Our Annual Report to Stockholders for the fiscal year ended December 31, 2012 is being mailed to stockholders with the mailing of these proxy materials on or about October 3, 2013.

Important Notice Regarding the Availability of Proxy Materials

For the Stockholder Meeting to Be Held on October 31, 2013

The annual report and proxy statement will also be available on the Internet at

www.proxydocs.com/crtx

A copy of our Annual Report on Form 10-K for the fiscal year ended December 31, 2012 as filed with the Securities and Exchange Commission, or SEC, except for exhibits, will be furnished without charge to any stockholder upon written or oral request to Cornerstone Therapeutics Inc., Attention of Investor Relations, 1255 Crescent Green Drive, Suite 250, Cary, North Carolina 27518; telephone: (888) 466-6505.

Voting Securities and Votes Required

Stockholders of record on September 12, 2013 will be entitled to notice of and to vote at the annual meeting. On that date, 26,840,805 shares of our common stock were issued, outstanding and entitled to vote. Each share of common stock entitles the holder to one vote with respect to all matters submitted to stockholders at the meeting. We have no other securities entitled to vote at the meeting.

Edgar Filing: CORNERSTONE THERAPEUTICS INC - Form DEF 14A

The representation in person or by proxy of at least a majority of the shares of common stock issued, outstanding and entitled to vote at the annual meeting is necessary to establish a quorum for the transaction of business. If a quorum is not present, the meeting will be adjourned until a quorum is obtained.

Directors are elected by a plurality of votes cast by stockholders entitled to vote at the meeting. The ratification of Ernst & Young LLP as our independent registered public accounting firm requires the affirmative vote of the majority of shares present in person or represented by proxy and voting on such matter at the annual meeting. The votes will be counted, tabulated and certified by a representative of Broadridge Corporate Issuer Solutions. A representative of Cornerstone Therapeutics will serve as our Inspector of Elections at the annual meeting.

Shares which abstain from voting as to a particular matter, and shares held in street name by banks, brokers or other nominees who indicate on their proxy cards that they do not have discretionary authority to vote

Table of Contents

such shares as to a particular matter, which we refer to as broker non-votes, will be counted for the purpose of determining whether a quorum exists but will not have any effect upon the outcome of voting with respect to any matters voted on at the annual meeting.

Stockholders may vote in person or by proxy. Voting by proxy will not in any way affect a stockholder's right to attend the meeting and vote in person. Any stockholder voting by proxy has the right to revoke the proxy at any time before the polls close at the annual meeting by attending the meeting and voting in person, delivering written notice of revocation of your proxy to our Secretary at any time before voting is closed, timely submitting another signed proxy card bearing a later date or timely submitting new voting instructions over the Internet as described below. The shares represented by all properly executed proxies received in time for the meeting or voted by proxy over the Internet will be voted as specified. If the shares you own are held in your name and you do not specify in the proxy card how your shares are to be voted, they will be voted in favor of the election as directors of those persons named as nominees in this proxy statement and in favor of the ratification of Ernst & Young LLP as our independent registered public accounting firm. If any other matters properly come before the meeting, the persons named in the accompanying proxy will vote the shares represented by such proxy on such matters as determined by a majority of our Board of Directors. If the shares you own are held in street name, the bank, broker or other nominee, as the record holder of your shares, is required to vote your shares in accordance with your instructions. In order to vote your shares held in street name, you will need to follow the directions your bank, broker or other nominee provides you.

If your shares are registered directly in your name, you may vote:

Over the Internet. Go to the web site of our tabulator, Broadridge Corporate Issuer Solutions, at www.proxyvote.com and follow the instructions you will find there. You must specify how you want your shares voted or your Internet vote cannot be completed and you will receive an error message. Your shares will be voted according to your instructions.

By Mail. Complete, date and sign the enclosed proxy card and mail it in the enclosed postage-paid envelope to Broadridge Corporate Issuer Solutions. Your proxy will be voted according to your instructions. If you do not specify how you want your shares voted, they will be voted as recommended by our Board of Directors.

In Person at the Meeting. If you attend the meeting, you may deliver your completed proxy card in person or you may vote by completing a ballot, which will be available at the meeting.

If your shares are held in street name for your account by a bank, broker or other nominee, you may vote:

Over the Internet. You will receive instructions from your broker or other nominee if you are permitted to vote over the Internet.

By Mail. You will receive instructions from your broker or other nominee explaining how to vote your shares.

In Person at the Meeting. Contact the broker or other nominee that holds your shares to obtain a broker's proxy card and bring it with you to the meeting. **A broker's proxy is not the form of proxy enclosed with this proxy statement. You will not be able to vote shares you hold in street name at the meeting unless you have a proxy from your broker issued in your name giving you the right to vote the shares.**

Householding of Annual Meeting Materials

Some banks, brokers and other nominee record holders may be participating in the practice of householding proxy statements and annual reports. This means that only one copy of our proxy statement and Annual Report to Stockholders may have been sent to multiple stockholders in your household. We will promptly deliver a separate copy of either document to you upon written or oral request to Cornerstone Therapeutics Inc., Attention of Investor Relations, 1255 Crescent Green Drive, Suite 250, Cary, North Carolina 27518; telephone: (888) 466-6505. TRANSACTIONS WITH CHIESI

Chiesi Investment

On May 6, 2009, we and certain of our stockholders entered into a series of transactions and agreements with Chiesi Farmaceutici S.p.A, or Chiesi, which we refer to as the Chiesi Investment. These agreements included (i) a stock purchase agreement between us and Chiesi, pursuant to which we issued Chiesi shares of our common stock; (ii) a separate stock purchase agreement among Chiesi, Cornerstone Biopharma Holdings, Ltd., an entity controlled by Craig A. Collard, our Chief Executive Officer, and certain of our other stockholders, pursuant to which Chiesi acquired shares of our common stock from certain of our stockholders, including Cornerstone Biopharma Holdings, Ltd.; (iii) a governance agreement, which expired on July 28, 2011, among us, Chiesi and, with respect to certain sections, certain of our stockholders, which we refer to as the Governance Agreement, pursuant to which we granted Chiesi certain governance rights; (iv) a license and distribution agreement between us and Chiesi for CUROSURF®, which we refer to as the U.S. CUROSURF Agreement; and (v) a stockholders agreement, as subsequently amended, among Chiesi and certain of our stockholders, including Mr. Collard, which among other things, requires Mr. Collard to vote in favor of a transaction whereby Chiesi or its affiliates would acquire all of our outstanding common stock.

Although the Governance Agreement has expired, our certificate of incorporation still provides that, so long as Chiesi beneficially owns (together with its affiliates) not less than 40% of our outstanding common stock on a fully diluted basis (as defined in our certificate of incorporation) we must seek approval from Chiesi to, among other things:

consummate an acquisition of any business or assets for a price in excess of \$25,000,000;

sell, lease, transfer or otherwise dispose of a business or assets for a price in excess of \$25,000,000 (other than a sale in the ordinary course of business);

issue any equity security or other capital stock other than pursuant to employee incentive plans or upon the exercise of any option, warrant, or similar right; and

repurchase or redeem any equity security other than redemptions required by the terms thereof, purchases made at fair market value in connection with any deferred compensation plan and repurchases of unvested or restricted stock issued pursuant to any employee, officer, director or consultant compensation plan.

Chiesi Merger

On February 18, 2013, our Board of Directors received a proposal from Chiesi to acquire the shares of our common stock that it does not already own for a cash purchase price of between \$6.40 and \$6.70 per share, which we refer to as the Chiesi Proposal. Our Board of Directors has formed a Special Committee, or the Special Committee, comprised of five independent directors to review and evaluate Chiesi's proposal, take any actions with respect thereto, and review and negotiate any potential transaction resulting from such proposal. The members of the Special Committee are Mr. Codeanne, Mr. Enright, Mr. Harper, Mr. Heffernan, and Dr. Shawver. Mr. Enright serves as chair of the Special Committee.

On September 15, 2013, we entered into an agreement and plan of merger, or the Merger Agreement, with Chiesi and Chiesi U.S. Corporation, or the Merger Sub, a Delaware corporation that is a wholly owned subsidiary of Chiesi. The Merger Agreement provides that, upon the terms and subject to the conditions set forth in the Merger Agreement, the Merger Sub will merge with and into our company, with our company surviving the merger as a direct wholly owned subsidiary of Chiesi. We refer to this transaction as the Chiesi Merger. In the Chiesi Merger, each share of our common stock that is issued and outstanding as of the effective time of the Chiesi Merger, except for treasury stock, dissenting shares and shares held by Chiesi or its subsidiaries, will be converted into the right to receive \$9.50 in cash, without interest and subject to deduction for any required withholding taxes. The Special Committee unanimously determined that the Merger Agreement and the transactions contemplated thereby, including the Chiesi Merger, are fair to and in the best interests of the

Table of Contents

stockholders of our company other than Chiesi and its affiliates, and that it is advisable for us to enter into the Merger Agreement. Based on the Special Committee's recommendation, our Board of Directors (i) determined that the Merger Agreement and the transactions contemplated thereby, including the Chiesi Merger, are fair to, and in the best interests of, our stockholders, (ii) approved and declared advisable the Merger Agreement and the transactions contemplated thereby, including the Merger, and (iii) resolved to recommend that our stockholders vote to adopt the Merger Agreement.

In connection with the Chiesi Merger, on September 15, 2013, Craig A. Collard, our Chairman, Chief Executive Officer and beneficial owner of 8.1% of our shares, and Cornerstone Biopharma Holdings, Ltd., an entity controlled by him, entered into a voting agreement with us, Chiesi and the Merger Sub under which they agreed to vote their shares of our common stock in favor of the Chiesi Merger.

