REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustee and Participants of the
Savings Plan of Entergy Corporation and Subsidiaries V

We have audited the accompanying statements of net assets available for benefits of the Savings Plan of Entergy Corporation and Subsidiaries V ("the Plan") as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2004 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2004 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

SAVINGS PLAN OF ENTERGY CORPORATION AND SUBSIDIARIES
Notes to Financial Statements

Note 1. General Description of the Plan

The following description of the Savings Plan of Entergy Corporation and Subsidiaries V (Entergy Savings Plan V) is provided for general information only. Entergy Savings Plan V participants should refer to the Entergy Savings Plan V summary plan description for a more complete description of the Entergy Savings Plan V's provisions.

General

: The Entergy Savings Plan V is a defined contribution plan of Entergy Corporation and Subsidiaries, collectively the Entergy System Companies, subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The ERISA provisions set forth the requirements for participation, vesting of benefits, fiduciary conduct for administering and handling of assets, and disclosure of Entergy Savings Plan V information.

Plan amendments in 2004

: The Entergy Savings Plan V was amended in 2004 to make certain technical revisions requested by the Internal Revenue Service in connection with issuing a favorable determination letter and to comply with the Defense of Marriage Act.

Trustee

: The Entergy Savings Plan V utilizes T. Rowe Price Trust Company as its trustee and T. Rowe Price Retirement Plan Services, Inc. as its recordkeeper and provider of other administrative services. The Entergy Savings Plan V's investment options, which are managed by its trustee or affiliates of its trustee, are:

- ◆ Entergy Corporation Stock Fund
- ◆ Stable Income Fund
- ◆ Balanced Fund
- ◆ Equity Income Fund
- ◆ Equity Index Trust
- ◆ Blue Chip Growth Fund
- ◆ New Horizons Fund
- ◆ New Income Fund
- ◆ International Stock Fund

In addition, the trustee manages the participant loan fund which is discussed below.

Eligibility

: The Entergy Savings Plan V is available to employees transferred to Entergy Nuclear Operations, Inc. (ENUC) on July 31, 2002 from Vermont Yankee Nuclear Power Corporation (VYNPC) and bargaining employees located at Vermont Yankee hired after July 31, 2002 upon attainment of 21 years of age and completion of at least six months of service.

Contributions

: Entergy Savings Plan V contributions made by or on behalf of participants are deposited with the trustee. Non-bargaining and bargaining employees may elect to contribute, through payroll deductions, up to a total of 21% and 20%, respectively, of their eligible earnings each pay period. For purposes of employer matching contributions for non-bargaining employees and deferral contributions for both bargaining and non-bargaining employees, eligible earnings includes basic hourly wages plus overtime, shift premiums, commissions, any Savings Plan V deferral contributions, and any salary deferrals under Internal Revenue Code Section 125. For purposes of employer matching contributions for bargaining employees, eligible earnings includes basic hourly wages plus any Savings Plan V

deferral contributions and any salary deferrals under Internal Revenue Code Section 125. Participants' contributions may be made on a before-tax basis (401(k) contributions), an after-tax basis, or a combination of both. Contributions are limited by federal tax legislation. The 401(k) contribution dollar limit for the calendar year 2004 was \$13,000 per participant. For a participant's contribution up to a maximum amount of 8% of the participant's eligible earnings each pay period, the employing Entergy System Company will match on behalf of the participant 50% of the participant's contribution.

The Entergy Savings Plan V provides that certain taxable amounts received by an employee that originated from an employee benefit plan qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code), may be accepted under the Entergy Savings Plan V as rollover contributions (rollover contributions).

Investments

: Participant contributions and company matching contributions are invested as directed by participants in accordance with the Entergy Savings Plan V's investment options. Earnings on participant contributions are allocated based on participants' account balances.

The value of investments may fluctuate with changes in market conditions. The amount of risk varies based on the fund's investment goals and composition. Participants should realize the risk associated with each investment when determining how to invest their contributions.

Participant accounts

: Each participant's account is credited with the participant's contribution and allocation of the Entergy System Companies' matching contribution and net earnings of the Entergy Savings Plan V's interest in the Master Trust (see Note 4). Allocations are based on participant earnings or account balances, as defined.

Vesting

: Participants are fully vested at all times in participant contributions. Participants become fully vested in company matching contributions upon the earlier of attainment of age 61 for non-bargaining employees and 65 for bargaining employees or upon completion of five years of service utilizing the following schedule: 25% with two years of service; 50% with three years of service; 75% with four years of service; and 100% with five years of service. Transferred participants shall be fully vested at all times in company matching contributions that were transferred by trust-to-trust transfer from the predecessor plan (VYNPC Thrift Plan).

