

Voip-pal.com Inc
Form 10-K
January 11, 2019

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

Annual Report Pursuant to Section 13 or 15 (d) of the Securities Exchange Act of 1934

For the fiscal year ended: September 30, 2018

or

Transition Report Pursuant to Section 13 or 15 (d) of the Securities Exchange Act of 1934

Commission File Number: 000-55613

VoIP-PAL.COM INC.

(Exact name of Registrant as specified in its charter)

Nevada **980184110**
(State or other jurisdiction of (I.R.S. Employer

incorporation or organization) Identification Number)

10900 NE 4th Street, Suite 2300

Bellevue, WA, 98004

Edgar Filing: Voip-pal.com Inc - Form 10-K

(Address of principal executive offices)

1-888-605-7780

(Registrant's telephone number, including area code)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the Registrant (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to the filing requirements for at least the past 90 days. Yes No

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer", "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. Yes No

Edgar Filing: Voip-pal.com Inc - Form 10-K

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The market value of the voting stock held by non-affiliates was \$95,744,566 based on 1,007,837,535 shares held by non-affiliates. These computations are based upon the closing sales price of \$0.095 per share of the Company on OTC Markets, Inc. on March 31, 2018.

Indicate the number of shares outstanding of each of the Registrant's classes of common equity, as of the latest practicable date:

Class	Outstanding as of January 10, 2019
Common Stock, \$0.001 par value per share	1,947,980,092

PART I

CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS

In this Annual Report, references to “VoIP-Pal,” “VPLM,” the “Company,” “we,” “us,” and “our” refer to VoIP-Pal.Com Inc., Registrant.

This Annual Report on Form 10-K (this “Annual Report” or this “Report”) contains certain forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act of 1934, as amended (the “Exchange Act”). All statements, other than statements of historical facts, included in this Annual report are forward looking statements, including, without limitation, statements regarding our strategy, future operations, financial position, estimated revenues and losses, projected costs, prospects, plans and objectives of management. These forward-looking statements may be, but are not always, identified by their use of terms and phrases such as “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “project,” “plan,” “will,” “shall,” “should,” “could” and “potential,” and other similar terms and phrases, including when used in the negative. Although we believe that the expectations reflected in these forward-looking statements are reasonable, they do involve certain assumptions, risks and uncertainties. Actual results could differ materially from those anticipated in these forward-looking statements. You should consider carefully the risks described under the “Risk Factors” section of this Annual Report and other sections of this report, which describe factors that could cause our actual results to differ from those anticipated in the forward-looking statements. All forward-looking statements are expressly qualified in their entirety by the cautionary statements in this paragraph and elsewhere in this Annual Report. Other than as required under the securities laws, we do not assume a duty to update these forward-looking statements, whether because of new information, subsequent events or circumstances, changes in expectations or otherwise.

Item 1. Business.

The Company was incorporated in the state of Nevada in September 1997 as All American Casting International, Inc. and changed its name to VOIP MDU.com in 2004 and subsequently to VoIP-Pal.Com Inc. in 2006. Since March 2004, the Company has been in the development stage of becoming a Voice-over-Internet Protocol (“VoIP”) re-seller, a provider of a proprietary transactional billing platform tailored to the points and air mile business, and a provider of anti-virus applications for smartphones.

In 2013, Voip-Pal acquired Digifonica International (DIL) Limited (“Digifonica”), to fund and co-develop Digifonica’s patent suite. Digifonica had been founded in 2003 with the vision that the internet would be the future of all forms of telecommunications - a team of twenty top engineers with expertise in Linux and Internet telephony developed and wrote a software suite with applications that provided solutions for several core areas of internet connectivity. In order to properly test the applications, Digifonica built and operated three production nodes in Vancouver, Canada (Peer 1), London, UK (Teliasonera), and Denmark. Upon successfully developing the technology, Digifonica filed for patents

with the United States Patent and Trademark Office (“USPTO”).

The Digifonica patents formed the basis for Voip-Pal’s current intellectual property, now a worldwide portfolio of issued and pending patents primarily designed for the broadband VoIP market.

The Issuer’s primary and secondary SIC Codes are 4813 and 4899.

The Issuer’s fiscal year end date is September 30.

Principal Products or Services

VoIP-PAL owns a worldwide portfolio of issued patents covering numerous inventions, including, but not limited to the following technology areas:

- 1.classification and routing of communications over different networks and over geographically distributed nodes;
2. lawful intercept of such communications;
3. enhanced emergency calling support (e.g., E911);
4. mobile gateways;
5. uninterrupted transmission during endpoint changes; and
6. metering and billing, including the reselling of “white label” telecommunication services.

VoIP-PAL has one or more continuation patent applications pending in each of its U.S. patent families.

VoIP-PAL is currently pursuing patent infringement lawsuits against several Fortune 500 companies that the Company believes are practicing its patented inventions. Two of VoIP-Pal’s patents (U.S. Patent Nos. 8,542,815 and 9,179,005) have undergone extensive review by the USPTO’s Patent Trial and Appeal Board (PTAB).

VoIP-Pal's Patent Portfolio

A brief summary of the Company's patents is provided below, focusing primarily on patents which have been issued in the U.S. (the Company's related pending U.S. patent applications and foreign patent assets are generally not discussed). The brief summaries below are provided for convenience only and without prejudice to the Company's rights; it will be appreciated that the scope of the Company's patents can only be discerned by conducting a full legal analysis under the applicable legal standards and is subject to Court decisions.

VoIP-PAL's patent portfolio covers the following technologies:

1. Classification/routing of communications

U.S. Patent Nos. 8,542,815; 9,179,005; 9,537,762; 9,813,330; 9,826,002; 9,935,872; 9,948,549; European Patent No. 2,084,868; and Indian Patent No. 287,412, all generally relate to classification/routing of communications.

VoIP-PAL has asserted U.S. Patent Nos. 8,542,815 and 9,179,005 against Apple, AT&T, Verizon and Twitter (initially filed in U.S. District Court, Nevada; later transferred to U.S. District Court for the Northern District of California). These patents were subject to eight (8) *Inter Partes* Review (IPR) proceedings before the USPTO, which were decided in VoIP-Pal's favor.

VoIP-Pal has asserted U.S. Patent Nos. 9,537,762, 9,813,330, 9,826,002 and 9,948,549 against both Apple and Amazon (initially filed in U.S. District Court, Nevada; later transferred to U.S. District Court for the Northern District of California).

Brief descriptions of each of these patents are provided below.

1.1 U.S. Patent No. 8,542,815, issued September 24, 2013, generally relates to, among other things, classifying a call as pertaining to a public network or a private network based on a match of one or more attributes associated with a caller and an identifier associated with a callee and network classification criteria.

The '815 Patent was the subject of four IPR challenges by Apple, Unified Patents, and AT&T Services, one of which was instituted and resulted in a final written decision confirming the patentability of all challenged claims. The '815 is currently being asserted against Apple, AT&T, Verizon and Twitter.

1.2 U.S. Patent No. 9,179,005, issued November 3, 2015, generally relates to, among other things, routing communications by producing a public or private routing message based on a classification criteria of one or more attributes associated with a caller and an identifier associated with a callee.

The '005 Patent was the subject of four IPR challenges by Apple and AT&T Services, one of which was instituted and resulted in a final written decision confirming the patentability of all challenged claims. The '005 is currently being asserted against Apple, AT&T, Verizon and Twitter.

1.3 U.S. Patent No. 9,537,762, issued January 3, 2017, generally relates to, among other things, classifying a communication as pertaining to a first or second network based on attributes associated with a first participant to the communication and classification criteria which may include whether a second participant to the communication is registered with the system.

The '762 Patent is currently being asserted against Apple and Amazon.

1.4 U.S. Patent No. 9,813,330, issued November 7, 2017, generally relates to, among other things, classifying a communication as a system communication or external network communication based at least in part on comparing attributes associated with a first participant in a communication with an identifier associated with a second participant.

The '330 Patent is currently being asserted against Apple and Amazon.

1.5 U.S. Patent No. 9,826,002, issued November 21, 2017, generally relates to, among other things, classifying a communication as a system communication or external network communication based at least in part on a new second participant identifier produced by processing a second participant identifier based on a first participant's attributes.

The '002 Patent is currently being asserted against Apple and Amazon.

1.6 U.S. Patent No. 9,948,549, issued on April 17, 2018, generally relates to, among other things, classifying a communication as a system communication or external network communication and producing a routing message based at least in part on a new second participant identifier produced by processing a second participant identifier based on a first participant's attributes.

The '549 Patent is currently being asserted against Apple and Amazon.

1.7 U.S. Patent No. 9,935,872, issued April 3, 2018, generally relates to, among other things, using at least one first participant attribute to determine whether a communication initiated from a first participant device to a second participant device is allowed to proceed, and if it is allowed to proceed, whether it should be routed to its destination via a first network element or a second network element.

1.8 *U.S. Patent App. No. 15/942,282* received a Notice of Allowance from the U.S. Patent & Trademark Office (USPTO) on November 13, 2018 and the Company has paid the final issue fee. This patent application relates to, among other things, processing at least one first participant attribute and a second participant identifier to determine whether a communication initiated from a first participant device to a second participant device in a packet switched or Internet Protocol (IP) based communication system can be routed using either a local cluster/node or a remote cluster/node.

1.9 *European Patent No. 2,084,868*, granted May 30, 2018, relates to, among other things, the classification/routing of communications and is similar to the counterpart U.S. patents directed to this subject matter (see descriptions of U.S. patents above).

1.10 *Indian Patent No. 287,412*, granted September 15, 2017, relates to, among other things, the classification/routing of communications and is similar to the counterpart U.S. patents directed to this subject matter (see descriptions of U.S. patents above).

2. Lawful intercept

U.S. Patent Nos. 8,422,507; 9,143,608; 9,549,071; and 10,038,779 generally relate to, for example, lawfully intercepting Voice Over IP (VoIP) and other data communications (e.g., when required by law enforcement agencies).

None of these patents are currently asserted in litigation.

2.1 *U.S. Patent No. 8,422,507*, issued April 16, 2013, applies, for example, to lawful intercept scenarios in which communications originating in an Internet Protocol (IP) network system from a subscriber to another party occur through a media relay, where information associated with the subscriber profile meets intercept criteria, such that a routing message is produced to cause the media relay to send a copy of the communications to a mediation device.

2.2 *U.S. Patent No. 9,143,608*, issued September 22, 2015, applies, for example, to lawful intercept scenarios in which communications originating in an Internet Protocol (IP) network system from a subscriber to another party occur through a media relay, and where a profile associated with the subscriber includes intercept determination information and destination information indicating where to send monitored communications. For example, when intercept criteria are met, at least some of the intercept determination information and the destination information are included in a routing message.

