S-2

RISK FACTORS

Before deciding to invest in our securities, you should consider carefully the following discussion of risks and uncertainties affecting us and our securities, as well as the risks and uncertainties incorporated by reference in this prospectus supplement and the accompanying prospectus from our Annual Report on Form 10-K for the fiscal year ended May 31, 2015 and our Quarterly Reports on Form 10-Q for the periods ended August 31, 2015, November 30, 2015 and February 29, 2016, respectively, and the other information contained or incorporated by reference in this prospectus supplement. If any of the events anticipated by these risks and uncertainties occur, our business, financial condition and results of operations could be materially and adversely affected, and the value of our securities could decline. The risks and uncertainties we discuss in the documents incorporated by reference in this prospectus supplement and the accompanying prospectus are those that we currently believe may materially affect our company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may materially and adversely affect our business, financial condition and results of operations.

Since we have broad discretion in how we use the proceeds from this offering, we may use the proceeds in ways with which you disagree.

We have not allocated specific amounts of the net proceeds from this offering for any specific purpose. Accordingly, our management will have significant flexibility in applying the net proceeds of this offering. You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used in ways you would agree with. It is possible that the net proceeds will be invested in a way that does not yield a favorable, or any, return for our company. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flow.

If you purchase the Series D Preferred Stock sold in this offering, or underlying common stock if you elect to convert, you will experience immediate and substantial dilution in your investment. You will experience further dilution if we issue additional equity securities in future fundraising transactions.

Based on the public offering price of \$2.37 per share and our net tangible book value as of February 29, 2016, if you purchase shares of the Series D Preferred Stock sold in this offering, or underlying common stock if you elect to convert, you will suffer immediate and substantial dilution of \$2.90 per share with respect to the net tangible book value of the common stock into which the Series D Preferred Stock are convertible. See the section titled "Dilution" in this prospectus supplement for a more detailed discussion of the dilution you will incur if you purchase common stock in this offering.

Future sales of our common stock may cause the prevailing market price of our shares to decrease.

We have issued a substantial number of shares of common stock that are eligible for resale under the Securities Act and are freely tradable. We have also registered 320,500 shares of common stock that are issuable upon the exercise of options, 83,764 shares of common stock that are issuable upon the exercise of warrants outstanding as of June 24, 2016 and 349,191 shares of common stock that are issuable upon the conversion of preferred stock outstanding immediately after the closing of this offering. If the holders of our options and warrants choose to exercise their purchase rights or if holders of preferred stock exercise their conversion rights and such holders sell the underlying shares of common stock in the public market, or if holders of currently restricted shares of our common stock choose to sell such shares in the public market, the prevailing market price for our common stock may decline. The sale of shares issued upon the exercise of our options and warrants could also further dilute the holdings of our then existing shareholders. In addition, future public sales of shares of our common stock could impair our ability to raise capital by offering equity securities.

The volume of our common stock has been, and may continue to be, volatile, which could reduce the market price of our common stock.

The publicly traded shares of our common stock have experienced, and may continue to experience, significant volume and price volatility. This volatility could reduce the market price of our common stock, regardless of our operating performance. In addition, both the volume and the trading price of our common stock could change significantly over short periods of time in response to, among other things, actual or anticipated variations in our quarterly operating results, announcements by us and/or changes in national or regional economic conditions, making it more difficult for shares of our common stock to be sold at a favorable price or at all.

S-3

FORWARD-LOOKING STATEMENTS

This prospectus supplement may include or incorporate by reference “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Exchange Act. Our use of the words “may,” “will,” “would,” “could,” “should,” “believes,” “estimates,” “projects,” “potential,” “expects,” “plans,” “intends,” “evaluates,” “pursues,” “anticipates,” “continues,” “designs,” “impacts,” “forecasts,” “target,” “outlook,” “initiative,” “designed,” “priorities,” “goal” or the negative of those words or other similar expressions is intended to identify forward-looking statements that represent our current judgment about possible future events. All statements included or incorporated by reference in this prospectus and any accompanying prospectus supplement, and in related comments by our management, other than statements of historical facts, including without limitation, statements about future events or financial performance, are forward-looking statements that involve certain risks and uncertainties.

These statements are based on certain assumptions and analyses made in light of our experience and perception of historical trends, current conditions and expected future developments as well as other factors that we believe are appropriate in the circumstances. While these statements represent our judgment on what the future may hold, and we believe these judgments are reasonable, these statements are not guarantees of any events or financial results. Whether actual future results and developments will conform with our expectations and predictions is subject to a number of risks and uncertainties, including the risks and uncertainties discussed in this prospectus, any prospectus supplement and the documents incorporated by reference under the captions “Risk Factors” and “Forward-Looking Statements” and elsewhere in those documents.

Consequently, all of the forward-looking statements made in this prospectus and any prospectus supplement, as well as all of the forward-looking statements incorporated by reference to our filings under the Exchange Act, are qualified by these cautionary statements and there can be no assurance that the actual results or developments that we anticipate will be realized or, even if realized, that they will have the expected consequences to or effects on us and our subsidiaries or our businesses or operations. We caution investors not to place undue reliance on forward-looking statements. We undertake no obligation to update publicly or otherwise revise any forward-looking statements, whether as a result of new information, future events, or other such factors that affect the subject of these statements, except where we are expressly required to do so by law.

USE OF PROCEEDS

We expect the net proceeds from this offering to be approximately \$1,760,000, after deducting placement agent discounts and commissions, as described in “Plan of Distribution,” and estimated offering expenses payable by us. We currently intend to use the net proceeds of this offering for debt payment and general corporate purposes.

We cannot estimate precisely the allocation of the net proceeds from this offering among these uses. The amounts and timing of the expenditures may vary significantly, depending on numerous factors, including the amount of cash generated internally from operations and the terms and availability of financing arrangements, as well as the amount of cash used in our operations. Our management will have broad discretion in the application of the net proceeds of this offering. We reserve the right to change the use of proceeds as a result of certain contingencies such as competitive or economic developments and other factors.