In-service withdrawals

: While employed, participants may, with certain restrictions, withdraw all or a portion of the value of their contributions, rollover contributions, and company matching contributions. Withdrawals may be subject to a 10% premature distribution tax unless the participant is age 59-1/2 or older. A participant may withdraw all or a portion of the value of their before-tax and rollover accounts if the participant has attained age 59-1/2. A participant may also apply for a hardship withdrawal from his 401(k) contributions if the participant satisfies certain financial hardship withdrawal criteria.

Loans to participants

: The Entergy Savings Plan V has a loan provision whereby participants who are actively employed may borrow an amount, with a minimum of \$1,000, from their eligible account up to a maximum of 50% of the vested balance of their account or \$50,000, whichever is less. The amount borrowed is deducted from the participant's eligible account and repaid with interest based on the prime rate plus 1% in accordance with an established schedule. The loan must be

repaid within 5 years, or within 30 years if for the acquisition of the participant's primary residence. If a participant with an outstanding loan separates from service, the remaining principal balance of the loan is treated as a taxable distribution to the participant unless the amount is repaid in full within a specified period from the date of separation.

Payment of benefits

: Participants become eligible to receive a single-sum distribution of the entire vested value of the participant's Entergy Savings Plan V accounts upon termination of employment, retirement, disability, or death. There are certain provisions regarding deferral of distributions; installment distributions for terminated participants, retirees, and disabled participants; minimum account balances; and mandatory distributions.

Generally, there are tax consequences associated with receiving a distribution from the Entergy Savings Plan V, unless the taxable portion is rolled over to an individual retirement account or another retirement plan account which qualifies under Sections 408(a) or 401(a) of the Code. Additionally, a 10% penalty tax for early withdrawal applies, unless the distribution is received after age 59-1/2 or the participant satisfies one of the legal exemptions to such tax.

Inactive accounts

: Participants with an account balance of at least \$5,000 are allowed, under the provisions of the Entergy Savings Plan V, to defer receipt of their vested account balance upon separation from the Entergy Savings Plan V until age 70-1/2. The amount allocated to such participants was \$7,867,223 as of December 31, 2004 and \$5,125,801 as of December 31, 2003.

Forfeitures

: Upon termination of employment for reasons other than retirement, disability, or death, the portion of the employee's account in which he/she is not vested at the time of termination shall be forfeited and credited to a forfeiture account. Forfeitures are used first to pay administrative expenses and the residual, if any, to reduce employer contributions. Administrative expenses for 2004 were zero. As of December 31, 2004 and 2003, the forfeiture account totaled approximately \$8,207 and \$1,432, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of presentation:

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of estimates in the preparation of financial statements:

The preparation of the Entergy Savings Plan V financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect reported amounts in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits, such as those regarding fair value. Adjustments to the reported amounts may be necessary in the future to the extent that future estimates or actual results are different from the estimates used in the financial statements.

Investment valuation:

Cash and temporary cash investments and loans to participants are valued at cost, which approximates fair value. Investments in equity and fixed income securities are stated at their fair value as determined by quoted market prices on the valuation date, in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

The values of guaranteed investment contracts (GICs) are recorded at contract value, which approximates fair market value. Contract value represents amounts invested under the GICs, plus interest earned and reinvested through the valuation date at the contracted rate. The values of synthetic investment contracts (SICs) are recorded at contract value, which approximates fair market value, because participants are guaranteed a return of principal and accrued interest. SICs are similar to GICs except that the assets of a SIC are placed in a trust with ownership by the Master Trust and a financially responsible third party issues a wrapper contract. A wrapper contract is an insurance policy that guarantees a stated rate of return on specific Master Trust assets placed in the trust.

Concentration of credit risk:

The Stable Income Fund of the Master Trust invests in GICs and SICs which are subject to credit risk with respect to the insurance companies that back them. The potential credit risk of the GICs as of December 31, 2004 and 2003 was \$76,531,701 and \$79,070,993, respectively. The potential credit risk for the SICs represents the amount by which the contract value exceeds the fair value of the SIC assets in the trust. As of December 31, 2004, the contract value and the fair value of the SIC assets were \$263,710,078 and \$268,813,771, respectively. As of December 31, 2003, the contract value and the fair value of the SIC assets were \$230,196,471 and \$238,595,179, respectively. There are no reserves against the contract values of the GICs or SICs for credit risk of the contract issuers or otherwise. The Entergy Savings Plan V provisions set investment guidelines addressing investment diversification, quality, maturity, and performance standards prescribed to mitigate the potential credit risk.

