Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements in addition to historical information. We use words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “forecast,” “intend,” “looking forward,” “may,” “plan,” “project,” “should,” “target,” “will” and “would” or any variations of these words or other words with similar meanings to identify such forward-looking statements. All statements that address activities, events or developments that we intend, expect or believe may occur in the future are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may relate to such matters as our industry, business strategy, goals and expectations concerning our market position, future operations, future performance or results, margins, profitability, capital expenditures, liquidity and capital resources, interest rates and other financial and operating information and the outcome of contingencies such as legal and administrative proceedings.

The forward-looking statements contained in this Form 10-Q are based on management’s current expectations and are subject to uncertainty and changes in circumstances. We cannot guarantee that the results and other expectations expressed, anticipated or implied in any forward-looking statement will be realized. The following are some of the factors that could cause actual future results to differ materially from those expressed in any forward-looking statements: accounting entries and adjustments at the close of a fiscal quarter; unexpected expenses and risks associated with our business; our ability to remain competitive in the areas of merchandise quality, price, breadth of selection, customer service and convenience; the effective management of our merchandise buying and inventory levels; the quality and safety of food products and other items that we may sell; our ability to anticipate and/or react to changes in customer demand; changes in economic and financial conditions, including U.S. fiscal and monetary policy, and the resulting impact on consumer confidence; other changes in consumer confidence and spending; unexpected consumer responses to promotional programs; unusual, unpredictable and/or severe weather conditions, including their effect on our supply chain and our store operations; the effectiveness of our logistics and supply chain model, including the ability of our third-party logistics providers to meet our product demands and restocking needs on a cost competitive basis; the execution and management of our store growth, including the availability and cost of acceptable real estate locations for new store openings, the capital that we utilize in connection with new store development and the anticipated time between lease execution and store opening; the mix of our new store openings as between build to suit sites and second-generation, as-is sites and as between existing markets and newer markets; the actions of third parties involved in our store growth activities, including property owners, landlords, property managers, contractors, subcontractors, government agencies, and current tenants who occupy one or more of our proposed new store locations, all of whom may be impacted by their financial condition, their lenders, their activities outside of those focused on our new store growth and other tenants, customers and business partners of theirs; impairment of recorded goodwill and other long-lived assets; global economies and credit and financial markets; our ability to maintain the security of electronic and other confidential and/or personal information; serious disruptions and catastrophic events; competition; personnel recruitment and retention; acquisitions and divestitures, including the ability to integrate successfully any such acquisitions; information systems and technology; commodity, energy, fuel and other cost increases; compliance with laws, regulations and orders; changes in laws and regulations; outcomes of litigation and proceedings and the availability of insurance, indemnification and other third-party coverage of any losses suffered in connection therewith; tax matters; numerous other matters of national, regional and global scale, including those of a political, economic, business, and competitive nature; the outcome of the strategic and financial review being conducted by the Company and the Board of Directors; and other factors, many of which are beyond our control. A further description of these and other risks and uncertainties can be found under Part I, Item 1A, “Risk Factors,” in our Annual Report on Form 10-K for the fiscal year ended January 25, 2015. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, our actual results may vary in material respects from those projected in these forward-looking statements. You should bear this in mind as you consider forward-looking statements.

Edgar Filing: Fresh Market, Inc. - Form 10-Q

Any forward-looking statement made by us in this Form 10-Q speaks only as of the date hereof. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by any applicable securities laws. You are advised, however, to consult any further disclosures we may make in our future reports to the Securities and Exchange Commission, on our website, or otherwise.

1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited consolidated financial statements of The Fresh Market, Inc. (the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial statements and are in the form prescribed by the Securities and Exchange Commission in instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the accompanying notes thereto in the Company’s Annual Report on Form 10-K for the fiscal year ended January 25, 2015. In the opinion of management, these unaudited consolidated financial statements include all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the Company’s financial position, results of operations and cash flows for the periods indicated. Interim results are not necessarily indicative of results that may be expected for a full fiscal year or future interim periods.

In certain instances, there are changes in the presentation of the consolidated financial statements to conform to the current year presentation.

The Company’s wholly-owned subsidiaries are consolidated and all intercompany accounts and transactions are eliminated upon consolidation.

The Company reports its results of operations on a 52- or 53-week fiscal year ending on the last Sunday in January. Each fiscal quarter consists of 13 weeks, with an additional week included in the fourth quarter for a 53-week fiscal year. The current fiscal year ending January 31, 2016 is a 53-week fiscal year and the fiscal year ended January 25, 2015 was a 52-week fiscal year.

The Company has determined that it has one reportable segment. The Company’s revenues come from the sale of items at its specialty food stores. The Company’s primary focus is on perishable categories, which include meat, seafood, produce, deli, bakery, floral, sushi and prepared foods. Non-perishable categories consist of traditional grocery, frozen and dairy products as well as bulk, coffee, candy, and beer and wine. The following is a summary of the percentage for the sales of perishable and non-perishable items:

	For the Thirteen Weeks Ended		For the Thirty-Nine Weeks Ended	
	October 25, 2015	October 26, 2014	October 25, 2015	October 26, 2014

Non-perishable	34.2%	34.5%	33.7%	34.1%

Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-11 (Topic 330), Inventory: Simplifying the Measurement of Inventory. The amendments require an entity to measure in scope inventory at the lower of cost and net realizable value. The amendments do not apply to inventory that is measured using the last-in, first-out (LIFO) or the retail inventory method. ASU No. 2015-11 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016. Early adoption is permitted. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU No. 2015-05 (Subtopic 350-40), Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement, which provides guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses.

If a cloud computing arrangement does not include a software license, then the customer should account for the arrangement as a service contract. ASU No. 2015-05 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements and related disclosures.

The Fresh Market, Inc.

Notes to Consolidated Financial Statements - (continued)

1. Summary of Significant Accounting Policies (continued)

In April 2015, the FASB issued ASU No. 2015-03 (Subtopic 835-30), Simplifying the Presentation of Debt Issuance Costs, which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. ASU No. 2015-03 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements and related disclosures.

In May 2014, the FASB issued ASU No. 2014-09 (Topic 606), Revenue from Contracts with Customers, which amended the existing accounting standards for revenue recognition. ASU No. 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the consideration expected to be received in exchange for those goods or services. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers Deferral of the Effective Date, which deferred the effective date of the new revenue recognition standard by one year; as a result, public entities would apply the new revenue standard to annual reporting periods, and interim periods within those annual reporting periods, beginning after December 31, 2017. Early adoption is permitted for all entities only as of annual reporting periods, and interim periods within those annual reporting periods, beginning after December 15, 2016. The guidance allows for the amendment to be applied either retrospectively to each prior reporting period presented or retrospectively as a cumulative-effect adjustment as of the date of adoption. The Company is currently in the process of evaluating the effect this guidance will have on its consolidated financial statements and related disclosures.

