

BUTLER NATIONAL CORP
Form 10-Q
December 14, 2010

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **October 31, 2010**

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number **0-1678**

BUTLER NATIONAL CORPORATION

(Exact name of registrant as specified in its charter)

Kansas

41-0834293

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

19920 West 161st Street, Olathe, Kansas 66062

(Address of principal executive offices)(Zip Code)

Registrant's telephone number, including area code: **(913) 780-9595**

Former name, former address and former fiscal year if changed since last report:
Not Applicable

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding twelve months (or for such shorter period that the registrant was required to file such reports)

and (2) has been subject to such filing requirements for the past 90 days: Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files): Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of

"large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.:

Large accelerated filer Accelerated filer Non-accelerated filer X Smaller reporting company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act):

Yes No

The number of shares outstanding of the Registrant's Common Stock, \$0.01 par value, as of December 3, 2010 was **56,156,448** shares.

BUTLER NATIONAL CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q of Regulation S-X and do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Therefore, these financial statements should be read in conjunction with the annual report on Form 10-K dated April 30, 2010. In our opinion, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation have been included. Operating results for the six months ended October 31, 2010 are not indicative of the results of operations that may be expected for the year ended April 30, 2011.

Certain reclassifications within the condensed financial statement captions have been made to maintain consistency in presentation between years.

2. Recent Accounting Pronouncements: In April 2010, the FASB issued ASU 2010-17, Revenue Recognition - Milestone Method (Topic 605). ASU 2010-17 provides guidance on applying the milestone method of revenue recognition in arrangements with research and development activities. The Company does not expect this ASU to have a material impact on its revenue recognition when adopted.

In March 2010, the FASB (Financial Accounting Standards Board) issued Accounting Standards Update 2010-11 (ASU 2010-11), "Derivatives and Hedging (Topic 815): Scope Exception Related to Embedded Credit Derivatives." The amendments in this Update are effective for each reporting entity at the beginning of its first fiscal quarter beginning after June 15, 2010. Early adoption is permitted at the beginning of each entity's first fiscal quarter beginning after issuance of this Update. The Company does not expect the provisions of ASU 2010-11 to have a material effect on the financial position, results of operations or cash flows of the Company.

In February 2010, the FASB Accounting Standards Update 2010-10 (ASU 2010-10), "Consolidation (Topic 810): Amendments for Certain Investment Funds." The amendments in this Update are effective as of the beginning of a reporting entity's first annual period that begins after November 15, 2009 and for interim periods within that first reporting period. Early application is not permitted. The Company's adoption of provisions of ASU 2010-10 did not have a material effect on the financial position, results of operations or cash flows.

In February 2010, the FASB issued ASU No. 2010-09 "Subsequent Events (ASC Topic 855) "Amendments to Certain Recognition and Disclosure Requirements" ("ASU No. 2010-09"). ASU No. 2010-09 requires an entity that is an SEC filer to evaluate subsequent events through the date that the financial statements are issued and removes the requirement for an SEC filer to disclose a date, in both issued and revised financial statements, through which the filer had evaluated subsequent events. The adoption did not have an impact on the Company's financial position and results of operations.

3.

Advances for Gaming Developments: We have advanced funds for the establishment of gaming. These funds were capitalized based on the costs associated with the acquisition, development, and construction of real estate and real estate-related projects to be capitalized as part of those projects.

Our advances represent costs to be reimbursed upon approval of gaming in several locations. We have agreements in place which require payments to be made to us for the respective projects upon opening of Indian gaming facilities. Once gaming facilities have gained proper approvals, we plan to enter into a note receivable arrangement with the Tribe to secure reimbursement of advanced funds for that particular project.

We have advanced and invested a total of \$4,718,991 at October 31, 2010 and at April 30, 2010 in gaming developments. We have reserves of \$4,171,531, at October 31, 2010 and at April 30, 2010. We believe it is necessary to establish reserves against the advances because all of the proposed casinos involve legal and government approvals. The reserve amount is an estimate of the value we would receive if a casino was not opened and we were forced to liquidate the assets that we have acquired with our advances. These assets were intended to be used with casinos and consist of the purchase of land and land improvements related to the development of gaming facilities. We believe that these tracts could be developed and sold for residential and commercial use to recover our advances if the gaming enterprises do not open.