S-5

DILUTION

Our net tangible book value on February 29, 2016 was approximately \$(4.9) million, or approximately \$(0.97) per share of common stock. Net tangible book value per share is determined by dividing our net tangible book value, which consists of tangible assets less total liabilities, by the number of shares of common stock outstanding on that date. Without taking into account any other changes in the net tangible book value after February 29, 2016, other than to give effect to our receipt of the estimated net proceeds from the sale of 211 shares of our Series D Preferred Stock at a face value of \$10,000, and Original Issue Discount of 5% and a conversion price into common stock of \$2.50 per share, less the underwriting fees and our estimated offering expenses, our as adjusted net tangible book value as of February 29, 2016, after giving effect to the items above, would have been approximately \$(3.1) million or \$(0.53) per share of common stock upon the potential conversion of the Series D Preferred Stock. This represents an immediate increase in the net tangible book value of \$0.44 per share of common stock to existing stockholders and an immediate dilution of \$2.90 per share of common stock to new investors. The following table illustrates this per share dilution:

Public offering price per share of common stock	\$2.37
Net tangible book value per share as of February 29, 2016	\$(0.97)
Increase in net tangible book value per share attributable to this offering	\$0.44
As adjusted net tangible book value per share as of February 29, 2016 after giving effect to this offering	\$(0.53)
Dilution in net tangible book value per share to new investors	\$2.90

The above table is based on 5,018,279 shares of our common stock outstanding as of February 29, 2016 and excludes, as of that date:

- 322,000 shares of common stock issuable upon the exercise of stock options outstanding prior to this offering under our stock option plans and stock incentive plans, at a weighted average exercise price of \$13.20 per share;
- 23,000 shares of common stock available for future grants under our stock option plans and stock incentive plans; and
- 316,191 shares of common stock issuable upon the potential conversion of Series A Preferred Shares and Series B Preferred Shares; and
- 1,276,056 shares of common stock issuable upon the exercise of warrants outstanding prior to this offering, at a weighted average exercise price of \$17.40 per share.

To the extent that any options or warrants are exercised, new options are issued under our stock option or stock incentive plans, or we otherwise issue additional shares of common stock in the future, there will be further dilution to new investors. In addition, we will likely choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our stockholders.

S-6

Designation. The shares of common stock underlying the Series D Preferred Stock offered by this prospectus supplement will be fully paid and non-assessable.

The Company may not issue shares of Common Stock to any Holder which, when aggregated with all other shares of Common Stock then deemed beneficially owned by such Holder, would result in such Holder owning more than 4.99% of all Common Stock outstanding immediately after giving effect to such issuance; provided, however, that such Holder may increase such amount to 9.99% upon not less than 61 days' prior notice to the Company.

The material terms and provisions of our common stock and each other class of our securities which qualifies or limit our common stock are described under the caption "Overview of Our Capital Stock" starting on page 12 of the accompanying prospectus.

We negotiated the price for the securities offered in this offering with the purchasers. The placement agent may be deemed to be an underwriter within the meaning of Section 2(a)(11) of the Securities Act, and any fees or commissions received by it and any profit realized on the resale of securities sold by it while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. As an underwriter, the placement agent is required to comply with the requirements of the Securities Act and the Exchange Act, including, without limitation, Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of shares of common stock by the placement agent. Under these rules and regulations, the placement agent:

- may not engage in any stabilization activity in connection with our securities; and

- may not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until it has completed its participation in the distribution.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (“SEC”) utilizing a “shelf” registration process. Under this shelf process, securities described in this prospectus may be sold by us

in one or more offerings. We may use the shelf registration statement to sell, in one or more offerings, up to \$25,000,000 of any securities registered, in any combination in an offering amount. This prospectus provides you with a general description of the securities that may be offered. Each time securities are sold by us or, if required, the selling stockholders pursuant to the registration statement of which this prospectus forms a part, we will provide a prospectus supplement that will contain specific information about the terms of those securities and that offering. The prospectus supplement may also add to, update or change the information contained in this prospectus. You should carefully read this prospectus and any accompanying prospectus supplement, along with all of the information incorporated by reference herein and therein, before making an investment decision.

In this prospectus, unless the context indicates otherwise, “Staffing 360,” the “Company,” “we,” “us,” “our,” or “ours” refer to Staffing 360 Solutions, Inc. and its consolidated subsidiaries.

We have not authorized anyone to provide any information other than that contained in this prospectus, in any prospectus supplement or in any free writing prospectus prepared by or on behalf of us or to which we have referred you. We do not take responsibility for, and we do not provide any assurance as to the reliability of, any other information that others may give you. We have not authorized any other person to provide you with different information. No offer is being made to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus, in the accompanying prospectus supplement, in any document incorporated by reference herein or therein, and in any free writing prospectus prepared by or on behalf of us to which we have referred you is accurate only as of their respective dates. Our business, financial condition, results of operations and prospects may have changed since that date.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to “incorporate by reference” information into this prospectus, which means that we can disclose important information about us by referring you to another document filed separately with the SEC. The information incorporated by reference is an important part of this prospectus, and information that we file later with the SEC will automatically update and supersede this information. This prospectus incorporates by reference the documents and reports listed below and any future filings that we make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) (other than filings or portions of filings that are furnished under applicable SEC rules rather than filed) until the date of completion of this offering:

RISK FACTORS

Investment in any of the securities involves risk. In addition to the risk factor below and all of the other information contained or incorporated by reference into this prospectus, you should carefully consider the risk factors contained or incorporated by reference in the accompanying prospectus supplement before acquiring any of the securities.

The substantial number of shares that are eligible for sale could cause the market price for our common stock to decline or make it difficult for us to sell securities in the future.

Expectations that shares of our common stock may be sold by the selling stockholders could create a market overhang that may adversely affect the market price for our common stock.

We cannot predict the effect on the market price of our common stock from time to time as a result of (i) sales by the selling stockholders of some or all of the shares of our common stock under this prospectus, (ii) the availability of such shares of common stock for sale by the selling stockholders, or (iii) the perception that such shares or additional shares of our common stock may be offered for sale by the selling stockholders. Sales of substantial amounts of shares of our common stock in the public market, or the perception that those sales will occur, could cause the market price of our common stock to fluctuate or decline or make future offerings of our equity securities more difficult. In addition, the sale of these shares could impair our ability to raise capital, should we wish to do so, through the sale of additional common or preferred stock.

There are 4,931,669 shares of our common stock outstanding as of February 18, 2016 (without giving effect to the exercise of any options and warrants currently outstanding). The 7,194,406 shares of our common stock that may be sold by the selling stockholders under this prospectus represent a substantial additional number of shares of our common stock that would be outstanding after this offering is completed.

USE OF PROCEEDS

We intend to use the net proceeds we receive from the sale of securities by us as set forth in the applicable prospectus supplement.

We will not receive any of the proceeds from the sale of resale shares offered by the selling stockholders. We are registering these shares for sale to provide the selling stockholders with freely tradable securities, but the registration of the shares does not necessarily mean that any of them will actually be offered or sold.

All statements included or incorporated by reference in this prospectus and any accompanying prospectus supplement, and in related comments by our management, other than statements of historical facts, including without limitation, statements about future events or financial performance, are forward-looking statements that involve certain risks and uncertainties.

While these statements represent our judgment on what the future may hold, and we believe these judgments are reasonable, these statements are not guarantees of any events or financial results. OVERVIEW OF OUR CAPITAL STOCK

The following description of the material provisions of our capital stock is based upon our articles of incorporation, as amended, which we refer to as our Articles of Incorporation, and our bylaws, as amended, which we refer to as our Bylaws, and applicable provisions of law, in each case as currently in effect as of the date of this prospectus, and is qualified in its entirety by reference to the provisions of those documents.