2.3 *U.S. Patent No. 9,549,071*, issued January 17, 2017, generally relates to, among other things, lawfully intercepting Internet Protocol (IP) communications between a first party and a second party, where a profile associated with the first or second party includes intercept determination information and destination information for one of the first or second party that is to be monitored, the destination information indicating where to send the monitored communications. For example, when an intercept criterion is met, at least some of the intercept determination information and the destination information is included in a routing message.

2.4 *U.S. Patent No. 10,038,779*, issued July 31, 2018, generally relates to lawfully intercepting VoIP or other data communications between a first party and a second party, based on an intercept request message that contains (a) an identification of at least one party whose communications are to be monitored, (b) intercept determination information, and (c) destination information indicating where copies of intercepted communications are to be sent. For example, when an intercept criterion is met, at least some intercept determination information and destination information is included in a routing message.

2.5 *U.S. Application no. 15/861,572*, allowed on August 8, 2018, also relates to lawfully intercepting VoIP or other data communications between parties.

3. Mobile gateway

U.S. Patent No. 8,630,234 and Canadian Patent No. 2,732,148 generally relate to, among other things, methods for channeling communications into distributed VoIP gateways (e.g., to allow mobile phones to avoid or minimize long-distance charges while roaming in a geographical area serviced by another cellular provider).

Neither of these patents are currently asserted in litigation.

3.1 *U.S. Patent No. 8,630,234*, issued January 14, 2014, generally relates to, among other things, a method of roaming with a mobile phone. For example, the mobile phone could receive an access code reply message from the access server that includes a temporary access code allowing the mobile phone to initiate a call to the callee using the access code. In this example, because the call is “local”, the mobile phone can avoid incurring long-distance roaming charges.

3.2 *Canadian Patent No. 2,732,148*, issued April 25, 2018, is directed to, among other things, subject-matter similar to the counterpart U.S. patent (*see* description above).

4. Emergency assistance calling

U.S. Pat. Nos. 8,537,805 and 9,565,307 generally relate to emergency assistance calling and are applicable, for example, to certain E911 scenarios.

None of these patents are currently asserted in litigation.

4.1 U.S. Patent No. 8,537,805, issued September 17, 2013, relates to, among other things, handling emergency calls from a caller in a voice over IP (VoIP) system. The '805 Patent could apply, for example, when a routing request message is received and the contents of an emergency call identifier field of a profile match the callee identifier. In this example, if the caller identifier is not associated with a pre-associated identifier, a temporary identifier is associated with the caller. When the emergency call flag is active, for example, a routing message establishes a route between the caller and an emergency response center, the routing message including an emergency response center identifier from a profile associated with the caller and the DID identifier associated with the caller.

4.2 U.S. Patent No. 9,565,307, issued February 7, 2017, relates to, among other things, routing emergency communications. The '307 Patent could apply, for example, when a routing request includes the caller identifier and the callee identifier, and where the caller identifier identifies a profile associated with the caller that includes an emergency call identifier (e.g., "911") and an emergency response center identifier. In this example, when the callee identifier matches the emergency call identifier, a routing message establishes the call, the routing message having a first portion including the emergency response center identifier and a second portion, which portion may include either a temporary or pre-assigned identifier associated with the caller, for example.

5. Allocating charges

U.S. Patent Nos. 8,774,378 and 9,998,363 both generally relate to allocating charges for communication services.

None of these patents are currently asserted in litigation.

5.1 U.S. Patent No. 8,774,378, issued July 8, 2014, could apply, for example, to scenarios where a communication system operator and a reseller of communication services allocate charges incurred by a user. In this example, the process for attributing charges may involve determining a user cost based on a chargeable time and free time associated with the user, where the chargeable time is based on communication session time and a pre-defined billing pattern—then account balances for the user, reseller and system operator are updated accordingly.

5.2 *U.S. Patent No. 9,998,363*, issued June 12, 2018, relates to, among other things, attributing charges for communications services provided in a communications system for a communication session between a user's device and a destination device.

6. Determining a time for permitting a communication session

6.1 *U.S. Patent No. 9,137,385*, issued September 15, 2015, generally relates to, among other things, determining a time for permitting a communication session to be conducted (e.g., a time-to-live or TTL). This patent has not been asserted in litigation.

6.2 *Canadian App. No. 2,916,217*, which also relates to determining a time for permitting a communication session to be conducted (e.g., a time-to-live or TTL), received an indication of allowance August 27, 2018.

7. Uninterrupted transmission during endpoint changes

U.S. Patent Nos. 8,675,566; 9,154,417; 10,021,729; European Patent No. 2478678; and Canadian Patent No. 2812174 all generally relate to, among other things, uninterrupted transmission during endpoint changes (e.g., station handoffs).

None of these patents are currently asserted in litigation.

7.1 *U.S. Patent No. 8,675,566*, issued March 18, 2014, generally relates to, among other things, uninterrupted transmission of internet protocol (IP) transmissions during endpoint changes.

7.2 *U.S. Patent No. 9,154,417*, issued October 6, 2015, generally relates to, among other things, uninterrupted transmission, where in response to an IP transmission at a media relay, a session information record is processed in a certain manner.

7.3 *U.S. Patent No. 10,021,729*, issued July 10, 2018, generally relates to, among other things, facilitating an uninterrupted internet protocol (IP) communication session, involving internet protocol transmissions between a first entity and a second entity, during endpoint changes.

7.4 *European Patent No. 2478678* and *Canadian Patent No. 2812174* relate to subject matter similar to the aforesaid U.S. patents (*see* above descriptions).

NOTE BENE: While the above generalized descriptions of the Company's patents have been provided for convenience, they are provided merely as a rough guide and are not intended to fully characterize the scope of the Company's legal rights. Reviewers are therefore advised to conduct their own legal analysis of the Company's patents and not merely to rely on the above cursory descriptions.

Amount Spent on Research and Development

For the two years ended September 30, 2018, the Company has incurred no research and development expenses.

Employees

We have one full time employee. The Company utilizes various consultants and contractors for other services.

Emerging Growth Company Status

We are an “emerging growth company” as that term is used in the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”) and, as such, have elected to comply with certain reduced public company reporting requirements for future filings.

In April 2012, the Jumpstart Our Business Startups Act (“JOBS Act”) was enacted into law. The JOBS Act provides, among other things:

- Exemptions for “emerging growth companies” from certain financial disclosure and governance requirements for up to five years and provides a new form of financing to small companies;

Amendments to certain provisions of the federal securities laws to simplify the sale of securities and increase the threshold number of record holders required to trigger the reporting requirements of the Securities Exchange Act of 1934, as amended;

- Relaxation of the general solicitation and general advertising prohibition for Rule 506 offerings;
- Adoption of a new exemption for public offerings of securities in amounts not exceeding \$50 million; and

–

Exemption from registration by a non-reporting company of offers and sales of securities of up to \$1,000,000 that comply with rules to be adopted by the SEC pursuant to Section 4(6) of the Securities Act and exemption of such sales from state law registration, documentation or offering requirements.

In general, under the JOBS Act a company is an “emerging growth company” if its initial public offering (“IPO”) of common equity securities was effected after December 8, 2011 and the company had less than \$1 billion of total annual gross revenues during its last completed fiscal year. We will retain “emerging growth company” status until the earliest of:

- (i) the completion of the fiscal year in which the company has total annual gross revenues of \$1 billion or more,
- (ii) the completion of the fiscal year of the fifth anniversary of the company’s IPO;
- (iii) the company’s issuance of more than \$1 billion in nonconvertible debt in the prior three-year period, or
- (iv) the company becoming a “larger accelerated filer” as defined under the Securities Exchange Act of 1934, as amended.

The JOBS Act provides additional new guidelines and exemptions for non-reporting companies and for non-public offerings. Those exemptions that impact the Company are discussed below.

Financial Disclosure. The financial disclosure in a registration statement filed by an “emerging growth company” pursuant to the Securities Act of 1933, as amended, will differ from registration statements filed by other companies as follows:

- (i) audited financial statements required for only two fiscal years (provided that “smaller reporting companies” such as the Company are only required to provide two years of financial statements);
- (ii) selected financial data required for only the fiscal years that were audited (provided that “smaller reporting companies” such as the Company are not required to provide selected financial data as required by Item 301 of Regulation S-K); and
- (iii) executive compensation only needs to be presented in the limited format now required for “smaller reporting companies”

However, the requirements for financial disclosure provided by Regulation S-K promulgated by the Rules and Regulations of the SEC already provide certain of these exemptions for smaller reporting companies. The Company is

a smaller reporting company. Currently a smaller reporting company is not required to file as part of its registration statement selected financial data and only needs to include audited financial statements for its two most current fiscal years with no required tabular disclosure of contractual obligations.

The JOBS Act also exempts the Company's independent registered public accounting firm from having to comply with any rules adopted by the Public Company Accounting Oversight Board ("PCAOB") after the date of the JOBS Act's enactment, except as otherwise required by SEC rule.

The JOBS Act further exempts an “emerging growth company” from any requirement adopted by the PCAOB for mandatory rotation of the Company’s accounting firm or for a supplemental auditor report about the audit.

Internal Control Attestation. The JOBS Act also provides an exemption from the requirement of the Company’s independent registered public accounting firm to file a report on the Company’s internal control over financial reporting, although management of the Company is still required to file its report on the adequacy of the Company’s internal control over financial reporting. Section 102(a) of the JOBS Act exempts “emerging growth companies” from the requirements in §14A(e) of the Securities Exchange Act of 1934 for companies with a class of securities registered under the Securities Exchange Act of 1934, as amended, to hold shareholder votes for executive compensation and golden parachutes.

Other Items of the JOBS Act. The JOBS Act also provides that an “emerging growth company” can communicate with potential investors that are qualified institutional buyers or institutions that are accredited to determine interest in a contemplated offering either prior to or after the date of filing the respective registration statement. The JOBS Act also permits research reports by a broker or dealer about an “emerging growth company” regardless of whether such report provides sufficient information for an investment decision. In addition, the JOBS Act precludes the SEC and FINRA from adopting certain restrictive rules or regulations regarding brokers, dealers and potential investors, communications with management and distribution of research reports on the “emerging growth company’s” IPOs.

