period or the year ending December 31, 2011. It is recommended that the accompanying condensed consolidated financial statements be read in conjunction with the financial statements and notes thereto for the transition period from April 1, 2010 to December

31, 2010 included in the Company's Transition Report, as amended, on Form 10-KT/A filed with the Commission.

Basis of Consolidation

The unaudited condensed consolidated financial statements include the accounts of Net Element, Inc., the accounts of our wholly-owned subsidiary, Openfilm, LLC and its wholly-owned subsidiaries Openfilm, Inc. and Zivos, LLC (Ukraine), the accounts of our wholly-owned subsidiary Netlab Systems, LLC and its wholly-owned subsidiaries Netlab Systems, LTD (Cayman Islands) and the accounts of our 70%-owned subsidiary LegalGuru LLC, the accounts of our 75%-owned subsidiary Yapik, LLC, the accounts of our 85%-owned subsidiary Splinex, LLC and its wholly-owned subsidiary Splinex (Cayman Islands), the discontinued operations of our previously 75%-owned joint venture, TOT- SIBBNS, Ltd., the accounts of our wholly-owned subsidiary Music1, LLC and its 97%-owned subsidiary A&R Music Live, LLC and the accounts of our wholly-owned subsidiary Motorsport, LLC and its 80%-owned subsidiary Motorsport.com, Inc. All material intercompany accounts and transactions have been eliminated in this consolidation.

We have deconsolidated our 51% owned Czech Republic joint venture Korlea-TOT Energy s.r.o. ("Korlea-TOT") as of January 1, 2011 and we have adjusted the investment to its net realizable value. We are in the process of seeking to liquidate Korlea-TOT with our joint venture partner.

Recent Business Activity

In December 2010, we acquired Openfilm, LLC, an online media company that supports a community of independent film enthusiasts and filmmakers. Openfilm has developed an award-winning website (www.Openfilm.com) that currently showcases films of various lengths and genres, aggregated from film festivals, film schools and independent filmmakers from around the world. The proprietary technologies and software platform, know-how and methods developed for Openfilm provide a unique value proposition for independent filmmakers, advertisers, film festivals, film schools and viewers. Openfilm derives revenues from advertising, video content syndication, platform and Software as a Service (SaaS) licensing and membership fees, as well as contest entry fees for the “Get It Made” competitions (See Note 8).

In February 2011, we acquired an 80% interest in Motorsport.com, Inc. (through the acquisition of Motorsport, LLC), a mature online media company with a well-established brand name that operates an award-winning website (www.Motorsport.com) that distributes content related to the motorsport industry to racing enthusiasts all over the world. Motorsport.com derives revenues primarily from display advertising and sponsorship.

In February 2011, we acquired Music1, LLC, which owns and operates (through its 97% interest in A&R Music Live, LLC) two websites (www.arlive.com and www.music1.com) engaged principally in the discovery and promotion of new and emerging musical artists. A&R Music Live, LLC provides unsigned artists, producers and songwriters the opportunity to speak directly with record company personnel, learn the music business, and have their music reviewed live by record company A&R experts and receive feedback on the possibility of a record company contract. Revenues for Music1 are derived from digital download sales, merchandise sales, display advertising, subscriptions, service fees and premium tools to manage artist marketing activity.

In March 2011, we entered into a joint venture arrangement with one of our directors, Curtis Wolfe, in connection with the formation of LegalGuru LLC, a Florida limited liability company, in which we own a 70% interest and Curtis Wolfe owns a 30% interest. LegalGuru is intended to be the first of a series of the “guru” branded business vertical web services that will allow professionals to brand themselves and their businesses using the Net Element video platform and other proprietary technologies to assist in promotion and marketing of their professional businesses and service offerings (See Note 6).

On August 9, 2011, we acquired 100% of the outstanding equity interests in Stratuscore, Inc., a State of Washington corporation (“Stratuscore”), from its selling shareholder. Stratuscore is in the business of providing a technical software and operation SaaS (Software as a Service) application service to clients/customers that require significant compute processing. It is the intention of the Company to lower cost for its customers by providing efficient and secure network and content security when using this service. The initial beachhead and customer targets are in the Media and Entertainment market sector, specifically (i) Motion Picture/Animation, (ii) Gaming, (iii) Film & Video, (iv) Advertising, and (v) simulations. See Note 12.

In pursuing our strategy to further develop and expand our products and services, from time to time, we may be engaged in various discussions or activities to acquire or develop businesses or formulate joint venture or other arrangements. Our policy is not to disclose discussions or potential transactions until definitive agreements have been executed. Where we believe appropriate, acquisitions will be financed with newly-issued shares of our common stock or agreements or instruments to issue new shares of our common stock and, when this occurs, it will result in dilution (which may be substantial) to existing stockholders.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the balance sheet date and the reported amounts of expenses for the period presented. Actual results could differ from those estimates.

Cash

We maintain our U.S. Dollar-denominated cash in several non-interest bearing bank deposit accounts. Beginning December 31, 2010, all non-interest bearing transaction accounts are fully insured, regardless of the balance in the account, at all FDIC insured institutions. As such, our bank balances did not exceed FDIC limits at June 30, 2011 and December 31, 2010.

Through our 51% owned joint venture Korlea-TOT, we previously maintained a bank account in the Czech Republic and, at December 31, 2010, the balance of that bank account was \$83,361. Following our deconsolidation of Korlea-TOT as of January 1, 2011, the balance of that bank account is no longer reflected on our balance sheets.

Fixed Assets

We depreciate our furniture, servers, data center software and equipment over a term of 5 years. Computers and client software are depreciated over terms between 2 and 3 years. Leasehold improvements are depreciated over the shorter of the economic life or terms of each lease. All of our assets are depreciated on a straight-line basis for financial statement purposes.

We capitalize certain costs for website development projects. Specifically, we capitalize projects that are significant in terms of functional value added to the site. A capitalized project would be closer to a full product launch than an incremental or point release update. Costs for updates are expensed as incurred. Capitalized costs are amortized to depreciation and amortization expense over twenty-four months on a straight-line basis. We also capitalize start-up projects from the point of start to the point the application, service or website is publicly launched. Amortization is straight-line over twenty-four months and charged to depreciation and amortization. Impairment is reviewed quarterly to ensure only viable active project costs are capitalized.

Intangible Assets

We capitalize our costs that are directly related to website development. These costs include platform services, engineering, Internet hosting, Internet streaming, content delivery network fees and general and administrative expenses to directly support engineering services. Capitalized costs are amortized to depreciation and amortization expense on a straight-line basis over a twenty-four month period. We also capitalize costs related to projects that are extensive in scope and significantly add to the functionality of our websites. Additionally, we capitalize direct expenses associated with filing of patents and patent applications and amortize the capitalized intellectual property costs over five years beginning when the patent is approved.

