Edgar Filing: APTARGROUP INC - Form 10-Q

DELAWARE 36-3853103
(State of Incorporation) (I.R.S. Employer Identification No.)

475 WEST TERRA COTTA AVENUE, SUITE E, CRYSTAL LAKE, ILLINOIS 60014

815-477-0424

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at April 27, 2016
Common Stock, \$.01 par value per share	63,155,792 shares

Notes to Condensed Consolidated Financial Statements

(Dollars in Thousands, Except per Share Amounts, or as Otherwise Indicated)

(Unaudited)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying Unaudited Condensed Consolidated Financial Statements include the accounts of AptarGroup, Inc. and our subsidiaries. The terms “AptarGroup” or “Company” as used herein refer to AptarGroup, Inc. and our subsidiaries. All significant intercompany accounts and transactions have been eliminated. Certain previously reported amounts have been reclassified to conform to the current period presentation.

In the opinion of management, the Unaudited Condensed Consolidated Financial Statements include all adjustments, consisting of only normal recurring adjustments, necessary for a fair statement of consolidated financial position, results of operations, comprehensive income, changes in equity and cash flows for the interim periods presented. The accompanying Unaudited Condensed Consolidated Financial Statements have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures made are adequate to make the information presented not misleading. Also, certain financial position data included herein was derived from the Audited Consolidated Financial Statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015 but does not include all disclosures required by GAAP. Accordingly, these Unaudited Condensed Consolidated Financial Statements and related notes should be read in conjunction with the Audited Consolidated Financial Statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015. The results of operations of any interim period are not necessarily indicative of the results that may be expected for the year.

CHANGE IN ACCOUNTING PRINCIPLE

During the second quarter of 2015, the Company changed its inventory valuation method for certain operating entities in its North American business to the first-in first-out (FIFO) method from the last-in first-out (LIFO) method. Prior to the change, the Company utilized two methods of inventory costing: LIFO for inventories in these operating entities and FIFO for inventories in other operating entities. The Company believes that the FIFO method is preferable as it better reflects the current value of inventory on the Company’s Condensed Consolidated Balance Sheet, provides better matching of revenues and expenses, results in uniformity across the Company’s global operations with respect to the

method of inventory accounting and improves comparability with the Company's peers. The change to the FIFO method was not applied retrospectively because the impact to previously issued financial statements or to the trend of reported results of operations was immaterial. The first quarter 2015 results included a \$342 thousand gain on LIFO adjustment and the first quarter 2015 Condensed Consolidated Balance Sheet included a LIFO reserve of \$7.4 million.

ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

Changes to GAAP are established by the Financial Accounting Standards Board ("FASB") in the form of accounting standards updates to the FASB's Accounting Standards Codification.

In May 2014, the FASB amended the guidance for recognition of revenue from customer contracts. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in the amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB decided to defer the effective date by one year to December 15, 2017 for annual reporting periods beginning after that date. The FASB also decided to allow early adoption of the standard, but not before the original effective date of December 15, 2016. We are currently evaluating the impact the adoption of this standard will have on our Consolidated Financial Statements.

In April 2015, the FASB issued an Accounting Standards Update ("ASU") intended to simplify GAAP by changing the presentation of debt issuance costs. Under the new standard, debt issuance costs will be presented as a reduction of the carrying amount of the related liability, rather than as an asset. The new treatment is consistent with debt discounts. In August 2015, the FASB issued an ASU clarifying that debt issuance costs related to line of credit arrangements can be classified as an asset and amortized ratably over the term of the line of credit arrangement. These standards are effective for annual reporting periods beginning after December 15, 2015. The Company has implemented these standards within the current financial statements and retrospectively applied the changes to the prior periods as required, which resulted in a \$1.7 million reclassification from Intangible Assets to Current Maturities of Long-Term Obligations and Long-Term Obligations in the December 31, 2015 Consolidated Balance Sheet.

Table of Contents

In April 2015, the FASB issued new guidance on a customer's accounting for fees paid in a cloud computing arrangement ("CCA"). Previously, there was no specific GAAP guidance on accounting for such fees from the customer's perspective. Under the new standard, customers will apply the same criteria as vendors to determine whether a CCA contains a software license or is solely a service contract. This standard is effective for annual reporting periods beginning after December 15, 2015. The Company has adopted the requirements of the standard with respect to its current CCAs and has determined that the impact is not material to our current year financial statements.

In May 2015, the FASB issued new guidance on investment disclosures. Investments measured at net asset value ("NAV"), as a practical expedient for fair value, are excluded from the fair value hierarchy. Removing investments measured using the practical expedient from the fair value hierarchy is intended to eliminate the diversity in practice that currently exists with respect to the categorization of these investments. The Company has adopted the standard and determined that there was no impact to the current period financial statements and that the presentation of pension plan investment fair value hierarchy tables in the annual financial statements will be updated accordingly.

In November 2015, the FASB issued guidance which simplifies the balance sheet classification of deferred taxes. The new guidance requires that deferred tax liabilities and assets be presented as non-current in a classified statement of financial position. This standard is effective for annual reporting periods beginning after December 15, 2016. The Company has prospectively adopted the requirements of the standard and updated the presentation of our classified statement of financial position accordingly.

Other accounting standards that have been issued by the FASB or other standards-setting bodies did not have a material impact on our Consolidated Financial Statements.

RETIREMENT OF COMMON STOCK

During the first quarter of 2016, the Company repurchased and immediately retired 113 thousand shares of common stock. Common stock was reduced by the number of shares retired at \$0.01 par value per share. The excess of purchase price over par value may be charged entirely to retained earnings or may be allocated between additional paid-in capital and retained earnings. The Company has elected to allocate the excess purchase price over par value between additional paid-in capital and retained earnings.

INCOME TAXES

The Company computes taxes on income in accordance with the tax rules and regulations of the many taxing authorities where income is earned. The income tax rates imposed by these taxing authorities may vary substantially. Taxable income may differ from pre-tax income for financial accounting purposes. To the extent that these differences create differences between the tax basis of an asset or liability and our reported amount in the financial statements, an appropriate provision for deferred income taxes is made.

In making the determination of which foreign earnings are permanently reinvested in foreign operations, the Company considers numerous factors, including the financial requirements of the U.S. parent company and those of our foreign subsidiaries, the U.S. funding needs for dividend payments and stock repurchases, and the tax consequences of remitting earnings to the U.S. From this analysis, current year repatriation decisions are made in an attempt to provide a proper mix of debt and shareholder capital both within the U.S. and for non-U.S. operations. The Company's policy

is to permanently reinvest our accumulated foreign earnings and the Company will only make a distribution out of current year earnings to meet the cash needs at the parent company. As such, the Company does not provide for taxes on earnings that are deemed to be permanently reinvested.

The Company provides a liability for the amount of tax benefits realized from uncertain tax positions. This liability is provided whenever the Company determines that a tax benefit will not meet a more-likely-than-not threshold for recognition. See Note 4 of the Unaudited Notes to the Condensed Consolidated Financial Statements for more information.

