Item 1.01 Entry Into a Material Definitive Agreement.

On August 14, 2015, Dominion Midstream Partners, LP (the Partnership) and Iroquois GP Holding Company, LLC, a wholly-owned subsidiary of the Partnership (Iroquois Holding), entered into a Contribution Agreement (the NG Contribution Agreement) with North East Transmission Co., Inc. (NETCO) and National Grid IGTS Corp. (IGTS) and, together with NETCO, NG) and a Contribution Agreement (the NJNR Contribution Agreement) and, together with the NG Contribution Agreement, the Contribution Agreements) with NJNR Pipeline Company (NJNR).

Pursuant to the Contribution Agreements, at the closing thereunder (which is to occur at approximately the same time under both Contribution Agreements):

NG and NJNR will contribute to the Partnership, and the Partnership will accept from NG and NJNR, a 20.4% partnership interest and a 5.53% partnership interest, respectively, in Iroquois Gas Transmission System, L.P., a Delaware limited partnership (Iroquois); and

in exchange for the Iroquois partnership interests, the Partnership will issue (i) 6,783,373 common units representing limited partner interests in the Partnership (Common Units) to NG and (ii) 1,838,932 Common Units to NJNR

(such contributions of Iroquois partnership interests and issuances of Common Units in exchange therefor being referred to individually as a Transaction and collectively as the Transactions). The aggregate value of the Common Units to be issued to NG in the Transactions is approximately \$225.4 million and the aggregate value of the Common Units to be issued to NJNR in the Transactions is approximately \$61.1 million, with such amounts determined as provided in the Contribution Agreements.

NG and NJNR have agreed to certain transfer restrictions applicable to the Common Units to be issued to such parties, including, with limited exceptions, a one-year lockup period following the closing of the Transactions. The Partnership has agreed to grant to NG and NJNR certain registration rights and piggyback registration rights with respect to future offerings of Common Units by the Partnership.

The registration rights agreements which we expect to enter into at closing will require the Partnership to register the Common Units to be issued in the Transactions for resale when the Partnership becomes eligible to file a registration statement on Form S-3, but will not change the lockup periods to which NG and NJNR will be subject. These registration rights agreements will also include provisions dealing with holdback agreements, indemnification and contribution and allocation of expenses. These registration rights will be transferable to affiliates and, in certain circumstances, to third parties.

The closing of each of the Transactions is conditioned upon the closing of the other, as well as upon clearance under the Hart-Scott-Rodino Act and other customary closing conditions.

No market issuance of Common Units is planned in connection with the Transactions.

Iroquois is a Delaware limited partnership that owns and operates a 416-mile, FERC-regulated natural gas transmission pipeline that extends from the Canada-United States border near Waddington, New York through the states of New York and Connecticut to South Commack, NY on Long Island and Hunts Point, NY in the Bronx. It was formed in 1985 and commenced full operations in 1992. Dominion Gas Holdings, LLC, a wholly-owned subsidiary of Dominion Resources, Inc. (Dominion) and an affiliate of the Partnership, indirectly holds a 24.72% partnership interest in Iroquois.