2. Long-Term Debt

The Company had no outstanding borrowings as of October 25, 2015 or January 25, 2015.

On June 12, 2014, the Company entered into an unsecured revolving credit agreement with Bank of America, N.A., as Administrative Agent, Swing Line Lender and Letter of Credit Issuer, and the several lenders party thereto (the "Credit Agreement"), which refinanced and replaced the Company's prior senior unsecured revolving credit facility. The Credit Agreement matures June 12, 2019 and is available to provide support for working capital, capital expenditures and other general corporate purposes, including permitted acquisitions and issuance of letters of credit. While the Company currently has no material domestic subsidiaries, other entities will guarantee its obligations under the Credit Agreement if and when they become material domestic subsidiaries of the Company during the term of the Credit Agreement.

The Credit Agreement provides for total borrowings of up to \$175,000. Under the terms of the Credit Agreement, the Company is entitled to request an increase in the size of the facility by an amount not exceeding \$100,000 in the aggregate. If the existing lenders elect not to provide the full amount of a requested increase, or in lieu of accepting offers from existing lenders to increase their commitments, the Company may designate one or more other lenders to become a party to the Credit Agreement, subject to the approval of the Administrative Agent. The Credit Agreement includes a letter of credit sublimit of \$60,000, of which \$25,393 was outstanding at October 25, 2015 and \$25,434 was outstanding at January 25, 2015. The beneficiaries of these letters of credit are the Company's workers' compensation and general liability insurance carriers. The Credit Agreement also includes a swing line sublimit of \$15,000.

At the Company's option, revolving loans under the Credit Agreement bear interest at (i) the London Interbank Offered Rate ("LIBOR") plus an applicable margin that ranges from 0.90% to 2.00%, (ii) the Eurodollar rate plus an applicable margin that ranges from 0.90% to 2.00%, or (iii) the base rate plus an applicable margin that ranges from 0% to 1.00%, where the base rate is defined as the greatest of: (a) the federal funds rate plus 0.50%, (b) Bank of America's prime rate, and (c) the Eurodollar rate plus 1.00%.

The commitment fee calculated on the unused portions of the Credit Agreement ranges from 0.125% to 0.250% per annum.

The Credit Agreement contains a number of affirmative and restrictive covenants, including limitations on the Company's ability to grant liens, incur additional debt, pay dividends, redeem its common stock, make certain

investments and engage in certain merger, consolidation or asset sale transactions.

Notes to Consolidated Financial Statements - (continued)

3. Fair Value Measurements

FASB Accounting Standards Codification (“ASC”) Topic 820, Fair Value Measurement, requires fair value measurements to be classified and disclosed in one of the following pricing categories:

Level 1 - Quoted prices in active markets for identical assets or liabilities as of the reporting date.

Level 2 - Observable inputs other than quoted prices in active markets for identical assets or liabilities.

Level 3 - Unobservable inputs in which there is little or no market data available, which require the reporting entity to develop its own assumptions.

The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities and other accrued expenses approximate fair value because of their short maturity.

Nonrecurring Fair Value Measurements

The Company recorded \$5,122 of lease obligation costs as a nonrecurring fair value measurement in connection with its store closures during the thirty-nine weeks ended October 25, 2015. These lease obligation costs are included in the “Accrued liabilities” and “Closed store reserves” line items on the accompanying Consolidated Balance Sheets. The lease obligations were estimated based on the present value of the minimum lease payments less an estimate of sublease income, which is a Level 2 fair value measurement.

The Company wrote-down the carrying value of certain fixed assets to its estimated proceeds, which is a Level 2 fair value measurement, in connection with the store closure and exit activities during the thirty-nine weeks ended October 25, 2015. The write-down of \$5,595 is included in the “Impairments and store closure costs” line item on the accompanying Consolidated Statements of Comprehensive Income.

The Company recorded these nonrecurring fair value measurements in the first quarter of fiscal 2015, and it did not record any other nonrecurring fair value measurements during the thirty-nine weeks ended October 25, 2015.

4. Impairments and Store Closure Costs

Store Closure Costs

During the first quarter of fiscal year 2015, the Company exited the California market and recorded charges primarily consisting of certain lease obligations, write-down and loss on disposal of fixed assets, and severance costs associated with its California locations. The Company expects to incur approximately \$15,000 in store closure and exit costs in fiscal year 2015 related to exiting these locations. Changes in market and economic conditions could cause the Company to change its assumptions and may require adjustments to the reserves.

The Company closed four stores in the first quarter of fiscal year 2014 and recorded charges primarily consisting of certain lease obligations, write-down and (gain) loss on disposal of fixed assets and severance costs associated with those stores.

Impairments and store closure costs for the thirteen and thirty-nine weeks ended October 25, 2015 and October 26, 2014 were as follows:

	For the Thirteen Weeks Ended		For the Thirty-Nine Weeks Ended	
	October 25, 2015	October 26, 2014	October 25, 2015	October 26, 2014

4. Impairments and Store Closure Costs (continued)

During the thirteen weeks ended October 26, 2014, the Company recognized a net benefit of \$2,728 for impairments and store closure costs of which \$2,904 primarily related to a gain on the assignment of a capital lease and changes in estimates related to its lease commitments for previously closed stores.

During the thirty-nine weeks ended October 25, 2015, the Company incurred \$15,121 of expenses associated with closed stores, with \$14,565 recorded to the “Impairments and store closure costs” line item and \$556 for the liquidation of inventory and other costs associated with the store closure activities recorded to other line items on the accompanying Consolidated Statements of Comprehensive Income. The \$14,565 recorded to the “Impairments and store closure costs” line item consisted of: (i) \$13,992 in connection with closure and exit activities for closed locations; and (ii) ongoing expenses for closed locations.

During the thirty-nine weeks ended October 26, 2014, the Company incurred \$14,299 of expenses associated with closed stores, with \$13,881 recorded to the “Impairments and store closure costs” line item and \$418 for the liquidation of inventory and other costs associated with the store closure activities recorded to other line items on the accompanying Consolidated Statements of Comprehensive Income. The \$13,881 recorded to the “Impairments and store closure costs” line item consisted of: (i) \$13,467 in connection with closure and exit activities for closed locations; and (ii) ongoing expenses for closed locations.

