Non-GAAP net income increased 340% to \$1.8 million over the first quarter of 2007

EBITDA increased 94% to \$3.8 million over the first quarter of 2007

Yes o No x

**Rosh HaAyin, Israel May 15<sup>th</sup>, 2008 Pointer Telocation Ltd.** (Nasdaq Capital Market: PNTR, Tel-Aviv Stock Exchange: PNTR) a leading provider of Automatic Vehicle Location (AVL) technology, stolen vehicle retrieval services, fleet management, car & driver safety, public safety, vehicle security, asset management and road side assistance, announced today its financial results for the first quarter of 2008.

The successful merger of Cellocator s business together with strong internal growth has resulted in an exceedingly good quarter. Following first indications in the fourth quarter of 2007, Q1 2008 presents the second consecutive quarter of improved profits. Pointer s technologies and services businesses continue to attract more companies worldwide and increase their business and financial strength.

#### Financial Highlights:

**Revenues:** Pointer s revenues for the first quarter of 2008 increased by 63%, to \$18.5 million from \$11.3 million, in the comparable period in 2007. International activities consist of 28% of total revenues compared with 10% in the comparable period in 2007. Revenues from products were \$7.6 million and consist of 41% of total revenues, as compared to \$2.9 million in the first quarter of 2007 which indicate growth of 158%. Revenues from services increased 30% to \$10.9 million and 59% of total revenue, compared to \$8.4 million and 74%, respectively, in the first quarter of 2007.

**Gross Profit**: For the first quarter of 2008, gross profit increased 76% to \$7.2 million from \$4.1 million in the first quarter of 2007. As a percentage of revenues, gross profit is approximately 39% in the first quarter of 2008, as compared to approximately 36% in the same period in 2007. Gross margin increased mainly as a result of increased portion of products contribution of total revenue.

**Operating Income**: Pointer reported a \$2.3 million operating income for the first quarter of 2008, compared to an operating income of \$0.95 million for the first quarter of 2007.

**Minority share:** For the first quarter of 2008, Pointer reported a \$561 thousand minority share, compared to \$434 thousands in the first quarter of 2007.

**Net Income**: Pointer recorded a net income of \$752 thousand, or \$0.16 per share during the first quarter of 2008, as compared to a net loss of \$180 thousand, or \$(0.06) per share in the first quarter of 2007. Improved bottom line is in line with internal growth and the successful merger of Cellocator business into Pointer Telocation, taking place from September 2007.

#### Non-GAAP net income:

Pointer s non-GAAP net income in the first quarter of 2008 was \$1.8 million, as compared to non-GAAP net income of \$0.4 million in the first quarter of 2007. The non-GAAP net income in the first quarter of 2008 excludes amortization of \$0.85 million and non-cash taxes on income of \$218 thousand.

#### EBITDA:

Pointer s EBITDA increased to \$3.8 million in the first quarter of 2008, as compared to \$2 million in the comparable period in 2007.

Danny Stern, Pointer CEO, said: We are proud to present the 1½ consecutive quarter of revenue growth and a second consecutive quarter of improved profits following our Cellocator acquisition. Our operating parameters continue to improve as a result of both internal growth and the successful merger of Cellocator's business. International revenue was responsible for 28% of revenue in Q1 2008 and was derived from exports and activities in over 25 countries. 41% of revenue was generated from our technology and products sales. In addition, all our subsidiaries presented improved operating results, which further provides evidence that internal growth is a major business driver. Pointer's technology, know-how and stronger market presence continue to draw an increased number of business partners from additional countries and from various sectors car dealers, fleet operators as well as insurance companies who are motivated by an increase in the demand for high-quality technology and services, concluded Mr. Stern.

Reconciliation between results on a GAAP and Non-GAAP basis is provided in a table immediately following the Condensed Interim Consolidated Statements of Cash Flows. Non-GAAP financial measures consist of GAAP financial measures adjusted to exclude amortization of acquired intangible assets and deferred income tax, as well as certain business combination accounting entries. The purpose of such adjustments is to give an indication of our performance exclusive of non-GAAP charges and other items that are considered by management to be outside of our core operating results. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures, and should be read in conjunction with our consolidated financial statements prepared in accordance with GAAP.

Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions. We believe that these non-GAAP measures help investors to understand our current and future operating cash flow

Yes o No x

and performance, especially as our three most recent acquisitions have resulted in amortization and non-cash items that have had a material impact on our GAAP profits. These non-GAAP financial measures may differ materially from the non-GAAP financial measures used by other companies. Reconciliation between results on a GAAP and non-GAAP basis is provided in a table immediately following the consolidated statements of operations.

Pointer uses EBITDA as a non-GAAP financial performance measurement. EBITDA is calculated by adding back to net income interest, taxes, depreciation, amortization and minority interest. EBITDA is provided to investors to complement results provided in accordance with GAAP, as management believes the measure helps illustrate underlying operating trends in the Company s business and uses the measure to establish internal budgets and goals, manage the business and evaluate performance. EBITDA should not be considered in isolation or as a substitute for comparable measures calculated and presented in accordance with GAAP. A reconciliation of EBITDA to GAAP measures is included in the financial tables accompanying this press release.

#### **Conference Call Information:**

Pointer Telocation s management will host a conference call with the investment community to review and discuss the financial results:

Conference call will take place on 9:30 AM EST, 16:30 Israel time.

To listen to the call, please dial in to one of the following teleconferencing numbers. Please begin placing your call at least 5 minutes before the conference call commences.

From USA: +1-800-994-4498 From Israel: 03-918-0688

A replay of the conference call will be available through May 16th, 2008 on the Company s website at www.pointer.com.

#### About Pointer Telocation:

Pointer Telocation is a leading provider of technology and services to the automotive and insurance industries, offering a set of services including Road Side Assistance, Stolen Vehicle Recovery and Fleet Management. Pointer has a growing client list with products installed in over 400,000 vehicles across the globe: the UK, Greece, Mexico, Argentina, Russia, Croatia, Germany, Czech Republic, Latvia, Turkey, Hong Kong, Singapore, India, Costa Rica, Norway, Venezuela, Hungary, Israel and more. Cellocator, a Pointer Products Division, is a leading AVL (Automatic Vehicle Location) solutions provider for stolen vehicle retrieval, fleet management, car & driver safety, public safety, vehicle security and more. In 2004, Cellocator was selected as the official security and location equipment supplier for the Olympic Games in Athens. For more information: www.pointer.com

#### **Safe Harbor Statement**

This press release contains forward-looking statements with respect to the business, financial condition and results of operations of Pointer and its affiliates. These forward-looking statements are based on the current expectations of the management of Pointer, only, and are subject to risk and uncertainties relating to changes in technology and market requirements, the company s concentration on one industry in limited territories, decline in demand for the company s products and those of its affiliates, inability to timely develop and introduce new technologies, products and applications, and loss of market share and pressure on pricing resulting from competition, which could cause the actual results or performance of the company to differ materially from those contemplated in such forward-looking statements. Pointer undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. For a more detailed description of the risks and uncertainties affecting the company, reference is made to the company s reports filed from time to time with the Securities and Exchange Commission.

### Reconciliation of GAAP to NON-GAAP Operating Results

To supplement the consolidated financial statements presented in accordance with generally accepted accounting principles (GAAP), the Company uses EBITDA as a non-GAAP financial performance measurement. EBITDA is calculated by adding back to net income interest, taxes, depreciation, amortization and minority interest. EBITDA is provided to investors to complement results provided in accordance with GAAP, as management believes the measure helps illustrate underlying operating trends in the Company s business and uses the measure to establish internal budgets and goals, manage the business and evaluate performance. EBITDA should not be considered in isolation or as a substitute for comparable measures calculated and presented in accordance with GAAP. Reconciliation the GAAP to non-GAAP operating results:
