QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended March 31, 2008

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

**Commission File Number 0-18279
Tri-County Financial Corporation**

(Exact name of registrant as specified in its charter)

Maryland 52-1652138
(State of other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

3035 Leonardtown Road, Waldorf, Maryland 20601
(Address of principal executive offices) (Zip Code)

(301) 843-0854

(Registrant's telephone number, including area code)

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of April 30, 2008 the registrant had 2,958,382 shares of common stock outstanding.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
THREE MONTHS ENDED MARCH 31, 2008 AND 2007

1. BASIS OF PRESENTATION

General The consolidated financial statements of Tri-County Financial Corporation (the Company) and its wholly owned subsidiary, Community Bank of Tri-County (the Bank) included herein are unaudited. However, they reflect all adjustments consisting only of normal recurring accruals that, in the opinion of management, are necessary to present fairly the Company's financial condition, results of operations, and cash flows for the periods presented. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. The Company believes that the disclosures are adequate to make the information presented not misleading. The balances as of December 31, 2007 have been derived from audited financial statements. There have been no significant changes to the Company's accounting policies as disclosed in the 2007 Annual Report. The results of operations for the three months ended March 31, 2008 are not necessarily indicative of the results of operations to be expected for the remainder of the year or any other period. Certain previously reported amounts have been restated to conform to the 2008 presentation.

It is suggested that these consolidated financial statements be read in conjunction with the consolidated financial statements and notes included in the Company's Annual Report for the year ended December 31, 2007.

2. NATURE OF BUSINESS

The Company, through its bank subsidiary, provides domestic financial services primarily in Southern Maryland. The primary financial services include real estate, commercial and consumer lending, as well as traditional demand deposits and savings products.

3. FAIR VALUE MEASUREMENTS

Effective January 1, 2008, the Company adopted the Statement of Financial Accounting Standards (SFAS) No. 157 (SFAS 157), *Fair Value Measurements*. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 applies whenever other standards require (or permit) assets or liabilities to be measured at fair value but does not expand the use of fair value in any new circumstances. In this standard, the Financial Accounting Standards Board (FASB) clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability. In support of this principle, SFAS 157 establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. The fair value hierarchy is as follows:

Level 1 inputs Unadjusted quoted process in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date.

Level 2 inputs Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs Unobservable inputs for determining the fair values of assets or liabilities that reflect an entity's own assumptions about the assumptions that market participants would use in pricing the assets or liabilities.

Available-for-sale securities is the only balance sheet category the Company is required by generally accepted accounting principles to account for at fair value. The following table presents information about the Company's assets measured at fair value on a recurring basis as of March 31, 2008, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value.

Table of Contents

	Fair Value Measurements					Total Changes In Fair Values Included In Period Earnings
	At March 31, 2008, Using					
(dollars in thousands)	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Trading Gains and (Losses)	
Description	March 31, 2008					
Available-for-Sale Securities	\$ 14,350,874	\$	\$ 14,350,874	\$	\$	\$
Outstanding at March 31, 2008	\$ 14,350,874	\$	\$ 14,350,874	\$	\$	\$

Securities Available for Sale. Securities classified as available for sale are reported at fair value utilizing Level 2 inputs. For these securities, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond s terms and conditions, among other things.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115*. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the FASB s long-term measurement objectives for accounting for financial instruments. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company has not elected the fair value option for any financial assets or liabilities at March 31, 2008.

4. INCOME TAXES

The Company uses the liability method of accounting for income taxes as required by SFAS No. 109, *Accounting for Income Taxes*. Under the liability method, deferred-tax assets and liabilities are determined based on differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities (i.e., temporary differences) and are measured at the enacted rates that will be in effect when these differences reverse. The Company also adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) on January 1, 2007. FIN 48 is an interpretation of FASB Statement No. 109, *Accounting for Income Taxes*, and seeks to reduce the diversity in practice associated with certain aspects of measurement and recognition in accounting for income taxes. In addition, FIN 48 provides guidance on de-recognition, classification, interest and penalties, and accounting in interim periods and requires expanded disclosure with respect to the uncertainty in

income taxes. There was no cumulative effect as a result of applying FIN 48. No adjustment was made to our opening balance of retained earnings.

5. EARNINGS PER SHARE

Earnings per common share are computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share is computed by dividing net income by the weighted average number of common shares outstanding during the period, including any potential dilutive common shares outstanding, such as options and warrants. As of March 31, 2008 and 2007, there were 21,811 and 0 shares excluded from the diluted net income per share computation because inclusion of these options would be anti-dilutive. Basic and diluted earnings per share, have been computed based on weighted-average

Table of Contents

common and common equivalent shares outstanding as follows:

	Three Months Ended	
	March 31,	
	2008	2007
Basic	2,932,699	2,643,950
Diluted	3,082,493	2,829,778

6. STOCK-BASED COMPENSATION

The Company has stock option and incentive plans to attract and retain key personnel in order to promote the success of the business. These plans are described in Note 12 to the financial statements included in our Annual Report to Stockholders for the year ended December 31, 2007. No compensation related expense related to stock options was recognized in the quarters ended March 31, 2008 or during 2007.