Closed Store Reserves

Activity for the closed store reserves for the thirty-nine weeks ended October 25, 2015 and for the fifty-two weeks ended January 25, 2015 was as follows:

	For the Thirty-Nine Weeks Ended October 25, 2015	For the Fifty-Two Weeks Ended January 25, 2015
Beginning balance	\$ 11,299	\$ 1,812
Additions and adjustments	5,209	14,498
Payments	(1,792) (5,011
Ending balance	\$ 14,716	\$ 11,299

Closed store reserves include amounts for occupancy costs related to closed stores, which represent the present value of the remaining non-cancelable lease payments required under operating leases for the closed stores, less an estimate of subtenant income. During the thirty-nine weeks ended October 25, 2015 and the fifty-two weeks ended January 25, 2015, the Company recorded net reserves for occupancy costs. Closed store reserves of \$4,929 and \$1,112 are included in the “Accrued liabilities” line item and \$9,787 and \$10,187 are included in the “Closed store reserves” line item on the accompanying Consolidated Balance Sheets at October 25, 2015 and January 25, 2015, respectively.

5. Stockholders’ Equity

Stock Repurchase Program

In August 2015, the Company’s Board of Directors authorized a \$200,000 stock repurchase program. The primary source of funds for stock repurchases are cash flows from operations net of investing activities. Repurchases under the program are made through open market transactions at prevailing market prices, with block trades permitted from time to time and in the discretion of the Company’s management and as the market conditions allow. The timing of the repurchases and the actual amount repurchased depends on a variety of factors, including the amount of cash flow available for repurchases, the market price of the Company’s shares and general market and economic conditions.

Edgar Filing: Fresh Market, Inc. - Form 10-Q

During the thirteen and thirty-nine weeks ended October 25, 2015, the Company acquired 1,616,237 shares of its outstanding common stock for \$37,620, including applicable commissions, under the stock repurchase program. The Company recognizes the cost of stock repurchases in excess of par value as a reduction to retained earnings.

6. Share-based Compensation

The Company grants share-based awards under The Fresh Market, Inc. 2010 Omnibus Incentive Compensation Plan. As of October 25, 2015, approximately 1,200,000 shares of the Company's common stock were available for share-based awards.

Share-based compensation expense is recorded in the "Selling, general and administrative expenses" line item on the accompanying Consolidated Statements of Comprehensive Income. Total share-based compensation for the thirteen and thirty-nine weeks ended October 25, 2015 and October 26, 2014 was comprised of the following:

	For the Thirteen Weeks Ended		For the Thirty-Nine Weeks Ended	
	October 25, 2015	October 26, 2014	October 25, 2015	October 26, 2014

Other share-based awards	—	—	—	28
	\$1,044	\$1,810	\$3,652	\$5,513

During the thirteen weeks ended October 25, 2015, the Company recognized a net benefit of \$135 due to the forfeiture of executive restricted stock awards in connection with certain leadership changes.

During the thirty-nine weeks ended October 25, 2015, the Company recognized a net benefit of \$339 in connection with performance share units. In July 2015, the Company determined that the minimum level of achievement to meet the performance goal was not probable, and, as a result, the total cumulative expense recognized for the performance share units was reversed, resulting in a net benefit of \$430.

The following table summarizes option activity under The Fresh Market, Inc. 2010 Omnibus Incentive Compensation Plan (in thousands) for the thirty-nine weeks ended October 25, 2015:

7. Earnings per Share

The computation of basic earnings per share is based on the number of weighted-average common shares outstanding during the period. The computation of diluted earnings per share includes the dilutive effect of common stock equivalents consisting of incremental common shares deemed outstanding from the assumed exercise of stock options and vesting of restricted stock units and restricted stock awards. The Company excluded the dilutive effect of its performance share awards and performance share units since the related performance conditions had not been satisfied for the thirteen and thirty-nine weeks ended October 25, 2015 and October 26, 2014.

A reconciliation of the numerators and denominators of the basic and diluted earnings per share calculations follows (in thousands, except share and per share amounts):

	For the Thirteen Weeks Ended		For the Thirty-Nine Weeks Ended	
	October 25, 2015	October 26, 2014	October 25, 2015	October 26, 2014

7. Earnings per Share (continued)

For the thirteen weeks ended October 25, 2015 and October 26, 2014, there were approximately 1,081,000 and 654,000 shares, respectively, excluded from the computation of diluted weighted-average common shares outstanding because such shares were antidilutive. For the thirty-nine weeks ended October 25, 2015 and October 26, 2014, there were approximately 826,000 and 607,000 shares, respectively, excluded from the computation of diluted weighted-average common shares outstanding because such shares were antidilutive.

8. Supplementary Balance Sheet Information

9. Commitments and Contingencies

Litigation

From time to time, the Company is involved in various legal proceedings in the ordinary course of business, including, but not limited to, claims, disputes, litigation, and investigations relating to labor and employment, contracts, product liability, leasing and construction, and other commercial and regulatory matters. In the opinion of management, the resolution of currently pending matters, other than those described or referred to below, will not have a material adverse effect on the Company's financial condition or results of operations. However, because of the nature and

inherent uncertainties of litigation, the Company cannot predict with certainty the ultimate resolution of these actions and, should the outcome of these actions be

The Fresh Market, Inc.
Notes to Consolidated Financial Statements - (continued)

9. Commitments and Contingencies (continued)

unfavorable, the Company's business, financial position, results of operations or cash flows could be materially and adversely affected.

The Company reviews the status of its legal proceedings and records a provision for a liability when it is considered probable that both a liability has been incurred and the amount of the loss can be reasonably estimated. This review is updated periodically as additional information becomes available. If either or both of the criteria are not met, the Company reassesses whether there is at least a reasonable possibility that a loss, or additional losses, may be incurred. If there is a reasonable possibility that a loss may be incurred, the Company discloses the estimate of the amount of the loss or range of losses, that the amount is not material, or that an estimate of loss cannot be made. The Company expenses its legal fees as incurred.

In assessing potential loss contingencies, the Company considers a number of factors, including those listed in FASB ASC No. 450-20, Contingencies - Loss Contingencies, regarding assessing the probability of a loss and assessing whether a loss is reasonably estimable. Litigation can be expensive and disruptive to normal business operations. Moreover, the results of litigation are difficult to predict and the Company's view of these matters may change as the litigation and events unfold over time. An unfavorable outcome in any legal matter, if material, could have a material adverse effect on the Company's results of operations in the period in which the unfavorable outcome occurs and potentially in future periods.

The Company is party to a lawsuit that was filed on July 17, 2013 against it in U.S. District Court in Connecticut alleging that the manner in which the Company implemented and applied the fluctuating workweek method for calculating overtime due to the Company's department managers violated the federal Fair Labor Standards Act. The complaint purports to state a collective action on behalf of a class of department managers in stores in states in which the Company used the fluctuating workweek method of compensation. The Company believes that the plaintiff's claims are without merit and intends to vigorously defend itself in this proceeding. The Company cannot at this time predict the outcome of this litigation or estimate the range of its potential exposure. The Company has not recorded any reserves or contingencies related to this legal matter.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Fresh Market, Inc. is a specialty grocery retailer focused on creating an extraordinary food shopping experience for our customers. Since opening our first store in 1982, we have offered high-quality food products, with an emphasis on fresh, premium perishables and an uncompromising commitment to customer service. We seek to provide an attractive, convenient shopping environment while offering our customers a compelling price-value combination. As of October 25, 2015, we operated 180 stores in 27 states across the United States.