Goodwill is recorded when the purchase price paid for an acquisition exceeds the estimated fair value of the net identified tangible and intangible assets acquired. Goodwill and certain intangible assets are assessed for impairment using fair value measurement techniques. Specifically, goodwill impairment is determined using a two-step process. The first step of the goodwill impairment test is to identify potential impairment by comparing the fair value of the reporting unit with its net book value (or carrying amount), goodwill. If the fair value of the reporting unit exceeds its carrying amount, goodwill of the reporting unit is considered not impaired and the second step of the impairment test is unnecessary.

If the carrying amount of the reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed to measure the amount of impairment loss, if any. The second step of the goodwill impairment test compares the implied fair value of the reporting unit's goodwill with the carrying amount of that goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess. The implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination. That is, the fair value of the reporting unit is allocated to all of the assets and liabilities of that unit (including any unrecognized intangible assets) as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price paid to acquire the reporting unit. The impairment test for other intangible assets consists of a comparison of the fair value of the intangible asset with its carrying value. If the carrying value of the intangible asset exceeds its fair value, an impairment loss is recognized in an amount equal to that excess.

Foreign Currency Transactions

Our primary operations were formerly conducted outside the United States and we used foreign currencies to operate our consolidated foreign subsidiaries. Quarterly income and expense items are translated into U.S. dollars using the

average interbank rate for the six-month period. Assets and liabilities are translated into U.S. dollars using the interbank rate as of the balance sheet date. Equity items are translated at their historical rate. We do not engage in any currency hedging activities. We are subject to exchange rate risk in our foreign operations in Ukraine and Russia where we incur product development, engineering and website development and hosting costs. The Ukraine and Russian engineering operations pay a majority of their expenses in their local currencies, exposing us to exchange rate risk.

Revenue Recognition

We recognize revenue when four basic criteria are met: persuasive evidence of a sales arrangement exists; performance of services has occurred, the sales price is fixed or determinable, and collectability is reasonably assured. We consider persuasive evidence of a sales arrangement to be the receipt of a signed contract or insertion order. Collectability is assessed based on a number of factors, including transaction history with the customer and the credit worthiness of the customer. If it is determined that the collection is not reasonably assured, revenue is not recognized until collection becomes reasonably assured, which is generally upon receipt of cash. We record cash received in advance of revenue recognition as deferred revenue.

We periodically engage in transactions involving the exchange of certain advertising services for various goods and services from third parties (Barter transactions). These transactions are recorded at the estimated fair value of the goods or services received. Revenue from trade transactions is recognized when the related advertisements are broadcast. Expense is recognized when services or merchandise received are used.

Net Loss Per Share

Basic net loss per common share is computed by dividing net loss applicable to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted net loss per common share is determined using the weighted-average number of common shares outstanding during the period, adjusted for the dilutive effect of common stock equivalents, consisting of shares issuable upon exercise of common stock options or warrants or pursuant to other agreements or instruments. In periods when losses are reported, the weighted-average number of common shares outstanding excludes common stock equivalents because their inclusion would be anti-dilutive.

Fair Value of Financial Instruments

Our financial instruments consist mainly of cash deposits, contracts receivable, short-term payables and related party payables. We believe that the carrying amounts of third-party financial instruments approximate fair value, due to their short-term maturities and the related party payables are interest bearing and payable on demand.

NOTE 2. GOING CONCERN CONSIDERATIONS

Our condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. We had negative cash flows from continuing operating activities of \$1,530,687 for the six months ended June 30, 2011, and a working capital deficit of \$289,394 and stockholders' deficiency of \$2,591,151 at June 30, 2011. We remain dependent upon TGR Capital, LLC, Enerfund, LLC or Mike Zoi (as a result of his controlling interest in TGR and Enerfund) to fund our operations.

Management is continuing with its plan to build a diversified portfolio of online media and technology assets. Management believes that its current operating strategy, combined with continued funding by our primary stockholder, will provide the opportunity for us to continue as a going concern; however, there is no assurance this will occur. The accompanying condensed consolidated financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

Our independent auditors' report on our consolidated financial statements for the period ended December 31, 2010 contains an explanatory paragraph about our ability to continue as a going concern. Management believes that its current operating strategy, as described herein, provides the opportunity for the Company to continue as a going concern; however, there is no assurance this will occur.

NOTE 3. SEGMENT INFORMATION

At June 30, 2011, our sole reportable business segment was our online businesses in music, film, motorsport and professional marketing services. At December 31, 2010, our sole reportable business segment was Openfilm and its online, video-related business. Until March 31, 2010 (which is when we decided to unwind the TOT-SIBBNS joint venture), our sole reportable business segment was the oil and gas services sector.

NOTE 4. INTANGIBLE ASSETS

We capitalize certain costs for website development projects. Specifically, we capitalize projects that are significant in terms of functional value added to the site. A capitalized project would be closer to a full product launch than an incremental or point release update. Costs for updates are expensed as incurred. Capitalized costs are amortized to depreciation and amortization expense over twenty-four months on a straight-line basis. We also capitalize start-up projects from the point of start to the point the application, service or website is publicly launched. Amortization is straight-line over twenty-four months and charged to depreciation and amortization. Impairment is reviewed quarterly to ensure only viable active project costs are capitalized.

Capitalized internal use website development costs are included in fixed assets, net. For the three months ended June 30, 2011, we capitalized \$176,216 of website development costs related to our motorsport, music and film production websites. Additionally, we amortized \$8,122 to depreciation and amortization expense for the three months ended June 30, 2011 leaving a balance of \$258,010 for capitalized website development and a balance of \$24,267 for capitalized patent costs on that date. For the six months ended June 30, 2011, we capitalized \$268,594 of website development costs and amortized \$10,584 to depreciation and amortization. Furthermore, we capitalized \$25,275 in

patent costs and amortized \$1,008 to depreciation and amortization for the six months ended June 30, 2011.

Additionally, on February 1, 2011, we acquired Motorsport, LLC and Music1, LLC from a related party (Enerfund) and we assumed the balance sheets of Motorsport, LLC and Music1, LLC with existing intangible assets as follows:

Intangible Asset	Motorsport, LLC	Music1, LLC

Domain Name	\$ 95,833	\$ 6,503
Customer List	\$ 95,833	-

NOTE 5. ACQUISITIONS OF MOTORSPORT, LLC AND MUSIC1, LLC

On February 1, 2011, we entered into a purchase agreement (the “Motorsport Purchase Agreement”) with Enerfund, LLC, a company controlled by Mike Zoi, to purchase all of the issued and outstanding interests in Motorsport, LLC, a Florida limited liability company that holds 80% of the outstanding common stock of Motorsport.com, Inc., a Florida corporation engaged in the operation of a news and information website relating to the international motorsport industry. Motorsport, LLC purchased its 80% interest in Motorsport.com, Inc. on December 17, 2010. The remaining 20% of the outstanding common stock of Motorsport.com, Inc. is held by the original stockholders (4 persons) of Motorsport.com, Inc. We paid Enerfund an aggregate of \$130,000 (exclusive of a \$20,000 contingent payment relating to the purchase of certain domain names) and agreed to take over responsibility for the obligations contained in the purchase agreement of December 17, 2010, which includes, among other things, the aggregate payment to the original stockholders of Motorsport.com, Inc. of an additional \$450,000 payable in four quarterly installments, without interest, commencing on December 1, 2013. The domain names and related registrations were not purchased, as required, by June 16, 2011, hence the contingent amount (\$20,000) will not be paid. The original sellers have a security interest in the domain names of Motorsport.com, Inc. as collateral for payment of the additional \$450,000 of the purchase price. Failure by us to pay the additional purchase installments when due may result in forfeiture of all the shares in Motorsport.com, Inc. held by us.

