Edgar Filing: PRUDENTIAL PLC - Form 6-K

- Total external Group investment funds under management of GBP30.8 billion, up 21 per cent in the year.
- PCA insurance sales on an APE basis were up 16 per cent (up 8 per cent at AER).
- Jackson National Life's (JNL) total sales of GBP4.1 billion were 23 per cent down on 2002 at CER (down 29 per cent at AER); variable annuity sales were up 55 per cent at CER (up 42 per cent at AER).
- UK insurance sales on an APE basis were down 19 per cent. Fourth quarter sales of GBP148 million were up 10 per cent on the third quarter of 2003 reflecting strong with-profit bond and corporate pension sales.
- M&G total retail and external institutional funds under management of GBP24.2 billion, up 19 per cent in the year.

Prudential's Group Chief Executive, Jonathan Bloomer, commented: "In the UK, we expect to benefit from savers choosing those companies with clear financial strength. However, while consumer confidence is returning, we remain relatively cautious for the UK in the first half of 2004 due to the uncertainty surrounding the continuing government and regulatory reviews.

"We have seen strong growth in a number of our Asian markets despite the impact of SARS earlier in 2003. In the US, we increased our market share and recorded one of our best years in retail sales. We are optimistic about the growth potential of our Asian and US businesses in 2004.

"Prudential's international diversification and broad range of products and distribution channels mean it is well placed for future growth."

* The narrative below is on constant exchange rates throughout. See Notes to Editors for further details.

Prudential Corporation Asia

PCA's new business sales on an APE basis for 2003 were GBP555 million, up 16 per cent on the same period last year. This was a strong result given the economic conditions in the first half of the year. APE sales in the fourth quarter 2003 were GBP164 million, up 17 per cent on the third quarter 2003. In the established markets of Hong Kong, Malaysia and Singapore, APE sales were up 24 per cent on the third quarter.

In Singapore, PCA continues to focus on more profitable regular premium life business with sales of GBP57 million for 2003 up 32 per cent compared with last year. PCA's Indonesian operation is starting to make a significant contribution, reflecting its market-leading position in unit-linked products combined with an increase in agent productivity; sales on an APE basis for 2003 were GBP34 million and 75 per cent higher than 2002. PCA's joint venture operation with ICICI in India generated impressive sales growth of 195 per cent, resulting in a GBP16 million share of APE sales for the full year.

PCA Life Japan began the implementation of its strategy to focus exclusively on its financial adviser and bancassurance distribution channels (as announced on 1 September 2003), and consequently experienced a temporary slow down in new business sales in the fourth quarter. PCA Life Korea has developed extremely well in its second year of operation driven by strong sales through its agency and bank distribution channels, and recorded APE sales for 2003 of GBP32 million, up 239 per cent over 2002.

Total investment products funds under management in Asia as at 31 December 2003

Edgar Filing: PRUDENTIAL PLC - Form 6-K

were GBP6.6 billion, up 37 per cent during the year with net inflows of GBP1.5 billion.

Jackson National Life

Total sales for the year were down 23 per cent on 2002 to GBP4.1 billion, due to lower retail sales together with a reduction in sales of institutional products. In 2003, 93 per cent of sales came from products launched since the beginning of 2002.

In 2003, JNL's retail sales of GBP3.6 billion represented its second best year, only 10 per cent lower than the record sales delivered in 2002.

JNL delivered record variable annuity sales during 2003. Total sales of GBP1.9 billion were up 55 per cent on last year. During 2003, 48 per cent of variable annuity sales went into the fixed option compared with 58 per cent in 2002. JNL has improved its market position in variable annuity sales, ranking 14th for the first nine months of 2003, up from 20th for the same period of 2002 (source: The VARDS Report).

