NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)

(Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited interim Consolidated Financial Statements of Accenture plc and its controlled subsidiary companies (collectively, the “Company”) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) for quarterly reports on Form 10-Q and do not include all of the information and note disclosures required by U.S. generally accepted accounting principles (“U.S. GAAP”) for complete financial statements. These Consolidated Financial Statements should therefore be read in conjunction with the Consolidated Financial Statements and Notes thereto for the fiscal year ended August 31, 2014 included in the Company’s Annual Report on Form 10-K filed with the SEC on October 24, 2014.

The accompanying unaudited interim Consolidated Financial Statements have been prepared in accordance with U.S. GAAP, which requires management to make estimates and assumptions that affect amounts reported in the Consolidated Financial Statements and accompanying disclosures. Although these estimates are based on management’s best knowledge of current events and actions that the Company may undertake in the future, actual results may differ from those estimates. The Consolidated Financial Statements reflect all adjustments of a normal, recurring nature that are, in the opinion of management, necessary for a fair presentation of results for these interim periods. The results of operations for the three months ended November 30, 2014 are not necessarily indicative of the results that may be expected for the fiscal year ending August 31, 2015.

Allowances for Client Receivables and Unbilled Services

As of November 30, 2014 and August 31, 2014, total allowances recorded for client receivables and unbilled services were \$86,660 and \$82,643, respectively.

Accumulated Depreciation

As of November 30, 2014 and August 31, 2014, total accumulated depreciation was \$1,751,879 and \$1,752,965, respectively.

Income Taxes

The Company applies an estimated annual effective tax rate to its year-to-date operating results to determine the interim provision for income tax expense. In addition, the Company recognizes taxes related to unusual or infrequent items or resulting from a change in judgment regarding a position taken in a prior year as discrete items in the interim period in which the event occurs. The Company’s effective tax rate for both the three months ended November 30, 2014 and 2013 was 25.1%.

New Accounting Pronouncement

On May 28, 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers, which will replace most existing revenue recognition guidance in U.S. GAAP. The core principle of the ASU is that an entity should recognize revenue for the transfer of goods or services equal to the amount that it expects to be entitled to receive for those goods or services. The ASU requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments. The ASU will be effective for the Company beginning September 1, 2017, including interim periods in its fiscal year 2018, and allows for both retrospective and prospective methods of adoption. The Company is in the process of determining the method of adoption and assessing the impact of this ASU on its Consolidated Financial Statements.

## 2. EARNINGS PER SHARE

Basic and diluted earnings per share were calculated as follows:

	Three Months Ended November 30,	
	2014	2013
Basic Earnings per share		
Net income attributable to Accenture plc	\$831,530	\$751,846
Basic weighted average Class A ordinary shares	628,439,218	636,695,545
Basic earnings per share	\$1.32	\$1.18
Diluted Earnings per share		
Net income attributable to Accenture plc	\$831,530	\$751,846
Net income attributable to noncontrolling interests in Accenture SCA and Accenture Canada Holdings Inc. (1)	50,636	49,098
Net income for diluted earnings per share calculation	\$882,166	\$800,944
Basic weighted average Class A ordinary shares	628,439,218	636,695,545
Class A ordinary shares issuable upon redemption/exchange of noncontrolling interests (1)	38,299,764	41,591,480
Diluted effect of employee compensation related to Class A ordinary shares (2)	15,378,709	19,998,564
Diluted effect of share purchase plans related to Class A ordinary shares	215,458	218,306
Diluted weighted average Class A ordinary shares (2)	682,333,149	698,503,895
Diluted earnings per share	\$1.29	\$1.15

Diluted earnings per share assumes the redemption of all Accenture SCA Class I common shares owned by holders of noncontrolling interests and the exchange of all Accenture Canada Holdings Inc. exchangeable shares for (1) Accenture plc Class A ordinary shares on a one-for-one basis. The income effect does not take into account “Net income attributable to noncontrolling interests — other,” since those shares are not redeemable or exchangeable for Accenture plc Class A ordinary shares.

(2) Diluted weighted average Accenture plc Class A ordinary shares for the three months ended November 30, 2013 have been restated to reflect the impact of the issuance of additional restricted share units to holders of restricted share units in connection with the payments of cash dividends during the first quarter of fiscal 2015 and the third quarter of fiscal 2014. This did not result in a change to previously reported Diluted earnings per share.

## 6. MATERIAL TRANSACTIONS AFFECTING SHAREHOLDERS' EQUITY

## Dividends

The Company's dividend activity during the three months ended November 30, 2014 was as follows:

Dividend Payment Date	Dividend Per Share	Accenture plc Class A Ordinary Shares		Accenture SCA Class I Common Shares and Accenture Canada Holdings Inc. Exchangeable Shares		Total Cash Outlay
		Record Date	Cash Outlay	Record Date	Cash Outlay	
November 17, 2014	\$1.02	October 17, 2014	\$639,451	October 14, 2014	\$ 39,285	\$678,736

The payment of the cash dividends also resulted in the issuance of an immaterial number of additional restricted share units to holders of restricted share units. Diluted weighted average Accenture plc Class A ordinary share amounts have been restated for all prior periods presented to reflect this issuance. For additional information, see Note 2 (Earnings Per Share).