Section 106 of the JOBS Act permits “emerging growth companies” to submit registration statements under the Securities Act of 1933, as amended, on a confidential basis provided that the registration statement and all amendments thereto are publicly filed at least 21 days before the issuer conducts any road show. This is intended to allow “emerging growth companies” to explore the IPO option without disclosing to the market the fact that it is seeking to go public or disclosing the information contained in its registration statement until the company is ready to conduct a roadshow.

Election to Opt Out of Transition Period. Section 102(b)(1) of the JOBS Act exempts “emerging growth companies” from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act of 1933, as amended, registration statement declared effective or do not have a class of securities registered under the Securities Exchange Act of 1934, as amended) are required to comply with the new or revised financial accounting standard.

The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of the transition period. This may make comparison of the Company’s financial statements with any other public company which is not either an “emerging growth company” nor an “emerging growth company” which has opted out of using the extended transition period difficult or impossible as possible different or

revised standards may be used.

For so long as we remain an “emerging growth company” as defined in the JOBS Act, we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” as described above. We cannot predict if investors will find our common stock less attractive because we will rely on some or all of these exemptions. If some investors find our common stock less attractive as a result, there may be a less active trading market for our common stock and our stock price may be more volatile. If we avail ourselves of certain exemptions from various reporting requirements, as is currently our plan, our reduced disclosure may make it more difficult for investors and securities analysts to evaluate us and may result in less investor confidence.

Item 1A. Risk Factors.

The company qualifies as a smaller reporting company and is not required to provide the information required by this Item.

Item 2. Properties.

The Company does not lease any properties or facilities, other than the office space leased for administrative purposes through Regus Management Group LLC.

Item 3. Legal Proceedings.

The Company is party to the following legal proceedings:

Locksmith Financial Corporation, Inc. et al. v Voip-Pal.com Inc. (Case No A-15-717491-C) filed in Clark County District Court (the “State Case”). On March 24, 2014, the Company resolved to freeze 95,832,000 common shares that were issued to a company controlled by a former director (the “defendant”) in fiscal 2013 and accounted for at a cost of \$1,443,000. The Company resolved to freeze the common shares as the Company believes that the shares were issued as settlement of a line of credit that the Company believes to have been legally unsupported. The defendant alleges that the freeze and the Company’s actions constituted fraud and a breach of securities laws. The Company denies any wrongdoing. Currently the State Case is entering the discovery phase of litigation and the outcome is undeterminable.

Voip-Pal.com Inc. v Richard Kipping, et al. (Case No. 2:15-cv-01258-JAD-VCF) filed in United States District Court (the “Federal Case”). On July 2, 2015, the Company filed a case against a former director, a shareholder and the company controlled by a former director. The Company alleges that the common shares issued in the State Case and an additional 7,200,000 common shares were fraudulently obtained and that the shares have been unlawfully transferred to other entities. The proceedings in the Federal Case have been stayed pending a final determination of the issues in the State Case. The outcome of this case is undeterminable.

Voip-Pal.com Inc. v Apple, Inc. (Case No. 2:16-CV-00260) & Verizon Wireless Services, LLC, Verizon Communications Inc., AT&T Corp. (Case No. 2:16- VC-00271) in the United States District Court, District of Nevada. In February, 2016 the Company filed patent infringement lawsuits in the United States District Court, District of Nevada against Apple, Inc. (Case No. 2:16-CV-00260), Verizon Wireless Services, LLC, Verizon Communications Inc., and AT&T Corp. (Case No. 2:16- VC-00271). These cases are seeking a combined \$7,024,377,876 in damages. On May 9, 2016, the lawsuits were officially served to these companies. The outcome of the cases is undeterminable. The proceedings in these cases were temporarily stayed, by agreement with the parties thereto, pending the resolution of several *Inter Partes* Reviews (“IPRs”), as described in the following section *Inter Partes Reviews*, and the cases were subsequently transferred to the U.S. District Court for the Northern District of California. The outcome of each of these legal actions is undeterminable.

Voip-Pal.com Inc. v Twitter, Inc. (Case No. 2:16-CV-02338) in the United States District Court, District of Nevada. Subsequent to the year ended September 30, 2016, on October 6, 2016, the Company filed a lawsuit in the United States District Court, District of Nevada against Twitter, Inc. (Case No. 2:16- CV-02338) in which Voip-Pal.com alleges infringement of U.S. Patent No. 8,542,815 and its continuation patent, U.S. Patent No. 9,179,005. This case is seeking \$3,200,000 in damages. On December 28, 2016, the lawsuit was officially served to Twitter, Inc. On February 28, 2018, Twitter filed a motion to transfer its case based on improper venue and the case was subsequently transferred to the U.S. District Court for the Northern District of California, where it remains pending. The outcome of this case is undeterminable.

Voip-Pal.com Inc. v. Amazon.com, Inc. et al. (Case No. 2:18-CV-01076) in the United States District Court, District of Nevada. During the year ended September 30, 2018, in June 2018, the Company filed a lawsuit in the United States District Court, District of Nevada, against Amazon.com, Inc. and certain related entities, alleging infringement of U.S. Patent Nos. 9,537,762, 9,813,330, 9,826,002 and 9,948,549. In November 2018, the case was transferred to the U.S. District Court for the Northern District of California, where it remains pending. The outcome of this case is undeterminable.

Inter Partes Reviews

In other legal actions related to Case No. 2:16-CV-00260 and Case No. 2:16- VC-00271 above, two of the Company’s patents are currently subject to several *Inter Partes* Review (“IPR”) petitions filed before the Patent Trial and Appeal Board (“PTAB”) of the United States Patent and Trademark Office (“USPTO”). An IPR is a post-grant patent review process allowing the PTAB to consider the validity of issued patents. There are no damages awarded, but a portion or all of a patent’s claims instituted for IPR may be invalidated as a result of the review.

More particularly, during the year ended September 30, 2018, a total of eight IPRs filed against Patent No. 8,542,815 and No. 9,179,005, were either in process before the PTAB or had been resolved, as follows:

Unified Patents Inc. (Petitioner) vs. Voip-Pal.com Inc. (Patent Owner) IPR2016-01082, filed May 24, 2016, requesting *inter partes* review of US Patent No. 8,542,815. On November 18, 2016, the PTAB denied institution of this petition;

Apple, Inc. (Petitioner) vs. Voip-Pal.com Inc. (Patent Owner) IPR2016-01198, reviewing Patent No. 9,179,005 and Voip-Pal.com Inc. (Patent Owner) IPR2016-01201, reviewing Patent No. 8,542,815, both instituted for IPR on November 21, 2016;

AT&T Inc. (Petitioner) filed IPR2017-01382 against Voip-Pal's Patent No. 8,542,815, IPR2017-01383 against Voip-Pal's Patent No. 9,179,005, and IPR2017-01384 against Voip-Pal's Patent No. 9,179,005 on May 8, 2017, each of which was subsequently denied institution; and

Apple Inc. (Petitioner) filed IPR2017-01399 against Voip-Pal's Patent No. 8,542,815, and IPR2017-01398 against Voip-Pal's Patent No. 9,179,005, which were also both instituted for IPR by the PTAB on May 8, 2017.

During the year ended September 30, 2018, the PTAB considered the aforesaid IPRs, and on November 20, 2017, the PTAB issued its findings on the seven active IPRs being adjudicated, denying institution of the IPRs with respect to all claims challenged by the Petitioners (Apple Inc, and AT&T Inc.). Subsequent to that ruling, in December 2017, Apple filed a post-judgment motion in IPR2016-01198 and IPR2016-01201, seeking invalidation of the challenged claims as sanctions against the Company.

Subsequent to the year ended September 30, 2018, on December 21, 2018, a new panel of the PTAB ruled on Apple's sanctions motion, declining to grant Apple's request to invalidate the challenged claims and declining to grant Apple's request for entirely new proceedings to replace the existing panel of judges with a new panel or with judges that would consider any request for rehearing by Apple as a sanction against VoIP-Pal. If Apple chooses to file a motion for rehearing, the outcome of the Petitioner's motion is undeterminable.

PART II

Item 5. **Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

Market

Our common stock is quoted on the OTCQB with the OTC Markets Group, Inc. under the symbol "VPLM". The OTCQB is an inter-dealer quotation and trading system where market makers apply to quote securities. Accordingly, the OTCQB is not considered a market, and there is, therefore, no public market for our Common Stock.

Holders

We had approximately 459 holders of record of our common stock as of September 30, 2018 according to the books of our transfer agent. The number of our stockholders of record excludes any estimate by us of the number of beneficial owners of shares held in street name, the accuracy of which cannot be guaranteed.

Dividends

We have not declared a dividend on our common stock, and we do not anticipate the payment of dividends in the near future as we intend to reinvest our profits to grow our business. There are no restrictions in our articles of incorporation or bylaws that restrict us from declaring dividends. The Nevada Revised Statutes, however, does prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

we would not be able to pay our debts as they become due in the usual course of business; or

our total assets would be less than the sum of our total liabilities, plus the amount that would be needed to satisfy the rights of shareholders who have preferential rights superior to those receiving the distribution

Securities Authorized for Issuance Under Equity Compensation Plans

In order to provide incentive to its directors, officers, management, employees, consultants and others who provide services to the Company or any subsidiary (the “Service Providers”) to act in the best interests of the Company, and to retain such Service Providers, the Company has in place an incentive Stock Option Plan (the “Plan”). Under the Plan, the Company is authorized to issue up to 10% of its issued and outstanding share capital in options to purchase common shares of the Company. The maximum term of options granted under the Plan cannot exceed ten years, with vesting terms determined at the discretion of the Board of Directors.

During the year ended September 30, 2018, the Company granted options under the Plan to several of its consultants to purchase 18,500,000 common shares in the capital stock of the Company at an exercise price of \$0.18 per common share for a period of five years from the date of grant. These 18,500,000 options were later cancelled during the year.

As at September 30, 2018, the Company has 39,850,000 stock options outstanding at an average exercise price of \$0.056 per share, with a remaining contractual life of an average of 2.01 years, of which 39,350,000 are vested and exercisable.

Recent Sales of Unregistered Securities

The transactions described in this section were exempt from securities registration as provided by Section 4(a)(2) of the Securities Act for transactions not involving a public offering.

Securities Issued for Services Rendered

During the year ended September 30, 2015, the Company issued 7,126,868 shares of common stock at prices between \$0.05 and \$0.06 per share to various individuals or entities for services rendered.

During the year ended September 30, 2016, the Company issued 16,357,500 shares of common stock at prices between \$0.03 and \$0.05 per share to various individuals or entities for services rendered.

During the year ended September 30, 2017, the Company issued 12,084,167 shares of common stock at prices between \$0.025 and \$0.05 per common share to various individuals or entities for services valued at \$331,901. 900,000 shares of this common stock priced at \$0.05 per share were cancelled during the year.

