Item 2.02 Results of Operations and Financial Condition

On August 12, 2009, KAR Holdings, Inc. issued a press release announcing its financial results for the three and six months ended June 30, 2009. KAR Holdings, Inc. will host an earnings conference call, Thursday, August 13th, at 11:00 a.m., Eastern Daylight Time. The conference call may be accessed by calling 1-877-627-6585 and entering participant passcode 3432412. The call will be hosted by KAR Holdings, Inc. Chairman and Chief Executive Officer, Brian Clingen and Executive Vice President and Chief Financial Officer, Eric Loughmiller. The call will feature a review of operating highlights and financial results for the three and six months ended June 30, 2009. The press release dated August 12, 2009 is attached to this Current Report on Form 8-K as Exhibit 99.1 and incorporated herein by reference in its entirety.

Within the Company's second quarter 2009 press release and related attachments thereto, the Company makes reference to certain non-GAAP financial measures. The non-GAAP financial measures include EBITDA and Adjusted EBITDA. The Company has presented reconciling information along with the most directly comparable financial measure calculated and presented in accordance with Generally Accepted Accounting Principles in the United States (GAAP) for each of the above non-GAAP financial measures in the press release. In addition, the Company's reasons for presenting these non-GAAP financial measures are discussed below.

The Company believes that these measures represent important internal measures of performance. Accordingly, where these non-GAAP measures are provided, it is done so that investors have the same financial data that management uses with the belief that it will assist the investment community in properly assessing the underlying performance of the Company on a year-over-year and quarter-sequential basis. Investors should consider these non-GAAP measures in addition to, not as a substitute for or superior to, measures of financial performance prepared in accordance with GAAP. The specific reasons, in addition to the reasons described above, why the Company's management believes that the presentation of the non-GAAP financial measures provides useful information to investors regarding the Company's results of operations are as follows:

EBITDA and Adjusted EBITDA The Company's management believes that EBITDA is a useful supplement and meaningful indicator of earnings performance to be used by its investors, financial analysts and others to analyze the Company's financial performance and results of operations over time. Management believes that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA is appropriate to provide additional information to investors about one of the principal internal measures of performance used by the Company. Management uses the Adjusted EBITDA measure to evaluate the performance of the Company and to evaluate results relative to incentive compensation targets. The most directly comparable financial performance measure calculated and presented in accordance with GAAP is net income (loss). A reconciliation of net income to EBITDA and Adjusted EBITDA for the three and six months ended June 30, 2009 and 2008 is contained in the attachments to the press release.
