NOTICE TO THE MARKET

TIM Participações S.A. ("Company") (BM&FBOVESPA: TIMP3, and NYSE: TSU), based on news published by the media, stating that "TIM loses the administrative appeal worth 550 million Euros", and in light of the impact occurred in the market, hereby informs the general public the following:

In March 2011, TIM Celular, as the successor of TIM Nordeste (formerly Maxitel after the merger with TIM Nordeste Telecomunicações), received tax assessment notice issued by the Federal Tax Bureau, worth about R\$1.26 billion related to alleged debt of Corporate Income Tax and Social Contribution on Profits on various substantive and procedural issues, among them, but not limited to questions about the effects of corporate restructuring operations performed as well as the alleged breach of ancillary obligations. That assessment was timely challenged by the Company.

In April 2012, a decision was made at the first administrative level confirming integrally the assessment notice, as expected. A final administrative decision shall rest with the Administrative Council of Tax Appeals (Conselho Administrativo de Recursos Fiscais - CARF), for which an appeal has been already presented.

It is worth mentioning that the CARF is establishing favorable precedents to taxpayers in similar cases that compose the assessment performed (tax planning, corporate restructuring and its effects, deductibility of goodwill on acquisitions etc.), which is why we confirm Company's understanding that is not likely to have chances of loss in this process.

Rio de Janeiro, August 20th, 2012.

Rogério Tostes
Investor Relations Officer

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