Certain provisions of the Nevada Revised Statutes, our Articles of Incorporation, and our Bylaws summarized in the following paragraphs may have an anti-takeover effect. This may delay, defer, or prevent a tender offer or takeover

attempt that a stockholder might consider to be in its best interests.

Common Stock

As of February 18, 2016, 20,000,000 shares of our common stock, par value \$0.00001 per share, were authorized and 4,931,669 shares were outstanding. The general terms of our common stock are described below within the section of this prospectus entitled “Description of Our Common Stock.”

Preferred Stock

Our Articles of Incorporation authorize our Board of Directors to create and provide for the issuance of one or more series of preferred stock, par value \$0.00001 per share, without the approval of our stockholders. Our Board of Directors is authorized to issue such preferred stock in such series and with such preferences, limitations and relative rights as our Board of Directors determines from time to time. Our Articles of Incorporation currently authorize our Board of Directors to issue 20,000,000 shares of preferred stock and as of February 18, 2016, we had issued and outstanding 1,663,008 Series A Preferred Stock shares, 113,000 Series B Preferred Stock shares and accrued dividends totaling \$199,561.

Certain Provisions of Our Articles of Incorporation, Bylaws and Nevada Law

The Nevada Revised Statutes (“NRS”), the Articles of Incorporation and the Bylaws include the following provisions, among others, that could discourage potential acquisition proposals and could delay or prevent a change of control:

General

The Bylaws provide that the number of directors will not be less than 1 or more than 13, with the exact number to be fixed by the board of directors from time to time. Our directors are elected annually. The Bylaws also provide that directors may be removed from office with or without cause only by the affirmative vote of at least sixty-six and two-thirds percent ($66\frac{2}{3}\%$) of the issued and outstanding shares entitled to vote at an election of directors.

In addition to any approvals or consents that may be required under the terms of any outstanding preferred stock, an amendment to our Articles of Incorporation requires approval of our board of directors and the affirmative vote of the holders of a majority of the issued and outstanding shares of common stock.

Antitakeover Provisions of Nevada Law

Staffing 360 may be subject to Nevada’s “combinations with interested stockholders” statutes (NRS 78.411 through 78.444, inclusive), which prohibit specified types of business “combinations” between certain Nevada corporations and any person deemed to be an “interested stockholder” for 2 years after such person first becomes an “interested stockholder” unless the corporation’s board of directors approves the combination (or the transaction by which such person becomes an “interested stockholder”) in advance, or unless the combination is approved by the board of directors and 60% of the corporation’s voting power not beneficially owned by the interested stockholder, its affiliates and associates. Furthermore, in the absence of prior approval certain restrictions may apply even after such 2-year period. For purposes of these statutes, an “interested stockholder” is any person who is (i) the beneficial owner, directly or indirectly, of 10% or more of the voting power of the outstanding voting shares of the corporation, or (ii) an affiliate or associate of the corporation and at any time within the 2 previous years was the beneficial owner, directly or indirectly, of 10% or more of the voting power of the then-outstanding shares of the corporation. The definition of the term “combination” is sufficiently broad to cover most significant transactions between a corporation and an “interested stockholder.” Staffing 360 has not opted out of these statutes in its Articles of Incorporation.

Staffing 360 may also be subject to Nevada’s “acquisition of controlling interest” statutes (NRS 78.378 through 78.3793, inclusive), which contain provisions governing the acquisition of a controlling interest in certain Nevada corporations. These “control share” laws provide generally that any person that acquires a “controlling interest” in certain Nevada corporations may be denied voting rights, unless a majority of the disinterested stockholders of the corporation elects to restore such voting rights. These laws provide that a person acquires a “controlling interest” whenever a person acquires shares of a subject corporation that, but for the application of these provisions of the NRS, would enable that person to exercise (i) one-fifth or more, but less than one-third, (ii) one-third or more, but less than a majority or (iii) a

majority or more, of all of the voting power of the corporation in the election of directors. Once an acquirer crosses one of these thresholds, shares which it acquired in the transaction taking it over the threshold and within the 90 days immediately preceding the date when the acquiring person acquired or offered to acquire a controlling interest become "control shares" to which the voting restrictions described above apply. These statutes apply to a Nevada corporation if it has 200 or more stockholders of record (at least 100 of whom have addresses in Nevada appearing on the corporation's stock ledger) and does business in the State of Nevada directly or through an affiliated corporation, unless its articles of incorporation or bylaws in effect on the tenth day after the acquisition of a controlling interest provide otherwise. Staffing 360 has not opted out of these statutes in its Articles of Incorporation or Bylaws.

In addition, NRS 78.139 also provides that directors may resist a change or potential change in control if the directors, by majority vote of a quorum, determine that the change is opposed to, or not in, the best interests of the corporation.

Our common stock is listed on the NASDAQ Capital Market under the trading symbol “STAF.”

GENERAL DESCRIPTION OF SECURITIES THAT MAY BE OFFERED

The following securities may be offered, at any time and from time to time, pursuant to this prospectus:

- our debt securities, in one or more series;
- shares of our preferred stock, par value \$0.00001 per share;
- shares of our common stock, par value \$0.00001 per share;
- warrants to purchase any of the other securities that may be sold under this prospectus; or
- any combination of these securities.

Debt securities offered under this prospectus may be exchangeable for or convertible into common stock or any of the other securities that may be sold under this prospectus. When particular securities are offered, a supplement to this prospectus will be filed with the SEC, which will describe the terms of the offering and sale of the offered securities.

DESCRIPTION OF DEBT SECURITIES

The debt securities offered by this prospectus will be issued under an indenture between us and the trustee, which has been filed with the SEC as an exhibit to the registration statement of which this prospectus is a part, subject to such amendments or supplemental indentures as are adopted from time to time. We have summarized selected provisions of the indenture and the debt securities below. This summary is not complete and is qualified in its entirety by reference to the indenture. For purposes of this summary, the terms “we,” “our,” “ours” and “us” refer only to Staffing 360 Solutions, Inc. and not to any of its subsidiaries.

We may issue debt securities at any time and from time to time in one or more series under the indenture. The debt securities that we may issue include senior debt securities, subordinated debt securities, convertible debt securities and exchangeable debt securities. A series of debt securities may be guaranteed by one or more of our subsidiaries. The indenture gives us the ability to reopen a previous issue of a series of debt securities and issue additional debt securities of the same series, subject to compliance with the applicable requirements set forth in the indenture. The indenture does not limit the amount of debt securities or other secured or unsecured debt which we or our subsidiaries may issue.

We will describe the particular terms of each series of debt securities we offer in a supplement to this prospectus. If any particular terms of the debt securities described in a prospectus supplement differ from any of the terms described in this prospectus, then the terms described in the applicable prospectus supplement will supersede the terms described in this prospectus. The terms of our debt securities will include those set forth in the indenture and those made a part of the indenture by the Trust Indenture Act of 1939. You should carefully read the summary below, the applicable prospectus supplement and the provisions of the indenture that may be important to you before investing in our debt securities.