We believe several key differentiating elements of our business have enabled us to execute our strategy profitably across our expanding store base. Within our smaller-box format, we focus on higher-margin food categories and strive to deliver a more personal level of service and a more enjoyable shopping experience. Further, our smaller-box format is adaptable to different retail sites and configurations and has facilitated our successful growth. Additionally, we believe our disciplined, comprehensive approach to planning and merchandising and the support we provide our stores allow us to deliver a consistent shopping experience.

On October 20, 2015, we announced that we and our Board of Directors are conducting a strategic and financial review of our business. This review may result in pursuing value-enhancing initiatives as a standalone company, capital structure optimization, or the sale of our business or other business combination. In the event that our Board of Directors concludes that pursuing any potential strategic alternative is in the best interests of our stockholders, any such process will be conducted in a manner designed to maximize value for all stockholders. We do not intend to comment further regarding the strategic and financial review until our Board of Directors approves a specific action or concludes its review.

How We Assess the Performance of Our Business

In assessing our performance, we consider a variety of performance and financial measures. The key measures that we assess to evaluate the performance of our business are set forth below.

Sales

Our sales comprise gross sales net of coupons, commissions and discounts.

The food retail industry and our sales are affected by general economic conditions and seasonality, as well as the factors discussed below, that may affect our comparable store sales. Consumer purchases of specialty food products are particularly sensitive to a number of factors that influence the levels of consumer spending, including economic conditions, the level of disposable consumer income, consumer debt, interest rates and consumer confidence. In addition, our business is seasonal and, as a result, our average weekly sales fluctuate during the year and are usually highest in the fiscal fourth quarter when customers make holiday purchases.

Comparable Store Sales

Our practice is to include sales from a store in comparable store sales beginning on the first day of the sixteenth full month following the store's opening. We believe that comparability is achieved approximately fifteen months after opening. When a store that is included in comparable store sales is remodeled, relocated or refreshed, we continue to consider sales from that store to be comparable store sales. When a store is closed it is removed from comparable store sales in the period it is closed. There may be variations in the way that our competitors calculate comparable or "same store" sales. As a result, data in this Form 10-Q regarding our comparable store sales may not be comparable to similar data made available by our competitors.

Various factors may affect comparable store sales, including:

- overall economic trends and conditions, including general price levels in the economy;
- consumer confidence, preferences and buying trends;
- our competition, including competitor store openings or closings near our stores;
- our competitors expanding their offerings of premium/perishable products;
- the pricing of our products, including the effects of inflation, deflation and our promotional activities which we evaluate and adjust in the ordinary course of our business;

- the number of customer transactions at our stores;
- our ability to provide an assortment of distinctive, high-quality product offerings to generate new and repeat visits to our stores;
- the level of customer service that we provide in our stores;
- our in-store merchandising-related activities;
- our ability to source products efficiently;
- our opening of new stores in the vicinity of our existing stores;
- the number of stores we open, remodel, relocate or refresh in any period; and
- severe or unfavorable weather conditions.

As we continue to pursue our growth strategy, we expect that a significant percentage of our sales growth will continue to come from new stores not included in comparable store sales. Accordingly, comparable store sales is only one measure we use to assess our performance.

Gross Profit

Gross profit is equal to our sales minus our cost of goods sold. Gross margin measures gross profit as a percentage of our sales. Cost of goods sold is directly correlated with sales and includes the direct costs of purchased merchandise, distribution and supply chain costs, buying costs, store supplies and store occupancy costs. Store occupancy costs include rent, common area maintenance, real estate taxes, personal property taxes, insurance, licenses and utilities. Cost of goods sold is exclusive of depreciation, which is reported separately. The components of our cost of goods sold may not be identical to those of our competitors. As a result, data in this Form 10-Q regarding our gross profit and gross margin rate may not be comparable to similar data made available by our competitors.

Gross margin rates are driven by economies of scale from our store base, inventory shrinkage as a percentage of sales, productivity through process and merchandising programs, promotional activities, and pricing on select items. Changes in the mix of products sold may also impact our gross margin rate.

Selling, General and Administrative Expenses

Selling, general and administrative expenses include certain retail store and corporate costs, including compensation (both cash and share-based), pre-opening expenses, marketing and advertising, and other corporate administrative costs. Share-based compensation expenses include those arising from grants made under The Fresh Market, Inc. 2010 Omnibus Incentive Compensation Plan. Pre-opening expenses are costs incurred in connection with the opening of new stores and include costs associated with store labor, travel, recruiting, relocating and training personnel and other miscellaneous costs. Pre-opening costs are expensed as incurred.

Labor and corporate administrative costs generally decrease as a percentage of sales as a result of an increase in our sales. Accordingly, selling, general and administrative expenses as a percentage of sales are usually higher in lower volume quarters and lower in higher volume quarters. Store-level compensation costs are generally the largest component of our selling, general and administrative expenses. The components of our selling, general and administrative expenses may not be identical to those of our competitors. As a result, data in this Form 10-Q regarding our selling, general and administrative expenses may not be comparable to similar data made available by our competitors. We expect that our selling, general and administrative expenses will increase in future periods due to our continuing store growth.

Impairments and Store Closure Costs

We evaluate long-lived assets for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. Factors we consider important which could trigger an impairment review include a decision to close a store or negative or declining operating cash flows. The carrying value is not recoverable if it exceeds the undiscounted cash flows resulting from the use of the asset and its eventual disposition. Our estimates of future cash flows attributable to our long-lived assets require significant judgment based on our historical and anticipated results and are subject to many factors. A decline in sales or other factors could expose us to future impairment charges that could be material.

We record a reserve for future lease obligations associated with stores that have closed or unopened leased locations that we decide not to pursue. The fair value of the lease liability is estimated using a discount rate to calculate the present value of the remaining non-cancelable lease payments at the cease use date for the location, net of an estimate of subtenant income. Our expectations of potential subtenant income are based on various factors including our knowledge of the geographical area in which the property is located, the remaining lease term and existing conditions. We also seek advice from local brokers and agents, commercial market value analysts, and third-party fair value reports to develop our assumptions. Changes in market and economic conditions could cause us to change our assumptions and may require adjustments to the reserves.

Income from Operations

Income from operations consists of gross profit minus selling, general and administrative expenses, impairments and store closure costs and depreciation.

