ISSUER DIRECT CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

Note 1.

Accounting Policies

Basis of Presentation

The unaudited interim balance sheet as of June 30, 2010 and statements of operations and cash flows for the periods ended June 30, 2010 and 2009 included herein, have been prepared in accordance with the instructions for Form 10-Q under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and Article 10 of Regulation S-X under the Exchange Act. In the opinion of the management, they include all normal recurring adjustments necessary for a fair presentation of the financial statements. Results of operations reported for the interim periods are not necessarily indicative of results for the entire year. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations relating to interim financial statements. The interim financial information should be read in conjunction with Issuer Direct Corporation's (the Company's) 2009 audited financial statements filed on Form 10-K.

Certain reclassifications have been made to prior period amounts to conform to the current period presentation. All reclassifications have been applied consistently for the periods presented.

Note 2.

Summary of Significant Accounting Policies

Earnings per Share (EPS)

Basic EPS excludes dilution and is computed by dividing income available to common stockholders by the weighted-average common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity. Diluted income per share for the quarter and six months ending June 30, 2010, gives effect to the weighted average of 258,323 shares issuable upon conversion of the Company's shares of preferred stock. Diluted income per share for the quarter and six months ending June 30, 2009, gives effect to the weighted average of 41,665 shares issuable upon conversion of the Company's shares of preferred stock.

Allowance for Doubtful Accounts

We provide an allowance for doubtful accounts, which is based upon a review of outstanding receivables as well as historical collection information. Credit is granted to most customers on an unsecured basis. In determining the amount of the allowance, management is required to make certain estimates and assumptions. During the three month period and six month period ended June 30, 2010, we recorded bad debt expense totaling and \$15,659 and \$47,780, respectively. During the three month period and six month period ended June 30, 2009, we recorded bad debt expense totaling \$16,158 and \$26,963, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported

amounts of revenues and expenses during the reporting period. Significant estimates include the allowance for doubtful accounts and the valuation of goodwill and intangible assets. Actual results could differ from those estimates.

Table of Contents

ISSUER DIRECT CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

Income Taxes

We comply with FASB ASC No. 740 – Income Taxes (formerly SFAS No. 109, “Accounting for Income Taxes”) which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred income tax assets to the amounts expected to be realized. For any uncertain tax positions, we recognize the impact of a tax position, only if it is more likely than not of being sustained upon examination, based on the technical merits of the position. Our policy regarding the classification of interest and penalties is to classify them as income tax expense in our financial statements, if applicable.

At the end of each interim period, we estimate the effective tax rate we expect to be applicable for the full fiscal year and this rate is applied to our results for the interim year to date period. Based upon our evaluation of possible future events and transactions, and expected changes to our valuation allowance and utilization of our net operating loss carryforwards, we currently estimate our effective tax rate for the 2010 fiscal year will be 0%.

Fair Value Measurements

As of June 30, 2010 and December 31, 2009, we do not have any financial assets or liabilities that are required to be, or that we elected to measure, at fair value.

We adopted the fair value provisions applicable to nonfinancial assets and nonfinancial liabilities in the first quarter of 2009. Our assets and liabilities that are subject to these provisions include our intangible assets, consisting of goodwill, domain names and software, and our long-lived assets. The adoption of the fair value provisions applicable to nonfinancial assets and liabilities did not have a significant impact on the determination or reporting of our financial results.

We believe that the fair value of our financial instruments, which consist of cash and cash equivalents, accounts receivable and accounts payable approximate their carrying amounts.

Recent Accounting Pronouncements

The adoption of recently issued accounting pronouncements did not have a material effect on our financial position or results from operations. We do not expect recently issued accounting pronouncements that are not yet effective will have a material effect on our financial position or results of operations upon adoption.

