**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549  
FORM 10-Q**

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 29, 2019

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 1-3863

**HARRIS CORPORATION**

(Exact name of registrant as specified in its charter)

**Delaware** **34-0276860**

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

**1025 West NASA Boulevard** **32919**  
**Melbourne, Florida**

(Address of principal executive offices) (Zip Code)

**(321) 727-9100**

(Registrant's telephone number, including area code)

**No changes**

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$1.00 per share	HRS	New York Stock Exchange

Edgar Filing: HARRIS CORP /DE/ - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.  Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).  Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer

Non-accelerated filer  Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  Yes  No

The number of shares outstanding of the registrant’s common stock as of April 26, 2019 was 118,125,597 shares.

## **NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

### **Note A — Significant Accounting Policies and Recent Accounting Standards**

#### **Basis of Presentation**

The accompanying Condensed Consolidated Financial Statements (Unaudited) include the accounts of Harris Corporation and its consolidated subsidiaries. As used in these Notes to Condensed Consolidated Financial Statements (Unaudited) (these “Notes”), the terms “Harris,” “Company,” “we,” “our” and “us” refer to Harris Corporation and its consolidated subsidiaries. Intracompany transactions and accounts have been eliminated in consolidation. The accompanying Condensed Consolidated Financial Statements (Unaudited) have been prepared by Harris, without an audit, in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and with the rules and regulations of the Securities and Exchange Commission (“SEC”). Accordingly, such interim financial statements do not include all information and footnotes necessary for a complete presentation of financial condition, results of operations, cash flows and equity in conformity with GAAP for annual financial statements. In the opinion of management, such interim financial statements reflect all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of our financial condition, results of operations and cash flows for the periods presented therein. The results for the quarter and three quarters ended March 29, 2019 are not necessarily indicative of the results that may be expected for the full fiscal year or any subsequent period. The balance sheet at June 29, 2018 has been derived from our audited financial statements, but does not include all of the information and footnotes required by GAAP for annual financial statements. We provide complete, audited financial statements in our Annual Report on Form 10-K, which includes information and footnotes required by the rules and regulations of the SEC. The information included in this Quarterly Report on Form 10-Q (this “Report”) should be read in conjunction with the Management’s Discussion and Analysis of Financial Condition and Results of Operations and the Consolidated Financial Statements and accompanying Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended June 29, 2018 (our “Fiscal 2018 Form 10-K”) and in our Current Report on Form 8-K filed with the SEC on December 13, 2018 (our “Fiscal 2017-2018 Update 8-K”), which updated and superseded historical fiscal 2018 and fiscal 2017 financial information contained in Item 7, Item 8 and certain other Items in our Fiscal 2018 Form 10-K to reflect the impact for those two fiscal years of retrospective application of Accounting Standards Update (“ASU”) 2014-09, Accounting Standards Codification (“ASC”) 606, *Revenue from Contracts with Customers (Topic 606)*, as amended (“ASC 606”), and ASU 2017-07, *Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost* (“ASU 2017-07”), each of which we adopted effective June 30, 2018. See “Adoption of New Accounting Standards” below in this *Note A* for additional information.

Amounts contained in this Report may not always add to totals due to rounding.

#### **Reclassifications**

The classification of certain prior-period amounts has been adjusted in our Condensed Consolidated Financial Statements (Unaudited) to conform with current-period classifications. Reclassifications include certain direct selling and bid and proposal costs from the “Cost of product sales and services” line item to the “Engineering, selling and administrative expenses” line item in our Condensed Consolidated Statement of Income (Unaudited) and in these Notes.

#### **Use of Estimates**

The preparation of financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the accompanying Condensed Consolidated Financial Statements (Unaudited) and these Notes and related disclosures. These estimates and assumptions are based on experience and other information available prior to issuance of the accompanying Condensed Consolidated Financial Statements (Unaudited) and these Notes. Materially different results can occur as circumstances change and additional information becomes known.

#### **Adoption of New Accounting Standards**

As discussed above, we adopted ASC 606 effective June 30, 2018. This standard supersedes nearly all revenue recognition guidance under GAAP and International Financial Reporting Standards and supersedes some cost guidance for construction-type and production-type contracts. The guidance in this standard is principles-based, and, consequently, entities are required to use more judgment and make more estimates than under prior guidance, including identifying contract performance obligations, estimating variable consideration to include in the contract

price and allocating the transaction price to separate performance obligations. The core principle of this standard is that entities should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. To help financial statement users better understand the nature, amount,

6

---

timing and potential uncertainty of the revenue and cash flows, this standard requires significantly more interim and annual disclosures.

We adopted the requirements of the new standard using the full retrospective transition method. We opted for this transition method because we believe it provides enhanced comparability and transparency across periods. We elected to apply the practical expedient related to backlog disclosures for prior reporting periods and the practical expedient related to evaluating the effects of contract modifications that occurred prior to the earliest period presented. No other transition practical expedients were applied. Retrospective application of this standard resulted in the recognition of a cumulative-effect adjustment of \$15 million to reduce the opening balance of retained earnings at July 2, 2016.

This standard also resulted in the establishment of “Contract assets” and “Contract liabilities” line items and the reclassification to these line items of amounts previously presented in the “Receivables,” “Inventories” and “Advance payments and unearned income” line items in our Condensed Consolidated Balance Sheet. See Note 2: “Accounting Changes or Recent Accounting Pronouncements” in our Notes to Consolidated Financial Statements in our Fiscal 2017-2018 Update 8-K for a table summarizing the effect of adopting ASC 606 on our previously reported Consolidated Balance Sheet as of June 29, 2018. Total net cash provided by operating activities and total net cash provided by or used in investing activities and financing activities in our previously reported Condensed Consolidated Statements of Cash Flows (Unaudited) were not impacted by our adoption of ASC 606.

We also adopted ASU 2017-07 effective June 30, 2018, as discussed above. This update requires that entities present components of net periodic pension and postretirement benefit costs other than the service cost component (“non-service cost amounts”) separately from the service cost component. We adopted this update retrospectively by recasting each prior period presented, using as our estimation basis for recasting prior periods the amounts disclosed in Note 13: “Pension and Other Postretirement Benefits” in our Notes to Consolidated Financial Statements in our Fiscal 2018 Form 10-K. Retrospective application of this update resulted in reclassification to the “Non-operating income” line item of non-service cost amounts that were included in the “Cost of product sales and services” and “Engineering, selling and administrative expenses” line items in our Condensed Consolidated Statement of Income (Unaudited) prior to adopting ASU 2017-07.

Edgar Filing: HARRIS CORP /DE/ - Form 10-Q

The following table summarizes the effect of adopting ASC 606 and ASU 2017-07 on our previously reported Condensed Consolidated Statement of Income (Unaudited) for the quarter and three quarters ended March 30, 2018:

Quarter Ended March 30, 2018				
	Previously Reported	Effect of Adopting ASC 606	Effect of Adopting ASU 2017-07	Currently Reported
(In millions, except per share amounts)

Edgar Filing: HARRIS CORP /DE/ - Form 10-Q

Diluted	\$4.21	\$ (0.13 )	\$ —	\$4.08
Continuing operations	\$4.19	\$ (0.12 )	\$ —	\$4.07
Discontinued operations	(0.06 )	(0.01 )	—	(0.07 )
	\$4.13	\$ (0.13 )	\$ —	\$4.00

The following table presents the effect of adopting ASC 606 on our previously reported Condensed Consolidated Statement of Cash Flows (Unaudited) for the three quarters ended March 30, 2018:

	Three Quarters Ended March 30, 2018		
	Previously Reported	Effect of Adopting ASC 606	Currently Reported
	(In millions, except shares)		
Net income	\$ 501	\$ (15 )	\$ 486
Adjustments to reconcile net income to net cash provided by operating activities:			
Amortization of acquisition-related intangibles <sup>(1)</sup>	87	—	87
Depreciation and other amortization <sup>(1)</sup>	105	—	105
Share-based compensation	50	—	50
Qualified pension plan contributions	(301 )	—	(301 )
Pension income	(101 )	—	(101 )
(Increase) decrease in:			
Accounts receivable	(120 )	26	(94 )
Contract assets	—	(110 )	(110 )
Inventories	(122 )	86	(36 )
Increase (decrease) in:			
Accounts payable	(46 )	—	(46 )
Advance payments and unearned income	45	(45 )	—
Contract liabilities	—	58	58
Income taxes	146	2	148
Other	(14 )	(2 )	(16 )
Net cash provided by operating activities	\$ 230	\$ —	\$ 230

<sup>(1)</sup> “Amortization of acquisition-related intangibles” includes amortization of non-Exelis Inc. acquisition-related intangibles, which was previously included in the (1) “Depreciation and amortization” line item in our Condensed Consolidated Statement of Cash Flows (Unaudited) in our Form 10-Q for the quarter ended March 30, 2018.

### Accounting Standards Issued But Not Yet Effective

In February 2016, the Financial Accounting Standards Board issued a new lease standard that supersedes existing lease guidance under GAAP. This standard requires, among other things, the recognition of right-of-use assets and liabilities on the balance sheet for most lease arrangements and disclosure of certain information about leasing arrangements. The new standard currently allows two transition methods with certain practical expedients available. Companies may elect to use the modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements or to initially apply this standard at the adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. This standard is effective for fiscal years, and interim reporting periods within those years, beginning after December 15, 2018, which for us is our fiscal 2020.

We expect to adopt the new lease standard on June 29, 2019 by applying the standard at the adoption date and recognizing a cumulative-effect adjustment to the opening balance of retained earnings. We also intend to elect the package of practical expedients permitted by the standard, which, among other things, allows us to carry forward the historical lease classification. The majority of our current lease arrangements are classified as operating leases under existing GAAP lease guidance, and we expect they will continue to be classified as operating leases under the new standard. We have made progress in executing our implementation plan, including identifying our lease population. We are in the process of implementing a new lease management software tool as well as new processes and controls. Once we have configured the new lease management tool and have accumulated compatible lease data, we expect to measure the right-of-use assets and liabilities for leases in effect at the adoption date, which could be material. We do not expect that the adoption of this standard will have a material impact on our results of operations or cash flows.

**Note B — Stock Options and Other Share-Based Compensation**

During the three quarters ended March 29, 2019, we had options or other share-based compensation outstanding under two shareholder-approved employee stock incentive plans (“SIPs”), the Harris Corporation 2005 Equity Incentive Plan (As Amended and Restated Effective August 27, 2010) and the Harris Corporation 2015 Equity Incentive Plan (the “2015 EIP”). Grants of share-based awards after October 23, 2015 were made under our 2015 EIP. We believe that share-based awards more closely align the interests of participants with those of shareholders. Certain share-based awards provide for accelerated vesting if there is a change in control (as defined under our SIPs). The compensation cost related to our share-based awards that was charged against income was \$14 million and \$43 million for the quarter and three quarters ended March 29, 2019, respectively, and \$13 million and \$37 million for the quarter and three quarters ended March 30, 2018, respectively.

The aggregate number of shares of our common stock that we issued under the terms of our SIPs, net of shares withheld for tax purposes and inclusive of both continuing and discontinued operations, was 147,176 and 596,868 for the quarter and three quarters ended March 29, 2019, respectively, and 207,506 and 606,438 for the quarter and three quarters ended March 30, 2018, respectively. Awards granted to participants under our 2015 EIP during the quarter ended March 29, 2019 consisted of restricted shares and restricted units. There were options or performance units granted during the quarter ended March 29, 2019. Awards granted to participants under our 2015 EIP during the

ward was determined using the Black-Scholes-Merton option-pricing model and the following assumptions: expected dividend yield of 1.61 percent; expected volatility of 19.87 percent; risk-free interest rates averaging 2.72 percent; and expected term of 5.03 years. The fair value as of the grant date of each restricted share award and restricted unit award was based on the closing price of our common stock on the grant date. The fair value as of the grant date of each performance unit award was determined based on the fair value from a multifactor Monte Carlo valuation model that simulates our stock price and total shareholder return (“TSR”) relative to companies in our TSR peer group, less a discount to reflect the delay in payments of cash dividend-equivalents that are made only upon vesting.

**Note C — Restructuring and Other Exit Costs**

We record charges for restructuring and other exit activities related to sales or terminations of product lines, closures or relocations of business activities, changes in management structure and fundamental reorganizations that affect the nature and focus of operations. Such charges include termination benefits, contract termination costs and costs to consolidate facilities or relocate employees. We record these charges at their fair value when incurred. In cases where employees are required to render service until they are terminated in order to receive the termination benefits and will be retained beyond the minimum retention period, we record the expense ratably over the future service period. These charges are included as a component of the “Cost of product sales and services” and “Engineering, selling and administrative expenses” line items in our Condensed Consolidated Statement of Income (Unaudited).

In the fourth quarter of fiscal 2018, we recorded a \$5 million charge for consolidation of certain Exelis Inc. (collectively with its subsidiaries, “Exelis”) facilities initiated in fiscal 2017. This charge is included as a component of the “Engineering, selling and administrative expenses” line item in our Consolidated Statement of Income in our Fiscal 2017-2018 Update 8-K. We had liabilities of \$16 million and \$27 million at March 29, 2019 and June 29, 2018, respectively, associated with this integration activity and with previous restructuring actions. The majority of the remaining liabilities at March 29, 2019 represent lease obligations associated with exited facilities with remaining terms of five years or less.

**Note D — Accumulated Other Comprehensive Loss**

The components of accumulated other comprehensive loss are summarized below:

	March 29, 2019	June 29, 2018
	(In millions)	
Foreign currency translation, net of income taxes of \$2 million at March 29, 2019 and June 29, 2018	\$(104)	\$(99)
Net unrealized loss on hedging derivatives, net of income taxes of \$9 million and \$7 million at March 29, 2019 and June 29, 2018, respectively	(27)	(20)
	(86)	(83)

Unrecognized postretirement obligations, net of income taxes of \$31 million at March 29, 2019 and \$30 million at June 29, 2018, respectively

\$(217) \$(202)

Accumulated other comprehensive loss at June 29, 2018 reflects a reclassification to retained earnings of \$35 million in stranded tax effects as a result of our adoption of an accounting standards update, including \$30 million from “Unrecognized postretirement obligations, net of income taxes,” \$4 million from “Net unrealized loss on hedging derivatives, net of income taxes” and \$1 million from “Foreign currency translation, net of income taxes.” See Note 2: “Accounting Changes or Recent

Accounting Pronouncements” in our Fiscal 2017-2018 Update 8-K for additional information regarding this accounting standards update.