In addition, we have an option to purchase the remaining interests in Motorsport.com, Inc. currently held by the original stockholders. The purchase option expires on December 16, 2018. We may exercise this option at any time upon thirty days prior written notice and the payment, in cash or preferred stock with an equivalent value of Motorsport.com, Inc., as follows:

- (i) until December 16, 2015: \$0.1075 per share;
- (ii) from December 17, 2015 through December 16, 2016: \$0.1185 per share;

- (iv) from December 17, 2017 through December 16, 2018: \$0.1435 per share.

We may redeem the preferred stock issued (if any) at any time upon the payment in full of the value of the preferred stock as of the date of issuance.

In furtherance of our strategy to become an online media company, on February 1, 2011, we acquired Music1, LLC, a Florida limited liability company, from Enerfund, LLC (a company controlled by Mike Zoi), for an aggregate purchase price of \$15,000. Music1, LLC owns 97% of the membership interests in A&R Music Live, LLC, a Georgia limited liability company that owns and operates two websites that provide an online social community and marketplace for musicians, songwriters, producers and record companies and an opportunity to showcase artist talents. Music1, LLC purchased its interest in A&R Music Live, LLC on November 8, 2010. The remaining 3% of the membership interests in A&R Music Live, LLC is owned by Stephen Strother, the Founder and President of A&R Music Live, LLC. We are required to invest at least \$500,000 in Music1 by December 31, 2012 (which amount may include salaries and other expenses of Music1). In the event such amount is not invested in Music1 by December 31, 2012 or the employment agreement of Mr. Strother is terminated other than for cause or good reason on or before May 7, 2012, then Mr. Strother will have the right to repurchase Music1 for \$1.00. Additionally, Mr. Strother has granted a royalty free license to Music1 to use certain technology owned by him for the term of his employment agreement.

NOTE 6. JOINT VENTURES

On July 18, 2008, we entered into an agreement to acquire a 75% controlling interest in TOT-SIBBNS, a limited liability company organized under the laws of the Russian Federation. Pursuant to the Joint Venture Agreement, the owner of Sibburnefteservis, Ltd. of Novosibirsk, Russia (“SIBBNS”) contributed certain assets of SIBBNS to TOT SIBBNS in exchange for 3,000,000 shares of our common stock. On or about January 27, 2010, we changed our business focus and determined to unwind the TOT-SIBBNS joint venture. We and TOT-SIBBNS executed an unwind agreement whereby we exchanged our 75% interest in TOT-SIBBNS for the 3,000,000 shares given to Evgeni Borograd in 2008. The unwind of the joint venture was consummated as of March 31, 2010 and has been accounted for using the guidance provided in ASC 845 (previously APB 29), as a disposal “other than by sale” similar to a spin-off transaction, with the shares received reflected as treasury stock and recorded on our balance sheet at its carrying basis in the net assets of the joint venture as of March 31, 2010.

We formed a joint venture in the Czech Republic, Korlea-TOT Energy s.r.o., in July 2008 with Korlea Invest Holding AG of Switzerland (“Korlea”). We invested \$56,000 in exchange for our 51% of the share capital in the joint venture. Korlea-TOT was expected to engage in marketing and trading of oil and natural gas in Eastern Europe. To date, the joint venture has not engaged in any significant operating activity. Accordingly, in November 2010, we sent Korlea notice of our request to unwind this arrangement. On January 1, 2011, we deconsolidated Korlea-TOT and adjusted the carrying value of the investment to its estimated net realizable value. We are in the process of seeking to liquidate Korlea-TOT with our joint venture partner.

On March 17, 2011, we formed a wholly-owned subsidiary, Splinex, LLC, a Florida limited liability company. Splinex, LLC is intended to develop 3D technology for use in our products and services and certain other licensed applications. As of April 12, 2011, an aggregate 15% ownership interest in Splinex, LLC was issued to certain of our employees and/or consultants.

Effective as of March 29, 2011, we entered into a joint venture arrangement (the "LegalGuru JV Agreement") with one of our directors, Curtis Wolfe, in connection with the formation of LegalGuru LLC, a Florida limited liability company, in which we own a 70% interest and Curtis Wolfe owns a 30% interest. Pursuant to the LegalGuru JV Agreement, the parties agreed to invest up to an aggregate of \$1,000,000 in the joint venture. Mr. Wolfe agreed to invest up to an aggregate of \$200,000 as follows: \$25,000 per month for four months beginning in June 2011, and, after the LegalGuru Website is launched, \$100,000 paid over a one year period with timing and amounts of each contribution to be determined by Net Element. We are obligated to fund the balance of the operating and cash requirements of the joint venture up to an aggregate of \$800,000 also with timing and contribution amounts to be determined by Net Element. We agreed that Mr. Wolfe will be the Chairman of LegalGuru LLC agreed to pay him a salary of \$10,000 per month beginning in March 2011 (\$5,000 to be paid by Net Element for services provided to Net Element on a continuing basis and \$5,000 to be paid by LegalGuru LLC for services provided to LegalGuru LLC in the management of the design, development, and launch of the website, web services and ongoing business). Upon launch of the website and commencement of commercial operations (expected in the third quarter of 2011), we agreed to increase Mr. Wolfe's salary to \$20,000 per month (\$15,000 from LegalGuru LLC and \$5,000 from Net Element). LegalGuru is intended to be the first of a series of the "guru" branded business vertical web services intended to allow professionals to brand themselves and their businesses using the Net Element video platform and other proprietary technologies to assist in promotion and marketing of their professional businesses and service offerings. Mr. Wolfe has the right, for 36 months from the date of the Guru Joint Venture Agreement, to convert his interest in LegalGuru LLC into 3,000,000 shares of our common stock.

On June 16, 2011, we entered into a Subscription Agreement pursuant to which we sold a 15% ownership interest in our subsidiary Yapik, LLC in exchange for a \$100,000 investment in Yapik, LLC, which was received on June 20, 2011. The investor has an option, which is exercisable for 36 months, to convert the 15% ownership interest in Yapik, LLC into 1,500,000 shares of common stock of the Company.

NOTE 7. ACCRUED EXPENSES

Accrued expenses represent expenses that are owed at the end of the period and have not been billed by the provider or are estimates of services provided.