Due to the continued low interest rate environment in the US and the high rate of election of the fixed account option within variable annuities, fixed annuity sales in 2003 of GBP1.4 billion were 45 per cent below the prior year. Sales of equity-linked indexed annuities of GBP255 million were up 9 per cent on the prior year. Sales of fixed and equity-linked indexed annuities combined, contracted across the industry during the first nine months of 2003. However, JNL improved its market position in total individual fixed annuity sales for the first nine months of 2003 to fifth from seventh for the same period of 2002 (source: LIMRA International).

Regular premium life sales of GBP13 million compared with sales of GBP21 million in 2002.

The 63 per cent reduction in sales of institutional products reflects JNL's focus on retail markets, and comments made throughout the year that JNL did not expect to sell significant amounts of institutional products in 2003.

Curian Capital LLC, JNL's recently launched registered investment advisor channel, continued to build on its strong start. At the year-end, funds under management had grown to GBP148 million (US\$266 million), more than five times the funds under management at the half-year.

UK and Europe Insurance Operations

Prudential UK and Europe's APE sales for 2003 were GBP616 million, 21 per cent down on 2002. However, APE sales in the fourth quarter of GBP152 million were 12 per cent up on the third quarter reflecting strong bulk annuity sales and the highest quarter for with-profit bond sales in 2003.

APE sales of corporate pensions through the business to business channel were GBP176 million, 18 per cent higher than in 2002, reflecting a strong contribution from new schemes. This was a result of Prudential UK's success in worksite marketing, which it believes has an important role to play in helping to encourage long-term savings. According to the latest available ABI figures, Prudential UK had a 16 per cent market share of the defined contribution occupational pension scheme market in the first nine months of 2003 compared with 14 per cent for the same period in 2002.

Individual annuity APE sales for 2003 of GBP176 million were comparable with 2002 and Prudential UK believes it maintained its market leading position in this market during the first nine months of the year.

Edgar Filing: PRUDENTIAL PLC - Form 6-K

Intermediated sales of Prubond were 32 per cent higher in the fourth quarter of 2003 than the third. This reflected a return to confidence in this market for strong providers such as Prudential, along with the positive impact of new product developments such as the Prospect Bond. This innovative product, launched in September 2003, accounted for 17 per cent of with-profit bond sales in the fourth quarter. In the third quarter of 2003, Prudential UK had a 42 per cent market share of with-profit bond sales distributed through IFAs (source: ABI), which it believes will have grown in the fourth quarter.

Partnership agreements with Abbey to sell with-profit bonds, and with Zurich to underwrite annuities, resulted in single premium sales in 2003 of GBP98 million compared with GBP11 million in 2002.

M&G

M&G recorded gross fund inflows of GBP3.8 billion in 2003, a slight increase on the previous year, reflecting the strength of M&G's diversified product offering in the areas of retail fund management, institutional fixed income, pooled life and pension funds, property and private finance. External funds under management, which represent approximately one quarter of M&G's total funds under management, increased significantly during the year, rising 19 per cent to GBP24.2 billion.

Gross fund inflows into M&G's retail products were GBP1.2 billion in 2003, a 6 per cent fall on 2002. Net fund inflows for 2003 were GBP184 million.

M&G's institutional business saw gross fund inflows of GBP2.6 billion in 2003, a 6 per cent increase on last year. Net institutional fund inflows in the year were GBP1.2 billion.

Egg

Egg will announce its full year results on 23 February 2004. Prudential announced on 14 January that it is in discussions regarding a possible transaction with respect to its approximately 79 per cent shareholding in Egg. These discussions are continuing.

4. Annual premium equivalent (APE) sales comprise regular premium sales plus one-tenth of single premium insurance sales.

6. US institutional products (previously referred to as "stable value products") consist of guaranteed investment contracts (GICs), funding agreements and medium-term notes backed by funding agreements.

7. By restating 2002 operating profit before amortisation to reflect 2003 exchange rates, the 2002 profit, on the achieved basis of GBP1,133 million would be GBP1,085 million and the modified statutory basis profit of GBP432m would be

GBP417 million.