The Company and the Bank currently maintain incentive plans which provide for payments to be made in either cash or stock options. The Company has accrued the full amounts due under these plans, but currently it is not possible to identify the portion that will be paid out in the form of stock options.

A summary of the Company's stock option plans as of March 31, 2008, and changes during the three-month period then ended is presented below:

	Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value (1)	Weighted-Average Contractual Life Remaining In Years
Outstanding at December 31, 2007	428,619	\$ 14.72		
Granted at fair value				
Exercised	(63,807)	11.25		
Expired				
Forfeited	(2,472)	19.52		
Outstanding at March 31, 2008	362,340	\$ 15.30	\$ 3,231,724	4.6
Exercisable at March 31, 2008	362,340	\$ 15.30	\$ 3,231,724	4.6

7. GUARANTEED PREFERRED BENEFICIAL INTEREST IN JUNIOR SUBORDINATED DEBENTURES

On June 15, 2005, Tri County Capital Trust II (Capital Trust II), a Delaware business trust formed, funded and wholly owned by the Company, issued \$5,000,000 of capital securities with an interest rate based on the 90-day LIBOR rate plus 1.70%. The Trust used the proceeds from this issuance to purchase \$5.2 million of the Company's junior subordinated debentures. The interest rate on the debentures and the trust preferred securities is variable and adjusts quarterly. The Company has, through various contractual arrangements, fully and unconditionally guaranteed all of Capital Trust II's obligations with respect to the capital securities. These capital securities qualify as Tier I capital and are presented in the Consolidated Balance Sheets as Guaranteed Preferred Beneficial Interests in Junior Subordinated Debentures. Both the capital securities of Capital Trust II and the junior subordinated

debentures are scheduled to mature on June 15, 2035, unless called by the Company not earlier than June 15, 2010.

On July 22, 2004, Tri County Capital Trust I (Capital Trust I), a Delaware business trust formed, funded and wholly owned by the Company, issued \$7,000,000 of capital securities with an interest rate based on the 90-day LIBOR rate plus 2.60%. The Trust used the proceeds from this issuance to purchase \$7.2 million of the

Table of Contents

Company's junior subordinated debentures. The interest rate on the debentures and the trust preferred securities is variable and adjusts quarterly. The Company has, through various contractual arrangements, fully and unconditionally guaranteed all of Capital Trust I's obligations with respect to the capital securities. These capital securities qualify as Tier I capital and are presented in the Consolidated Balance Sheets as Guaranteed Preferred Beneficial Interests in Junior Subordinated Debentures. Both the capital securities of Capital Trust I and the junior subordinated debentures are scheduled to mature on July 22, 2034, unless called by the Company not earlier than July 22, 2009.

Costs associated with the issuance of the trust-preferred securities were less than \$10,000 and were expensed as period costs.

8. CHANGE IN ACCOUNTING PRINCIPLE

In September 2006, the FASB ratified the consensus reached by the EITF on Issue No. 06-4, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements. EITF 06-4 requires the recognition of a liability and related compensation costs for endorsement split-dollar life insurance policies that provide a benefit to an employee that extends to postretirement periods as defined in SFAS No. 106, Employers' Accounting for Postretirement Benefits Other Than Pensions. The EITF reached a consensus that Bank Owned Life Insurance policies purchased for this purpose do not effectively settle the entity's obligation to the employee in this regard and thus the entity must record compensation cost and the related liability. Entities should recognize the effects of applying this Issue through either, (a) a change in accounting principle through a cumulative effect adjustment to retained earnings or to other components of equity or net assets in the balance sheet as of the beginning of the year of adoption, or (b) a change in accounting principle through retrospective application to all prior periods. This issue is effective for fiscal years beginning after December 15, 2007. The effects of this guidance have been applied as a change in accounting principle through a cumulative effect adjustment to retained earnings of \$314,847.

9. NEW ACCOUNTING STANDARDS

In September 2006, the FASB issued *SFAS 157, Fair Value Measurements*. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS 157 applies to existing accounting pronouncements that require or permit fair value measurements in which FASB had previously concluded fair value is the most relevant measurement attribute. Accordingly, SFAS 157 does not require any new fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, with early adoption encouraged. The adoption of SFAS 157 on January 1, 2008 did not significantly impact the Company's consolidated financial statements. The fair value option was not elected for any financial instrument as of March 31, 2008.

SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115. SFAS 159 permits entities to choose to measure eligible items at fair value at specified election dates. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings at each subsequent reporting date. The fair value option (i) may be applied instrument by instrument, with certain exceptions, (ii) is irrevocable (unless a new election date occurs) and (iii) is applied only to entire instruments and not to portions of instruments. The adoption of SFAS 159 on January 1, 2008 did not significantly impact the Corporation's financial statements.

