Item 8.01 Other Events.

As disclosed in the Registrant's Quarterly Report on Form 10-QSB for the period ended January 31, 2008, the inability to conduct marketing activities coupled with our inability to generate significant revenues has caused our management to explore other potential business opportunities that might be available. Accordingly, over the last few months, the Registrant has researched potential acquisitions or other suitable business partners which the Registrant's management believes will assist the Registrant in realizing its business objectives and hopefully increase the value of its common stock. During that time, the Registrant has had informal discussions with representatives of certain private companies that are interested in being acquired by the Registrant, although as of the date of this report, the Registrant has not entered into any understanding or formal agreement to acquire any potential acquisition candidates. The Registrant is continuing discussions and negotiations with the representatives of one of those private companies, and hopes that the Registrant will enter into a formal agreement to acquire that private company in the next few weeks. The Registrant cannot guaranty that the Registrant will acquire that private company or any other entity, or that, in the event that the Registrant acquires that private company or any other entity, the acquisition will increase the value of the Registrant's common stock.

Stock Split. On March 14, 2008, the Registrant's Board of Directors approved a 13-for-1 stock split ("Split") of the Registrant's issued and outstanding common stock which shall be effectuated through the issuance of 12 shares for each share of common stock outstanding as of the record date. The Registrant hopes that the stock split will increase the liquidity of its common stock in the event that the Registrant is able to acquire that private company as disclosed above. The record date for the Split is March 25, 2008. The payable date of the Split is March 26, 2008. The effective date for the Split will be March 27, 2008. Prior to the Split, there are 3,000,000 shares issued and outstanding. Following the Split, there will be approximately 39,000,000 shares issued and outstanding. The Registrant's common stock will continue to be \$.001 par value. Fractional shares will be rounded upward. The Registrant's symbol and CUSIP Number will not change as a result of the Split. In connection with the Split, the Registrant will file a Certificate of Change with the State of Nevada to effect the Split of the Registrant's authorized and outstanding shares of common stock with an effective date of filing of March 26, 2008.
