#### CAMTEK LTD. ANNOUNCES RESULTS FOR THIRD QUARTER OF 2006

Revenues \$26.3 Million; Gross Profit \$14 million; Net Income \$4.2 million

#### Reaffirming 2006 Revenue Guidance

MIGDAL HAEMEK, Israel, November 9, 2006 - Camtek Ltd. (NASDAQ: CAMT; TASE: CAMT), today announced financial results for the third quarter ended September 30, 2006.

Revenues for the third quarter of 2006 were \$26.3 million, 48% above \$17.7 million in the third quarter of 2005, and sequentially 6% below the \$27.9 million reported in the second quarter of 2006.

Gross profit margin for the third quarter of 2006 was 53.2%, compared to 48.5% for the third quarter of 2005, and 54.6% for the second quarter of 2006.

The Company reported third quarter net income of \$4.2 million, or \$0.13 per diluted share, compared to a net income of \$1.5 million, or \$0.06 per diluted share, in the third quarter of last year, and \$5.2 million, or \$0.17 per diluted share, in the second quarter of 2006.

We are excited about our further progress toward achieving our revenue goal for this year, commented Rafi Amit, Camtek s CEO. This quarter s results reaffirm that we are well poised to achieve that ambitious target. Based on our current view of our markets, we expect revenues in the next quarter to come within 5% of the third quarter revenue level, bringing Camtek s expected annual growth to 65%-70% over 2005 revenues. Furthermore, we have supported the expansion of our organization without sacrificing our profitability.

Mr. Amit continued, Sales of Falcon, our wafer inspection systems for the semiconductor manufacturing and packaging industries, continued to be strong, with repeat orders from key customers and multiple orders from Asian facilities. We also added new strategic customers such as Samsung Electro Mechanics of Korea. We believe that the same factors that catapulted the Falcon sales in the past two years will continue to drive it ahead in the foreseeable future. To maintain and expand our competitive edge, we enhanced the Falcon s 3D capabilities, advancing our leadership position in the bumped wafer 3D metrology market. We also augmented the Falcon s compatibility with factory automation environment with the successful implementation of the SECS/GEM communication protocols, which opens the door to new customers.

In the PCB and HDI-S inspection arena, we are planning to launch several new products in the coming months. These new products approach new segments and maintain our technology leadership position. One new Pegasus model is currently undergoing customers—evaluations with promising results. We anticipate the contribution of these products to our revenues in the coming quarters,—concluded Mr. Amit.

**International:** +972 3 918 0694

For those unable to participate, the teleconference will be available for replay on Camtek s website at http://www.camtek.co.il/ beginning 24 hours after the call.

#### About Camtek Ltd.

With headquarters in Migdal Ha Emek Israel, Camtek Ltd., designs, develops, manufactures, and markets automatic optical inspection systems and related products. Camtek s automatic inspection systems are used to enhance both production processes and yield for manufacturers in the printed circuit board industry, the high density interconnect substrate industry and the semiconductor manufacturing and packaging industry. This press release is available at www.camtek.co.il.

This press release may contain projections or other forward-looking statements regarding future events or the future performance of the Company. These statements are only predictions and may change as time passes. We do not assume any obligation to update that information. Actual events or results may differ materially from those projected, including as a result of changing industry and market trends, reduced demand for our products, the timely development of our new products and their adoption by the market, increased competition in the industry, price reductions as well as due to risks identified in the documents filed by the Company with the Securities and Exchange Commission.