SFAS 141(R), Business Combinations (Revised) SFAS 141R replaces SFAS 141, *Business Combinations*, and applies to all transactions and other events in which one entity obtains control over one or more other

businesses. SFAS 141R requires an acquirer, upon initially obtaining control of another entity, to recognize the assets, liabilities, and any non-controlling interest in the acquiree at fair value as of the acquisition date. Contingent consideration is required to be recognized and measured at fair value on the date of acquisition rather than at a later date when the amount of that consideration may be determinable beyond a reasonable doubt. This fair value approach replaces the cost-allocation process required under SFAS 141 whereby the cost of an acquisition was allocated to the individual assets acquired and liabilities assumed based on their estimated fair value. SFAS 141R requires acquirers to expense acquisition related costs as incurred rather than allocating

Table of Contents

such costs to the assets acquired and liabilities assumed, as was previously the case under SFAS 12. Under SFAS 141R, the requirements of SFAS 146, accounting for costs associated with exit or disposal contingencies are to be recognized at fair value unless it is a non-contractual contingency that is likely to materialize, in which case, nothing should be recognized in purchase accounting and, instead, that contingency would be subject to the probable and estimable recognition criteria of SFAS 5, Accounting for Contingencies. SFAS 141R will have a significant impact on the Company's accounting for any future acquisitions closing on or after January 1, 2009.

SFAS no. 160, Non-controlling Interest in Consolidated Financial Statements, an amendment of ARB Statement No. 51. SFAS 160 amends Accounting Research Bulletin (ARB) No. 51, Consolidated Financial Statements, to establish accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 clarifies that a non-controlling interest in a subsidiary, which is sometimes referred to as minority interest, is an ownership interest in the consolidated entity that should be reported as a component of equity in the consolidated financial statements. Among other requirements, SFAS 160 requires consolidated net income to be reported at amounts that include the amounts attributable to both parent and the non-controlling interest. SFAS 160 is effective for the Company on January 1, 2009 and is not expected to have a significant impact on the Company's financial statements.

SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB No. 133. This statement changes the disclosure requirements for derivative instruments and hedging activities. SFAS No. 161 requires enhance disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. This statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 and is not expected to have a significant impact on the Company's financial statements.

Staff Accounting Bulletin (SAB) No. 109 of the Securities and Exchange Commission (SEC) Written Loan Commitments Recorded at Fair Value Through Earnings. SAB No. 109 supersedes SAB 105, *Application of Accounting Principles to Loan Commitments*, and indicates that the expected net future cash flows related to the associated servicing of the loan should be included in the measurement of all written loan commitments that are accounted for at fair value through earnings. The guidance in SAB 109 is applied on a prospective basis to derivative loan commitments issued or modified in fiscal quarters beginning after December 15, 2007. The adoption of SAB 109 on January 1, 2008 did not significantly impact the Company's financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including discussions of Tri-County Financial Corporation's (the Company) goals, strategies and expected outcomes; estimates of risks and future costs; and reports of the Company's ability to achieve its financial and other goals. Forward-looking statements are generally preceded by terms such as expects, believes, anticipates, intends and similar expressions. These forward-looking statements are subject to significant known and unknown risks and uncertainties because they are based upon future economic conditions, particularly interest rates, competition within and without the banking industry, changes in laws and regulations applicable to the Company, changes in accounting principles, and various other matters. Additional factors that may affect our results are discussed in Part I of the Company's Annual Report on Form 10-K for the year ended December 31, 2007 (the Form 10-K) and Part II of this Quarterly Report on Form 10-Q under Item 1A. Risk Factors. Because of these uncertainties, there can be no assurance that actual results, performance or achievements of the Company will not differ materially from any future results, performance or achievements expressed or implied by these forward-looking statements. The Company does not undertake and specifically disclaims any obligation to publicly release the result of any revisions that may be made to any forward-looking statement to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

GENERAL

The Company is a bank holding company organized in 1989 under the laws of the State of Maryland. It owns all the outstanding shares of capital stock of Community Bank of Tri-County (the Bank), a Maryland-chartered commercial bank. The Company engages in no significant activity other than holding the stock of the Bank, the payment of its subordinated debt, and directing the business of the Bank. Accordingly, the information set forth in this report, including financial statements and related data, relates primarily to the Bank and its subsidiaries.

The Bank serves the Southern Maryland area through its main office and nine branches located in Waldorf, Bryans Road, Dunkirk, Leonardtown, La Plata, Charlotte Hall, Prince Frederick, Lusby, and California, Maryland. The Bank is engaged in the commercial and retail banking business as authorized by the banking statutes of the State of Maryland and applicable Federal regulations. The Bank accepts demand and time deposits and uses these funds along with borrowings from the Federal Home Loan Bank (the FHLB), to fund loan originations to individuals, associations, partnerships and corporations. The Bank makes real estate loans including residential first and second mortgage loans, home equity lines of credit and commercial mortgage loans. The Bank also makes commercial loans including secured and unsecured loans. The Bank is a member of the Federal Reserve and FHLB Systems. The Federal Deposit Insurance Corporation provides deposit insurance coverage up to applicable limits.

