SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
p 1934

For the quarterly period ended June 30, 2017
Commission File Number 001-00395

NCR CORPORATION
(Exact name of registrant as specified in its charter)

Maryland 31-0387920
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)
3097 Satellite Boulevard
Duluth, GA 30096
(Address of principal executive offices) (Zip Code)
Registrant's telephone number, including area code: (937) 445-5000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input type="checkbox"/>
	Emerging Growth Company <input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transaction period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

As of July 14, 2017, there were approximately 121.5 million shares of the registrant's common stock issued and outstanding.

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying Condensed Consolidated Financial Statements have been prepared by NCR Corporation (NCR, the Company, we or us) without audit pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments (consisting of normal, recurring adjustments, unless otherwise disclosed) necessary for a fair statement of the consolidated results of operations, financial position, and cash flows for each period presented. The consolidated results for the interim periods are not necessarily indicative of results to be expected for the full year. The 2016 year-end Condensed Consolidated Balance Sheet was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States (GAAP). These financial statements should be read in conjunction with NCR's Form 10-K for the year ended December 31, 2016.

Use of Estimates The preparation of financial statements in accordance with GAAP requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenue and expenses during the period reported. Actual results could differ from those estimates.

Evaluation of Subsequent Events The Company evaluated subsequent events through the date that our Condensed Consolidated Financial Statements were issued. No matters were identified that required adjustment of the Condensed Consolidated Financial Statements or additional disclosure.

Reclassifications Certain prior-period amounts have been reclassified in the accompanying Condensed Consolidated Financial Statements and Notes thereto in order to conform to the current period presentation.

Redeemable Noncontrolling Interests and Related Party Transactions In 2011, we sold a 49% voting equity interest in NCR Brasil - Indústria de Equipamentos para Automação S.A., a subsidiary of the Company (NCR Manaus), to Scopus Tecnologia Ltda. (Scopus). Under our investment agreements with Scopus, Scopus may elect to sell its shares in NCR Manaus at the then-current fair value to a third party that is not a competitor of NCR. If Scopus is unable to locate a buyer, Scopus may require NCR to purchase its noncontrolling interest for its then-current fair value.

We recognized revenue related to Banco Bradesco SA (Bradesco), the parent of Scopus, totaling \$5 million and \$6 million during the three and six months ended June 30, 2017, respectively, as compared to \$10 million and \$28 million during the three and six months ended June 30, 2016, respectively. As of June 30, 2017 and December 31, 2016, we had \$2 million and \$10 million, respectively, in receivables outstanding from Bradesco.

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

Recent Accounting Pronouncements

Issued

In May 2014, the Financial Accounting Standards Board (FASB) issued a new revenue recognition standard that will supersede current revenue recognition guidance. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard will be effective for the first interim period within annual periods beginning after December 15, 2017, with early adoption permitted for annual periods beginning after December 15, 2016, and can be adopted either retrospectively to each prior reporting period presented (“full retrospective method”) or as a cumulative effect adjustment as of the date of adoption (“modified retrospective method”). We have determined a substantial majority of our new accounting policies related to the new standard and believe it will have the following impacts:

The new standard removes the current limitation on contingent revenue, and we expect that this may result in revenue being recognized earlier for certain contracts.

The new standard modifies the accounting for the costs to obtain a contract, such as the capitalization and deferral of commission expenses for certain recurring revenue streams, and we expect that this will be a change to our current policy to expense as incurred.

Based on our initial assessment, we plan to adopt the standard using the modified retrospective method when it becomes effective for the Company in the first quarter of fiscal 2018. We have identified, and are in the process of implementing, appropriate changes to our business processes, systems and controls to support revenue recognition and disclosure under the new standard. The Company is continuing to evaluate the effect that the standard will have on its consolidated financial statements and related disclosures. Overall, the Company believes that its implementation efforts are progressing as planned.

In February 2016, the FASB issued a new leasing standard that will supersede current guidance related to accounting for leases. The guidance is intended to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The standard will be effective for the first interim period within annual periods beginning after December 15, 2018, with early adoption permitted. The standard is required to be adopted using the modified retrospective approach. The Company is evaluating the impact that adopting this guidance will have on its consolidated financial statements and internal controls over financial reporting.