**Note E — Receivables**

Receivables are summarized below:

	March 29, 2019	June 29, 2018
	(In millions)	
Accounts receivable	\$455	\$468
Less allowances for collection losses	(2 )	(2 )
	\$453	\$466

We have a receivables sale agreement (“RSA”) with a third-party financial institution that permits us to sell, on a non-recourse basis, up to \$50 million of outstanding receivables at any given time. From time to time, we have sold certain customer receivables under the RSA, which we continue to service and collect on behalf of the third-party financial institution. Receivables sold pursuant to the RSA meet the requirements for sales accounting under ASC 860, *Transfers and Servicing*, and, accordingly, are derecognized from our Condensed Consolidated Balance Sheet (Unaudited) at the time of sale. Outstanding accounts receivable sold pursuant to the RSA were not material at March 29, 2019 and June 29, 2018. Impairment losses related to receivables from contracts with customers were not material during the quarter or three quarters ended March 29, 2019 or the quarter or three quarters ended March 30, 2018.

**Note F — Contract Assets and Contract Liabilities**

Contract assets include unbilled amounts typically resulting from revenue recognized exceeding amounts billed to customers for contracts utilizing the percentage of completion (“POC”) cost-to-cost revenue recognition method. We bill customers as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals, upon achievement of contractual milestones or upon deliveries and, in certain arrangements, the customer may withhold payment of a small portion of the contract price until contract completion. Contract liabilities include advance payments and billings in excess of revenue recognized, including deferred revenue associated with extended product warranties. Contract assets and liabilities are reported on a contract-by-contract basis at the end of each reporting period. The increase in contract liabilities in the three quarters ended March 29, 2019 was primarily due to an increase in the receipt of advance payments and the timing of contractual billing milestones. Changes in contract assets and contract liabilities balances during the quarter and three quarters ended March 29, 2019 were not materially impacted by any factors other than those described above.

Contract assets and contract liabilities are summarized below:

	March 29, 2019	June 29, 2018
	(In millions)	
Contract assets	\$881	\$782
Contract liabilities, current	(466 )	(372 )
Contract liabilities, non-current <sup>(1)</sup>	(12 )	(7 )
Net contract assets	\$403	\$403

<sup>(1)</sup> Represents the non-current portion of deferred revenue associated with extended product warranties, which is included as a component of the “Other long-term liabilities” line item in our Condensed Consolidated Balance Sheet (Unaudited).

The components of contract assets are summarized below:

	March 29, 2019	June 29, 2018
	(In millions)	
Unbilled contract receivables, gross	\$989	\$881
Progress payments	(108 )	(99 )
	\$881	\$782

Impairment losses related to our contract assets were not material during the quarter or three quarters ended March 29, 2019 or the quarter or three quarters ended March 30, 2018. For the quarter and three quarters ended March 29, 2019, we recognized revenue of \$52 million and \$259 million, respectively, related to contract liabilities that were outstanding at June 29, 2018. For the quarter and three quarters ended March 30, 2018, we recognized revenue of \$24 million and \$187 million, respectively, related to contract liabilities that were outstanding at June 30, 2017.

**Note G — Inventories**

Inventories are summarized below:

	March 29, 2019	June 29, 2018
	(In millions)	
Finished products	\$89	\$91
Work in process	113	121
Raw materials and supplies	231	199
	433	\$411

**Note H — Property, Plant and Equipment**

Property, plant and equipment are summarized below:

	March 29, 2019	June 29, 2018
	(In millions)	
Land	\$43	\$43
Software capitalized for internal use	182	171
Buildings	630	620
Machinery and equipment	1,425	1,349
	2,280	2,183
Less accumulated depreciation and amortization	(1,376)	(1,283)
	\$904	\$900

Depreciation and amortization expense related to property, plant and equipment was \$34 million and \$102 million for the quarter and three quarters ended March 29, 2019, respectively, and \$33 million and \$106 million for the quarter and three quarters ended March 30, 2018, respectively.

**Note I — Accrued Warranties**

Changes in our liability for standard product warranties, which is included as a component of the “Other accrued items” and “Other long-term liabilities” line items in our Condensed Consolidated Balance Sheet (Unaudited), during the three quarters ended March 29, 2019 were as follows:

	(In millions)
Balance at June 29, 2018	\$ 24
Warranty provision for sales	11
Settlements	(8 )
Other, including adjustments for foreign currency translation	(1 )
Balance at March 29, 2019	\$ 26

We also sell extended product warranties and recognize revenue from these arrangements over the warranty period. Costs of warranty services under these arrangements are recognized as incurred and are included as a component of the “Contract liabilities” and “Other long-term liabilities” line items in our Condensed Consolidated Balance Sheet (Unaudited). Deferred revenue associated with extended product warranties was \$24 million at March 29, 2019 and \$16 million at June 29, 2018.

**Note J — Postretirement Benefit Plans**

The following tables provide the components of our net periodic benefit income for our defined benefit plans, including defined benefit pension plans and other postretirement defined benefit plans:

	Quarter Ended March 29, 2019		Three Quarters Ended March 29, 2019	
	Pension	Other Benefits	Pension	Other Benefits
(In millions)				
<b>Net periodic benefit income</b>				
Service cost	\$9	\$ 1	\$27	\$ 1
Interest cost	52	2	157	6
Expected return on plan assets	(95 )	(4 )	(286 )	(12 )
Amortization of net actuarial gain	—	(2 )	—	(5 )
Total net periodic benefit income	\$(34 )	\$( 3 )	\$(102 )	\$(10 )

	Quarter Ended March 30, 2018		Three Quarters Ended March 30, 2018	
	Pension	Other Benefits	Pension	Other Benefits
(In millions)				
<b>Net periodic benefit income</b>				
Service cost	\$10	\$ —	\$29	\$ 1
Interest cost	49	1	146	5
Expected return on plan assets	(92 )	(4 )	(276 )	(12 )
Amortization of net actuarial gain	—	—	—	(1 )
Total net periodic benefit income	\$(33 )	\$( 3 )	\$(101 )	\$( 7 )

The service cost component of net periodic benefit income is included in the “Cost of product sales and services” and “Engineering, selling and administrative expenses” line items in our Condensed Consolidated Statement of Income (Unaudited). The non-service cost components of net periodic pension income are included in the “Non-operating income” line item in our Condensed Consolidated Statement of Income (Unaudited).

We contributed \$301 million to our qualified defined benefit pensions plans during the quarter and three quarters ended March 30, 2018, including a \$300 million voluntary contribution to our U.S. qualified defined benefit pension plans in the quarter ended March 30, 2018. As a result of this voluntary contribution as well as a \$400 million voluntary contribution made during fiscal 2017, no

no

c U.S. qualified defined benefit pension plans

The U.S. Salaried Retirement Plan (“U.S. SRP”), a U.S. qualified pension plan, is our largest defined benefit pension plan, with assets valued at \$4.6 billion and a projected benefit obligation of \$5.2 billion as of June 29, 2018. Effective December 31, 2016, accruals under the U.S. SRP benefit formula were frozen for all employees and replaced with a 1% cash balance benefit formula for certain employees who were not highly compensated on December 31, 2016.

**Note K — Income From Continuing Operations Per Share**

The computations of income from continuing operations per common share are as follows:

	Quarter Ended		Three Quarters Ended	
	March 29, 2019	March 30, 2018	March 29, 2019	March 30, 2018
	(In millions, except per share amounts)			
Income from continuing operations	\$243	\$198	\$684	\$494
Adjustments for participating securities outstanding	(1 )	(1 )	(1 )	(2 )
Income from continuing operations used in per basic and diluted common share calculations (A)	\$242	\$197	\$683	\$492
Basic weighted average common shares outstanding (B)	117.9	118.4	117.9	118.7
Impact of dilutive share-based awards	2.4	2.6	2.4	2.4
Diluted weighted average common shares outstanding (C)	120.3	121.0	120.3	121.1
Income from continuing operations per basic common share (A)/(B)	\$2.06	\$1.66	\$5.79	\$4.15
Income from continuing operations per diluted common share (A)/(C)	\$2.02	\$1.63	\$5.67	\$4.07

Potential dilutive common shares primarily consist of employee stock options and restricted and performance unit awards. Income from continuing operations per diluted common share excludes the antidilutive impact of 265,652 and 275,021 weighted average share-based awards outstanding for the quarter and three quarters ended March 29, 2019, respectively, and 30,670 and 64,554 weighted average share-based awards outstanding for the quarter and three quarters ended March 30, 2018, respectively.

**Note L — Income Taxes**

On December 22, 2017, H.R.1, also known as the “Tax Cuts and Jobs Act,” was signed into U.S. law (“Tax Act”). Among other provisions, the Tax Act reduced the U.S. statutory corporate income tax rate from a maximum 35 percent to a flat 21 percent, effective January 1, 2018. During the quarter ended December 28, 2018, we completed our accounting for the income tax impact of enactment of the Tax Act, based on prevailing regulations and available information as of December 28, 2018, and there were no material changes from the estimates reported in our Fiscal 2017-2018 Update 8-K. We will continue to monitor additional guidance issued by the Internal Revenue Service.

*Effective Tax Rate*

Our effective tax rate (income taxes as a percentage of income from continuing operations before income taxes) was 14.1 percent in the quarter ended March 29, 2019 compared with 4.8 percent in the quarter ended March 30, 2018. In the quarter ended March 29, 2019, our effective tax rate benefited from the favorable impact of excess tax benefits related to equity-based compensation and from favorable adjustments recorded upon the filing of our Federal tax returns. In the quarter ended March 30, 2018, our effective tax rate benefited from a \$33 million (\$.27 per diluted share) adjustment to the provisional amount recorded in the second quarter of fiscal 2018 to revalue our net deferred tax balances as a result of the Tax Act. Additionally, our effective tax rate for the quarter ended March 30, 2018 benefited from the favorable impact of excess tax benefits related to equity-based compensation.

Our effective tax rate was 15.7 percent in the three quarters ended March 29, 2019 compared with 25.3 percent in the three quarters ended March 30, 2018. In addition to the items noted above for the quarter ended March 29, 2019, our effective tax rate for the three quarters ended March 29, 2019 benefited from a reduction in the deferred tax liability maintained on the basis differences related to the unremitted foreign earnings and an increase in the research and development (“R&D”) credit. Our effective tax rate for the three quarters ended March 30, 2018 was impacted by a \$25 million (\$.20 per diluted share) write-down of existing net deferred tax asset balances based on the lower tax rates and other tax law changes from the Tax Act, \$26 million (\$.21 per diluted share) of benefit from the associated impact of our lower estimated fiscal 2018 tax rate, \$22 million (\$.18 per diluted share) favorable impact of releasing provisions for uncertain tax positions, the favorable impact of differences in GAAP and tax accounting related to investments and the favorable impact of excess tax benefits related to equity-based compensation.

**Note M — Fair Value Measurements**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal market (or most advantageous market, in the absence of a principal market) for the asset or liability in an orderly transaction between market participants at the measurement date. Entities are required to maximize the use of observable inputs and minimize the use of unobservable inputs in measuring fair value, and to utilize a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. The three levels of inputs used to measure fair value are as follows:

Level 1 — Quoted prices in active markets for identical assets or liabilities.

Level 2 — Observable inputs other than quoted prices included within Level 1, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and inputs other than quoted prices that are observable or are derived principally from, or corroborated by, observable market data by correlation or other means.

Level 3 — Unobservable inputs that are supported by little or no market activity, are significant to the fair value of the assets or liabilities, and reflect our own assumptions about the assumptions market participants would use in pricing the asset or liability developed using the best information available in the circumstances.

In certain instances, fair value is estimated using quoted market prices obtained from external pricing services. In obtaining such data from the external pricing services, we have evaluated the methodologies used to develop the estimate of fair value in order to assess whether such valuations are representative of fair value, including net asset value (“NAV”). Additionally, in certain circumstances, the NAV reported by an asset manager may be adjusted when sufficient evidence indicates NAV is not representative of fair value.

The following table presents assets and liabilities measured at fair value on a recurring basis (at least annually) at March 29, 2019 and June 29, 2018:

	March 29, 2019		June 29, 2018			
	Total	Level 1	Level 2	Total	Level 1	Level 2
(In millions)						
<b>Assets</b>						
Deferred compensation plan assets: <sup>(1)</sup>						
Equity and fixed income securities	\$39	\$39	\$—	\$46	\$46	\$—
Investments measured at NAV:						
Equity and fixed income funds	61			63		
Corporate-owned life insurance	27			27		
Total fair value of deferred compensation plan assets	\$127			\$136		
<b>Liabilities</b>						
Deferred compensation plan liabilities: <sup>(2)</sup>						
Equity securities and mutual funds	\$22	\$22	\$—	\$38	\$38	\$—
Investments measured at NAV:						
Common/collective trusts and guaranteed investment contracts	130			111		
Total fair value of deferred compensation plan liabilities	\$152			\$149		
Derivative instruments: <sup>(3)</sup>						
Yield-based treasury lock	\$11	\$—	\$11	\$—	\$—	\$—

(1) Represents diversified assets held in a “rabbi trust” associated with our non-qualified deferred compensation plans, which we include in the “Other current assets” and “Other non-current assets” line items in our Condensed Consolidated Balance Sheet (Unaudited) and which are measured at fair value.

(2) Primarily represents obligations to pay benefits under certain non-qualified deferred compensation plans, which we include in the “Compensation and benefits” and “Other long-term liabilities” line items in our Condensed Consolidated Balance Sheet (Unaudited). Under these plans, participants designate investment options (including stock and fixed-income funds), which serve as the basis for measurement of the notional value of their accounts.

(3) See Note N — Derivative Instruments and Hedging Activities in these Notes for additional information.

The following table presents the carrying amounts and estimated fair values of our significant financial instruments that were not measured at fair value (carrying amounts of other financial instruments not listed in the table below approximate fair value due to the short-term nature of those items):

March 29, 2019		June 29, 2018	
Carrying Amount	Fair Value	Carrying Amount	Fair Value

(In millions)

Long-term debt (including current portion) <sup>(1)</sup>	\$3,418	\$3,673	\$3,712	\$3,848
---	---------	---------	---------	---------

<sup>(1)</sup> Fair value was estimated using a market approach based on quoted market prices for our debt traded in the secondary market. If our long-term debt in our balance sheet were measured at fair value, it would be categorized in Level 2 of the fair value hierarchy.