Edgar Filing: Voip-pal.com Inc - Form 10-K

During the year ended September 30, 2018, the Company issued 104,313,833 shares of common stock at prices between \$0.02 and \$0.06 per share to various individuals or entities for services valued at \$4,461,789.

Securities Issued for Convertible Debt or in Settlement of Debt

During the year ended September 30, 2015, the Company issued 26,030,930 shares of common stock at prices between \$0.05 and \$0.08 per share to various individuals or entities to settle \$1,293,183 of convertible debt.

During the year ended September 30, 2016, the Company issued 8,873,333 shares of common stock priced between \$0.03 and \$0.05 per share to various individuals or entities to settle \$326,000 of convertible debt.

During the year ended September 30, 2016, the Company issued 10,000,000 shares of common stock at \$0.05 per share to a director of the Company in settlement of \$500,000 of an account payable.

During the year ended September 30, 2017, the Company issued 1,400,000 shares of common stock at prices between \$0.025 and \$0.03 per common share to convert \$32,500 of convertible debt.

During the year ended September 30, 2018, the Company issued 174,983,685 shares of common stock at a price of \$0.038 per share pursuant to the anti-dilution clause of the Digifonica share purchase agreement dated June 25, 2013 for an aggregate value of \$6,684,377.

Securities Issued for Cash Proceeds

During the year ended September 30, 2016, the Company issued 10,458,333 shares of common stock at \$0.04 per share to various individuals or entities for cash proceeds of \$381,000 from private placements.

During the year ended September 30, 2017, the Company issued:

- 11,566,666 shares of common stock at prices between \$0.02 and \$0.03 per common share to various individuals or entities for cash proceeds of \$340,000 from private placements; and

61,500,500 units of common stock at between \$0.02 and \$0.025 per unit to various individuals or entities for cash proceeds of \$1,250,010. Each unit consists of one common share and one common share purchase warrant. Each common share purchase warrant allows the holder to purchase one common share for \$0.04 or \$0.05 for a period of twelve months from the date of issuance.

During the year ended September 30, 2018, the Company issued:

108,147,749 shares of common stock at prices between \$0.015 and \$0.06 per common share to various individuals or entities for cash proceeds of \$3,343,940 from the private placement of common shares;

6,306,000 units at prices between \$0.0125 and \$0.02 per unit to various individuals or entities for cash proceeds of \$98,120 from the private placement of units of the Company's common stock. Each unit consists of one common share and one common share purchase warrant. Each common share purchase warrant allows the holder to purchase one common share for \$0.04 for a period of twelve months from the date of issuance; and

50,125,000 common shares at \$0.04 per common share to various individuals or entities for cash proceeds of \$2,005,000 on the exercise of 50,125,000 common share purchase warrants.

Item 6. Selected Financial Data.

As a smaller reporting company, we are not required to provide the information required by this Item.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following management's discussion and analysis (MD&A) should be read in conjunction with our audited consolidated financial statements for the year ended September 30, 2018 and notes thereto.

This MD&A for the year ending September 30, 2018 contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amending, and Section 21E of the Securities Exchange Act of 1934, as amending. Forward-looking statements may be identified by the use of forward-looking terminology, such as "may", "shall", "could", "expect", "estimate", "anticipate", "predict", "probable", "possible", "should", "continue", or similar terms, or the negative of those terms. The forward-looking statements specified in the following information have been compiled by our management on the basis of assumptions made by management and are considered by management to be reasonable. Our future operating results, however, are impossible to predict and no representation, guaranty, or warranty is to be inferred from those forward-looking statements.

The assumptions used for purposes of the forward-looking statements specified in the following information represent estimates of future events and are subject to uncertainty as to possible changes in economic, legislative, industry, and other circumstances. As a result, the identification and interpretation of data and other information and their use in developing and selecting assumptions from and among reasonable alternatives require the exercise of judgment. To the extent that the assumed events do not occur, the outcome may vary substantially from anticipated or projected results, and, accordingly, no opinion is expressed on the achievability of those forward-looking statements. No assurance can be given that any of the assumptions relating to the forward-looking statements specified in the following information are accurate, and we assume no obligation to update any such forward-looking statements

Overview

VOIP-PAL.com Inc. (“Voip-Pal”, the “Company”) was incorporated in the state of Nevada in September 1997 as All American Casting International, Inc. and changed its name to VOIP MDI.com in 2004 and subsequently to Voip-Pal.Com Inc. in 2006. Since March 2004, the Company has been in the development stage of becoming a VoIP re-seller, a provider of a proprietary transactional billing platform tailored to the points and air mile business, and a provider of anti-virus applications for smartphones. All business activities prior to March 2004 have been abandoned and written off to deficit.

In 2013, Voip-Pal acquired Digifonica International (DIL) Limited (“Digifonica”), to fund and co-develop Digifonica’s patent suite. Digifonica had been founded in 2003 with the vision that the internet would be the future of all forms of telecommunications - a team of twenty top engineers with expertise in Linux and Internet telephony developed and wrote a software suite with applications that provided solutions for several core areas of internet connectivity. In order to properly test the applications, Digifonica built and operated three production nodes in Vancouver, Canada (Peer 1), London, UK (Teliasonera), and Denmark. Upon successfully developing the technology, Digifonica filed for patents with the United States Patent and Trademark Office (“USPTO”).

The Digifonica patents formed the basis for Voip-Pal’s current intellectual property, now a worldwide portfolio of twenty-six issued and pending patents primarily designed for the broadband VoIP market.

Voip-Pal’s intellectual property value is derived from its issued and pending patents. Voip-Pal inventions described in these patents, among other things, provide the means to integrate VoIP services with legacy telecommunications systems such as the public switched telephone network (PSTN) to create a seamless service using either legacy telephone numbers or IP addresses, and enhance the performance and value of VoIP implementations worldwide.

VoIP has been and continues to be a green field for innovation that has spawned numerous inventions, greatly benefitting consumers large and small across the globe. VoIP is used in many places and by every modern telephony system vendor, network supplier, and retail and wholesale carrier.

Liquidity and capital resources

As of September 30, 2018, the Company had an accumulated deficit of \$42,648,364 as compared to an accumulated deficit of 34,246,816 at September 30, 2017. As of September 30, 2018, the Company had a working capital surplus of \$3,386,340 as compared to a working capital deficit of \$192,375 at September 30, 2017. The increase in the Company's working capital of \$3,386,340 was primarily due to an increase in cash on hand resulting from increased cash receipts from financing completed during the year ending September 30, 2018 as compared to the prior year.

Net cash used by operations for the years ending September 30, 2018 and 2017 was \$2,243,694 and \$1,731,468, respectively. The increase in net cash used for operations for the year ending September 30, 2018 as compared to the year ending September 30, 2017 was primarily due to cash expenditures for patent-related professional fees, services and legal costs for the year ending September 30, 2018.

Net cash used in investing activities for the years ending September 30, 2018 and 2017 was \$(Nil) and \$(Nil). Net cash provided in financing activities for the year ending September 30, 2018 and 2017 was \$5,407,060 and \$1,622,510, respectively. The increase in net cash provided by financing activities of \$5,407,060 was primarily due to an increase in proceeds from private placement of common shares and exercise of warrants during the year ending September 30, 2018.

Liquidity

The Company primarily finances its operations from cash received through the issuance of common stock and the exercise of warrants to investors and through the payment of stock-based compensation. The Company believes its resources are adequate to fund its operations for the next twelve months.

Results of operations

The Company's operating costs consist of expenses incurred to monetizing, selling and licensing its VoIP patents. Other operating costs include expenses for legal, accounting and other professional fees, financing costs, and other general and administrative expenses.

Comparison of Years Ending September 30, 2018 and 2017

	Years ending September 30		Increase / (Decrease)	Percent
	2018	2017		
Revenue	\$—	\$—	\$—	—
Cost of Revenue	—	—	—	—
Gross Margin	—	—	—	—
General and administrative expenses	(8,263,348)	(2,472,482)	5,790,866	234 %
Amortization of intangible assets	(138,200)	(138,191)	9	0.01 %
Net loss	\$(8,401,548)	\$(2,610,673)	\$5,790,877	222 %

Revenues, Cost of Revenues and Gross Margin

The Company had no revenues, cost of revenues or gross margin for the years ending September 30, 2018 and 2017.

General and Administrative Expenses

General and administrative expenses for the year ending September 30, 2018 totaled \$8,263,348 compared to \$2,472,482 during the same period in 2017. The increase in general and administrative expenses of 5,790,866, or 234% more than the previous year, was primarily due to an increase in patent-related professional fees, services, legal costs and stock-based compensation.

Amortization of Intangible Assets

Amortization of intellectual VoIP communications patent properties for the year ending September 30, 2018 totaled \$138,200 compared to \$138,191 during the same period in 2017. There was no material change in the amortization expenses for the current year as compared to the prior year.

The Company follows GAAP (FAS 142) and is amortizing its intangibles over the remaining patent life of approximately eleven (11) years. The Company evaluates its intangible assets annually and determines if the fair market value is less than its historical cost. If the fair market value is less, then impairment expense is recorded on the Company's financial statements. The intangible assets on the financial statements of the Company relate primarily to the Company's acquisition of Digifonica (International) Limited.

Interest Expense

The Company had no interest costs for the years ending September 30, 2018 and 2017.

Net Loss

The Company reported a net loss of \$8,401,548 for the year ending September 30, 2018 compared to a net loss of \$2,610,673 for the same period in 2017. The net loss increase of \$5,790,877, or 222% over the same period in 2017 was due primarily to an increase in the amount of patent-related related professional fees, services, legal costs and stock based compensation.

Off-Balance Sheet Arrangements

During the year ended September 30, 2016, in February 2016, the board of directors authorized the Company to provide a performance bonus (the "Performance Bonus") of up to 3% of the capital stock of the Company by way of the issuance of Common shares from its treasury to an as yet undetermined group of related and non-related parties upon the occurrence of a bonusable event, defined as the successful completion of a sale of the Company or substantially all its assets, or a major licensing transaction. In order to provide maximum flexibility to the Company with respect to determining what constitutes such a bonus able event, the level of Performance Bonus payable, and who may qualify to receive a pro-rata share of such a Performance Bonus, the Company authorized full discretion to the Board in making such determinations.

During the year ended September 30, 2018, the board of directors authorized the increase of the Performance Bonus to up to 10% of the capital stock of the Company.

As at September 30, 2018, no bonusable event had occurred and there was no Performance Bonus payable.