Income Taxes

We must make certain estimates and judgments in determining income tax expense for financial statement purposes. The amount of taxes currently payable or refundable is accrued, and deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amount of existing assets and liabilities and their respective tax bases. Deferred tax assets are also recognized for realizable loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in income tax rates is recognized in our financial statements in the period that includes the enactment date.

Non-GAAP Adjusted Financial Results

In addition to presenting our financial results in conformity with GAAP in this Form 10-Q, we are also presenting results on an “adjusted” basis in order to exclude the impact of (i) charges associated with store closure and exit costs, impairments of certain real estate and store related assets for the thirteen and thirty-nine weeks ended October 25, 2015 and October 26, 2014, (ii) charges related to changes in leadership for the thirteen and thirty-nine weeks ended October 25, 2015 and (iii) charges related to the strategic and financial review of the Company for the thirteen and thirty-nine weeks ended October 25, 2015. Additionally, these charges reflect an estimated provision for income taxes for the thirteen and thirty-nine weeks ended October 25, 2015 and October 26, 2014. Except where the context otherwise requires, the use of the term “adjusted” or “as adjusted” with reference to the financial results discussed in this management’s discussion and analysis refers to the adjusted results described in this paragraph. These adjusted financial results are non-GAAP financial measures. These measures are not in accordance with, or an alternative to, GAAP and are reconciled to the Company’s most recent GAAP financial statement in “Period to Period Comparisons - Thirteen Weeks Ended October 25, 2015 Compared to the Thirteen Weeks Ended October 26, 2014” and “Period to Period Comparisons - Thirty-Nine Weeks Ended October 25, 2015 Compared to the Thirty-Nine Weeks Ended October 26, 2014” below. The Company’s management believes that these presentations provide useful information to management, analysts and investors regarding certain additional financial and business trends relating to the Company’s results of operations and financial condition. In addition, the Company’s management uses these measures to review the Company’s financial results and evaluate its business operations. We believe that the presentation of adjusted financial results facilitates an understanding of our operations without the impact associated with the charges referenced above. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

As a result, data in this Form 10-Q regarding our comparable store sales may not be comparable to similar data made available by our competitors.

Average comparable store size and comparable store sales per gross square foot are calculated using the gross square footage and sales for stores included within our comparable store base for each month during the given period.

Period to Period Comparisons

Thirteen Weeks Ended October 25, 2015 Compared to the Thirteen Weeks Ended October 26, 2014

Sales

Sales increased 3.3%, or \$13.7 million, to \$433.1 million for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014, resulting from a \$28.7 million increase in non-comparable store sales and a \$15.0 million decrease in comparable store sales. There were 156 comparable stores and 24 non-comparable stores open at October 25, 2015.

Comparable store sales decreased 3.7% to \$386.5 million for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014. The decrease in comparable store sales was the result of a 3.7% decrease in the number of transactions. Average customer transaction size for comparable stores was \$30.59 for the thirteen weeks ended October 25, 2015, compared to \$30.58 for the thirteen weeks ended October 26, 2014.

Gross Profit

Gross profit increased 4.3%, or \$5.9 million, to \$144.0 million for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014. The amount of the increase in gross profit attributable to increased sales was \$4.5 million and the amount attributable to the change in gross margin rate was \$1.4 million. The gross margin rate increased 30 basis points to 33.2% for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014. The increase in gross margin rate was driven primarily by reduced supply chain costs, reduced store supplies expenses, and a favorable LIFO expense adjustment, partially offset by an increase in occupancy costs.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 8.7%, or \$8.8 million, to \$109.6 million for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014. The increase in selling, general and administrative expenses was primarily attributable to an increase in the number of stores in operation during the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014, which led to higher overall store-level compensation expenses and other costs to operate our stores. With more stores in operation during the thirteen weeks ended October 25, 2015, store-level compensation expenses increased \$5.4 million and other store operating expenses increased \$1.0 million. Corporate general and administrative expenses increased \$2.1 million for the thirteen weeks ended October 25, 2015. Included in corporate general and administrative expenses was \$1.6 million related to the previously announced leadership changes.

As a percentage of sales, selling, general and administrative expenses increased by 130 basis points to 25.3% for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014. The increase in selling, general and administrative expenses as a percentage of sales for the thirteen weeks ended October 25, 2015 was primarily due to increased store labor expenses on lower comparable store sales, along with previously announced leadership change charges of 40 basis points and investments in marketing and store productivity programs, partially offset by a decrease in incentive compensation expense, compared to the thirteen weeks ended October 26, 2014.

Impairments and Store Closure Costs

Edgar Filing: Fresh Market, Inc. - Form 10-Q

During the thirteen weeks ended October 25, 2015, we recorded \$0.3 million of impairments and store closure costs, compared to a net benefit of \$2.7 million for the thirteen weeks ended October 26, 2014, of which \$2.9 million was primarily related to a gain on the assignment of a capital lease and changes in estimates related to lease commitments for previously closed stores.

Depreciation Expense

Depreciation expense increased 11.3%, or \$1.8 million, to \$17.5 million for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014, principally due to store unit growth, remodels and refreshes. Depreciation expense as a percentage of sales increased 30 basis points to 4.0% for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014.

Income from Operations

Income from operations decreased 31.4%, or \$7.6 million, to \$16.7 million for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014. For the thirteen weeks ended October 25, 2015, we recognized charges of \$1.6 million in connection with previously announced leadership changes. Additional charges of \$0.2 million were recognized during the thirteen weeks ended October 25, 2015 associated with store closure and exit costs and our strategic and financial review of the business. For the thirteen weeks ended October 26, 2014, we recognized a net benefit of approximately \$2.9 million associated with store closure and exit activities. Excluding these items, adjusted income from operations was \$18.5 million for the thirteen weeks ended October 25, 2015, compared to adjusted income from operations of \$21.4 million for the thirteen weeks ended October 26, 2014. Income from operations as a percentage of sales decreased 190 basis points to 3.9% for the thirteen weeks ended October 25, 2015, compared to 5.8% for the thirteen weeks ended October 26, 2014. The decrease in income from operations as a percentage of sales was primarily due to a net benefit in connection with the store closure and exit costs for the thirteen weeks ended October 26, 2014 and an increase in leadership change charges for the thirteen weeks ended October 25, 2015. Adjusted income from operations as a percentage of sales decreased 80 basis points to 4.3% for the thirteen weeks ended October 25, 2015, compared to 5.1% for the thirteen weeks ended October 26, 2014, primarily related to increased selling, general and administrative expenses partially offset by an increase in gross margin rate.

The following table provides an unaudited reconciliation of adjusted income from operations, a non-GAAP financial measure, to GAAP income from operations for the thirteen weeks ended October 25, 2015 compared to the thirteen weeks ended October 26, 2014.