Table of Contents

REVISION OF PRIOR PERIOD FINANCIAL STATEMENTS

During the third quarter of 2015, the Company determined that it had incorrectly accounted for the reissuance of treasury shares in connection with certain employee stock option exercises. The Company's policy is to reissue treasury shares at cost on a first-in, first-out (FIFO) basis. However, beginning in 2007 shares were reissued at a cost other than FIFO. The effect of correcting this error results in a credit adjustment to the treasury stock at cost with a corresponding debit adjustment to the capital in excess of par value. As this adjustment represents a reclassification between two accounts within Stockholders' Equity, the Condensed Consolidated Balance Sheets and the Condensed Consolidated Statements of Changes in Equity are impacted by this change. The revisions, which the Company determined are not material, had no impact on consolidated results of operations or cash flows. Following is a summary of the previously issued financial statement line items impacted by this revision for all periods and statements included in this report:

	As Previously Reported	Adjustment	As Revised
Revised Condensed Consolidated Statements of Changes in Equity			
Balance – December 31, 2014			
Capital in excess of par value	\$ 507,313	\$ (8,611)	\$ 498,702

Customer Relationships	12.0	61,564	(2,084)	59,480	6,406	(1,493)	4,913
License agreements and other	8.4	24,280	(15,776)	8,504	21,222	(19,189)	2,033
Total intangible assets	11.0	\$ 146,492	\$ (42,304)	\$ 104,188	\$ 75,016	\$ (43,487)	\$ 31,529

Aggregate amortization expense for the intangible assets above for the quarters ended March 31, 2016 and 2015 was \$1,486 and \$1,081, respectively.

Future estimated amortization expense for the years ending December 31 is as follows:

2016	\$ 7,988	(remaining estimated amortization for 2016)
2017	9,873	
2018	9,886	
2019	9,675	
2020 and thereafter	66,766	

Future amortization expense may fluctuate depending on changes in foreign currency rates. The estimates for amortization expense noted above are based upon foreign exchange rates as of March 31, 2016.

NOTE 4 — INCOME TAX UNCERTAINTIES

The Company had approximately \$8.2 and \$7.9 million recorded for income tax uncertainties as of March 31, 2016 and December 31, 2015, respectively. Increases were primarily due to a tax audit in France and currency fluctuations. These were partially offset by the lapse of the statute of limitations in two jurisdictions. The amount, if recognized, that would impact the effective tax rate is \$8.2 and \$7.9 million, respectively. The Company estimates that it is reasonably possible that the liability for uncertain tax positions will decrease by no more than \$7.3 million in the next twelve months from the resolution of various uncertain positions as a result of the completion of tax audits, litigation and the expiration of the statute of limitations in various jurisdictions.

NOTE 5 – LONG –TERM OBLIGATIONS

In December 2014, we executed a \$475 million private placement to take advantage of low long-term interest rates. At that time, we closed on \$250 million of the private placement to fund our accelerated share repurchase (“ASR”) program (see Note 11). This closing consisted of two maturity tranches, with \$125 million of 9 year notes at an interest rate of 3.49% and \$125 million of 11 year notes at an interest rate of 3.61%. We closed on the remaining \$225 million of the private placement in February 2015, consisting of \$100 million of 9 year notes at an interest rate of 3.49% and \$125 million of 11 year notes at an interest rate of 3.61%. The proceeds from this closing were used to pay down the existing revolving line of credit.

Table of Contents

At March 31, 2016, the Company's long-term obligations consisted of the following:

	Principal	Unamortized Debt Issuance Costs	Net
Notes payable 0.61% – 16.00%, due in monthly and annual installments through 2025	\$ 16,970	\$ —	\$ 16,970
Senior unsecured notes 6.0%, due in 2016	50,000	1	49,999
Senior unsecured notes 6.0%, due in 2018	75,000	56	74,944
Senior unsecured notes 3.8%, due in 2020	84,000	143	83,857
Senior unsecured notes 3.2%, due in 2022	75,000	156	74,844
Senior unsecured notes 3.5%, due in 2023	125,000	284	124,716
Senior unsecured notes 3.4%, due in 2024	50,000	114	49,886
Senior unsecured notes 3.5%, due in 2024	100,000	284	99,716
Senior unsecured notes 3.6%, due in 2025	125,000	291	124,709
Senior unsecured notes 3.6%, due in 2026	125,000	291	124,709
Capital lease obligations	2,141	—	2,141
	\$ 828,111	\$ 1,620	\$ 826,491
Current maturities of long-term obligations	(53,310)	(1)	(53,309)
Total long-term obligations	\$ 774,801	\$ 1,619	\$ 773,182

At December 31, 2015, the Company's long-term obligations consisted of the following:

	Principal	Unamortized Debt Issuance Costs	Net
Notes payable 0.61% – 14.50%, due in monthly and annual installments through 2025	\$ 3,785	\$ —	\$ 3,785
Senior unsecured notes 6.0%, due in 2016	50,000	5	49,995
Senior unsecured notes 6.0%, due in 2018	75,000	63	74,937
Senior unsecured notes 3.8%, due in 2020	84,000	150	83,850
Senior unsecured notes 3.2%, due in 2022	75,000	163	74,837
Senior unsecured notes 3.5%, due in 2023	125,000	293	124,707
Senior unsecured notes 3.4%, due in 2024	50,000	118	49,882
Senior unsecured notes 3.5%, due in 2024	100,000	293	99,707
Senior unsecured notes 3.6%, due in 2025	125,000	298	124,702

Edgar Filing: APTARGROUP INC - Form 10-Q

Senior unsecured notes 3.6%, due in 2026	125,000	298	124,702
Capital lease obligations	1,628	—	1,628
	\$ 814,413	\$ 1,681	\$ 812,732
Current maturities of long-term obligations	(51,889)	(5)	(51,884)
Total long-term obligations	\$ 762,524	\$ 1,676	\$ 760,848

Aggregate long-term maturities, excluding capital lease obligations, due annually from the current balance sheet date for the next five years are \$52,450, \$2,006, \$77,612, \$2,548, \$85,839 and \$605,515 thereafter.

- (a) These accumulated other comprehensive income components are included in the computation of net periodic benefit costs, net of tax (see Note 6 – Retirement and Deferred Compensation Plans for additional details).

Table of Contents

NOTE 8 — DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company maintains a foreign exchange risk management policy designed to establish a framework to protect the value of the Company's non-functional denominated transactions from adverse changes in exchange rates. Sales of the Company's products can be denominated in a currency different from the currency in which the related costs to produce the product are denominated. Changes in exchange rates on such inter-country sales or intercompany loans can impact the Company's results of operations. The Company's policy is not to engage in speculative foreign currency hedging activities, but to minimize our net foreign currency transaction exposure, defined as firm commitments and transactions recorded and denominated in currencies other than the functional currency. The Company may use foreign currency forward exchange contracts, options and cross currency swaps to economically hedge these risks.

For derivative instruments designated as hedges, the Company formally documents the nature and relationships between the hedging instruments and the hedged items, as well as the risk management objectives, strategies for undertaking the various hedge transactions, and the method of assessing hedge effectiveness. Additionally, in order to designate any derivative instrument as a hedge of an anticipated transaction, the significant characteristics and expected terms of any anticipated transaction must be specifically identified, and it must be probable that the anticipated transaction will occur.

HEDGE OF NET INVESTMENTS IN FOREIGN OPERATIONS

A significant number of the Company's operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of the financial condition and results of operations of the Company's foreign subsidiaries. A strengthening U.S. dollar relative to foreign currencies has a dilutive translation effect on the Company's financial condition and results of operations. Conversely, a weakening U.S. dollar has an additive effect. The Company in some cases maintains debt in these subsidiaries to offset the net asset exposure. The Company does not otherwise actively manage this risk using derivative financial instruments. In the event the Company plans on a full or partial liquidation of any of our foreign subsidiaries where the Company's net investment is likely to be monetized, the Company will consider hedging the currency exposure associated with such a transaction.

OTHER

As of March 31, 2016, the Company has recorded the fair value of foreign currency forward exchange contracts of \$0.9 million in prepaid and other and \$2.3 million in accounts payable and accrued liabilities in the balance sheet. All forward exchange contracts outstanding as of March 31, 2016 had an aggregate contract amount of \$122.5 million.