4. Net Income (Loss) Per Share: The Company adopted ASC 260 (Formerly Statement of Financial Accounting Standards No. 128) that requires the reporting of both basic and diluted earnings (loss) per share. Basic earnings (loss) per share is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. In accordance with ASC 260, any anti-dilutive effects on net earnings (loss) per share are excluded.

5. Research and Development: We invested in research and development activities. The amount invested in the six months ended October

31, 2010 and 2009 was approximately \$818,000 and \$958,000 respectively.

6. Borrowings: At October 31, 2010, the Company had one line of credit totaling \$1,000,000. The unused line at October 31, 2010 was \$883,815. During the current year these funds were primarily used for the purchase of inventory for the modifications and avionics operations.

At October 31, 2010, there were several notes collateralized by aircraft security agreements totaling \$742,896. These notes were used for the purchase and modifications of these collateralized aircraft.

There are two notes at a bank totaling \$1,704,736 for real estate located in Olathe, Kansas and Tempe, Arizona. The due date for these notes is in March 2013.

One note with a balance of \$800,237 is collateralized by the first and second position on all assets of the company. This was used as capital for our daily business operations in 2006. There are several other notes collateralized by automobiles and equipment totaling an additional \$128,251.

As a result of our business development and acquisition activities we have debt obligations of \$2,767,481.

7. Stockholders' Equity: On August 18, 2010, the Company issued 193,750 shares of Company common stock to Humanity Worldwide, LLC ("Humanity"). These shares were issued in consideration for Humanity's marketing and consulting services related to increasing public awareness and shareholder interest in the Company.

The issuance of stock by the Company to Humanity is exempt from registration pursuant to Rule 506 of Regulation D promulgated under the Securities Act of 1933, as amended. Humanity has represented to the Company and the Company believes that Humanity is an "accredited investor" as defined in Rule 501(a) of Regulation D.

8. Subsequent Events: We have reviewed our activities since October 31, 2010 and have determined that are no subsequent events to report.

The rest of this page is intentionally left blank.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

REFERENCE TO EXHIBIT 99 OF THE COMPANY'S ANNUAL REPORT ON FORM 10-K

Statements made in this report, filed with the Securities and Exchange Commission, communications to stockholders, press releases, and oral statements made by representatives of the Company that are not historical in nature, or that state the Company or management intentions, hopes, beliefs, expectations or predictions of the future, may constitute "forward-looking statements" within the meaning of Section 21E of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements can often be identified by the use of forward-looking terminology, such as "could," "should," "will," "intended," "continue," "believe," "may," "expect," "hope," "anticipate," "goal," "forecast," "plan," "guidance" or "estimate" or the negative of these words, variations thereof or similar expressions. Forward-looking statements are not guarantees of future performance or results. They involve risks, uncertainties, and assumptions. It is important to note that any such performance and actual results, financial condition or business, could differ materially from those expressed in such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in the Cautionary Statements and Risk Factors, filed as Exhibit 99 and Item 1A. Risk Factors to the Company's Annual Report on Form 10-K for the year ended April 30, 2010 are incorporated herein by reference. Other unforeseen factors not identified herein could also have such an effect. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in future operating results, financial condition or business over time.

RESULTS OF OPERATIONS

YEAR TO DATE OCTOBER 31, 2010 COMPARED TO YEAR TO DATE OCTOBER 31, 2009

Our revenue for the six months ended October 31, 2010 was \$20,562,795, an increase of 96% from the six months ended October 31, 2009 with revenue of \$10,479,147. Our operating profit for the six months ended October 31, 2010 was \$716,619, compared to a profit of \$1,310,391 for the six months ended October 31, 2009. Approximately \$496,000 of the operating profit in 2009 can be attributed to the sale of land in Dodge City, Kansas.