## 7. DERIVATIVE FINANCIAL INSTRUMENTS

In the normal course of business, the Company uses derivative financial instruments to manage foreign currency exchange rate risk. The Company's derivative financial instruments consist of deliverable and non-deliverable foreign currency forward contracts.

## Cash Flow Hedges

For a cash flow hedge, the effective portion of the change in estimated fair value of a hedging instrument is recorded in Accumulated other comprehensive loss as a separate component of Shareholders' Equity and is reclassified into Cost of services in the Consolidated Income Statements during the period in which the hedged transaction is recognized. For information related to derivatives designated as cash flow hedges that were reclassified into Cost of services during the first quarter of fiscal 2015 as well as those expected to be reclassified into Cost of services in the next 12 months, see Note 3 (Accumulated Other Comprehensive Loss) to these Consolidated Financial Statements.

## Other Derivatives

Realized gains or losses and changes in the estimated fair value of foreign currency forward contracts that have not been designated as hedges were a net loss of \$105,530 and a net gain of \$87,043 for the three months ended November 30, 2014 and 2013, respectively. Gains and losses on these contracts are recorded in Other expense, net in the Consolidated Income Statements and are offset by gains and losses on the related hedged items.

## Fair Value of Derivative Instruments

The notional and fair values of all derivative instruments were as follows:

	November 30, 2014	August 31, 2014
Assets		
Cash Flow Hedges		
Other current assets	\$25,189	\$21,148
Other non-current assets	31,666	20,875

Total fair value	\$(27,581 )	\$(21,870 )
Total notional value	\$5,979,140	\$5,989,011

The Company utilizes standard counterparty master agreements containing provisions for the netting of certain foreign currency transaction obligations and for the set-off of certain obligations in the event of an insolvency of one of the parties to the transaction. In the Consolidated Balance Sheets, the Company records derivative assets and liabilities at gross fair value. The potential effect of netting derivative assets against liabilities under the counterparty master agreements was as follows:

## 8. COMMITMENTS AND CONTINGENCIES

## Commitments

The Company has the right to purchase or may also be required to purchase substantially all of the remaining outstanding shares of its Avanade Inc. subsidiary (“Avanade”) not owned by the Company at fair value if certain events occur. As of November 30, 2014 and August 31, 2014, the Company has reflected the fair value of \$91,823 and \$95,581, respectively, related to Avanade’s redeemable common stock and the intrinsic value of the options on redeemable common stock in Other accrued liabilities in the Consolidated Balance Sheets.

## Indemnifications and Guarantees

In the normal course of business and in conjunction with certain client engagements, the Company has entered into contractual arrangements through which it may be obligated to indemnify clients with respect to certain matters. As of November 30, 2014 and August 31, 2014, the Company’s aggregate potential liability to its clients for expressly limited guarantees involving the performance of third parties was approximately \$773,000 and \$768,000, respectively, of which all but approximately \$8,000 as of both November 30, 2014 and August 31, 2014 may be recovered from the other third parties if the Company is obligated to make payments to the indemnified parties as a consequence of a performance default by the other third parties. For arrangements with unspecified limitations, the Company cannot reasonably estimate the aggregate maximum potential liability, as it is inherently difficult to predict the maximum potential amount of such payments, due to the conditional nature and unique facts of each particular arrangement. To date, the Company has not been required to make any significant payment under any of the arrangements described above. The Company has assessed the current status of performance/payment risk related to arrangements with limited guarantees, warranty obligations, unspecified limitations and/or indemnification provisions and believes that any potential payments would be immaterial to the Consolidated Financial Statements, as a whole.

## Legal Contingencies

As of November 30, 2014, the Company or its present personnel had been named as a defendant in various litigation matters. The Company and/or its personnel also from time to time are involved in investigations by various regulatory or legal authorities concerning matters arising in the course of its business around the world. Based on the present status of these matters, management believes the range of reasonably possible losses in addition to amounts accrued, net of insurance recoveries, will not have a material effect on the Company’s results of operations or financial condition.

## 9. SEGMENT REPORTING

The Company’s reportable operating segments are the five operating groups, which are Communications, Media & Technology; Financial Services; Health & Public Service; Products; and Resources. Information regarding the Company’s reportable operating segments is as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended August 31, 2014, and with the information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended August 31, 2014.

