**Santiago, Chile, December 20, 2017** – Sociedad Química y Minera de Chile S.A. (SQM or the “Company”) (NYSE: SQM; Santiago Stock Exchange: SQM-A, SQM-B), informs today that the Company and its subsidiary SQM Australia Pty (“SQM Australia”), have finalized the purchase of 50% of the assets of the Mount Holland Lithium Project in Australia (the “Project”). This purchase is from MH Gold Pty Ltd, Montague Resources Australia Pty Ltd y Kidman Resources Limited (“Kidman” and as a Group the “Sellers”), as the result of compliance of the conditions established in the purchase agreement (the “Agreement”) agreed by the Sellers and informed to the *Superintendencia de Valores y Seguros* (“SVS”) on September 11, 2017.

SQM Australia and the Sellers have also signed a joint venture agreement describing the development, construction and mining operations, concentration and refining plants for the production of lithium carbonate and lithium hydroxide. This joint venture agreement will also allow for the exploration and exploitation of Sellers’s lithium rights which are not included in the Agreement.

Under the Agreement, SQM Australia has committed to pay a price of US\$34,715,985, of which by today has paid US\$9.715.985, having a balance of US\$25 million subject to the compliance of the conditions established in the Agreement. SQM Australia is also obligated to make capital contributions to the Project for (i) US\$37,514,804 million on behalf of the Sellers, of which has already materialized US\$7,514,804, having the balance subject to the compliance of certain conditions, and (ii) US\$37.514.804 million on its behalf, of which has already contributed the amount of US\$7.514.804, having also the balance subject to the compliance of certain conditions.

### About SQM

SQM is an integrated producer and distributor of lithium, iodine, specialty plant nutrients, potassium-related fertilizers and industrial chemicals. Its products are based on the development of high quality natural resources that allow the Company to be a leader in costs, supported by a specialized international network with sales in over 110 countries.

SQM's business strategy is to be a mining operator that selectively integrates the production and sales of products to industries essential for human development, such as food, health and technology. The strategy is built on the following six principles:

- strengthen internal processes to ensure access to key resources required for the sustainability of the business;
- extend lean operations (M1) to the entire organization to strengthen our cost position, increase quality and ensure safety;
- invest in the development of a specialty fertilizer market, including product differentiation, sales channel management and price optimization;
- recover the iodine market share, seek consolidation and vertical integration opportunities; invest in the development of industrial nitrate applications;
- search and invest in lithium and potassium assets outside of Chile to leverage our operational capabilities, take advantage of the current lithium market appeal and ensure access to raw materials for our potassium nitrate production; and
- seek diversification opportunities in gold, copper and zinc projects in the region to leverage our mining operating capabilities and provide business continuity to our exploration program.

The business strategy's principles are based on the following four concepts:

- build an organization with strategic clarity, inspirational leaders, responsible personnel and strong values;
- develop a strategic planning process that responds to the needs of our customers and market trends, while ensuring coordination between all segments of the business, including sales and operations;
  - develop a robust risk control and mitigation process to actively manage business risk; and
- improve our stakeholder management to establish links with the community and communicate to Chile and worldwide our contribution to industries essential for human development.

### Cautionary Note Regarding Forward-Looking Statements

This news release contains “forward-looking statements” within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as: “anticipate,” “plan,” “believe,” “estimate,” “expect,” “strategy,” “should,” “will” and similar references to future periods. Examples of forward-looking statements include, among others, statements we make concerning the Company’s business outlook, future economic performance, anticipated profitability, revenues, expenses, or other financial items, anticipated cost synergies and product or service line growth.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are estimates that reflect the best judgment of SQM management based on currently available information. Because forward-looking statements relate to the future, they involve a number of risks, uncertainties and other factors that are outside of our control and could cause actual results to differ materially from those stated in such statements. Therefore, you should not rely on any of these forward-looking statements. Readers are referred to the documents filed by SQM with the United States Securities and Exchange Commission, specifically the most recent annual report on Form 20-F, which identifies important risk factors that could cause actual results to differ from those contained in the forward-looking statements. All forward-looking statements are based on information available to SQM on the date hereof and SQM assumes no obligation to update such statements, whether as a result of new information, future developments or otherwise.