Discussion of the specific changes by operation at each business segment follows (the results of operations are based on pre-corporate allocations):

Aircraft Modifications: Revenue from Aircraft Modifications segment for the six months ended October 31, 2010, was \$6,003,000, an increase of 28.7% from the six months ended October 31, 2009 with revenue of \$4,665,384, and an increase of 5.4% from the six months ended October 31, 2008 with revenue of \$5,698,049. The modifications segment had an operating profit of \$1,188,308 in the six months ended October 31, 2010, an operating profit of \$34,636 in the six months ended October 31, 2009, and \$790,072 in the six months ended October 31, 2008.

During the past few years we have seen a significant increase in aircraft camera modifications. As the economy grows aircraft owners may elect to update, modify, and purchase business aircraft. A shift to business aircraft ownership positively impacts our aircraft modification revenues. Although we cannot anticipate the future we must always consider the negative impact of items such as the September 11, 2001 event, increases in fuel prices, and general economic downturns.

Avionics: Revenue from Avionics segment for the six months ended October 31, 2010, was \$1,928,093 a decrease of 44% from the six months ended October 31, 2009 with revenue of \$3,442,385, and an increase of 48% from the six months ended October 31, 2008 with revenue of \$1,305,966. The avionics segment had an operating profit of \$460,652 in the six months ended October 31, 2010, \$1,087,879 for the six months ended October 31, 2009, and an operating loss of \$86,374 for the six months ended October 31, 2008. The decrease in operating profit is directly related to the decrease in revenue. Many economic and political uncertainties can impact the avionics products line.

Services - SCADA Systems and Monitoring Services: Revenue in the Monitoring Services Segment increased from \$753,854 for the six months ended October 31, 2009 to \$807,890 for the six months ended October 31, 2010, an increase of 7.2%. During the six months ended October 31, 2010, we maintained a relatively level volume of long-term contracts with municipalities. We anticipate increases in revenue from additional lift station rehabilitations over the next three to four years. Revenue fluctuates due to the introduction of new products and services and the related installations of these types of products. Our contracts with our two largest customers have been renewed through fiscal year 2011. An operating profit of \$130,601 in Monitoring Services was recorded for the six months ended October 31, 2010, compared to a profit of \$118,752 for the six months ended October 31, 2009, an increase of 10%. We believe the service business has had revenue stability over the past few years and we expect this to continue.

Corporate / Professional Services: Services in this segment include the architectural services activities related to gaming and other real estate development, administrative management services, and engineering consulting services.

Revenues consisting of architectural services and revenues related to completed construction projects were \$280,700 for the six months ended October 31, 2009 and none for the six months ended October 31, 2010. Projects related to architectural services decreased \$401,827 for the six months to revenues of \$328,938 at October 31, 2010. An operating loss of \$78,339 for the six months ended October 31, 2010 was recorded compared to a profit of \$183,323 for the six months ended October 31, 2009.

Revenues related to on-site gaming services and other real estate development for the six months ended October 31, 2010 was \$1,063,438 compared to \$631,604 for the six months ended October 31, 2009, an increase of 68.4%. Operating profits from management services related to gaming increased \$222,682 from \$290,978 for the six months ended October 31, 2009, to \$513,660 for the six months ended October 31,

2010.

The Gaming Facility located in Dodge City, Kansas known as Boot Hill Casino and Resort opened for business on December 15, 2009. In the six months ended October 31, 2010 the Gaming Facility received gross revenues including funds for the State of Kansas of \$19,966,161. Mandated fees, taxes and distributions reduced gross revenue by \$9,534,724 leaving net revenue to us, as the manager, of \$10,431,437. The net loss from the Gaming Facility for the six months ended October 31, 2010 was \$527,661.

Selling, General and Administrative ("SG&A"): Expenses were \$10,681,227, or 51.9% of revenue, for the six months ended October 31, 2010 compared to \$2,750,217 or 26.2% of revenue for the six months ended October 31, 2009. Of these costs, \$7,808,730 was directly related to the Gaming Facility. Additional consulting and payroll expenses of approximately \$535,000 were directly related to other gaming development. SG&A costs increased by \$7,931,010 for the six months ended October 31, 2010 compared to the six months ended October 31, 2009.

As we grow, we anticipate that overhead expenses may increase. We continue to monitor and evaluate our overhead expenses in order to efficiently manage our operations.

Other Income (Expense):

Interest expense decreased from \$215,125 in the six months ended October 31, 2009 to \$182,010 for the six months ended October 31, 2010.