We use the terms "Accenture," "we," the "Company," "our" and "us" in this report to refer to Accenture plc and its subsidiaries. All references to years, unless otherwise noted, refer to our fiscal year, which ends on August 31. For example, a reference to "fiscal 2015" means the 12-month period that will end on August 31, 2015. All references to quarters, unless otherwise noted, refer to the quarters of our fiscal year.

We use the term "in local currency" so that certain financial results may be viewed without the impact of foreign currency exchange rate fluctuations, thereby facilitating period-to-period comparisons of business performance. Financial results "in local currency" are calculated by restating current period activity into U.S. dollars using the comparable prior year period's foreign currency exchange rates. This approach is used for all results where the functional currency is not the U.S. dollar.

Disclosure Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act") relating to our operations, results of operations and other matters that are based on our current expectations, estimates, assumptions and projections. Words such as "may," "will," "should," "likely," "anticipates," "expects," "intends," "plans," "projects," "believes," "estimates," "positioned," "outlook" and similar expressions are used to identify these forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Forward-looking statements are based upon assumptions as to future events that may not prove to be accurate. Actual outcomes and results may differ materially from what is expressed or forecast in these forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

• Our results of operations could be adversely affected by volatile, negative or uncertain economic conditions and the effects of these conditions on our clients' businesses and levels of business activity.

• Our business depends on generating and maintaining ongoing, profitable client demand for our services and solutions, and a significant reduction in such demand could materially affect our results of operations.

If we are unable to keep our supply of skills and resources in balance with client demand around the world and attract and retain professionals with strong leadership skills, our business, the utilization rate of our professionals and our results of operations may be materially adversely affected.

• The markets in which we compete are highly competitive, and we might not be able to compete effectively.

• We could have liability or our reputation could be damaged if we fail to protect client and/or Accenture data or information systems as obligated by law or contract or if our information systems are breached.

• Our results of operations and ability to grow could be materially negatively affected if we cannot adapt and expand our services and solutions in response to ongoing changes in technology and offerings by new entrants.

• Our results of operations could materially suffer if we are not able to obtain sufficient pricing to enable us to meet our profitability expectations.

If we do not accurately anticipate the cost, risk and complexity of performing our work or third parties upon whom we rely do not meet their commitments, then our contracts could have delivery inefficiencies and be less profitable than expected or unprofitable.

• Our results of operations could be materially adversely affected by fluctuations in foreign currency exchange rates.

• Our profitability could suffer if our cost-management strategies are unsuccessful, and we may not be able to improve our profitability through improvements to cost-management to the degree we have done in the past.

• Our business could be materially adversely affected if we incur legal liability.

Our work with government clients exposes us to additional risks inherent in the government contracting environment.

Table of Contents

• We might not be successful at identifying, acquiring or integrating businesses or entering into joint ventures.

• Our Global Delivery Network is increasingly concentrated in India and the Philippines, which may expose us to operational risks.

• Changes in our level of taxes, as well as audits, investigations and tax proceedings, or changes in our treatment as an Irish company, could have a material adverse effect on our results of operations and financial condition.

• As a result of our geographically diverse operations and our growth strategy to continue geographic expansion, we are more susceptible to certain risks.

• Adverse changes to our relationships with key alliance partners or in the business of our key alliance partners could adversely affect our results of operations.

• Our services or solutions could infringe upon the intellectual property rights of others or we might lose our ability to utilize the intellectual property of others.

• If we are unable to protect our intellectual property rights from unauthorized use or infringement by third parties, our business could be adversely affected.

• Our ability to attract and retain business and employees may depend on our reputation in the marketplace.

• Many of our contracts include payments that link some of our fees to the attainment of performance or business targets and/or require us to meet specific service levels. This could increase the variability of our revenues and impact our margins.

• If we are unable to collect our receivables or unbilled services, our results of operations, financial condition and cash flows could be adversely affected.

• If we are unable to manage the organizational challenges associated with our size, we might be unable to achieve our business objectives.

• Our share price and results of operations could fluctuate and be difficult to predict.

• Our results of operations and share price could be adversely affected if we are unable to maintain effective internal controls.

• We make estimates and assumptions in connection with the preparation of our consolidated financial statements, and any changes to those estimates and assumptions could adversely affect our financial results.

• We are incorporated in Ireland and a significant portion of our assets are located outside the United States. As a result, it might not be possible for shareholders to enforce civil liability provisions of the federal or state securities laws of the United States. We may also be subject to criticism and negative publicity related to our incorporation in Ireland. Irish law differs from the laws in effect in the United States and might afford less protection to shareholders.

• We might be unable to access additional capital on favorable terms or at all. If we raise equity capital, it may dilute our shareholders' ownership interest in us.

For a more detailed discussion of these factors, see the information under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended August 31, 2014. Our forward-looking statements speak only as of the date of this report or as of the date they are made, and we undertake no obligation to update any forward-looking statements.