At June 30, 2011 and December 31, 2010, accrued expenses consisted of the following:

	June 30, 2011	December 31, 2010
Accrued professional fees	50,194	152,068
Promotion Expense	50,000	50,000
Accrued interest	80,319	32,201
Accrued payroll	106,250	17,710
Other accrued expenses	261,771	173,632
	\$ 548,534	\$ 425,611

NOTE 8. COMMITMENTS AND CONTINGENCIES

Openfilm has completed two “Get it Made” competitions. The first contest completed in September 2010, awarded \$250,000 in cash (\$50,000) and services to make a movie (\$200,000). The services are provided once the winner provides a screenplay in acceptable form to Openfilm. The second contest winner was announced in June 2011 and \$500,000 was awarded in cash (\$50,000) and services to make a feature film (\$450,000). The terms of this contest require the winner to submit an acceptable screenplay within six months. The Company has recorded \$100,000 in expense relating to the cash prizes awarded. The services will be charged to operations over the expected time it takes to make the movies beginning once acceptable screenplays have been submitted to Openfilm.

From time to time, in the ordinary course of business, the Company is subject to legal and/or tax proceedings or inquiries. While it is impossible to determine the ultimate outcome of any such proceedings or inquiries, management believes that the resolution of any pending matters will not have a material adverse effect on the consolidated financial position, cash flows or results of operations of the Company.

Uncertain tax positions are reviewed by management on an ongoing basis and related reserves are adjusted in light of changing facts and circumstances, including progress of tax audits, developments in case law, and expirations of statutes of limitations. Based on information currently available, we anticipate that over the next nine months ongoing audit activity should be resolved relating to uncertain tax positions for which we have accrued estimated liabilities of \$50,000.

NOTE 9. STOCKHOLDERS' EQUITY

On February 1, 2011, our Board of Directors adopted a resolution recommending an amendment to the Certificate of Incorporation to increase the number of authorized shares of our capital stock to an aggregate of 2,600,000,000 shares with 2,500,000,000 shares designated common stock, \$.001 par value, and 100,000,000 shares designated preferred stock, \$.001 par value per share, which may be divided into series with the designations, powers, preferences, and relative rights and any qualifications, limitations or restrictions as determined by the Board of Directors. Our majority

stockholders approved the amendment to our Certificate of Incorporation through action taken by written consent without a meeting, as authorized by Section 228 of the Delaware General Corporation Law. The actions recommended by the Board of Directors and approved by the Company's majority stockholders became effective upon the filing of a certificate of amendment relating thereto with the Secretary of State of the State of Delaware on March 4, 2011.

During the nine months ended December 31, 2010, TGR Capital, LLC was issued 101,088,150 shares of our common stock and fully vested warrants to purchase 50,544,075 shares of our common stock at an exercise price of \$0.05 per share for a period of five years from the date of issuance in exchange for funding of \$2,021,763 provided under the terms of a Subscription Agreement with TGR Capital, LLC dated August 7, 2008, as amended on January 12, 2010 (the "TGR Subscription Agreement"). A compensation charge of \$1,620,787 was recorded for the nine months ended December 31, 2010 as one of our officers is also a principal of TGR Capital, LLC and the securities issued were below market value as of the issue date. This amount is calculated as the difference between the market price of our common stock at the end of each quarter in which shares were issued and the subscription price of the common shares (\$0.02) multiplied by the number of shares issued, plus the Black-Scholes valuation of the warrants issued as calculated at the end of each quarter. This subscription agreement for \$4,000,000 was fully subscribed at December 31, 2010.

On December 31, 2010, we entered into a Subscription Agreement with Enerfund, LLC (the “Enerfund Subscription Agreement”) pursuant to which we received an aggregate of \$2,000,000 in exchange for 200,000,000 shares of our common stock and warrants to purchase 100,000,000 shares of our common stock at an exercise price of \$0.05 per share for a period of five years from the date of issuance. However, we did not have a sufficient number of authorized shares of common stock to fully issue these securities to Enerfund at December 31, 2010. Accordingly, this transaction has been accounted for as a purchase by Enerfund as of December 31, 2010 of 112,000,000 shares of common stock and fully vested warrants to purchase 56,000,000 shares of common stock for \$0.05 per share in exchange for \$1,120,000. A compensation charge of \$560,000 was recorded for the nine months ended December 31, 2010 as one of our officers is also a principal of Enerfund. This amount is calculated as the Black-Scholes valuation of the warrants issued as of December 31, 2010. The balance of the proceeds of \$880,000 was accounted for as an advance until March 7, 2011, when we issued the balance of the shares and warrants. Since Enerfund is owned by an officer/director, we recorded a compensation charge of \$18,920,000, which is comprised of the Black-Scholes value of the warrants (\$6,600,000) and the intrinsic market value of the common stock issued (\$12,320,000).

On February 18, 2011, the Company’s Board of Directors approved the hiring of Richard Lappenbusch as President and Chief Operating Officer. In addition to salary and benefits, Mr. Lappenbusch was granted 6,100,000 shares of our common stock with vesting as follows: 100,000 shares on February 15, 2012; 4,000,000 shares vesting semi-annually over a three year period from the date of the grant; and 2,000,000 shares upon the Company achieving \$20,000,000 in gross revenues (other than through acquisitions), subject to the terms and conditions of a restricted stock agreement. Accordingly, the fair value of the restricted shares issued of \$33,500 will be amortized over the vesting periods. The following table details the vesting periods and the amounts amortized with respect to 4,100,000 shares of common stock issued to Mr. Lappenbusch:

Vesting Date	Amortization	Shares Vested
8/18/11	\$ 3,667	666,667
2/15/12	550	100,000
2/14/12	3,667	666,667
8/12/12	3,667	666,667
2/8/13	3,667	666,667
8/7/13	3,667	666,667
2/3/14	3,667	666,665
	\$ 22,552	4,100,000

The remaining 2,000,000 restricted shares of common stock vest upon the Company’s attainment of \$20 million in aggregate gross revenues. The fair value of these shares (\$10,998) will be amortized over the year ending December 31, 2011. For the quarter and six months ended June 30, 2011, we amortized \$3,103 and \$4,723, respectively of this amount as an expense to operations.

Also on February 18, 2011, our Board of Directors approved a grant of 100,000 shares of our common stock to Alys Daly as compensation for marketing and investor relations services. We recorded a charge of \$4,000 based on the fair market value of shares issued.

On March 6, 2011, our Board of Directors approved the issuance of 100 shares of our common stock to certain employees and consultants located in the U.S., Russia and Ukraine. This resulted in an issuance of 5,800 shares of common stock and a corresponding compensation charge of \$580 to reflect the fair market value of the shares issued.