Since its conversion to a state chartered commercial bank in 1997, the Bank has sought to increase its commercial, commercial real estate, construction, second mortgage, home equity, and consumer lending business as well as the level of transactional deposits to levels consistent with similarly sized commercial banks. As a result of this emphasis, the Bank's percentage of assets invested in residential first mortgage lending has declined since 1997. Conversely, targeted loan types have increased. The Bank has also seen an increase in transactional deposit accounts while the percentage of total liabilities represented by certificates of deposits has declined. Management believes that these changes will enhance the Bank's overall long-term financial performance.

Management recognizes that the shift in composition of the Bank's loan portfolio away from residential first mortgage lending will tend to increase its exposure to credit losses. The Bank continues to evaluate its allowance for loan losses and the associated provision to compensate for the increased risk. Any evaluation of the allowance for loan losses is inherently inexact and reflects management's expectations as to future interest rates, economic conditions in the Southern Maryland area as well as individual borrower's circumstances. Management believes that its allowance for loan losses is adequate. For further information on the Bank's allowance for loan losses see the discussion in the sections captioned Financial Condition and Critical Accounting Policies as well as the relevant discussions in the Form 10-K and Annual Report for the year ended December 31, 2007.

The Federal Funds target rate moved up for much of 2006 and 2007, hitting a multi-year peak on June 29, 2007 of 5.25%. Shortly afterwards, it became clear that the US economy suffered from an over-extension of credit in many sectors. This realization led to a sudden, dramatic decline in the availability of credit to many borrowers including

both

Table of Contents

corporations and consumers. These disruptions deflated a housing price bubble and threatened to create a credit crisis. The Federal Reserve reacted to the multi-faceted crisis by cutting the Federal Funds rate. Federal Funds rates were cut by 50 basis points in September 2007, followed by accelerating rate cuts in the first quarter of 2008. Data provided by futures contracts and other market signals indicate that credit market participants expect further rate cuts in the short term. Currently, the Federal Funds target rate is 2.00% after a rate cut in April 2008. Comments from individual Federal Reserve governors as well as minutes and other official statements indicate that the Federal Reserve is increasingly worried about inflation and the value of US currency. These concerns would tend to make the Federal Reserve less likely to further cut rates. These mixed signals combined with an ongoing credit crisis make it difficult to predict future US economic conditions and interest rates.

SELECTED FINANCIAL DATA

	Three Months Ended	
	March 31,	
	2008	2007
Condensed Income Statement:		
Interest Income	\$9,507,783	\$9,524,192
Interest Expense	4,651,489	4,981,032
Net Interest Income	4,856,294	4,543,160
Provision for Loan Loss	160,224	256,526
Non-interest Income	587,451	550,693
Non-interest Expense	3,351,543	3,261,150
Income Before Income Taxes	1,931,978	1,576,177
Income Taxes	615,737	566,558
Net Income	1,316,241	1,009,619
Per Common Share:		
Basic Earnings	\$ 0.45	\$ 0.38
Diluted Earnings	\$ 0.42	\$ 0.36
Book Value	\$ 17.04	\$ 14.65

RESULTS OF OPERATIONS

Net income for the three-month period ended March 31, 2008 totaled \$1,316,241 (\$0.45 basic and \$0.42 diluted earnings per share) compared to \$1,009,619 (\$0.38 basic and \$0.36 diluted earnings per share) for the same period in the prior year. This increase of \$306,622 or 30.37%, was caused by increases in net interest and non-interest income and declines in the provision for loan losses and the effective tax rate partially offset by an increase in non-interest expenses.

For the three-month period ended March 31, 2008, interest income decreased by \$16,409, or 0.17%, to \$9,507,783. The decrease was due to lower rates earned on interest earning assets partially offset by higher average asset balances in the current period. The lower rates on assets were primarily the result of lower rates earned on loans which are tied to the Prime rate which declined as the Federal Funds target rate declined. Interest expense decreased to \$4,651,489 in the three-month period ended March 31, 2008 as compared to \$4,981,032 in the same period in the prior year, a decrease of \$329,543, or 6.62%. The decrease was the result of lower interest rates on certain deposit types partially offset by a higher average balance of interest bearing liabilities. The lower deposit rates were primarily in shorter term interest bearing deposits such as short-term certificates of deposit and money market deposit accounts. The rates on these accounts tend to decrease when the Federal Funds target rate decreases.

Provision for loan losses decreased to \$160,224 for the three months ended March 31, 2008 from \$256,526 for the three-month period ended March 31, 2007. The decrease in the provision was based on the Company's continued low amount of delinquencies, non-accrual loans and write-offs. The Bank's net write-offs of loans declined from \$55,592 for the three months ended March 31, 2007 to \$26,519 for the three months ended March 31, 2008. In addition, the

Bank's loan growth for the three months ended March 31, 2007 was in categories of loans which required higher levels of loan loss allowance than the growth experienced in the three months ending March 31, 2008. The Bank experienced a decline in

Table of Contents

non-accrual loans from \$414,005 at December 31, 2007 to \$132,621 at March 31, 2008. Management will continue to periodically review its allowance for loan losses and the related provision and make adjustments as deemed necessary. Our reviews include a review of economic conditions nationally and locally, as well as a review of the performance of significant major loans and the overall portfolio.