## Table of Contents

### Overview

Revenues are driven by the ability of our executives to secure new contracts and to deliver solutions and services that add value relevant to our clients' current needs and challenges. The level of revenues we achieve is based on our ability to deliver market-leading service offerings and to deploy skilled teams of professionals quickly and on a global basis. Our results of operations are affected by economic conditions, including macroeconomic conditions and levels of business confidence. There continues to be volatility and economic and geopolitical uncertainty in certain markets around the world, which may impact our business. We continue to monitor the impact of this volatility and uncertainty and seek to manage our costs in order to respond to changing conditions.

Revenues before reimbursements ("net revenues") for the first quarter of fiscal 2015 increased 7% in U.S. dollars and 10% in local currency compared to the first quarter of fiscal 2014. Demand for our services continued to improve, resulting in strong growth across most areas of our business. All of our operating groups experienced quarterly year-over-year revenue growth in local currency in the first quarter of fiscal 2015, with very strong growth in Communications, Media & Technology, Health & Public Service, Financial Services and Products, while Resources experienced slight growth. Revenue growth in local currency was very strong in outsourcing and strong in consulting during the first quarter of fiscal 2015. While the business environment remained competitive, pricing was relatively stable and we saw improvement in certain areas of our business. We use the term "pricing" to mean the contract profitability or margin on the work that we sell.

In our consulting business, net revenues for the first quarter of fiscal 2015 increased 4% in U.S. dollars and 7% in local currency compared to the first quarter of fiscal 2014. Clients continued to be focused on initiatives designed to deliver cost savings and operational efficiency, as well as projects to integrate their global operations and grow and transform their businesses. We continue to experience growing demand for our services in emerging technologies, including digital services (digital marketing, analytics and mobility) and cloud computing. Compared to fiscal 2014, we continued to provide a greater proportion of systems integration consulting through use of lower-cost resources in our Global Delivery Network. This trend has resulted in work volume growing faster than revenue in our systems integration business, and we expect this trend to continue.

In our outsourcing business, net revenues for the first quarter of fiscal 2015 increased 11% in U.S. dollars and 14% in local currency compared to the first quarter of fiscal 2014. Clients continue to be focused on transforming their operations to improve effectiveness and save costs. Compared to fiscal 2014, we continued to provide a greater proportion of application outsourcing through use of lower-cost resources in our Global Delivery Network.

As we are a global company, our revenues are denominated in multiple currencies and may be significantly affected by currency exchange rate fluctuations. If the U.S. dollar strengthens against other currencies, resulting in unfavorable currency translation, our revenues and revenue growth in U.S. dollars may be lower. If the U.S. dollar weakens against other currencies, resulting in favorable currency translation, our revenues and revenue growth in U.S. dollars may be higher. When compared to the first quarter of fiscal 2014, the U.S. dollar strengthened against many currencies during the first quarter of fiscal 2015, resulting in unfavorable currency translation and U.S. dollar revenue growth that was approximately 3% lower than our revenue growth in local currency. Assuming that exchange rates stay within recent ranges for the remainder of fiscal 2015, we estimate that our full fiscal 2015 revenue growth will be approximately 5% lower in U.S. dollars than in local currency.

The primary categories of operating expenses include cost of services, sales and marketing and general and administrative costs. Cost of services is primarily driven by the cost of client-service personnel, which consists mainly of compensation, subcontractor and other personnel costs, and non-payroll outsourcing costs. Cost of services as a percentage of revenues is driven by the prices we obtain for our solutions and services, the utilization of our client-service personnel and the level of non-payroll costs associated with outsourcing contracts. Effective September 1, 2014, we have updated the methodology we use to calculate utilization to include all billable employees' time spent on chargeable work. This change in methodology increased utilization by approximately 3%. Utilization for the first quarter of fiscal 2015 was 91%. This level of utilization reflects continued strong demand for resources in our Global Delivery Network and in most countries. We continue to hire to meet current and projected future demand.

We proactively plan and manage the size and composition of our workforce and take actions as needed to address changes in the anticipated demand for our services, given that compensation costs are the most significant portion of our operating expenses. Based on current and projected future demand, we have increased our headcount, the majority of which serve our clients, to approximately 319,000 as of November 30, 2014, compared to approximately 305,000 as of August 31, 2014 and approximately 281,000 as of November 30, 2013. The year-over-year increase in our headcount reflects an overall increase in demand for our services, primarily those delivered through our Global Delivery Network in lower-cost locations, as well as headcount added in connection with acquisitions. Annualized attrition, excluding involuntary terminations, for the first quarter of fiscal 2015 was 13%, down from 15% in the fourth quarter of fiscal 2014 and up from 11% in the first quarter of fiscal 2014. We evaluate voluntary attrition, adjust levels of new hiring and use involuntary terminations as means to keep our supply of skills and resources in balance with changes in client demand. In addition, we adjust compensation in certain skill sets and geographies in order to attract and retain appropriate numbers of qualified employees, and we may need to continue to adjust compensation in the future. We strive

Table of Contents

to adjust pricing and/or the mix of resources to reduce the impact of compensation increases on our gross margin. Our ability to grow our revenues and maintain or increase our margin could be adversely affected if we are unable to: keep our supply of skills and resources in balance with changes in the types or amounts of services clients are demanding, such as the increase in demand for various outsourcing and emerging technology services; recover increases in compensation; deploy our employees globally on a timely basis; manage attrition; and/or effectively assimilate and utilize new employees.