#### Note N — Derivative Instruments and Hedging Activities

In the normal course of business, we are exposed to global market risks, including the effect of changes in foreign currency exchange rates. Additionally, during January 2019, we entered into a yield-based treasury lock agreement with a third-party financial institution counterparty (“treasury lock”) to hedge against fluctuations in interest payments due to changes in the benchmark interest rate (10-year U.S. Treasury rate) associated with our anticipated issuance of long-term fixed-rate notes (“New Notes”) to redeem or repay at maturity the entire \$400 million outstanding principal amount of our 2.7% Notes due April 27, 2020 (“2020 Notes”). We use derivative instruments to manage our exposure to such risks and formally document all relationships between hedging instruments and hedged items, as well as the risk-management objective and strategy for undertaking hedge transactions. We also may enter into derivative instruments that are not designated as hedges and do not qualify for hedge accounting. We recognize all derivatives in our Condensed Consolidated Balance Sheet (Unaudited) at fair value. We do not hold or issue derivatives for speculative trading purposes.

At March 29, 2019, we had open foreign currency forward contracts with an aggregate notional amount of \$9 million, of which \$5 million were classified as cash flow hedges and \$4 million was classified as a fair value hedge. This compares with open foreign currency forward contracts with an aggregate notional amount of \$39 million at June 29, 2018, of which \$35 million were classified as cash flow hedges and \$4 million was classified as a fair value hedge. At March 29, 2019, contract expiration dates ranged from 17 days to approximately 3 months with a weighted average contract life of 2 months.

At March 29, 2019, we also had an open treasury lock agreement with a notional amount of \$400 million that was classified as a cash flow hedge.

##### *Exchange-Rate Risk — Fair Value Hedges*

We use foreign currency forward contracts and options to hedge certain balance sheet items, including foreign currency denominated accounts receivable and inventory. Changes in the value of the derivatives and the related hedged items are reflected in earnings, in the “Cost of product sales and services” line item in our Condensed Consolidated Statement of Income (Unaudited). At March 29, 2019, we had an outstanding foreign currency forward contract denominated in the Canadian Dollar to hedge a certain balance sheet item. The net gains or losses on foreign currency forward contracts designated as fair value hedges were not material in the quarter or three quarters ended March 29, 2019 or in the quarter or three quarters ended March 30, 2018. In addition, no amounts were recognized in earnings in the quarter or three quarters ended March 29, 2019 or in the quarter or three quarters ended March 30, 2018 related to hedged firm commitments that no longer qualify as fair value hedges.

##### *Exchange-Rate Risk — Cash Flow Hedges*

We use foreign currency forward contracts and options to hedge off-balance sheet future foreign currency commitments and also have hedged U.S. Dollar payments to suppliers to maintain our anticipated profit margins in our international operations. At March 29, 2019, we had outstanding foreign currency forward contracts denominated in British Pounds and the Australian Dollar to hedge certain forecasted transactions. The net gains or losses from cash flow hedges recognized in earnings or recorded in other comprehensive income, including gains or losses related to hedge ineffectiveness, were not material in the quarter or three quarters ended March 29, 2019 or in the quarter or three quarters ended March 30, 2018.

##### *Interest-Rate Risk — Cash Flow Hedges*

As noted above, in anticipation of the issuance of the New Notes to redeem or repay at maturity the 2020 Notes, we entered into a treasury lock with a notional value of \$400 million. We designated the treasury lock as a cash flow hedge against fluctuations in interest payments on the New Notes due to changes in the benchmark interest rate prior to issuance, which we expect to occur between August 2019 and April 2020. If the benchmark interest rate increases during the period of the agreement, the treasury lock position will become an asset and we will receive a cash payment from the counterparty when we terminate the treasury lock upon issuance of the New Notes. Conversely, if the benchmark interest rate decreases, the treasury lock position will become a liability and we will make a cash payment to the counterparty when we terminate the treasury lock

upon issuance of the New Notes. The fair value of the treasury lock is measured using a pricing model that utilizes observable market data such as the benchmark interest rate. See *Note M — Fair Value Measurements* in these Notes for additional information.

At March 29, 2019, the fair value of the treasury lock was a liability of \$11 million, which we recorded in the “Other accrued items” line item in our Condensed Consolidated Balance Sheet (Unaudited) with a corresponding unrealized after-tax loss of \$8 million in the “Accumulated other comprehensive loss” line item in our Condensed Consolidated Balance Sheet (Unaudited) representing the effective portion of the treasury lock’s change in fair value during the quarter ended March 29, 2019. The ineffective portion of the treasury lock’s change in fair value was immaterial during the quarter ended March 29, 2019.

#### **Note O — Changes in Estimates**

##### *Contract Estimates*

Under the POC cost-to-cost method of revenue recognition, a single estimated profit margin is used to recognize profit for each performance obligation over its period of performance. Recognition of profit on a contract requires estimates of the total cost at completion and transaction price and the measurement of progress towards completion. Due to the long-term nature of many of our contracts, developing the estimated total cost at completion and total transaction price often requires judgment. Factors that must be considered in estimating the cost of the work to be completed include the nature and complexity of the work to be performed, subcontractor performance and the risk and impact of delayed performance. Factors that must be considered in estimating the total transaction price include contractual cost or performance incentives (such as incentive fees, award fees and penalties) and other forms of variable consideration as well as our historical experience and expectation for performance on the contract. At the outset of each contract, we gauge its complexity and perceived risks and establish an estimated total cost at completion in line with these expectations. After establishing the estimated total cost at completion, we follow a standard Estimate at Completion (“EAC”) process in which we review the progress and performance on our ongoing contracts at least quarterly and, in many cases, more frequently. If we successfully retire risks associated with the technical, schedule and cost aspects of a contract, we may lower our estimated total cost at completion commensurate with the retirement of these risks. Conversely, if we are not successful in retiring these risks, we may increase our estimated total cost at completion. Additionally, as the contract progresses, our estimates of total transaction price may increase or decrease if, for example, we receive award fees that are higher or lower than expected. When adjustments in estimated total costs at completion or in estimated total transaction price are determined, the related impact on operating income is recognized using the cumulative catch-up method, which recognizes in the current period the cumulative effect of such adjustments for all prior periods. Any anticipated losses on these contracts are fully recognized in the period in which the losses become evident.

Net EAC adjustments resulting from changes in estimates impacted our operating income favorably by \$6 million (\$4 million after-tax or \$.03 per diluted share) and \$5 million (\$4 million after-tax or \$.03 per diluted share) for the quarter and three quarters ended March 29, 2019, respectively, and unfavorably by \$4 million (\$3 million after-tax or \$.02 per diluted share) and \$15 million (\$11 million after-tax or \$.09 per diluted share) for the quarter and three quarters ended March 30, 2018, respectively. Revenue recognized from performance obligations satisfied in prior periods was \$18 million and \$34 million for the quarter and three quarters ended March 29, 2019, respectively, and \$5 million and \$35 million for the quarter and three quarters ended March 30, 2018, respectively.

##### *Income Taxes*

See *Note L — Income Taxes* in these Notes for changes in estimates disclosures associated with our accounting for income taxes.

#### **Note P — Backlog**

Backlog, which is the equivalent of our remaining performance obligations, represents the future revenue we expect to recognize as we perform on our current contracts. Backlog comprises both funded backlog (i.e., firm orders for which funding is authorized and appropriated) and unfunded backlog. Backlog excludes unexercised contract options and potential orders under ordering-type contracts, such as indefinite delivery, indefinite quantity contracts.

At March 29, 2019, our ending backlog was \$8.5 billion. We expect to recognize approximately half of the revenue associated with this backlog within the next twelve months and the substantial majority of the revenue associated with this backlog within the next 3 years.

**Note Q — Business Segment Information**

We structure our operations primarily around the products, systems and services we sell and the markets we serve, and we report the financial results of our continuing operations in the following three reportable segments, which are also referred to as our business segments:

17

---

Communication Systems, serving markets in tactical communications and defense products, including tactical ground and airborne radio communications solutions and night vision technology, and in public safety networks; Electronic Systems, providing electronic warfare, avionics, and command, control, communications, computers, intelligence, surveillance and reconnaissance (“C4ISR”) solutions for defense and classified customers and mission-critical communication systems for civil and military aviation and other customers; and Space and Intelligence Systems, providing intelligence, space protection, geospatial, complete Earth observation, universe exploration, positioning, navigation and timing (“PNT”), and environmental solutions for national security, defense, civil and commercial customers, using advanced sensors, antennas and payloads, as well as ground processing and information analytics.

As discussed in more detail in *Note A — Significant Accounting Policies and Recent Accounting Standards* in these Notes and in Note 1: “Significant Accounting Policies” and Note 2: “Accounting Changes or Recent Accounting Pronouncements” in our Notes to Consolidated Financial Statements in our Fiscal 2017-2018 Update 8-K, effective June 30, 2018, we adopted ASC 606 and ASU 2017-07 using the full retrospective method. The historical results, discussion and presentation of our business segments as set forth in our Condensed Consolidated Financial Statements (Unaudited) and these Notes reflect the impact of our adoption of ASC 606 and ASU 2017-07 for all periods presented in order to present all segment information on a comparable basis. The accounting policies of our business segments are the same as those described in Note 1: “Significant Accounting Policies” in our Notes to Consolidated Financial Statements in our Fiscal 2017-2018 Update 8-K.

We evaluate each segment’s performance based on segment operating income or loss, which we define as profit or loss from operations before income taxes, including pension income and excluding interest income and expense, royalties and related intellectual property expenses, equity method investment income or loss and gains or losses from securities and other investments. Intersegment sales are generally transferred at cost to the buying segment, and the sourcing segment recognizes a profit that is eliminated. The “Corporate eliminations” line item in the table below represents the elimination of intersegment sales. The “Unallocated corporate expense and corporate eliminations” line item in the table below represents the portion of corporate expenses not allocated to our business segments and the elimination of intersegment profits. The “Pension adjustment” line item in the table below represents the reconciliation of the non-service components of net periodic pension and postretirement benefit costs, which are a component of segment operating income but are included in the “Non-operating income” line item in our Condensed Consolidated Statement of Income (Unaudited) as a result of our adoption of ASU 2017-07 as discussed in *Note A — Significant Accounting Policies and Recent Accounting Standards* in these Notes. The non-service components of net periodic pension and postretirement benefit costs include interest cost, expected return on plan assets and amortization of net actuarial gain.

Segment revenue, segment operating income and a reconciliation of segment operating income to total income from continuing operations before income taxes are as follows:

	Quarter Ended		Three Quarters Ended	
	March 29, 2019	March 30, 2018	March 29, 2019	March 30, 2018
(In millions)				
<b>Revenue</b>				
Communication Systems	\$568	\$479	\$1,577	\$1,377
Electronic Systems	649	606	1,855	1,729
Space and Intelligence Systems	514	482	1,515	1,410
Corporate eliminations	(3 )	(5 )	(11 )	(9 )
	\$1,728	\$1,562	\$4,936	\$4,507
<b>Income From Continuing Operations Before Income Taxes</b>				
<i>Segment Operating Income:</i>				
Communication Systems	\$172	\$144	\$474	\$404
Electronic Systems	123	108	355	314
Space and Intelligence Systems	87	83	265	250
Unallocated corporate expense and corporate eliminations <sup>(1)</sup>	(56 )	(86 )	(155 )	(182 )
Pension adjustment	(47 )	(46 )	(140 )	(138 )
Non-operating income	46	46	140	136
Net interest expense	(42 )	(41 )	(128 )	(123 )
	\$283	\$208	\$811	\$661

Unallocated corporate expense and corporate eliminations included: (i) \$16 million and \$29 million of L3 Technologies, Inc. (“L3”) merger-related transaction and integration costs for the quarter and three quarters ended March 29, 2019, respectively; (ii) \$45 million of charges related to our decision to transition and exit a commercial air-to-ground long term evolution (“LTE”) radio communications line of business in the quarter and three quarters ended March 30, 2018; (iii) a \$12 million adjustment for deferred compensation in the three quarters ended March 30, 2018; and (iv) \$25 million and \$76 million of expense in the quarter and three quarters ended March 29, 2019, respectively, compared with \$25 million and \$75 million of expense in the quarter and three quarters ended March 30, 2018, respectively, for amortization of identifiable intangible assets acquired as a result of our acquisition of Exelis. Because the acquisition of Exelis benefited the entire Company as opposed to any individual segment, the amortization of identifiable intangible assets acquired in the Exelis acquisition was recorded as unallocated corporate expense. Corporate eliminations of intersegment profits were not material in the quarter or three quarters ended March 29, 2019 or the quarter or three quarters ended March 30, 2018.

### Disaggregation of Revenue

*Communication Systems:* Communication Systems operates principally on a “commercial” market-driven business model through which the business segment provides ready-to-ship commercial off-the-shelf products to customers in the U.S. and internationally. Communication Systems revenue is primarily derived from fixed-price contracts and is generally recognized at the point in time when the product is received and accepted by the customer. We disaggregate Communication Systems revenue by geographical region, as we believe this category best depicts how the nature, amount, timing and uncertainty of Communication Systems revenue and cash flows are affected by economic factors:

	Quarter Ended		Three Quarters Ended	
	March 29, 2019	March 30, 2018	March 29, 2019	March 30, 2018
(In millions)				
<b>Revenue By Geographical Region</b>				
United States	\$324	\$232	\$882	\$716
International	244	247	695	661
	\$568	\$479	\$1,577	\$1,377

*Electronic Systems:* Electronic Systems revenue is primarily derived from U.S. Government development and production contracts and is generally recognized over time using the POC cost-to-cost method. We disaggregate Electronic Systems revenue by customer relationship, contract type and geographical region. We believe these categories best depict how the nature, amount, timing and uncertainty of Electronic Systems revenue and cash flows are affected by economic factors:

	Quarter Ended		Three Quarters Ended	
	March 29, 2019	March 30, 2018	March 29, 2019	March 30, 2018
(In millions)				
<b>Revenue By Customer Relationship</b>				
Prime contractor	\$402	\$ 426	\$1,195	\$1,234
Subcontractor	247	180	660	495
	\$649	\$ 606	\$1,855	\$1,729
<b>Revenue By Contract Type</b>				
Fixed-price <sup>(1)</sup>	\$515	\$ 491	\$1,501	\$1,376
Cost-reimbursable	134	115	354	353
	\$649	\$ 606	\$1,855	\$1,729
<b>Revenue By Geographical Region</b>				
United States	\$539	\$ 491	\$1,503	\$1,381
International	110	115	352	348
	\$649	\$ 606	\$1,855	\$1,729

(1) Includes revenue derived from time-and-materials contracts.