Additionally, on March 6, 2011, the Board of Directors approved the grant of options to purchase an aggregate of 3,971,500 shares of common stock at an exercise price of \$0.10 per share to certain employees and consultants under

our 2004 Stock Option Plan. The Company valued the options using a Black-Scholes model and recorded a compensation charge of \$39,715. The options vest over three years at 33.3% per year with vesting for a particular year occurring on the anniversary date of the grant.

Effective as of March 29, 2011, we entered into the LegalGuru JV Agreement with one of our directors, Curtis Wolfe, in connection with the formation of LegalGuru LLC, in which we own a 70% interest and Curtis Wolfe owns a 30% interest. Pursuant to the LegalGuru JV Agreement, Mr. Wolfe has the right, for 36 months from March 29, 2011, to convert his interest in LegalGuru LLC into 3,000,000 shares of our common stock.

At March 31, 2010, we issued to Jonathan New, our Chief Financial Officer, 250,000 shares of fully vested common stock for services provided to us under a salary reduction implemented in 2009. A compensation charge of \$37,500 was recorded for the quarter ended March 31, 2010, which reflects the market value per share (\$0.15) on the first trading day after the date of grant.

On April 4, 2011, we entered into a public relations contract with Roar Media, LLC to provide press related services and assist with community outreach and strategic alliances. The term of this agreement is for six months and provides for monthly remuneration of \$14,000 and 5,000 shares of our common stock with an option by the Company to renew for successive six-month periods. This agreement was modified to provide remuneration in July of \$7,000 and 5,000 shares. August and September have been revised to \$6,500 per month plus 5,000 shares per month.

On May 16, 2011 we entered into a three-year, unsecured convertible promissory note and loan agreement with Enerfund, LLC in the principal amount of \$2,000,000. Net Element will use the amounts borrowed under the convertible promissory note and loan agreement for working capital and acquisitions. The annual interest rate is 5.0% and principal and interest is due on or before April 27, 2014. The loan may be pre-paid at any time without penalty. Outstanding principal may be converted by Enerfund at any time into shares of common stock of the Company at a conversion price of \$0.11 per share (which was the closing stock price on May 13, 2011, the last full trading day before the convertible promissory note and loan agreement was entered into).

On June 16, 2011, we entered into a Subscription Agreement pursuant to which we sold a 15% ownership interest in our subsidiary Yapik, LLC in exchange for a \$100,000 investment in Yapik, LLC, which was received on June 20, 2011. The investor has an option, which is exercisable for 36 months, to convert the 15% ownership interest in Yapik, LLC into 1,500,000 shares of common stock of the Company.

On June 28, 2011, the Board of Directors approved the 2011 Equity Incentive Plan with 150,000,000 shares authorized. The Company's majority stockholder approved the plan pursuant to a written consent also dated June 28, 2011. The Board of Directors serves as administrator of the plan. The new plan was designed to attract and retain the services of directors, employees and consultants by offering ability to make awards of unrestricted stock, stock options or both in order to create incentives. The plan limits the strike price of incentive options issued to 110% of current market and terms can be no longer than 10 years (5 years if the optionee is a 10% or more shareholder). The Company has registered the shares issuable under this plan on a registration statement on Form S-8 filed with the SEC. This plan became effective on July 20, 2011.

At June 30, 2011, we had outstanding options to purchase 5,071,500 shares of common stock under our 2004 Stock Option Plan, of which options to purchase 1,073,148 shares of common stock are vested, with a weighted average exercise price of \$0.13 per share and with a remaining weighted average contractual term of 4.02 years. We also had outstanding warrants to purchase 200,000,000 shares of common stock at June 30, 2011 with a strike price of \$0.05 per share and a remaining average contractual term of 4.13 years. All shares authorized under our 2004 plan have been granted but forfeited shares can be reused.

As partial consideration for certain consulting services pursuant to an Advisor Agreement entered into on July 19, 2011 among the Company, Motorsport.com, Inc. and Emerson Fittipaldi, the Company granted Mr. Fittipaldi 5 million shares of the Company's common stock. In addition, pursuant to the Advisory Agreement, Mr. Fittipaldi has the opportunity to earn a bonus of up to 1 million additional shares of common stock of the Company based upon his success in promoting Motorsport.com through his social networking activities, which bonus is in the sole discretion of the Board of Directors of the Company. If Mr. Fittipaldi terminates the Advisor Agreement, he is required to forfeit a pro rata amount of the 5 million shares of the Company's common stock that were granted to him in accordance with the terms of the Advisor Agreement.

On August 9, 2011, we entered into a Stock Purchase Agreement pursuant to which we acquired 100% of the outstanding equity interests in Stratuscore, Inc., a State of Washington corporation, from Denise Muyco, who is the spouse of the Company's President and Chief Operating Officer, Richard Lappenbusch. The aggregate purchase price for the outstanding equity interests in Stratuscore initially consisted of 3 million shares of common stock of the Company, which shares were issued to Ms. Muyco and certain other members of the Stratuscore management team. In addition, Ms. Muyco and certain other members of the Stratuscore management team will have the right to receive up to an additional 7 million shares of common stock of the Company based on the performance of Stratuscore during the first three years following the closing date. See also Note 1 under "Recent Business Activity" and Note 12.

NOTE 10. RELATED PARTY TRANSACTIONS

During the nine months ended December 31, 2010, TGR Capital, LLC was issued 101,088,150 shares of our common stock and fully vested warrants to purchase 50,544,075 shares of our common stock at an exercise price of \$0.05 per share for a period of five years from the date of issuance in exchange for funding of \$2,021,763 provided under the TGR Subscription Agreement. A compensation charge of \$1,620,787 was recorded for the nine months ended December 31, 2010 as one of our officers is also a principal of TGR Capital, LLC and the securities issued were below market value as of the issue date. This amount is calculated as the difference between the market price of our common stock at the end of each quarter in which shares were issued and the subscription price of the common shares (\$0.02) multiplied by the number of shares issued, plus the Black-Scholes valuation of the warrants issued as calculated at the end of each quarter. This subscription agreement for \$4,000,000 was fully subscribed at December 31, 2010.

On December 31, 2010, we entered into a Subscription Agreement with Enerfund, LLC pursuant to which we received an aggregate of \$2,000,000 in exchange for 200,000,000 shares of our common stock and warrants to purchase 100,000,000 shares of our common stock at an exercise price of \$0.05 per share for a period of five years from the date of issuance. However, we did not have a sufficient number of authorized shares of common stock to fully issue these securities to Enerfund as of December 31, 2010. Accordingly, this transaction has been accounted for as a purchase by Enerfund as of December 31, 2010 of 112,000,000 shares of our common stock and fully vested warrants to purchase 56,000,000 shares of our common stock for \$0.05 per share in exchange for \$1,120,000. A compensation charge of \$560,000 was recorded for the nine months ended December 31, 2010, as one of our officers is also a principal of Enerfund. This amount is calculated as the Black-Scholes valuation of the warrants issued as of December 31, 2010. The balance of the proceeds of \$880,000 was accounted for as an advance at December 31, 2010. On March 7, 2011, we issued the balance of the shares and warrants and recorded a compensation charge of \$18,920,000, as one of our officers is also a principal of Enerfund. This amount was calculated based on the Black-Scholes value of warrants (\$6,600,000) plus the intrinsic market value of the common stock issued (\$12,320,000).

