ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on beliefs and assumptions made by, and information currently available to, management. When used, the words anticipate, believe, estimate, expect, intend, may, might, plan, project, result, should, will and similar expressions which do not relate solely to historical matters to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected by the forward-looking statements. We caution you that while forward-looking statements reflect our good-faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. Accordingly, investors should use caution in relying on forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Our sole source of income is from interest on notes receivables from two affiliated entities. The ability of these entities to make payments on these note obligations is imperative for our continued operations. The outstanding principal balance on these notes is not being paid down, thus, the income from these notes are consistent and comparable to prior periods. The principal balance on the notes receivable was \$2,407,540 as of September 30, 2008.

Results of Operations

The following discussion is based on our Financial Statements as presented in Part 1, Item 1 of this report for the three and nine months ended September 30, 2008 and 2007.

Table of Contents

Comparison of the three months ended September 30, 2008 to the same period ended 2007.

Interest expense was approximately \$25,000 for the three month period ended September 30, 2008. In January of 2008, the parties to the affiliated payables balances demanded that interest at the rate of Prime plus 1% to be paid on the outstanding amounts. No interest expense has been paid or recorded prior to this event.

Income tax expense decreased by approximately \$14,200 for the three month period ended September 30, 2008 as compared to the same period ended 2007. The decrease is due to the interest expense that is now being incurred on our outstanding affiliated payables, which has significantly reduced our net income as compared to prior period. In an attempt to approximate the actual expense as reported to the IRS, (which is currently between 15% and 34% percent), we are using the graduated tax rate as published by the IRS to estimate our liability. In the prior period, we used a flat rate of 34% to estimate this liability.

Comparison of the nine months September 30, 2008 to the same period ended 2007.

Legal and professional fees decreased by approximately \$4,100. The decrease is due a decrease in auditing fees of \$1,700, a \$1,600 decrease in legal fees, and a decrease in tax return preparation fees of \$800.

Interest expense was approximately \$80,400 for the nine months ended September 30, 2008. In January of 2008, the parties to the affiliated payables balances demanded that interest at the rate of Prime plus 1% to be paid on the outstanding amounts. No interest expense has been paid or recorded prior to this event.

Income tax expense decreased by approximately \$39,800 for the nine month period ended September 30, 2008 as compared to the same period ended 2007. The decrease is due to the interest expense that is now being incurred on our outstanding affiliate payables, which has reduced our net income. In addition, in an attempt to more closely approximate the actual expense as reported to the IRS, we are using the graduated tax rate as published by the IRS (which is currently between 15% and 34% percent) to estimate our liability, in the prior period we used a flat rate of 34% to estimate this liability.

Liquidity and Capital Resources

General

Our principal liquidity needs for the next twelve months are funding of normal recurring expenses; including interest expense, leases, legal and accounting fees, and federal income tax payments.

Our principal source of cash is proceeds from interest income on our notes receivables.

As of September 30, 2008 and December 31, 2007, we had total assets of approximately \$2,481,000 and \$2,480,000 respectively. Of that amount, approximately \$73,700 and \$72,700 was held in cash as of September 30, 2008 and December 31, 2007, respectively. We anticipate that the cash provided by our operating activities will be sufficient to meet our cash needs.

Our significant assets consist of two notes receivable of approximately \$1,823,000 and \$585,000 from affiliated parties totaling approximately \$2,408,000.

Cash Flow Summary

The following summary discussion of our cash flows is based on the statements of cash flows as presented in Item 1 and is not meant to be an all-inclusive discussion of the changes in our cash flow.

Our cash flows provided by operating activities was approximately \$1,000 for the nine months ended September 2008. We used the majority of our cash to pay interest expense of approximately \$80,000, and federal income taxes of approximately \$55,000. In addition, we paid down \$26,100 of our liabilities, and approximately \$18,000 of our expenses in cash. In the prior period, the majority of our cash \$116,000 was used to pay down our liabilities.

We anticipate that our cash flows from operating activities will be sufficient to provide for our current cash flow needs.