*Space and Intelligence Systems:* Space and Intelligence Systems revenue is primarily derived from U.S. Government development and production contracts and is generally recognized over time using the POC cost-to-cost method. We disaggregate Space and Intelligence Systems revenue by customer relationship, contract type and geographical region. We believe these categories best depict how the nature, amount, timing and uncertainty of Space and Intelligence Systems revenue and cash flows are affected by economic factors:

	Quarter Ended		Three Quarters Ended	
	March 29, 2019	March 30, 2018	March 29, 2019	March 30, 2018
(In millions)				
<b>Revenue By Customer Relationship</b>				
Prime contractor	\$355	\$ 353	\$1,069	\$1,016
Subcontractor	159	129	446	394
	\$514	\$ 482	\$1,515	\$1,410
<b>Revenue By Contract Type</b>				
Fixed-price <sup>(1)</sup>	\$173	\$ 140	\$533	\$ 383

	\$514	\$ 482	\$1,515	\$1,410
<b>Revenue By Geographical Region</b>				
United States	\$504	\$ 466	\$1,480	\$1,364
International	10	16	35	46
	\$514	\$ 482	\$1,515	\$1,410

(1) Includes revenue derived from time-and-materials contracts.

Total assets by business segment are summarized below:

March 29, June 29,  
2019 2018

(In millions)

**Total Assets**

Communication Systems	\$1,562	\$1,567
Electronic Systems	4,251	4,174
Space and Intelligence Systems	2,216	2,193
Corporate <sup>(1)</sup>	1,763	1,917
	\$9,792	\$9,851

Identifiable intangible assets acquired in connection with our acquisition of Exelis in the fourth quarter of fiscal 2015 were recorded as Corporate assets because they benefited the entire Company as opposed to any individual segment. Exelis identifiable intangible asset balances recorded as Corporate assets (1) were \$898 million and \$974 million at March 29, 2019 and June 29, 2018, respectively. Corporate assets also consisted of cash, income taxes receivable, deferred income taxes, deferred compensation plan assets and buildings and equipment.

**Note R — Legal Proceedings and Contingencies**

From time to time, as a normal incident of the nature and kind of businesses in which we are or were engaged, various claims or charges are asserted and litigation or arbitration is commenced by or against us arising from or related to matters, including, but not limited to: product liability; personal injury; patents, trademarks, trade secrets or other intellectual property; labor and employee disputes; commercial or contractual disputes; strategic acquisitions or divestitures; the prior sale or use of former products allegedly containing asbestos or other restricted materials; breach of warranty; or environmental matters. Claimed amounts against us may be substantial, but may not bear any reasonable relationship to the merits of the claim or the extent of any real risk of court or arbitral awards. We record accruals for losses related to those matters against us that we consider to be probable and that can be reasonably estimated. Gain contingencies, if any, are recognized when they are realized and legal costs generally are expensed when incurred. At March 29, 2019, our accrual for the potential resolution of lawsuits, claims or proceedings that we consider probable of being decided unfavorably to us was not material. Although it is not feasible to predict the outcome of these matters with certainty, it is reasonably possible that some lawsuits, claims or proceedings may be disposed of or decided unfavorably to us and in excess of the amounts currently accrued. Based on available information, in the opinion of management, settlements, arbitration awards and final judgments, if any, that are considered probable of being rendered against us in litigation or arbitration in existence at March 29, 2019 are reserved against or would not have a material adverse effect on our financial condition, results of operations or cash flows.

*Merger Litigation*

In connection with our pending merger with L3 (see *Note S — Pending Merger* in these Notes for additional information), two putative class action lawsuits and one individual lawsuit were filed against L3 and its directors (together, the “L3 Parties”) in the U.S. District Court for the Southern District of New York between December 19, 2018 and January 15, 2019, and a third putative class action lawsuit, *Kent v. L3 Technologies, Inc., et al.*, was filed against the L3 Parties and Harris Corporation and its wholly owned subsidiary, Leopard Merger Sub Inc. (Harris Corporation and Leopard Merger Sub Inc., the “Harris Parties”), in the U.S. District Court for the District of Delaware on January 4, 2019. The complaints in the lawsuits contained substantially similar allegations contending, among other things, that the registration statement on Form S-4 in support of the pending merger misstated or failed to disclose certain allegedly material information in violation of federal securities laws. The complaint in the *Kent* lawsuit further alleged that the Harris Parties were liable for these violations as “controlling persons” of L3 within the meaning of federal securities laws. On March 12, 2019, the parties to the actions entered into an agreement to settle all claims that were or could have been alleged in the action subject to, among other things, the supplementation by L3 of certain disclosures contained in the registration statement, which were reflected in a Current Report on Form 8-K filed by L3 with the SEC on March 13, 2019, and the dismissal of the four lawsuits, all of which were dismissed by March 18, 2019.

*Environmental Matters*

We are subject to numerous U.S. Federal, state, local and international environmental laws and regulatory requirements and are involved from time to time in investigations or litigation of various potential environmental issues. We or companies we have acquired are responsible, or alleged to be responsible, for environmental investigation and/or remediation of multiple sites. These sites are in various stages of investigation and/or remediation and in some cases our liability is considered de minimis. Notices from the U.S. Environmental Protection Agency (“EPA”) or equivalent state or international environmental agencies allege that a number of sites formerly or currently owned and/or operated by us or companies we have acquired, and other properties or water supplies that may be or have been impacted from those operations, contain disposed or recycled materials or wastes and require environmental investigation and/or remediation. These sites include instances of being identified as a potentially responsible party under the Comprehensive Environmental Response, Compensation and Liability Act (commonly

known as the “Superfund Act”) and/or equivalent state and international laws. For example, in June 2014, the U.S. Department of Justice (the “DOJ”), Environment and Natural Resources Division, notified several potentially responsible parties, including Exelis, of potential responsibility for contribution to the environmental investigation and remediation of multiple locations in Alaska. In addition, in March 2016, the EPA notified over 100 potentially responsible parties, including Exelis, of potential liability for the cost of remediation for the 8.3-mile stretch of the Lower Passaic River, estimated by the EPA to be \$1.38 billion, but the parties’ respective allocations have not been determined. Although it is not feasible to predict the outcome of these environmental claims made against us, based on available information, in the opinion of our management, any payments we may be required to make as a result of environmental claims made against us in existence at March 29, 2019 are reserved against, covered by insurance or would not have a material adverse effect on our financial condition, results of operations or cash flows.

#### **Note S — Pending Merger**

On October 14, 2018, we announced that on October 12, 2018, we entered into an Agreement and Plan of Merger (the “Merger Agreement”), with L3 and Leopard Merger Sub Inc., our wholly owned subsidiary (“Merger Sub”), pursuant to which we and L3 have agreed to combine in an all-stock merger of equals. Under the terms and subject to the conditions set forth in the Merger Agreement, L3 shareholders will receive a fixed exchange ratio of 1.30 shares of Harris common stock for each share of L3 common stock. Upon closing of the transactions contemplated by the Merger Agreement, Harris Corporation will be re-named “L3 Harris Technologies, Inc.” and Merger Sub will merge with and into L3, with L3 being the surviving corporation and becoming a wholly-owned subsidiary of L3 Harris Technologies, Inc. (“L3 Harris”), which will be owned on a fully diluted basis approximately 54 percent by Harris shareholders and 46 percent by L3 shareholders. Upon closing, the merger will be accounted for using the acquisition method of accounting, and Harris will be treated as the accounting acquirer. The Merger Agreement has been unanimously approved by the Board of Directors of each company.

The consummation of the merger is subject to the satisfaction or waiver of certain conditions, including, among others, the expiration or earlier termination of any applicable waiting period and the receipt of approvals under domestic and certain foreign antitrust and competition laws, including the expiration of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the “HSR Act”). In connection with the proposed merger, we and L3 each filed a Notification and Report Form under the HSR Act (an “HSR Notification”) with the U.S. Federal Trade Commission and the DOJ on November 9, 2018. We voluntarily withdrew our HSR Notification effective as of December 10, 2018 and re-filed our HSR Notification on December 11, 2018. As part of the DOJ’s review of the merger, we and L3 each received on January 10, 2019 a request for additional information and documentary materials (the “Second Request”) from the DOJ, which extends the waiting period under the HSR Act until 30 days after both we and L3 have complied with the Second Request or such later time as the parties may agree with the DOJ, unless the waiting period is terminated earlier. We and L3 continue to work cooperatively with the DOJ on its review of the merger. We and L3 continue to expect the merger to close in the previously announced time frame of mid-calendar year 2019, although we can give no assurances regarding the timing or occurrence of closing.

See *Note T — Subsequent Events* in these Notes for subsequent events disclosures associated with the merger.

L3 is a prime contractor in intelligence, surveillance and reconnaissance (“ISR”) systems, aircraft sustainment (including modifications and fleet management of special mission aircraft), simulation and training, night vision and image intensification equipment and security and detection systems headquartered in New York, New York. L3 is also a provider of a broad range of communication, electronic and sensor systems used on military, homeland security and commercial platforms. L3 employs approximately 31,000 employees and its customers include the U.S. Department of Defense and its prime contractors, U.S. government intelligence agencies, the U.S. Department of Homeland Security, foreign governments and domestic and commercial customers. L3 generated calendar 2018 revenue of approximately \$10 billion.

The foregoing description of the Merger Agreement and the transactions contemplated thereby is not complete and is subject to, and qualified in its entirety by reference to, the Agreement and Plan of Merger, dated as of October 12, 2018, by and among L3, us, and Merger Sub, a copy of which was filed as an exhibit to our Current Report on Form 8-K filed with the SEC on October 16, 2018.

**Note T — Subsequent Events**

On April 4, 2019, at our and L3's respective special meetings of stockholders to vote on the proposals identified in the definitive joint proxy statement/prospectus filed with the SEC on February 25, 2019 in connection with the Merger Agreement, our and L3's respective stockholders voted to approve all proposals necessary to complete the transactions contemplated by the Merger Agreement.

Also on April 4, 2019, we entered into a definitive agreement under which we will sell our Night Vision business to Elbit Systems of America, LLC, a subsidiary of Elbit Systems Ltd., for \$350 million in cash, subject to customary purchase price adjustments as set forth in the definitive agreement. The sale transaction is conditioned on completion of our pending merger with L3 pursuant to the Merger Agreement, as well as customary closing conditions, including receipt of regulatory approvals. We expect to use the proceeds from the sale of our Night Vision business to pre-fund L3 Harris pension plans and return cash to shareholders. Our Night Vision business is a global supplier of high-performance, vision-enhancing products for U.S. and allied military and security forces and commercial customers. Because the sale transaction is conditioned on completion of our pending merger with L3, the assets and liabilities of our Night Vision business were not classified as held for sale in our Condensed Consolidated Balance Sheet (Unaudited) at March 29, 2019.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Shareholders and Board of Directors of Harris Corporation

**Results of Review of Interim Financial Statements**

We have reviewed the accompanying condensed consolidated balance sheet of Harris Corporation (the Company) as of March 29, 2019, the related condensed consolidated statements of income, comprehensive income, and equity for the quarter and three quarters ended March 29, 2019 and March 30, 2018, the condensed consolidated statements of cash flows for the three quarters ended March 29, 2019 and March 30, 2018, and the related notes (collectively referred to as the “condensed consolidated interim financial statements”). Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Company as of June 29, 2018, the related consolidated statements of income, comprehensive income, cash flows and equity for the year then ended, and the related notes and financial statement schedule (not presented herein); and in our report dated August 27, 2018, except for the retrospective changes for revenue and periodic pension and postretirement benefit costs described in Note 2 and the subsequent event described in Note 25 as to which the date is December 13, 2018, we expressed an unqualified audit opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of June 29, 2018, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

**Basis for Review Results**

These financial statements are the responsibility of the Company’s management. We are a public accounting firm registered with the PCAOB and required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the SEC and the PCAOB. We conducted our review in accordance with the standards of the PCAOB. A review of interim financial statements consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

### OVERVIEW

The following Management's Discussion and Analysis ("MD&A") is intended to assist in an understanding of our financial condition and results of operations. This MD&A is provided as a supplement to, should be read in conjunction with, and is qualified in its entirety by reference to, our Condensed Consolidated Financial Statements (Unaudited) and accompanying Notes appearing elsewhere in this Report (the "Notes"). In addition, reference should be made to our audited Consolidated Financial Statements and accompanying Notes to Consolidated Financial Statements and Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Fiscal 2017-2018 Update 8-K. Except for the historical information contained herein, the discussions in this MD&A contain forward-looking statements that involve risks and uncertainties. Our future results could differ materially from those discussed herein. Factors that could cause or contribute to such differences include, but are not limited to, those discussed below in this MD&A under "Forward-Looking Statements and Factors that May Affect Future Results."

The following is a list of the sections of this MD&A, together with our perspective on their contents, which we hope will assist in reading these pages:

**Results of Operations** — an analysis of our consolidated results of operations and the results in each of our business segments, to the extent the segment results are helpful to an understanding of our business as a whole, for the periods presented in our Condensed Consolidated Financial Statements (Unaudited).

**Liquidity, Capital Resources and Financial Strategies** — an analysis of cash flows, funding of pension plans, common stock repurchases, dividends, capital structure and resources, off-balance sheet arrangements and commercial commitments and contractual obligations.

**Critical Accounting Policies and Estimates** — information about accounting policies that require critical judgments and estimates and about accounting standards that have been issued, but are not yet effective for us, and their potential impact on our financial condition, results of operations and cash flows.

**Forward-Looking Statements and Factors that May Affect Future Results** — cautionary information about forward-looking statements and a description of certain risks and uncertainties that could cause our actual results to differ materially from our historical results or our current expectations or projections.

We report the financial results of our continuing operations in the following three segments, which are also referred to as our business segments:

• Communication Systems, serving markets in tactical communications and defense products, including tactical ground and airborne radio communications solutions and night vision technology, and in public safety networks;

• Electronic Systems, providing electronic warfare, avionics, and C4ISR solutions for defense and classified customers and mission-critical communication systems for civil and military aviation and other customers; and

• Space and Intelligence Systems, providing intelligence, space protection, geospatial, complete Earth observation, universe exploration, PNT, and environmental solutions for national security, defense, civil and commercial customers, using advanced sensors, antennas and payloads, as well as ground processing and information analytics.

As described in more detail in the *Adoption of New Accounting Standards* section in *Note A — Significant Accounting Policies and Recent Accounting Standards* in the Notes, effective June 30, 2018, we adopted ASC 606, a new revenue recognition standard that supersedes nearly all revenue recognition guidance under GAAP and International Financial Reporting Standards and supersedes some cost guidance for construction-type and production-type contracts.