	Three Months Ended			
	2008	2007	\$ Change	% Change
NONINTEREST INCOME:				
Loan appraisal, credit, and miscellaneous charges	\$ 110,263	\$ 63,588	\$ 46,675	73.40%
Gain on sale of assets	2,041		2,041	100.00%
Net gain on the sale of foreclosed property		66,428	(66,428)	(100.00%)
Income from bank owned life insurance	97,218	82,517	14,701	17.82%
Loss on sale of investment securities		16,912	(16,912)	(100.00%)
Service charges	377,929	321,248	56,681	17.64%
Total noninterest income	\$ 587,451	\$ 550,693	\$ 36,758	6.67%

Loan appraisal, credit, and miscellaneous charges increased based upon changes in market conditions and on an increase in loan originations. The absence of a gain on sale of foreclosed property in 2008 reflected that there were no sales of foreclosed property in 2008 as compared to one sale in 2007. The increase in income from bank-owned life insurance reflects a higher average balance of Bank owned life insurance in the current year. The change in gain on sale of investment securities reflects the sale of \$233,743 in investment securities in 2007 compared to no investment sales in 2008. The increase in service charges reflects higher transaction account balances as well as increased fees.

	Three Months Ended March			
	31,			
	2008	2007	\$ Change	% Change
NON-INTEREST EXPENSE:				
Salary and employee benefits	\$ 2,010,210	\$ 1,883,486	\$ 126,724	6.73%
Occupancy	363,176	311,430	51,746	16.62%
Advertising	170,443	161,123	9,320	5.78%
Data processing	45,890	187,591	(141,701)	(75.54)%
Legal and professional fees	114,167	116,605	(2,438)	(2.09)%
Depreciation	132,402	119,258	13,144	11.02%
Telephone communications	23,631	22,911	720	3.14%
ATM expenses	83,765	67,017	16,748	24.99%
Office supplies	39,484	46,461	(6,977)	(15.02)%
Office equipment	25,213	11,210	14,003	124.92%
Other	343,162	334,058	9,104	2.73%
Total non-interest expenses	\$ 3,351,543	\$ 3,261,150	\$ 90,393	2.77%

Salary and employee benefits costs increased because of increases in the number of personnel employed by the Bank and increased benefits costs. Employees were added to staff some administrative and sales positions as well as to staff a new branch. In addition, the Bank's average cost per employee has increased in the last year due to tight labor markets and the need to add highly skilled employees as the Bank grows in size and complexity. Occupancy expense increased as the Bank opened an additional branch in 2008, rented temporary space in connection with the rebuilding of a branch, and experienced increases in land rentals on certain properties. The drop in data processing expense reflects improved pricing in this area from certain vendors, as well as a credit from a vendor to settle previous pricing issues. Depreciation expense includes increases due to a remodeled home office, an additional branch, and additional equipment. ATM

Table of Contents

expenses reflect the replacement of older machines at some locations and additional usage of existing machines. Income tax expense increased to \$615,737, or 31.88%, of pretax income, in the current year, from \$566,558, or 35.95%, of pretax income, in the prior year. The lower effective tax rate was caused by an increase in the size of the Company's deferred tax asset triggered by an increase in Maryland tax rates as of January 1, 2008.

FINANCIAL CONDITION**Assets**

	March 31, 2008	December 31, 2007	\$ Change	% Change
Cash and due from banks	\$ 4,030,326	\$ 3,267,920	\$ 762,406	23.33%
Federal Funds sold	2,421,740	885,056	1,536,684	173.63%
Interest-bearing deposits with banks	17,535,442	7,273,661	10,261,781	141.08%

Securities held to maturity	94,598,576	92,687,603	1,910,973	2.06%
Federal Home Loan Bank and Federal Reserve Bank stock at cost	6,249,300	5,354,500	894,800	16.71%
Loans receivable net of allowance for loan losses of \$4,616,188 and \$4,482,483 respectively	468,272,655	453,614,133	14,658,522	3.23%
Premises and equipment, net	10,071,198	9,423,302	647,896	6.88%
Accrued interest receivable	2,971,878	3,147,569	(175,691)	(5.58)%
Investment in bank owned life insurance	10,221,507	10,124,288	97,219	0.96%
Other assets	2,856,085	3,483,733	(627,648)	(18.02)%
	\$ 633,656,248	\$ 598,405,834	\$ 35,250,414	5.89%

Cash and due from banks, Federal Funds sold and interest-bearing deposits with banks increased as funds from increased deposits and long-term borrowings increased. Investment securities, including both the available for sale and held to maturity portfolios, increased due to Bank purchases of investments. The Bank's holdings of Federal Reserve and Federal Home Loan Bank stock increased because the Bank has increased its borrowings from the Federal Home Loan Bank system, which increased its stock ownership requirements. The loan portfolio increased as a result of increases in the Bank's portfolio of residential construction loans, commercial real estate loans, and commercial lines of credit due to continued marketing activity.