(1) During the thirteen weeks ended October 25, 2015, we incurred expenses of \$0.1 million in connection with store closure and exit activities, compared to a net benefit of approximately \$2.9 million during the thirteen weeks ended October 26, 2014 in connection with the gain on assignment of a capital lease and changes in estimates related to our lease commitments for previously closed stores, which was recorded to the “Impairments and store closure costs” line item on the Consolidated Statements of Comprehensive Income. Income from operations is not adjusted for certain ongoing expenses for closed locations which occur on a recurring basis.

(2) During the thirteen weeks ended October 25, 2015, we incurred expenses of \$1.6 million in connection with previously announced leadership changes, which was recorded to the “Selling, general and administrative expenses” line item on the Consolidated Statements of Comprehensive Income.

(3) During the thirteen weeks ended October 25, 2015, we incurred expenses of \$0.1 million in connection with the Company’s strategic and financial review of the business, which was recorded to the “Selling, general and administrative expenses” line item on the Consolidated Statements of Comprehensive Income.

(4) The totals may not equal the sum of the components due to rounding.

Interest Expense

Interest expense decreased \$0.1 million to \$1.0 million for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014.

Income Tax Expense

Income taxes for the thirteen weeks ended October 25, 2015 resulted in an effective tax rate of approximately 36.2%, compared to an effective tax rate of approximately 36.0% for the thirteen weeks ended October 26, 2014.

Net Income

Net income decreased 32.9%, or \$4.9 million, to \$10.0 million for the thirteen weeks ended October 25, 2015, compared to the thirteen weeks ended October 26, 2014. During the thirteen weeks ended October 25, 2015, net income was affected by pre-tax charges of \$1.6 million associated with leadership changes and pre-tax charges of \$0.2 million associated with store closure and exit costs and the Company's strategic and financial review of the business, compared to a pre-tax net benefit of \$2.9 million as a result of adjustments to previously recorded store closure and exit costs. Adjusted net income decreased 15.5%, or \$2.0 million, to \$11.0 million, for the thirteen weeks ended October 25, 2015, compared to adjusted net income of \$13.0 million for the thirteen weeks ended October 26, 2014. Net income as a percentage of sales for the thirteen weeks ended October 25, 2015 decreased 120 basis points to 2.3% from 3.5% for the thirteen weeks ended October 26, 2014. Adjusted net income as a percentage of sales for the thirteen weeks ended October 25, 2015 decreased 60 basis points to 2.5% from 3.1% for the thirteen weeks ended October 26, 2014.

The following table provides an unaudited reconciliation of adjusted net income, a non-GAAP financial measure, to GAAP net income, as well as the related impact to our diluted earnings per share for the thirteen weeks ended October 25, 2015 compared to the thirteen weeks ended October 26, 2014.

Thirty-Nine Weeks Ended October 25, 2015 Compared to the Thirty-Nine Weeks Ended October 26, 2014

Sales

Edgar Filing: Fresh Market, Inc. - Form 10-Q

Sales increased 5.1%, or \$64.6 million, to \$1.34 billion for the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014, resulting from an \$84.2 million increase in non-comparable store sales and a \$19.6 million decrease in comparable store sales. There were 156 comparable stores and 24 non-comparable stores open at October 25, 2015.

Comparable store sales decreased 1.6% to \$1.18 billion for the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014. For the thirty-nine weeks ended October 25, 2015, the decrease in comparable store sales was driven by a 1.5% decrease in the number of transactions and a 0.1% decrease in the average transaction size. Average customer transaction size for comparable stores was \$31.19 for the thirty-nine weeks ended October 25, 2015, compared to \$31.24 for the thirty-nine weeks ended October 26, 2014.

Gross Profit

Gross profit increased 5.5%, or \$23.6 million, to \$453.6 million for the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014. The amount of the increase in gross profit attributable to increased sales was \$21.8 million and an increase of \$1.8 million was attributable to the change in gross margin rate. The gross margin rate was 33.9% for the thirty-nine weeks ended October 25, 2015, compared to 33.8% for the thirty-nine weeks ended October 26, 2014.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 6.4%, or \$19.3 million, to \$318.3 million for the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014. The increase in selling, general and administrative expenses was primarily attributable to an increase in the number of stores in operation during the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014, which led to higher overall store-level compensation expenses and other costs to operate our stores. With more stores in operation during the thirty-nine weeks ended October 25, 2015, store-level compensation expenses increased \$12.4 million and other store operating expenses increased \$4.4 million. Corporate general and administrative expenses increased \$2.9 million for the thirty-nine weeks ended October 25, 2015, which included \$2.0 million related to the previously announced leadership changes. This was partially offset by a decrease in pre-opening expenses of \$0.5 million as we opened 14 new stores during the thirty-nine weeks ended October 25, 2015, compared to 17 new store openings during the thirty-nine weeks ended October 26, 2014.

As a percentage of sales, selling, general and administrative expenses increased by 30 basis points to 23.8% for the thirty-nine weeks ended October 25, 2015, compared to 23.5% for the thirty-nine weeks ended October 26, 2014. The increase in selling, general and administrative expenses as a percentage of sales for the thirty-nine weeks ended October 25, 2015 was primarily due to increased store labor expenses on lower comparable store sales, along with previously announced leadership change charges of 20 basis points and investments in marketing and store productivity programs, partially offset by lower incentive compensation expenses, compared to the thirty-nine weeks ended October 26, 2014.

Impairments and Store Closure Costs

During the thirty-nine weeks ended October 25, 2015, we recorded \$14.6 million of impairments and store closure costs, which included \$14.0 million of store closure and exit costs in connection with our departure from the California market, compared to \$13.9 million for the thirty-nine weeks ended October 26, 2014, which included \$13.5 million of store closure and exit costs in connection with the closure of four stores in March 2014. These costs included certain lease liabilities, severance, write-down and loss on disposal of fixed assets, and other exit costs.

Depreciation Expense

Depreciation expense increased 9.5%, or \$4.4 million, to \$50.4 million for the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014, principally due to store unit growth, remodels and refreshes. Depreciation expense as a percentage of sales increased 20 basis points to 3.8% for the thirty-nine weeks ended October 25, 2015, compared to 3.6% for the thirty-nine weeks ended October 26, 2014.

Income from Operations

Income from operations decreased 1.0%, or \$0.7 million, to \$70.3 million for the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014. For the thirty-nine weeks ended October 25, 2015, we recognized charges of approximately \$14.5 million associated with store closure and exit activities and the liquidation of inventory for closed locations, and approximately \$2.1 million in connection with previously announced leadership changes and the Company's strategic and financial review of the business. For the thirty-nine weeks ended October 26, 2014, we recognized charges of approximately \$13.9 million associated with store closure and exit activities, including the liquidation of inventory and other costs associated with store closure activities for closed locations. Excluding these items, adjusted income from operations was \$87.0 million for the thirty-nine weeks ended

October 25, 2015, an increase of 2.5% from adjusted income from operations of \$84.9 million for the thirty-nine weeks ended October 26, 2014.