Additional Information and Where to Find It

In connection with the Chiesi Merger, we intend to file a proxy statement with the SEC, and we and Chiesi intend to file a Schedule 13E-3 and other relevant materials with the SEC. A definitive proxy statement will be sent to holders of our common stock seeking their approval of the proposed transaction. **WE URGE INVESTORS TO READ THE PROXY STATEMENT AS WELL AS THE SCHEDULE 13E-3 AND ANY OTHER RELEVANT DOCUMENTS FILED BY US OR CHIESI WHEN THEY BECOME AVAILABLE, BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION ABOUT OUR COMPANY AND THE PROPOSED CHIESI MERGER. INVESTORS ARE URGED TO READ THESE DOCUMENTS CAREFULLY AND IN THEIR ENTIRETY.** Investors will be able to obtain these materials (when they become available) and other documents filed with the SEC free of charge at the SEC's website (<http://www.sec.gov>). In addition, these materials (when they become available) will also be available free of charge by accessing our website (<http://www.crtx.com>). Investors may also read and copy any reports, statements and other information filed by us with the SEC at the SEC public reference room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 or visit the SEC's website for further information on its public reference room.

Participants in the Proxy Solicitation

Our directors, executive officers and other members of management and employees may be deemed to be participants in the solicitation of proxies from stockholders in respect of the proposed Chiesi Merger. Information regarding our directors and executive officers is available in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012 filed with the SEC on March 14, 2013, as amended by a Form 10-K/A filed with the SEC on April 11, 2013, as well as in this proxy statement. Other information regarding the participants in the proxy solicitation and a description of their direct and indirect interests, by security holdings or otherwise, will be contained in the proxy statement and other relevant materials to be filed with the SEC in connection with the proposed Chiesi Merger when they become available.

PROPOSAL ONE ELECTION OF DIRECTORS

At the 2013 annual meeting, stockholders will have an opportunity to vote for all the director nominees. The persons named in the enclosed proxy card will vote to elect these nominees as directors, unless you withhold authority to vote for the election of a nominee by marking the proxy card to that effect. The nominees have indicated their willingness to serve, if elected. However, if a nominee should be unable or unwilling to serve, the proxies may be voted for a substitute nominee designated by our Board of Directors, or our Board of Directors may reduce the number of directors to be elected at the 2013 annual meeting.

Board Recommendation

The Board of Directors recommends a vote FOR the election of the director nominees to serve as directors until the sooner of the election and qualification of their successors or the next annual meeting of stockholders.¹

The following paragraphs provide information as of the date of this proxy statement about our director nominees. The information presented includes information about each such director, including, among other things, his age; all positions and offices he holds with us; length of service as a director; principal occupation and employment for the past five years; the names of other public companies of which he has served as a director at any time during the past five years; and the specific experience, qualifications, attributes and skills that led to the conclusion that the director nominee should serve as one of our directors. For information about the number of shares of common stock beneficially owned by our directors as of September 16, 2013, see Stock Ownership Information.

No director, director nominee or executive officer is related by blood, marriage or adoption to any director, director nominee or executive officer. Pursuant to the Merger Agreement, until the closing of the Chiesi Merger, our Board of Directors is required to include the current members of the Special Committee and we are not permitted to take any action to cause any change in the composition of the Special Committee. Other than these requirements, no arrangements or understandings exist between any director or person nominated for election as a director and any other person pursuant to which such person is to be selected as a director or nominee for election as a director. For more information regarding the director nomination process, see Corporate Governance Director Nomination Process.

CORPORATE GOVERNANCE

General

Our management and Board of Directors believe that good corporate governance is important to ensure that we are managed for the long-term benefit of our stockholders. This section describes key corporate governance practices that we have adopted.

Controlled Company Exemption under NASDAQ Marketplace Rules

We are a controlled company within the meaning of applicable rules of The NASDAQ Stock Market LLC, or NASDAQ, because more than 50% of our voting power is held by Chiesi. Therefore, we are not subject to the NASDAQ listing requirements that would otherwise require us to have (i) a Board of Directors comprised of a majority of independent directors; (ii) compensation of our executive officers determined, or recommended to our board for determination, by a majority of our independent directors or a compensation committee comprised solely of independent directors; and (iii) director nominees selected, or recommended for our board's selection, either by a majority of our independent directors or a nominating committee comprised solely of independent directors. Nevertheless, as discussed below, we have established the Compensation Committee to approve executive officer compensation and the Nominating and Corporate Governance Committee to select director nominees, each of which is comprised solely of independent directors.

Board Determination of Independence

Under applicable NASDAQ rules, a director will only qualify as an independent director if, in the opinion of our Board of Directors, that person does not have a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. These rules also specify certain persons whose relationships with us would preclude them from being considered independent. Our Board of Directors has determined that each of the following current members of our Board of Directors is an independent director as defined under applicable NASDAQ rules, including that each such director is free of any relationship that would interfere with the exercise of his or her independent judgment in carrying out his or her responsibilities as a director: Mr. Codeanne, Mr. Enright, Mr. Harper, Mr. Heffernan, Dr. Shawver and Mr. Stephan. In reaching the determination with respect to Mr. Stephan, the Board of Directors considered Mr. Stephan's prior representation of Chiesi in various matters unrelated to the Chiesi Investment and the fees he received from Chiesi under consulting and/or retainer arrangements prior to his retirement in 2012.

Board Leadership Structure

Our Chief Executive Officer, Craig A. Collard, is also the chairman of our Board of Directors. Our Board of Directors has determined this leadership structure is the most effective way to ensure that it remains focused on the key issues affecting our company. Mr. Collard founded Cornerstone BioPharma, has been our chairman and Chief Executive Officer since our merger with Cornerstone BioPharma and oversaw our entry into the Chiesi Investment. Although we do not have a lead independent director, our Board of Directors which consists primarily of either independent directors or directors designated by Chiesi exercises a strong, independent oversight function. This oversight function is enhanced by the fact that each of our board committees is comprised of directors with significant experience in the pharmaceutical industry and our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are each comprised entirely of independent directors.

Board Oversight and Risk Management

Our Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The primary responsibility of our Board of Directors is to oversee our management and, in doing so, assess and manage the risks inherent in our business in order to serve our best interests and the best interests of our stockholders. The Board of Directors selects, evaluates and provides for the

Table of Contents

succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate objectives and strategies, and assesses the risks presented by those strategies and the manner in which management intends to mitigate those risks. In the exercise of its risk oversight function, our Board of Directors solicits and reviews regular updates from key members of management about significant policies and proposed major commitments of corporate resources. Our Board of Directors also participates in decisions that have a potential major economic impact on us. In addition to making reports and presentations at Board of Directors and committee meetings, our management keeps the directors informed of our activity through regular communication. While each of our standing board committees is responsible for assessing risks within its respective area of responsibility and for making appropriate risk management recommendations to our Board of Directors, our full board is principally responsible for evaluating business risks and determining whether any risk mitigation measures should be implemented.

Board Meetings and Attendance

Our Board of Directors met 13 times during the fiscal year ended December 31, 2012, either in person or by teleconference. During 2012, each of our current directors attended at least 75% of the aggregate of the number of board meetings held during the period each has been a director and the number of meetings held by all committees on which each director then served, with the exception of Dr. Failla, who attended 72%.

We have no formal policy requiring director attendance at the annual meeting of stockholders, although all directors are expected to attend the annual meeting if they are able to do so. One of our directors attended the 2012 annual meeting.

Board Committees

Our Board of Directors has established four standing committees: the Audit Committee, the Compensation Committee, the Nominating and Corporate Governance Committee and the Investment Committee. The members of each committee are appointed by our Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, and serve one-year terms. Each of these committees operates under a charter that has been approved by the Board of Directors. We have posted current copies of each committee's charter on the Corporate Governance section of our website, which can be found at www.crtx.com.

The Board of Directors has determined that all of the members of each of the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee are independent as defined under NASDAQ rules and, in the case of all members of the Audit Committee, that they meet the additional independence requirements applicable to audit committee members.

The members of the Investment Committee are Mr. Harper, Mr. Heffernan and Mr. Failla. Mr. Harper serves as chair of the Investment Committee. The Investment Committee was established in January 2012 and met five times in 2012.

Executive and Director Compensation Process

Our Compensation Committee is responsible for approving the compensation of our executive officers, subject to ratification by our Board of Directors. As part of this process, our Compensation Committee has implemented an annual performance review program for our executive officers. As part of that program, the committee considers actual corporate performance compared to our corporate goals and individual performance compared to individual goals, as well as various subjective performance criteria. Each executive officer's individual performance goals relate to our corporate goals.

Additionally, on a rolling basis, our Compensation Committee tracks progress towards our corporate and individual goals, assesses the continuing relevance of those goals, and may add to or revise those goals as necessary or appropriate based on emergent challenges and opportunities. Any change in our corporate goals is subject to adoption by the full Board of Directors.

Our Compensation Committee evaluates each executive officer against his individual goals. Evaluation begins with a written self-assessment, which is submitted to our Chief Executive Officer. Our Chief Executive Officer then prepares a written evaluation based on the executive officer's self-assessment, the Chief Executive Officer's own evaluation and input from other employees. This process leads to a recommendation by our Chief Executive Officer to the Compensation Committee for annual executive salary increases, annual stock option and restricted stock awards and bonuses, if any, for executive officers other than himself. The Compensation Committee then reviews our corporate performance, and in light of that review considers the recommendations of the Chief Executive Officer. Upon completion of this review and consideration, the committee may approve or amend, in its discretion, the recommended annual executive salary increases, annual stock option and restricted stock awards and bonuses, if any, for our executive officers. In the case of our Chief Executive Officer, his individual performance evaluation is conducted by the Compensation Committee, which then approves any annual salary increase, annual stock option and restricted stock award and bonus. For more information regarding this process, see [Information About Executive and Director Compensation](#) [Process for Determining Executive Compensation](#).

Our Compensation Committee periodically reviews and makes recommendations to the Board of Directors regarding director compensation. Currently, each of our non-employee directors is compensated pursuant to our compensation and reimbursement policy. For more information regarding this policy, see [Information About Executive and Director Compensation](#) [Director Compensation for Fiscal 2012](#).

Our Compensation Committee may delegate its authority to the chair of the committee to the extent it deems necessary to finalize matters as to which the committee has given its general approval.

