* Total gross revenue is defined as total room revenue (i.e. excluding food and beverage) from franchised hotels and total hotel revenue from managed, owned and leased hotels. It is not revenue attributable to IHG, as it is derived mainly from hotels owned by third parties. The metric is highlighted as an indicator of the scale and reach of IHG's brands.

All figures and movements unless otherwise noted are at actual exchange rates and before other operating income and expenses. Constant exchange rate comparatives shown in appendix 4.

See appendix 3 for analysis of financial headlines.

Commenting on the results and trading, Andrew Cosslett, Chief Executive of InterContinental Hotels Group PLC said:

Results for the quarter were strong, helped by buoyant market conditions around the world and the impact of actions taken during the second half of 2005. These changes included strengthened and refocused development teams, new operating structures and revisions to our marketing approach in key locations. The disposal programme is on track, we remain focused on enhancing the quality of our estate and our pipeline of new hotel signings, the largest in the industry, continues to grow. The outlook for the rest of the year remains positive.

Americas: strong performance across all brands

Revenue performance

RevPAR increased 13.0% with rate generating most of the increase, up 8.4%. InterContinental, Holiday Inn and Candlewood each outperformed their market segments, with RevPAR up 14.5%, 12.5% and 13.0% respectively. Holiday Inn Express, Crowne Plaza and Staybridge Suites also showed continued good RevPAR growth, with 13.8%, 11.9% and 8.6% increases respectively.

Operating profit performance

Operating profit from continuing operations increased 25% from \$69m to \$86m. Continuing owned and leased profit improved from \$2m to \$4m, driven by increased rates at InterContinental New York and InterContinental Buckhead, Atlanta, but impacted by pre opening costs at InterContinental Boston. Managed profit was up 38% to \$11m, benefiting from retained management contracts on assets disposed. Franchised profit increased 13% to \$85m. Including discontinued operations, total operating profit increased from \$84m to \$87m.

EMEA: RevPAR growth accelerating

Revenue performance

RevPAR increased 8.7%, with all major countries performing well. The Middle East had another outstanding quarter, growing RevPAR by 27.9%. Germany achieved a 3.2% RevPAR gain in the quarter. France delivered a RevPAR increase of 2.3%, benefiting from continued improvement at InterContinental Paris Le Grand. In the UK, the Holiday Inn estate grew RevPAR by 3.0%.

Operating profit performance

Operating profit from continuing operations increased 200% from £1m to £3m. Continuing owned and leased operations generated a loss of £5m, with the improved performance at InterContinental Le Grand Paris, where occupancy increased from 52% to 70%, outweighed by the impact of the closure of InterContinental London for refurbishment. The InterContinental London is now expected to reopen towards the end of 2006. Managed profit was up 33% from £6m to £8m, primarily as a result of retained management contracts on assets disposed. Franchised

profit increased 25% from £4m to £5m. Including discontinued operations, total operating profit reduced from £26m to £6m.

Asia Pacific: strong growth

Revenue performance

RevPAR increased 8.8%, mainly driven by rate. Occupancy increased from 70.4% to 72.3%. Crowne Plaza RevPAR increased 11.1%, and Holiday Inn RevPAR 10.4%. Greater China RevPAR increased 8.5%, driven by rate increases as strong demand for IHG's brands continues.

Operating profit performance

Operating profit from continuing operations increased 18% from \$11m to \$13m. Owned and leased operating profit increased 33% from \$6m to \$8m as a result of excellent trading at InterContinental Hong Kong, driven by a nearly 20% rate increase. Managed hotels profit was steady at \$8m, after accounting for the cost of increased infrastructure in China.

Overheads

As previously disclosed, IHG expects that in 2006 regional and central overheads will increase ahead of inflation at constant exchange rates. In the quarter, aggregated regional overheads were up £1m at £16m after continued infrastructure investment in China. Central overheads increased by £3m to £17m. This included the cost of the first phase of new global research aimed at gaining a deeper insight into customers' brand perceptions across the lodging sector, and further developing IHG's franchise capability around the world. These projects have been planned for 2006 to inform and direct management decision making and support performance in 2007 and beyond.

Increase in development pipeline size

IHG continues to increase its pipeline, in pursuit of the target of 50,000-60,000 net organic room additions by the end of 2008.

18,131 rooms were signed; 9,975 in the Americas, 1,101 in EMEA and 7,055 in Asia Pacific.

116,964 rooms are now in the pipeline, up 8,452 since the start of the year.

IHG's development activity in China continues to be successful. 11 hotels, 6,470 rooms, were signed in the first quarter, including two InterContinental and the world's largest Holiday Inn Express.

IHG maintains its focus on enhancing the quality of its portfolio, in tandem with growth.

Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

8,343 rooms opened; 7,140 in the Americas and 1,203 in EMEA.

8,332 rooms exited; 5,922 in the Americas, 2,076 in EMEA and 334 in Asia Pacific. The majority were at IHG's instigation.

The room count at the end of the period remained steady at 537,544. 2,508 net InterContinental and Crowne Plaza rooms were added, enhancing the mix of IHG's hotel portfolio and the distribution of IHG's upscale brands.

Disposals and returns of funds

The disposal of 24 hotels in Continental Europe was announced during the first quarter, with a 15 year franchise agreement, for which proceeds of approximately £240m have been received. Seven InterContinental branded hotels in Continental Europe were put on the market in the quarter. The sale of IHG's shares in FelCor Lodging Trust Incorporated (Felcor) was also completed for a total of \$191m, generating a gain of £25m, following the renegotiation of IHG's hotel management agreement with Felcor.

IHG's returns of funds to shareholders continued in the quarter, with the second £250m share buyback now completed, the third £250m share buyback underway, and £500m proposed to be returned to shareholders on 22 June 2006 via a special dividend. Upon completion of the third share buyback and the £500m special dividend, IHG will have returned £2.75bn to its shareholders since Separation from Six Continents in April 2003.

INDEPENDENT REVIEW REPORT TO INTERCONTINENTAL HOTELS GROUP PLC

Introduction

We have been instructed by the company to review the financial information for the three months ended 31 March 2006 which comprises the Group Income Statement, Group Statement of Recognised Income and Expense, Group Cash Flow Statement, Group Balance Sheet and the related notes 1 to 16. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the company in accordance with guidance contained in Bulletin 1999/4 Review of interim financial information issued by the Auditing Practices Board. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company, for our work, for this report, or for the conclusions we have formed.

Directors responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4 Review of interim financial information issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of group management and applying analytical procedures to the financial information and underlying financial data, and based thereon, assessing whether the accounting policies and presentation have been consistently applied, unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with International Standards on Auditing (UK and Ireland) and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the three months ended 31 March 2006.