Subsequent to the year ended September 30, 2018, the board of directors resolved to reduce the Performance Bonus from 10% to 3.33% of the issued and outstanding capital stock of the Company. Concurrently, the board of directors authorized the payment of Common shares ("Bonus Shares") in an equivalent percentage to the 6.67% reduction to the Performance Bonus to a group of related and non-related parties, which included members of management, a director and several consultants, who received an aggregate 127,000,000 Bonus Shares. The Bonus Shares are restricted from trading under Rule 144 and are also subject to voluntary lock-up agreements, pursuant to which they cannot be traded, pledged, hypothecated, transferred or sold by the holders until such time as the Company has met the requirements of the bonusable event as described above.

There are no other off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Impact of Inflation

We believe that inflation has not had a material impact on our results of operations for the year ending September 30, 2018. We cannot assure you that future inflation will not have an adverse impact on our operating results and financial condition.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

As a smaller reporting company we are not required to provide the information required by this Item.

Item 8. Financial Statements and Supplementary Data.

<u>NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS</u>	21

Report of Independent Registered Public Accounting Firm

To the Shareholders and Directors of

Voip-Pal.com Inc.

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Voip-Pal.com Inc. (the “Company”), as of September 30, 2018 and 2017, and the related consolidated statements of loss and comprehensive loss, changes in cash flows and stockholders’ equity for the years ended September 30, 2018 and 2017, and the related notes (collectively referred to as the “financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Voip-Pal.com Inc. as of September 30, 2018 and 2017, and the results of its operations and its cash flows for the years ended September 30, 2018 and 2017, in conformity with accounting principles generally accepted in the United States of America.

Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty

Basis for Opinion

These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are

required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatements of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Company's auditor since 2015.

The accompanying notes are an integral part of these consolidated financial statements

NOTE 1. NATURE AND CONTINUANCE OF OPERATIONS

VOIP-PAL.com, Inc. (the “Company”) was incorporated in the state of Nevada in September, 1997 as All American Casting International, Inc. The Company’s registered office is located at 10900 NE 4th Street, Suite 2300, Bellevue, Washington in the United States of America.

Since March 2004, the Company has developed technology and patents related to Voice-over-Internet Protocol (VoIP) processes. All business activities prior to March 2004 have been abandoned and written off to deficit.

In December 2013, the Company completed the acquisition of Digifonica (International) Limited, a private company controlled by the CEO of the Company, whose assets included several patents and technology developed for the VoIP market.

These consolidated financial statements have been prepared on the basis of a going concern, which contemplates the realization of assets and discharge of liabilities in the normal course of business. The Company is in various stages of product development and continues to incur losses and, at September 30, 2018, had an accumulated deficit of \$42,648,364 (September 30, 2017 - \$34,246,816). The ability of the Company to continue operations as a going concern is dependent upon raising additional working capital, settling outstanding debts and generating profitable operations. These material uncertainties raise substantial doubt about the Company’s ability to continue as a going concern. Should the going concern assumption not continue to be appropriate, further adjustments to carrying values of assets and liabilities may be required. There can be no assurance that capital will be available as necessary to meet these continued developments and operating costs or, if the capital is available, that it will be on the terms acceptable to the Company. The issuances of additional stock by the Company may result in a significant dilution in the equity interests of its current shareholders. Obtaining commercial loans, assuming those loans would be available, will increase the Company’s liabilities and future cash commitments. If the Company is unable to obtain financing in the amounts and on terms deemed acceptable, its business and future success may be adversely affected.

Additionally, as the Company’s stated objective is to monetize its patent suite through the licensing or sale of its intellectual property (“IP”), the Company being forced to litigate or to defend its IP claims through litigation casts substantial doubt on its future to continue as a going concern. IP litigation is generally a costly process, and in the absence of revenue the Company must raise capital to continue its own defense and to validate its claims – in the event of a failure to defend its patent claims, either because of lack of funding, a court ruling against the Company or because of a protracted litigation process, there can be no assurance that the Company will be able to raise additional capital to pay for an appeals process or a lengthy trial. The outcome of any litigation process may have a significant adverse effect on the Company’s ability to continue as a going concern.

NOTE 2.BASIS OF PRESENTATION

The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP").

NOTE 3.SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

These consolidated financial statements have been prepared on a consolidated basis and include the accounts of the Company and its wholly owned subsidiary Digifonica. All intercompany transactions and balances have been eliminated. As at September 30, 2018, Digifonica had no activities.

Use of Estimates

The preparation of these consolidated financial statements required management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates. Where estimates have been used financial results as determined by actual events could differ from those estimates.

Cash

Cash consists of cash on hand and monies held in checking and savings accounts. The Company had \$3,175,523 and \$12,157 in cash on September 30, 2018 and September 30, 2017, respectively.

NOTE 3.SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Intangible Assets

Intangible assets, consisting of VoIP communication patent intellectual properties (IP) are recorded at cost and amortized over the assets estimated life on a straight-line basis. Management considers factors such as remaining life of the patents, technological usefulness and other factors in estimating the life of the assets.

The carrying value of intangible assets are reviewed for impairment by management of the Company at least annually or upon the occurrence of an event which may indicate that the carrying amount may be less than its fair value. If impaired, the Company will write-down such impairment. In addition, the useful life of the intangible assets will be evaluated by management at least annually or upon the occurrence of an event which may indicate that the useful life may have changed.

Fair Value of Financial Instruments

FASB ASC 820, Fair Value Measurement, defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

The Company classifies financial assets and liabilities as held-for-trading, available-for-sale, held-to-maturity, loans and receivables or other financial liabilities depending on their nature. Financial assets and financial liabilities are recognized at fair value on their initial recognition, except for those arising from certain related party transactions which are accounted for at the transferor's carrying amount or exchange amount.

Financial assets and liabilities classified as held-for-trading are measured at fair value, with gains and losses recognized in net income. Financial assets classified as held-to-maturity, loans and receivables, and financial liabilities other than those classified as held-for-trading are measured at amortized cost, using the effective interest method of amortization. Financial assets classified as available-for-sale are measured at fair value, with unrealized gains and losses being recognized as other comprehensive income until realized, or if an unrealized loss is considered other than temporary, the unrealized loss is recorded in income.

U.S. GAAP establishes a framework for measuring fair value under generally accepted accounting principles and enhances disclosures about fair value measurements. Fair value is defined as the amount that would be received for an asset or paid to transfer a liability (i.e., an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value maximize the use of observable inputs and minimize the use of unobservable inputs. The standard describes the following fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets and liabilities.

Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value of cash is classified as Level 1 at September 30, 2018 and September 30, 2017.

The Company classifies its financial instruments as follows: Cash is classified as held for trading, and is measured at fair value. Accounts payable and accrued expenses are classified as other financial liabilities, and have a fair value approximating their carrying value, due to their short-term nature.

Income Taxes

Deferred income taxes have been provided for temporary differences between financial statement and income tax reporting under the asset and liability method, using expected tax rates and laws that are expected to be in effect when the differences are expected to reverse. A valuation allowance is provided when realization is not considered more likely than not.

The Company's policy is to classify income tax assessments, if any, for interest expense and for penalties in general and administrative expenses. The Company's income tax returns are subject to examination by the IRS and corresponding states, generally for three years after they are filed.

NOTE 3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Loss per Common Share

Basic loss per share is calculated using the weighted-average number of common shares outstanding during each period. Diluted income per share includes potentially dilutive securities such as outstanding options and warrants outstanding during each period. To calculate diluted loss per share the Company uses the treasury stock method and the If-converted method.

For the years ended September 30, 2018 and 2017 there were no potentially dilutive securities included in the calculation of weighted-average common shares outstanding.

Derivatives

We account for derivatives pursuant to ASC 815, *Accounting for Derivative Instruments and Hedging Activities*. All derivative instruments are recognized in the consolidated financial statements and measured at fair value regardless of the purpose or intent for holding them. We determine fair value of warrants and other option type instruments based on option pricing models. The changes in fair value of these instruments are recorded in income or expense.

Stock-based compensation

The Company recognizes compensation expense for all stock-based payments made to employees, directors and others based on the estimated fair values of its common stock on the date of issuance.

The Company determines the fair value of the share-based compensation payments granted as either the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. If the fair value of the equity instruments issued is used, it is measured using the stock price and other measurement assumptions as of the earlier of either the date at which a commitment for performance to earn the equity instrument is reached or the date the performance is complete.

The Company recognizes compensation expense for stock awards with service conditions on a straight-line basis over the requisite service period, which is included in operations. Stock option expense is recognized over the option's vesting period.

Concentrations of Credit Risk

The Company maintains cash at financial institutions, which at times, may be in excess of insured limits. The Company has not experienced any losses to date as a result of this policy and, in assessing its risk, the Company's policy is to maintain cash only with reputable financial institutions. As of September 30, 2018, the Company's bank operating account balances exceeded the Federal Deposit Insurance Corporation Insurance Limit of \$250,000 by \$2,925,523.

Recent Accounting Pronouncements

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes ("ASU 2015-17"). ASU 2015-17 requires companies to classify all deferred tax assets or liabilities as noncurrent on the balance sheet rather than separately disclosing deferred taxes as current and noncurrent. This standard is effective for the Company beginning on October 1, 2017 and can be applied either prospectively or retrospectively to all periods presented upon adoption. The standard did not have any impact on the Company's financial statements.

In January 2016, FASB issued ASU 2016-01 to amend certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. Most prominent among the amendments is the requirement for changes in fair value of equity investments, with certain exceptions, to be recognized through profit or loss rather than other comprehensive income. The new standard will be effective for the Company beginning October 1, 2018. The standard is not expected to have any impact on the Company's financial statements.

In February 2016 FASB issued ASU No. 2016-02, Leases (Topic 842) which supersedes FASB ASC Topic 840, Leases (Topic 840) and provides principles for the recognition, measurement, presentation, and disclosure of leases for both lessees and the lessors. The new standard requires the lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. The classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease, respectively. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than twelve months regardless of classification. Leases with a term of twelve months or less will be accounted for similar to existing guidance for operating leases. The standard is effective for annual and interim periods beginning after December 15, 2018, with early adoption permitted upon issuance. When adopted, the Company does not expect this guidance to have a material impact on its consolidated financial statements.