Table of Contents

ISSUER DIRECT CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

Note 3. Notes payable – related party

As of December 31, 2009, we had three unsecured related party notes payable outstanding, totaling \$73,525 as follows:

	June 30, 2010	December 31, 2009
Note Payable to our Chief Executive Officer in the amount of \$25,000 for various obligations the former company was party to, including former legal counsel, former transfer agent and tax obligations with the state of Delaware. The unsecured note carries interest in the amount of 8% per annum and was due on December 31, 2008. The note was in default at December 31, 2009. The note and accrued interest was converted into 26 shares of Series A preferred stock during the six month period ended June 30, 2010.	\$	—\$ 23,525
Unsecured Note Payable to a Director of the Company in the amount of \$25,000, with interest of 8%, due on receipt by the Company or its designated escrow agent of an aggregate of \$1,000,000 in gross proceeds of the Private Placement. The note and accrued interest was converted into 229,485 shares of common stock during the six month period ended June 30, 2010.		— 25,000
Unsecured Note Payable to a Director of the Company in the amount of \$25,000, with interest of 8%, due on receipt by the Company or its designated escrow agent of an aggregate of \$1,000,000 in gross proceeds of the Private Placement. The note and accrued interest was converted into 229,485 shares of common stock during the six month period ended June 30, 2010.		— 25,000
Total notes payable - related party	\$	—\$ 73,525

Note 4. Preferred stock and common stock

During the six months ended June 30, 2010, we had the following preferred and common stock transactions:

On March 25, 2010, we issued 150,000 shares of common stock to our Chief Financial Officer in exchange for services. The fair market value of the shares totaled \$27,000, or \$0.18 per share, which represents the closing price on the date of issuance.

On March 31, 2010, we issued 458,970 shares of commons stock to two prior Directors of the Company for the conversion of notes payable totaling \$50,000 and accrued interest of \$9,666. The notes payable and accrued interest were converted at \$0.13 per share, which represents the average share price over the prior twelve months. The fair value of common stock on the date of the transaction was \$0.18. The difference of \$0.05 per share, or \$22,949, has been recorded as additional interest expense.

On March 31, 2010, we issued 26 shares of Series A preferred stock to our Chief Executive Officer for the conversion of a note payable in the amount of \$23,525 and accrued interest of \$4,245. The fair value of the preferred stock on the date of the transaction was \$39,000, which was determined based upon the number of common shares issuable upon conversion of the preferred shares into common stock, 216,666, and the market price

Edgar Filing: ISSUER DIRECT CORP - Form 10-Q/A

of our common stock on the date of the agreement of \$0.18. The difference between the carrying value of the debt and accrued interest and the fair value of the preferred shares of \$11,230 has been recorded as additional interest expense.

On May 10, 2010, we issued 100,000 shares of common stock to our Chief Financial Officer in exchange for services. The fair market value of the shares totaled \$18,000, or \$0.18 per share, which represents the closing price on the date of issuance.

At June 30, 2010, we had 31 outstanding shares of Series A Preferred Stock. Although the Certificate of Designation of the rights, preferences and limitations of the Preferred Stock provides for dividends equal to eleven percent (11.0%) per year on the liquidation preference of \$25,000 per share, we have not declared or accrued such dividends. Under the provisions of the Certificate of Designation, dividends are an obligation only when declared, and the Board has not declared any dividends payable on the Series A Preferred Stock. Each share of Series A Preferred Stock is convertible into 8,333 shares of common stock. Of the outstanding preferred shares, 5 of these shares were issued by our predecessor company and the original documentation which would validate claims thereto is not available, and we are taking steps to retire those shares.

Note 5.

Concentrations

For the three- and six-month periods ended June 30, 2010 and 2009, we earned revenues (as a percentage of total revenues) in the following categories:

	Three months ended June 30,		Six months ended June 30,	
Revenue Streams	2010	2009	2010	2009
Compliance and reporting services	7%	25.9%	11.1%	31.8%
Printing and financial communication	53.5%	24.7%	46.4%	23.8%
Fulfillment and distribution	34.2%	18.9%	31.5%	23.0%
Software licensing	1.2%	8.3%	3.3%	6.6%
Transfer agent services	4.1%	22.2%	7.7%	14.8%
Total	100.0%	100.0%	100.0%	100.0%

One customer accounted for 78.7% and 62.7% of operating revenues during the three month period and six month period ended June 30, 2010, respectively. One customer accounted for 43.1% and 42.5% of our operating revenues during the three month period and six month period ended June 30, 2009, respectively.

At June 30, 2010, one customer accounted for 73.0% of our total accounts receivable. As of December 31, 2009, one customer accounted for 17.8% of our total accounts receivable.