Income from operations as a percentage of sales decreased 30 basis points to 5.3% for the thirty-nine weeks ended October 25, 2015, compared to 5.6% for the thirty-nine weeks ended October 26, 2014. The decrease in income from operations as a percentage of sales was primarily due to an increase in store closure and exit costs and charges related to previously announced leadership changes for the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014. Adjusted income from operations as a percentage of sales decreased 20 basis points to 6.5% for the thirty-nine weeks ended October 25, 2015, compared to 6.7% for the thirty-nine weeks ended October 26, 2014, primarily related to an increase in selling, general and administrative expenses, partially offset by an increase in the gross margin rate.

The following table provides an unaudited reconciliation of adjusted income from operations, a non-GAAP financial measure, to GAAP income from operations for the thirty-nine weeks ended October 25, 2015 compared to the thirty-nine weeks ended October 26, 2014.

(1) During the thirty-nine weeks ended October 25, 2015, we incurred approximately \$14.5 million of expenses in connection with closure and exit activities, with approximately \$14.0 million recorded to the “Impairments and store closure costs” line item and approximately \$0.5 million for the liquidation of inventory and other costs recorded to other line items on the Consolidated Statements of Comprehensive Income. During the thirty-nine weeks ended October 26, 2014, we incurred approximately \$13.9 million of expenses associated with closure and exit activities, with approximately \$13.5 million recorded to the “Impairments and store closure costs” line item and approximately \$0.4 million for the liquidation of inventory and other costs recorded to other line items on the Consolidated Statements of Comprehensive Income. Income from operations is not adjusted for certain ongoing expenses for closed locations which occur on a recurring basis.

(2) During the thirty-nine weeks ended October 25, 2015, we incurred \$2.0 million of expenses in connection with previously announced leadership changes, which was recorded to the “Selling, general and administrative expenses” line item on the Consolidated Statements of Comprehensive Income.

(3) During the thirty-nine weeks ended October 25, 2015, we incurred \$0.1 million of expenses in connection with the Company’s strategic and financial review of the business, which was recorded to the “Selling, general and administrative expenses” line item on the Consolidated Statements of Comprehensive Income.

(4) The totals may not equal the sum of the components due to rounding.

Interest Expense

Interest expense decreased \$0.3 million to \$3.0 million for the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014.

Income Tax Expense

Income taxes remained flat and resulted in an effective tax rate of approximately 36.7% for the thirty-nine weeks ended October 25, 2015 and October 26, 2014.

Net Income

Net income decreased 0.5%, or \$0.2 million, to \$42.6 million for the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014. Net income was negatively affected by pre-tax charges of \$14.5 million associated with store closure and exit costs and pre-tax charges of \$2.1 million associated with leadership changes and the Company's strategic and financial review of the business during the thirty-nine weeks ended October 25, 2015, compared to pre-tax charges of \$13.9 million associated with store closure and exit costs for the thirty-nine weeks ended October 26, 2014. Adjusted net income increased 2.8%, or \$1.5 million, to \$52.9 million, for the thirty-nine weeks ended October 25, 2015, compared to adjusted net income of \$51.4 million for the thirty-nine weeks ended October 26, 2014.

Net income as a percentage of sales for the thirty-nine weeks ended October 25, 2015 decreased 20 basis points to 3.2% from 3.4% for the thirty-nine weeks ended October 26, 2014. Adjusted net income as a percentage of sales remained flat at 4.0% for the thirty-nine weeks ended October 25, 2015 and October 26, 2014.

The following table provides an unaudited reconciliation of adjusted net income, a non-GAAP financial measure, to GAAP net income, as well as the related impact to our diluted earnings per share for the thirty-nine weeks ended October 25, 2015 compared to the thirty-nine weeks ended October 26, 2014.

Liquidity and Capital Resources

Our primary sources of liquidity are cash on hand and cash generated from operations. Our primary uses of cash are purchases of inventory, operating expenses, capital expenditures primarily for opening new stores and remodeling, relocating and refreshing existing stores, repurchases of common stock, debt service and corporate taxes. We believe that the cash on hand and cash generated from operations, together with the borrowing availability under the Credit Agreement, will be sufficient to meet our working capital needs for at least the next twelve months, including investments made, and expenses incurred, in connection with opening new stores and remodeling, relocating and refreshing existing stores and other investments, such as information technology and projects to improve operational efficiencies. Our working capital position benefits from the fact that we generally collect cash from sales to customers the same day or, in the case of credit or debit card transactions, within a few days of the related sale.

At October 25, 2015, we had approximately \$37.3 million in cash and cash equivalents and \$149.6 million in borrowing availability under the Credit Agreement.

While we believe we have sufficient liquidity and capital resources to meet our current operating requirements and expansion plans, we may elect to pursue additional expansion opportunities within the next year which could require additional debt or equity financing. If we are unable to secure additional financing at favorable terms in order to pursue such additional expansion opportunities, our ability to pursue such opportunities could be materially adversely affected.

Net cash used in financing activities for the thirty-nine weeks ended October 25, 2015 increased 43.1%, or \$11.1 million, to \$36.8 million. Net cash used in financing activities was primarily attributable to repurchases of common stock for the thirty- nine weeks ended October 25, 2015. There was no net activity for our revolving credit facility for

the thirty-nine weeks ended October 25, 2015, compared to net payments of \$24.7 million for the thirty-nine weeks ended October 26, 2014. Additionally, there was an increase in net proceeds of \$2.3 million from the exercise of share-based compensation awards for the thirty-nine weeks ended October 25, 2015, compared to the thirty-nine weeks ended October 26, 2014.

Revolving Credit Agreement

On June 12, 2014, we entered into the Credit Agreement with Bank of America, N.A., as Administrative Agent, Swing Line Lender and Letter of Credit Issuer, and the several lenders party thereto, which refinanced and replaced our prior senior unsecured revolving credit facility.

The Credit Agreement matures June 12, 2019 and is available to provide support for working capital, capital expenditures and other general corporate purposes, including permitted acquisitions and issuance of letters of credit. While we currently have no material domestic subsidiaries, other entities will guarantee our obligations under the Credit Agreement if and when they become our material domestic subsidiaries during the term of the Credit Agreement.

