(1) A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

(2) The Issue Spread contains information showing the basis point difference between the yield on the Debentures and the yield on the specified Government of Canada benchmark bond of a similar maturity to the Debentures. The Issue Spread is the customary method for benchmarking yields on Canadian investment grade debt instruments issued in Canada. Information relating to the specified Government of Canada benchmark bond under Issue Spread was obtained from public sources and has not been verified by the Company, the Guarantor, the Joint Bookrunners or the Co-managers. If the information relating to the specified Government of Canada benchmark bond under Issue Spread contains a misrepresentation, investors do not have a remedy under securities legislation in any province of Canada. Investors are cautioned to not put undue reliance on the information included under Issue Spread in making an investment decision.

There is no market through which the Debentures may be sold and purchasers may not be able to resell Debentures purchased pursuant to the Prospectus. This may affect the pricing of the Debentures in the secondary market, the transparency and availability of trading prices, the liquidity of the Debentures, and the extent of issuer regulation. See Risk Factors under the Prospectus.