We do not believe we had any financial instruments that could have potentially subjected us to significant concentrations of credit risk. A portion of our revenues are paid at the beginning of the month via credit card or in advance by check, the remaining accounts receivable amounts are generally due within 30 days, none of which is collateralized.

Note 6.

Subsequent events.

The Company has evaluated all events that occur after the balance sheet date as of June 30, 2010 through the date when the financial statements were issued to determine if they must be reported. Management of the Company determined that there were no reportable subsequent events to be disclosed.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The discussion of the financial condition and results of operations of the Company set forth below should be read in conjunction with the consolidated financial statements and related notes thereto included elsewhere in this Form 10-Q. This Form 10-Q contains forward-looking statements that involve risks and uncertainties. The statements contained in this Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27a of the Securities Act and Section 21e of the Exchange Act. When used in this Form 10-Q, or in the documents incorporated by reference into this Form 10-Q, the words "anticipate," "believe," "estimate," "intend" and "expect" and similar expressions are intended to identify such forward-looking statements. Such forward-looking statements include, without limitation, the statements regarding the Company's strategy, future sales, future expenses, future liquidity and capital resources. All forward-looking statements in this Form 10-Q are based upon information available to the Company on the date of this Form 10-Q, and the Company assumes no obligation to update any such forward-looking statements. The Company's actual results could differ materially from those discussed in this Form 10-Q. Factors that could cause or contribute to such differences ("Cautionary Statements") include, but are not limited to, those discussed in Item 1. Business — "Risk Factors" and elsewhere in the Company's Annual Report on Form 10-K, which are incorporated by reference herein and in this report. All subsequent written and oral forward-looking statements attributable to the Company, or persons acting on the Company's behalf, are expressly qualified in their entirety by the Cautionary Statements.

Overview

Issuer Direct Corporation (Issuer Direct Corporation and its business are hereinafter collectively referred to as "Issuer Direct", the "Company", "We" or "Our" unless otherwise noted), was formed in February 2006 as My Edgar, Inc; a full-service provider of financial print and related compliance communications both online and in print. We acquired Edgarization, LLC and Basset Press in March and July 2007, respectively. In December 2007, we became publicly traded through a reverse merger transaction with Docucon Incorporated, a Delaware company. In December 2007, we changed our name to Issuer Direct Corporation.

We leverage our securities compliance and regulatory expertise to provide a comprehensive set of services that enhance a client's ability to communicate effectively with its shareholder base while meeting all reporting regulations required. We believe our comprehensive set of services enables us to be the financial services provider of choice for our clients; for example corporate issuers utilize our services from document creation all the way to dissemination to regulatory bodies and shareholders. With this cohesive example, all of our business segments are able to generate revenues through the delivery and communication process.

As a shareholder regulatory compliance company of choice, we are dedicated to assisting our corporate issuers in an ever-changing regulatory environment to comply with the myriad of rules imposed by regulatory bodies. The majority of our business involves the distribution of content either electronically or traditional paper form to governing bodies and shareholders alike through our integrated back office systems and service platform. Under these regulations, we are licensed to disseminate, communicate and/or solicit on behalf of our clients, the issuers.

We continue to focus on both the organic growth of our revenue streams as well as evaluating potential acquisitions that would complement our core business operations and accelerate our overall mission of providing a complete solution for all corporate issuers.

Revenue Segments

The Company's core businesses operate within the financial compliance sector, including but not limited to financial reporting, print and production, proxy tabulation and solicitation as well as the safeguarding of shareholder records through transfer agent service offerings. These services are designed to offer issuers a comprehensive set of solutions for complying and communicating their messages to their audiences. Our products and service offerings are summarized below:

Table of Contents

Compliance and Reporting Services

As a full service compliance and regulatory filing agent, we assist corporate issuers, funds, law firms, resellers, and individuals with all of their securities filing needs. Most companies are required to file corporate documents to and with the Securities and Exchange Commission; including: registration statements, annual reports, quarterly reports, prospectuses, information statements, material event filings, proxy statements, ownership documents, and more.

Additionally, our XBRL (eXtensible Business Reporting Language) filing solutions leverage both our knowledge and expertise coupled with technology systems and tagging components to meet current and upcoming SEC regulations.

Our online compliance system encompasses self-filing tools, regulatory filing creation, and document hosting and collaboration for those compliance professionals that desire the hands on self-filing method directly with the Securities and Exchange Commission's Edgar system.