Effective June 30, 2018, we also adopted ASU 2017-07, which changed the presentation of components of net periodic pension and postretirement benefit costs other than the service cost component in our Condensed Consolidated Statement of Income (Unaudited). Our historical results, discussion and presentation as set forth in our Condensed Consolidated Financial Statements (Unaudited) and accompanying Notes and this MD&A reflect the impact of the adoption of these new standards for all periods presented in order to present all information on a comparable basis.

The classification of certain prior-period amounts has been adjusted in our Condensed Consolidated Financial Statements (Unaudited) to conform with current-period classifications. Reclassifications include certain direct selling and bid and proposal costs from the "Cost of product sales and services" line item to the "Engineering, selling and administrative expenses" line item in our Condensed Consolidated Statement of Income (Unaudited) and in the Notes.

As described in more detail in *Note S — Pending Merger* in the Notes, we entered into the Merger Agreement with L3 and Merger Sub on October 12, 2018, pursuant to which we and L3 have agreed to combine in an all-stock merger of equals. We and L3 continue to expect the merger to close in the previously announced time frame of mid-calendar year 2019, although we can give no assurances regarding the timing or occurrence of closing. Amounts contained in this Report may not always add to totals due to rounding.

**RESULTS OF OPERATIONS****Highlights**

Operations results for the third quarter of fiscal 2019, in each case compared with the third quarter of fiscal 2018, included:

Revenue increased 11 percent to \$1.73 billion from \$1.56 billion;

Gross margin increased 10 percent to \$589 million from \$534 million;

Income from continuing operations increased 23 percent to \$243 million from \$198 million;

Income from continuing operations per diluted common share increased 24 percent to \$2.02 from \$1.63;

Communication Systems segment revenue increased 19 percent to \$568 million from \$479 million and operating income increased 19 percent to \$172 million from \$144 million;

Electronic Systems segment revenue increased 7 percent to \$649 million from \$606 million and operating income increased 14 percent to \$123 million from \$108 million; and

Space and Intelligence Systems segment revenue increased 7 percent to \$514 million from \$482 million and operating income increased 5 percent to \$87 million from \$83 million.

Net cash provided by operating activities increased 280 percent to \$874 million in the first three quarters of fiscal 2019 from \$230 million in the first three quarters of fiscal 2018.

**Consolidated Results of Operations**

	Quarter Ended			Three Quarters Ended

\* Not meaningful

**Revenue**

*Third Quarter 2019 Compared With Third Quarter 2018:* The increase in revenue in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was due to higher revenue in all three of our segments.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The increase in revenue in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was due to higher revenue in all three of our segments.

See “Discussion of Business Segment Results of Operations” below in this MD&A for further information.

### **Gross Margin**

*Third Quarter 2019 Compared With Third Quarter 2018:* The increase in gross margin in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to higher revenue in all three of our segments.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The increase in gross margin in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to higher revenue in all three of our segments.

See “Discussion of Business Segment Results of Operations” below in this MD&A for further information.

### **Engineering, Selling and Administrative Expenses**

*Third Quarter 2019 Compared With Third Quarter 2018:* The decreases in engineering, selling and administrative (“ESA”) expenses and ESA expenses as a percentage of total revenue (“ESA percentage”) in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 were primarily due to the absence of \$45 million of charges related to our decision to transition and exit a commercial air-to-ground LTE radio communications line of business in the third quarter of fiscal 2018, partially offset by \$16 million of L3 merger-related transaction and integration costs and increased investments in bids and proposals and R&D in the third quarter of fiscal 2019.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The slight increase in ESA expenses in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to \$29 million of L3 merger-related transaction and integration costs and increased investments in bids and proposals and R&D, partially offset by \$45 million of charges related to our decision to transition and exit a commercial air-to-ground LTE radio communications line of business in the third quarter of fiscal 2018 and a \$12 million adjustment for deferred compensation in the second quarter of fiscal 2018. The decrease in ESA percentage in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to management of expenses on higher revenue.

See “Discussion of Business Segment Results of Operations” below in this MD&A for further information.

### **Non-Operating Income**

*Third Quarter 2019 Compared With Third Quarter 2018:* Non-operating income in the third quarter of fiscal 2019 was comparable with the third quarter of fiscal 2018.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The slight increase in non-operating income in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to an increase in the non-service cost components of pension income and a debt extinguishment loss recognized in the second quarter of fiscal 2018.

See *Note A — Significant Accounting Policies and Recent Accounting Standards* in the Notes for further information.

### **Income Taxes**

*Third Quarter 2019 Compared With Third Quarter 2018:* Our effective tax rate (income taxes as a percentage of income from continuing operations before income taxes) was 14.1 percent in the third quarter of fiscal 2019 compared with 4.8 percent in the third quarter of fiscal 2018. In the third quarter of fiscal 2019, our effective tax rate benefited from the favorable impact of excess tax benefits related to equity-based compensation and from favorable adjustments recorded upon the filing of our Federal tax returns. In the third quarter of fiscal 2018, our effective tax rate benefited from a \$33 million adjustment to the provisional amount recorded in the second quarter of fiscal 2018 to revalue our net deferred tax balances as a result of the Tax Act. Additionally, our effective tax rate for the third quarter of fiscal 2018 benefited from the favorable impact of excess tax benefits related to equity-based compensation.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* Our effective tax rate was 15.7 percent in the first three quarters of fiscal 2019 compared with 25.3 percent in the first three quarters of fiscal 2018. In addition to the items noted above for the third quarter of fiscal 2019, our effective tax rate for the first three quarters of fiscal 2019 benefited from a reduction in the deferred tax liability maintained on the basis differences related to the unremitted foreign earnings and an increase in R&D credit. Our effective tax rate for the first three quarters of fiscal 2018 was impacted by a \$25 million write-down of existing net deferred tax asset balances due to the enactment of lower U.S. statutory corporate income tax rates and other tax law changes from the Tax Act, the corresponding impact of our lower fiscal 2018 tax rate, the favorable impact of releasing provisions for uncertain tax positions, the favorable impact of differences in GAAP and tax accounting related to investments and the favorable impact of excess tax

benefits related to equity-based compensation.

---

**Income From Continuing Operations**

*Third Quarter 2019 Compared With Third Quarter 2018:* The increase in income from continuing operations in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to the combined effects of the reasons noted above in this “Consolidated Results of Operations” discussion regarding the third quarters of fiscal 2019 and 2018.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The increase in income from continuing operations in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to the combined effects of the reasons noted above in this “Consolidated Results of Operations” discussion regarding the first three quarters of fiscal 2019 and 2018.

**Income From Continuing Operations Per Diluted Common Share**

*Third Quarter 2019 Compared With Third Quarter 2018:* The increase in income from continuing operations per diluted common share in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to higher income from continuing operations and fewer diluted weighted average common shares outstanding due to repurchases of shares of common stock under our repurchase program during the last quarter of fiscal 2018 and first quarter of fiscal 2019.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The increase in income from continuing operations per diluted common share in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to the same reasons noted above regarding the third quarters of fiscal 2019 and 2018. See “Common Stock Repurchases” below in this MD&A for further information.

**Discussion of Business Segment Results of Operations****Communication Systems Segment**

	Quarter Ended			Three Quarters Ended		
	March 29, 2019	March 30, 2018	% Inc/(Dec)	March 29, 2019	March 30, 2018	% Inc/(Dec)
	(Dollars in millions)					
Revenue	\$568	\$479	19 %	\$1,577	\$1,377	15 %
Cost of product sales and services	(310 )	(246 )	26 %	(837 )	(706 )	19 %
Gross margin	258	233	11 %	740	671	10 %
<i>% of revenue</i>	45 %	49 %		47 %	49 %	
ESA expenses	(86 )	(89 )	(3 )%	(266 )	(267 )	— %
<i>% of revenue</i>	15 %	19 %		17 %	19 %	
Segment operating income	\$172	\$144	19 %	\$474	\$404	17 %
<i>% of revenue</i>	30 %	30 %		30 %	29 %	

*Third Quarter 2019 Compared With Third Quarter 2018:* The increase in segment revenue in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to \$66 million of higher revenue from Tactical Communications, reflecting a ramp in U.S. Department of Defense modernization programs, and higher revenue in Public Safety and Professional Communications due to increased demand from state and federal agencies. The increase in segment gross margin in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to higher volume and operational efficiencies, partially offset by program and product mix. Segment gross margin as a percentage of revenue (“gross margin percentage”) decreased in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 primarily due to program and product mix. The decreases in segment ESA expenses and segment ESA percentage in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 reflected management of expenses on higher revenue.

The increase in segment operating income and comparability of segment operating income as a percentage of revenue (“operating margin percentage”) in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 reflected the combined effects of the items discussed above regarding this segment.

On April 4, 2019, we entered into a definitive agreement under which we will sell our Night Vision business. See *Note T — Subsequent Events* in the Notes for additional information.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The increase in segment revenue in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to \$136 million higher revenue from Tactical Communications and higher revenue in Public Safety and Professional Communications and Night Vision.

The increase in segment gross margin, decrease in segment gross margin percentage and decreases in segment ESA expenses and segment ESA percentage for the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 were primarily due to the same reasons noted above regarding this segment for the third quarters of fiscal 2019 and 2018.

The increases in segment operating income and operating margin percentage in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 reflected the combined effects of the items discussed above regarding this segment for the first three quarters of fiscal 2019 and 2018.

### Electronic Systems Segment

	Quarter Ended			Three Quarters Ended		
	March 29, 2019	March 30, 2018	% Inc/(Dec)	March 29, 2019	March 30, 2018	% Inc/(Dec)
	(Dollars in millions)					
Revenue	\$649	\$606	7 %	\$1,855	\$1,729	7 %
Cost of product sales and services	(449 )	(424 )	6 %	(1,284 )	(1,207 )	6 %
Gross margin	200	182	10 %	571	522	9 %
<i>% of revenue</i>	<i>31 %</i>	<i>30 %</i>		<i>31 %</i>	<i>30 %</i>	
ESA expenses	(77 )	(74 )	4 %	(216 )	(208 )	4 %
<i>% of revenue</i>	<i>12 %</i>	<i>12 %</i>		<i>12 %</i>	<i>12 %</i>	
Segment operating income	\$123	\$108	14 %	\$355	\$314	13 %
<i>% of revenue</i>	<i>19 %</i>	<i>18 %</i>		<i>19 %</i>	<i>18 %</i>	

*Third Quarter 2019 Compared With Third Quarter 2018:* The increase in segment revenue in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to \$78 million of higher revenue from growth in avionics, release systems and electronic warfare on long-term platforms, including F-35, F/A-18 and F-16, partially offset by lower revenue from the conclusion of certain Mission Networks programs and the timing of the transition of the United Arab Emirates (“UAE”) integrated battle management system program from a start-up to a full capability phase.

The increase in segment gross margin in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to higher segment revenue. The increase in segment gross margin percentage in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to operational performance. The increase in segment ESA expenses in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to increased investments in bids and proposals and R&D. Segment ESA percentage in the third quarter of fiscal 2019 was comparable with the third quarter of fiscal 2018.

The increases in segment operating income and segment operating margin percentage in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 reflected the combined effects of the items discussed above regarding this segment.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The increase in segment revenue in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to \$166 million of higher revenue from growth in avionics, release systems and electronic warfare on long-term platforms, including F-35, F/A-18 and F-16, partially offset by lower revenue from the timing of the transition of the UAE integrated battle management system program from a start-up to a full capability phase.

The increase in segment gross margin in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to higher segment revenue, favorable mix and productivity savings. The increase in segment gross margin percentage in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to favorable mix and productivity savings. The increase in segment ESA expenses in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to the same reasons noted above regarding this segment for the third quarters of fiscal 2019 and 2018. Segment ESA percentage in

the first three quarters of fiscal 2019 was comparable with the first three quarters of fiscal 2018. The increases in segment operating income and segment operating margin percentage in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 reflected the combined effects of the items discussed above regarding this segment for the first three quarters of fiscal 2019 and 2018.

**Space and Intelligence Systems Segment**

	Quarter Ended			Three Quarters Ended

	(Dollars in millions)					
Revenue	\$514	\$482	7 %	\$1,515	\$1,410	7 %
Cost of product sales and services	(345 )	(326 )	6 %	(1,021 )	(955 )	7 %
Gross margin	169	156	8 %	494	455	9 %
<i>% of revenue</i>	33 %	32 %		33 %	32 %	
ESA expenses	(82 )	(73 )	12 %	(229 )	(205 )	12 %
<i>% of revenue</i>	16 %	15 %		15 %	15 %	
Segment operating income	\$87	\$83	5 %	\$265	\$250	6 %
<i>% of revenue</i>	17 %	17 %		17 %	18 %	

*Third Quarter 2019 Compared With Third Quarter 2018:* The increase in segment revenue in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to \$45 million of higher revenue from classified programs, driven by exquisite systems, next generation technology and small satellites, partially offset by lower revenue from environmental programs.

The increase in segment gross margin in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to higher segment revenue. The increase in segment gross margin percentage in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to improved program execution. The increases in segment ESA expenses and segment ESA percentage in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 were primarily due to increased investments in bids and proposals and R&D.

The increase in segment operating income and comparability of segment operating margin percentage in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 reflected the combined effects of the items discussed above regarding this segment.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The increase in segment revenue in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to \$136 million of higher revenue from classified programs, partially offset by lower revenue from environmental programs.

The increases in segment gross margin, segment gross margin percentage and segment ESA expenses in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 were primarily due to the same reasons noted above regarding this segment for the third quarters of fiscal 2019 and 2018. Segment ESA percentage in the first three quarters of fiscal 2019 was comparable with the first three quarters of fiscal 2018.

The increase in segment operating income and slight decrease of segment operating margin percentage in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 reflected the combined effects of the items discussed above regarding this segment for the first three quarters of fiscal 2019 and 2018.

**Unallocated Corporate Expense**

	Quarter Ended			Three Quarters Ended		
	March 29, 2019	March 30, 2018	% Inc/(Dec)	March 29, 2019	March 30, 2018	% Inc/(Dec)
	(Dollars in millions)					
Unallocated corporate expense and corporate eliminations	\$31	\$ 61	(49 )%	\$79	\$ 107	(26 )%
Amortization of intangible assets from Exelis acquisition	25	25	— %	76	75	1 %

*Third Quarter 2019 Compared With Third Quarter 2018:* The decrease in unallocated corporate expense in the third quarter of fiscal 2019 compared with the third quarter of fiscal 2018 was primarily due to \$45 million of charges related to our decision to transition and exit a commercial air-to-ground LTE radio communications line of business in the third quarter of fiscal 2018, partially offset by \$16 million of L3 merger-related transaction and integration costs in the third quarter of fiscal 2019.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The decrease in unallocated corporate expense in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to \$45

million of

30

---

charges related to our decision to transition and exit a commercial air-to-ground LTE radio communications line of business in the third quarter of fiscal 2018 and a \$12 million adjustment for deferred compensation in the second quarter of fiscal 2018, partially offset by \$29 million of L3 merger-related transaction and integration costs in the first three quarters of fiscal 2019.