Payment of benefits:

Benefits payable for terminations and withdrawals are recorded when paid. This accounting method differs from that required in the Internal Revenue Service and Department of Labor Form 5500, which requires benefits payable to be accrued and charged to net assets in the period the liability arises. There were no pending distributions to participants as of December 31, 2004 and 2003.

Income recognition:

The difference in fair value of the assets in the Master Trust from one period to the next is recognized and included in investment income in the accompanying Statement of Changes in Net Assets Available for Benefits. The investment income also includes realized gains and losses.

Purchases and sales of securities are accounted for on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Note 3. Investment Contracts With Insurance Companies

The Master Trust invests in a diversified portfolio of GICs and SICs issued by insurance companies and other financial institutions. The average yield for the GICs and SICs was approximately 4.6% for 2004 and 4.7% for 2003. The crediting interest rates varied from 3.5% - 6.02% as of December 31, 2004 and from 3.5% - 6.03% as of December 31, 2003.

Note 4. Interest in Master Trust

Edgar Filing: ENTERGY CORP /DE/ - Form 11-K

The Entergy Savings Plan V investments are held in a bank-administered trust (Master Trust) established by Entergy Corporation and maintained by T. Rowe Price Trust Company (the Trustee). The Entergy Savings Plan V maintains an undivided beneficial interest in each of the investment accounts of the Master Trust. Use of the Master Trust permits the commingling of the trust assets of the savings plans of Entergy Corporation and its subsidiaries for investment and administrative purposes. Although assets are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the equity in net earnings and the administrative expenses of the investment accounts to the participating plans. Equity in an investment account's net earnings is comprised of interest and dividends and realized and unrealized investment gains and losses. As of December 31, 2004 and 2003, the Entergy Savings Plan V's interest in the net assets of the Master Trust was approximately 3% for both periods.

The fair values of investments in the Master Trust as of December 31, 2004 and 2003 are as follows:

	<u>2004</u>	<u>2003</u>
Cash and cash equivalents	\$31,858,475	\$34,563,592
Common stock*	774,891,190	813,022,743
Mutual funds	862,823,520	655,332,839
Common trust funds	180,273,585	163,743,688
Guaranteed investment contracts	76,531,701	79,070,993
Synthetic investment contracts	263,710,078	230,196,472
Brokerage accounts	16,236,448	13,537,554
Loans to participants	46,015,475	45,581,740
	\$2,252,340,472	\$2,035,049,621

*As of December 31, 2004 and 2003, \$568,595,107 and \$632,932,725, respectively, of the Entergy Corporation common stock was non-participant directed.

Dividend and interest income and net realized and unrealized appreciation of investments in the Master Trust for the year ended December 31, 2004 are summarized as follows:

Dividend and interest income:

Common stock	\$21,978,344
Mutual funds	15,767,153
Common trust funds	9,448
Loans to participants	2,769,126
	\$40,524,071

Net realized and unrealized appreciation of investments:

Common stock	\$127,354,092
Mutual funds	77,150,156
Common trust funds	17,348,599
Synthetic investment contracts	14,608,870
Brokerage accounts	959,030
	\$237,420,747

Note 5. Tax Status

Entergy Savings Plan V obtained its determination letter on May 18, 2004 in which the Internal Revenue Service stated that the Entergy Savings Plan V was in compliance with the applicable requirements of the Code subject to the adoption of the proposed amendments submitted in March 2004. The Entergy Savings Plan V has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe, to the best of their knowledge, that the Entergy Savings Plan V is currently designed and being operated in material compliance with the applicable requirements of the Code. Accordingly, no provision for income taxes has been included in the Entergy Savings Plan V's financial statements.

Note 6. Entergy Savings Plan V Termination

Although they have not expressed any intent to do so, the Entergy System Companies have the right under the Entergy Savings Plan V to discontinue their contributions at any time and Entergy Corporation has the right to terminate the Entergy Savings Plan V subject to the provisions of ERISA. In the event that the Entergy Savings Plan V is terminated, subject to conditions set forth in ERISA, the Entergy Savings Plan V provides that all participants will be fully vested and the net assets of the Entergy Savings Plan V be distributed to participants in proportion to their respective vested interests in such net assets at that date.

Note 7. Related Party Transactions

Certain of the Master Trust investments are shares in funds managed by T. Rowe Price Trust Company who is the trustee, as defined by the Entergy Savings Plan V and, therefore, these investments and investment transactions qualify as party-in-interest transactions. As the Master Trust holds common stock of Entergy Corporation as an investment, these investments and investment transactions also qualify as party-in-interest transactions. The year-end market price of Entergy Corporation common stock was \$67.59 and \$57.13 per share at December 31, 2004 and 2003, respectively.