NOTE 3.SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Recent Accounting Pronouncements (Cont'd)

In June 2016, the FASB issued ASU 2016-13 to replace the incurred loss impairment methodology in current U.S. GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss credit loss estimates. For trade and other receivables, loans and other financial instruments, the Company will be required to use a forward-looking expected loss model rather than the incurred loss model for recognizing credit losses which reflects losses that are probable. Credit losses relating to available for sale debt securities will also be recorded through an allowance for credit losses rather than as a reduction in the amortized cost basis of the securities. The new standard will be effective for the Company beginning October 1, 2020, with early adoption permitted. Application of the amendments is through a cumulative-effect adjustment to deficit as of the effective date. The Company is currently assessing the impact of the standard on its consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230)". The new guidance is intended to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. ASU No. 2016-15 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. Early adoption is permitted, provided that all of the amendments are adopted in the same period. The guidance requires application using a retrospective transition method. The Company is currently evaluating the impact of ASU No. 2016-15 on its financial position, results of operations and liquidity.

NOTE 4. PURCHASE OF DIGIFONICA

The Company acquired Digifonica in December 2013. Pursuant to the terms in the Share Purchase Agreement (the "SPA") the Company acquired 100% of Digifonica from the seller, the CEO of the Company (the "Seller"), for a cash payment of \$800,000 and 389,023,561 common shares of the Company. The assets acquired through the acquisition were VoIP-related patented technology, including patents for Lawful Intercept, routing, billing and rating, mobile gateway, advanced interoperability solutions, intercepting voice over IP communications, and uninterrupted transmission of internet protocol transmissions during endpoint changes.

The SPA included an anti-dilution clause (the "Anti-Dilution Clause") that requires the Company to maintain the Seller's percentage ownership of the Company at 40% by issuing the Seller a proportionate number of common shares of any future issuance of the Company's common shares. Shares issued pursuant to the Anti-Dilution Clause are recorded as a share issuance cost within the Additional Paid-in Capital account (Notes 6 and 8).

NOTE 5.INTANGIBLE ASSETS

The Company acquired certain patents and technology from Digifonica in December 2013 (see Note 4). These assets have been recorded in the financial statements as intangible assets. These assets are being amortized over twelve (12) years on a straight-line basis. A summary of intangible assets as of September 30, 2018 and September 30, 2017 is as follows:

	September 30, 2018	September 30, 2017
VoIP Intellectual property and patents	\$ 1,552,416	\$ 1,552,416
Accumulated amortization	(634,866)	(496,666)
Net book value	\$917,550	\$ 1,055,750

There were no disposals of any intangible assets in the periods presented.

NOTE 6. RELATED PARTY TRANSACTIONS

The Company compensates certain of its key management personnel to operate its business in the normal course. Key management includes the Company's executive officers and members of its Board of Directors.

Compensation paid or accrued to key management during the year ended September 30, 2018 includes:

	September 30, 2018	September 30, 2017
Management fees paid to the CEO	\$ 190,000	\$ 90,000
Management fees paid to the CFO	86,000	86,400
Management fees paid to the President	164,000	38,000
Fees paid or accrued to Directors	323,000	76,400
	\$ 763,000	\$ 290,800

During the year ended September 30, 2018 the Company issued 38,450,000 common shares for a value of \$1,457,000, accrued 6,840,000 common shares to be issued valued at \$216,000 and paid cash of \$57,000 for current year key management compensation of \$763,000 and the settlement of amounts due to key management of \$967,000 incurred in prior periods.

At September 30, 2018 included in accounts payable and accrued liabilities is \$11,000 (September 30, 2017 - \$186,700) owed to current officers and directors. Amounts due to/from related parties are non-interest bearing, unsecured and have no fixed terms of repayment unless otherwise noted. 10,000,000 common shares were returned to the treasury from an officer of the Company at a per share price of \$0.003 (\$31,542) on the unwinding of a loan conversion transaction and the associated forgiveness of a loan to the Company provided by the officer dating from 2014.

As at September 30, 2018, included in shares to be issued is \$416,000 (September 30, 2017 - \$902,000) for unpaid Director fees and \$Nil (September 30, 2017 - \$80,000) for professional fees & services paid to a director for consulting services provided. As at September 30, 2018, 126,655,791 (September 30, 2017 - 57,826,653) common shares are accrued to the Seller of Digifonica for the Anti-Dilution Clause. Additionally, 174,983,685 (September 30, 2017 - nil) common shares were issued during the year ended September 30, 2018 to the Seller of Digifonica pursuant to the Anti-Dilution Clause (Notes 4 and 8).

NOTE 7. SUPPLEMENTAL CASH FLOW INFORMATION

During the year ended September 30, 2018, the Company paid \$nil (September 30, 2017 - \$nil) in interest or income taxes.

During the year ended September 30, 2018, the Company reclassified \$585,721 (2017- \$Nil) from Shares to be issued into Additional paid-in capital upon the issuance of 30,193,846 shares.

NOTE 8. SHARE CAPITAL

Capital Stock Authorized and Issued:

2,000,000,000 common voting shares authorized with a par value of \$0.001 each, of which 1,575,001,801 (September 30, 2017 – 1,142,125,534) shares are issued.

1,000,000 convertible preferred shares authorized with a par value of \$0.01 each, of which nil (2017 – nil) shares are issued.

During the year ended September 30, 2018, the board of directors of the Company authorized the increase of the Company's capital stock to 2,000,000,000 (September 30, 2017 – 1,300,000) common voting shares with a par value of \$0.001 per share.

Subsequent to the year ended September 30, 2018, the board of directors of the Company authorized the increase of the Company's capital stock to up to 3,000,000,000 common voting shares with a par value of \$0.001 per share.

Issues during the year ended September 30, 2018

During the year ended September 30, 2018, the Company issued 113,453,749 common shares for cash proceeds of \$3,402,060 from private placements, as follows;

107,147,749 common shares priced between \$0.015 and \$0.06 per common share for cash proceeds of \$3,303,940 from a private placement of common shares; and

- 6,306,000 units at between \$0.013 and \$0.02 per unit for cash proceeds of \$98,120. Each unit consists of one
 - common share and one common share purchase warrant. Each common share purchase warrant allows the holder to purchase one common share for \$0.04 for a period of twelve months from the date of issuance;

During the year ended September 30, 2018, the Company issued 50,125,000 common shares at \$0.04 per common share for cash proceeds of \$2,005,000 on the exercise of 50,125,000 common share purchase warrants;

NOTE 8. SHARE CAPITAL (CONT'D)

Issues during the year ended September 30, 2018 (cont'd)

During the year ended September 30, 2018, the Company issued:

104,313,833 common shares priced at between \$0.02 and \$0.06 per common share for services with an aggregate value of \$4,467,917, of which \$585,721 (September 30, 2017 - \$Nil) was in settlement of Shares to be issued; and

174,983,685 common shares priced at \$0.038 per common share pursuant to the Anti-Dilution Clause for a value of \$6,649,380 (Notes 4 and 6).

During the year ended September 30, 2018, 10,000,000 common shares were returned to the treasury at \$0.003 per share with an aggregate value of \$31,542 (Note 6).

Issues during the year ended September 30, 2017

During the year ended September 30, 2017, the Company issued:

73,067,166 common shares for cash proceeds of \$1,590,010 from private placements, as follows:

11,566,666 common shares priced between \$0.02 and \$0.03 per common share for cash proceeds of \$340,000 from a private placement of common shares; and

61,500,500 units priced between \$0.02 and \$0.025 per unit for cash proceeds of \$1,250,010. Each unit consists of one common share and one common share purchase warrant. Each common share purchase warrant allows the holder to purchase one common share for \$0.04 or \$0.05 for a period of twelve months from the date of issuance;

7,747,500 common shares priced between \$0.025 and \$0.05 per common share for services valued at \$231,701;

4,336,667 common shares priced at \$0.02 and \$0.03 per common share as share issuance fees valued at \$100,200; and

4,400,000 common shares priced between \$0.025 and \$0.03 per share to convert \$32,500 of convertible debentures.

During the year ended September 30, 2017, 900,000 common shares priced at \$0.05 per common share were cancelled. The shares had been issued as an advance payment for the provision of services under a contract which was terminated prior to fulfillment.

Subsequent Issues

Subsequent to the year ended September 30, 2018, the Company issued:

2,250,000 common shares at \$0.04 per share for cash proceeds of \$90,000 from private placements;

6,306,000 common shares at \$0.04 per share for cash proceeds of \$252,240 on the exercise of 6,306,000 common share purchase warrants;

400,000 common shares at \$0.04 per share for services valued at \$16,000;

11,837,500 common shares at between \$0.02 and \$0.04 per share for management compensation with an aggregate value of \$273,500;

427,000,000 common shares at \$0.003 per share in payment of Bonus Shares for a value of \$317,500 (Note 12); and

225,184,791 common shares at between \$0.003 and \$0.04 per share pursuant to the Anti-Dilution Clause for aggregate value of \$5,124,641 (Note 4).

Shares to be Issued

As at September 30, 2018, there are 12,817,523 (September 30, 2017 – 23,353,846) common shares to be issued that are accrued for services provided to the Company valued at \$477,320 (September 30, 2017 – \$1,058,320), of which 10,840,000 (September 30, 2017 – 21,281,903) valued at \$416,000 (September 30, 2017 - \$982,000) are accrued to management and related parties (see Note 6).

As at September 30, 2018, there are 126,655,791 (September 30, 2017 – 57,826,653) common shares to be issued that are accrued to the seller of Digifonica pursuant to the Anti-Dilution Clause (see Notes 4 and 6), valued at \$4,812,920 (September 30, 2017 - \$1,937,193).

NOTE 8. SHARE CAPITAL (CONT'D)

Issues during the year ended September 30, 2018 (cont'd)

During the year ended September 30, 2018, the Company issued:

104,313,833 common shares priced at between \$0.02 and \$0.06 per common share for services with an aggregate value of \$4,467,917; and

174,983,685 common shares priced at \$0.038 per common share pursuant to the Anti-Dilution Clause for a value of \$6,649,380.

During the year ended September 30, 2018, 10,000,000 common shares were returned to the treasury at \$0.003 per share with an aggregate value of \$31,542 (Note 6).

Warrants

During the year ended September 30, 2017, the Company issued 61,500,500 common share purchase warrants to purchase 61,500,500 common shares in the capital stock of the Company at a price of \$0.04 or \$0.05 per common share for a period of twelve months from their date of issue in private placements of units.

During the year ended September 30, 2018, the Company issued 6,306,000 common share purchase warrants to purchase 6,306,000 common shares in the capital stock of the Company at a price of \$0.04 per common share for a period of twelve months from their date of issue in private placements of units.