The Credit Agreement provides for total borrowings of up to \$175.0 million. Under the terms of the Credit Agreement, we are entitled to request an increase in the size of the facility by an amount not exceeding \$100.0 million in the aggregate. If the existing lenders elect not to provide the full amount of a requested increase, or in lieu of accepting offers from existing lenders to increase their commitments, we may designate one or more other lenders to become a party to the Credit Agreement, subject to the approval of the Administrative Agent. The Credit Agreement includes a letter of credit sublimit of \$60.0 million and a swing line sublimit of \$15.0 million.

At our option, revolving loans under the Credit Agreement bear interest at (i) the London Interbank Offered Rate (“LIBOR”) plus an applicable margin that ranges from 0.90% to 2.00%, (ii) the Eurodollar rate plus an applicable margin that ranges from 0.90% to 2.00%, or (iii) the base rate plus an applicable margin that ranges from 0% to 1.00%, where the base rate is defined as the greatest of: (a) the federal funds rate plus 0.50%, (b) Bank of America’s prime rate, and (c) the Eurodollar rate plus 1.00%.

The commitment fee calculated on the unused portions of the Credit Agreement ranges from 0.125% to 0.250% per annum.

The Credit Agreement contains a number of affirmative and restrictive covenants, including limitations on our ability to grant liens, incur additional debt, pay dividends, redeem our common stock, make certain investments and engage in certain merger, consolidation or asset sale transactions.

In addition, the Credit Agreement provides that we are required to maintain the following financial ratios:

a consolidated leverage ratio as of the end of any fiscal quarter of not more than 4.25 to 1.00, based upon the ratio of (i) Adjusted Funded Debt (as defined in the Credit Agreement) minus certain cash and cash equivalents in excess of \$5.0 million as of the end of each fiscal quarter to (ii) Consolidated EBITDAR (as defined in the Credit Agreement) for the period consisting of the four fiscal quarters then ending; and

a consolidated fixed charge coverage ratio as of the end of each fiscal quarter of not less than 1.70 to 1.00, based upon the ratio of (i) Consolidated EBITDAR (as defined in the Credit Agreement) less cash taxes paid and dividends and other distributions made in respect of capital stock, in each case, over the period consisting of the four fiscal quarters then ending to (ii) the sum of cash interest, lease, rent and scheduled principal payments on Funded Debt (as defined in the Credit Agreement), in each case, over the period consisting of the four fiscal quarters then ending.

The Credit Agreement contains customary events of default. If an Event of Default (as defined in the Credit Agreement) occurs and is continuing, on the terms and subject to the conditions set forth in the Credit Agreement, amounts outstanding under the Credit Agreement may be accelerated and may become or be declared immediately due and payable.

We were in compliance with all debt covenants under the Credit Agreement as of October 25, 2015.

Stock Repurchase Program

In August 2015, our Board of Directors authorized a \$200.0 million stock repurchase program. The primary source of funds for stock repurchases are cash flows from operations net of investing activities. Repurchases under the program are made through open market transactions at prevailing market prices, with block trades permitted from time to time and in the discretion of our management and as market conditions allow. The timing of the repurchases and the actual amount repurchased depends on a variety of factors, including the amount of cash flow available for repurchases, the market price for our shares and general market and economic conditions.

Edgar Filing: Fresh Market, Inc. - Form 10-Q

During the thirteen and thirty-nine weeks ended October 25, 2015, we acquired 1,616,237 shares of our outstanding common stock for \$37.6 million, including applicable commissions, under the stock repurchase program.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements at October 25, 2015 consisted of operating leases. We have no other off-balance sheet arrangements that have had, or are reasonably likely to have, a material current or future effect on our consolidated financial statements or changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Contractual Obligations

Our contractual obligations primarily consist of long-term debt obligations and lease obligations. No material changes outside the ordinary course of business have occurred in our contractual obligations during the thirty-nine weeks ended October 25, 2015. For a more comprehensive discussion of our contractual obligations see “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” set forth in Part II, Item 7 of our Annual Report on Form 10-K for the fiscal year ended January 25, 2015.

Critical Accounting Policies

Our financial statements and accompanying notes are prepared in accordance with U.S. generally accepted accounting principles, or GAAP. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the reporting period. These estimates and assumptions are affected by management’s application of accounting policies. On an ongoing basis, management evaluates its estimates and judgments. Critical accounting policies that affect our more significant judgments and estimates used in the preparation of our financial statements include accounting for inventories, impairment of long-lived assets, closed store reserves, leases, insurance reserves, taxes and share-based compensation, which are discussed in more detail under the caption “Critical Accounting Policies” in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” set forth in Part II, Item 7 of our Annual Report on Form 10-K for the fiscal year ended January 25, 2015.

Seasonality

The food retail industry and our sales are affected by seasonality. Our average weekly sales fluctuate during the year and are usually highest in the fourth quarter when customers make holiday purchases.

Inflation

While inflation may impact our sales and cost of goods sold, we believe the effects of inflation on our results of operations and financial condition were not significant for the thirteen and thirty-nine weeks ended October 25, 2015. We cannot assure you, however, that our results of operations and financial condition will not be materially impacted by inflation in the future.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We do not utilize financial instruments for trading or other speculative purposes, nor do we utilize leveraged financial instruments. Our exposure to market risks results primarily from changes in interest rates and there have been no material changes regarding our market risk position from the information provided under Part II, Item 7A of our Annual Report on Form 10-K for the fiscal year ended January 25, 2015.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as of the end of the period covered by this Form 10-Q. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on that evaluation, our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer concluded that, as of October 25, 2015, our disclosure controls and procedures were effective to

provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission

rules and forms, and that such information is accumulated and communicated to our management, including our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the thirteen weeks ended October 25, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

From time to time, we are involved in various legal proceedings in the ordinary course of business, including, but not limited to, claims, disputes, litigation, and investigations relating to labor and employment, contracts, product liability, leasing and construction, and other commercial and regulatory matters. Although we cannot predict with certainty the ultimate resolution of any lawsuits, investigations and claims asserted against us, we do not believe any currently pending legal proceeding to which we are a party will have a material adverse effect on our business, prospects, financial condition, cash flows or results of operations, except for the proceeding described in the immediately succeeding paragraph, which could have a material adverse effect on us.

We are party to a lawsuit that was filed on July 17, 2013 against us in U.S. District Court in Connecticut alleging that the manner in which we implemented and applied the fluctuating workweek method for calculating overtime due to our department managers violated the federal Fair Labor Standards Act. The complaint purports to state a collective action on behalf of a class of department managers in stores in states in which we used the fluctuating workweek method of compensation. We believe that the plaintiff's claims are without merit and intend to vigorously defend ourselves in this proceeding. We cannot at this time predict the outcome of this litigation or estimate the range of our potential exposure. We have not recorded any reserves or contingencies related to this legal matter.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended January 25, 2015.