## LIQUIDITY, CAPITAL RESOURCES AND FINANCIAL STRATEGIES

### Cash Flows

	Three Quarters Ended	
	March 29, 2019	March 30, 2018
	(In millions)	
Net cash provided by operating activities	\$874	\$230
Net cash used in investing activities	(104)	(81)
Net cash used in financing activities	(722)	(196)
Effect of exchange rate changes on cash and cash equivalents	(2)	6
Net increase (decrease) in cash and cash equivalents	46	(41)
Cash and cash equivalents, beginning of year	288	484
Cash and cash equivalents, end of quarter	\$334	\$443

**Cash and cash equivalents:** The \$46 million net increase in cash and cash equivalents from the end of fiscal 2018 to the end of the third quarter of fiscal 2019 was primarily due to:

- \$874 million of net cash provided by operating activities; partially offset by
- \$278 million of net repayments of borrowings, including \$300 million used for repayment at maturity of the entire principal amount of our Floating Rate Notes due February 27, 2019;
- \$244 million used to pay cash dividends;
- \$200 million used to repurchase shares of our common stock; and
- \$104 million used for additions of property, plant and equipment.

The \$41 million net decrease in cash and cash equivalents from the end of fiscal 2017 to the end of the third quarter of fiscal 2018 was primarily due to:

- \$230 million of net cash provided by operating activities, reflecting the impact of a \$300 million voluntary pension contribution;
- \$185 million of net proceeds from borrowings, including \$250 million in proceeds from the issuance of the Floating Rate Notes due April 2020, \$300 million in proceeds from the issuance of the Floating Rate Notes due February 2019,
- \$253 million used for repayment of our remaining outstanding indebtedness under the 5-year tranche of our variable-rate term loans due May 29, 2020, \$16 million used for repayment of outstanding indebtedness under the 3-year tranche of our variable-rate term loans due May 29, 2018 and \$75 million used for repayment of short-term debt outstanding under our commercial paper program; and
- \$31 million of proceeds from exercises of employee stock options; more than offset by
- \$205 million used to pay cash dividends;
- \$197 million used to repurchase shares of our common stock; and
- \$79 million used for additions of property, plant and equipment.

At March 29, 2019, we had cash and cash equivalents of \$334 million, and we have a senior unsecured \$1 billion revolving credit facility that expires in June 2023 (of which \$900 million was available to us as of March 29, 2019, as a result of \$100 million of short-term debt outstanding under our commercial paper program). Additionally, we had \$3.4 billion of long-term debt outstanding at March 29, 2019, the majority of which we incurred in connection with our acquisition of Exelis in the fourth quarter of fiscal 2015. For further information regarding our long-term debt, see Note 13: "Debt" in our Notes to Consolidated Financial Statements in our Fiscal 2017-2018 Update 8-K. Our \$334 million of cash and cash equivalents at March 29, 2019 included \$141 million held by our foreign subsidiaries, of which \$67 million was considered permanently reinvested. Determining the future tax cost of repatriating such funds to the U.S. is not practical at this time, because the cost impact of the rules regarding the netting of earnings of related

foreign subsidiaries is subject to clarification. However, we have no current plans to repatriate the funds considered permanently reinvested.

Given our current cash position, outlook for funds generated from operations, credit ratings, available credit facility, cash needs and debt structure, we have not experienced to date, and do not expect to experience, any material issues with liquidity, although we can give no assurances concerning our future liquidity, particularly in light of our overall level of debt, U.S. Government budget uncertainties (including the recent, or any potential successive, U.S. Government shutdown) and the state of global commerce and financial uncertainty.

We also currently believe that existing cash, funds generated from operations, our credit facility and access to the public and private debt and equity markets will be sufficient to provide for our anticipated working capital requirements, capital expenditures, dividend payments, repurchases under our share repurchase program and repayments of our debt securities at maturity for the next 12 months and the reasonably foreseeable future thereafter. Our total capital expenditures in fiscal 2019 are expected to be approximately \$170 million. We anticipate tax payments in fiscal 2019 to be less than our tax expense for the same period. Other than those cash outlays noted in “Contractual Obligations” in Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Fiscal 2017-2018 Update 8-K and “Commercial Commitments and Contractual Obligations” below in this MD&A, capital expenditures, dividend payments, repurchases under our share repurchase program and payments associated with our pending merger with L3 (including transaction and integration costs), we do not anticipate any significant cash outlays during the remainder of fiscal 2019.

There can be no assurance, however, that our business will continue to generate cash flows at current levels or that the cost or availability of future borrowings, if any, under our commercial paper program or our credit facility or in the debt markets will not be impacted by any potential future credit or capital markets disruptions. If we are unable to maintain cash balances or generate sufficient cash flow from operations to service our obligations, we may be required to sell assets, reduce capital expenditures, reduce or eliminate strategic acquisitions, reduce or terminate our share repurchases, reduce or eliminate dividends, refinance all or a portion of our existing debt or obtain additional financing. Our ability to make principal payments or pay interest on or refinance our indebtedness depends on our future performance and financial results, which, to a certain extent, are subject to general conditions in or affecting the defense, government and other markets we serve and to general economic, political, financial, competitive, legislative and regulatory factors beyond our control.

**Net cash provided by operating activities:** The \$644 million increase in net cash provided by operating activities in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to a \$300 million voluntary contribution to our U.S. qualified pension plans during the third quarter of fiscal 2018, the impact of higher net income, a \$115 million decrease in cash used to fund working capital, reflecting a reduction in accounts receivables despite higher revenue, and a \$50 million decrease in cash used for matching contributions to defined contribution plans.

**Net cash used in investing activities:** The \$23 million increase in net cash used in investing activities in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to a \$25 million increase in cash used for additions of property, plant and equipment.

**Net cash used in financing activities:** The \$526 million increase in net cash used in financing activities in the first three quarters of fiscal 2019 compared with the first three quarters of fiscal 2018 was primarily due to \$278 million of net repayments of borrowings in the first three quarters of fiscal 2019 compared with \$185 million of net proceeds from borrowings in the first three quarters of fiscal 2018 and a \$39 million increase in cash used to pay dividends.

#### **Funding of Pension Plans**

Funding requirements under applicable laws and regulations are a major consideration in making contributions to our U.S. pension plans. Although we have significant discretion in making voluntary contributions, the Employee Retirement Income Security Act of 1974, as amended by the Pension Protection Act of 2006 and further amended by the Worker, Retiree, and Employer Recovery Act of 2008, the Moving Ahead for Progress in the 21st Century Act (“MAP-21”), and applicable Internal Revenue Code regulations mandate minimum funding thresholds. Failure to satisfy the minimum funding thresholds could result in restrictions on our ability to amend the plans or make benefit payments. With respect to our U.S. qualified defined benefit pension plans, we intend to contribute annually not less than the required minimum funding thresholds.

The Highway and Transportation Funding Act of 2014 and the Bipartisan Budget Act of 2015 further extended the interest rate stabilization provision of MAP-21 until 2020. We made voluntary contributions to our U.S. qualified defined benefit pension plans of \$300 million and \$400 million during the third quarter of fiscal 2018 and the fourth quarter of fiscal 2018.

U.S. qualified defined benefit pension plans

Future required contributions primarily will depend on the actual annual return on assets and the discount rate used to measure the benefit obligation at the end of each year. Depending on these factors, and the resulting funded status of

our pension plans, the level of future statutory required minimum contributions could be material. We had net unfunded defined benefit plan obligations of \$601 million at March 29, 2019. See Note 14: “Pension and Other Postretirement Benefits” in our Notes to Consolidated Financial Statements in our Fiscal 2017-2018 Update 8-K and *Note J — Postretirement Benefit Plans* in the Notes for further information regarding our pension plans.

**Common Stock Repurchases**

During the first three quarters of fiscal 2019, we used \$200 million to repurchase 1,219,750 shares of our common stock under our repurchase program at an average price per share of \$163.99, including commissions of \$.02 per share. During the

first three quarters of fiscal 2018, we used \$197 million to repurchase 1,466,713 shares of our common stock under our repurchase program at an average price per share of \$134.36, including commissions of \$.01 per share. In the first three quarters of fiscal 2019 and fiscal 2018, \$24 million and \$10 million, respectively, in shares of our common stock were delivered to us or withheld by us to satisfy withholding taxes on employee share-based awards. Shares purchased by us are cancelled and retired.

As of March 29, 2019, we had a remaining, unused authorization of approximately \$501 million under our repurchase program, which does not have an expiration date. Repurchases under our repurchase program are expected to be funded with available cash and commercial paper and may be made through open market purchases, private transactions, transactions structured through investment banking institutions or any combination thereof. The level of our repurchases depends on a number of factors, including our financial condition, capital requirements, cash flows, results of operations, future business prospects and other factors our Board of Directors may deem relevant. The timing, volume and nature of repurchases are subject to market conditions, applicable securities laws and other factors and are at our discretion and may be suspended or discontinued at any time. Pursuant to the Merger Agreement, we will not make repurchases of our common stock at least until after closing of the pending merger, without L3's consent. Additional information regarding our repurchase program is set forth in this Report under Part II. Item 2. "Unregistered Sales of Equity Securities and Use of Proceeds."

### **Dividends**

On August 25, 2018, our Board of Directors increased the quarterly cash dividend rate on our common stock from \$.570 per share to \$.685 per share, for an annualized cash dividend rate of \$2.740 per share, which was our seventeenth consecutive annual increase in our quarterly cash dividend rate. Our annualized cash dividend rate in fiscal 2018 was \$2.280 per share. There can be no assurances that our annualized cash dividend rate will continue to increase. Quarterly cash dividends are typically paid in March, June, September and December. We currently expect that cash dividends will continue to be paid in the near future, but we can give no assurances concerning payment of future dividends. The declaration of dividends and the amount thereof will depend on a number of factors, including our financial condition, capital requirements, cash flows, results of operations, future business prospects and other factors our Board of Directors may deem relevant.

### **Capital Structure and Resources**

**2018 Credit Agreement:** We have a \$1 billion, 5-year senior unsecured revolving credit facility (the "2018 Credit Facility") under a Revolving Credit Agreement (the "2018 Credit Agreement") entered into on June 26, 2018 with a syndicate of lenders. For a description of the 2018 Credit Facility and the 2018 Credit Agreement, see Note 12: "Credit Arrangements" in our Notes to Consolidated Financial Statements in our Fiscal 2017-2018 Update 8-K.

We were in compliance with the covenants in the 2018 Credit Agreement at March 29, 2019, including the covenant requiring that we not permit our ratio of consolidated total indebtedness to total capital, each as defined in the 2018 Credit Agreement, to be greater than 0.65 to 1.00. At March 29, 2019, we had no borrowings outstanding under the 2018 Credit Agreement but we had \$100 million in borrowings outstanding under our commercial paper program that was supported by the 2018 Credit Facility.

**Long-Term Debt:** For a description of our long-term variable-rate and fixed-rate debt, see Note 13: "Debt" in our Notes to Consolidated Financial Statements in our Fiscal 2017-2018 Update 8-K.

**Short-Term Debt:** Our short-term debt at March 29, 2019 and June 29, 2018 was \$103 million and \$78 million, respectively. Our short-term debt at March 29, 2019 and June 29, 2018 consisted of commercial paper and local borrowing by international subsidiaries for working capital needs. Our commercial paper program was supported at March 29, 2019 and June 29, 2018 by the 2018 Credit Facility.

**Other Agreements:** We have a RSA with a third-party financial institution that permits us to sell, on a non-recourse basis, up to \$50 million of outstanding receivables at any given time. From time to time, we have sold certain customer receivables under the RSA, which we continue to service and collect on behalf of the third-party financial institution and which we account for as sales of receivables with sale proceeds included in net cash from operating activities. The impact to net cash from operating activities from these transactions was not material in the first three quarters of fiscal 2019 and 2018.

### Off-Balance Sheet Arrangements

In accordance with the definition under SEC rules, any of the following qualify as off-balance sheet arrangements:

• Any obligation under certain guarantee contracts;

• A retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets;

• Any obligation, including a contingent obligation, under certain derivative instruments; and

• Any obligation, including a contingent obligation, under a material variable interest in an unconsolidated entity that is held by, and material to, the registrant, where such entity provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or R&D services with the registrant.

As of March 29, 2019, we were not participating in any material transactions that generated relationships with unconsolidated entities or financial partnerships, including variable interest entities, and we did not have any material retained or contingent interest in assets as defined above. As of March 29, 2019, we did not have material financial guarantees or other contractual commitments that we believe are reasonably likely to adversely affect our financial condition, results of operations or cash flows, and we were not a party to any related party transactions that materially affect our financial condition, results of operations or cash flows.

We have, from time to time, divested certain of our businesses and assets. In connection with these divestitures, we often provide representations, warranties and/or indemnities to cover various risks and unknown liabilities, such as environmental liabilities and tax liabilities. We cannot estimate the potential liability from such representations, warranties and indemnities because they relate to unknown conditions. We do not believe, however, that the liabilities relating to these representations, warranties and indemnities will have a material adverse effect on our financial condition, results of operations or cash flows.

Due to our downsizing of certain operations pursuant to acquisitions, divestitures, restructuring plans or otherwise, certain properties leased by us have been sublet to third parties. In the event any of these third parties vacates any of these premises, we would be legally obligated under master lease arrangements. We believe that the financial risk of default by such sublessees is individually and in the aggregate not material to our financial condition, results of operations or cash flows.

### Commercial Commitments and Contractual Obligations

The amounts disclosed in our Fiscal 2017-2018 Update 8-K include our contractual obligations and commercial commitments. Except for changes in our short-term debt as described under “Capital Structure and Resources” in this MD&A and the repayment at maturity of the entire \$300 million principal amount of our Floating Rate Notes due February 27, 2019, no material changes occurred during the first three quarters of fiscal 2019 in our contractual cash obligations to repay debt, to purchase goods and services, to make payments under operating leases or our commercial commitments, or in our contingent liabilities on outstanding surety bonds, standby letters of credit or other arrangements as disclosed in our Fiscal 2017-2018 Update 8-K.