Earnings: Our operating profit for the six months ended October 31, 2010 was \$716,619, compared to a profit of 1,310,391 for the six months ended October 31, 2009. Approximately \$496,000 of the operating profit in 2009 can be attributed to the sale of land in Dodge City, Kansas.

Consolidated Net Income: As a result of the factors described above, our net profit for the six months ended October 31, 2010 was \$362,138 compared to a profit of \$737,238 for the six months ended October 31, 2009, a decrease of \$377,201. The income before taxes and minority interest and casino operations from October 31, 2010, was \$498,107 of which casino operations reduced profits by more than \$527,000.

Employees: Other than gaming through are subsidiaries there are 106 full time and 2 part time employees on October 31, 2010 compared to 97 full time and 1 part time employee on October 31, 2009. As of December 3, 2010, staffing is 108 full time and 2 part time employees. Our staffing at Boot Hill Casino & Resort on October 31, 2010 was 249 full time and 34 part time employees and at December 3, 2010 is 257 full time employees and 39 part time employees. None of the employees are subject to any collective bargaining agreements.

SECOND QUARTER FISCAL 2011 COMPARED TO SECOND QUARTER FISCAL 2010

Our revenue for the three months ended October 31, 2010 was \$11,016,437, an increase of 150% from the three months ended October 31, 2009 with revenue of \$4,410,608. Our operating profit for the three months ended October 31, 2010 was \$780,437, compared to a profit of \$112,634 for the three months ended October 31, 2009.

Discussion of the specific changes by operation at each business segment follows (the results of operations are based on pre-corporate allocations):

Aircraft Modifications: Revenue from Aircraft Modifications segment for the three months ended October

31, 2010, was \$3,836,278, an increase of 60.9% from the three months ended October 31, 2009 with revenue of \$2,384,846, and an increase of 70.4% from the three months ended October 31, 2008 with revenue of \$2,250,918. The modifications segment had an operating profit of \$1,249,909 in the three months ended October 31, 2010, an operating loss of \$13,683 in the three months ended October 31, 2009, and an operating profit of \$15,205 in the three months ended October 31, 2008.

During the past few years we have seen a significant increase in aircraft camera modification. As the economy grows aircraft owners may elect to update, modify, and purchase business aircraft. A shift to business aircraft ownership positively impacts our aircraft modification revenues. Although we cannot anticipate the future we must always consider the negative impact of items such as the September 11, 2001 event, increases in fuel prices, and general economic downturns.

Avionics: Revenue from Avionics segment for the three months ended October 31, 2010, was \$942,788, a decrease of 19.4% from the three months ended October 31, 2009 with revenue of \$1,169,012, and an increase of 117% from the three months ended October 31, 2008 with revenue of \$434,718. The avionics segment had an operating profit of \$41,546 in the three months ended October 31, 2010, \$141,431 for the three months ended October 31, 2009, and an operating loss of \$45,268 for the three months ended October 31, 2008. The decrease in operating profit is directly related to the decrease in revenue. Many economic and political uncertainties can impact the avionics products line.

Services - SCADA Systems and Monitoring Services: Revenue in the Monitoring Services Segment increased from \$372,754 for the three months ended October 31, 2009 to \$385,113 for the three months ended October 31, 2010. During the three months ended October 31, 2010, we maintained a relatively level volume of long-term contracts with municipalities. We anticipate increases in revenue from additional lift station rehabilitations over the next three to four years. Revenue fluctuates due to the introduction of new products and services and the related installations of these types of products. Our contracts with our two largest customers have been renewed through fiscal year 2011. An operating profit of \$65,785 in Monitoring Services was recorded for the three months ended October 31, 2010, compared to a profit of \$53,724 for the three months ended October 31, 2009, an increase of 22.4%. We believe the service business has had revenue stability over the past few years and we expect this to continue.

Corporate / Professional Services: Services in this segment include the architectural services activities related to gaming and other real estate development, administrative management services, and engineering consulting services.