General Terms

We may issue debt securities at any time and from time to time in one or more series under the indenture. The debt securities that we may issue include senior debt securities, subordinated debt securities, convertible debt securities and exchangeable debt securities. The indenture gives us the ability to reopen a previous issue of a series of debt securities and issue additional debt securities of the same series, subject to compliance with the applicable requirements set forth in the indenture. The indenture does not limit the amount of debt securities which we or our subsidiaries may issue.

We will describe the specific terms of each series of debt securities being offered in a supplement to this prospectus. These terms may include some or all of the following:

- the title of the securities of the series;
- any limit on the aggregate principal amount of the securities;
- the date or dates on which principal and premium, if any, of the debt securities of that series, or any tranche thereof, is payable or any formula or other method or other means by which such date or dates shall be determined, by reference to an index or other fact or event ascertainable outside of the indenture or otherwise (without regard to any provisions for redemption, prepayment, acceleration, purchase or extension);
- interest rates, the dates from which interest, if any, on the debt securities of that series, or any tranche thereof, will accrue, the dates when interest is payable, the maturity and the right, if any, to extend the interest payment periods and the duration of the extensions;
- the place or places where and the manner in which principal of, premium, if any, and interest, if any, on the debt securities of that series, or any tranche thereof, will be payable and the place or places where those debt securities, or any tranche thereof, may be presented for transfer and, if applicable, conversion or exchange, and, if such is the case, that the principal of that series of debt securities, or any tranche thereof, will be payable without presentment or surrender of those debt securities, or any tranche thereof;
- the period or periods within which, the price or prices at which, the currency or currencies in which, and other terms and conditions upon which those debt securities may be redeemed, in whole or in part, at our option or the option of a holder of those securities, or any tranche thereof, if we or a holder is to have that option;
- our obligation, if any, or right, if any, to redeem, repay or purchase those debt securities, or tranche thereof;
- any sinking fund or other provisions that would obligate us to redeem or repurchase some or all of the debt securities, or any tranche thereof;
- the terms, if any, on which the debt securities of that series will be subordinate in right and priority of payment to any of our other debt;
- the denominations in which those debt securities will be issuable;
- if other than the entire principal amount of the debt securities, the portion of the principal amount payable upon acceleration of maturity as a result of a default on our obligations;
- whether any securities of that series are to be issued in whole or in part in the form of one or more global securities and the depository for those global securities;
- if other than United States dollars, the currency or currencies, including composite currencies, in which payment of principal of or any premium or interest on those debt securities will be payable and the manner of determining the equivalent of any such amount in United States dollars is to be determined for any purpose, including for the purpose of determining the principal amount of such securities deemed to be outstanding at any time;
- if the principal of or any premium or interest on the debt securities of that series is to be payable, or is to be payable at our election or the election of a holder of those securities, in securities or other property, the type and amount of those securities or other property, or the manner of determining that amount, and the period or periods within which, and the terms and conditions upon which, any such election may be made;
- the events of default and covenants relating to the debt securities that are in addition to, modify or delete those described in this prospectus;
- the terms and conditions, if any, pursuant to which the securities of such series may be converted into or exchanged for securities or other property of the Company or any other person;
- whether and upon what terms the debt securities may be defeased, if different from the provisions set forth in the indenture;

- any variation in the definition of business day, as defined in the indenture, with respect to the securities of such series;
- any collateral security, assurance or guaranty for the securities of such series;
 - any rights or duties of another person to assume the obligations of Staffing 360 with respect to the securities of such series (whether as joint obligor, primary obligor, secondary obligor or substitute obligor) and any rights or duties to discharge and release any obligor with respect to the securities of such series or the indenture to the extent related to such series;
- if the amount of payments of principal or interest is to be determined by reference to an index or formula, or based on a currency other than that in which the debt securities are stated to be payable, the manner in which these amounts are determined and the calculation agent, if any, with respect thereto;
- the terms, if any, on which the debt securities will be guaranteed by any of our subsidiaries;
- whether those debt securities will be issued in fully registered form without coupons or in a form registered as to principal only with coupons or in bearer form with coupons;
- the nature and terms of any security for any secured debt securities;
- the terms applicable to any debt securities issued at a discount from their stated principal amount; and
- any other specific terms, conditions and rights of any debt securities.

The indenture does not contain any covenant or other specific provision affording protection to holders of the debt securities in the event of a highly leveraged transaction or a change in control of us, except to the limited extent described under “Consolidation, Merger or Sale.”

We may issue the debt securities issued under the indenture as “discount securities,” which means they may be sold at a discount below their stated principal amount. These debt securities, as well as other debt securities that are not issued at a discount, may, for United States federal income tax purposes, be treated as if they were issued with “original issue discount,” or OID, because of interest payment and other characteristics. Special United States federal income tax considerations applicable to debt securities issued with original issue discount may be described in more detail in any applicable prospectus supplement.

Conversion or Exchange Rights

Debt securities may be convertible into or exchangeable for other securities, including for example shares of our equity securities. The terms and conditions of any conversion or exchange features will be stated in the applicable prospectus supplement. The terms will include, among others, the following:

- the conversion or exchange price;
- the conversion or exchange period;
- provisions regarding our ability or the ability of any holder to convert or exchange the debt securities;
- events requiring adjustment to the conversion or exchange price; and
- provisions affecting conversion or exchange in the event of our redemption of the debt securities.

Consolidation, Merger or Sale

Under the indenture, we cannot consolidate or merge with or into, or convey, transfer or lease all or substantially all of our properties and assets to, any person unless:

- either (1) we shall be the continuing corporation or the successor corporation or (2) the person formed by such consolidation or into which we are merged or the person to which our properties and assets are transferred or leased is organized and existing under the laws of the United States, any state of the United States or the District

- of Columbia and expressly assumes our obligations under the debt securities and the indenture;
- immediately after giving effect to such transaction, no event of default and no event that, after notice or lapse of time or both, would become an event of default, shall have occurred and be continuing; and
 - we have delivered to the trustee an officer's certificate and opinion of counsel required under the indenture.

When the person to whom all or substantially all of our properties and assets are transferred or leased has assumed our obligations under the debt securities and the indenture as described above, we will be released from all our obligations and liabilities under the debt securities and the indenture.

As used in the indenture, the term “person” means any individual, corporation, partnership, joint venture, trust, unincorporated organization or government or any agency or political subdivision thereof.

Restrictive Covenants

We will describe any restrictive covenants for any series of debt securities in the applicable prospectus supplement for such debt securities.