Table of Contents

Our Compensation Committee has the authority to retain compensation consultants and other outside advisors to assist in the evaluation of executive officer compensation. During 2012, our Compensation Committee did not retain a compensation consultant to assist in setting executive compensation. However, for 2012, in order to improve its understanding of compensation practices at companies in the specialty pharmaceutical sector, the committee considered market data from a variety of sources, including the Radford Survey covering pharmaceutical and bio-technology companies having between 150 and 499 employees and between \$50 million and \$150 million in revenues. For more information regarding the role of compensation consultants and surveys, see [Information About Executive and Director Compensation](#) [Process for Determining Executive Compensation](#) [Role of Compensation Consultants and Surveys](#).

Director Nomination Process

The Nominating and Corporate Governance Committee is responsible for identifying individuals qualified to become board members, consistent with criteria approved by the board, and recommending the persons to be nominated for election as directors, except where we are legally required by contract, bylaw or otherwise to provide third parties with the right to nominate directors. The process followed by the Nominating and Corporate Governance Committee to identify and evaluate director candidates includes requests to board members and others for recommendations, meetings from time to time to evaluate biographical information and background material relating to potential candidates and interviews of selected candidates by members of the committee and the board, with direct input from our Chief Executive Officer. From time to time, the Nominating and Corporate Governance Committee may retain the services of an executive search firm to help identify and evaluate potential director candidates but did not retain such services during the year ended December 31, 2012.

In considering whether to recommend any particular candidate for inclusion in the board's slate of recommended director nominees, the Nominating and Corporate Governance Committee applies certain criteria, including the candidate's reputation for integrity, honesty and adherence to high ethical standards, business acumen, experience and judgment, understanding of our business and industry, diligence, conflicts of interest or the appearance thereof, other directorships and their impact on the ability of the candidate to devote adequate time to service on our board and the ability to act in the interests of all stockholders. The committee does not assign specific weights to particular criteria, and no particular criterion is a prerequisite for any prospective nominee. Our Board of Directors has adopted guidelines that provide that nominees shall not be discriminated against on the basis of race, religion, national origin, sex, sexual orientation, disability or any other basis proscribed by law and require the Nominating and Corporate Governance Committee to consider the value of diversity on our board. The Nominating and Corporate Governance Committee implements and assesses the effectiveness of these guidelines and the board's commitment to diversity by considering these guidelines in our assessment of potential director nominees and the overall make-up of our Board of Directors. We believe that the backgrounds and qualifications of our directors, considered as a group, should provide a significant breadth of experience, knowledge and abilities that will assist our board in fulfilling its responsibilities.

Pursuant to our certificate of incorporation and our bylaws, the Nominating and Corporate Governance Committee selects and recommends the directors for nomination by our Board of Directors.

Stockholders may recommend individuals to the Nominating and Corporate Governance Committee for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials and a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than 5% of our common stock for at least a year as of the date such recommendation is made, to the Nominating and Corporate Governance Committee, c/o Corporate Secretary, Cornerstone Therapeutics Inc., 1255 Crescent Green Drive, Suite 250, Cary, North Carolina 27518. Assuming that appropriate biographical and background material has been provided on a timely basis, the Nominating and Corporate Governance Committee will evaluate stockholder recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others. As described in [Stockholder Proposals](#) below, stockholders also have the right under

Table of Contents

Section 1.10 of our bylaws to directly nominate director candidates, without any action or recommendation on the part of the Nominating and Corporate Governance Committee or the board, by following the procedures set forth therein.

Communicating with the Independent Directors

The board will give appropriate attention to written communications that are submitted by stockholders, and will respond if and as appropriate. The chairman of the Nominating and Corporate Governance Committee, with the assistance of our Chief Financial Officer, is primarily responsible for monitoring communications from stockholders and for providing copies or summaries to the other directors as he considers appropriate.

Communications are forwarded to all directors if they relate to important substantive matters and include suggestions or comments that the chairman of the Nominating and Corporate Governance Committee considers to be important for the directors to know. In general, communications relating to corporate governance and corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances and matters as to which we tend to receive repetitive or duplicative communications.

Stockholders who wish to send communications on any topic to the board should address such communications to the Board of Directors, c/o Corporate Secretary, Cornerstone Therapeutics Inc., 1255 Crescent Green Drive, Suite 250, Cary, North Carolina, 27518. You should indicate on your correspondence that you are a Cornerstone Therapeutics Inc. stockholder.

Anyone may express concerns regarding questionable accounting or auditing matters or complaints regarding accounting, internal accounting controls or auditing matters to the Audit Committee by calling the voicemail box at (800) 799-6158. Messages to the Audit Committee will be received by the members of the Audit Committee and our Corporate Secretary. You may report your concern anonymously or confidentially.

Pre-Approval Policy and Procedures

The Audit Committee has adopted policies and procedures relating to the approval of all audit and non-audit services that are to be performed by our independent registered public accounting firm. This policy generally provides that we will not engage our independent registered public accounting firm to render audit or non-audit services unless the service is specifically approved in advance by the Audit Committee or the engagement is entered into pursuant to one of the pre-approval procedures described below.

From time to time, the Audit Committee may pre-approve specified types of services that are expected to be provided to us by our independent registered public accounting firm during the next 12 months. Any such pre-approval is detailed as to the particular service or type of services to be provided and is also generally subject to a maximum dollar amount.

The Audit Committee has also delegated to the chair of the Audit Committee the authority to approve any audit or non-audit services to be provided to us by our independent registered public accounting firm. Any approval of services by the chair of the Audit Committee pursuant to this delegated authority is reported at the next meeting of the Audit Committee.

Related Person Transactions

Policies and Procedures Regarding Review, Approval or Ratification of Related Person Transactions

In March 2007, our Board of Directors adopted written policies and procedures for the review of any transaction, arrangement or relationship in which we are a participant, the amount involved exceeds \$120,000 and one of our executive officers, directors, director nominees or 5% stockholders (or their immediate family members), each of whom we refer to as a related person, has a direct or indirect material interest.

Table of Contents

If a related person proposes to enter into such a transaction, arrangement or relationship, which we refer to as a related person transaction, the related person must report the proposed related person transaction to our Chief Financial Officer. The policy calls for the proposed related person transaction to be reviewed and, if deemed appropriate, approved by the Audit Committee. Whenever practicable, the reporting, review and approval will occur prior to entry into the transaction. If advance review and approval is not practicable, the Audit Committee will review, and, in its discretion, may ratify the related person transaction. The policy also permits the chair of the Audit Committee to review and, if deemed appropriate, approve proposed related person transactions that arise between committee meetings, subject to ratification by the Audit Committee at its next meeting. Any related person transactions that are ongoing in nature will be reviewed annually.

A related person transaction reviewed under the policy will be considered approved or ratified if it is authorized by the Audit Committee after full disclosure of the related person's interest in the transaction. As appropriate for the circumstances, the Audit Committee will review and consider:

the related person's interest in the related person transaction;

the approximate dollar value of the amount involved in the related person transaction;

the approximate dollar value of the amount of the related person's interest in the transaction without regard to the amount of any profit or loss;

whether the transaction was undertaken in the ordinary course of our business;

whether the terms of the transaction are no less favorable to us than terms that could have been reached with an unrelated third party;

the purpose of, and the potential benefits to us of, the transaction; and

any other information regarding the related person transaction or the related person in the context of the proposed transaction that would be material to investors in light of the circumstances of the particular transaction.

The Audit Committee may approve or ratify the transaction only if the committee determines that, under all of the circumstances, the transaction is in, or is not in conflict with, our best interests. The Audit Committee may impose any conditions on the related person transaction that it deems appropriate.

In addition to the transactions that are excluded by the instructions to the SEC's related person transaction disclosure rule, our Board of Directors has determined that the following transactions do not create a material direct or indirect interest on behalf of related persons and, therefore, are not related person transactions for purposes of this policy:

interests arising solely from the related person's position as an executive officer of another entity (whether or not the person is also a director of such entity), that is a participant in the transaction, where (a) the related person and all other related persons own in the aggregate less than a 10% equity interest in such entity, (b) the related person and his or her immediate family members are not involved in the negotiation of the terms of the transaction and do not receive any special benefits as a result of the transaction, and (c) the amount involved in the transaction equals less than the greater of \$200,000 or 5% of the annual gross revenues of the company receiving payment under the transaction; and

Edgar Filing: CORNERSTONE THERAPEUTICS INC - Form DEF 14A

a transaction that is specifically contemplated by provisions of our charter or bylaws.

The policy provides that transactions involving compensation of executive officers shall be reviewed and approved by the Compensation Committee in the manner specified in its charter.

Following receipt of the Chiesi Proposal, our Board of Directors formed the Special Committee to review and evaluate Chiesi's proposal, take any actions with respect thereto, and review and negotiate any potential transaction resulting from such proposal. On September 15, 2013, the Special Committee recommended that our Board of Directors approve our entry into the Merger Agreement.

U.S. CUROSURF Agreement

As a result of the Chiesi Investment, Chiesi manufactures all of our requirements of CUROSURF, which we began promoting and selling in September 2009. Pursuant to the U.S. CUROSURF Agreement, we purchase inventory from Chiesi at a defined supply price by product as set forth in the agreement. Inventory purchases from Chiesi under the U.S. CUROSURF Agreement from inception through June 30, 2013 aggregated approximately \$90.9 million. As of June 30, 2013, we had accounts payable of approximately \$886,000 due to Chiesi.

Term Loan Facility

On June 21, 2012, we entered into a credit agreement, or the Credit Agreement, with Chiesi in connection with our acquisition of EKR Holdings, Inc. and its wholly owned subsidiary, EKR Therapeutics, Inc. or collectively EKR. The Credit Agreement governs our senior secured term loan facility with Chiesi, or the Term Loan Facility, which is comprised of a five-year Term Loan A of \$60.0 million and five-year Term Loan B of \$30.0 million, which we refer to as the Term Loans. The Term Loans were funded on June 25, 2012 and the acquisition of EKR closed on June 26, 2012. The proceeds of the Term Loan Facility were used, together with our cash on hand, to finance the acquisition of EKR and the related fees and expenses incurred by us in connection with the acquisition. All obligations under the Term Loan Facility are guaranteed by our domestic subsidiaries, and are secured by a security interest in substantially all of our assets and our domestic subsidiaries' assets. Under the Credit Agreement, Chiesi is the administrative agent and collateral agent in respect of the Term Loan Facility.