Transfer Agent Service

We operate our transfer agent business under the brand Direct Transfer. Our shareholder services business provides a complete array of agency and registrar services beyond traditional transfer agents. By combining our online issuer portal technologies, corporate issuers and their constituents can manage, issue, monitor, communicate and disseminate all facets of managing shareholder information.

Our commitment to compliance and safeguarding of information goes beyond our SAS70 business process. We maintain our client's books and records in the manner we would expect ours to be managed – that second to none service has enabled us to be one of the fastest growing transfer agents in the last half of 2009.

Corporate issuers have the ability to take advantage of the following:

- Issue, manage and monitor all corporate stock of the company online;
- Print on Demand Digital Certificate Library;
- Communicate with shareholders with the click of a mouse with e-Notify;
- Setup, monitor and direct an annual meeting and proxy vote;
- Warrant, Escrow and Rights offerings; and
- Corporate re-organization services including CUSIP, FINRA and state filing needs.

Printing and Financial Communication

We have continued to expand our printing and communications reach in the market by integrating real-time status compliance tracking into our workflow systems for compliance professionals. Our digital print management, Print-on-Demand, and full web press production systems have continued to gain market traction considering the competitiveness and pricing pressures over the past two years. We believe we have established a competitive advantage in the market by bundling short run service offering to issuers who prefer to print what we refer to as 'one-too-many' of any corporate documents or compliance filing.

Today we produce a comprehensive array of documents for many of the nation's leading corporations, mutual fund companies, law firms, and investment banks. We believe our financial printing expertise gives us the edge in the market - giving our customers the confidence and time to focus on their business. Our production staff has a deep understanding of the regulatory requirements that drive many of the printed materials required to be distributed today - such as the new Summary Prospectus for funds and Notice and Access for corporate issuers.

Table of Contents

Over the past nine months, we have expanded our reach into the mutual fund marketplace by releasing our iFUND fulfillment, Print-on-Demand (POD) and compliance system. As the method of delivery is changing, iFUND is uniquely positioned to take advantage of both traditional full set postal delivery as well as digital on demand. On June 17, 2010 we entered into a strategic alliance with Edgar Online to jointly extend XBRL solutions to the Mutual Fund marketplace. By adding Edgar Online's XBRL tagging services to our Interactive Fund Platform – (IFP), we believe our iFUND platform will become the industry standard for Mutual Funds that seek to find a seamless offering to serve both regulatory compliance needs and shareholder requests.

Fulfillment and Distribution

The demand for materials such as proxy statements (annual and special meetings), shareholder requests, prospectuses, and annual and semiannual fund reports fluctuates and, overall, is affected by new notice and access regulations. The demand for fulfillment and distributions has typically been seasonal and increases significantly immediately following a period of annual report filings and related disclosures. We have made great strides to minimize the seasonality typically found in this industry segment by developing our e-notify iFund fulfillment portal, summary prospectus technologies, customized digital document hosting and compliance tools – which have expanded our reach to the mutual fund, fund managers and administrators market.

Proxy Systems

Our Proxy system (iProxyDirect) is a comprehensive technology platform that encompasses issuers, shareholders, banks, brokers and vital constituents during the proxy process. We believe iProxy is the only voting platform where corporate issuers and mutual funds/administrators can setup, manage, communicate and monitor the entire proxy process from one online system. iProxy offers Notice & Access options, material on demand fulfillment, digital delivery, and secure document hosting coupled with real-time voting.

Software Licensing

One of our focus points over the past year has been to build proprietary technologies to help drive both our back office and the back offices of our clients. As it overlays our entire business, we have been able to efficiently manage our corporate issuers' data, shareholders' communications and compliance requirements from one portal, unlike anyone else in the market. We currently utilize one system with which corporate issuers can request, communicate and distribute virtually any regulatory document, announcement or shareholder request securely via any web browser.

We recently began licensing our compliance technologies to partners whom have a reach in the market beyond our client base. We intend to continue licensing our section 16 self-filing software, and our new Form D and Schedule 13 self-filing system.

As our systems continue to evolve to meet the growing needs of compliance and regulatory professional we anticipate a larger portion of our business will be derived from this segment by providing the compliance community licenses to our platform.