Events of Default

The indenture provides that any one of the following will be an “event of default” with respect to any series of debt securities:

- failure to pay interest upon any security of that series when it becomes due and payable, and continuance of such default for a period of 30 days;
- failure to pay principal or premium, if any, on any debt security of that series when due and payable, either at maturity, upon any redemption or otherwise, and, in the case of technical or administrative difficulties, only if such default persists for a period of more than three business days;
- failure to make a sinking fund payment when due by the terms of a debt security of that series and continuance of such default for a period of 30 days;
- failure to perform, or breach of, any other covenant of us in the indenture for 90 days after notice to us by the trustee, or to the trustee and us by the holders of at least 25% of the aggregate principal amount of the outstanding debt securities of that series, specifying such default or breach and requiring it to be remedied;
- specified events of bankruptcy, insolvency or reorganization relating to us; or
- any other event of default that we may provide for that series of debt securities.

An event of default for a particular series of debt securities does not necessarily constitute an event of default for any other series of debt securities issued under the indenture. For each series of debt securities, any modifications to the above events of default will be described in the applicable prospectus supplement for those debt securities.

The indenture provides that if an event of default specified in the first, second, third, fourth or sixth bullets above occurs and is continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount of all those debt securities (or, in the case of discount securities or indexed securities, that portion of the principal amount as may be specified in the terms of that series) to be due and payable immediately. If an event of default specified in the fifth bullet above occurs and is continuing, then the principal amount of all the debt securities then outstanding (or, if such debt securities are discount securities or indexed securities, that portion of the principal amount as may be specified in the terms of that series) will be due and payable immediately, without any declaration or other act on the part of the trustee or any holder. In certain cases, a declaration of acceleration may be deemed to be rescinded and annulled as provided in the indenture.

The indenture imposes limitations on suits brought by holders of debt securities against us. Except for actions for payment of overdue principal or interest, no holder of debt securities of any series may institute any action against us

under the indenture unless:

- the holder has previously given to the trustee written notice of a continuing event of default with respect to the
- 21
-

debt securities of the affected series;

- the holders of at least 25% in principal amount of the outstanding debt securities of the affected series have requested that the trustee institute the action;
- the requesting holders have offered the trustee indemnity for the reasonable expenses and liabilities that may be incurred by bringing the action;
- the trustee has not instituted the action within 60 days of receipt of the request and offer of indemnity; and
- the trustee has not received inconsistent direction during such 60 day period by the holders of a majority in principal amount of the outstanding debt securities of the affected series.

We will be required to file annually with the trustee a certificate, signed by one of our officers, stating whether or not the officer knows of any default by us in the performance, observance or fulfillment of any condition or covenant of the indenture.

Satisfaction, Discharge, Defeasance and Covenant Defeasance

The indenture provides that we may satisfy and discharge obligations with respect to the debt securities of a particular series by either delivering to the trustee for cancellation all outstanding debt securities of that series, or depositing with the trustee, after the outstanding debt securities of that series have become due and payable, or will become due and payable at their stated maturity within one year, or are to be called for redemption within one year under arrangements satisfactory to the trustee for the giving of notice of redemption, sufficient cash or eligible obligations or any combination thereof to pay principal of, and any premium and interest on, all outstanding securities of such series.

In addition, the indenture provides that at our option we may:

- be discharged from our obligations with respect to the debt securities of a particular series (“defeasance”), or
- with respect to debt securities of a particular series, cease to comply with certain covenants and restrictions under the indenture, including those described under “Consolidation, Merger or Sale,” and any additional covenants that may be specified for such series (“covenant defeasance”), if we deposit with the trustee sufficient cash or eligible obligations or any combination thereof to pay principal of, and any premium and interest on, all outstanding debt securities of such series. Upon defeasance, the holders of the debt securities of the affected series will not be entitled to the benefits of the indenture, except for registration of transfer and exchange of debt securities and replacement of lost, stolen or mutilated debt securities. Such holders may look only to such deposited funds or obligations for payment.

The defeasance described above is effective only if, among other things, we deliver to the trustee an opinion of counsel stating that (x) we have received from, or there has been published by, the Internal Revenue Service a ruling or (y) there has been a change in law or regulation occurring after the date of the indenture, in either case to the effect that (and based thereon such opinion shall confirm that) holders of the debt securities of such series will not recognize income, gain or loss for federal income tax purposes as a result of such deposit, defeasance and discharge and will be subject to federal income tax on the same amount and in the same manner and at the same times, as would have been the case if such deposit, defeasance and discharge had not occurred.

The covenant defeasance described above is effective only if, among other things, we deliver to the trustee an opinion of counsel to the effect that holders of the debt securities of such series will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and defeasance and will be subject to federal income tax on the same amount and in the same manner and at the same times, as would have been the case if such deposit and covenant defeasance had not occurred.

Modification of the Indenture

The indenture provides that we and the trustee may enter into supplemental indentures without the consent of the holders of debt securities to, among other things:

- evidence the assumption by a successor entity of our obligations under the debt securities and the indenture;
- add to our covenants for the benefit of the holders of all or any series of debt securities, or to surrender any rights or power conferred upon us;

- add any additional events of default with respect to all or any series of debt securities;
- add to, change or eliminate any of the provisions of the indenture in respect of one or more series of debt securities, provided that any such addition, change or elimination (1) shall neither apply to any debt securities of any series created prior to the execution of such supplemental indenture and entitled to the benefit of such provision nor modify the rights of the holder of any such debt security with respect to such provision or (2) shall become effective only when there is no such debt security outstanding;
- add collateral security for any debt securities and provide the terms and conditions for the release or substitution thereof;
- establish the forms or terms of debt securities of any series;
- add any guarantees with respect to debt securities of any series;
- provide for uncertificated securities in addition to certificated securities;
- evidence and provide for the acceptance of appointment by a successor trustee and add to or change any of the provisions of the indenture as is necessary for the administration of the trusts by more than one trustee;
- cure any ambiguity or correct any inconsistency or defect in the indenture or in any supplemental indenture; and
- make any other provisions with respect to matters or questions arising under the indenture as long as the new provisions do not adversely affect the interests of the holders of any outstanding debt securities of any series in any material respect.

The indenture also provides that we and the trustee may, with the consent of the holders of not less than a majority in aggregate principal amount of debt securities of each series of debt securities affected by such supplemental indenture then outstanding, add any provisions to, or change in any manner, or eliminate or modify in any way the provisions of, the indenture or any supplemental indenture or modify in any manner the rights of the holders of the debt securities.

We and the trustee may not, however, without the consent of the holder of each outstanding debt security affected thereby:

- extend the final maturity of any debt security;
 - reduce the principal amount or premium, if any;
- reduce the rate or extend the time of payment of interest;
- reduce the amount of the principal of any debt security issued with an original issue discount that is payable upon acceleration;
- change the currency in which the principal, and any premium or interest, is payable;
- impair the right to institute suit for the enforcement of any payment on any debt security when due;
- if applicable, adversely affect the right of a holder to convert or exchange a debt security; or
- reduce the percentage of holders of debt securities of any series whose consent is required for any modification of the indenture or for waivers of compliance with or defaults under the indenture with respect to debt securities of that series.