Term Loan A and Term Loan B bear interest at rates of 7.5% and 6.5% per year, respectively, payable quarterly in arrears on the last business day of each fiscal quarter beginning on September 28, 2012. Term Loan A requires quarterly principal payments of \$3.5 million commencing on the fiscal quarter ending December 31, 2014 with any balance due at maturity. The Term Loans are due and payable on June 23, 2017, unless previously prepaid or in the case of Term Loan B, converted into shares of common stock, prior to such date.

We may prepay the Term Loans, in whole or in part without any premium or penalty, provided any prepayments of principal amounts are \$5.0 million or whole multiples of \$1.0 million in excess thereof, plus any accrued and unpaid interest. The prepayments will be applied first, ratably to the remaining installments of principal of the Term Loan A (excluding the payment due at maturity), second, to any remaining amounts outstanding on Term Loan A, and third, to the outstanding principal on Term Loan B.

We are required to prepay all or a portion of the Term Loan Facility under the following conditions: (i) if our ratio of consolidated secured debt to Consolidated EBITDA (as defined in the Credit Agreement) is at least 2 to 1 for any fiscal year ending on or after December 31, 2013, by using 50% of our Consolidated Excess Cash (as defined in the Credit Agreement), or (ii) if we undertake certain asset sales or sales of capital stock and do not reinvest the proceeds according to the terms of the Credit Agreement.

Term Loan B contains a conversion option for a two-year period, expiring on June 21, 2014, which provides Chiesi the option, exercisable in its sole discretion, to convert all or a portion of the Term Loan B into shares of common stock at a conversion price equal to \$7.098 per share, subject to adjustment under certain conditions. Conversions shall be no less than \$5.0 million unless the remaining principal amount of Term Loan B is less than \$5.0 million.

The Term Loans are collateralized by substantially all of our assets, including the assets of our subsidiaries that are guarantors of the Term Loans. The Credit Agreement contains customary representations, covenants and events of default. Upon an Event of Default (as defined in the Credit Agreement), (i) the interest rates for Term Loan A and Term Loan B will each increase by 2% and (ii) Chiesi may declare all outstanding principal and accrued but unpaid interest under the Term Loan Facility to be immediately due and payable. In addition, we are subject to covenants prohibiting the payment of any dividends (other than stock dividends) and restricting or

limiting other restricted payments, certain corporate activities, transactions with affiliates, incurrence of debt (which debt limit expressly permits, among other things, a secured working capital facility of up to \$25 million), liens on properties and asset dispositions. We are not subject to any financial covenants other than the mandatory prepayment provisions discussed above.

In connection with the Term Loans, we incurred \$511,000 of debt financing costs, which primarily consisted of legal and other professional fees.

BETHKIS® License and Distribution Agreement

On November 6, 2012, we entered into a license and distribution agreement with Chiesi pursuant to which we obtained an exclusive license to the U.S. commercial rights to Chiesi's BETHKIS product. Under the agreement, we made an initial payment to Chiesi of \$1.0 million and will make a \$2.5 million payment upon the first commercial sale of the product in the United States. We are also required to pay certain costs related to a Phase IV clinical trial with respect to the product and quarterly royalties based on a percentage of net sales.

Consulting Agreement with Alastair McEwan

Prior to serving as our Chief Financial Officer, Mr. McEwan was a consultant to our company providing strategic, management, financial and corporate governance advice to us from November 1, 2009 through November 5, 2012. In connection with his service as a consultant during the year ended December 31, 2012, Mr. McEwan received compensation of approximately \$122,000.

Chiesi Merger

On September 15, 2013, we entered into the Merger Agreement with Chiesi and the Merger Sub. The Merger Agreement provides that, upon the terms and subject to the conditions set forth in the Merger Agreement, the Merger Sub will merge with and into our company, with our company surviving the merger as a direct wholly owned subsidiary of Chiesi. In connection with the Chiesi Merger, on September 15, 2013, Craig A. Collard, our Chairman, Chief Executive Officer and beneficial owner of 8.1% of our shares, and an entity controlled by him, entered into a voting agreement with us, Chiesi and the Merger Sub under which they agreed to vote their shares of our common stock in favor of the Chiesi Merger. Please refer to the section entitled "Transactions with Chiesi - Chiesi Merger" for more information regarding this transaction.

During the fiscal years ended December 31, 2011 and 2010 and the subsequent interim period through the date of Ernst & Young's engagement, we did not consult with Ernst & Young regarding (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our financial statements, and Ernst & Young did not provide either a written report or oral advice to us that Ernst & Young concluded was an important factor considered by us in reaching a decision as to any accounting, auditing, or financial reporting issue or (ii) any matter that was either the subject of any disagreement (as described in Item 304(a)(1)(iv) of Regulation S-K) or a reportable event (as described in Item 304(a)(1)(v) of Regulation S-K).

Executive Compensation

Compensation Discussion and Analysis

This Compensation Discussion and Analysis, which we refer to herein as the CD&A, describes our executive compensation philosophy, components and policies, including analysis of the compensation earned by our named executive officers for 2012 as detailed in the accompanying tables.

The following executives were our named executive officers for 2012:

Name	Position
Craig A. Collard	Chief Executive Officer
Alastair McEwan	Chief Financial Officer
Kenneth R. McBean	President
Andrew K. W. Powell	Former Executive Vice President, General Counsel and Secretary
Joshua B. Franklin	Vice President, Strategy and Business Development
Vincent T. Morgus	Former Executive Vice President, Chief Financial Officer and Treasurer

Executive Summary

Key Executive Compensation Actions and Highlights

In 2012, we continued to implement our pay for performance philosophy, taking into account both our company's performance and various considerations that affect our ability to achieve our strategic growth objectives. The elements of our compensation process, and the rationale for each, are described below.

For 2012, our Compensation Committee decided not to award merit increases in base salary to our named executive officers, but made an adjustment to Mr. Powell's base salary since it had been unchanged since his hiring in 2009. For 2013, merit increases for our named executive officers were based on executive performance and were decided on an individual basis.

Our Compensation Committee determined that we performed well in 2012, including over-achieving our key financial goal related to non-GAAP income from operations, growing revenue and completing the acquisition of EKR. The Committee also noted that we continued to execute our strategic plan, and that we met most of our other corporate and organizational goals. Accordingly, our named executive officers received cash bonuses which reflected both our company's performance in 2012 and their performance against specific individual goals, and when taken together as a group, they received bonus pay outs that were broadly consistent with their target bonuses for 2012.

Our Compensation Committee determined that it would keep annual cash bonus targets for 2013 at 2012 levels.

In February 2012 and March 2013, we granted equity awards consisting of stock options and restricted stock to each of our named executive officers who had been with us for more than six months. These awards were based on our corporate performance, the executives' individual performance and the target equity award levels reflected in certain executives' employment agreements.

Table of Contents

Compensation Governance

Consistent with our philosophy of pay for performance, the following features are built into our executive compensation process to ensure appropriate process and governance:

Our Compensation Committee is comprised solely of independent directors.

Our Compensation Committee uses independently generated third party data to obtain an understanding of compensation practices at companies in our industry.

Our Compensation Committee approves and reviews our executive officers' individual goals to ensure that they are aligned with our corporate goals and that they do not create incentives to engage in behaviors that might expose us to undue risk or have a material adverse effect on us.

Our Compensation Committee regularly reviews our executive compensation program as a whole, including base salaries, annual cash incentives and equity-based incentives, to ensure that it properly rewards the value of executives' contributions to the achievement of our corporate goals.

Our Board of Directors has adopted a clawback policy that will allow us to seek recovery of certain compensation from our executive officers in the event of an accounting restatement caused by our material noncompliance with applicable financial reporting requirements.

Our policies include stringent insider trading policy prohibitions as well as prohibitions on speculating or trading in derivative instruments related to company securities.

In 2011 we provided, and every three years thereafter we expect to provide, our stockholders with the opportunity to cast an advisory vote on executive compensation as required by Section 14A of the Exchange Act.

Executive Compensation Philosophy

The principal objectives of our executive compensation program are to attract and retain talented executives. Our philosophy is to use cash compensation, stock options and restricted stock to reward performance and incentivize our executives to create and maintain stockholder value.

Elements of Compensation

We have entered into executive employment agreements with each of our named executive officers. Each of our named executive officers is entitled to the following elements of compensation, which are discussed more fully below:

base salary;

target cash bonus (in the discretion of our Compensation Committee and ratified by the Board); and

target equity awards (in the discretion of our Compensation Committee and ratified by the Board).

Compensation Principles, Philosophy and Objectives

The following principles have guided our Compensation Committee in developing our compensation programs and in determining total compensation levels for our executive officers:

we must be prepared to compete with other organizations for executive talent and ensure that our compensation practices compare favorably with others in our industry;

our compensation practices should take into account the development of our business, our continuing growth and the company culture that we wish to build; and

our compensation programs should encourage our executive officers to increase long-term stockholder value in a manner that appropriately rewards the achievement of specified short-term objectives without creating undue risk for us or our stockholders.

Table of Contents

Our philosophy is to relate compensation to measurable goals of both the company and our individual executives, and we strive to make our compensation decisions objective by rewarding our executives for meeting these goals.

The objective of our executive compensation program is to attract and retain key employees and then motivate them to achieve and reward them for achieving our business goals. We do this by:

providing competitive compensation that consists of cash and equity-based components that appropriately encourage and reward performance and create enduring long-term stockholder value;

rewarding our executive officers for their individual contributions to our success;

aligning the interests of our executives as a group by linking individual executive compensation to the company-wide achievement of both our short-term operating imperatives and our long-term strategic objectives; and

aligning the interests of our executives with those of our stockholders by building a culture of equity ownership and shared risk.