The Company and Ms. Muyco are required to establish a budget with a minimum amount to be invested by the Company in Stratuscore. If the Company fails to fund any part of the initial phase of the budget or otherwise materially breaches and is in default of its obligations under the Stock Purchase Agreement and the Company fails to cure such default within the period required by the Stock Purchase Agreement, then Ms. Muyco will have the right to repurchase from the Company all of the outstanding equity interests in Stratuscore for \$1.00 or she may reacquire from the Company 50% of the outstanding equity interests in Stratuscore for no consideration with the right to purchase the remaining equity interests in Stratuscore for \$0.06 per share or sell it back to the Company for \$0.06 per share. (through the acquisition of Motorsport, LLC), a mature online media company with a well-established brand name that operates an award-winning website (www.Motorsport.com) that distributes content related to the motorsport industry to racing enthusiasts all over the world. A&R Music Live, LLC provides unsigned artists, producers and songwriters the opportunity to speak directly with record company personnel, learn the music business, and have their music reviewed live by record company A&R experts and receive feedback on the possibility of a record company contract. In March 2011, we entered into a joint venture arrangement with one of our directors, Curtis Wolfe, in connection with the formation of LegalGuru LLC, a Florida limited liability company, in which we own a 70% interest and Curtis Wolfe owns a 30% interest. LegalGuru is intended to be the first of a series of the “guru” branded business vertical web services that will allow professionals to brand themselves and their businesses using the Net Element video platform and other proprietary technologies to assist in promotion and marketing of their professional businesses and service offerings. On August 9, 2011, we acquired 100% of the outstanding equity interests in Stratuscore, Inc., a State of Washington corporation, from Denise Muyco, who is the spouse of the Company’s President and Chief Operating Officer, Richard Lappenbusch. Stratuscore is in the business of providing a technical software and operation SaaS (Software as a Service) application service to clients/customers that require significant compute processing. Pursuant to the terms of the term sheet, the Company’s obligations under the term sheet were subject to the Company’s satisfactory completion of due diligence. On August 9, 2011, the Company formally terminated the term sheet as a result of its dissatisfaction with the results of its due diligence.

In pursuing our strategy to further develop and expand our products and services, from time to time, we may be engaged in various discussions or activities to acquire or develop businesses or formulate joint venture or other arrangements. Our policy is not to disclose discussions or potential transactions until definitive agreements have been executed. Where we believe appropriate, acquisitions will be financed with newly-issued shares of our common stock or agreements or instruments to issue new shares of our common stock and, when this occurs, it will result in dilution (which may be substantial) to existing stockholders.

Accordingly, this transaction has been accounted for as a purchase by Enerfund as of December 31, 2010 of 112,000,000 shares of our common stock and fully vested warrants to purchase 56,000,000 shares of our common stock for \$0.05 per share in exchange for \$1,120,000. The balance of the proceeds of \$880,000 was accounted for as an advance at December 31, 2010. On March 4, 2011, the number of our authorized common shares was increased from 800,000,000 to 2,500,000,000 and subsequently we issued the balance of the shares and warrants. On March 7, 2011 (the date of issuance of the balance of the shares and warrants), the market value of the common shares exceeded the subscription price resulting in a compensation charge of \$12,320,000 for the shares purchased under the Enerfund Subscription Agreement. Additionally, a compensation expense relating to the issuance of warrants of \$6,600,000 was recorded based on a Black-Scholes valuation model since the majority shareholder of Enerfund is also an officer of our Company.

Product development expense was \$46,585 for the six months ended June 30, 2011. There were no research and development expenses for the six months ended June 30, 2010.

Depreciation and amortization expense was \$64,879 for the six months ended June 30, 2011 as compared with \$510 for the six months ended June 30, 2010. Fixed assets increased to \$545,929 at June 30, 2011 as compared with \$151,416 at June 30, 2010, creating higher period depreciation for the six months ended June 30, 2011. Additionally, amortization costs related to intangible assets were \$21,559 at June 30, 2011 as compared with \$0 at June 30, 2010 and this created higher amortization expense for six months ended June 30, 2011 versus the same period in 2010.

Interest expense was \$57,293 for the six months ended June 30, 2011 as compared with \$195 for the six months ended June 30, 2010. The interest expense in 2011 was primarily attributable to a loan from Enerfund, LLC to Openfilm, LLC with a principal balance of \$1,667,000 and an interest rate of 5% per annum. The advances from this loan were made between November 2010 and January 2011.

Other expense was \$45,942 for the six months ended June 30, 2011 as compared to \$90,282 for the six months ended June 30, 2010. The other expense for the six months ended June 30, 2011 is due to the deconsolidation of Korea-TOT. The other expense in the comparable period of 2010 is primarily due to the write-off of a loan to TOT-SIBBNS.

The net loss attributable to non-controlling interests relating to Yapik, LLC, LegalGuru, LLC, A&R Music Live, LLC, Motorsport.com, Inc. and Splinx, LLC was \$170,243 for the six months ended June 30, 2011 as compared with \$9,540 for the six months ended June 30, 2010. Non-controlling interest for the six months ended June 30, 2010 related to TOT-SIBBNS, which was discontinued on March 31, 2010 and Korlea-TOT, which was deconsolidated on January 1, 2011. The non-controlling interest reflects the results of operations of subsidiaries that are allocable to equity owners other than the Company.

The net loss from discontinued operations was \$0 for the six months ended June 30, 2011 as compared to a net loss from discontinued operations of \$646,017 for the six months ended June 30, 2010 as the Company discontinued the operations of TOT-SIBBNS on March 31, 2010 (see Notes 6 and 11 to the accompanying unaudited condensed consolidated financial statements).

Liquidity and Capital Resources

At June 30, 2011, we had an accumulated deficit of \$48,464,243, a working capital deficit of \$289,394 and cash of \$351,781. We had a net loss of \$22,043,310 for the six months ended June 30, 2011 and a net loss of \$2,415,009 for the six months ended June 30, 2010, and further losses are anticipated. We had negative cash flows from operations of \$1,530,687 for the six months ended June 30, 2011 and negative cash flows from operations of \$367,299 for the six months ended June 30, 2010 when the company had limited operations.

We are dependent upon receiving funds from our controlling stockholders, TGR Capital, LLC and Enerfund, LLC, which are controlled by our CEO, Mike Zoi. Pursuant to the TGR Subscription Agreement, TGR was obligated to invest up to \$4,000,000 to fund working capital requirements in exchange for up to 200,000,000 shares of our common stock and warrants to purchase up to 100,000,000 shares of our common stock with an exercise price of \$0.05 per share. The shares and warrants were issued quarterly and we recorded an appropriate compensation expense as necessary based on the fair value of the securities on the last day of each fiscal quarter (the date of issuance). At December 31, 2010, TGR had fulfilled its investment obligations under the TGR Subscription Agreement.