The indenture provides that the holders of not less than a majority in aggregate principal amount of the then outstanding debt securities of any series may on behalf of the holders of the debt securities of that series waive any past default and its consequences under the indenture, in each case except:

- a default in the payment of, any premium and any interest on, or principal of, any such debt security of such series; or
- a default in respect of a covenant or provision of the indenture that cannot be modified or amended without the consent of the holder of each outstanding debt security of each series affected.

Registered Global Securities and Book Entry System

The debt securities of a series may be issued in whole or in part in book-entry form and may be represented by one or more fully registered global securities. We will deposit any registered global securities with a depositary or with a nominee for a depositary identified in the applicable prospectus supplement and registered in the name of such depositary or nominee. In such case, we will issue one or more registered global securities denominated in an amount equal to the aggregate principal amount of all of the debt securities of the series to be issued and represented by such registered global security or securities. This means that we will not issue certificates to each holder.

Unless and until it is exchanged in whole or in part for debt securities in definitive registered form, a registered global security may not be transferred except as a whole:

- by the depositary for the registered global security to its nominee;
- by a nominee of the depositary to the depositary or another nominee of the depositary; or
- by the depositary or its nominee to a successor of the depositary or a nominee of the successor.

The prospectus supplement relating to a series of debt securities will describe the specific terms of the depositary arrangement involving any portion of the series represented by a registered global security. We anticipate that the following provisions will apply to all depositary arrangements for debt securities:

- ownership of beneficial interests in a registered global security will be limited to persons that have accounts with the depositary for such registered global security, these persons being referred to as “participants,” or persons that may hold interests through participants;
- upon the issuance of a registered global security, the depositary for the registered global security will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal amounts of the debt securities represented by the registered global security beneficially owned by the participants;
- any dealers, underwriters, or agents participating in the distribution of the debt securities will designate the accounts to be credited; and
- ownership of beneficial interest in the registered global security will be shown on, and the transfer of the ownership interest will be effected only through, records maintained by the depositary for the registered global security for interests of participants, and on the records of participants for interests of persons holding through participants.

The laws of some states may require that specified purchasers of securities take physical delivery of the securities in definitive form. These laws may limit the ability of those persons to own, transfer or pledge beneficial interests in registered global securities.

So long as the depositary for a registered global security, or its nominee, is the registered owner of the registered global security, the depositary or such nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by the registered global security for all purposes under the indenture. Except as stated below, owners of beneficial interests in a registered global security:

- will not be entitled to have the debt securities represented by a registered global security registered in their names;
- will not receive or be entitled to receive physical delivery of the debt securities in the definitive form; and
- will not be considered the owners or holders of the debt securities under the relevant indenture.

Accordingly, each person owning a beneficial interest in a registered global security must rely on the procedures of the depositary for the registered global security and, if the person is not a participant, on the procedures of a participant through which the person owns its interest, to exercise any rights of a holder under the indenture.

We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a registered global security desires to give or take any action that a holder is entitled to give or take under the indenture, the depositary for the registered global security would authorize the participants holding the relevant

beneficial

24

interests to give or take the action, and the participants would authorize beneficial owners owning through the participants to give or take the action or would otherwise act upon the instructions of beneficial owners holding through them.

We will make payments of principal and premium, if any, and interest, if any, on debt securities represented by a registered global security registered in the name of a depositary or its nominee to the depositary or its nominee, as the case may be, as the registered owners of the registered global security. Neither we, the trustee, any paying agent nor any security registrar will be responsible or liable for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the registered global security or for maintaining, supervising or reviewing any records relating to the beneficial ownership interests.

We expect that the depositary for any debt securities represented by a registered global security, upon receipt of any payments of principal and premium, if any, and interest, if any, in respect of the registered global security, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the registered global security as shown on the records of the depositary. We also expect that standing customer instructions and customary practices will govern payments by participants to owners of beneficial interests in the registered global security held through the participants, as is now the case with the securities held for the accounts of customers in bearer form or registered in "street name." We also expect that any of these payments will be the responsibility of the participants.

If the depositary for any debt securities represented by a registered global security is at any time unwilling or unable to continue as depositary or stops being a clearing agency registered under the Exchange Act, we will appoint an eligible successor depositary. If we fail to appoint an eligible successor depositary within 90 days, we will issue the debt securities in definitive form in exchange for the registered global security. In addition, if at any time we determine that it is not in our best interest or the best interest of the beneficial owners of securities to continue to have a global security representing all of the securities held by the depositary, we may, at our option, execute, and the trustee will authenticate and deliver, securities in definitive form to the depositary in exchange for all or a portion of the global security. The trustee will register any debt securities issued in definitive form in exchange for a registered global security in the name or names as the depositary, based upon instructions from its participants, shall instruct the trustee.

We may also issue bearer debt securities of a series in the form of one or more global securities, referred to as "bearer global securities." We will deposit these securities with a depositary identified in the prospectus supplement relating to the series. The prospectus supplement relating to a series of debt securities represented by a bearer global security will describe the applicable terms and procedures. These will include the specific terms of the depositary arrangement and any specific procedures for the issuance of debt securities in definitive form in exchange for a bearer global security, in proportion to the series represented by a bearer global security.

Concerning the Trustee

The indenture provides that there may be more than one trustee under the indenture, each for one or more series of debt securities. If there are different trustees for different series of debt securities, each trustee will be a trustee of a trust under the indenture separate and apart from the trust administered by any other trustee under that indenture.

Except as otherwise indicated in this prospectus or any prospectus supplement, any action permitted to be taken by a trustee may be taken by such trustee only on the one or more series of debt securities for which it is the trustee under the indenture. Any trustee under the indenture may resign or be removed from one or more series of debt securities. All payments of principal of, and any premium and interest on, and all registration, transfer, exchange, authentication and delivery of, the debt securities of a series will be effected by the trustee for that series at an office designated by

the trustee in New York, New York.

The indenture provides that, except during the continuance of an event of default, the trustee will perform only such duties as are specifically set forth in the indenture. During the existence of an event of default, the trustee will exercise those rights and powers vested in it under the indenture and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

If the trustee becomes a creditor of ours, the indenture places limitations on the right of the trustee to obtain payment of claims or to realize on property received in respect of any such claim as security or otherwise. The trustee may engage in other transactions. If it acquires any conflicting interest relating to any duties concerning the debt securities, however, it must eliminate the conflict or resign as trustee.

No Individual Liability of Incorporators, Stockholders, Officers or Directors

The indenture provides that no past, present or future director, officer, stockholder or employee of ours, any of our affiliates, or any successor corporation shall have any liability for any of our obligations, covenants or agreements under the debt securities or the indenture or any indenture supplemental thereto.

Governing Law

The indenture and the debt securities will be governed by, and construed in accordance with, the laws of the State of New York.