Revenues consisting of architectural services and revenues related to completed construction projects were \$137,900 for the three months ended October 31, 2009 and none for the three months ended October 31, 2010. Projects related to architectural services decreased \$258,423 for the three months to revenues of \$166,871 at October 31, 2010. An operating loss of \$44,394 for the three months ended October 31, 2010 was recorded compared to a profit of \$115,195 for the three months ended October 31, 2009.

Revenues related to gaming and other real estate development, on site contract management of gaming establishments for the three months ended October 31, 2010 was \$498,857 compared to \$313,344 for the three months ended October 31, 2009, an increase of 59.2%. Operating profits from management services related to gaming increased \$37,881 from \$186,668 for the three months ended October 31, 2009, to \$224,549 for the three months ended October 31, 2010.

The Gaming Facility located in Dodge City, Kansas known as Boot Hill Casino and Resort opened for business on December 15, 2009. In the three months ended October 31, 2010 the Gaming Facility received gross revenues including funds for the State of Kansas of \$9,906,411. Mandated fees, taxes and distributions

reduced gross revenue by \$4,719,881 leaving net revenue to us, as the manager, of \$5,186,531. The net loss from the Gaming Facility for the three months ended October 31, 2010 was \$235,302.

Selling, General and Administrative ("SG&A"): Expenses were \$5,364,813, or 48.7% of revenue, for the three months ended October 31, 2010 compared to \$1,064,384 or 24.1% of revenue for the three months ended October 31, 2009. Of these costs, \$3,855,386 was directly related to Gaming Facility. Additional consulting and payroll expenses of approximately \$268,000 were directly related to other gaming development. SG&A costs increased by \$4,300,429 for the three months ended October 31, 2010 compared to the three months ended October 31, 2009.

As we grow, we anticipate that overhead expenses may increase. We continue to monitor and evaluate our overhead expenses in order to efficiently manage our operations.

Other Income (Expense):

Interest expense decreased from \$94,524 in the three months ended October 31, 2009 to \$90,681 for the three months ended October 31, 2010.

Earnings: Our operating income for the three months ended October 31, 2010 was \$780,437, compared to a profit of \$112,634 for the three months ended October 31, 2009.

LIQUIDITY AND CAPITAL RESOURCES

We believe that our current banks will provide the necessary capital for our business operations. However, we continue to maintain contact with other banks that have an interest in funding our working capital needs to continue our growth in operations in 2011 and beyond.

Obligations related to the Gaming Facility in Dodge City, Kansas (the Boot Hill Casino and Resort) are the rent payments by our subsidiary BHCMC, L.L.C. ("BHCMC") for the agreement for the turn-key casino. Butler National Service Corporation ("BNSC") and BHC Investment Company, L.C. ("BHCI") jointly own BHCMC. BHCMC is currently owned 99.6% by BNSC and 0.4% by BHCI. BHCI has the option to purchase an additional 39.6% of BHCMC to complete the ownership at 60% BNSC and 40% BHCI. BHCI ownership is subject to background investigation by the Kansas Gaming and Racing Commission.

BHCI is not a related party. We do not own nor do our officers or directors have ownership in BHCI. The Gaming Facility known as Boot Hill Casino and Resort was constructed and equipped by BHC Development, L.C., an unrelated real estate development company. BHC Development, L.C. rents the facility to BHCMC, LLC.

The terms of the agreement between the Kansas Lottery and BNSC/BHCMC require the completion of an addition to the Boot Hill Casino and Resort. We may need additional funding to complete this expansion if not completed by a franchised vendor.

Analysis and Discussion of Cash Flow

During the first six months of fiscal 2011 our cash position decrease by \$2,020,091. The decrease is attributed to two major factors. We returned a deposit from BHC Development, LC (an unrelated development company) totaling \$1,700,000 as part of the build-to-suit agreement in the initial Boot Hill Casino vault bank balance. We increased inventory by approximately \$600,000.

Cash used in investing activities was \$1,258,006. We invested approximately \$85,000 towards the purchase of 20 acres in Dodge City and approximately \$15,000 towards building improvements. We purchased used

machinery and equipment of approximately \$792,000. We purchased a more efficient aircraft for the Aircraft Modifications and sold a less efficient aircraft for the net use of cash of \$8,000. We purchased two engines for approximately \$358,000.