Gross margin (Net revenues less Cost of services before reimbursable expenses as a percentage of Net revenues) for the first quarter of fiscal 2015 was 32.2%, compared with 33.3% for the first quarter of fiscal 2014. The reduction in gross margin was principally due to higher labor costs, including increased usage of subcontractors, compared to the first quarter of fiscal 2014.

Sales and marketing and general and administrative costs as a percentage of net revenues were 17.1% for the first quarter of fiscal 2015 compared with 18.7% for the first quarter of fiscal 2014. Sales and marketing costs are driven primarily by: compensation costs for business development activities; investment in offerings; marketing- and advertising-related activities; and acquisition-related costs. General and administrative costs primarily include costs for non-client-facing personnel, information systems and office space. We continuously monitor these costs and implement cost-management actions, as appropriate. For the first quarter of fiscal 2015 compared to the first quarter of fiscal 2014, sales and marketing costs as a percentage of net revenues decreased 110 basis points principally due to directing a lower proportion of resource capacity to selling and other business development activities. We also experienced lower non-payroll sales and marketing costs. General and administrative costs as a percentage of net revenues decreased 50 basis points.

Operating margin (Operating income as a percentage of Net revenues) for the first quarter of fiscal 2015 was 15.0%, compared with 14.8% for the first quarter of fiscal 2014. Our Operating income and Earnings per share are affected by currency exchange rate fluctuations on revenues and costs. Most of our costs are incurred in the same currency as the related net revenues. Where practical, we also seek to manage foreign currency exposure for costs not incurred in the same currency as the related net revenues, such as the cost of our Global Delivery Network, by using currency protection provisions in our customer contracts and through our hedging programs. We seek to manage our costs, taking into consideration the residual positive and negative effects of changes in foreign exchange rates on those costs.

**New Bookings**

New bookings for the first quarter of fiscal 2015 were \$7.66 billion, with consulting bookings of \$3.86 billion and outsourcing bookings of \$3.80 billion.

(1) Effective September 1, 2014, we revised the reporting of our geographic regions as follows: North America (the United States and Canada); Europe; and Growth Markets (Asia Pacific, Latin America, Africa, the Middle East, Russia and Turkey). Prior period amounts have been reclassified to conform to the current period presentation.

#### Net Revenues

The following net revenues commentary discusses local currency net revenue changes for the first quarter of fiscal 2015 compared to the first quarter of fiscal 2014:

#### Operating Groups

Communications, Media & Technology net revenues increased 15% in local currency. Outsourcing revenues reflected significant growth, driven by growth across all industry groups and geographic regions, led by Communications.

Consulting revenues reflected very strong growth, driven by Electronics & High Tech in Europe and North America, Communications in North America and Media & Entertainment in Growth Markets, partially offset by a decline in Communications in Europe.

•

Financial Services net revenues increased 11% in local currency. Consulting revenues reflected very strong growth, driven by Banking in Europe and North America, Insurance in North America and Capital Markets in Europe, partially offset by a decline in Insurance in Growth Markets. Outsourcing revenues reflected strong growth, driven by all industry groups in Europe and Capital Markets in North America. These increases were partially offset by a decline in Banking in North America.

Table of Contents

Health & Public Service net revenues increased 13% in local currency. Outsourcing revenues reflected very significant growth, led by Health and Public Service in North America. Consulting revenue growth was driven by Health in North America and Public Service in Europe, partially offset by a decline in Public Service in North America.

Products net revenues increased 10% in local currency. Consulting revenues reflected strong growth, driven by all industry groups in Europe and most industry groups in North America, led by Consumer Goods & Services. These increases were partially offset by a decline in Retail in North America. Outsourcing revenues reflected strong growth, driven by all geographic regions in most industry groups, led by Retail in Europe and Life Sciences in North America. These increases were partially offset by a decline in Infrastructure and Transportation Services in Europe.