Fair Value of Derivative Instruments in the Condensed Consolidated Balance Sheets as of March 31, 2016 and December 31, 2015

Derivative Contracts Not Designated as Hedging Instruments	Balance Sheet Location	March 31, 2016	December 31, 2015

Total Liabilities	\$ 1,197	—	\$ 1,197	—	—	\$ 1,197

NOTE 9 — FAIR VALUE

Authoritative guidelines require the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.
- Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

As of March 31, 2016, the fair values of our financial assets and liabilities were categorized as follows:

	Total	Level 1	Level 2	Level 3
Assets				
Forward exchange contracts (a)	\$ 894	\$ —	\$ 894	\$ —
Total assets at fair value	\$ 894	\$ —	\$ 894	\$ —
Liabilities				
Forward exchange contracts (a)	\$ 2,333	\$ —	\$ 2,333	\$ —
Total liabilities at fair value	\$ 2,333	\$ —	\$ 2,333	\$ —

As of December 31, 2015, the fair values of our financial assets and liabilities were categorized as follows:

	Total	Level 1	Level 2	Level 3
Assets				
Forward exchange contracts (a)	\$ 2,036	\$ —	\$ 2,036	\$ —
Total assets at fair value	\$ 2,036	\$ —	\$ 2,036	\$ —
Liabilities				
Forward exchange contracts (a)	\$ 1,197	\$ —	\$ 1,197	\$ —
Total liabilities at fair value	\$ 1,197	\$ —	\$ 1,197	\$ —

(a) Market approach valuation technique based on observable market transactions of spot and forward rates.

Table of Contents

The carrying amounts of the Company's other current financial instruments such as cash and equivalents, notes payable and current maturities of long-term obligations approximate fair value due to the short-term maturity of the instrument. The Company considers our long-term obligations a Level 2 liability and utilizes the market approach valuation technique based on interest rates that are currently available to the Company for issuance of debt with similar terms and maturities. The estimated fair value of the Company's long-term obligations was \$803 million as of March 31, 2016 and \$760 million as of December 31, 2015.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

The Company, in the normal course of business, is subject to a number of lawsuits and claims both actual and potential in nature. While management believes the resolution of these claims and lawsuits will not have a material adverse effect on the Company's financial position or results of operations or cash flows, claims and legal proceedings are subject to inherent uncertainties, and unfavorable outcomes could occur that could include amounts in excess of any accruals which management has established. Were such unfavorable final outcomes to occur, it is possible that they could have a material adverse effect on our financial position, results of operations and cash flows.

Under our Certificate of Incorporation, the Company has agreed to indemnify our officers and directors for certain events or occurrences while the officer or director is, or was, serving at our request in such capacity. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company has a directors and officers liability insurance policy that covers a portion of our exposure. As a result of our insurance policy coverage, the Company believes the estimated fair value of these indemnification agreements is minimal. The Company has no liabilities recorded for these agreements as of March 31, 2016.

NOTE 11 — STOCK REPURCHASE PROGRAM

On October 30, 2014, the Company announced a share repurchase authorization of up to \$350 million of common stock. This authorization replaces previous authorizations and has no expiration date. AptarGroup may repurchase shares through the open market, privately negotiated transactions or other programs, subject to market conditions.

On December 16, 2014, the Company entered into an agreement to repurchase approximately \$250 million of its common stock under an accelerated share repurchase program (the "ASR program"). The ASR program is part of the Company's \$350 million share repurchase authorization. On December 17, 2014, the Company paid \$250 million to Wells Fargo Bank N.A. ("Wells Fargo") in exchange for approximately 3.1 million shares. On September 25, 2015, the Company settled the ASR program with Wells Fargo and received approximately 719 thousand additional shares. The total number of shares repurchased under the ASR program was approximately 3.8 million shares.

Subsequent to the completion of the ASR program, shares repurchased are immediately retired. During the three months ended March 31, 2016, the Company repurchased approximately 113 thousand shares for approximately \$8.6 million. During the three months ended March 31, 2015, the Company did not repurchase any shares. As of March 31, 2016, there was \$77.5 million of authorized share repurchases available to the Company.

NOTE 12 — STOCK-BASED COMPENSATION

The Company issues stock options and restricted stock units to employees under Stock Awards Plans approved by shareholders. Stock options and restricted stock units are issued to non-employee directors under Director Stock Option Plans and the Director Restricted Stock Unit Plan approved by shareholders. Options are awarded with the exercise price equal to the market price on the date of grant and generally become exercisable over three years and expire 10 years after grant. Restricted stock units granted to employees generally vest over three years.

Compensation expense recorded attributable to stock options for the first three months of 2016 was approximately \$8.9 million (\$5.9 million after tax). The income tax benefit related to this compensation expense was approximately \$3.0 million. Approximately \$7.9 million of the compensation expense was recorded in selling, research & development and administrative expenses and the balance was recorded in cost of sales. Compensation expense recorded attributable to stock options for the first three months of 2015 was approximately \$8.8 million (\$5.7 million after tax). The income tax benefit related to this compensation expense was approximately \$3.1 million. Approximately \$8.0 million of the compensation expense was recorded in selling, research & development and administrative expenses and the balance was recorded in cost of sales.

Table of Contents

The Company uses historical data to estimate expected life and volatility. The weighted-average fair value of stock options granted under the Stock Awards Plans was \$12.87 and \$12.83 per share during the first three months of 2016 and 2015, respectively. These values were estimated on the respective dates of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

Stock Awards Plans:			
Three Months Ended March 31,	2016	2015	
Dividend Yield	1.8 %	1.7 %	
Expected Stock Price Volatility	20.4 %	21.9 %	
Risk-free Interest Rate	1.6 %	1.6 %	
Expected Life of Option (years)	6.7	6.9	

A summary of option activity under the Company's stock plans during the three months ended March 31, 2016 is presented below:

	Stock Awards Plans		Director Stock Option Plans	
	Options	Weighted Average Exercise Price	Options	Weighted Average Exercise Price
Outstanding, January 1, 2016	8,032,030	\$ 51.44	303,501	\$ 56.00
Granted	1,472,180	71.12	—	—
Exercised	(510,012)	41.37	(15,833)	45.90
Forfeited or expired	(65,634)	58.33	—	—
Outstanding at March 31, 2016	8,928,564	\$ 55.21	287,668	\$ 56.56
Exercisable at March 31, 2016	6,092,834	\$ 49.04	214,827	\$ 54.20
Weighted-Average Remaining Contractual Term (Years):				
Outstanding at March 31, 2016	6.6		6.7	
Exercisable at March 31, 2016	5.4		6.2	
Aggregate Intrinsic Value:				
Outstanding at March 31, 2016	\$ 207,138		\$ 6,286	
Exercisable at March 31, 2016	\$ 178,923		\$ 5,056	
Intrinsic Value of Options Exercised During the Three Months Ended:				
March 31, 2016	\$ 16,973		\$ 436	
March 31, 2015	\$ 18,824		\$ 874	

The fair value of shares vested during the three months ended March 31, 2016 and 2015 was \$16.3 million and \$14.8 million, respectively. Cash received from option exercises was approximately \$21.0 million and the actual tax benefit realized for the tax deduction from option exercises was approximately \$5.6 million in the three months ended March 31, 2016. As of March 31, 2016, the remaining valuation of stock option awards to be expensed in future periods was \$22.2 million and the related weighted-average period over which it is expected to be recognized is 1.5 years.