The following table summarizes the Company's share purchase warrant transactions:

Number of	Weighted average
-----------	---------------------

	warrants	exercise price
Balance September 31, 2016	Nil	\$ N/A
Issued in unit private placement	61,500,500	0.04
Exercised	Nil	N/A
Expired	Nil	N/A
Balance September 31, 2017	61,500,500	0.04
Issued in unit private placement	6,306,000	0.04
Exercised	(50,125,000)	0.04
Expired	(11,375,500)	0.04
Balance September 30, 2018	6,306,000	\$ 0.04

The following table summarizes the share purchase warrants outstanding at September 30, 2018:

Warrants Outstanding	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life
6,306,000	\$0.04	0.09 years

As at September 30, 2018, the Company has 6,306,000 (September 30, 2017 – 61,500,500) common share purchase warrants outstanding to purchase 6,306,000 common shares at a weighted average price of \$0.04 per share expiring on dates ranging from October 1, 2018 through December 2018.

Subsequent to the year ended September 30, 2018, 6,306,000 common share purchase warrants were exercised at a price of \$0.04 per share for proceeds of \$252,240, leaving a balance of nil warrants outstanding.

NOTE 9.STOCK-BASED COMPENSATION*Stock Option Plan*

In order to provide incentive to directors, officers, management, employees, consultants and others who provide services to the Company or any subsidiary (the “Service Providers”) to act in the best interests of the Company, and to retain such Service Providers, the Company has in place an incentive Stock Option Plan (the “Plan”) whereby the Company is authorized to issue up to 10% of its issued and outstanding share capital in options to purchase common shares of the Company. The maximum term of options granted under the Plan cannot exceed ten years, with vesting terms determined at the discretion of the Board of Directors.

The following table summarizes the Company’s stock option transactions:

	Number of options	Weighted average exercise price
Balance September 30, 2016	28,000,000	\$ 0.060
Granted	11,850,000	0.053
Balance September 30, 2017	39,850,000	\$ 0.058
Granted	18,500,000	0.180
Cancelled	(18,500,000)	(0.180)
Balance September 30, 2018	39,850,000	\$ 0.058

The following table summarizes the stock options outstanding at September 30, 2018:

Options Outstanding	Exercise Price	Remaining Contractual Life (Yrs)	Number of Options Currently Exercisable
14,000,000	\$ 0.06	2.73	14,000,000
14,000,000	0.06	2.94	14,000,000
3,450,000	0.06	3.07	3,450,000
8,400,000	0.05	3.55	8,400,000
39,850,000	\$ 0.058	3.01	39,850,000

The following assumptions were used for the Black-Scholes valuation of stock options granted during the year ended September 30, 2018: risk-free rate of 1.62% (2017 – 1.25%), expected life of 5 years (2017 – 5 years), annualized historical volatility of 138.8% (2017 - 112.0%) and a dividend rate of 0% (2017 – 0%). Expected volatilities are based on historical volatility of the Company's stock and other factors. The compensation cost that has been charged against income from options vested under the Plan was \$nil for the year ended September 30, 2018.

The weighted-average grant-date fair value of options granted during the year ended September 30, 2018 was \$0.16 (2017 - \$0.06). The total intrinsic value of options exercised during the year ended September 30, 2018 was \$nil (2017 - \$nil).

NOTE 10. INCOME TAXES

The Company and its subsidiary file consolidated Federal and state income tax returns. The Company is registered in the State of Nevada which has no corporate income tax.

Certain tax years are subject to examination by the Internal Revenue Service and state taxing authorities. The Company does not believe there would be any material adjustments upon such examination.

As of September 30, 2018 and 2017, the Company had net operating loss carryforwards of approximately \$33,311,000 and \$24,857,000 respectively, to reduce Federal income tax liabilities through 2038.

NOTE 10. INCOME TAXES (CONT'D)

A reconciliation of income taxes at statutory rates with the reported taxes is as follows:

	2018	2017
Loss for the year	\$(8,401,548)	\$(2,610,673)
Expected income tax (recovery)	\$(2,121,000)	\$(659,000)
Change in statutory, foreign tax, foreign exchange rates and other	6,815,000	(1,030,000)
Permanent Difference	536,000	143,000
Change in unrecognized deductible temporary differences	(5,230,000)	1,546,000
Total income tax expense (recovery)	\$—	\$—

The significant components of the Company's temporary differences, unused tax credits and unused tax losses that have not been included on the consolidated statement of financial position are as follows:

	2018	Expiry Date Range	2017	Expiry Date Range
Temporary Differences				
Intangible assets	\$23,080,000	No expiry date	\$25,356,000	No expiry date
Non-capital losses available for future period	\$33,311,000	2033 to 2038	\$24,857,000	2033 to 2037

Tax attributes are subject to review, and potential adjustment, by tax authorities.

NOTE 11. SEGMENTED INFORMATION

The Company operates in one reportable segment being the acquisition and development of VoIP-related intellectual property including patents and technology. All intangible assets are located in the United States of America.

NOTE 12. CONTINGENT LIABILITIES**Litigation**

The Company is party to pending litigation cases as follows:

i) Locksmith Financial Corporation, Inc. et al. v Voip-Pal.com Inc. (Case No A-15-717491-C) filed in Clark County District Court (the “State Case”)

On March 24, 2014, the Company resolved to freeze 95,832,000 common shares that were issued to a company controlled by a former director (the “defendant”) in fiscal 2013 and accounted for at a cost of \$1,443,000. The Company resolved to freeze the common shares as the Company believes that the shares were issued as settlement of a line of credit that the Company believes to have been legally unsupported. The defendant alleges that the freeze and the Company’s actions constituted fraud and a breach of securities laws. The Company denies any wrongdoing. Currently the State Case is entering the discovery phase of litigation and the outcome is undeterminable.

ii) Voip-Pal.com Inc. v. Richard Kipping, et al. (Case No. 2:15-cv-01258-JAD-VCF) filed in United States District Court (the “Federal Case”)

On July 2, 2015, the Company filed a case against a former director, a shareholder and the company controlled by a former director. The Company alleges that the common shares issued in the State Case and an additional 7,200,000 common shares were fraudulently obtained and that the shares have been unlawfully transferred to other entities. The proceedings in the Federal Case have been stayed pending a final determination of the issues in the State Case. The outcome of the case is undeterminable.

NOTE 12. CONTINGENT LIABILITIES (CONT'D)

Litigation (Cont'd)

Voip-Pal.com Inc. v. Apple, Inc. (Case No. 2:16-CV-00260) & Verizon Wireless Services, LLC, Verizon Communications Inc., AT&T Corp. (Case No. 2:16- VC-00271) in the United States District Court, District of Nevada

In February 2016 the Company filed patent infringement lawsuits in the United States District Court, District of Nevada against Apple, Inc. (Case No. 2:16-CV-00260), Verizon Wireless Services, LLC, Verizon Communications Inc., and AT&T Corp. (Case No. 2:16- VC-00271). These cases are seeking a combined \$7,024,377,876 in damages. On May 9, 2016, the lawsuits were officially served to these companies. The proceedings in these cases were temporarily stayed, by agreement with the parties thereto, pending the outcome of two *Inter Partes* Reviews (“IPRs”), as noted below, and the cases were subsequently transferred to the U.S. District Court for the Northern District of California. The outcome of each of these legal actions is undeterminable.

iv) Voip-Pal.com Inc. v. Twitter, Inc. (Case No. 2:16-CV-02338) in the United States District Court, District of Nevada

During the year ended September 30, 2017, on October 6, 2016, the Company filed a lawsuit in the United States District Court, District of Nevada against Twitter, Inc. (Case No. 2:16- CV-02338) in which Voip-Pal.com alleges infringement of U.S. Patent No. 8,542,815 and its continuation patent, U.S. Patent No. 9,179,005, This case is seeking \$3,200,000 in damages. On December 28, 2016, the lawsuit was officially served to Twitter, Inc. On February 28, 2018, Twitter filed a motion to transfer its case based on improper venue and the case was subsequently transferred to the U.S. District Court for the Northern District of California, where it remains pending. The outcome of this case is undeterminable.

v) Voip-Pal.com Inc. v. Amazon.com, Inc. et al. (Case No. 2:18-CV-01076) in the United States District Court, District of Nevada

During the year ended September 30, 2018, in June 2018, the Company filed a lawsuit in the United States District Court, District of Nevada, against Amazon.com, Inc. and certain related entities, alleging infringement of U.S. Patent Nos. 9,537,762, 9,813,330, 9,826,002 and 9,948,549. In November 2018, the case was transferred to the U.S. District Court for the Northern District of California, where it remains pending. The outcome of this case is undeterminable.

Inter Partes Reviews

In additional legal actions related to Item iii above, two of the Company's patents have been subject to challenge in several *Inter Partes* Review ("IPR") petitions filed before the Patent Trial and Appeal Board ("PTAB") of the United States Patent and Trademark Office ("USPTO"). An IPR is a post-grant patent review process allowing the PTAB to consider the validity of issued patents. There are no damages awarded, but a portion or all of a patent's claims instituted for IPR may be invalidated as a result of the review.

More particularly, during the year ended September 30, 2018, a total of eight IPRs, filed against Patent No. 8,542,815 and No. 9,179,005, were either in process before the PTAB or had been resolved, as follows:

Unified Patents Inc. (Petitioner) vs. Voip-Pal.com Inc. (Patent Owner), IPR2016-01082, filed May 24, 2016, requesting *inter partes* review of U.S. Patent No. 8,542,815. On November 18, 2016, the PTAB denied institution of this petition;

Apple, Inc. (Petitioner) vs. Voip-Pal.com Inc. (Patent Owner), IPR2016-01198, reviewing Patent No. 9,179,005 and Voip-Pal.com Inc. (Patent Owner), IPR2016-01201, reviewing Patent No. 8,542,815, both instituted for IPR on November 21, 2016;

AT&T Inc. (Petitioner) filed IPR2017-01382 against Voip-Pal's Patent No. 8,542,815, IPR2017-01383 against Voip-Pal's Patent No. 9,179,005, and IPR2017-01384 against Voip-Pal's Patent No. 9,179,005 on May 8, 2017, each of which was subsequently denied institution; and

Apple Inc. (Petitioner) filed IPR2017-01399 against Voip-Pal's Patent No. 8,542,815, and IPR2017-01398 against Voip-Pal's Patent No. 9,179,005 on May 9, 2017, each of which was subsequently denied institution.

During the year ended September 30, 2018, the PTAB considered the aforesaid IPRs, and on November 20, 2017, the PTAB issued its findings on the seven active IPRs being adjudicated, denying institution of the IPRs with respect to all claims challenged by the Petitioners (Apple Inc. and AT&T Inc.). Subsequent to that ruling, in December 2017, Apple filed a post-judgment motion in IPR2016-01198 and IPR2016-01201, seeking invalidation of the challenged claims as sanctions against the Company.