Details of the Bank's loan portfolio are presented below:

	March 31, 2008		December 31, 2007

	\$ 468,272,655		\$ 453,614,133	

Table of Contents

At March 31, 2008, the Bank's allowance for loan losses totaled \$4,616,188, or 0.98% of loan balances, as compared to \$4,482,483, or 0.98% of loan balances, at December 31, 2007. Management's determination of the adequacy of the allowance is based on a periodic evaluation of the portfolio with consideration given to the overall loss experience; current economic conditions; volume, growth and composition of the loan portfolio; financial condition of the borrowers; and other relevant factors that, in management's judgment, warrant recognition in providing an adequate allowance. Management believes that the allowance is adequate. Additional loan information for prior years is presented in the Company's Form 10-K.

The following table summarizes changes in the allowance for loan losses for the periods indicated.

	Three Months Ended March 31, 2008	Three Months Ended March 31, 2007
Beginning Balance	\$ 4,482,483	\$ 3,783,721
Charge Offs	26,519	57,325
Recoveries		1,733
Net Charge Offs	26,519	55,592
Provision for Loan Losses	160,224	256,526
Balance at the end of the Period	\$ 4,616,188	\$ 3,984,655

The following table provides information with respect to our non-performing loans at the dates indicated.

	Balances as of March 31, 2008	Balances as of December 31, 2007
Restructured Loans	\$	\$
Accruing loans which are contractually past due 90 days or more:	\$	\$
Loans accounted for on a nonaccrual basis	\$ 132,621	\$ 414,005
Total non-performing loans	\$ 132,621	\$ 414,005
Non-performing loans to total loans	0.03%	0.09%
Allowance for loan losses to non-performing loans	3480.74%	1082.71%

As of March 31, 2008 and December 31, 2007, \$1,525,222 and \$754,700 in loans were considered impaired under SFAS 114.

Liabilities:

Edgar Filing: TRI COUNTY FINANCIAL CORP /MD/ - Form 10-Q

	March 31, 2008	December 31, 2007	\$ Change	% Change
Deposits:				
Non-interest-bearing deposits	\$ 44,210,624	\$ 48,041,571	\$ (3,830,947)	(7.97)%
Interest-bearing deposits	416,560,151	396,952,444	19,607,707	4.94%

Total liabilities	\$ 583,496,256	\$ 549,558,758	\$ 33,937,498	6.18%

Table of Contents

Deposit balances increased due to the Bank's continuing efforts to increase its market share through advertising, branch improvements, and other marketing efforts. Non-interest bearing deposits decreased during the three month period but many of these deposits are highly variable as to balances. The Bank also chose to increase its long term debt due to favorable rates and terms currently offered. The increases in deposits and long term debt were used to fund loan growth, increase the balances of cash and cash equivalents, and investments and to reduce short-term debt.

Stockholders' Equity

	March 31, 2008	December 31, 2007	\$ Change	% Change
Common stock	\$ 29,445	\$ 29,100	\$ 345	1.19%
Additional paid in capital	16,992,205	16,914,373	77,832	0.46%
Retained earnings	33,243,573	32,303,353	940,220	2.91%
Accumulated other comprehensive income (loss)	221,422	(73,097)	294,519	(402.92)%
Unearned ESOP shares	(326,653)	(326,653)		0.00%
Total stockholders' equity	\$ 50,159,992	\$ 48,847,076	\$ 1,312,916	2.69%

Common stock and additional paid in capital increased due to the exercise of options offset by stock repurchased during the quarter. Retained earnings increased because of earnings, offset by the repurchase of 29,284 shares at a cost of \$669,232. Book value per share increased from \$16.79 per share to \$17.04 reflecting the total change in equity.

LIQUIDITY AND CAPITAL RESOURCES

The Company currently has no business other than holding the stock of the Bank and payment on its subordinated debentures. Its primary uses of funds are for the payment of dividends, the payment of interest and principal on debentures, and the repurchase of common shares. The Company's principal sources of liquidity are cash on hand and dividends received from the Bank. The Bank is subject to various regulatory restrictions on the payment of dividends. The Bank's principal sources of funds for investments and operations are net income, deposits from its primary market area, principal and interest payments on loans, interest received on investment securities and proceeds from sale and maturity of investment securities. Its principal funding commitments are for the origination or purchase of loans, the purchase of investment securities and the payment of maturing deposits. Deposits are considered a primary source of funds supporting the Bank's lending and investment activities. The Bank also uses various wholesale funding instruments including FHLB advances and reverse repurchase agreements. The Bank may borrow up to 40% of consolidated Bank assets on a line of credit available from the FHLB. As of March 31, 2008, the maximum available under this line was \$252,746,666, while outstanding advances totaled \$104,995,145. In order to draw on this line the Bank must have sufficient collateral. Qualifying collateral includes residential one-to-four family first mortgage loans, certain second mortgage loans, certain commercial real estate loans, and various investment securities. At March 31, 2008, the Bank had pledged collateral sufficient to draw \$185,000,000 under the line. In addition, the Bank has established other lines of credit totaling \$18,083,769.