DESCRIPTION OF PREFERRED STOCK

Our Articles of Incorporation authorize our Board of Directors to create and provide for the issuance of one or more series of preferred stock, par value \$0.00001 per share, without the approval of our stockholders. Our Board of Directors is authorized to issue such preferred stock in such series and with such preferences, limitations and relative rights as our Board of Directors determines from time to time. Our Articles of Incorporation currently authorize our Board of Directors to issue 20,000,000 shares of preferred stock.

Series A Preferred Stock. On May 29, 2015, Staffing 360 designated 1,663,008 shares of preferred stock as Series A Preferred Stock, par value \$0.00001 per share. The Series A Preferred Stock has a stated value of \$10.00 per share along with a twelve percent (12%) annual dividend payable monthly. Shares of the Series A Preferred Stock are convertible into shares of common stock at the holder's election at any time prior to December 31, 2018 ("the Redemption Date"), at a conversion rate of one and three tenths (1.3) shares of common stock for every one share of Series A Preferred Stock that the holder elects to convert. Except as otherwise required by law, the Series A Preferred Stock shall have no voting rights.

In the event of a liquidation, dissolution or winding up of the Company, the holders of the Series A Preferred Stock shall be entitled to receive out of the assets of Staffing 360 legally available for distribution, prior to and in preference to distributions to the holders of Staffing 360's common stock or classes and series of securities of Staffing 360 which by their terms do not rank senior to the Series A Preferred Stock, and either in preference to or pari passu with the holders of any other series of Preferred Stock that may be issued in the future that is expressly made senior or pari passu, as the case may be, an amount equal to the stated value of the Series A Preferred Stock less any dividends previously paid out on the Series A Preferred Stock.

The holders of Series A Preferred Stock will be entitled to receive cash dividends at the rate of twelve percent (12%) per annum of the stated value of their shares of Series A Preferred Stock, payable monthly in cash, prior to and in preference to any declaration or payment of any dividend on the common stock. So long as any shares of Series A Preferred Stock are outstanding, Staffing 360 shall not declare, pay or set apart for payment any dividend on any shares of common stock or classes and series of preferred securities of Staffing 360 which by their terms do not rank senior to the Series A Preferred Stock, unless at the time of such dividend Staffing 360 shall have paid all accrued and unpaid dividends on the outstanding shares of Series A Preferred Stock.

Commencing on the Redemption Date, Staffing 360 shall redeem all of the shares of Series A Preferred Stock of each holder, for cash or for shares of common stock in Staffing 360's sole discretion. If the redemption purchase price is paid in shares of common stock, the holders shall initially receive one and three tenths (1.3) shares of common stock for each \$10.00 of the redemption purchase price. If the redemption purchase price is paid in cash, the redemption price paid to each holder shall be equal to the stated value for each share of Series A Preferred Stock, multiplied by the number of shares of Series A Preferred Stock held by such holder, less the aggregate amount of dividends paid to

such holder through the Redemption Date.

Series B Preferred Stock. On December 30, 2015, Staffing 360 filed a Certificate of Designations, Preferences and Rights of Series B Preferred Stock with the Nevada Secretary of State, pursuant to which the Company designated 200,000 shares as Series B Preferred Stock, par value \$0.00001 per share. The Series B Preferred Stock shall have a stated value of \$10.00 per share. Except as otherwise required by law, the Series B Preferred Stock shall have no voting rights.

In the event of a liquidation, dissolution or winding up of the Company, the remaining assets of the Company available for distribution to its stockholders shall be distributed on a pari passu basis among the holders of shares of the Series B Preferred Stock and the holders of the Company's common stock, par value \$0.00001 per share, pro rata based on the number of shares held by each such holder.

There will be no dividends associated with the Series B Preferred Stock or payable to the holders. If a holder elects to convert the Series B Preferred Stock into common stock, then the holder will have the same rights and receive the same dividends, if any, as the holders of the common Stock.

At any time each holder may elect to convert the shares of Series B Preferred Stock held by such holder into shares of common stock. Upon the Series B Conversion, a holder shall receive one share of common stock for every one share of Series B Preferred Stock that the holder elects to convert; provided, however, that (i) to the extent that the holder's right to receive such amount of common Stock upon conversion of the shares of Series B Preferred Stock would result in the holder holding in excess of 4.99% of the number of shares of common stock outstanding immediately after giving effect to the issuance of shares of common stock issuable upon exercise of the Series B Preferred Stock, then the holder shall not be entitled to convert such shares of Series B Preferred Stock into a number of common stock that exceeds such beneficial ownership limitation, and (ii) notwithstanding any other provision of the Certificate of Designation to the contrary, in no event can conversion of the Series B Preferred Stock pursuant the Certificate of Designation result in the issuance of shares of common stock that would exceed the "Exchange Cap". The "Exchange Cap" shall be deemed to have been reached if, at any time prior to the shareholders of the Company approving any transaction(s) pursuant to which Series B Preferred Stock, any stock or other securities convertible into or exchangeable for common stock and/or common stock are issuable that may be aggregated with such shares of common stock issuable upon conversion of Series B Preferred Stock, the number of shares of common stock issuable under outstanding shares of Series B Preferred Stock and other convertible securities and shares of common stock issued pursuant to such transactions(s) would exceed 19.9% of the shares of common stock outstanding as of the date of the earliest transaction(s).

The holders of two-thirds of the Series B Preferred Stock then outstanding, upon notice to the Company, may increase or decrease the beneficial ownership limitation; provided, that the beneficial ownership limitation in no event shall exceed 9.99% of the number of shares of the common stock outstanding immediately after giving effect to the issuance of shares of common stock upon conversion of the outstanding Series B Preferred Stock.

As of February 18, 2016, we had issued and outstanding 1,663,008 Series A Preferred Stock shares, 113,000 Series B Preferred Stock shares and accrued dividends totaling \$199,561.

We may offer rights separately or together with one or more additional rights, preferred stock, common stock, warrants or any combination of those securities in the form of units, as described in the applicable prospectus supplement. The rights agent will act solely as our agent in connection with the certificates relating to the rights of the series of certificates and will not assume any obligation or relationship of agency or trust for or with any holders of rights certificates or beneficial owners of rights. The following description sets forth certain general terms and provisions of the rights to which any prospectus supplement may relate. The particular terms of the rights to which any prospectus supplement may relate and the extent, if any, to which the general provisions may apply to the rights so offered will be described in the applicable prospectus supplement. To the extent that any particular terms of the rights, rights agreement or rights certificates described in a prospectus supplement differ from any of the terms described below, then the terms described below will be deemed to have been superseded by that prospectus supplement. In connection with any rights offering, we may enter into a standby underwriting or other arrangement with one or more underwriters or other persons

pursuant to which such underwriters or other persons would purchase any offered securities remaining unsubscribed for after such rights offering.

PLAN OF DISTRIBUTION

We or the selling stockholders may offer and sell the securities in any one or more of the following ways:

- to or through underwriters, brokers or dealers;
- directly to one or more other purchasers;
- upon the exercise of rights distributed or issued to our security holders;
- through a block trade in which the broker or dealer engaged to handle the block trade will attempt to sell the securities as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- through agents on a best-efforts basis; or
- otherwise through a combination of any of the above methods of sale.