Elements of Executive Compensation

Consistent with our executive officers' employment agreements, our Compensation Committee determined that the compensation of our executive officers for 2012 should consist of base salary, a discretionary bonus and stock-based compensation. The committee does not target a specific mix of executive compensation by allocating total compensation across cash and noncash pay, between current and long-term pay or among different types of long-term incentive awards.

Our overall executive compensation program includes the following major elements:

Compensation Element	Objective	Key Features
Base salary	Provide a fixed level of cash compensation based on responsibilities, background, training and experience to encourage retention and recognize performance.	Annually reviewed by our Compensation Committee.
Cash Bonus	Reward executive officers for their individual performance and contributions to corporate performance. Reinforce pay for performance.	Determined in the discretion of our Compensation Committee based on the achievement of specific corporate and individual goals.
Stock-based compensation	Align our executive officers' long-term interests with those of our stockholders by rewarding officers for sustaining long-term corporate performance; encourage retention through the use of vesting provisions.	May consist of stock options and / or restricted stock awards.
Broad-based benefits	Provide a safety net of protection against the financial catastrophes that can result from illness, disability or death.	Executive officers participate in the same plans as other employees, except that our medical insurance, dental insurance and vision insurance plans are provided to them at no cost.
Perquisites and severance benefits	Promote client development and fulfillment of business duties on an efficient and cost-effective basis; provide reasonable level of severance compensation in certain circumstances.	Designed to represent a small part of our overall compensation package.

Process for Determining Executive Compensation

Overview

Our Compensation Committee annually approves salary increases, targets for annual bonuses, the amounts of stock option and restricted stock awards and payouts of bonuses, in its discretion. In exercising its discretion, the committee considers our actual corporate performance compared to our corporate goals and actual individual performance compared to individual goals. The committee also ascribes weight to the Chief Executive Officer's assessment of executive performance. In general, our Compensation Committee does not take into account amounts realizable from prior compensation when making future pay decisions.

Role of Executive Officers

Our Chief Executive Officer assists our Compensation Committee by annually developing the individual objectives and reviewing the performance of each of our executive officers (other than his own, which is reviewed by our Compensation Committee). Our Chief Executive Officer generally makes specific recommendations regarding salary adjustments and amounts of discretionary bonuses, if any, for each executive. Our Chief Executive Officer's recommendations are then reviewed by our Compensation Committee. That review includes a rigorous assessment of our overall corporate performance and the performance of individual executives, and includes consideration of any factors that are relevant to corporate or executive performance. The committee then either approves our Chief Executive Officer's recommendations or exercises its discretion by modifying any recommended salary adjustments and/or bonus payments to our executive officers. In exercising its discretion the committee may take into account the market data information discussed below.

Role of Compensation Consultants and Surveys

In setting executive compensation, our Compensation Committee generally considers, along with various other factors, the compensation paid to officers with similar responsibilities in similar companies. Our Compensation Committee does not retain a compensation consultant to assist in setting executive compensation. However, in order to improve its understanding of compensation practices at companies in our industry, our Compensation Committee does consider market data from a variety of sources, including the Radford Survey covering pharmaceutical and bio-technology companies having between 150 and 499 employees and between \$50 million and \$150 million in revenues. The committee does not use this data, or any customized subset thereof, to benchmark its compensation decisions. In 2012, after establishing compensation levels, it used this data to assess and confirm generally whether the nature and overall level of compensation paid to our executives, including the compensation packages provided to our newly hired executives, is reasonably sufficient to support our objectives of attracting and retaining talented executives. Our Compensation Committee did not attempt to align our overall compensation structure to any specific percentile of the companies whose data it reviewed.

Role of Corporate and Individual Performance

Our Compensation Committee believes that our success is dependent upon, and reflective of, the performance of our senior management team, including our executive officers. In an effort to appropriately incentivize our executives to achieve certain objectives, the committee approves various commercialization, development, clinical, regulatory, financial, operational and organizational goals. The process of setting performance goals begins with our Chief Executive Officer proposing our annual corporate goals. These are reviewed by our Compensation Committee and then modified as the committee believes is appropriate. Our Compensation Committee then recommends that our full Board provisionally adopt these corporate goals, subject to further review and adjustment throughout the year as necessary based on changing market and competitive conditions.

Once we have set our corporate goals, we establish individual goals for each of our executive officers. Our Chief Executive Officer's individual goals are the same as our corporate goals. The individual goals for our other executive officers are set early in the first quarter of the calendar year and focus on contributions that will

Table of Contents

facilitate the achievement of our corporate goals. Each executive officer reviews our corporate goals and proposes individual goals that appropriately support our corporate goals, taking into account the executive's functional responsibilities. These individual goals are approved by our Chief Executive Officer and then submitted to our Compensation Committee for discussion, revision and adoption.

Our Compensation Committee regularly tracks our progress towards our corporate and individual goals. As part of this process the Compensation Committee also assesses the continuing relevance of these goals, and may add to or revise these goals as necessary or appropriate based on emergent challenges and opportunities. Our Compensation Committee believes that if our focus changes due to market shifts or potential opportunities, our goals, on an individual and corporate basis, should be correspondingly adjusted to encourage our executive officers to position us to capitalize on such shifts and opportunities, rather than focusing on past goals that may or may not continue to enhance stockholder value. Any change in our corporate goals is subject to adoption by the full Board of Directors.

Goals may relate to objective financial metrics (such as the achievement of a certain level of sales), to objective non-financial achievements (such as the approval of a product for sale) or to qualitative performance (such as building and integrating a new process into our operational structure). We intend for goals to be achievable as the result of sustained focused effort on the part of the executive team, and it is our expectation that in normal circumstances executives will achieve substantially all of their individual goals, and as a result we will achieve substantially all of our corporate goals.

Corporate Performance

When making compensation decisions for our executive officers with respect to annual bonuses and equity awards, our Compensation Committee first assesses the level to which we have achieved our corporate goals. The assessment of the achievement of any corporate goal is in the discretion of our Compensation Committee, and may exceed 100%. In reaching an overall assessment of corporate performance, our Compensation Committee may choose to weight our corporate goals. The overall assessment may be expressed as a percentage of full goal achievement. The assessment takes into account any revisions to goals made throughout the year. The weighting of particular goals is a matter of committee discretion, though as a general rule the committee ascribes particular weight to goals related to financial performance. While total achievement of all corporate goals, as revised during the year, may not be expected, our Compensation Committee demands that management significantly advance our business objectives and the interests of stockholders throughout the year for the committee to consider it appropriate to base decisions regarding cash and equity incentive compensation on an overall assessment that we achieved our corporate goals at 100% or more.

Individual Performance

Having made an overall assessment of corporate performance, our Compensation Committee then assesses the level to which each of our executive officers achieved their individual goals. In assessing individual achievement, our Compensation Committee may choose to weight an individual's goals, and the resulting assessment may be expressed as a percentage of full goal achievement.

In making compensation decisions for each individual executive officer, our Compensation Committee considers both the executive's achievement of his individual goals and our achievement of our corporate goals. Because the goals of our Chief Executive Officer are the same as our corporate goals, the committee's assessment of his individual achievement will normally be the same as the committee's overall assessment of our corporate performance. In addition to assessing the Chief Executive Officer's performance against operating goals, the Committee may take into account his strategic leadership and its impact on our company's direction. In the case of other executive officers, the committee will exercise its discretion in balancing individual achievement and corporate performance when determining annual cash bonus and equity awards, as it deems appropriate.

Table of Contents

Our Compensation Committee believes that it is not appropriate, for a company that is transforming its business, to have a rigid funding metric for executive bonus and equity awards. However, as a general matter, the committee believes that, in the absence of special circumstances, our pay-for-performance philosophy demands that actual annual bonus and equity awards made to our executive officers, as a group, should not reflect a level of achievement in excess of that reflected in the committee's overall assessment of corporate performance. Our Compensation Committee believes that, at this time, this flexible but principled process is appropriate because it allows the committee to consider (i) goals established by the committee at the beginning of the year and goals communicated to our executive officers at any point throughout the year, (ii) the effects of unanticipated events and circumstances on our business or on a particular executive's performance, and (iii) the performance of our executives in managing change, addressing emergent challenges and exploiting unexpected opportunities.

Our 2012 corporate and individual goals and their impact on our named executive officers' compensation are discussed more fully below.

Impact of 2011 Say-on-Pay Vote on Executive Compensation

In approving the 2013 compensation of our named executive officers, our Compensation Committee considered the results of the advisory vote on executive compensation at the 2011 Annual Meeting of Stockholders. Over 99% of the votes cast on this say-on-pay proposal were voted in favor of approving, on an advisory basis, the compensation of our named executive officers. Our Compensation Committee believes these results affirm our stockholders' support of our approach to executive compensation. Accordingly, our Compensation Committee did not adopt any changes to our executive compensation based on the results of the say-on-pay vote. Our Compensation Committee will continue to consider the outcome of say-on-pay proposals when making future compensation decisions for our named executive officers.

Executive Compensation in 2012***Base Salary***

Our Compensation Committee has established base salaries for our named executive officers at levels that are intended to reflect the scope of their responsibilities and relevant backgrounds, training and experience. When establishing a named executive officer's base salary, our Compensation Committee takes into account his seniority, his level of responsibility, the functional role of the position and compensation practices in the pharmaceutical industry and among public companies. The Compensation Committee reviews our named executive officers' base salaries annually.