News Wire Distribution

Our custom newswire distribution services meet all Securities and Exchange Commission (SEC) disclosure requirements as it distributes news to thousands of online sites, financial desktops, newspapers, reporters and wire services, through our strategic news dissemination partner. Releases are also archived and accessible through such popular services as Lexis-Nexis, Dow Jones News Retrieval, Factiva and e-Notify.

e-Notify is our proprietary digital on demand system that can be added to any news wire service. Corporate issuers can choose from both an e-distribution and Print-on-Demand e-Notify campaign via our online portal technologies; at the same time a press release or earning release is created. We are the only regulatory business services company offering this today.

Results of Operations

Revenues

Comparison of results of operations for the three and six months ended June 30, 2010 and 2009

	Three months ended		Six months ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Revenue Streams				
Compliance and reporting services	\$165,414	\$198,160	\$328,610	\$394,020
Printing and financial communication	1,262,870	189,520	1,376,978	294,607
Fulfillment and distribution	806,320	144,935	933,924	285,039
Software licensing	28,214	63,487	95,981	80,919
Transfer agent services	96,832	169,706	229,238	183,756
Total	\$2,359,650	\$765,808	\$2,964,731	\$1,238,341

Total revenue increased \$1,593,842 and \$1,726,390, or 208% and 139%, respectively, during the three and six months ended June 30, 2010 as compared to the same periods in fiscal 2009. The overall increase in revenue is primarily due to an increase in printing and financial communication revenue of \$1,073,350 and \$1,082,371, and increases in fulfillment and distribution revenue of \$661,385 and \$648,885, respectively, during the three and six months ended June 30, 2010 as compared to the same periods in fiscal 2009.

Compliance and reporting service revenue decreased \$32,746 and \$65,410, respectively, during the three and six months ended June 30, 2010 as compared to the same periods in fiscal 2009. The decrease is primarily due to two factors: (1) pricing pressures in the market forcing us to modify current agreements with corporate issuers that resulted in us changing our unlimited Edgarization services into a by the page arrangement or bundled offering; and (2) the capital markets continue to deliver less filings and a reduced number of transactional offerings. We have made efforts to stabilize this business by further bundling our compliance reporting with other comparable services.

Printing and financial communication revenue increased \$1,073,350 and \$1,082,371, respectively, in the three and six months ended June 30, 2010 as compared to the same periods in fiscal 2009. During the second quarter of 2010, we successfully executed a large print and fulfillment project in the mutual fund market which accounted for substantially all of the increase in printing and financial communication revenue. The profit margin on this job was below our normal margin requirements. However, we believe we gained significant market momentum and exposure that we will be able to apply to similar opportunities in the future as we continue to devote resources to growing this business segment. These types of projects are difficult to forecast and take a great deal longer to win; therefore, there can be no assurances we will be able to deliver a project of this size in the future.

Fulfillment and distribution revenue increased \$661,385 and \$648,885, respectively, in the three and six months ended June 30, 2010 as compared to the same periods in fiscal 2009. The increase was principally the result of the fulfillment and distribution portion of the large project previously mentioned in our print and financial communication revenue discussion. We anticipate that the revenues generated in this segment will continue to be cyclical in nature and account for significant portions of our growth going forward as we continue to commercialize our iFUND platform and print to fulfill systems.

Table of Contents

Software licensing revenues decreased by \$35,273 in the in the three months ended June 30, 2010 as compared to the same period in fiscal 2009. The decrease is primarily due to a onetime event in 2009, which involved a Troubled Asset Relief Program (TARP) client, which did not repeat in the same period this year. Software licensing increased slightly by \$15,062 in the six months ended June 30, 2010 as compared to the same period in fiscal 2009. During the first quarter of 2010, we licensed section 16 software to a strategic partner which offset the decrease in revenue during the second quarter of 2010.