Table of Contents

The fair value of restricted stock unit grants is the market price of the underlying shares on the grant date. A summary of restricted stock unit activity as of March 31, 2016, and changes during the three month period then ended, is presented below:

	Stock Awards Plans		Director Restricted Stock Unit Plan	
	RSUs	Weighted Average Grant-Date Fair Value	RSUs	Weighted Average Grant-Date Fair Value
Nonvested at January 1, 2016	66,376	\$ 66.61	18,857	\$ 63.10
Granted	21,754	73.45	—	—
Vested	(10,537)	62.21	—	—
Forfeited	(3,676)	68.00	—	—
Nonvested at March 31, 2016	73,917	\$ 69.18	18,857	\$ 63.10

Compensation expense recorded attributable to restricted stock unit grants for the first three months of 2016 and 2015 was approximately \$1.2 million and \$727 thousand, respectively. The fair value of units vested during the three months ended March 31, 2016 and 2015 was \$656 thousand and \$633 thousand, respectively. The intrinsic value of units vested during the three months ended March 31, 2016 and 2015 was \$773 thousand and \$732 thousand, respectively. As of March 31, 2016, there was \$1.8 million of total unrecognized compensation cost relating to restricted stock unit awards which is expected to be recognized over a weighted-average period of 1.4 years.

The Company has a long-term incentive program for certain employees. Each award is based on the cumulative total shareholder return of our common stock during a three year performance period. Total expense related to this program for awards outstanding as of March 31, 2016 is expected to be approximately \$5.8 million, of which \$1.3 million and \$227 thousand was recognized in the first three months of 2016 and 2015, respectively.

NOTE 13 — EARNINGS PER SHARE

AptarGroup's authorized common stock consists of 199 million shares, having a par value of \$.01 each. Information related to the calculation of earnings per share is as follows:

	Three Months Ended		March 31, 2015	
	Diluted	Basic	Diluted	Basic
Consolidated operations				
Income available to common shareholders	\$ 43,863	\$ 43,863	\$ 45,171	\$ 45,171
Average equivalent shares				
Shares of common stock	62,722	62,722	62,292	62,292
Effect of dilutive stock based compensation				
Stock options	2,299	—	2,182	—
Restricted stock	42	—	20	—
Total average equivalent shares	65,063	62,722	64,494	62,292
Net income per share	\$ 0.67	\$ 0.70	\$ 0.70	\$ 0.73

NOTE 14 — SEGMENT INFORMATION

The Company is organized into three reporting segments. Operations that sell dispensing systems primarily to the personal care, beauty and home care markets form the Beauty + Home segment. Operations that sell dispensing systems primarily to the prescription drug, consumer health care and injectables markets form the Pharma segment. Operations that sell dispensing systems primarily to the food and beverage markets form the Food + Beverage segment. The accounting policies of the segments are the same as those described in Note 1, Summary of Significant Accounting Policies, in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

Table of Contents

Financial information regarding the Company's reportable segments is shown below:

Three Months Ended March 31,	2016	2015
Total Sales:		
Beauty + Home	\$ 318,870	\$ 334,794
Pharma	183,135	178,669
Food + Beverage	85,396	81,920
Total Sales	587,401	595,383
Less: Intersegment Sales:		
Beauty + Home	\$ 4,534	\$ 5,380
Pharma	—	—
Food + Beverage	529	192
Total Intersegment Sales	\$ 5,063	\$ 5,572
Net Sales:		
Beauty + Home	\$ 314,336	\$ 329,414
Pharma	183,135	178,669
Food + Beverage	84,867	81,728
Net Sales	\$ 582,338	\$ 589,811
Segment Income:		
Beauty + Home	\$ 23,528	\$ 23,375
Pharma	53,236	52,001
Food + Beverage	9,283	9,050
Corporate & Other	(18,195)	(11,159)
Income before interest and taxes	\$ 67,852	\$ 73,267
Interest expense, net	(8,007)	(5,572)
Income before income taxes	\$ 59,845	\$ 67,695

- (1) The Company evaluates performance of our business units and allocates resources based upon segment income. Segment income is defined as earnings before net interest expense, certain corporate expenses and income taxes.

Note 15 – INSURANCE SETTLEMENT RECEIVABLE

A fire caused damage to the roof and production area of one of the Company's facilities in Brazil in September 2014. There were no injuries. The facility is primarily an internal supplier of anodized aluminum components for certain dispensing systems sold to the regional beauty and personal care markets. Repairs of the facility were essentially completed in the fourth quarter 2015. AptarGroup is insured for the damages caused by the fire, including business interruption insurance. While the Company is still in the process of reviewing claims with our insurance carriers, we have currently recognized a \$3.2 million receivable related to costs incurred but not yet reimbursed, which is included in Prepaid and Other in the Condensed Consolidated Balance Sheet. This incident did not have a material impact on our financial results during the first three months of either 2016 or 2015 and we expect to reach a final insurance

settlement during the next six months.

NOTE 16 – ACQUISITIONS

On February 29, 2016, the Company completed its acquisition of MegaPlast GmbH and its subsidiaries along with Megaplast France S.a.r.l and Mega Pumps L.P. (Mega Airless). Mega Airless is a leading provider of innovative all-plastic airless dispensing systems for the beauty, personal care and pharmaceutical markets and operates two manufacturing facilities in Germany and one in the United States. The purchase price paid for Mega Airless was approximately \$223.2 million and was funded by cash on hand and borrowings on our revolving line of credit.

Mega Airless contributed sales of \$6.2 million and a pretax loss of \$1.8 million, including \$2.6 million of one-time material expense related to the inventory fair value adjustment. The results of the acquired business for the period from the acquisition date are included in the accompanying consolidated financial statements and are reported in the Beauty + Home and Pharma reporting segments.

18

Table of Contents

For the three months ended March 31, 2016, we recognized \$5.6 million in transaction costs related to the acquisition of Mega Airless. These costs are reflected in the selling, research & development and administrative section of the Condensed Consolidated Statements of Income.

The following table summarizes the assets acquired and liabilities assumed as of the acquisition date at estimated fair value. If additional information is obtained about these assets and liabilities within the measurement period (not to exceed one year from the date of acquisition), the Company may refine its estimates of fair value to allocate the purchase price more accurately; however, any such revisions are not expected to be significant.

	February 29, 2016
Assets	
Cash and equivalents	\$ 20,197
Accounts receivable	8,275
Inventories	8,361
Prepaid and other	378
Property, plant and equipment	47,196
Goodwill	109,690
Intangible assets	67,984
Other miscellaneous assets	8
Liabilities	
Current maturities of long-term obligations	319
Accounts payable and accrued liabilities	7,398
Long-term obligations	13,402
Deferred income taxes	17,789
Net assets acquired	\$ 223,181

The following table is a summary of the fair value estimates of the acquired identifiable intangible assets and weighted-average useful lives as of the acquisition date:

	Weighted-Average Useful Life (in years)	Estimated Fair Value of Asset
Customer relationships	11	\$ 53,312
Technology	15	10,579
Trademark	4	4,093
Total		\$ 67,984

Based on the initial calculations, goodwill in the amount of \$109.7 million was recorded for the acquisition of Mega Airless, of which \$59.1 million and \$50.6 million is included in the Beauty + Home and Pharma segments, respectively. Goodwill is calculated as the excess of the consideration transferred over the net assets acquired and represents the estimated future economic benefits arising from other assets acquired that could not be individually

identified and separately recognized. Goodwill largely consists of leveraging the Company's commercial presence in selling the Mega Airless line of products in markets where Mega Airless did not previously operate and the ability of Mega Airless to maintain its competitive advantage from a technical viewpoint. Goodwill will not be amortized, but will be tested for impairment at least annually. We do not expect any of the goodwill will be deductible for tax purposes.

The unaudited pro forma results presented below include the effects of the Mega Airless acquisition as if it had occurred as of January 1, 2015. The unaudited pro forma results reflect certain adjustments related to the acquisition, such as the amortization associated with estimates for the acquired intangible assets and fair value adjustments for inventory. The 2016 pro forma earnings were adjusted to exclude \$4.2 million after tax (\$5.6 million pretax) of transaction costs, including consulting, legal, and advisory fees. The 2016 pro forma earnings were also adjusted to exclude \$1.8 million after tax (\$2.6 million pretax) of nonrecurring expense related to the fair value adjustment to acquisition-date inventory. The 2015 pro forma earnings were adjusted to include these adjustments.