Resources net revenues increased 2% in local currency. Outsourcing revenues reflected strong growth, driven by Natural Resources in Growth Markets, Utilities in Europe and Energy in Europe and North America. Consulting revenues reflected a modest decline, due to declines in Natural Resources in Growth Markets and Energy in Europe, partially offset by growth in Chemicals across all geographic regions. Some of our clients in Natural Resources continued to reduce their level of consulting investments. In addition, our Energy clients are requesting a higher volume of outsourcing services, placing a greater emphasis on cost savings initiatives and moderating demand for consulting services. We expect these trends will continue to impact Resources year-over-year consulting net revenue growth in the near term.

**Geographic Regions**

North America net revenues increased 12% in local currency, driven by the United States.

Europe net revenues increased 9% in local currency, driven by Germany, Italy, France and Norway.

Growth Markets net revenues increased 9% in local currency, driven by Brazil, Japan and Australia, partially offset by declines in Singapore and South Korea.

**Operating Expenses**

Operating expenses for the first quarter of fiscal 2015 increased \$447 million, or 7%, over the first quarter of fiscal 2014, and decreased as a percentage of revenues to 85.8% from 86.0% during this period. Operating expenses before reimbursable expenses for the first quarter of fiscal 2015 increased \$440 million, or 7%, over the first quarter of fiscal 2014, and decreased as a percentage of net revenues to 85.0% from 85.2% during this period.

**Cost of Services**

Cost of services for the first quarter of fiscal 2015 increased \$454 million, or 8%, over the first quarter of fiscal 2014, and increased as a percentage of revenues to 69.6% from 68.6% during this period. Cost of services before reimbursable expenses for the first quarter of fiscal 2015 increased \$447 million, or 9%, over the first quarter of fiscal 2014, and increased as a percentage of net revenues to 67.8% from 66.7% during this period. Gross margin for the first quarter of fiscal 2015 decreased to 32.2% from 33.3% for the first quarter of fiscal 2014, principally due to higher labor costs, including increased usage of subcontractors, compared to the first quarter of fiscal 2014.

**Sales and Marketing**

Sales and marketing expense for the first quarter of fiscal 2015 decreased \$21 million, or 2%, from the first quarter of fiscal 2014, and decreased as a percentage of net revenues to 11.5% from 12.6%. The decrease as a percentage of net revenues was due to directing a lower proportion of resource capacity to selling and other business development activities. We also experienced lower non-payroll sales and marketing costs.

**General and Administrative Costs**

General and administrative costs for the first quarter of fiscal 2015 decreased \$4 million, or 1%, from the first quarter of fiscal 2014, and decreased as a percentage of net revenues to 5.6% from 6.1% during this period. The decrease as a percentage of net revenues was due to management of these costs at a rate lower than that of net revenues.

## Operating Income and Operating Margin

Operating income for the first quarter of fiscal 2015 increased \$97 million, or 9%, over the first quarter of fiscal 2014. Operating income and operating margin for each of the operating groups were as follows:

	Three Months Ended November 30,				Increase (Decrease)
	2014	2013	Operating Income	Operating Margin	
	(in millions of U.S. dollars)				
Communications, Media & Technology	\$189	12	% \$153	11	% \$35
Financial Services	298	17	264	16	34
Health & Public Service	202	15	179	15	22
Products	290	15	247	14	42
Resources	210	16	247	19	(38)
Total	\$1,188	15.0	% \$1,091	14.8	% \$97

Amounts in table may not total due to rounding.

The commentary below provides insight into operating group performance and operating margin for the first quarter of fiscal 2015 compared with the first quarter of fiscal 2014:

• Communications, Media & Technology operating income increased primarily due to revenue growth and lower sales and marketing costs as a percentage of net revenues.

• Financial Services operating income increased primarily due to revenue growth and lower sales and marketing costs as a percentage of net revenues.

• Health & Public Service operating income increased due to revenue growth.

• Products operating income increased due to revenue growth, higher contract profitability and lower sales and marketing costs as a percentage of net revenues.

• Resources operating income decreased due to a decline in consulting revenue and lower consulting contract profitability.

## Provision for Income Taxes

The effective tax rate for both the first quarter of fiscal 2015 and fiscal 2014 was 25.1%.

Our provision for income taxes is based on many factors and subject to volatility year to year. We expect the fiscal 2015 annual effective tax rate to be in the range of 26% to 27%. The fiscal 2014 annual effective tax rate was 26.1%.

## Net Income Attributable to Noncontrolling Interests

Net income attributable to noncontrolling interests for the first quarter of fiscal 2015 increased \$1 million, or 2%, over the first quarter of fiscal 2014. The increase was due to higher Net income of \$81 million during the first quarter of fiscal 2015.

## Earnings Per Share

Diluted earnings per share increased \$0.14 compared with the first quarter of fiscal 2014, due to increases of \$0.10 from higher revenues and operating results, \$0.03 from lower weighted average shares outstanding and \$0.01 from higher non-operating income. For information regarding our earnings per share calculations, see Note 2 (Earnings Per Share) to our Consolidated Financial Statements under Item 1, "Financial Statements".