Transfer agent revenue decreased by \$72,874 in the three months ended June 30, 2010 as compared to the same period in fiscal 2009. During the three months ended June 30, 2009, we recognized non-recurring revenue of approximately \$152,000 from a project that is not a part of our core transfer agent services. Excluding this project, our core transfer agent business increased to \$96,832 in the three months ended June 30, 2010 from \$17,341 during the same period of fiscal 2009, an increase of 458%. Transfer agent revenue increased by \$45,482 in the six months ended June 30, 2010 as compared to the same period in 2009. Again, excluding the non-core services in 2009, our transfer agent business increased \$197,857, or 630% in the six months ended June 30, 2010 as compared to the same period in fiscal 2010. Our transfer agent business began in the fourth quarter of 2008, and the increase in our core revenue is due to the continued expansion of our customer base and infrastructure to support this business.

During the three and six months ended June 30, 2010, one customer accounted for 78.7% and 62.7% of our operating revenues, respectively. During the three and six months ended June 30, 2009, one customer accounted for 43.1% and 42.5% of our operating revenues, respectively.

Cost of Revenues and Gross Margin

Cost of revenues consist primarily of direct labor costs, third party licensing, print production materials, postage, and outside services directly related to the delivery of services to our customers. Cost of revenues increased by \$1,642,060 and \$1,627,315, respectively, in the three and six month periods ended June 30, 2010 as compared to the same period in fiscal 2009. The increase in cost of revenues is due primarily to the large print and fulfillment job during the second quarter of 2010 previously discussed. However, overall gross margins decreased to 19% and 29%, respectively, during the three and six month periods ended June 30, 2010 as compared to 65% and 61%, respectively, during the same periods in 2009. Margins were significantly below our normal margin requirements on our large print and fulfillment job in the second quarter of 2010. In general, such jobs are highly competitive and therefore have significant price pressure. We anticipate that in the future we will be able to achieve better margins on similar projects as we become more efficient and build the infrastructure to better support such projects.

Costs related to compliance and reporting service are related principally to direct labor costs and third party vendor costs, which we utilize to manage peak demand periods.

Costs related to printing and financial communications fluctuate periodically as the cost of the services and materials fluctuate, and can also vary significantly based on the variables of any one project. We strive to maintain reasonable margins for these services.

We incur direct labor costs for software licensing, as all development is performed in-house. To date, costs have not been significant, nor do we expect a significant increase in future periods.

To date, costs for transfer agent services have also been minimal, in proportion to this growing revenue stream. We will devote additional resources to this service offering as we expand these services in future periods.

Operating Expenses

General and Administrative Expense

General and administrative expenses consist primarily of salaries, insurance, fees for professional services, general corporate expenses and facility and equipment expenses. General and administrative expenses increased \$67,151 and \$125,854, respectively, for the three and six month periods ended June 30, 2010 as compared to the same period in fiscal 2009. The increase in fiscal 2010 is primarily due to increases in stock-based compensation of \$45,000, bad debt expense of \$20,817, and accounting services of \$21,850 during the six months ended June 30, 2010. We did not issue stock-based compensation awards in the 2009 periods. The increase in accounting services is primarily due to non-recurring projects we undertook to ensure proper compliance with various state tax requirements, and to ensure the proper utilization of our net operating loss carryforwards as we begin to achieve and sustain profitability. For the remainder of fiscal 2010, we do not expect to incur charges similar to what we had during the three months ended June 30, 2010.

Table of Contents

Sales and Marketing Expenses

Sales and marketing expenses consist primarily of salaries, sales commissions, sales consultants, advertising expenses, and marketing. Sales and marketing expenses for the three and six month periods ended June 30, 2010 increased by \$25,928 and \$35,130, respectively, as compared to the same periods in fiscal 2009. The increase is primarily due to expenses paid to a consultant in fiscal 2010 which were not incurred in 2009.

Depreciation and Amortization

Depreciation and amortization expense during the three and six month periods ended June 30, 2010 increased slightly by \$249 and \$2,316, respectively, as compared to the same periods in fiscal 2009.

Other Income (Expense)

Other income (expense) during the six months ended June 30, 2010 and 2009 consists primarily of interest expense on related party notes payable. We recorded other expense of \$33,798 for the six month period ended June 30, 2010 compared to \$1,336 in the comparable period in fiscal 2009. In fiscal 2010, we recorded non-cash interest expense of \$34,178 upon the conversion of the notes payable into shares of the company for the value of the shares received in excess of the carrying value of the notes payable and accrued interest.