The Bank's most liquid assets are cash and cash equivalents, which are cash on hand, amounts due from financial institutions, Federal Funds sold, and money market mutual funds. The levels of such assets are dependent on the Bank's operating financing and investment activities at any given time. The variations in levels of cash and cash equivalents are influenced by deposit flows and anticipated future deposit flows.

Cash, cash equivalents, and interest-bearing deposits with banks as of March 31, 2008 totaled \$23,987,508, an increase of \$12,560,871, or 109.93%, from the December 31, 2007 total of \$11,426,637. This increase was due to an increase in deposits and long-term borrowings offset by a decrease in short-term borrowings. The Bank's principal sources of cash flows are its financing activities including deposits and borrowings. During the first quarter in 2008, all financing activities provided \$33,542,053 in cash compared to \$7,571,601 for the first quarter of 2007. The increase in cash flows from financing activities during the most recent period was principally due to increases in net long-term borrowings.

Table of Contents

partially offset by a smaller net increase in deposits. In the first three months of 2007, the Company had payments of long term debt of \$10,009,956 and no proceeds of long-term borrowings, for a net reduction in long-term borrowings of \$10,009,956. In the first three months of 2008, the Company had proceeds of long term debt of \$24,000,000 offset by payments of \$5,010,363 for a net increase in long-term debt of \$18,989,637. In the first three months of 2008, the Company decreased short-term debt by \$1,241,347 compared to \$5,957,886 for the same period in the prior year. During the first quarter of 2008, net deposit growth was \$15,776,760 compared to \$23,515,990 in 2007. Operating activities provided cash of \$2,313,137 in the first quarter of 2008 compared to \$788,676 in the first quarter of 2007. The change was caused primarily by an increase of accounts payable and other accrued expenses in 2008 compared to a decrease in 2007.

The Bank's principal use of cash has been in investments in loans, investment securities and other assets. During the quarter ended March 31, 2008, the Bank invested a total of \$23,294,319 compared to \$11,943,341 in 2007. The principal reasons for the increase in cash used in investing activities was the increase in purchases of securities in the period ended March 31, 2008 compared to the same period in the prior year, and an increase in loan originations.

REGULATORY MATTERS

The Bank is subject to Federal Reserve Board capital requirements as well as statutory capital requirements imposed under Maryland law. At March 31, 2008, the Bank's tangible, leverage and risk-based capital ratios were 9.89%, 11.95% and 13.31%, respectively. These levels are in excess of the required 4.0%, 4.0% and 8.0% ratios required by the Federal Reserve Board as well as the 5.0%, 6.0%, and 10% ratios required to be considered well capitalized. At March 31, 2008, the Company's tangible, leverage and risk-based capital ratios were 10.26%, 12.38% and 12.88%, respectively. These levels are also in excess of the 4.0%, 4.0% and 8.0% ratios required by the Federal Reserve Board as well as the 5.0%, 6.0%, and 10% ratios required to be considered well capitalized.

CRITICAL ACCOUNTING POLICIES

The Company's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America and the general practices of the United States banking industry. Application of these principles requires management to make estimates, assumptions, and judgments that affect the amounts reported in the financial statements and accompanying notes. These estimates assumptions and judgments are based on information available as of the date of the financial statements; accordingly, as this information changes, the financial statements could reflect different estimates, assumptions, and judgments. Certain policies inherently have a greater reliance on the use of estimates, assumptions and judgments and as such have a greater possibility of producing results that could be materially different than originally reported. The Company considers its determination of the allowance for loan losses and the valuation allowance on its foreclosed real estate to be critical accounting policies. Estimates, assumptions, and judgments are necessary when assets and liabilities are required to be recorded at fair value, when a decline in the value of an asset not carried on the financial statements at fair value warrants an impairment write-down or valuation reserve to be established, or when an asset or liability needs to be recorded contingent upon a future event. Carrying assets and liabilities at fair value inherently results in more financial statement volatility. The fair values and the information used to record valuation adjustments for certain assets and liabilities are based either on quoted market prices or are provided by other third-party sources, when available. When these sources are not available, management makes estimates based upon what it considers to be the best available information.

The allowance for loan losses is an estimate of the losses that may be sustained in the loan portfolio. The allowance is based on two principles of accounting: (a) Statement on Financial Accounting Standards (SFAS) No. 5, Accounting for Contingencies , which requires that losses be accrued when they are probable of occurring and are estimable and (b) SFAS No. 114, Accounting by Creditors for Impairment of a Loan , which requires that losses be accrued when it is probable that the Company will not collect all principal and interest payments according to the contractual terms of the loan. The loss, if any, is determined by the difference between the loan balance and the value of collateral, the present value of expected future cash flows, or values observable in the secondary markets.

