Report of Independent Registered Public Accounting Firm

To the Plan Administrator and Participants  
Northfield Bank Employee Savings Plan:

We have audited the accompanying statements of net assets available for plan benefits of the Northfield Bank Employee Savings Plan (“the Plan”) as of December 31, 2015 and 2014, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2015 and 2014, and the changes in its net assets available for plan benefits for the year ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

The supplemental schedule of assets (held at December 31, 2015) has been subjected to audit procedures performed in conjunction with the audit of the Plan’s financial statements. The supplemental schedule is the responsibility of the Plan’s management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule of assets (held at December 31, 2015) is fairly stated in all material respects in relation to the Plan’s 2015 financial statements as a whole.

Northfield Bank Employee Savings Plan  
Notes to Financial Statements  
December 31, 2015 and 2014

1. Description of Plan

The following description is provided for general information summary purposes. Participants of the Northfield Bank Employee Savings Plan (the “Plan”) should refer to the Summary Plan document for more detailed and complete description of the Plan provisions.

General

The Plan is a defined contribution employee savings plan covering all eligible employees of Northfield Bank (the “Bank”). The Bank is a wholly-owned subsidiary of Northfield Bancorp, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Participating employees with three months of credited service who are salaried employees or hourly paid employees who are eligible for the Bank’s health benefits are automatically enrolled in the Plan and are entitled to contribute to the Plan between 2% to 100% (subject to certain IRS limitations) of their compensation, as defined in the Plan. Contributions can be made on a before-tax basis or after-tax basis.

The Bank matches a portion of the participants’ before or after tax contributions after one year of credited service. The Bank contributes an amount equal to one-quarter of the employee contributions on the first 6% of compensation, as defined, contributed by eligible employees for the first three years. The Bank contributes an amount equal to one-half of the employee contributions on the first 6% of compensation, as defined, for eligible employees with three or more years of service. The Bank may make discretionary contributions which may vary in amount from year to year. There were no discretionary Bank contributions made for 2015.

Vesting

Plan participants are 100 percent vested in the account balance attributable to their voluntary contributions, including related earnings therein.

The vesting schedule related to Bank matching contributions is as follows:

Years of Service	Percentage Vested
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years or more	100%

Forfeitures

If a participant terminates employment with the Bank and is less than 100% vested in the employer contribution, the participant forfeits the non-vested portion of their employer contribution. A forfeiture will occur in the plan year that the participant receives a distribution on their entire vested account or if the participant does not receive a distribution after five consecutive one year breaks in service. Forfeitures are retained in the Plan and used to reduce future Bank contributions. The balance of forfeitures included in Plan assets at December 31, 2015 was \$566. There were no forfeitures included in the Plan assets at December 31, 2014. Forfeitures of \$1,125 were used to reduce employer contributions in 2015.

Administrative Expenses

Expenses associated with administering the Plan are generally paid by the Bank. Certain participant-specific expenses are assessed against such participants' individual investment accounts. In addition, certain investment related expenses have been offset against net investment income and are not readily determinable.

4

---

Northfield Bank Employee Savings Plan  
Notes to Financial Statements  
December 31, 2015 and 2014

#### Payment of Benefits

On termination of service due to death, a participant's vested account balance will be distributed one of three ways: as a single cash payment within 1 year of the date of termination, through a straight-life annuity, or a rollover to an individual retirement account ("IRA") or another qualified plan for a surviving spouse. For termination of service due to disability, retirement or other reasons, a participant may receive the value of the vested interest in his or her account as a single cash payment, rollover to an IRA or a straight-life annuity contract.

#### Notes Receivable from Participants

Eligible participants may borrow up to the lesser of (1) fifty percent (50%) of the value of the employee vested account or (2) \$50,000 reduced by the largest outstanding note receivable balance during the past 12 months. The interest rate on all such notes receivable are fixed for the term of the receivable and are based on the "prime rate" as published in the Wall Street Journal on the first day of the month in which the loan was made. The rate shall remain in effect until the receivable is repaid. The interest rate on notes receivable from participants was 3.25% at December 31, 2015 and 2014.

#### Distributions

During employment, a participant may make withdrawals of amounts applicable to employee and vested employer contributions, subject to certain restrictions, as defined. Participants are entitled to withdraw funds upon attaining age 59 1/2 or for financial hardship before that age. Participants may qualify for financial hardship withdrawals if they have an immediate and substantial financial need, as defined by the Plan document. Participants are limited to one withdrawal in any calendar year.

## 2. Summary of Significant Accounting Policies

#### Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting. Certain prior year balances have been reclassified to conform to current year presentation.

#### Payment of Benefits

Amounts paid to participants are recorded upon distribution.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

#### Investment Valuation and Income Recognition

Mutual funds are valued on the last business day of the year based on published market values in active markets. Common/collective trust ("CCT") fund fair values are determined by the respective fund manager using Net Asset Value ("NAV") as a practical expedient. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. There were no significant unfunded commitments or restrictions on redemptions related to the CCTs as of December 31, 2015 and 2014. CCT funds can be redeemed daily.

Edgar Filing: Northfield Bancorp, Inc. - Form 11-K

The Northfield Bancorp, Inc. Common Stock Fund (“CSF”) consists primarily of Northfield Bancorp, Inc. common stock. In addition, the CSF also invests approximately 5% of its balance in money market instruments. Participant ownership is measured in units of the CSF instead of shares of stock. The Plan directly owns the shares of common stock of Northfield Bancorp, Inc. The common stock is valued based upon quoted prices at the last reported sales price at the end of the year. The money market instruments are valued at cost plus interest earned, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Northfield Bank Employee Savings Plan  
Notes to Financial Statements  
December 31, 2015 and 2014

Notes Receivable from Participants

Notes receivable are valued at their unpaid principal balance plus any accrued but unpaid interest. Upon default, these receivables are deemed to be a distribution to the participant.