## Liquidity and Capital Resources

As of November 30, 2014, Cash and cash equivalents was \$4.5 billion, compared with \$4.9 billion as of August 31, 2014.

Cash flows from operating, investing and financing activities, as reflected in our Consolidated Cash Flows Statements, are summarized in the following table:

	Three Months Ended November 30, 2014			2013	Change
	(in millions of U.S. dollars)				
Net cash provided by (used in):					
Operating activities	\$873		\$181		\$692
Investing activities	(89	)	(196	)	106
Financing activities	(1,127	)	(1,139	)	12
Effect of exchange rate changes on cash and cash equivalents	(106	)	48		(154
Net decrease in cash and cash equivalents	\$(449	)	\$(1,105	)	\$656

Amounts in table may not total due to rounding.

**Operating activities:** The year-over-year improvement in operating cash flow is due to higher net income and changes in operating assets and liabilities, driven primarily by a change in the timing of certain compensation payments from the first quarter of fiscal 2015 to the second quarter of fiscal 2015, as well as higher collections on net client balances (receivables from clients, current and non-current unbilled services and deferred revenues).

**Investing activities:** The \$106 million decrease in cash used was primarily due to lower spending on business acquisitions. For additional information, see Note 4 (Business Combinations) to our Consolidated Financial Statements under Item 1, "Financial Statements."

**Financing activities:** The \$12 million decrease in cash used was primarily due to decreased purchases of shares and an increase in proceeds from share issuances, partially offset by an increase in cash dividends paid. For additional information, see Note 6 (Material Transactions Affecting Shareholders' Equity) to our Consolidated Financial Statements under Item 1, "Financial Statements."

We believe that our available cash balances and the cash flows expected to be generated from operations will be sufficient to satisfy our current and planned working capital and investment needs for the next twelve months. We also believe that our longer-term working capital and other general corporate funding requirements will be satisfied through cash flows from operations and, to the extent necessary, from our borrowing facilities and future financial market activities.

**Borrowing Facilities**

As of November 30, 2014, we had the following borrowing facilities, including the issuance of letters of credit, to support general working capital purposes:

	Facility Amount	Borrowings Under Facilities
	(in millions of U.S. dollars)	
Syndicated loan facility	\$1,000	\$—
Separate, uncommitted, unsecured multicurrency revolving credit facilities	551	—
Local guaranteed and non-guaranteed lines of credit	160	—
Total	\$1,711	\$—

Under the borrowing facilities described above, we had an aggregate of \$164 million of letters of credit outstanding as of November 30, 2014.

## Share Purchases and Redemptions

The Board of Directors of Accenture plc has authorized funding for our publicly announced open-market share purchase program for acquiring Accenture plc Class A ordinary shares and for purchases and redemptions of Accenture plc Class A ordinary shares, Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares held by our current and former members of Accenture Leadership and their permitted transferees. As of November 30, 2014, our aggregate available authorization was \$4,144 million for our publicly announced open-market share purchase and these other share purchase programs.

Our share purchase activity during the three months ended November 30, 2014 was as follows:

	Accenture plc Class A Ordinary Shares		Accenture SCA Class I Common Shares and Accenture Canada Holdings Inc. Exchangeable Shares	
	Shares (in millions of U.S. dollars, except share amounts)	Amount	Shares	Amount
Open-market share purchases (1)	7,119,632	\$571	—	\$—
Other share purchase programs	—	—	383,840	31
Other purchases (2)	847,567	68	—	—
Total	7,967,199	\$639	383,840	\$31

We conduct a publicly announced, open-market share purchase program for Accenture plc Class A ordinary shares. (1) These shares are held as treasury shares by Accenture plc and may be utilized to provide for select employee benefits, such as equity awards to our employees.

During the three months ended November 30, 2014, as authorized under our various employee equity share plans, we acquired Accenture plc Class A ordinary shares primarily via share withholding for payroll tax obligations due from employees and former employees in connection with the delivery of Accenture plc Class A ordinary shares (2) under those plans. These purchases of shares in connection with employee share plans do not affect our aggregate available authorization for our publicly announced open-market share purchase and the other share purchase programs.

We intend to continue to use a significant portion of cash generated from operations for share repurchases during the remainder of fiscal 2015. The number of shares ultimately repurchased under our open-market share purchase program may vary depending on numerous factors, including, without limitation, share price and other market conditions, our ongoing capital allocation planning, the levels of cash and debt balances, other demands for cash, such as acquisition activity, general economic and/or business conditions, and board and management discretion. Additionally, as these factors may change over the course of the year, the amount of share repurchase activity during any particular period cannot be predicted and may fluctuate from time to time. Share repurchases may be made from time to time through open-market purchases, in respect of purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares, through the use of Rule 10b5-1 plans and/or by other means. The repurchase program may be accelerated, suspended, delayed or discontinued at any time, without notice.