Subsequent to the year ended September 30, 2018, on December 21, 2018, a new panel of the PTAB ruled on Apple's sanctions motion, declining to grant Apple's request to invalidate the challenged claims, declining to grant Apple's request for entirely new proceedings to replace the existing panel of judges with a new panel or judges that would consider any request for rehearing by Apple as a sanction against VoIP-Pal. If Apple chooses to file a motion for rehearing, the outcome of the Petitioner's motion is undeterminable.

NOTE 12. CONTINGENT LIABILITIES (CONT'D)

Performance Bonus Payable

In 2016, the board of directors authorized the Company to provide a performance bonus (the “Performance Bonus”) of up to 3% of the capital stock of the Company by way of the issuance of Common shares from its treasury to an as yet undetermined group of related and non-related parties upon the occurrence of a bonusable event, defined as the successful completion of a sale of the Company or substantially all its assets, or a major licensing transaction. In order to provide maximum flexibility to the Company with respect to determining what constitutes such a bonusable event, the level of Performance Bonus payable, and who may qualify to receive a pro-rata share of such a Performance Bonus, the Company authorized full discretion to the Board in making such determinations.

During the year ended September 30, 2018, the board of directors authorized the increase of the Performance Bonus to up to 10% of the capital stock of the Company.

As at September 30, 2018, no bonusable event had occurred and there was no Performance Bonus payable.

Subsequent to the year ended September 30, 2018, the board of directors resolved to reduce the Performance Bonus from 10% to 3.33% of the issued and outstanding capital stock of the Company. Concurrently, the board of directors authorized the payment of Common shares (“Bonus Shares”) in an equivalent percentage to the 6.67% reduction to the Performance Bonus to a group of related and non-related parties, which included members of management, a director and several consultants, who received an aggregate 127,000,000 Bonus Shares. The Bonus Shares are restricted from trading under Rule 144 and are also subject to voluntary lock-up agreements, pursuant to which they cannot be traded, pledged, hypothecated, transferred or sold by the holders until such time as the Company has met the requirements of the bonusable event as described above.

NOTE 13. SUBSEQUENT EVENT

Subsequent to the year ended September 30, 2018, the board of directors of the Company authorized the increase of the Company’s capital stock to up to 3,000,000,000 common voting shares with a par value of \$0.001 per share.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

There have been no changes in or disagreements with accountants on accounting or financial disclosure matters.

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Management conducted an evaluation of the effectiveness of the Company's internal control over financial reporting as of September 30, 2018. In making this assessment, management used the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, or COSO. The COSO framework summarizes each of the components of a company's internal control system, including (i) the control environment, (ii) risk assessment, (iii) control activities, (iv) information and communication, and (v) monitoring. In management's assessment of the effectiveness of internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) as required by Exchange Act Rule 13a-15(c), our management concluded as of the end of the fiscal period covered by this Quarterly Report on Form 10-Q that our internal control over financial reporting has not been effective. The company intends, prior to the next fiscal year as the company's finances improve, to hire additional accounting staff and implement additional controls.

As defined by Auditing Standard No. 5, "An Audit of Internal Control Over Financial Reporting that is Integrated with an Audit of Financial Statements and Related Independence Rule and Conforming Amendments," established by the Public Company Accounting Oversight Board ("PCAOB"), a material weakness is a deficiency or combination of deficiencies that results more than a remote likelihood that a material misstatement of annual or interim financial statements will not be prevented or detected. In connection with the assessment described above, management identified the following control deficiencies that represent material weaknesses as of September 30, 2018:

Lack of segregation of duties. Now, our resources and size prevent us from being able to employ sufficient
1) resources to enable us to have adequate segregation of duties within our internal control system. Management will periodically reevaluate this situation.

Lack of an independent audit committee. Although the Board of Directors serves an audit committee it is not
2) comprised solely of independent directors. We may establish an audit committee comprised solely of independent directors when we have sufficient capital resources and working capital to attract qualified independent directors and to maintain such a committee.

Insufficient number of independent directors. Now, our Board of Directors does not consist of a majority of 3) independent directors, a factor that is counter to corporate governance practices as set forth by the rules of various stock exchanges.

Our management determined that these deficiencies constituted material weaknesses. Due to a lack of financial resources, we are not able to, and do not intend to, immediately take any action to remediate these material weaknesses. We will not be able to do so until we acquire sufficient financing to do so. We will implement further controls as circumstances, cash flow, and working capital permit. Notwithstanding the assessment that our ICFR was not effective and that there were material weaknesses as identified in this report, we believe that our financial statements fairly present our financial position, results of operations and cash flows for the years covered thereby in all material respects.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving our objectives and our Chief Executive Officer concluded that our disclosure controls and procedures are effective at that reasonable assurance level. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal controls over financial reporting during the year ended September 30, 2018 that have materially affected or are reasonably likely to materially affect such controls.

Item 9B. Other Information.

Not Applicable.

PART III**Item 10. Directors, Executive Officers and Corporate Governance.**

The following table sets forth the names and ages of our current directors and executive officers, the principal offices and positions with us held by each person and the date of their appointment. Our executive officers were appointed by our Board of Directors. Our directors serve until the earlier occurrence of the election of his or her successor at the next meeting of stockholders, death, resignation or removal by the Board of Directors. There are no family relationships among our directors and executive officers.

Name	Age	Position	Year Appointed
Dr. Colin Tucker	73	Director and Chairman	2013
Emil Malak	66	Director and Chief Executive Officer	2014
Dennis Chang⁽¹⁾	70	Director and President	2009
Professor Edwin Candy	74	Independent Director	2013
Dr. Ryan L. Thomas⁽²⁾	64	Director	2015
D. Barry Lee⁽³⁾	62	Chief Financial Officer	2015

(1)Mr. Chang resigned his positions as a Director and as President in October 2018

(2)Dr. Thomas was appointed to the position of President in October 2018

(3)Mr. Lee was appointed to the Board of Directors in November 2018

Set forth below is a brief description of the background and recent business experience of each executive officer and director:

Dr. Colin Tucker was a founding member of Orange plc, a company he helped grow into a mobile network leader, generating billions in annual revenues and operating in six countries. Orange was sold to France Telecom for £25 billion (approximately \$38 billion USD). Dr. Tucker has served as a Director and CEO of Hutchison 3G where in 2003, he oversaw the deployment of the first 3G mobile network in the UK. Under his leadership Hutchison later became one of the first mobile phone operators in the world to embrace VoIP, and offer mobile applications such as Skype, Facebook and eBay. Dr. Tucker has served on the boards of numerous companies over his distinguished career and was listed by Financial Times as one of the eight key people to know in the Telecommunications sector.

Emil Malak was the co-founder of Digifonica in 2003 and oversaw the development of the patents acquired by Voip-Pal in 2013. Mr. Malak also serves as Chairman of the Board for a biotech company currently conducting cancer research in Germany.

Dennis Chang has been the President of Voip-Pal.com Inc. since September 3, 2009. He was formerly a Sr. Business Management Consultant for Antares Corporation from January 2003 through November 2010.

Professor Edwin Candy was previously the Technology Director of Hutchison 3G until his retirement in 2009. At Hutchison, he was instrumental in the development of the most advanced 3G Networks operating across nine countries successfully introducing enterprise and I/P architectures into cellular networks to provide mobile internet access. Prior to this he held Technology or Technical director positions in Orange, Hutchison Personal Communications, and Philips spin-off companies in the UK and France as well as International Radio Systems Manager for Philips in the late 80's. During his career he established a number of major technology and research programs including, the EU UMTs 3G program with twenty-five industrial partners that led to the creation of 3G mobile systems and the TETRA digital standard for public safety communications. He has held a number of key Industrial posts including Chairman of the UK Government DTI UMTS Technical Advisory Group, Chairman of the GSMA PCN group charged with the integration of DSC 1800 with the GSM standard, and Founder and Chairman of the UMTs Forum. He currently holds a number of non-executive positions in small wireless companies as well as operating his own technology consultancy business. He is a Fellow of the IET, a Senior Life Member of the IEEE, a Companion of the IREE Australia. He was a visiting Professor at Strathclyde University Scotland and Member of the University Court from 1995 until 2005.

Dr. Ryan L. Thomas is a licensed attorney in Utah and California, and has been in private practice since 1981. He is currently an Associate Provost and Dean of Undergraduate Studies at Weber State University. Dr. Thomas has served as in-house counsel for the past four years. He has been practicing law since 1979 and has over 35 years of experience as a litigator. Dr. Thomas has a strong technological and computer science background and has extensive experience in patent law.

D. Barry Lee is a senior management consultant with over 25 years of experience in all aspects of business, providing financial management, consulting and advisory services to private and public companies, primarily in the technology and energy sectors. He is the founder and CEO of Equity One Capital Corporation, a financial management and consulting services company since 1999 and is the co-founder and a partner at First Merit Group Inc, where he manages investments in energy, technology and biotechnology.

Item 11. Executive Compensation.

Additionally, \$4,812,920 (2017 - \$1,937,193) is accrued to the Seller of Digifonica for the Anti-Dilution Clause.

Director Independence

We are not subject to the listing requirements of any national securities exchange or national securities association and, as a result, we are not at this time required to have our Board comprised of a majority of “independent directors.” One of our five directors (see Item 6 above) is independent as defined under the Nasdaq Marketplace Rules.

Item 14. Principal Accounting Fees and Services.

Audit Fees and Services

For the fiscal year ended September 30, 2018 professional services were performed by Davidson & Company LLP, Chartered Professional Accountants. The aggregate fees billed by Davidson & Company LLP, Chartered Professional Accountants for the fiscal year ended September 30, 2018 were as follows:

	2017 to
	2018
Audit Fees	\$26,500
Audit-Related Fees	\$13,000
Tax Fees	\$Nil
All Other Fees	\$Nil

Audit Fees: Aggregate fees billed for professional services rendered for the audit of the Company's annual financial statements.

Audit Related Fees: Aggregate fees billed for professional services rendered for assurance and related services that were reasonably related to the performance of the audit or review of our financial statements and are not reported under "Audit Fees" above.

All services listed were pre-approved by the Board of Directors, functioning as the Audit Committee in accordance with Section 2(a) 3 of the Sarbanes-Oxley Act of 2002.

The Board has considered whether the services described above are compatible with maintaining the independent accountant's independence and has determined that such services have not adversely affected Davidson & Company LLP's independence.