Table of Contents

The pro forma results do not include any synergies or other expected benefits of the acquisition. Accordingly, the unaudited pro forma financial information below is not necessarily indicative of either future results of operations or results that might have been achieved had the acquisition been completed on the dates indicated.

Three Months Ended March 31,	2016	2015
Net Sales	\$ 591,898	\$ 607,439
Net Income Attributable to AptarGroup Inc.	50,186	38,622
Net Income per common share — basic	0.80	0.62
Net Income per common share — diluted	0.77	0.60

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(AMOUNTS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS, OR AS OTHERWISE INDICATED)

RESULTS OF OPERATIONS

Quarter Ended March 31,	2016	2015
Net sales	100.0%	100.0%
Cost of sales (exclusive of depreciation and amortization shown below)	64.2	65.4
Selling, research & development and administrative	17.7	16.3
Depreciation and amortization	6.2	5.8
Operating income	11.9	12.5
Other expense	(1.6)	(1.0)
Income before income taxes	10.3	11.5
Net Income	7.5	7.6
Effective tax rate	26.7 %	33.4 %

NET SALES

We reported net sales of \$582.3 million for the quarter ended March 31, 2016, which represents a 1% decrease compared to \$589.8 million reported during the first quarter of 2015. The average U.S. dollar exchange rate strengthened relative to the Euro along with all other major currencies impacting our business, resulting in a negative currency translation impact of 4%. The acquisition of Mega Airless, and the inclusion of one month of activity, positively impacted sales by 1%. Core sales, which exclude acquisitions and changes in foreign currency rates, increased by 2% in the first quarter of 2016 compared to the first quarter of 2015. Core sales was negatively impacted 2% due to lower tooling sales and the impact lower resin cost had on pricing. Strong product sales in our Pharma and Food + Beverage segments were offset by softness in our Beauty + Home segment:

Net Sales Change over Prior Year	Beauty + Home	Pharma	Food + Beverage	Total
Core Sales Growth	(1)	% 5	% 7	% 2 %
Currency Effects (1)	(6)	% (3)	% (3)	% (4) %
Acquisitions	2	% —	% —	1 %

Total Reported Net Sales Growth (5) % 2 % 4 % (1) %

(1) Currency effects are approximated by translating last year's amounts at this year's foreign exchange rates.

For further discussion on net sales by reporting segment, please refer to the analysis of segment net sales and segment income on the following pages.

The following table sets forth, for the periods indicated, net sales by geographic location:

Quarter Ended March 31,	2016	% of Total	2015	% of Total
Domestic	\$ 161,395	28%	\$ 160,078	27%
Europe	329,967	57%	332,271	56%
Latin America	47,892	8%	52,916	9%
Asia	43,084	7%	44,546	8%

COST OF SALES (EXCLUSIVE OF DEPRECIATION AND AMORTIZATION SHOWN BELOW)

Our cost of sales ("COS") as a percent of net sales decreased to 64.2% in the first quarter of 2016 compared to 65.4% in the first quarter of 2015. The decrease is partially due to the mix of sales across our different business segments. Increased sales in our Pharma and Food + Beverage segments drove the reduction in the overall cost of sales as a percentage of net sales. Also, tooling sales were approximately \$4.6 million lower in the first quarter 2016 compared to prior year. Sales of custom tooling generated lower margins than product sales; thus, positively impacting cost of sales as a percentage of sales.

Table of Contents

SELLING, RESEARCH & DEVELOPMENT AND ADMINISTRATIVE

Our Selling, Research & Development and Administrative expenses (“SG&A”) increased by approximately \$6.8 million in the first quarter of 2016 compared to the same period a year ago. Excluding changes in foreign currency rates, SG&A increased by approximately \$10.6 million in the quarter. The increase is mainly due to one-time transaction costs of \$5.6 million related to the Mega Airless acquisition, along with one month of Mega Airless operational expenses, higher information technology costs associated with our ongoing enterprise resource planning system implementation, and general increases in compensation expense. SG&A as a percentage of net sales increased to 17.7% compared to 16.3% in the same period of the prior year mainly due to the Mega Airless acquisition costs noted above.

DEPRECIATION AND AMORTIZATION

Reported depreciation and amortization expenses increased by approximately \$1.8 million in the first quarter of 2016 compared to the same period a year ago. Excluding changes in foreign currency rates, depreciation and amortization increased by approximately \$3.0 million in the quarter compared to the same period a year ago. The increase is mainly due to \$1.4 million of incremental depreciation and amortization related to the Mega Airless acquisition, our continued investments in new products and the roll-out of our global enterprise resource planning system. Due to these higher costs, depreciation and amortization as a percentage of net sales increased to 6.2% in the first quarter of 2016 compared to 5.8% for the same period a year ago.

OPERATING INCOME

Operating income decreased approximately \$4.4 million in the first quarter of 2016 to \$69.2 million compared to \$73.6 million in the same period in the prior year. Excluding changes in foreign currency rates, operating income decreased by approximately \$2.7 million in the quarter compared to the same period a year ago. As mentioned above, the strong operational results were offset by \$5.6 million of Mega Airless acquisition costs along with a \$2.6 million one-time accounting adjustment related to the write-up to fair value of the Mega Airless inventory which we purchased and subsequently sold during the quarter. As reported, operating income as a percentage of net sales decreased to 11.9% in the first quarter of 2016 compared to 12.5% for the same period in the prior year.

NET OTHER EXPENSE

Net other expense in the first quarter of 2016 increased to \$9.4 million from \$5.9 million in the same period in the prior year. During 2016, we recognized lower interest income and higher interest expense as we funded our Mega Airless acquisition with cash on hand and borrowings on our revolving line of credit. In addition to higher transaction costs on our foreign currency forward exchange contracts, we also incurred higher interest costs in 2016 related to higher average borrowings in the first quarter of 2016 compared to the first quarter of 2015.

EFFECTIVE TAX RATE

The reported effective tax rate decreased to 26.7% in the first quarter of 2016 compared to 33.4% in the first quarter of 2015. The decrease in the rate is primarily attributable to recognizing benefits associated with anticipated refunds in France pursuant to a finalized court ruling as well as a reduction in the French corporate tax rate.

NET INCOME ATTRIBUTABLE TO APTARGROUP, INC.

We reported net income attributable to AptarGroup, Inc. of \$43.9 million in the first quarter of 2016 compared to \$45.2 million in the first quarter of 2015.

BEAUTY + HOME SEGMENT

Operations that sell dispensing systems primarily to the personal care, beauty and home care markets form the Beauty + Home segment.

Quarter Ended March 31,	2016	2015
Net Sales	\$ 314,336	\$ 329,414
Segment Income	23,528	23,375
Segment Income as a percentage of Net Sales	7.5%	7.1%

Table of Contents

Net sales for the quarter ended March 31, 2016 decreased 5% to \$314.3 million compared to \$329.4 million in the first quarter of the prior year. The 2% positive effect of the Mega Airless acquisition was offset by a negative 6% impact due to changes in currency rates. Therefore, sales excluding acquisitions and changes in foreign currency rates decreased 1% in the first quarter of 2016 compared to the same quarter of the prior year. A 6% sales growth, excluding changes in foreign currency rates, to the beauty market was offset by core sales declines in the personal care and home care markets of 5% and 1%, respectively, in the first quarter of 2016 compared to the same period in the prior year. The growth in the beauty market is mainly driven by increased sales of our sampling and promotion products in Europe and Northeast Asia and an increase in sales of our products used for facial skincare and fragrance in Latin America. In addition, the inclusion of one month of Mega Airless results also contributed to our growth. Softness in European and North American demand negatively impacted the personal care and home care markets. The pass-through of lower resin costs also negatively impacted sales in the first quarter of 2016 by \$2.5 million compared to the same period in 2015.

