## Valuation of Jilin Biological

Pan-China Assets Appraisal Co., Ltd, Beijing, an independent asset appraisal institution which is qualified to conduct security related practices in the PRC, has conducted a valuation on Jilin Biological by using the asset based method. The appraisal date was fixed on 31 March 2011 and the results are set out below:

	(RMB in thousands, except percentage)	
Book value of shareholders' equity	166,688.7	
Appraised value of shareholders' equity	177,653.2	
Increase/Decrease (amount)	10,964.5	
Increase/Decrease (%)	6.58	%

The appraised value of shareholders' equity includes the energy saving and emission reduction capital in the central state-owned capital operating budget in the sum of RMB71,350,000 appropriated by Huaneng Group ("State-owned Special Fund"). If the State-owned Special Fund is not included, the appraised value of shareholders' equity shall be RMB106,303,200.

After negotiations between both parties, the pricing of the Transfer is determined by deducting the State-owned Special Fund from the above appraised value of shareholders' equity. The ultimate consideration of the transaction was RMB106,303,200.

## Reasons for the Transfer, Pricing Factors and Impact

Currently, the biological power plant of Jilin Biological is still under construction. Owing to the disorderly competition in the raw material (stalk) market, the raw material price surged and accordingly a sophisticated profit model cannot be created in biomass power generation under the prevailing electricity tariff levels. Loss might incur after commencement of production, and accordingly a transfer on the basis of the appraised value is in the interests of the Company and its shareholders as a whole. Moreover, the Company does not have any power project in Jilin Province and the Transfer is beneficial in streamlining the internal management relationship of Huaneng Group and enhancing management efficiency.

On 31 December 2009, the Company entered into an acquisition agreement with Shandong Electric Power Corporation to acquire the 100% shareholding of Jilin Biological for a consideration of RMB139,886,400. The Transfer will incur an investment loss of RMB33,583,200 which will partially reduce the non-current assets and liabilities of the Company and increase current assets as a result of receiving the consideration of the transaction and as such will not have any significant impact on the net assets of the Company. Moreover, as Jilin Biological has not commenced commercial operation, the Transfer will not have any significant impact on the profitability level of the Company.

#### CONNECTED TRANSACTION UNDER THE HONG KONG LISTING RULES

Pursuant to the Hong Kong Listing Rules, the Transfer constitutes a connected transaction of the Company. As the transaction scale does not exceed 5% of the applicable percentage ratios as calculated pursuant to Rule 14.07 of the Hong Kong Listing Rules, the transaction relating to the transfer of Jilin Biological Interest is subject to the reporting and announcement requirements under Rules 14A.45 to 14A.47 of the Hong Kong Listing Rules, but are exempt from independent shareholders' approval requirements.

The Board of Directors of the Company has approved the resolution regarding the Transfer. Messrs. Cao Peixi, Huang Long, Li Shiqi, Huang Jian, Liu Guoyue and Fan Xiaxia, all being directors of the Company having connected relationship with Huaneng Group, abstained from voting on the board resolution relating to the Transfer. The resolution was voted by directors who are not connected to the Transaction. The Directors (including independent non-executive Directors) are of the view that the Jilin Biological Interest Transfer Agreement were entered into: (i) in the ordinary and usual course of business of the Company; (ii) on normal commercial terms (on arm's length basis or on terms no less favourable to the Company than terms available from independent third parties); and (iii) on terms that are fair and reasonable and are in the interests of the Company and its shareholders as a whole.