Cash provided by financing activities was \$396,644. We reduced our debt by more than \$861,000 and decreased our line of credit by approximately \$46,000. We incurred additional debt of approximately 1,212,000 for business development.

Critical Accounting Policies and Estimates

We believe that there are several accounting policies that are critical to understanding our historical and future performance, as these policies affect the reported amount of revenue and other significant areas involving management judgments and estimates.

Revenue Recognition: Generally, we perform aircraft modifications under fixed-price contracts. Revenues from fixed-price contracts are recognized on the percentage-of-completion method, measured by the direct labor and material costs incurred compared to total estimated direct labor costs. Each quarter our management reviews the progress and performance of our significant contracts. Based on this analysis, any adjustment to sales, cost of sales and/or profit is recognized as necessary in the period they are earned. Changes in estimates of contract sales, cost of sales and profits are recognized using a cumulative catch-up, which is recognized in the current period of the cumulative effect of the change on current or prior periods. Revenue for off-the-shelf items and aircraft sales is recognized on the date of sale.

Casino gaming revenue is the gross gaming win as reported by the Kansas Lottery casino reporting systems less the mandated distributions by and for the State of Kansas.

Revenue from Avionics products are recognized when shipped. Payment for these Avionics products is due within 30 days of the invoice date after shipment. Revenue for SCADA services, Gaming Management, and other Corporate/Professional Services is recognized as the service is rendered and invoiced. Payments for these service invoices are usually received within 30 days.

In regard to warranties and returns, our products are special order and are not suitable for return. Our products are unique upon installation and tested prior to their release to the customer and acceptance by the customer. In the rare event of a warranty claim, the claim is processed through the normal course of business and may include additional charges to the customer. In our opinion any future warranty work would not be material to the financial statements.

Supplemental Type Certificates: Supplemental Type Certificates (STCs) are authorizations granted by the Federal Aviation Administration (FAA) for specific modification of a certain aircraft. The STC authorizes us to perform modifications, installations, and assemblies on applicable customer-owned aircraft. Costs incurred to obtain STCs are capitalized and subsequently amortized against revenues being generated from aircraft modifications associated with the STC. The costs are expensed as services are rendered on each aircraft through costs of sales using the units of production method. The legal life of an STC is indefinite. We believe we have enough future sales to fully amortize our STC development costs.

Advances for Gaming Developments: We are advancing funds for the establishment of gaming. These funds have been capitalized based on the cost associated with the acquisition, development, and construction of real estate and real estate-related projects to be capitalized as part of that project.

Our advances represent costs to be reimbursed upon approval of gaming in several locations. We have

agreements in place which require payments to be made to us for the respective projects upon opening of Indian gaming facilities. Once gaming facilities have gained proper approvals, we plan to enter into a note receivable arrangement with the Tribe to secure reimbursement of advanced funds for that particular project.

We have advanced and invested a total of \$4,718,991 at October 31, 2010 and at April 30, 2010 in gaming developments. We have reserves of \$4,171,531, at October 31, 2010 and at April 30, 2010. We believe it is necessary to establish reserves against the advances because all of the proposed casinos involve legal and government approvals. The reserve amount is an estimate of the value we would receive if a casino was not opened and we were forced to liquidate the assets that we have acquired with our advances. These assets were intended to be used with casinos and consist of the purchase of land and land improvements related to the development of gaming facilities. We believe that these tracts could be developed and sold for residential and commercial use to recover our advances if the gaming enterprises do not open.

Income Taxes:

Amounts provided for income tax expense are based on income reported for financial statement purposes and do not necessarily represent amounts currently payable under tax laws. Deferred taxes, which arise principally from temporary differences between the period in which certain income and expense items are recognized for financial reporting purposes and the period in which they affect taxable income, are included in the amounts provided for income taxes. Under this method, the computation of deferred tax assets and liabilities give recognition to enacted tax rates in effect in the year the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to amounts that we expect to realize.

Changing Prices and Inflation

We experienced little pressure from inflation in 2010. From fiscal year 2009 to fiscal year 2010 a majority of the increases we experienced were in material costs. This additional cost may not be transferable to our customers resulting in lower income in the future. We anticipate fuel costs and possibly interest rates to rise in fiscal years 2011 and 2012.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Please see Item 7(a) of our Form 10-K for the period ended April 30, 2010.