Despite the continued softness in sales, segment income for the first quarter of 2016 slightly increased to \$23.5 million from \$23.4 million reported in the same period in the prior year. The increase compared to the prior year is mostly due to an improved mix of products as we realized increased demand for high-value beauty applications. Segment income was offset by \$2.2 million of a one-time purchase accounting adjustment related to the write-up to fair value of the Mega Airless inventory we purchased and subsequently sold during the quarter. We also continue to focus on improving our cost structure with operational and material cost savings initiatives.

PHARMA SEGMENT

Operations that sell dispensing systems primarily to the prescription drug, consumer health care and injectables markets form the Pharma segment.

Quarter Ended March 31,	2016	2015
Net Sales	\$ 183,135	\$ 178,669
Segment Income	53,236	52,001
Segment Income as a percentage of Net Sales	29.1%	29.1%

Net sales for the Pharma segment increased by 2% in the first quarter of 2016 to \$183.1 million compared to \$178.7 million in the first quarter of 2015. Excluding a 3% change in foreign currency rates, sales increased by 5% in the first quarter of 2016 compared to the first quarter of 2015. Excluding changes in foreign currency rates, increased product sales to the prescription and injectables markets of 9% and 4%, respectively, offset a small decline in sales of our products to the consumer health care market. The growth during the first quarter of 2016 was mainly driven by strong sales of our products to respiratory application fields (Allergic Rhinitis, Asthma/COPD) as well as increased sales of our products to the pain and central nervous system, eye care and injectable application fields which more

than offset weaker sales of our products to nasal decongestant application fields as we experienced inventory destocking at a few key customers. Customer tooling sales declined by \$2.2 million over the prior year.

Segment income in the first quarter of 2016 increased 2% to \$53.2 million compared to \$52.0 million reported in the same period in the prior year. The increase compared to the prior year is due to the additional product sales volumes discussed above along with favorable product mix within the segment. Cost savings initiatives partially offset one-time costs related to an enterprise resource system implementation and the impact of one-time purchase accounting adjustment of \$0.4 million related to the write-up to fair value of the Mega Airless inventory we purchased and subsequently sold during the quarter.

FOOD + BEVERAGE SEGMENT

Operations that sell dispensing systems primarily to the food and beverage markets form the Food + Beverage segment.

Quarter Ended March 31,	2016	2015
Net Sales	\$ 84,867	\$ 81,728
Segment Income	9,283	9,050
Segment Income as a percentage of Net Sales	10.9%	11.1%

Table of Contents

Net sales for the quarter ended March 31, 2016 increased approximately 4% to \$84.9 million compared to \$81.7 million in the first quarter of the prior year. Changes in foreign currency rates had a negative impact of 3% on the total segment sales. Excluding changes in foreign currency rates, sales increased by 7% in the first quarter of 2016 compared to the first quarter of 2015. The pass-through of lower resin costs and lower tooling sales both negatively impacted sales in the first quarter of 2016 by \$3.0 million, or 4%, and \$2.1 million, or 2%, respectively, compared to the same period in 2015. Both the food and beverage markets recorded year-over-year sales growth. Excluding foreign currency rate changes, sales to the food market increased 7% and sales to the beverage market increased approximately 8% in the first quarter of 2016 compared to the same period in the prior year. Sales of our products to the food market increased with strong demand from the salad dressing and infant formula application fields along with continued growth in the sauce and condiment application fields. Sales of our products to the beverage market were positively impacted by strong sales to the bottled water and juice application fields.

Segment income in the first quarter of 2016 increased approximately 3% to \$9.3 million compared to \$9.1 million reported in the same period of the prior year. Strong product sales across both the food and beverage markets noted above were able to offset normal cost inflation and lower tooling sales.

CORPORATE & OTHER

In addition to our three operating business segments, AptarGroup assigns certain costs to “Corporate & Other,” which is presented separately in Note 14 of the Unaudited Notes to the Condensed Consolidated Financial Statements. Corporate & Other primarily includes certain professional fees, compensation and information system costs which are not allocated directly to our operating segments. Corporate & Other expense increased to \$18.2 million for the quarter ended March 31, 2016 compared to \$11.2 million in the first quarter of the prior year mainly due to \$5.6 million of transaction costs related to the Mega Airless acquisition. The remaining increase is partially due to higher depreciation expense on information systems infrastructure investments and general compensation expenses.

FOREIGN CURRENCY

Because of our international presence, movements in exchange rates may have a significant impact on the translation of the financial statements of our foreign subsidiaries. Our primary foreign exchange exposure is to the Euro, but we also have foreign exchange exposure to the Chinese Yuan, Brazilian Real, Mexican Peso, Swiss Franc and other Asian, European and South American currencies. A strengthening U.S. dollar relative to foreign currencies has a dilutive translation effect on our financial statements. Conversely, a weakening U.S. dollar has an additive effect. In some cases, we sell products denominated in a currency different from the currency in which the related costs are incurred. We manage our exposures to foreign exchange principally with forward exchange contracts to economically hedge recorded transactions and firm purchase and sales commitments denominated in foreign currencies. Changes in exchange rates on such inter-country sales could materially impact our results of operations.

QUARTERLY TRENDS

Our results of operations in the last quarter of the year typically are negatively impacted by our plant shutdowns in December. In the future, our results of operations in a quarterly period could be impacted by factors such as the seasonality of certain products within our segments, changes in foreign currency rates, changes in product mix, changes in material costs, changes in growth rates in the industries to which our products are sold, recognition of equity based compensation expense for retirement eligible employees in the period of grant and changes in general economic conditions in any of the countries in which we do business.

We generally incur higher stock option expense in the first quarter compared with the rest of the fiscal year. Our stock option expense on a pre-tax basis (in \$ millions) for the year 2016 compared to 2015 is as follows:

	2016	2015
First Quarter	\$ 8.9	\$ 8.8
Second Quarter (estimated for 2016)	3.8	3.2
Third Quarter (estimated for 2016)	3.5	3.0
Fourth Quarter (estimated for 2016)	3.1	2.9
	\$ 19.3	\$ 17.9

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are cash flow from operations and our revolving credit facility. In the first quarter of 2016, our operations provided approximately \$11.9 million in cash flow compared to \$39.8 million for the same period a year ago. In both periods, cash flow from operations was primarily derived from earnings before depreciation and amortization. The decrease in cash provided by operations is primarily attributable to an increase in working capital requirements to support our business.

Table of Contents

We used \$198.7 million in cash for investing activities during the first quarter of 2016 compared to \$24.9 million during the same period a year ago. The increase is due primarily to the Mega Airless acquisition of \$203.0 million, net of cash received. Our 2016 estimated cash outlays for capital expenditures are approximately \$150 million but could vary due to changes in exchange rates as well as the timing of capital projects.

Proceeds from financing activities were \$71.5 million in the first quarter of 2016 compared to \$0.2 million in the first quarter of the prior year. For 2016, proceeds from notes payable were used to partially finance the acquisition of Mega Airless. Proceeds from stock option exercises were offset by our dividends paid in both 2016 and 2015.

Cash and equivalents decreased to \$386.0 million at March 31, 2016 from \$489.9 million at December 31, 2015 mainly due to the cash portion of the Mega Airless acquisition. Total short and long-term interest bearing debt increased in the first quarter of 2016 to \$907.2 million from \$817.8 million at December 31, 2015 also primarily due to financing the Mega Airless acquisition. The ratio of our Net Debt (interest bearing debt less cash and cash equivalents) to Net Capital (stockholder's equity plus Net Debt) was 29.1% at March 31, 2016 compared to 20.6% at December 31, 2015.