On December 10, 2010, Openfilm entered into a loan agreement with Enerfund, LLC in the principal amount of \$1,667,020. The annual interest rate is 5% payable annually on December 31. The loan matures on December 10, 2012 with accrued interest due at that time. The balance (including accrued interest) at June 30, 2011 was \$1,741,310.

On December 31, 2010, we entered into a Subscription Agreement with Enerfund, LLC pursuant to which we received an aggregate of \$2,000,000 in exchange for 200,000,000 shares of our common stock and warrants to purchase 100,000,000 shares of our common stock at an exercise price of \$0.05 per share for a period of five years from date of issuance. However, we did not have a sufficient number of authorized shares of common stock to fully issue these securities to Enerfund as of December 31, 2010. Accordingly, this transaction has been accounted for as a purchase by Enerfund as of December 31, 2010 of 112,000,000 shares of our common stock and fully vested warrants to purchase 56,000,000 shares of our common stock for \$0.05 per share in exchange for \$1,120,000. A compensation charge of \$560,000 was recorded for the nine months ended December 31, 2010 as one of our officers is also a principal of Enerfund. This amount is calculated as the Black-Scholes valuation of the warrants issued as of December 31, 2010. The balance of the proceeds of \$880,000 was accounted for as an advance at December 31, 2010. On March 7, 2011, we issued the balance of the shares and warrants and recorded a compensation charge of \$18,920,000 as one of our officers is also a principal of Enerfund. This amount was calculated based on the Black-Scholes value of warrants (\$6,600,000) plus the intrinsic market value of the common stock issued (\$12,320,000). The proceeds of the Enerfund Subscription Agreement were used to fund our operations.

As previously disclosed, in connection with the Motorsport acquisition, we are obligated to make additional payments to the original stockholders of Motorsport.com, Inc. of an aggregate of \$450,000 payable in four quarterly installments, without interest, commencing on December 1, 2013. The original sellers have a security interest in the domain names of Motorsport.com, Inc. as collateral for payment of the additional purchase price. Failure by us to pay the additional purchase installments when due may result in forfeiture of all the shares in Motorsport.com, Inc. held by us.

In addition, we have an option to purchase the remaining 20% interest in Motorsport.com, Inc. currently held by the original stockholders. The purchase option expires on December 16, 2018. We may exercise this option at any time upon thirty days prior written notice and the payment, in cash or preferred stock with an equivalent value of Motorsport.com, Inc., as follows:

- (i) until December 16, 2015: \$0.1075 per share;
- (ii) from December 17, 2015 through December 16, 2016: \$0.1185 per share;
- (iii) from December 17, 2016 through December 16, 2017: \$0.1305 per share; and
- (iv) from December 17, 2017 through December 16, 2018: \$0.1435 per share.

We may redeem the preferred stock issued (if any) at any time upon the payment in full of the value of the preferred stock as of the date of issuance.

On January 31, 2011, Motorsport entered into a loan agreement with Enerfund, LLC in the principal amount of \$184,592. The annual interest rate is 5% payable annually on December 31. The loan matures on the third anniversary of each funding under the loan agreement, which fundings occurred from October 2010 through January 2011, with accrued interest due at that time. This loan was repaid in full on February 24, 2011.

On February 1, 2011, we acquired Music1, LLC from Enerfund, LLC for an aggregate purchase price of \$15,000. We are required to invest at least \$500,000 in Music1 by December 31, 2012 (which amount may include salaries and other expenses of Music1). In the event such amount is not invested in Music1 by December 31, 2012 or the employment agreement of Mr. Strother is terminated other than for cause or good reason on or before May 7, 2012, then Mr. Strother will have the right to repurchase Music1 for \$1.00.

On January 31, 2011, Music1 entered into a loan agreement with Enerfund, LLC in the principal amount of \$128,890. The annual interest rate is 5% payable annually on December 31. The loan matures on the third anniversary of each funding under the loan agreement, which fundings occurred from October 2010 through January 2011, with accrued interest due at that time. This loan was repaid in full on February 24, 2011.

Effective as of March 29, 2011, we entered into the LegalGuru JV Agreement with one of our directors, Curtis Wolfe, in connection with the formation of LegalGuru LLC, a Florida limited liability company, in which we own a 70% interest and Curtis Wolfe owns a 30% interest. Pursuant to the LegalGuru JV Agreement, the parties agreed to invest up to an aggregate of \$1,000,000 in the joint venture. Mr. Wolfe agreed to invest up to an aggregate of \$200,000 as follows: \$25,000 per month for four months beginning in June 2011, and, after the LegalGuru Website is launched, \$100,000 paid over a one year period with timing and amounts of each contribution to be determined by Net Element. We are obligated to fund the balance of the operating and cash requirements of the joint venture up to an aggregate of \$800,000 also with timing and contribution amounts to be determined by Net Element. We agreed that Mr. Wolfe will be the Chairman of LegalGuru LLC agreed to pay him a salary of \$10,000 per month beginning in March 2011 (\$5,000 to be paid by Net Element for services provided to Net Element on a continuing basis and \$5,000 to be paid by LegalGuru LLC for services provided to LegalGuru LLC in the management of the design, development, and launch of the website, web services and ongoing business). Upon launch of the website and commencement of commercial operations (expected in the third quarter of 2011), we agreed to increase Mr. Wolfe's salary to \$20,000 per month (\$15,000 from LegalGuru LLC and \$5,000 from Net Element). Mr. Wolfe has the right, for 36 months from the date of the Guru Joint Venture Agreement, to convert his interest in LegalGuru LLC into 3,000,000 shares of our common stock.

On April 4, 2011, we entered into a public relations contract with Roar Media, LLC to provide press related services and assist with community outreach and strategic alliances. The term of this agreement is for six months and provides for monthly remuneration of \$14,000 and 5,000 shares of our common stock with an option by the Company to renew

for successive six-month periods. This agreement was modified to provide remuneration in July of \$7,000 and 5,000 shares. August and September have been revised to \$6,500 per month plus 5,000 shares per month.

On April 15, 2011, we entered into a two-year cross advertising transaction with Ferrari North America, Inc. whereby we contracted to pay \$50,000 per year in cash and provide \$200,000 per year in advertising value on our websites in exchange for a Platinum Sponsorship for the Ferrari Challenge over the next two race seasons. This arrangement provides us with marketing outreach and exposure to potential investors. The agreement stipulates that the Ferrari Challenge must advertise on any Net Element website within one year from date of execution. Accordingly, we will recognize \$200,000 in advertising revenue as Ferrari utilizes the advertisements. The total expense of the sponsorship (\$250,000) will be recognized as a charge to operations over the five month period (May to September 2011 and 2012) the Ferrari Challenge runs.

