Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

**Item 2.05. Cost Associated with Exit or Disposal Activities.**

On January 19, 2006, Madison Gas and Electric Company (MGE) announced a plan that includes discontinuing coal use at the end of 2011 at its Blount Generating Station in Madison, Wisconsin. The plant is capable of burning coal and natural gas. The plant will continue to run on natural gas but will be reduced from its current 190-megawatt capacity to 100 megawatts when coal burning is discontinued. MGE anticipates full regulatory recovery of the costs associated with discontinuing coal at Blount. See Exhibit 99.1 attached to this Form 8-K for more information on this plan.

Certain of the statements contained in this Report are forward-looking statements within the meaning of the Private Securities Litigation ReForm Act of 1995. Words such as “believe,” “expect,” “anticipate,” and other similar words, generally identify forward-looking statements. Such forward-looking statements are subject to known and unknown risks and uncertainties that may cause actual results to differ materially from those projected, expressed or implied. Such risks and uncertainties include those matters discussed under “Forward-Looking Statements” in MGE Energy, Inc.’s and MGE’s quarterly filings on Form 10-Q and their annual filings on Form 10-K. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this Report. MGE Energy, Inc. and MGE undertake no obligation to publicly release any revision to these forward-looking statements to reflect events or circumstances after the date of this Report.