The following table shows annual base salaries in effect for 2011, 2012 and 2013 for each named executive officer, as well as the percentage increase from 2012 to 2013:

Executive	2011 Base Salary	2012 Base Salary	Percent Increase	2013 Base Salary
Craig A. Collard	\$ 400,000	\$ 400,000	12.5%	\$ 450,000
Alastair McEwan(1)	N/A	\$ 190,000	57.9%	\$ 300,000
Kenneth R. McBean	\$ 295,000	\$ 295,000	2.0%	\$ 300,900
Andrew K. W. Powell	\$ 275,000	\$ 280,500	N/A	\$ 280,500
Joshua B. Franklin	\$ 231,750	\$ 233,864	2.0%	\$ 238,541
Vincent T. Morgus	\$ 285,000	\$ 285,000	N/A	N/A

- (1) Mr. McEwan's annual base salary was increased to \$300,000 effective on September 15, 2013 in recognition of his additional responsibilities following the resignation of Mr. Powell and in connection with the proposed Chiesi Merger. In connection with his increase in base salary, we and Mr. McEwan agreed to terminate an arrangement under which Mr. McEwan was eligible to receive restricted stock awards following the closing of certain transactions. Mr. McEwan did not receive any such awards during 2012.

Table of Contents

For 2012, our Compensation Committee decided not to award merit increases in base salary to our named executive officers, but made an adjustment to Mr. Powell's base salary since it had been unchanged since his hiring in 2009. For 2013, we awarded merit increases of 2% to all of our named executives except for Mr. McEwan, who was hired in November 2012, and for Mr. Powell. We made a further increase to Mr. Collard's salary for 2013 in order to reflect his strategic responsibilities and his importance to our company.

Annual Performance-Based Cash Incentive Compensation

Our current named executive officers are eligible for annual cash bonuses pursuant to the terms of their respective employment agreements. Annual bonuses are intended to link our strategic and corporate operating plans with individual performance, and to provide executive officers with incentives to achieve greater corporate performance by focusing on the attainment of specific goals.

Our Compensation Committee annually determines the target cash bonus for each named executive officer based on a percentage of such officer's annual base salary. Although the employment agreements we have entered into with each of our named executive officers provide for target cash bonuses up to 50% for Mr. Collard, 40% for Mr. McBean and 35% for our other named executive officers, our Compensation Committee retains discretion to set the target cash bonuses for each named executive officer either above or below these levels. For 2012, our Compensation Committee set the target cash bonus for each of our named executive officers, other than Mr. Collard, at the maximum target level set forth in the executive's respective employment agreement. In the case of Mr. Collard, the committee set the target cash bonus percentage at 75% of base salary to incentivize performance during 2012.

2012 Cash Bonus

When exercising its discretion in awarding cash bonuses for 2012, our Compensation Committee considered our achievement of our overall corporate goals and our named executive officers' achievement of their individual goals. In part, our Compensation Committee used non-GAAP income from operations as one of the measures of our performance. The section titled "Reconciliation of Non-GAAP Financial Measures" on pages 66 through 68 of Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2012 filed with the SEC on March 14, 2013 contains an explanation of how we calculate this measure and provides a reconciliation of this measure to the most directly comparable GAAP measure.

In addition, our Compensation Committee also used, in part, non-GAAP pre-tax income, which is calculated as GAAP income (loss) before income taxes adjusted for stock-based compensation expense, amortization and impairment of product rights, transaction-related expenses, acquisition adjustments related to inventory, our CARDENE I.V. charitable inventory donation, our RETAVASE inventory write-off, changes in acquisition-related contingent payments, and the gain on the divestiture of certain product rights, divided by the sum of the weighted-average number of common shares and dilutive common share equivalents outstanding during the year, as adjusted for the impact of the shares related to the convertible debt.

In reviewing all of our 2012 corporate goals, our Compensation Committee focused on the degree to which we were able to achieve our corporate goals, which included:

To achieve net revenue of at least \$87.6 million;

To achieve non-GAAP income from operations of at least \$11.8 million;

To achieve non-GAAP pre-tax income per share of \$0.36;

To complete an accretive acquisition transaction with \$50 million in annualized revenues that is expected to provide 20% net income per share growth;

To achieve development and approval milestones for certain products in our pipeline; and

To make certain organizational changes to enhance organizational alignment, efficiency and compliance.

Table of Contents

Based on its review of our corporate performance, our Compensation Committee determined that we performed well in 2012 and over-achieved our financial goals and our acquisition goal, while achieving approval of only one of our products in development. Our Compensation Committee ultimately determined that 90% represented a reasonable estimate of the extent to which we had met our corporate goals for 2012 and was therefore an appropriate basis from which to make bonus determinations.

In making this estimate, our Compensation Committee considered all aspects of our corporate performance in 2012, focusing on the following key financial and non-financial results for the year:

Net revenues from all products were \$116.1 million;

Non-GAAP income from operations was \$30.0 million;

Non-GAAP pre-tax income per share was \$0.91;

We completed the acquisition of EKR, the licensing of BETHKIS and the revision of our CUROSURF license in 2012 with the result that we estimate annual revenues will increase by more than \$50 million and we believe we have a reasonable basis for double-digit net income per share growth in the future;

We achieved approval of our Hydrocodone Polistirex and Chlorpheniramine Polistirex Extended Release Suspension product, but failed to achieve approval of our LIXAR product candidate; and

We enhanced our organization through changes to our management, compliance and human resources development processes. In reaching its final assessment that we achieved nearly all of our goals, our Compensation Committee applied a subjective approach, ascribing particular weight to our achievement of financial metrics and our success in completing strategic acquisitions. At the same time, however, our Compensation Committee also took note of the fact that our development projects failed to result in the approval of our LIXAR product.

In addition to considering our overall corporate performance, our Compensation Committee also took into account the achievement by our named executive officers of the following individual goals:

Craig Collard. Mr. Collard's goals were the same as our corporate goals and the committee took that into account when assessing his performance. At the same time, the committee considered that Mr. Collard's exceptional leadership and the strategic development of our company more than offset the shortfall in the achievement of our corporate goals and the committee awarded him a cash bonus substantially in excess of his target.

Ken McBean. Mr. McBean's goals related to the management of our commercial functions and the integration of the EKR products into our portfolio. In determining Mr. McBean's annual cash bonus award, the committee considered that our company exceeded our sales targets and integrated the EKR team into our existing hospital sales force.

Alastair McEwan. Mr. McEwan's goals related to the management of our finance and investor relations functions and the completion and integration of the EKR transaction. In determining Mr. McEwan's annual cash bonus award, the committee considered that Mr. McEwan had only been with the company since November 2012.

Edgar Filing: CORNERSTONE THERAPEUTICS INC - Form DEF 14A

Andrew Powell. Mr. Powell's goals related to the management of our legal function, the oversight of our governance and organizational processes, the execution of our acquisition transactions, and the enhancement of our intellectual property portfolio. In determining Mr. Powell's annual cash bonus award, the committee considered that our corporate goals and the interests of our stockholders were significantly advanced in each of these areas.

Joshua Franklin. Mr. Franklin's goals related to the company's business development efforts and the execution and integration of significant acquisition and licensing transactions. In determining Mr. Franklin's annual cash bonus award the committee took note of the acquisition and timely integration of EKR, the licensing of BETHKIS and the revision of our CUROSURF license.

Table of Contents

Vincent Morgus. Mr. Morgus's cash bonus award was determined at the time of his separation from the company and reflected the terms of the Separation Letter Agreement and General Release we entered into with him.

Our Compensation Committee's assessment of each named executive officer's achievement, based in part upon the recommendation of the Chief Executive Officer, was then weighed together with the committee's overall assessment of our performance against our corporate goals. The committee, in its discretion, then made awards to each executive officer that it considered appropriately reflected their overall performance.

The following table illustrates our actual and target cash bonuses for 2012:

Executive	2012 Target Bonus		2012 Actual Cash Bonus		
	Dollars	% of Base Salary	Dollars	% of Base Salary	% of Target
Craig A. Collard	\$ 300,000	75%	\$ 375,000	94%	125%
Kenneth R. McBean	\$ 118,000	40%	\$ 109,740	37%	93%
Alastair McEwan(1)	\$ 11,084	35%	\$ 10,308	5%	93%
Andrew K. W. Powell	\$ 98,175	35%	\$ 83,940	30%	86%
Joshua B. Franklin	\$ 81,852	35%	\$ 76,122	33%	93%

(1) Mr. McEwan's employment with us commenced on November 6, 2012. Under the terms of his executive employment agreement, his prorated target bonus for fiscal year 2012 was 5% of his annual base salary.

2013 Target Cash Bonus

Our Compensation Committee determined that it would keep annual cash bonus targets at 2012 levels, and for purposes of measuring performance and determining appropriate incentive awards it would follow a similar process to that followed in 2012.

Stock-Based Compensation*Background*

Our named executive officers are generally awarded initial stock options and/or, in certain cases, restricted stock grants at the time of hire. Additionally, our Compensation Committee approves annual equity grants to our named executive officers based on level of responsibility and perceived overall contribution to the generation of stockholder value. The degree to which an individual achieved his goals for a particular year is factored into making the assessment of overall contribution, but the individual's performance of non-goal specific activities may be taken into account. Although we do not measure ourselves against a specific benchmark, we believe that the annual aggregate value of awards (using the Black Scholes-Merton or equivalent valuation methodology) of equity to named executive officers reflects competitive levels for similar companies, as reflected in the third-party data that is available to our Compensation Committee.

We have granted certain named executive officers shares of restricted stock at the time of hire because we believe that in such circumstances restricted stock enables us to attract executive talent and is a powerful retention tool.

In 2012 we continued our practice of granting executive officers options to purchase common stock, with the intent to provide an incentive to build and sustain stockholder value over an extended period of time and align the interests of executives and stockholders by enabling our executives to participate in any increase in stockholder value resulting from their efforts.

Our Compensation Committee generally recommends annual equity awards at the committee meeting held in conjunction with the first meeting of the Board of Directors each year, and, if its recommendation is approved by our Board, such awards are normally effective on the date of ratification. We believe that this timing is

Table of Contents

appropriate as it provides sufficient time for a thorough review of corporate and individual performance during the preceding year, while also providing timely reinforcement for award recipients. Our Compensation Committee awards equity grants without regard to any scheduled or anticipated release of material information. We do not accelerate or delay equity grants in response to material information, nor do we delay the disclosure of information due to plans to make equity grants.