In January 2017, the FASB issued an accounting standards update which clarifies the definition of a business which is used across several areas of accounting. The area expected to see the most change is the evaluation of whether a transaction should be accounted for as an acquisition (or disposal) of assets, or as a businesses combination. The new guidance clarifies that to be a business there must also be at least one substantive process, and narrows the definition of outputs by more closely aligning it with how outputs are described in the new revenue recognition standard. The accounting standard update is required to be adopted for annual periods beginning after December 15, 2017, including interim periods within that annual period. The amendment is to be applied prospectively with early adoption permitted. We do not expect the adoption of this standard to have a material effect on our financial condition, results of operations or disclosures, as the standard applies only to businesses acquired after the adoption date.

In January 2017, the FASB issued an accounting standards update with new guidance intended to simplify the subsequent measurement of goodwill. The standards update eliminates the requirement for an entity to calculate the

implied fair value of goodwill to measure a goodwill impairment charge. Instead, an entity will perform its annual, or interim, goodwill impairment testing by comparing the fair value of a reporting unit with its carrying amount and recording an impairment charge for the amount by which the carrying amount exceeds the fair value. The standards update is effective prospectively for annual and interim goodwill impairment testing performed in fiscal years beginning after December 15, 2019. The adoption of this standards update is not expected to impact our consolidated financial statements.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

In March 2017, the FASB issued an accounting standards update with new guidance on the employer's presentation of defined benefit retirement costs in the income statement. Employers will present the service cost component of net periodic benefit cost in the same income statement line item(s) as other employee compensation costs arising from services rendered during the period. Only the service cost component will be eligible for capitalization in assets. Employers will present the other components of the net periodic benefit cost separately from the line item(s) that includes the service cost and outside of any subtotal of operating income, if one is presented. These components will not be eligible for capitalization in assets. The guidance is effective for fiscal years beginning after December 15, 2017, and interim periods therein, with early adoption permitted. The adoption of this accounting standard update is not expected to have a material effect on the Company's net income, cash flows or financial condition.

In May 2017, the FASB issued an accounting standards update which clarifies when to account for a change to the terms or conditions of a share-based payment award as a modification. This update requires modification only if the fair value, vesting conditions or the classification of the award changes as a result of the change in terms or conditions. This guidance is effective for fiscal years beginning after December 15, 2017, and interim periods therein, with early adoption permitted. The adoption of this accounting standard update is not expected to have a material effect on the Company's net income, cash flows or financial condition.

Adopted

In March 2016, the FASB issued an accounting standards update that amended the accounting standard related to employee share-based payments. The guidance requires the recognition of the income tax effects of awards in the income statement when the awards vest or are settled, thus eliminating additional paid in capital pools. The guidance also allows for the employer to repurchase more of an employee's shares for tax withholding purposes without triggering liability accounting. In addition, the guidance allows for a policy election to account for forfeitures as they occur rather than on an estimated basis. The adoption approach varies based on the amendment topic. As a result of the adoption, we recorded an adjustment of approximately \$39 million to the January 1, 2017 retained earnings balance to recognize federal tax credit carryforwards attributable to excess tax benefits on stock compensation that had not been previously recognized to additional paid in capital. The Company also expects the new standard to have an on-going impact on the recording of excess tax benefits and deficiencies in our consolidated balance sheets and consolidated statements of income and comprehensive income. However, the magnitude of such impact is dependent upon our future grants of stock awards, our future stock price in relation to the fair value of awards on the grant date and the exercise behavior of stock option holders.

2. GOODWILL AND PURCHASED INTANGIBLE ASSETS

Goodwill

The carrying amounts of goodwill by segment as of June 30, 2017 and December 31, 2016 are included in the table below. Foreign currency fluctuations are included within other adjustments.

Deferred financing fees	(27)		(29)	
Other ⁽²⁾	9	6.39%	9	6.64%
Total long-term debt	\$3,015		\$3,001	

⁽¹⁾ Interest rates are weighted-average interest rates as of June 30, 2017 and December 31, 2016.

⁽²⁾ Interest rates are weighted-average interest rates as of June 30, 2017 and December 31, 2016 primarily related to various international credit facilities and a note payable in the U.S.