In connection with the Merger Agreement and the transactions contemplated thereby, we have a contractual obligation to issue 1.30 shares of our common stock for each share of L3 common stock outstanding at closing of the pending merger, and we expect to incur other expenses, such as transaction costs, other payments required as a result of the merger and integration and post-closing restructuring costs. See *Note S — Pending Merger* in the Notes for further information. In addition, we may have obligations under other contractual arrangements that are accelerated or otherwise impacted as a result of the merger.

**CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

Our Condensed Consolidated Financial Statements (Unaudited) and accompanying Notes are prepared in accordance with GAAP. Preparing financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, expenses and backlog as well as disclosures of contingent assets and liabilities. Actual results may differ from our estimates. These estimates and assumptions are affected by the application of our accounting policies. Effective June 30, 2018, we adopted ASC 606, a new revenue recognition standard under which revenue is recognized as control transfers to the customer. The guidance in this standard is principles-based, and, consequently, entities are required to use more judgment and make more estimates than under prior guidance, including identifying contract performance obligations, estimating variable consideration to include in the contract price and allocating the transaction price to separate performance obligations. Under ASC 606, revenue for our contracts is generally recognized over time using the cost-to-cost method, which is consistent with the revenue recognition model we used for the majority of our contracts prior to the adoption of this standard. In most cases, the accounting for contracts where we previously recognized revenue as units were delivered has changed under ASC 606 such that we now recognize revenue as costs are incurred. In addition, for certain of our contracts, there is a change in the number of performance obligations under ASC 606, which has altered the timing of revenue and margin recognition. Refer to Note 1 — “Significant Accounting Policies” in our Notes to Consolidated Financial Statements in our Fiscal 2017-2018 Update 8-K for a description of our updated revenue recognition accounting policies and other significant accounting policies updated in connection with our adoption of ASC 606, as well as for all other significant accounting policies. Critical accounting policies and estimates are those that require application of management’s most difficult, subjective or complex judgments, often as a result of matters that are inherently uncertain and may change in subsequent periods. Critical accounting policies and estimates for us include: (i) revenue recognition on contracts and contract estimates (discussed in greater detail in the following paragraphs), (ii) postretirement benefit plans, (iii) provisions for excess and obsolete inventory losses, (iv) impairment testing of goodwill, and (v) income taxes and tax valuation allowances. For additional discussion of our critical accounting policies and estimates, see “Critical Accounting Policies and Estimates” in Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Fiscal 2017-2018 Update 8-K.

**Revenue Recognition**

A significant portion of our business is derived from development and production contracts. Revenue and profit related to development and production contracts are recognized over time, typically using the POC cost-to-cost method of revenue recognition, whereby we measure our progress toward completion of performance obligations based on the ratio of costs incurred to date to estimated costs at completion under the contract. Because costs incurred represent work performed, we believe this method best depicts the transfer of control to the customer. We determine the transaction price for each contract based on our best estimate of the consideration we expect to receive, and this includes assumptions regarding variable consideration, such as award and incentive fees. These variable amounts generally are awarded upon achievement of certain negotiated performance metrics, program milestones or cost targets and can be based upon customer discretion. We include such estimated amounts in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Under the POC cost-to-cost method of revenue recognition, a single estimated profit margin is used to recognize profit for each performance obligation over its period of performance. Recognition of profit on a contract requires estimates of the total cost at completion and transaction price and the measurement of progress towards completion. Due to the long-term nature of many of our contracts, developing the estimated total cost at completion and total transaction price often requires judgment. Factors that must be considered in estimating the cost of the work to be completed include: the nature and complexity of the work to be performed, subcontractor performance and the risk and impact of delayed performance. Factors that must be considered in estimating the total transaction price include contractual cost or performance incentives (such as incentive fees, award fees and penalties) and other forms of variable consideration as well as our historical experience and expectation for performance on the contract. At the outset of each contract, we gauge its complexity and perceived risks and establish an estimated total cost at completion in line with these expectations. After establishing the estimated total cost at completion, we follow a standard EAC process in which we review the progress and performance on our ongoing contracts at least quarterly and, in many cases, more frequently.

If we successfully retire risks associated with the technical, schedule and cost aspects of a contract, we may lower our estimated total cost at completion commensurate with the retirement of these risks. Conversely, if we are not successful in retiring these risks, we may increase our estimated total cost at completion. Additionally, as the contract progresses, our estimates of total transaction price may increase or decrease if, for example, we receive award fees that are higher or lower than expected. When adjustments in estimated total costs at completion or in estimated total transaction price are determined, the related impact on operating income is recognized using the cumulative catch-up method, which recognizes in the current period the cumulative effect of such adjustments for all prior periods. Any anticipated losses on these contracts are fully recognized in the period in which the losses become evident.

EAC adjustments had the following impacts to operating income for the periods presented:

	Quarter Ended		Three Quarters Ended	
	March 2019	March 30, 2018	March 29, 2019	March 30, 2018
	(In millions)			
Favorable adjustments	\$32	\$ 26	\$100	\$ 90
Unfavorable adjustments	(26 )	(30 )	(95 )	(105 )
Net operating income adjustments	\$6	\$ (4 )	\$5	\$ (15 )

*Third Quarter 2019 Compared With Third Quarter 2018:* The net favorable impact to operating income from EAC adjustments in the third quarter of fiscal 2019 compared to the net unfavorable impact to operating income from EAC adjustments in the third quarter of fiscal 2018 was primarily due to higher cost efficiencies realized in the third quarter of fiscal 2019 and the conclusion of certain Mission Networks programs that realized cost growth in third quarter of fiscal 2018, partially offset by a \$12 million unfavorable adjustment in the third quarter of fiscal 2019 from a reduction in estimated transaction price for a fixed-price infrastructure development contract.

*First Three Quarters 2019 Compared With First Three Quarters 2018:* The net favorable impact to operating income from EAC adjustments in the first three quarters of fiscal 2019 compared to the net unfavorable impact to operating income from EAC adjustments in the first three quarters of fiscal 2018 was primarily due to the conclusion of certain Mission Networks programs that realized cost growth in first three quarters of fiscal 2018, partially offset by a \$12 million unfavorable adjustment in the third quarter of fiscal 2019 from a reduction in estimated transaction price for a fixed-price infrastructure development contract.

We also recognize revenue from contracts with multiple performance obligations. For these contracts, we allocate the transaction price to each performance obligation based on the relative standalone selling price of the good or service underlying each performance obligation. The standalone selling price represents the amount for which we would sell the good or service to a customer on a standalone basis (i.e., not sold as bundled sale with any other products or services). The allocation of transaction price among separate performance obligations may impact the timing of revenue recognition but will not change the total revenue recognized on the contract. Our contracts with the U.S. Government, including foreign military sales contracts, are subject to the Federal Acquisition Regulations and the prices of our contract deliverables are typically based on our estimated or actual costs plus a reasonable profit margin. As a result, the standalone selling prices of the goods and services in these contracts are typically equal to the selling prices stated in the contract, thereby eliminating the need to allocate (or reallocate) the transaction price to the multiple performance obligations. In our non-U.S. Government contracts, we also generally use the expected cost plus a margin approach to determine standalone selling price. In addition, we determine standalone selling price for certain contracts that are commercial in nature based on observable selling prices. In determining the appropriate margin under the cost plus margin approach, we consider historical margins on similar products sold to similar customers or within similar geographies where objective evidence is available. We may also consider our cost structure and pricing objectives, the nature of the proposal, the effects of customization of pricing, our practices used to establish pricing of bundled products, the expected technological life of the product, margins earned on similar contracts with different customers and other factors to determine the appropriate margin.

#### **Impact of Recently Issued Accounting Standards**

Accounting standards that have been recently issued, but are not yet effective for us, are described in *Note A — Significant Accounting Policies and Recent Accounting Standards* in the Notes, which describes the potential impact that these standards are expected to have on our financial condition, results of operations and cash flows.

## **FORWARD-LOOKING STATEMENTS AND FACTORS THAT MAY AFFECT FUTURE RESULTS**

This Report contains forward-looking statements that involve risks and uncertainties, as well as assumptions that may not materialize or prove to be correct, which could cause our results to differ materially from those expressed in or implied by such forward-looking statements. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including, but not limited to, statements concerning: our plans, strategies and objectives for future operations; new products, systems, technologies, services or developments; future economic conditions, performance or outlook; future political conditions; the outcome of contingencies; the potential level of share repurchases, dividends or pension contributions; potential acquisitions or divestitures; the value of contract awards and programs; expected cash flows or capital expenditures; our beliefs or expectations; activities, events or developments that we intend, expect, project, believe or anticipate will or may occur in the future; and assumptions underlying any of the foregoing. Forward-looking statements may be identified by their use of forward-looking terminology, such as “believes,” “expects,” “may,” “should,” “would,” “will,” “intends,” “plans,” “estimates,” “anticipates,” “projects” and similar words or expressions. You should not place undue reliance on these forward-looking statements, which reflect our management’s opinions only as of the date of filing of this Report and are not guarantees of future performance or actual results. Forward-looking statements are made in reliance on the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). The following are some of the factors we believe could cause our actual results to differ materially from our historical results or our current expectations or projections:

We depend on U.S. Government customers for a significant portion of our revenue, and the loss of these relationships, a reduction in U.S. Government funding or a change in U.S. Government spending priorities could have an adverse impact on our business, financial condition, results of operations and cash flows.

We depend significantly on U.S. Government contracts, which often are only partially funded, subject to immediate termination, and heavily regulated and audited. The termination or failure to fund, or negative audit findings for, one or more of these contracts could have an adverse impact on our business, financial condition, results of operations and cash flows.

We could be negatively impacted by a security breach, through cyber attack, cyber intrusion, insider threats or otherwise, or other significant disruption of our IT networks and related systems or of those we operate for certain of our customers.

The U.S. Government’s budget deficit, the national debt and sequestration, as well as any inability of the U.S. Government to complete its budget process for any government fiscal year and consequently having to operate on funding levels equivalent to its prior fiscal year pursuant to a “continuing resolution” or shut down, could have an adverse impact on our business, financial condition, results of operations and cash flows.

The level of returns on defined benefit plan assets, changes in interest rates and other factors could affect our financial condition, results of operations and cash flows in future periods.

We enter into fixed-price contracts that could subject us to losses in the event of cost overruns or a significant increase in inflation.

We use estimates in accounting for many of our programs, and changes in our estimates could adversely affect our future financial results.

We derive a significant portion of our revenue from international operations and are subject to the risks of doing business internationally, including fluctuations in currency exchange rates.

Our reputation and ability to do business may be impacted by the improper conduct of our employees, agents or business partners.

We may not be successful in obtaining the necessary export licenses to conduct certain operations abroad, and Congress may prevent proposed sales to certain foreign governments.

Our future success will depend on our ability to develop new products, systems, services and technologies that achieve market acceptance in our current and future markets.

We participate in markets that are often subject to uncertain economic conditions, which makes it difficult to estimate growth in our markets and, as a result, future income and expenditures.

We cannot predict the consequences of future geo-political events, but they may adversely affect the markets in which we operate, our ability to insure against risks, our operations or our profitability.

Strategic transactions, including acquisitions and divestitures, involve significant risks and uncertainties that could adversely affect our business, financial condition, results of operations and cash flows.

Disputes with our subcontractors or the inability of our subcontractors to perform, or our key suppliers to timely deliver our components, parts or services, could cause our products, systems or services to be produced or delivered in an untimely or unsatisfactory manner.

Third parties have claimed in the past and may claim in the future that we are infringing directly or indirectly upon their intellectual property rights, and third parties may infringe upon our intellectual property rights.

The outcome of litigation or arbitration in which we are involved from time to time is unpredictable, and an adverse decision in any such matter could have a material adverse effect on our financial condition, results of operations and cash flows.

We face certain significant risk exposures and potential liabilities that may not be covered adequately by insurance or indemnity.

Changes in our effective tax rate may have an adverse effect on our results of operations.

Our level of indebtedness and our ability to make payments on or service our indebtedness and our unfunded defined benefit plans liability may adversely affect our financial and operating activities or our ability to incur additional debt.

A downgrade in our credit ratings could materially adversely affect our business.

Unforeseen environmental issues could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We have significant operations in locations that could be materially and adversely impacted in the event of a natural disaster or other significant disruption.

Changes in future business or other market conditions could cause business investments and/or recorded goodwill or other long-term assets to become impaired, resulting in substantial losses and write-downs that would adversely affect our results of operations.

Some of our workforce is represented by labor unions, so our business could be harmed in the event of a prolonged work stoppage.

We must attract and retain key employees, and any failure to do so could seriously harm us.

Additional details and discussions concerning some of the factors that could affect our forward-looking statements or future results are set forth in our Fiscal 2018 Form 10-K under Item 1A. "Risk Factors" and in Part II. Item 1A. "Risk Factors" in this Report. The foregoing list of factors and the factors set forth in Item 1A. "Risk Factors" included in our Fiscal 2018 Form 10-K and in Part II. Item 1A. "Risk Factors" in this Report are not exhaustive. Additional risks and uncertainties not known to us or that we currently believe not to be material also may adversely impact our business, financial condition, results of operations and cash flows. Should any risks or uncertainties develop into actual events, these developments could have a material adverse effect on our business, financial condition, results of operations and cash flows. The forward-looking statements contained in this Report are made as of the date of filing of this Report, and we disclaim any intention or obligation, other than imposed by law, to update or revise any forward-looking statements or to update the reasons actual results could differ materially from those projected in the forward-looking statements, whether as a result of new information, future events or developments or otherwise. For further information concerning risk factors, see Part II. Item 1A. "Risk Factors" in this Report.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

In the normal course of business, we are exposed to risks associated with foreign currency exchange rates and changes in interest rates. We employ established policies and procedures governing the use of financial instruments to manage our exposure to such risks.

**Foreign Exchange and Currency:** We use foreign currency forward contracts and options to hedge both balance sheet and off-balance sheet future foreign currency commitments. Factors that could impact the effectiveness of our hedging programs for foreign currency include accuracy of sales estimates, volatility of currency markets and the cost and availability of hedging instruments. A 10 percent change in currency exchange rates for our foreign currency derivatives held at March 29, 2019 would not have had a material impact on the fair value of such instruments or our results of operations or cash flows. This quantification of exposure to the market risk associated with foreign currency financial instruments does not take into account the offsetting impact of changes in the fair value of our foreign denominated assets, liabilities and firm commitments. See *Note N — Derivative Instruments and Hedging Activities* in the Notes for additional information.