The Company maintains a revolving credit facility that provides for unsecured financing of up to \$300 million. Each borrowing under this credit facility will bear interest at rates based on LIBOR, prime rates or other similar rates, in each case plus an applicable margin. A facility fee on the total amount of the facility is also payable quarterly, regardless of usage. The applicable margins for borrowings under the credit facility and the facility fee percentage may change from time to time depending on changes in AptarGroup's consolidated leverage ratio. At March 31, 2016, we had an outstanding balance of \$70 million under the credit facility. There was no outstanding balance at December 31, 2015. We incurred approximately \$189 thousand and \$587 thousand in interest and fees related to this credit facility during the quarter ended March 31, 2016 and 2015, respectively.

Our revolving credit facility and corporate long-term obligations require us to satisfy certain financial and other covenants including:

	Requirement	Level at March 31, 2016
Consolidated Leverage Ratio ^(a)	Maximum of 3.50 to 1.00	1.10 to 1.00
Consolidated Interest Coverage Ratio ^(a)	Minimum of 3.00 to 1.00	14.57 to 1.00

(a) Definitions of ratios are included as part of the revolving credit facility agreement and the private placement agreements.

Based upon the above consolidated leverage ratio covenant, we have the ability to borrow approximately an additional \$1.3 billion before the 3.50 to 1.00 maximum ratio requirement is exceeded.

Our foreign operations have historically met cash requirements with the use of internally generated cash or borrowings. These foreign subsidiaries have financing arrangements with several foreign banks to fund operations located outside the U.S., but the majority of these arrangements are uncommitted. Cash generated by foreign operations has generally been reinvested locally. The majority of our \$386.0 million in cash and equivalents is located outside of the U.S. We manage our global cash requirements considering (i) available funds among the many subsidiaries through which we conduct business, (ii) the geographic location of our liquidity needs, and (iii) the cost to access international cash balances. The repatriation of non-U.S. cash balances from certain subsidiaries could have adverse tax consequences as we may be required to pay income tax on those funds. Historically, the tax consequences associated with repatriating current year earnings to the U.S. has been between 5% and 10% of the repatriated amount. We do not expect future impacts to be materially different.

We believe we are in a strong financial position and have the financial resources to meet our business requirements in the foreseeable future. We have historically used cash flow from operations and our revolving credit facility as our primary sources of liquidity. Our primary uses of liquidity are to invest in equipment and facilities that are necessary to support our growth and to make acquisitions that will contribute to the achievement of our strategic objectives. Other uses of liquidity include paying dividends to shareholders and repurchasing shares of our common stock. In the event that customer demand would decrease significantly for a prolonged period of time and negatively impact cash flow from operations, we would have the ability to restrict and significantly reduce capital expenditure levels, as well as evaluate our acquisition strategy and dividend and share repurchase programs. A prolonged and significant reduction in capital expenditure levels could increase future repairs and maintenance costs as well as have a negative impact on operating margins if we were unable to invest in new innovative products.

On April 15, 2016, the Board of Directors declared a quarterly cash dividend of \$0.30 per share payable on May 18, 2016 to stockholders of record as of April 27, 2016.

Table of Contents

OFF-BALANCE SHEET ARRANGEMENTS

We lease certain warehouse, plant and office facilities as well as certain equipment under noncancelable operating leases expiring at various dates through the year 2027. Most of the operating leases contain renewal options and certain equipment leases include options to purchase during or at the end of the lease term. Other than operating lease obligations, we do not have any off-balance sheet arrangements.

RECENTLY ISSUED ACCOUNTING STANDARDS

We have reviewed the recently issued accounting standards updates to the FASB's Accounting Standards Codification that have future effective dates. As discussed in Note 1 of the Unaudited Notes to Condensed Consolidated Financial Statements, no Standards that are considered to have a material impact on our Unaudited Condensed Consolidated Financial Statements were effective for the first quarter of 2016.

In May 2014, the FASB amended the guidance for recognition of revenue from customer contracts. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in the amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB decided to defer the effective date by one year to December 15, 2017 for annual reporting periods beginning after that date. The FASB also decided to allow early adoption of the standard, but not before the original effective date of December 15, 2016. We are currently evaluating the impact the adoption of this standard will have on our Consolidated Financial Statements.

In July 2015, the FASB issued new guidance for simplifying the measurement of inventory. The core principle of the guidance is that an entity should measure inventory at the lower of cost and net realizable value. This standard is effective for annual reporting periods beginning after December 15, 2016. The Company does not believe that this new guidance will have a material impact on its consolidated financial statements.

In January 2016, the FASB issued new guidance that generally requires companies to measure investments in other entities, except those accounted for under the equity method, at fair value and recognize any changes in fair value in net income. The new standard is effective for fiscal years and interim periods beginning after December 15, 2017. The Company is currently evaluating the impact of adopting this guidance.

In February 2016, the FASB issued new guidance to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The new standard is effective for fiscal years and interim periods beginning after December 15,

2018. The Company is currently evaluating the impact of adopting this guidance.

In March 2016, the FASB issued guidance that eliminates the requirement that an investor retrospectively apply equity method accounting when an investment that it had accounted for by another method initially qualifies for the equity method. The guidance requires that an equity method investor add the cost of acquiring the additional interest in the investee to the current basis of the investor's previously held interest and adopt the equity method of accounting as of the date the investment becomes qualified for equity method accounting. The new standard is effective for fiscal years and interim periods beginning after December 15, 2016. The Company is currently evaluating the impact of adopting this guidance.

In March 2016, the FASB issued guidance that changes the accounting for certain aspects of share-based payments to employees. The guidance requires the recognition of the income tax effects of awards in the income statement when the awards vest or are settled, thus eliminating additional paid in capital pools. The guidance also allows for the employer to repurchase more of an employee's shares for tax withholding purposes without triggering liability accounting. In addition, the guidance allows for a policy election to account for forfeitures as they occur rather than on an estimated basis. The new standard is effective for fiscal years and interim periods beginning after December 15, 2016. The Company is currently evaluating the impact of adopting this guidance.

Other accounting standards that have been issued by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on our consolidated financial statements upon adoption.

OUTLOOK

Diversity of our business continues to play an important role by providing stable, long-term growth for our company, even when we experience pockets of softness in certain areas. Looking to the second quarter, we are optimistic that our Beauty + Home segment, which has struggled to achieve top line growth the past year, is expected to grow core sales over the prior year excluding the positive impact from the Mega Airless acquisition. We also expect core sales growth in our other segments, though they are going to be compared to very strong performance in the prior year.

Table of Contents

AptarGroup expects earnings for the second quarter to be in the range of \$0.87 to \$0.92 per share, including approximately \$0.02 per share of positive contribution from the Mega Airless acquisition. This range compares to \$0.81 per share in the prior year after excluding approximately \$0.08 per share of income recorded in the second quarter of 2015 related to a change in inventory valuation methods and after prior year earnings per share have been adjusted to reflect comparable foreign currency exchange rates. Prior year second quarter reported earnings per share were \$0.90 per share.