Senior Secured Credit Facility On March 31, 2016, the Company amended and restated its senior secured credit facility with and among certain foreign subsidiaries of NCR (the Foreign Borrowers), the lenders party thereto and JPMorgan Chase Bank, NA (JPMCB) as the administrative agent, and refinanced its term loan facility and revolving credit facility thereunder (the Senior Secured Credit Facility). As of June 30, 2017, the Senior Secured Credit Facility consisted of a term loan facility with an aggregate principal amount outstanding of \$844 million and a revolving credit facility with an aggregate principal amount of \$1.1 billion, of which \$40 million was outstanding as of June 30, 2017. The revolving credit facility also allows a portion of the availability to be used for outstanding letters of credit, and as of June 30, 2017, there were no letters of credit outstanding.

Up to \$400 million of the revolving credit facility is available to the Foreign Borrowers. Term loans were made to the Company in U.S. Dollars, and loans under the revolving credit facility are available in U.S. Dollars, Euros and Pound Sterling.

The outstanding principal balance of the term loan facility is required to be repaid in equal quarterly installments of approximately \$11 million beginning June 30, 2016, \$17 million beginning June 30, 2018, and \$23 million beginning June 30, 2019, with the balance being due at maturity on March 31, 2021. Borrowings under the revolving portion of the credit facility are due March 31, 2021. Amounts outstanding under the Senior Secured Credit Facility bear interest at LIBOR (or, in the case of amounts denominated in Euros, EURIBOR), or, at NCR's option, in the case of amounts

denominated in U.S. Dollars, at a base rate equal to the highest of (a) the federal funds rate plus 0.50%, (b) JPMCB's "prime rate" and (c) the one-month LIBOR rate plus 1.00% (the Base Rate), plus, in each case, a margin ranging from 1.25% to 2.25% for LIBOR-based loans that are either term loans or revolving loans and EURIBOR-based revolving loans and ranging from 0.25% to 1.25% for Base Rate-based loans that are either term loans or revolving loans, in each case, depending on the Company's consolidated leverage ratio. The terms of the Senior Secured Credit Facility also require certain other fees and payments to be made by the Company, including a commitment fee on the undrawn portion of the revolving credit facility.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

The obligations of the Company and Foreign Borrowers under the Senior Secured Credit Facility are guaranteed by certain of the Company's wholly-owned domestic subsidiaries. The Senior Secured Credit Facility and these guarantees are secured by a first priority lien and security interest in certain equity interests owned by the Company and the guarantor subsidiaries in certain of their respective domestic and foreign subsidiaries, and a perfected first priority lien and security interest in substantially all of the Company's U.S. assets and the assets of the guarantor subsidiaries, subject to certain exclusions. These security interests would be released if the Company achieves an "investment grade" rating, and will remain released so long as the Company maintains that rating.

The Senior Secured Credit Facility includes affirmative and negative covenants that restrict or limit the ability of the Company and its subsidiaries to, among other things, incur indebtedness; create liens on assets; engage in certain fundamental corporate changes or changes to the Company's business activities; make investments; sell or otherwise dispose of assets; engage in sale-leaseback or hedging transactions; repurchase stock, pay dividends or make similar distributions; repay other indebtedness; engage in certain affiliate transactions; or enter into agreements that restrict the Company's ability to create liens, pay dividends or make loan repayments. The Senior Secured Credit Facility also includes financial covenants that require the Company to maintain:

- a consolidated leverage ratio on the last day of any fiscal quarter, not to exceed (i) in the case of any fiscal quarter ending on or prior to December 31, 2017, (a) the sum of 4.25 and an amount (not to exceed 0.50) to reflect debt used to reduce NCR's unfunded pension liabilities to (b) 1.00, (ii) in the case of any fiscal quarter ending after December 31, 2017 and on or prior to December 31, 2019, (a) the sum of 4.00 and an amount (not to exceed 0.50) to reflect debt used to reduce NCR's unfunded pension liabilities to (b) 1.00, and (iii) in the case of any fiscal quarter ending after December 31, 2019, the sum of (a) 3.75 and an amount (not to exceed 0.50) to reflect debt used to reduce NCR's unfunded pension liabilities to (b) 1.00; and
- an interest coverage ratio on the last day of any fiscal quarter greater than or equal to 3.50 to 1.00.

At June 30, 2017, the maximum consolidated leverage ratio under the Senior Secured Credit Facility was 4.35 to 1.00.

