Notes to Unaudited Condensed Financial Statements

July 31, 2015 and April 30, 2015

NOTE 1 – CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying condensed financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at July 31, 2015, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and notes thereto included in the Company's April 30, 2015 audited consolidated financial statements. The results of operations for the periods ended July 31, 2015 and 2014 are not necessarily indicative of the operating results for the full years.

NOTE 2 – GOING CONCERN

The Company's consolidated financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan is to obtain such resources for the Company by obtaining capital from management and significant shareholders sufficient to meet its minimal operating expenses and seeking equity and/or debt financing. However management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 3 – SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

The Company has evaluated recent accounting pronouncements and their adoption has not had or is not expected to have a material impact on the Company's financial position, or statements.

NOTE 4 – SUBSEQUENT EVENTS

In accordance with ASC 855-10 Company management reviewed all material events through the date of this report and determined that there are no material subsequent events to report.

FORWARD LOOKING STATEMENTS

Statements made in this Form 10-Q that are not historical or current facts are "forward-looking statements" made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933 (the "Act") and Section 21E of the Securities Exchange Act of 1934. These statements often can be identified by the use of terms such as "may," "will," "expect," "believe," "anticipate," "estimate," "approximate" or "continue," or the negative thereof. We intend that such forward-looking statements be subject to the safe harbors for such statements. We wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Any forward-looking statements represent management's best judgment as to what may occur in the future. However, forward-looking statements are subject to risks, uncertainties and important factors beyond our control that could cause actual results and events to differ materially from historical results of operations and events and those presently anticipated or projected. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statement or to reflect the occurrence of anticipated or unanticipated events.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

General

We were incorporated in the State of Nevada on June 2, 2010. Until October 7, 2013 we were in the business of distributing of Brazilian hardwood flooring. On October 7, 2013, the Company reported the entry into certain agreements between our sole officer and director, Michael Soursos ("Soursos") and Gennadiy Petrovich Glazunov ("Glazunov"), the holder of certain know how and trade secrets as they relate to pure hydrogen production, whereby Soursos transferred a total of 64,500,000 shares of our common stock from the 120,000,000 shares of common stock held by Soursos in his personal name to Glazunov and his assigns in exchange for the rights to the know how and trade secrets and the filing of a patent covering such technology in the USA. On October 28, 2013, Glazunov provided the documentation related to the patent and the patent has been filed by the Company's U.S. patent attorney, with the United States Patent and Trademark Office ("USPTO").

We have not generated any revenues and the only operations we have engaged in to prior to October 7, 2013 were developing of business plan and executing of an Exclusive Contract for Sale of Goods on April 15, 2011 with Equatorian S.A. Laminados Amazonia, where we engaged Equatorian S.A. Laminados Amazonia as our supplier of hardwood flooring. On October 16, 2013, the Company submitted to the State of Nevada documentation registering that the Company was now doing business as (d.b.a.) Euro-American Hydrogen Corp., and we have focused on continued development of pure hydrogen production.

Plan of Operation

With the change in management to Michael Soursos, the new management set about to identify new business opportunities that he believed would allow for the growth of the Company and determined that there was substantive opportunity to progress technologies related to the production of pure hydrogen. Shortly after changing our business focus to the development of hydrogen production related technologies, we identified an opportunity to acquire and file patent rights for hydrogen production technology related to the production of pure hydrogen utilizing a unique one-step process.

Results of Operations

We have incurred recurring losses to date. Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation.

We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

Edgar Filing: Xfuels, Inc. - Form 10-Q

Three months ended July 31, 2015 compared to the three months ended July 31, 2014

Our net loss for the three month period ended July 31, 2015 was \$(58,009) compared to a net loss of \$(119,379) during the three month period ended July 31, 2014 due to an increase in research and development fees as well as professional fees.

The Company has not generated any revenue since inception.

During the three month period ended July 31, 2015, we incurred general and administrative expenses of \$0 compared to \$41,163 incurred during three month period ended July 31, 2014.

Liquidity and Capital Resources

As of July 31, 2015, we had \$21,873 in total assets and our total liabilities were \$675,617, comprised of \$17,193 in accounts payable, \$150,280 in accrued interest payable, \$508,144 in convertible debentures net of discount, and total long term liabilities of \$(653,744).

As of April 30, 2015, we had \$29,883 in total assets and \$719,041 in liabilities.

Cash Flows from Financing Activities

We have financed our operations primarily from either advancements or the issuance of equity and debt instruments. For the period from inception (June 2, 2010) to July 31, 2015 cash provided by financing activities was \$(41,602) received from the issuance of convertible notes.

Current cash on hand is insufficient for all of the Company's commitments for the next 12 months. We anticipate that the additional funding that we require will be in the form of equity financing.

We estimate that within the next 12 months we will need approximately \$2,000,000 for acquisition of inventory, marketing and developing a distribution chain.

We cannot be certain that the required additional financing will be available or available on terms favorable to us. We currently do not have any arrangements or commitments in place for any other financings. If additional funds are raised by the issuance of our equity securities, existing stockholders will experience dilution of their ownership interest. If adequate funds are not available or not available on acceptable terms, we may be unable to fund our operations.

We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with equity sales or loans. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

Going Concern

Edgar Filing: Xfuels, Inc. - Form 10-Q

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. As of July 31, 2015, the Company had an accumulated deficit of \$1,524,576. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.