Item 4. CONTROLS AND PROCEDURES

We maintain a set of disclosure controls and procedures designed to ensure that information required to be disclosed in our filings under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission rules and forms. Our principal executive and financial officers have evaluated our disclosure controls and procedures as of the end of the period covered by this report on Form 10-Q and have determined that such disclosure controls and procedures are effective, based on criteria in Internal Control-Integrated Framework, issued by COSO.

Evaluation of disclosure controls and procedures: Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosures.

In connection with the preparation of this Form 10-Q, our Chief Executive Officer and our Chief Financial Officer conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of October 31, 2010. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of October 31, 2010.

Limitations on Controls

Our management, including the Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Changes in Internal Control Over Financial Reporting:

In our opinion there were no material changes in the Company internal controls over financial reporting as of October 31, 2010 that have materially affected, or are reasonably likely to materially affect, its internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS.

A lawsuit was filed in the United States District Court for the District of Kansas by the State of Kansas against us, the United States, the Business Committee members of the Miami Tribe and others on October 14, 1999, challenging the determination by the National Indian Gaming Commission ("NIGC") that the Miami Princess Maria Reserve No. 35 is Indian land for the purposes of gaming under the Indian Gaming Regulatory Act. The question in the case has been remanded to the NIGC for further review. The NIGC has not made a further determination on the question. The Miami Tribe expects to eventually receive a favorable determination. We cannot reliably predict the outcome of the case.

Butler National Service Corporation and BHCMC, LLC filed a lawsuit on September 4, 2009 in the United States District Court for the District of Kansas against Larry J. Woolf and Navegante, Inc. a Las Vegas based consulting firm for damages for failing to perform and defective performance related to a written and executed consulting agreement. In October of 2009, Navegante filed a lawsuit with the District Court against Butler National Service Corporation, seeking damages for breach of an alleged oral agreement to provide management services. Navegante has alleged damages in excess of \$75,000. Butler National Service Corporation denies the Navegante allegations and is vigorously defending the matter. Butler National Service Corporation is pursuing the recovery of its damages for breaches of contract.

As of October 31, 2010, there are no other significant known legal proceedings pending against us. We consider all such unknown proceedings, if any, to be ordinary litigation incident to the character of the business. We believe that the resolution of any claims will not, individually or in the aggregate, have a material adverse effect on the financial position, results of operations, or liquidity of the Company.

Item 1A RISK FACTORS.

There are no material changes to the risk factors disclosed under Item 1A of our Form 10-K for year ended April 30, 2010.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Edgar Filing: BUTLER NATIONAL CORP - Form 10-Q

On August 18, 2010, the Company issued 193,750 shares of Company common stock to Humanity Worldwide, LLC ("Humanity"). These shares were issued in consideration for Humanity's marketing and consulting services related to increasing public awareness and shareholder interest in the Company.

The issuance of stock by the Company to Humanity is exempt from registration pursuant to Rule 506 of Regulation D promulgated under the Securities Act of 1933, as amended. Humanity has represented to the Company and the Company believes that Humanity is an "accredited investor" as defined in Rule 501(a) of Regulation D.

Item 3. DEFAULTS UPON SENIOR SECURITIES.

None.

Item 4. (REMOVED AND RESERVED)

Item 5. OTHER INFORMATION.

None.

Item 6. EXHIBITS.

3.1	Articles of Incorporation, as amended and restated are incorporated by reference to Exhibit 3.1 of our Form DEF 14A filed on December 26, 2001.
3.2	Bylaws, as amended, are incorporated by reference to Exhibit 3.2 of our Form DEF 14A filed on December 15, 2003.
31.1	Certificate of Chief Executive Officer pursuant to Exchange Act Rule 13a-14(a).
31.2	Certificate of Chief Financial Officer pursuant to Exchange Act Rule 13a-14(a).
32.1	Certifications of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certifications of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
99	Cautionary Statements for Purposes of the "Safe Harbor" Provisions of the Private Securities Litigation Reform Act of 1995, are incorporated by reference to Exhibit 99 of the Form 10-K for the fiscal year ended April 30, 2010.