Risks and Uncertainties

The Plan has various investments, directed by participants, including mutual funds, common/collective trusts, and direct holdings in common stock of Northfield Bancorp, Inc. These investments are subject to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

The CSF is subject to various risks including concentration risk since the fund invests primarily in the common stock of Northfield Bancorp, Inc. and therefore the performance of the fund is primarily determined by the performance of Northfield Bancorp, Inc. common stock. The market price of Northfield Bancorp, Inc. common stock is dependent on a number of factors, including the financial condition and profitability of Northfield Bancorp, Inc. and Northfield Bank. In addition, the market price of Northfield Bancorp, Inc. common stock may be affected by general market conditions, market interest rates, the market for financial institutions, merger and takeover transactions, the presence of professional and other investors who purchase common stock on speculation, as well as other unforeseeable events not necessarily within the control of the board of directors of Northfield Bancorp, Inc. and the Bank.

Effects of New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value (NAV) per Share (or Its Equivalent) (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate NAV per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented with early adoption permitted. Plan management has elected to early adopt ASU 2015-07 in these financial statements.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures and (Part III) Measurement Date Practical Expedient, of which, Parts I and II are applicable to the Plan.

•Part I amendments designate contract value as the only required measure for fully benefit- responsive contracts and eliminate certain disclosure requirements.

•Part II amendments eliminate the requirement that plans disclose: individual investments that represent 5 percent or more of net assets available for benefits, and the net appreciation, or depreciation for investments by general type for both participated-directed investments and nonparticipant-directed investments. In addition, investments presented in

the fair value hierarchy are only required to be broken out by general type, and self-directed brokerage accounts are presented as one type of general investment.

ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with retrospective application to all periods presented, with early adoption permitted. Plan management has elected to early adopt ASU 2015-12 in these financial statements.

Northfield Bank Employee Savings Plan  
Notes to Financial Statements  
December 31, 2015 and 2014

### 3. Fair Value Measurements

In accordance with accounting principles generally accepted in the United States of America, each of the Plan's fair value measurements are categorized in one of the following three levels based on the lowest level input that is significant to the fair value measurement in its entirety:

- Level 1—Quoted prices in active markets for identical assets or liabilities.
- Level 2—Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table represents the Plan's fair value hierarchy for its financial assets (investments) measured at fair value on a recurring basis as of December 31, 2015 and 2014 (in thousands):

	Total	(Level 1)	(Level 2)	(Level 3)
	(in thousands)			
December 31, 2015				
ASSETS				
Mutual funds, at fair value	\$6,454	\$6,454	\$	—
Investments measured at NAV*				
CCTs	3,769			
Northfield Bancorp, Inc Common Stock Fund	11,761			
Total investments at NAV	15,530			
Total investments	\$21,984			
December 31, 2014				
ASSETS				
Mutual funds, at fair value	\$5,737	\$5,737	\$	—
Investments measured at NAV*				
CCTs	3,657			
Northfield Bancorp, Inc Common Stock Fund	11,417			
Total investments at NAV	15,074			
Total investments	\$20,811			

\* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for plan benefits.

The investment in CCTs and the CSF are valued as a practical expedient utilizing the net asset valuation. The use of NAV is deemed appropriate as the common collective trusts do not have a finite life, unfunded commitments relating

to the types of investment, or significant restrictions on redemptions. The practical expedient is used for valuation, unless it is probable that the Plan will sell a portion of the investment at an amount different from the net asset valuation.

4. Differences Between Financial Statements and Form 5500

The following is a reconciliation of net assets available for plan benefits per financial statements and Form 5500 as of December 31, 2015 and 2014 (in thousands):

7

---

Northfield Bank Employee Savings Plan  
 Notes to Financial Statements  
 December 31, 2015 and 2014

	2015	2014
Net assets available for plan benefits per financial statements	\$22,503	\$21,207
Adjustments from fair value to contract value for fully benefit-responsive investment contracts	—	41
Net assets available for plan benefits per Form 5500	\$22,503	\$21,248

The following is a reconciliation of additions per the financial statements and Form 5500 for the year ended December 31, 2015 (in thousands):

	2015
Total additions per financial statements	\$2,440
Reversal of 2014 adjustment from the fair value to contract value for fully benefit-responsive investment contracts	41
Total additions per Form 5500	\$2,481

#### 5. Tax Status

The IRS has determined and informed the Plan sponsor by a letter dated June 16, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

#### 6. Plan Termination

The Bank has not expressed any intention to discontinue the Plan, however, it has the right under the Plan to terminate or discontinue employee contributions to the Plan subject to the provisions of ERISA. In the event of plan termination, plan participants will become 100% vested in their Bank contribution accounts and are entitled to full distribution of such amounts.

#### 7. Party-in-Interest Transactions

At December 31, 2015 and 2014, the Plan held 483,700 and 513,020 units, respectively, of the CSF. At December 31, 2015 and 2014, the CSF held 701,812 and 739,259 shares, respectively, of Northfield Bancorp, Inc. common stock.

Certain Plan investments are managed by the trustee of the Plan, and therefore, these transactions qualify as exempt party-in-interest transactions.

8. Subsequent Events

The Plan was amended effective January 9, 2016 to allow the employees of a company acquired by the Plan Sponsor in 2016, to participate in the Plan with prior service credited.