Net Income (Loss)

Net income for the three and six months ended June 30, 2010 was \$128,843 and \$263,507, respectively, as compared to \$268,852 and \$360,194, respectively, in the same periods of fiscal 2009. Although revenue was higher in the fiscal 2010 periods, our overall margin percentages were lower and our expenses were higher in 2010 as previously discussed.

Liquidity and Capital Resources

As of June 30, 2010, we had \$1,623,824 in cash and cash equivalents and \$836,014 net accounts receivable. Current liabilities at June 30, 2010, totaled \$1,917,005, including accrued payroll liabilities, and accrued expenses. At June 30, 2010, our total assets exceeded our total liabilities by \$710,084. The increases in cash, accounts payable, and accounts receivable as compared to the balances at December 31, 2010 are all primarily due to the large print and fulfillment job previously discussed. In March 2010, we converted all remaining notes payable into shares of common and preferred stock and therefore we are no longer in default of any outstanding debt.

We manage our cash flow carefully with the intent to meet our obligations from cash generated from operations. However, it is possible that we will have to raise additional funds through the issuance of equity in order to meet our debt obligations. There can be no assurance that cash generated from operations will be sufficient to fund our operating expenses or meet our other obligations, and there is no assurance that debt or equity financing will be available, or if available, that such financing will be upon terms acceptable to us.

2010 Outlook

The following statements and certain statements made elsewhere in this document are based upon current expectations. These statements are forward looking and are subject to factors that could cause actual results to differ materially from those suggested here, including, without limitation, demand for and acceptance of our services, new developments, competition and general economic or market conditions, particularly in the domestic and international capital markets. Refer also to the Cautionary Statement Concerning Forward Looking Statements included in this

report.

Our vision is to be a market leader of unified regulatory solutions for compliance professionals, by providing a true single sourced model for issuers and the capital markets.

We pride ourselves on the best systems, the best service to our clients, the highest support to our staff; record results, higher returns to our shareholders, and higher rewards to our team members.

Our strategy is focused on maximizing long-term shareholder value by driving profitable growth, continuing our focus on productivity, and acquiring and integrating complementary businesses.

Table of Contents

Despite the current market environment, our strategy remains focused on the continuance of profitable quarterly results. In order to accomplish this, we will continue to make prudent investments that support our new business opportunities and leverage our emerging compliance platform. We are focusing many of our initiatives on technology systems that facilitate a cohesive emergence of products and services that make it easier for compliance professionals to manage an array of regulatory driven activities.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable

ITEM 4T. CONTROLS AND PROCEDURES.

As of the end of the period covered by this quarterly report on Form 10-Q, the Company's Chief Executive Officer and Chief Financial Officer conducted an evaluation of the Company's disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934). Based upon this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective and have not changed since its most recent annual report.

Changes in Internal control over Financial Reporting

We regularly review our system of internal control over financial reporting to ensure we maintain an effective internal control environment. There were no changes in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

From time to time the Company may become party to litigation or other legal proceedings that we consider to be a part of the ordinary course of business. We are not currently involved in any legal proceedings that we believe could reasonably be expected to have a material adverse effect on our business, prospects, financial condition or results of operations.

ITEM 1A. RISK FACTORS.

There have been no material changes to our risk factors as previously disclosed in our most recent 10-K filing.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

In March 2010 and May 2010, we issued a total of 250,000 shares of our common stock to our Chief Financial Officer in exchange for services. The fair market value of the shares totaled \$45,000, or \$0.18 per share, which represents the closing prices on the date of issuance. In March 2010, we issued 458,970 shares to two Directors of the Company for the conversion of notes payable and accrued interest of \$59,666. In March 2010, we issued 26 shares of Series A preferred stock to our Chief Executive Officer for the conversion of notes payable and accrued interest of \$27,770. The shares issued in these transactions were restricted securities as defined under Rule 144 of the Securities Act of 1933 (the “Act”). The issuances of the securities were made pursuant to an exemption from registration requirements under Regulation D and/or Section 4(2) of the Act.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

Not applicable.

ITEM 4. (Removed and Reserved).

ITEM 5. OTHER INFORMATION.

This quarterly report does not include an attestation report of the Company’s registered public accounting firm regarding internal control over financial reporting. Management’s report was not subjected to attestation by the Company’s registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management’s report in this quarterly report.

ITEM 6. EXHIBITS.