**Interest Rates:** At March 29, 2019, we had long-term fixed-rate debt obligations. The fair value of these obligations is impacted by changes in interest rates; however, a 10 percent change in interest rates for our long-term fixed-rate debt obligations at March 29, 2019 would not have had a material impact on the fair value of these obligations.

Additionally, there is no interest-rate risk associated with these obligations on our results of operations or cash flows, because the interest rates are fixed and because our long-term fixed-rate debt is not puttable to us (i.e., not required to be redeemed by us prior to maturity). We can give no assurances, however, that interest rates will not change

significantly or have a material effect on the fair value of our long-term debt obligations over the next twelve months. At March 29, 2019, we also had long-term variable-rate debt obligations of \$250 million, comprised of \$250 million of Floating Rate Notes due April 30, 2020. These debt obligations bear interest that is variable based on certain short-term indices, thus exposing us to interest-rate risk; however, a 10 percent change in interest rates for these debt obligations at March 29, 2019

38

---

would not have had a material impact on our results of operations or cash flows. See Note 13: “Debt” in our Notes to Consolidated Financial Statements in our Fiscal 2017-2018 Update 8-K for further information.

We utilize derivative instruments, from time to time, to mitigate interest rate risk associated with anticipated debt transactions. If the derivative instrument is designated as a cash flow hedge, gains and losses from changes in the fair value of such instrument are deferred and included as a component of accumulated other comprehensive income and reclassified to interest expense in the period in which the hedged transaction affects earnings.

At March 29, 2019, we had an outstanding yield-based treasury lock agreement with a notional amount of \$400 million to hedge our exposure to fluctuations in the 10-year U.S. Treasury rate associated with our anticipated issuance of long-term notes to redeem or repay at maturity the entire \$400 million outstanding principal amount of our 2.7% Notes due April 27, 2020. An unrealized after-tax loss of \$8 million associated with this treasury lock was deferred in accumulated other comprehensive income at March 29, 2019. A 10 percent change in the 10-year U.S. Treasury rate would not have had a material impact on the fair value of this treasury lock agreement or our results of operations or cash flows. See *Note N — Derivative Instruments and Hedging Activities* in the Notes for additional information.

#### **Item 4. Controls and Procedures.**

(a) *Evaluation of Disclosure Controls and Procedures:* We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Our disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can provide only reasonable assurance of achieving their control objectives, and management necessarily is required to use its judgment in evaluating the cost-benefit relationship of possible controls and procedures. As required by Rule 13a-15 under the Exchange Act, as of the end of the third quarter of fiscal 2019, we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures. This evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer. Based on this work and other evaluation procedures, our management, including our Chief Executive Officer and our Chief Financial Officer, has concluded that as of the end of the third quarter of fiscal 2019 our disclosure controls and procedures were effective.

(b) *Changes in Internal Control:* We periodically review our internal control over financial reporting as part of our efforts to ensure compliance with the requirements of Section 404 of the Sarbanes-Oxley Act of 2002. In addition, we routinely review our system of internal control over financial reporting to identify potential changes to our processes and systems that may improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems, consolidating the activities of business units, migrating certain processes to our shared services organizations, formalizing policies and procedures, improving segregation of duties and increasing monitoring controls. In addition, when we acquire new businesses, we incorporate our controls and procedures into the acquired business as part of our integration activities. We are continuing our implementation of a new income tax provision software designed to enhance process stability and further facilitate the computation and recording of tax provisions for our U.S. and international entities. We are also continuing the multi-year, phased implementation of a new core enterprise resource planning (“ERP”) system in certain business units, which we expect to reduce the number of ERP systems across the Company and enhance our system of internal control over financial reporting. We expect the initial implementation of the new core ERP system in each affected business unit to involve changes to related processes that are part of our system of internal control over financial reporting and to require testing for effectiveness and potential further changes as implementation progresses. During the first quarter of fiscal 2018, we successfully completed the initial implementation of the new core ERP system in two business units and during the first quarter of fiscal 2019, we completed the implementation of the new core ERP system in two additional business units. Other than the system and

related process changes described above, there have been no changes in our internal control over financial reporting that occurred during the third quarter of fiscal 2019 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### Item 1. Legal Proceedings.

*General.* From time to time, as a normal incident of the nature and kind of businesses in which we are or were engaged, various claims or charges are asserted and litigation or arbitration is commenced by or against us arising from or related to matters, including, but not limited to: product liability; personal injury; patents, trademarks, trade secrets or other intellectual property; labor and employee disputes; commercial or contractual disputes; strategic acquisitions or divestitures; the prior sale or use of former products allegedly containing asbestos or other restricted materials; breach of warranty; or environmental matters. Claimed amounts against us may be substantial, but may not bear any reasonable relationship to the merits of the claim or the extent of any real risk of court or arbitral awards. We record accruals for losses related to those matters against us that we consider to be probable and that can be reasonably estimated. Gain contingencies, if any, are recognized when they are realized and legal costs generally are expensed when incurred. At March 29, 2019, our accrual for the potential resolution of lawsuits, claims or proceedings that we consider probable of being decided unfavorably to us was not material. Although it is not feasible to predict the outcome of these matters with certainty, it is reasonably possible that some lawsuits, claims or proceedings may be disposed of or decided unfavorably to us and in excess of the amounts currently accrued. Based on available information, in the opinion of management, settlements, arbitration awards and final judgments, if any, that are considered probable of being rendered against us in litigation or arbitration in existence at March 29, 2019 are reserved against or would not have a material adverse effect on our financial condition, results of operations or cash flows.

*Merger Litigation.* As described in *Note R — Legal Proceedings and Contingencies* in the Notes, in connection with our pending merger with L3 (see *Note S — Pending Merger* in the Notes for additional information), two putative class action lawsuits and one individual lawsuit were filed against the L3 Parties in the U.S. District Court for the Southern District of New York between December 19, 2018 and January 15, 2019, and a third putative class action lawsuit, *Kent v. L3 Technologies, Inc., et al.*, was filed against the L3 Parties and the Harris Parties in the U.S. District Court for the District of Delaware on January 4, 2019. The complaints in the lawsuits contained substantially similar allegations contending, among other things, that the registration statement on Form S-4 in support of the pending merger misstated or failed to disclose certain allegedly material information in violation of federal securities laws. The complaint in the Kent lawsuit further alleged that the Harris Parties were liable for these violations as “controlling persons” of L3 within the meaning of federal securities laws. On March 12, 2019, the parties to the actions entered into an agreement to settle all claims that were or could have been alleged in the action subject to, among other things, the supplementation by L3 of certain disclosures contained in the registration statement, which were reflected in a Current Report on Form 8-K filed by L3 with the SEC on March 13, 2019, and the dismissal of the four lawsuits, all of which were dismissed by March 18, 2019.

*Tax Audits.* Our tax filings are subject to audit by taxing authorities in jurisdictions where we conduct or conducted business. These audits may result in assessments of additional taxes that are subsequently resolved with the authorities or ultimately through legal proceedings. We believe we have adequately accrued for any ultimate amounts that are likely to result from these audits; however, final assessments, if any, could be different from the amounts recorded in our Condensed Consolidated Financial Statements (Unaudited).

### Item 1A. Risk Factors.

Investors should carefully review and consider the information regarding certain factors that could materially affect our business, results of operations, financial condition and cash flows as set forth under Item 1A. “Risk Factors” in our Fiscal 2018 Form 10-K. Except as set forth below in this Item 1A. “Risk Factors,” we do not believe that there have been any material changes to the risk factors previously disclosed in our Fiscal 2018 Form 10-K. We may disclose changes to such risk factors or disclose additional risk factors from time to time in our future filings with the SEC. Additional risks and uncertainties not presently known to us or that we currently believe not to be material also may adversely impact our business, financial condition, results of operations and cash flows.

In addition to the risk factors previously disclosed in our Fiscal 2018 Form 10-K, the following are risks related to our pending all-stock merger of equals with L3, which is discussed in *Note S — Pending Merger* in the Notes:

- Because the exchange ratio is fixed and will not be adjusted in the event of any change in either our or L3’s stock price, the value of the shares of the combined company is uncertain.

The market price for shares of common stock of the combined company following the completion of the merger may be affected by factors different from, or in addition to, those that historically have affected or currently affect the market prices of shares of our common stock and L3 common stock.

The shares of common stock of the combined company to be received by L3 stockholders as a result of the merger will have rights different from the shares of L3 common stock.

Our stockholders and L3 stockholders will each have reduced ownership and voting interest in and will exercise less influence over management of the combined company.

Until the completion of the merger or the termination of the merger agreement in accordance with its terms, we and L3 are each prohibited from entering into certain transactions and taking certain actions that might otherwise be beneficial to us or L3 and our respective stockholders.

Obtaining required approvals and satisfying closing conditions may prevent or delay completion of the merger. We and L3 must obtain certain regulatory approvals and clearances to consummate the merger, which, if delayed, not granted or granted with unacceptable conditions, could prevent, substantially delay or impair consummation of the merger, result in additional expenditures of money and resources or reduce the anticipated benefits of the merger.

Failure to attract, motivate and retain executives and other key employees could diminish the anticipated benefits of the merger.

The merger, including uncertainty regarding the merger, may cause customers, suppliers or strategic partners to delay or defer decisions concerning us and L3 and adversely affect each company's ability to effectively manage their respective businesses.

The opinions rendered to us and L3 from our respective financial advisors will not reflect changes in circumstances between the dates of such opinions and the completion of the merger.

Whether or not the merger is completed, the announcement and pendency of the merger could cause disruptions in the businesses of us and L3, which could have an adverse effect on our respective businesses and financial results.

The merger agreement may be terminated in accordance with its terms and the merger may not be consummated.

The termination of the merger agreement could negatively impact us or L3.

The directors and executive officers of us and L3 have interests and arrangements that may be different from, or in addition to, those of our and L3 stockholders generally.

We or L3 may waive one or more of the closing conditions without re-soliciting stockholder approval.

The merger agreement contains provisions that could discourage a potential competing acquirer that might be willing to pay more to acquire or merge with either us or L3.

We and L3 each will incur significant transaction, merger-related and restructuring costs in connection with the merger.

Our stockholders and L3 stockholders will not be entitled to appraisal rights in the merger.

Litigation filed against the L3 Parties and the Harris Parties could prevent or delay the consummation of the merger or result in the payment of damages following completion of the merger.

The failure to successfully combine the businesses of us and L3 may adversely affect the combined company's future results.

The combined company may not be able to retain customers or suppliers or customers or suppliers may seek to modify contractual obligations with the combined company, which could have an adverse effect on the combined company's business and operations.

The combined company may be exposed to increased litigation, which could have an adverse effect on the combined company's business and operations.

- Combining the businesses of us and L3 may be more difficult, costly or time-consuming than expected and the combined company may fail to realize the anticipated benefits of the merger, which may adversely affect the combined company's business results and negatively affect the value of the common stock of the combined company following the merger.

The failure to integrate successfully the businesses and operations of us and L3 in the expected time frame may adversely affect the combined company's future results.

Our and L3's unaudited prospective financial information is inherently subject to uncertainties, the unaudited pro forma financial data included in our Form S-4 registration statement related to the proposed merger is preliminary and the combined company's actual financial position and results of operations after the merger may differ materially from those estimates and the unaudited pro forma financial data included in such registration statement. Specifically, the unaudited pro forma combined financial data does not reflect the effect of any divestitures that may be required in connection with the merger.

The revenue of the combined company will depend on our and L3's ability to maintain certain levels of government business. The loss of contracts with U.S. and non-U.S. government agencies could adversely affect the combined company's revenue.

- Third parties may terminate or alter existing contracts or relationships with us or L3.
  - The combined company may be unable to retain our and L3 personnel successfully after the merger is completed.
  - The combined company's debt may limit its financial flexibility.
- Declaration, payment and amounts of dividends, if any, distributed to stockholders of the combined company will be uncertain.

These risks are discussed more fully in the registration statement on Form S-4 we filed with the SEC on December 14, 2018, which the SEC declared effective on February 20, 2019.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

### Issuer Purchases of Equity Securities

During the third quarter of fiscal 2019, we did not repurchase any shares of our common stock under our repurchase program. The level of our repurchases depends on a number of factors, including our financial condition, capital requirements, cash flows, results of operations, future business prospects and other factors our Board of Directors may deem relevant. The timing, volume and nature of repurchases are subject to market conditions, applicable securities laws and other factors and are at our discretion and may be suspended or discontinued at any time. Shares repurchased by us are cancelled and retired. The following table sets forth information with respect to repurchases by us of our common stock during the third quarter of fiscal 2019:

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs (1)	Maximum approximate dollar value of shares that may yet be purchased under the plans or programs (1)
Month No. 1 (December 29, 2018-January 25, 2019)				
Repurchase program <sup>(1)</sup>	—	—	—	\$ 501,279,637
Employee transactions <sup>(2)</sup>	9,802	\$ 139.56	—	—
Month No. 2 (January 26, 2019-February 22, 2019)				
Repurchase program <sup>(1)</sup>	—	—	—	\$ 501,279,637
Employee transactions <sup>(2)</sup>	1,218	\$ 157.64	—	—
Month No. 3 (February 23, 2019-March 29, 2019)				
Repurchase program <sup>(1)</sup>	—	—	—	\$ 501,279,637
Employee transactions <sup>(2)</sup>	29,995	\$ 160.51	—	—
Total	40,105	—	—	\$ 501,279,637

\*Periods represent our fiscal months.

On February 2, 2017, we announced that on January 26, 2017, our Board of Directors approved a share repurchase program authorizing us to repurchase up to \$1 billion in shares of our common stock through open-market purchases, private transactions, transactions structured through investment banking institutions or any combination thereof. As of March 29, 2019, \$501,279,637 (as reflected in the table above) was the approximate dollar amount of our common stock that may yet be purchased under our repurchase program, which does not have a stated expiration date.

(1) Represents a combination of: (a) shares of our common stock delivered to us in satisfaction of the tax withholding obligation of holders of performance units, restricted units or restricted shares that vested during the quarter and (b) performance units, restricted units or restricted shares returned to us upon retirement or employment termination of employees. Our equity incentive plans provide that the value of shares delivered to us to pay the exercise price of options or to cover tax withholding obligations shall be the closing price of our common stock on the date the relevant transaction occurs.

#### *Sales of Unregistered Equity Securities*

During the third quarter of fiscal 2019, we did not issue or sell any unregistered equity securities.