## Other Share Redemptions

During the three months ended November 30, 2014, we issued 531,011 Accenture plc Class A ordinary shares upon redemptions of an equivalent number of Accenture SCA Class I common shares pursuant to our registration statement on Form S-3 (the “registration statement”). The registration statement allows us, at our option, to issue freely tradable Accenture plc Class A ordinary shares in lieu of cash upon redemptions of Accenture SCA Class I common shares held by current and former members of Accenture Leadership and their permitted transferees.

For a complete description of all share purchase and redemption activity for the first quarter of fiscal 2015, see Part II, Item 2, “Unregistered Sales of Equity Securities and Use of Proceeds.”

## Off-Balance Sheet Arrangements

In the normal course of business and in conjunction with some client engagements, we have entered into contractual arrangements through which we may be obligated to indemnify clients with respect to certain matters. To date, we have not been required to make any significant payment under any of the arrangements described above. For further discussion of these transactions, see Note 8 (Commitments and Contingencies) to our Consolidated Financial Statements under Item 1, "Financial Statements."

**New Accounting Pronouncement**

On May 28, 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers, which will replace most existing revenue recognition guidance in U.S. GAAP. The core principle of the ASU is that an entity should recognize revenue for the transfer of goods or services equal to the amount that it expects to be entitled to receive for those goods or services. The ASU requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments. The ASU will be effective for us beginning September 1, 2017, including interim periods in our fiscal year 2018, and allows for both retrospective and prospective methods of adoption. We are in the process of determining the method of adoption and assessing the impact of this ASU on our Consolidated Financial Statements.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

During the three months ended November 30, 2014, there were no material changes to the information on market risk exposure disclosed in our Annual Report on Form 10-K for the year ended August 31, 2014. For a discussion of our market risk associated with foreign currency risk, interest rate risk and equity price risk as of August 31, 2014, see “Quantitative and Qualitative Disclosures About Market Risk” in Part II, Item 7A, of our Annual Report on Form 10-K for the year ended August 31, 2014.

**ITEM 4. CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our principal executive officer and our principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based on that evaluation, the principal executive officer and the principal financial officer of Accenture plc have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective at the reasonable assurance level.

**Changes in Internal Control Over Financial Reporting**

There has been no change in our internal control over financial reporting that occurred during the first quarter of fiscal 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**PART II — OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

We are involved in a number of judicial and arbitration proceedings concerning matters arising in the ordinary course of our business. We and/or our personnel also from time to time are involved in investigations by various regulatory or legal authorities concerning matters arising in the course of our business around the world. We do not expect that any of these matters, individually or in the aggregate, will have a material impact on our results of operations or financial condition.

We currently maintain the types and amounts of insurance customary in the industries and countries in which we operate, including coverage for professional liability, general liability and management liability. We consider our insurance coverage to be adequate both as to the risks and amounts for the businesses we conduct.

**ITEM 1A. RISK FACTORS**

For a discussion of our potential risks and uncertainties, see the information under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended August 31, 2014. There have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K for the year ended August 31, 2014.

Class X ordinary shares (5)	858,705	\$0.0000225	—	

(1) Average price paid per share reflects the total cash outlay for the period, divided by the number of shares acquired, including those acquired by purchase or redemption for cash and any acquired by means of employee forfeiture.

(2) Since August 2001, the Board of Directors of Accenture plc has authorized and periodically confirmed a publicly announced open-market share purchase program for acquiring Accenture plc Class A ordinary shares. During the first quarter of fiscal 2015, we purchased 7,119,632 Accenture plc Class A ordinary shares under this program for an aggregate price of \$571 million. The open-market purchase program does not have an expiration date.

(3) As of November 30, 2014, our aggregate available authorization for share purchases and redemptions was \$4,144 million, which management has the discretion to use for either our publicly announced open-market share purchase program or the other share purchase programs. Since August 2001 and as of November 30, 2014, the Board of Directors of Accenture plc has authorized an aggregate of \$25.1 billion for purchases and redemptions of Accenture plc Class A ordinary shares, Accenture SCA Class I common shares or Accenture Canada Holdings Inc. exchangeable shares.

(4) During the first quarter of fiscal 2015, Accenture purchased 847,567 Accenture plc Class A ordinary shares in transactions unrelated to publicly announced share plans or programs. These transactions consisted of acquisitions of Accenture plc Class A ordinary shares primarily via share withholding for payroll tax obligations due from employees and former employees in connection with the delivery of Accenture plc Class A ordinary shares under our various employee equity share plans. These purchases of shares in connection with employee share plans do not affect our aggregate available authorization for our publicly announced open-market share purchase and the other share purchase programs.

(5) Accenture plc Class X ordinary shares are redeemable at their par value of \$0.0000225 per share.