2012 Equity Awards

In February 2012, we made annual stock option awards to each of our then-serving named executive officers that had served in their positions for six months or more in 2011. In making these equity awards, our Compensation Committee considered our named executive officers' achievements in 2011, including:

Craig Collard. Mr. Collard's goals were the same as our corporate goals, so the committee assessed his performance in the same way that it assessed our overall performance in 2011.

Andrew Powell. In determining Mr. Powell's 2012 equity award, our Compensation Committee considered his performance relative to his 2011 personal goals, including the management of our disclosure and compliance functions, the reduction of our legal expenses, the completion of certain acquisition and divestiture transactions, the rationalization of our intellectual property portfolio and the adoption of governance and organizational processes appropriate for a company of our size and structure.

Joshua Franklin. In determining Mr. Franklin's 2012 equity award, our Compensation Committee considered his performance relative to his 2011 personal goals, including his role in defining our strategy and revitalizing our business development function, resulting in our identification of a number of potential transactions during the year.

Vincent Morgus. In determining Mr. Morgus's 2012 equity award, our Compensation Committee considered his performance relative to his 2011 personal goals, including the progress achieved by our finance and investor relations functions, the increase in opportunities identified by our business development function and our performance against our working capital goal.

In light of their consideration, our Compensation Committee approved, and our Board of Directors ratified, the following stock option grants to our named executive officers in 2012:

Executive	No. of Options
Craig A. Collard	95,000
Alastair McEwan(1)	
Kenneth R. McBean(2)	
Andrew K. W. Powell	50,000
Joshua B. Franklin	50,000
Vincent T. Morgus	45,000

(1) Mr. McEwan's employment with us commenced on November 6, 2012, and he was not awarded any stock options during 2012. Under the terms of his executive employment agreement, and in connection with his appointment as our Chief Financial Officer, he was granted 50,000 shares of restricted stock, of which 50% vests on the first two annual anniversaries of the grant date.

(2) Mr. McBean's employment with us commenced on September 6, 2011, and he was not awarded any stock options during 2012. Each option award vests over four years, with 25% vesting on the one-year anniversary of the grant date and the remaining 75% vesting in 36 equal monthly installments, subject to the named executive officer's continued employment with us.

Table of Contents*2013 Equity Awards*

In March 2013, our Compensation Committee, in the exercise of its discretion to make executive equity awards, conducted the same analysis of corporate and individual performance as it conducted in determining the level of 2012 cash bonuses (see Annual Performance-Based Cash Incentive Compensation above). The committee additionally conducted an extensive analysis of the relative merits of stock options versus restricted stock as tools to attract, motivate and retain executives. This analysis took account of the capital structure and share ownership of our company, as well as other circumstances that might influence the value and utility of these instruments. As a result of its analysis, the committee concluded, and the Board approved, that making equity awards in restricted stock would be the most effective equity instrument to attract, retain and incentivize our named executive officers.

As a result of this conclusion, and taking into account the annual equity award targets set forth in certain of the named executive officers employment agreements, and the strategic importance of each executive's contribution to the future of our company, we made the following restricted stock awards to our named executive officers in March 2013:

Executive	No. of Restricted Shares
Craig A. Collard	45,000
Kenneth R. McBean	40,000
Andrew K. W. Powell	21,375
Joshua B. Franklin	25,000

Each restricted stock award vests over four years, with 25% vesting on each annual anniversary of the grant date, subject to the executive's continued employment with us. All awards granted to Mr. Powell in March 2013 were forfeited in connection with his resignation on August 30, 2013.

Stock Ownership and Retention Guidelines

Although we encourage our executive officers and directors to hold stock in our company to better align their interests with those of our stockholders, we do not currently have in place any formal stock ownership or retention guidelines. However, we provide equity awards to each of our executive officers and directors, and each of these equity awards contains vesting provisions that prevent such persons from disposing of these shares until these conditions are satisfied. In addition, our insider trading policy prohibits our executive officers and directors, as well as certain of their family members and all entities controlled by them, from engaging in short sales of our securities or puts and purchases or sales of puts or calls for speculative purposes. We believe that these provisions are currently sufficient to promote equity ownership in our company by our executive officers and directors and to help align their interests with those of our stockholders.

Other Elements of Compensation

We primarily compensate our named executive officers through base salaries, annual bonuses and annual equity grants. In addition, our Compensation Committee has determined that it is appropriate to provide our named executive officers the same broad-based benefits as our other employees, a limited amount of perquisites and certain protections in the event of the termination of the named executive officer's employment with us and/or in connection with a change in control.

Broad-based benefits

Our named executive officers, like other employees, are entitled to participate in our employee benefit plans, including medical insurance, dental insurance, vision insurance, life insurance, long-term disability insurance and a 401(k) savings plan, including company matching contributions. In addition, our named executive officers, unlike other employees, are not required to make any payments or other contributions to participate in our medical insurance, dental insurance or vision insurance plans. Our Compensation Committee

Table of Contents

has determined that it is appropriate to provide medical, dental and vision insurance at no cost to our named executive officers as part of our compensation package to help us attract and retain superior talent and to encourage our named executive officers to utilize these programs.

Perquisites

We have provided limited perquisites to our named executive officers as a means of providing additional compensation to them, through the availability of benefits that are convenient for the executives to use when faced with the demands of their positions. During 2012, these perquisites included the use of company cars or automobile allowances, and in the case of Mr. Collard, country club memberships. Because our Compensation Committee has determined that the payment of perquisites generally does not fit our pay-for-performance model, it only represents a relatively small part of our overall compensation package. Accordingly, our Compensation Committee only approves the payment of perquisites in limited circumstances. Our Compensation Committee periodically reviews these arrangements to ensure they continue to fulfill our business needs. In 2013, for instance, we intend to discontinue the practice of providing automobile allowances and will make corresponding adjustments to the salaries of our named executive officers to reflect this change.

Executive Employment Agreements

We have entered into employment agreements with each of our named executive officers. The form of these agreements was negotiated in connection with our transaction with Chiesi. In light of the competitive industry in which we operate, combined with our majority ownership by Chiesi, our Compensation Committee believes that these employment agreements are necessary for us to attract and retain the talent necessary to lead our company. We also believe that our executive employment agreements help focus our executive officers on performance and enhancing stockholder value.

Our executive employment agreements provide benefits in connection with certain terminations of employment and certain changes of control. These provisions are discussed more fully in *Potential Payments Upon Termination and Change in Control* *Employment Agreements* below. In general, if we terminate a named executive officer without cause, or if the named executive officer resigns with good reason, the officer is entitled to cash severance, continuation of healthcare benefits and acceleration of vesting of his outstanding equity awards by one year. If such without cause or good reason termination occurs three months before or three months after a change of control, the executive officer's equity will become 100% vested.

In addition, if we experience a change of control, we provide our named executive officers with immediate acceleration of their equity. We believe that accelerating the vesting of outstanding equity awards is appropriate because, depending on the structure of the transaction, the continuation of such awards may unnecessarily complicate a potentially beneficial transaction. It may not be possible to replace these awards with comparable awards of the acquiring company's stock, and we believe that it would not be fair to our executives to lose the benefit of these outstanding awards. The acceleration of such awards may allow the executive to exercise the awards and possibly participate in the change in control transaction for the shares received. We believe that our change of control benefits promote the stability and retention of our named executive officers in the event of a potential change of control and assist them in being able to react neutrally and not be influenced by personal financial concerns. In addition, the acceleration of vesting aligns the interests of executives in a potential change of control transaction with those of our stockholders, by motivating them to work towards the completion of the transaction.

Tax and Accounting Considerations

Tax Deductibility of Compensation Expense

Under Section 162(m) of the Internal Revenue Code of 1986, as amended, a publicly held corporation such as ours will generally not be allowed a federal income tax deduction for otherwise deductible compensation paid to our named executive officers to the extent that compensation paid to a particular officer is not performance-based and

Table of Contents

exceeds \$1 million in any fiscal year. However, qualifying performance-based compensation, including compensation attributable to the issuance or exercise of equity incentives, such as nonstatutory stock options, will not be subject to the deductibility limitation if certain conditions are met.

The base salaries, cash bonuses and certain equity incentive components of our executive compensation program (e.g., any service-based restricted stock awards that we make) generally do not constitute qualifying performance-based compensation for purposes of Section 162(m). However, given that the annual non-performance-based compensation of our named executive officers is below \$1 million per year, Section 162(m) does not have a significant impact on our Compensation Committee's executive compensation decisions.

Accounting Considerations

Our Compensation Committee also considers the accounting and cash flow implications of various forms of executive compensation. In our financial statements, we record salaries and bonuses as expenses in the amount paid or to be paid to our named executive officers. Accounting rules also require us to record an expense in our financial statements for equity awards, even though equity awards are not paid as cash to employees. The accounting expense of equity awards to employees is calculated in accordance with GAAP. Under GAAP, stock-based compensation expense is measured at the grant date based on the fair value of the award and is generally recognized on a straight-line basis over the vesting period. Our Compensation Committee believes that the many advantages of equity compensation, as discussed above, more than compensate for the non-cash accounting expense associated with it.

Executive Incentive Compensation Recovery ("Clawback") Policy

Our Board of Directors adopted an Executive Incentive Compensation Recovery ("Clawback") Policy, effective as of March 2, 2011, pursuant to which, in the event that noncompliance with applicable financial reporting requirements results in a material restatement of our financial statements, we will have the right to recover from an executive officer any portion of cash or equity incentive compensation awards granted after January 1, 2011 in excess of what should have been paid or awarded. We will implement this policy in accordance with the rules of the SEC, as they are promulgated.

Risk Management

Our Compensation Committee endeavors to design our compensation programs to help ensure that these programs do not encourage our executive officers to take unnecessary and excessive risks that could harm our long-term value. We believe that the following components of our executive compensation program, which are discussed more fully below, discourage our executive officers from taking unnecessary or excessive risks:

Base salaries and benefits are sufficiently competitive and not subject to performance risk.