In addition, we or, subject to the Company's policy on insider trading, the selling stockholders, may enter into option, share lending or other types of transactions that require us or the selling stockholders, as applicable, to deliver shares of common stock to an underwriter, broker or dealer, who will then resell or transfer the shares of common stock under this prospectus. We or, subject to the Company's policy on insider trading, the selling stockholders, may also enter into hedging transactions with respect to the shelf securities or resale shares, as applicable. For example, we or the selling stockholders, may:

- enter into transactions involving short sales of the shares of common stock by underwriters, brokers or dealers;
- sell shares of common stock short and deliver the shares to close out short positions;
- enter into option or other types of transactions that require us or the selling stockholders, as applicable, to deliver shares of common stock to an underwriter, broker or dealer, who will then resell or transfer the shares of common stock under this prospectus; or
- loan or pledge the shares of common stock to an underwriter, broker or dealer, who may sell the loaned shares or, in the event of default, sell the pledged shares.

We or, subject to the Company's policy on insider trading, the selling stockholders, may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or the selling stockholders, as applicable, or borrowed from us, the selling stockholders or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us or the selling stockholders in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment). In addition, we or the selling stockholders may otherwise loan or pledge securities to a financial institution or other third party that in turn may sell the securities short using this prospectus. Such financial institution or other third party may transfer its economic short position to investors in shelf securities or resale shares, as applicable, or in connection with a concurrent offering of other securities.

Shares of common stock may also be exchanged for satisfaction of the selling stockholders' obligations or other liabilities to their creditors. Such transactions may or may not involve brokers or dealers.

Each time we or, if required, the selling stockholders sell securities, we will provide a prospectus supplement that will name any underwriter, dealer or agent involved in the offer and sale of the securities. The prospectus supplement will also set forth the terms of the offering, including:

- the purchase price of the securities and the proceeds we and/or the selling stockholders, as applicable, will receive from the sale of the securities;
- any underwriting discounts and other items constituting underwriters' compensation;
- any public offering or purchase price and any discounts or commissions allowed or re-allowed or paid to dealers;
- any commissions allowed or paid to agents;
- any other offering expenses;
- any securities exchanges on which the securities may be listed;
- the method of distribution of the securities; and
- the terms of any agreement, arrangement or understanding entered into with the underwriters, brokers or dealers.

If underwriters or dealers are used in the sale, the securities will be acquired by the underwriters or dealers for their own account. The securities may be sold from time to time by us or the selling stockholders in one or more transactions:

- at a fixed price or prices, which may be changed;
- at market prices prevailing at the time of sale;
 - at prices related to such prevailing market prices;
- at varying prices determined at the time of sale; or
- at negotiated prices.

Such sales may be effected:

- in transactions on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;
- in transactions in the over-the-counter market;
- in block transactions in which the broker or dealer so engaged will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction, or in crosses, in which the same broker acts as an agent on both sides of the trade;
- through the writing of options; or
- through other types of transactions.

The securities may be offered to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more of such firms. Unless otherwise set forth in the prospectus supplement, the obligations of underwriters or dealers to purchase the securities offered will be subject to certain conditions precedent and the underwriters or dealers will be obligated to purchase all the offered securities if any are purchased. Any public offering price and any discount or concession allowed or reallocated or paid by underwriters or dealers to other dealers may be changed from time to time.

The selling stockholders might not sell any resale shares under this prospectus. In addition, any resale shares that qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus.

The securities may be sold directly by us or the selling stockholders or through agents designated by us or the selling stockholders, as applicable, from time to time. Any agent involved in the offer or sale of the securities in respect of which this prospectus is delivered will be named, and any commissions payable by us or the selling stockholders, as applicable, to such agent will be set forth in the prospectus supplement. Unless otherwise indicated in the prospectus supplement, any such agent will be acting on a best efforts basis for the period of its appointment.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale shares may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the pricing of the resale shares. In addition, the selling stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of common stock by the selling stockholders or any other person. We will make copies of this prospectus available to the selling stockholders and have informed the selling stockholders of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

Unless otherwise specified in connection with the particular offering of securities, the validity of any securities offered under this prospectus will be passed upon for us by Jenner & Block LLP, New York, New York, and, with respect to matters of Nevada law, by Brownstein Hyatt Farber Schreck, LLP, Las Vegas, Nevada. Any underwriters will be represented by their own legal counsel.

EXPERTS

The consolidated financial statements of Staffing 360 Solutions, Inc. as of May 31, 2015, and for each of the years in the two-year period ended May 31, 2015 and 2014 have been incorporated by reference herein in reliance upon the reports of RBSM LLP, independent registered public accounting firms, incorporated by reference herein, and upon the authority of said firm as experts in accounting and auditing.

RECENT DEVELOPMENTS

In October 2015, the Company issued a total of 210,000 common stock shares to the board of directors and several of the Company's employees and officers.

In October 2015 and December 2015, the Company issued a total of 17,630 common stock shares to a placement agent.

On October 21, 2015, the United States District Court for the Western District of Texas, Austin Division (the "Court") rendered a final judgment against the Company and in favor of NewCSI, Inc., ("NewCSI") in the amount of \$1,306,576 ("Final Judgment Amount"). NewCSI filed a complaint against the Company on May 22, 2014, in which NewCSI alleged that the Company breached a provision of the Stock Purchase Agreement, dated August 14, 2013, between the Company, NewCSI, and the shareholders of NewCSI ("Complaint"). The Court also awarded NewCSI: (i) pre-judgment interest on the Final Judgment Amount, in the amount of \$77,186.50; (ii) costs incurred in connection with the Complaint; and (iii) post-judgment interest on all amounts described above at a rate of 0.23 percent per annum from the date of this final judgment until such amounts are paid in full. In rendering its final judgment, the Court granted NewCSI's post-verdict Motion for Entry of Judgment as a Matter of Law in part and denied the Company's post-verdict Motion for Entry of Judgment as a Matter of Law in its entirety. The Company believes that the final judgment is unsupported by the evidence and contrary to the law, and filed its notice of appeal of the final judgment to the United States Court of Appeals for the Fifth Circuit (the "Circuit Court") on January 6, 2016. In the Company's financial results

filed as part of its Form 10-Q for the period ending November 30, 2015, the Company previously accrued for this matter in the amount of \$1,694,616, which is in excess of the Final Judgement Amount. However the Form 10-Q was filed on January 14, 2016 and the Company did not foresee the Court's recommendation to include legal fees and refusal to reduce the judgement by payments that the Company has continued to make to NewCSI in the amount of \$413,516. On January 15, 2016 the Court awarded \$551,727 to NewCSI for legal fees (inclusive of post-trial legal fees totaling \$46,998), which increased the total award to \$1,957,108. Thus, the accrual reserves held by the Company would be deficient by \$262,492.
