Item 1.01 Entry into a Material Definitive Agreement.

On February 19, 2008, CEP Mid-Continent LLC, a wholly-owned subsidiary of Constellation Energy Partners LLC (the Company), entered into a definitive purchase agreement (the Purchase Agreement) with CoLa Resources LLC (CoLa) to acquire all of CoLa's interests in 83 non-operated producing wells located in the Woodford Shale in the Arkoma Basin, Oklahoma with an average net revenue interest per well of 9.16% for an aggregate purchase price of approximately \$53.4 million, subject to purchase price adjustments (the Acquisition). The Company will obtain 13.1 Bcfe of proved reserves developed producing with an estimated daily net production of 5.7 MMcfe. CoLa is an affiliate of Constellation Energy Group, Inc. (CEG), the Company's sponsor. Under the Purchase Agreement, the Company will have the right to assert, and CoLa will have the right to attempt to cure, certain title defects post-closing. CoLa's post-closing payment obligations with respect to title defects and indemnities will be secured, in part, by a guaranty from Constellation Energy Commodities Group, Inc., a wholly-owned subsidiary of CEG (CCG) to be delivered at closing. The maximum amount of the CCG guaranty is limited to (i) 20% of the purchase price, with respect to indemnity obligations, and (ii) with respect to title defect obligations, the amount of certain potential title defects, such amount to be calculated as provided in the Purchase Agreement. The amount of CCG's guaranty with respect to title defect obligations will decrease after closing as title curative is received or CoLa receives proceeds of production from wellbores as to which payments of production proceeds had not commenced as of the closing date and which are attributable to periods prior to the effective time of the Purchase Agreement.

The Company's obligation to close the Acquisition is conditioned upon the receipt of financing under its existing reserve based debt facility. Currently, the Company is in the process of expanding its reserve based debt facility in order to, among other things, consummate the Acquisition. The Company has entered into several derivative transactions to hedge future production from the wells. These hedges are guaranteed by CEG until the closing of the Acquisition and the assets purchased secure the Company's reserve based debt facility. There can be no assurance that all of the conditions to closing the Acquisition will be satisfied. The Company expects the Acquisition to close in March 2008, subject to customary closing conditions.