Individual and corporate goals for our executive officers are generally designed to be achievable with sustained and focused effort.

Equity awards begin vesting no earlier than one year from the date of grant and incentivize our executive officers to take steps designed to increase our share price, thus aligning our executives' interests with the interests of our stockholders.

Our clawback policy allows us to seek recovery of certain compensation from our executive officers in the event of accounting restatement caused by our material noncompliance with applicable financial reporting requirements. Our Compensation Committee annually reviews our executive compensation programs to ensure that they do not encourage excess risk-taking.

Compensation Program Risk Assessment

During 2012, we conducted a risk assessment of our compensation policies and practices for all of our employees (not just our executive officers). Based on this review, we concluded that risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on us. Our risk assessment included a review of program policies and practices; program analysis to identify risk and risk control related to the programs; and determinations as to the sufficiency of risk identification, the balance of potential risk to potential reward, risk control and the support of the programs and their risks to company strategy. Although we reviewed all compensation programs, we focused on the programs with variability of payout (e.g., bonus plans and sales commissions), with the ability of a participant to directly affect payout and the controls on participant action and payout. As part of our review, we specifically noted the following factors that reduce the likelihood that excessive risk taking would have a material adverse effect on us: (i) a strong internal control structure, (ii) payment to our employees of competitive base salaries and benefits that are not subject to performance risk, (iii) performance bonuses that are not based on preset formulas but are in the discretion of our Compensation Committee and (iv) short-term incentive compensation that is counterbalanced with long-term incentive compensation.

Potential Payments Upon Termination and Change in Control

This section describes the circumstances that would trigger payments and benefits and quantifies the estimated amount of these payments and benefits in different scenarios. If a triggering event were to occur, the actual payments and benefits would likely be different from those presented here since the actual payments and benefits can only be determined at the time the relevant triggering event actually occurs. Because the following discussion only provides a general discussion of the circumstances that could trigger payments or benefits, the amounts reflected below do not specifically contemplate the proposed Chiesi Merger. Change of control payments and benefits that may be made to our named executive officers in connection with the proposed Chiesi Merger will be described in a future proxy statement relating to the special meeting where our stockholders will be asked to approve the proposed merger.

Employment Agreements

We have entered into employment agreements with each of our named executive officers that provide that each of our named executive officers is (or was) entitled to minimum annual base salary; consideration for a discretionary target annual bonus specified as a percentage of the executive officer's base salary; car allowance or reimbursement (except Mr. McEwan); certain health, retirement and other benefits; and severance. The discretionary target annual bonus amounts are (or were) 50% for Mr. Collard, 40% for Mr. McBean and 35% for our other named executive officers. In addition, the employment agreement for Mr. Franklin provides for target annual awards of options to purchase 50,000 shares of our common stock, in the discretion of the Compensation Committee, in each of 2010, 2011 and 2012. Effective August 30, 2013, Mr. Powell resigned and ceased serving as our Executive Vice President, General Counsel and Secretary.

Each of the employment agreements with our named executive officers provides (or provided) that the named executive officer may not compete with us during the term of his employment and, if his employment is terminated, for certain periods following termination. For Mr. Collard, the noncompetition period continues for (i) one and a half years following a termination without Cause or for Good Reason and not during a Change of Control Period, (ii) two years following a termination without Cause or for Good Reason during a Change of Control Period and (iii) one year following a termination under any other circumstances. The noncompetition period for each of our other named executive officers extends for one year following termination in all circumstances.

The employment agreements also prohibit each of our named executive officers from soliciting, among others, our employees and customers during the term of his employment and for one year following the termination of his employment. Each employment agreement also contains customary provisions relating to confidentiality, proprietary information and non-disparagement. Additionally, the employment agreements provide that upon a Change of Control 100% of the named executive officer's unvested stock options and restricted stock vest, regardless of whether his employment is terminated (except Mr. McEwan's).

Table of Contents

With respect to our named executive officers, except Mr. McEwan, if we terminate such executive officer's employment without Cause or if the executive officer terminates his employment for Good Reason and such termination is not during a Change of Control Period, and if the executive officer executes a release and settlement agreement in a form acceptable to us, he will be entitled to:

a lump sum payment equal to one times (1.5 times in the case of Mr. Collard) his annualized base salary;

continuation of benefits for the shorter of 12 months or until he is eligible for other employer-sponsored health coverage;

a lump sum payment in an amount equal to a pro rata payment of his target cash bonus; and

accelerated vesting of all of his outstanding unvested stock options and restricted stock by one year.

With respect to Mr. Morgus and Mr. McBean, however, if we had provided notice of termination without Cause prior to the first anniversary of the effective date of the executive's employment agreement, the above provisions would have been inapplicable.

With respect to Mr. McEwan, however, if we terminate his employment without Cause or he terminates his employment for Good Reason, without regard to our company being in a Change of Control Period, he will be entitled to:

a lump sum payment in an amount equal to a pro rata payment of his target cash bonus; and

accelerated vesting of all of his outstanding unvested stock options and restricted stock.

If we terminate a named executive officer's (other than Mr. McEwan's) employment without Cause or if the named executive officer terminates his employment for Good Reason and such termination is during a Change in Control Period, and if the named executive officer executes a release and settlement agreement in a form acceptable to us, he will be entitled to:

a lump sum payment equal to one times his annualized base salary (two times his highest annualized base salary during the three-year period prior to the Change in Control in the case of Mr. Collard);

continuation of benefits for the shorter of 12 months (24 months in the case of Mr. Collard) or until he is eligible for other employer-sponsored health coverage;

a lump sum payment in an amount equal to a pro rata payment of his target cash bonus (the annual bonus paid or payable for the most recently completed fiscal year in the case of Mr. Collard); and

accelerated vesting of 100% of his outstanding unvested stock options and restricted stock.

If Mr. Collard's employment is terminated due to his death, then his estate will receive a lump sum payment in an amount equal to a pro rata payment of the annual cash bonus, if any, paid to him in the year prior to his death. For all other named executive officers, if terminated due to their death, the named executive officer's estate will receive a lump sum payment in an amount equal to a pro rata payment of the annual cash bonus for which such named executive officer would have been eligible.

Edgar Filing: CORNERSTONE THERAPEUTICS INC - Form DEF 14A

Upon termination of Mr. Collard's employment, we will pay or reimburse Mr. Collard for the balance of the remaining lease payments on the vehicle provided by us for his use, and will assign and transfer title and other appropriate evidence of ownership of the vehicle to him in exchange for \$100.

a material violation of our policies, including but not limited to violations of our policies prohibiting harassment or discrimination; or

willful breach of the employment agreement, if such willful breach is not cured within thirty (30) days after our written notice thereof specifying the nature of such willful material breach.

Good Reason means:

a material reduction in the annual base compensation (but exclusive of any target cash bonus, annual equity award or other similar cash bonus or equity plans for this purpose);

a material reduction in the named executive officer's level of responsibility to that which is not consistent with the position held by the named executive officer, and with respect to Mr. McEwan, a change in his reporting relationship.

In addition, Mr. Morgus's executive employment agreement provided, and Mr. McBean's executive employment agreement provides, that Good Reason exists if (i) our shares cease to be publicly traded at a time when Chiesi and its affiliates do not own at least 50% of our outstanding shares or (ii) our shares are delisted from or by NASDAQ at a time when Chiesi and its affiliates do not own at least 50% of our outstanding shares.

our liquidation or dissolution.

In the case of Mr. Morgus and Mr. McBean, any change in ownership of our outstanding capital stock that results from the acquisition of additional shares by Chiesi or any of its affiliates (including any going private transaction whereby Chiesi would acquire all of our outstanding capital stock not then owned by them), or changes in Board composition resulting from the exercise by Chiesi and its affiliates of voting power as majority stockholder(s) of our company, shall not constitute a Change of Control within the context of their respective agreements.

Change of Control Period means the period from three (3) months before until three (3) months after the date on which a Change of Control occurs.

Payments Upon Termination or Change of Control

The following table summarizes the estimated amounts payable to each named executive officer, other than Messrs. Morgus and Powell, in the event of a termination of employment or change of control, or both. Amounts are based on the cost of continuing coverage under the Consolidated Omnibus Budget Reconciliation Act, as amended, or COBRA. The expenses are based on the coverage and premium rates in force on December 31, 2012.
- (2) Represents life and disability insurance premiums for 12 months for each named executive officer, except Mr. McEwan and that in the case of Mr. Collard, it represents life and disability insurance premiums for 24 months if terminated without cause or for good reason during a change of control period. In addition, Mr. Collard's amount includes \$24,262 representing the balance of the remaining lease payments on the vehicle provided by us for his use.

In October 2012, Mr. Morgus was terminated. In connection with the termination of his employment, Mr. Morgus received the following severance benefits: (i) a lump sum payment of \$285,000, being an amount equal to one times his annual base salary and \$74,812, being a pro rata portion of his target cash bonus for 2012, provided, however, that the amount of the lump sum payment was reduced by (a) the value of his 20,460 shares of remaining unvested restricted stock and (b) the amount of withholding tax paid by the company with respect to the vesting of all of his previously unvested 34,320 shares of restricted stock; (ii) monthly payments in the amount of 100% of the monthly COBRA premiums for continued health and dental coverage for him and his dependents and 100% of the amount of the monthly premiums paid by our company for life insurance and disability insurance for him until the earlier of one year after his last day of employment or the last day of the first month when he is eligible for other employer-sponsored health coverage; and (iii) accelerated vesting of his 35,312 outstanding unvested stock options and 13,860 shares of restricted stock that would have vested on or before October 19, 2013.

Effective August 30, 2013, Mr. Powell resigned and ceased serving as our Executive Vice President, General Counsel and Secretary. In connection with his voluntary resignation, Mr. Powell did not receive any severance benefits, consistent with the terms of his employment agreement.

Director Compensation

We use fees and option awards to attract and retain qualified candidates to serve on our Board of Directors. In setting director compensation, we consider both the significant amount of time directors expend in fulfilling their duties to us and the skill level required to be a director.