On May 16, 2011 we entered into a three-year, unsecured convertible promissory note and loan agreement with Enerfund, LLC in the principal amount of \$2,000,000. Net Element will use the amounts borrowed under the convertible promissory note and loan agreement for working capital and acquisitions. The annual interest rate is 5.0% and principal and interest is due on or before April 27, 2014. The loan may be pre-paid at any time without penalty. Outstanding principal may be converted by Enerfund at any time into shares of common stock of the Company at a conversion price of \$0.11 per share (which was the closing stock price on May 13, 2011, the last full trading day before the convertible promissory note and loan agreement was entered into).

On June 16, 2011, we entered into a Subscription Agreement pursuant to which we sold a 15% ownership interest in our subsidiary Yapik, LLC in exchange for a \$100,000 investment in Yapik, LLC, which was received on June 20, 2011. The investor has an option, which is exercisable for 36 months, to convert the 15% ownership interest in Yapik, LLC into 1,500,000 shares of common stock of the Company.

On August 9, 2011, we entered into a Stock Purchase Agreement pursuant to which we acquired 100% of the outstanding equity interests in Stratuscore, Inc., a State of Washington corporation, from Denise Muyco, who is the spouse of the Company's President and Chief Operating Officer, Richard Lappenbusch. The aggregate purchase price for the outstanding equity interests in Stratuscore initially consisted of 3 million shares of common stock of the Company, which shares were issued to Ms. Muyco and certain other members of the Stratuscore management team. In addition, Ms. Muyco and certain other members of the Stratuscore management team will have the right to receive up to an additional 7 million shares of common stock of the Company based on the performance of Stratuscore during the first three years following the closing date. The Company has also agreed to pay consulting fees of approximately \$45,000 to Ms. Muyco and certain other members of the Stratuscore management team due to delays in executing the definitive Stock Purchase Agreement. The Company and Ms. Muyco are required to establish a budget with a minimum amount to be invested by the Company in Stratuscore. If the Company fails to fund any part of the initial phase of the budget or otherwise materially breaches and is in default of its obligations under the Stock Purchase Agreement and the Company fails to cure such default within the period required by the Stock Purchase Agreement, then Ms. Muyco will have the right to repurchase from the Company all of the outstanding equity interests in Stratuscore for \$1.00 or she may reacquire from the Company 50% of the outstanding equity interests in Stratuscore for no consideration with the right to purchase the remaining equity interests in Stratuscore for \$0.06 per share or sell it back to the Company for \$0.06 per share.

As a result of our history of recurring losses and our accumulated deficit and stockholders' deficiency, the audit report of our independent registered public accounting firm as of December 31, 2010 contains a statement expressing substantial doubt as to our ability to continue as a going concern. Management recognizes that we must raise capital sufficient to fund business activities until such time as we can generate sufficient revenues and net cash flows in amounts necessary to enable us to continue contemplated operations, of which there can be no assurance. We have historically been dependent upon TGR Capital, LLC, Enerfund, LLC or Mike Zoi (as a result of his controlling interest in TGR and Enerfund) to fund our operations and we are exploring additional sources of financing in order to meet our financial requirements. As of the date this report was filed with the Commission, management expects that our cash flows from operations and additional borrowings available under the May 16, 2011 convertible promissory note and loan agreement with Enerfund described above will be sufficient to meet our financial requirements through most of the third fiscal quarter of 2011. Management currently believes that we will require an additional \$6,000,000 in financing to continue operations as currently conducted and to pay for anticipated capital expenditures over the next 12 months. Additional funds may be raised through debt financing and/or the issuance of equity securities, there being no assurance that any type of financing on terms satisfactory to us will be available or otherwise occur. Debt financing must be repaid regardless of whether we generate revenues or cash flows from operations and may be secured by substantially all of our assets. Any equity financing or debt financing that requires the issuance of equity securities or warrants to the lender would cause the percentage ownership by our current stockholders to be diluted, which dilution may be substantial. Also, any additional equity securities issued may have rights, preferences or privileges senior to those of existing stockholders. If such financings are not available when required or are not available on acceptable terms, we may be unable to implement our business plans or take advantage of business opportunities, any of which could have a material adverse effect on our business prospects, financial condition and results of operations and may ultimately require us to suspend or cease operations.

Off-balance sheet arrangements

At June 30, 2011, we did not have any off-balance sheet arrangements as defined in item 303(a)(4) of Regulation S-K.

Recently Issued Accounting Pronouncements

In December 2010, the FASB issued Accounting Standards Update (“ASU”) 2010-29, “Business Combinations (Topic 805), Disclosure of Supplementary Pro Forma Information for Business Combinations.” The objective of this ASU is to address diversity in practice about the presentation of pro forma revenue and earnings disclosure requirements for business combinations, and specifies that a public entity that presents comparative financial statements should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. This ASU is effective prospectively for business combinations on or after January 1, 2011. As this ASU is limited to supplemental disclosures, its adoption will not have an impact on our financial condition or results of operations.

In December 2010, the FASB issued ASU 2010-28, “Intangibles—Goodwill and Other (Topic 350) When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts.” The objective of this ASU is to address diversity in practice in the application of goodwill impairment testing by entities with reporting units with zero or negative carrying amounts, eliminating an entity’s ability to assert that a reporting unit is not required to perform Step 2 because the carrying amount of the reporting unit is zero or negative despite the existence of qualitative factors that indicate the goodwill is more likely than not impaired. This ASU is effective for interim periods after January 1, 2010. The adoption of this ASU may require us to report goodwill impairment charges sooner than under current practice.

Item 4. Controls and Procedures.

Our disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of the end of the period covered by this report, our management carried out an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer, of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act). Based on that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were not effective because there are a limited number of personnel employed and we cannot have an adequate segregation of duties, and due to material weaknesses in internal control over financial reporting as discussed in our Transition Report, as amended, on Form 10-KT/A for the period ended December 31, 2010. Accordingly, management cannot provide reasonable assurance of achieving the desired control objective. Management works to mitigate these risks by being personally involved in all substantive transactions and attempts to obtain verification of transactions and accounting policies and treatments involving our operations, including those overseas. We are in the process of reviewing and, where necessary, modifying controls and procedures throughout the Company, particularly in light of our recent acquisitions and joint ventures and the continued integration of these businesses. We have recently contracted to install new financial systems and that process is expected to be completed by September 30, 2011. We will continue to address deficiencies as resources permit.

During the quarter ended June 30, 2011, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

In addition, Ms. Muyco and certain other members of the Stratuscore management team will have the right to receive up to an additional 7 million shares of common stock of the Company based on the performance of Stratuscore during the first three years following the closing date.

We believe that the foregoing securities transactions were exempt from the registration requirements of Section 5 of the Securities Act of 1933, as amended, by virtue of Section 4(2) of the Securities Act which exempts transactions by an issuer not involving any public offering.