FORWARD-LOOKING STATEMENTS

Certain statements in Management's Discussion and Analysis and other sections of this Form 10-Q are forward-looking and involve a number of risks and uncertainties, including certain statements set forth in the Quarterly Trends, Liquidity and Capital Resources, and Outlook sections of this Form 10-Q. Words such as "expects," "anticipates," "believes," "estimates," and other similar expressions or future or conditional verbs such as "will," "should," "would" and "could" are intended to identify such forward-looking statements. Forward-looking statements are made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and are based on our beliefs as well as assumptions made by and information currently available to us. Accordingly, our actual results may differ materially from those expressed or implied in such forward-looking statements due to known or unknown risks and uncertainties that exist in our operations and business environment, including but not limited to:

- the ability to integrate the acquired Mega Airless business;
- economic conditions worldwide, including potential deflationary conditions in regions we rely on for growth;
- political conditions worldwide;
- significant fluctuations in foreign currency exchange rates;
- changes in customer and/or consumer spending levels;
- financial conditions of customers and suppliers;
- consolidations within our customer or supplier bases;
- fluctuations in the cost of materials, components and other input costs (particularly resin, metal, anodization costs and transportation and energy costs);
- the availability of raw materials and components (particularly from sole sourced suppliers) as well as the financial viability of these suppliers;
- our ability to successfully implement facility expansions and new facility projects;
- our ability to increase prices, contain costs and improve productivity;
- changes in capital availability or cost, including interest rate fluctuations;
- volatility of global credit markets;
- the timing and magnitude of capital expenditures;
- our ability to identify potential new acquisitions and to successfully acquire and integrate such operations or products;
- direct or indirect consequences of acts of war or terrorism;
- cybersecurity threats that could impact our networks and reporting systems;
- the impact of natural disasters and other weather-related occurrences;
- fiscal and monetary policies and other regulations, including changes in worldwide tax rates;
- changes or difficulties in complying with government regulation;

- changing regulations or market conditions regarding environmental sustainability;
- work stoppages due to labor disputes;
- competition, including technological advances;
- our ability to protect and defend our intellectual property rights, as well as litigation involving intellectual property rights;
- the outcome of any legal proceeding that has been or may be instituted against us and others;
- our ability to meet future cash flow estimates to support our goodwill impairment testing;
- the demand for existing and new products;
- our ability to manage worldwide customer launches of complex technical products, in particular in developing markets;
- the success of our customers' products, particularly in the pharmaceutical industry;
- difficulties in product development and uncertainties related to the timing or outcome of product development;
- significant product liability claims; and
- other risks associated with our operations.

Although we believe that our forward-looking statements are based on reasonable assumptions, there can be no assurance that actual results, performance or achievements will not differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. Please refer to Item 1A ("Risk Factors") of Part I included in the Company's Annual Report on Form 10-K for additional risk factors affecting the Company.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A significant number of our operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of the financial condition and results of operations of our entities. Our primary foreign exchange exposure is to the Euro, but we also have foreign exchange exposure to the Chinese Yuan, Brazilian Real, Mexican Peso and Swiss Franc, among other Asian, European, and South American currencies. A strengthening U.S. dollar relative to foreign currencies has a dilutive translation effect on our financial condition and results of operations. Conversely, a weakening U.S. dollar relative to foreign currencies has an additive translation effect on our financial condition and results of operations.

Additionally, in some cases, we sell products denominated in a currency different from the currency in which the related costs are incurred. Any changes in exchange rates on such inter-country sales may impact our results of operations.

We manage our exposures to foreign exchange principally with forward exchange contracts to hedge certain firm purchase and sales commitments and intercompany cash transactions denominated in foreign currencies.

The table below provides information as of March 31, 2016 about our forward currency exchange contracts. The majority of the contracts expire before the end of the second quarter of 2016.

Buy/Sell	Contract Amount (in thousands)	Average Contractual Exchange Rate	Min / Max Notional Volumes
Swiss Franc/Euro	\$ 60,661	0.9134	3,851-60,661
U.S. Dollar/Euro	13,211	0.8947	1,919-13,211
Euro/Brazilian Real	11,607	4.6683	11,607-12,255
Euro/Indian Rupee	9,993	80.5337	9,993-10,706
Euro/U.S. Dollar	8,050	1.1160	7,245-8,050
U.S. Dollar/Chinese Yuan	4,390	6.6231	4,390-4,390
Euro/Colombian Peso	3,392	3,860.0620	3,392-5,768
Czech Koruna/Euro	2,958	0.0370	2,958-3,300
Euro/Thai Baht	2,131	37.7826	2,131-2,131
Euro/Indonesian Rupiah	1,846	18,425.0000	1,846-1,846
British Pound/Euro	1,376	1.2737	1,376-2,482
Euro/Mexican Peso	1,238	20.3069	1,238-2,558
Euro/Swiss Franc	1,022	1.0954	0-1,022
Other	603		
Total	\$ 122,478		

As of March 31, 2016, the Company has recorded the fair value of foreign currency forward exchange contracts of \$0.9 million in prepaid and \$2.3 million in accounts payable and accrued liabilities in the balance sheet.

ITEM 4. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

The Company's management has evaluated, with the participation of the chief executive officer and chief financial officer of the Company, the effectiveness of the Company's disclosure controls and procedures (as that term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of March 31, 2016. Based on that evaluation, the chief executive officer and chief financial officer have concluded that these controls and procedures were effective as of such date.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

During the quarter ended March 31, 2016, the Company implemented enterprise resource planning ("ERP") systems at four operating facilities. Consequently, the control environments have been modified at these locations to incorporate the controls contained within the new ERP system. The Company is also in the process of reviewing the internal control structure of Mega Airless and, if necessary, will make appropriate changes as we incorporate our controls and procedures into this recently acquired businesses. Other than these items, no change in the Company's internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) occurred during the Company's fiscal quarter ended March 31, 2016 that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

RECENT SALES OF UNREGISTERED SECURITIES

The employees of Aptargroup UK Holdings Limited (French Branch) and Aptar France S.A.S., our subsidiaries, are eligible to participate in the FCP Aptar Savings Plan (the “Plan”). All eligible participants are located outside of the United States. An independent agent purchases shares of common stock available under the Plan for cash on the open market and we do not issue shares. We do not receive any proceeds from the purchase of common stock under the Plan. The agent under the Plan is Banque Nationale de Paris Paribas Fund Services. No underwriters are used under the Plan. All shares are sold in reliance upon the exemption from registration under the Securities Act of 1933 provided by Regulation S promulgated under that Act. During the quarter ended March 31, 2016, the Plan purchased 7,470 shares of our common stock on behalf of the participants at an average price of \$70.99 per share, for an aggregate amount of \$530 thousand, and sold 1,900 shares of our common stock on behalf of the participants at an average price of \$74.75 per share, for an aggregate amount of \$142 thousand. At March 31, 2016, the Plan owned 56,170 shares of our common stock.

ISSUER PURCHASES OF EQUITY SECURITIES

On October 30, 2014, the Company announced a share repurchase authorization of up to \$350 million of common stock. This authorization replaces previous authorizations and has no expiration date. AptarGroup may repurchase shares through the open market, privately negotiated transactions or other programs, subject to market conditions.

On December 16, 2014, the Company entered into an agreement to repurchase approximately \$250 million of its common stock under an accelerated share repurchase program (the “ASR program”). The ASR program is part of the Company’s \$350 million share repurchase authorization. On December 17, 2014, the Company paid \$250 million to Wells Fargo Bank N.A. (“Wells Fargo”) in exchange for approximately 3.1 million shares. On September 25, 2015, the Company settled the ASR program with Wells Fargo and received approximately 719 thousand additional shares. The total number of shares repurchased under the ASR program was approximately 3.8 million shares.

Subsequent to the completion of the ASR program, shares repurchased are immediately retired. The Company spent \$8.6 million to repurchase approximately 113 thousand shares during the first quarter of 2016.

The following table summarizes the Company’s purchases of its securities for the quarter ended March 31, 2016:

Period	Total Number Of Shares Purchased	Average Price Paid Per Share	Total Number Of Shares Purchased as Part Of Publicly Announced Plans Or Programs	Dollar Value Of Shares that May Yet be Purchased Under The Plans or Programs (in millions)
1/1 – 1/31/16	—	\$ —	—	\$ 86.1
2/1 – 2/29/16	—	—	—	86.1
3/1 – 3/31/16	112,500	76.87	112,500	77.5
Total	112,500	\$ 76.87	112,500	\$ 77.5