The loan loss allowance balance is an estimate based upon management's evaluation of the loan portfolio. Generally the allowance is comprised of a specific and a general component. The specific component consists of management's evaluation of certain loans and their underlying collateral. Loans are examined to determine the specific allowance

based upon the borrower's payment history, economic conditions specific to the loan or borrower, or other factors that would impact the borrower's ability to repay the loan on its contractual basis. Management assesses the ability of the

Table of Contents

borrower to repay the loan based upon any information available. Depending on the assessment of the borrower's ability to pay the loan as well as the type, condition, and amount of collateral, management will establish an allowance amount specific to the loan.

In establishing the general component of the allowance, management analyzes non-classified and non-impaired loans in the portfolio including changes in the amount and type of loans. Management also examines the Bank's history of write-offs and recoveries within each loan category. The state of the local and national economy is also considered.

Based upon these factors the Bank's loan portfolio is categorized and a loss factor is applied to each category. These loss factors may be higher or lower than the Bank's actual recent average losses in any particular loan category, particularly in loan categories where the Bank is rapidly increasing the size of its portfolio. Based upon these factors, the Bank will adjust the loan loss allowance by increasing or decreasing the provision for loan losses.

Management has significant discretion in making the judgments inherent in the determination of the provision and allowance for loan losses, including in connection with the valuation of collateral, a borrower's prospects of repayment, and in establishing allowance factors on the general component of the allowance. Changes in allowance factors will have a direct impact on the amount of the provision, and a corresponding effect on net income. Errors in management's perception and assessment of the global factors and their impact on the portfolio could result in the allowance not being adequate to cover losses in the portfolio, and may result in additional provisions or charge-offs. For additional information regarding the allowance for loan losses, refer to Notes 1 and 4 to the Consolidated Financial Statements as presented in the Company's Form 10-K.

In addition to the loan loss allowance, the Company also maintains a valuation allowance on its foreclosed real estate. As with the allowance for loan losses, the valuation allowance on foreclosed real estate is based on SFAS No. 5,

Accounting for Contingencies, as well as SFAS No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets. These statements require that the Company establish a valuation allowance when it has determined that the carrying amount of a foreclosed asset exceeds its fair value. Fair value of a foreclosed asset is measured by the cash flows expected to be realized from its subsequent disposition. These cash flows should be reduced for the costs of selling or otherwise disposing of the asset.

In estimating the cash flows from the sale of foreclosed real estate, management must make significant assumptions regarding the timing and amount of cash flows. In cases where the real estate acquired is undeveloped land, management must gather the best available evidence regarding the market value of the property, including appraisals, cost estimates of development, and broker opinions. Due to the highly subjective nature of this evidence, as well as the limited market, long time periods involved, and substantial risks, cash flow estimates are highly subjective and subject to change. Errors regarding any aspect of the costs or proceeds of developing, selling, or otherwise disposing of foreclosed real estate could result in the allowance being inadequate to reduce carrying costs to fair value and may require an additional provision for valuation allowances.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Not applicable as the Company is a smaller reporting company.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, management of the Company carried out an evaluation, under the supervision and with the participation of the Company's principal executive officer and principal financial officer, of the effectiveness of the Company's disclosure controls and procedures. Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective in ensuring that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934, as amended, (1) is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms and (2) is accumulated and communicated to the Company's management, including its principal executive and financial officers as appropriate to allow timely decisions regarding required disclosure. It should be noted that the design of the Company's disclosure controls and procedures is based in part upon certain reasonable assumptions about the likelihood of future events, and there can be no reasonable assurance that any design of disclosure controls and procedures will succeed in achieving its stated goals under all potential future conditions, regardless of how remote,

Table of Contents

but the Company's principal executive and financial officers have concluded that the Company's disclosure controls and procedures are, in fact, effective at a reasonable assurance level.

Except as indicated herein, there were no changes in the Company's internal control over financial reporting during the three months ended March 31, 2008 that have materially affected, or are reasonable likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1 Legal Proceedings The Company is not involved in any pending legal proceedings. The Bank is not involved in any pending legal proceedings other than routine legal proceedings occurring in the ordinary course of business. Such routine legal proceedings, in the aggregate, are believed by management to be immaterial to the financial condition and results of operations of the company.

Item 1A. Risk Factors. In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, **Item 1A. Risk Factors** in the Form 10-K, which could materially affect our business, financial condition or future results. The risks described in the Form 10-K are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds

(a) Not applicable

(b) Not applicable

(c) The following table sets forth information regarding the Company's repurchases of its Common Stock during the quarter ended March 31, 2008

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
January 1-31, 2008	28,072	\$ 24.99	28,072	31,981
February 1-28, 2008	400	24.30	400	31,581
March 1-31, 2008	812	24.00	812	30,769
Total	29,284	\$ 24.95	29,284	30,769

On October 25, 2004, Tri-County Financial Corporation announced a repurchase program under which it would repurchase up to 127,500 shares of its common stock (as adjusted for the three for two stock splits declared in October 2004, December 2005 and October 2006). The program will continue until it is completed or terminated by the Board of Directors.