The Senior Secured Credit Facility also includes provisions for events of default, which are customary for similar financings. Upon the occurrence of an event of default, the lenders may, among other things, terminate the loan commitments, accelerate all loans and require cash collateral deposits in respect of outstanding letters of credit. If the Company is unable to pay or repay the amounts due, the lenders could, among other things, proceed against the collateral granted to them to secure such indebtedness.

The Company may request, at any time and from time to time, but the lenders are not obligated to fund, the establishment of one or more incremental term loans and/or revolving credit facilities (subject to the agreement of existing lenders or additional financial institutions to provide such term loans and/or revolving credit facilities) with commitments in an aggregate amount not to exceed the greater of (i) \$150 million, and (ii) such amount as would not (a) prior to the date that the Company obtains an investment grade rating cause the leverage ratio under the Senior Secured Credit Facility, calculated on a pro forma basis including the incremental facility and assuming that it and the revolver are fully drawn, to exceed 2.50 to 1.00, and (b) on and after the date that the Company obtains an investment grade rating cause the leverage ratio under the Senior Secured Credit Facility, calculated on a pro forma basis including the incremental facility and assuming that it and the revolver are fully drawn, to exceed a ratio that is 0.50 less than the leverage ratio then applicable under the financial covenants of the Senior Secured Credit Facility, the proceeds of which can be used for working capital requirements and other general corporate purposes.

Senior Unsecured Notes On September 17, 2012, the Company issued \$600 million aggregate principal amount of 5.00% senior unsecured notes due in 2022 (the 5.00% Notes). The 5.00% Notes were sold at 100% of the principal amount and will mature on July 15, 2022. On December 18, 2012, the Company issued \$500 million aggregate principal amount of 4.625% senior unsecured notes due in 2021 (the 4.625% Notes). The 4.625% Notes were sold at

100% of the principal amount and will mature on February 15, 2021. On December 19, 2013, the Company issued \$400 million aggregate principal amount of 5.875% senior unsecured notes due in 2021 (the 5.875% Notes) and \$700 million aggregate principal amount of 6.375% senior unsecured notes due in 2023 (the 6.375% Notes). The 5.875% Notes were sold at 100% of the principal amount and will mature on December 15, 2021 and the 6.375% Notes were sold at 100% of the principal amount and will mature on December 15, 2023. The senior unsecured notes are guaranteed, fully and unconditionally, on an unsecured senior basis, by our subsidiary, NCR International, Inc. Under the indentures for these notes, the Company has the option to redeem each series of notes, in whole or in part, at various times for specified prices, plus accrued and unpaid interest.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

The terms of the indentures for these notes limit the ability of the Company and certain of its subsidiaries to, among other things, incur additional debt or issue redeemable preferred stock; pay dividends or make certain other restricted payments or investments; incur liens; sell assets; incur restrictions on the ability of the Company's subsidiaries to pay dividends to the Company; enter into affiliate transactions; engage in sale and leaseback transactions; and consolidate, merge, sell or otherwise dispose of all or substantially all of the Company's or such subsidiaries' assets. These covenants are subject to significant exceptions and qualifications. For example, if these notes are assigned an investment grade rating by Moody's or S&P and no default has occurred or is continuing, certain covenants will be terminated.

Trade Receivables Securitization Facility In November 2014, the Company established a two-year revolving trade receivables securitization facility (the A/R Facility) with PNC Bank, National Association (PNC) as the administrative agent, and various lenders. In November 2016, the Company amended the A/R Facility to extend the maturity date to November 2018. The A/R Facility provides for up to \$200 million in funding based on the availability of eligible receivables and other customary factors and conditions.

Under the A/R Facility, NCR sells and/or contributes certain of its U.S. trade receivables to a wholly-owned, bankruptcy-remote subsidiary as they are originated, and advances by the lenders to that subsidiary are secured by those trade receivables. The assets of this financing subsidiary are restricted as collateral for the payment of its obligations under the A/R Facility, and its assets and credit are not available to satisfy the debts and obligations owed to the creditors of the Company. The Company includes the assets, liabilities and results of operations of this financing subsidiary in its consolidated financial statements. The financing subsidiary owned \$479 million and \$426 million of outstanding accounts receivable as of June 30, 2017 and December 31, 2016, respectively, and these amounts are included in accounts receivable, net in the Company's Condensed Consolidated Balance Sheets.

The financing subsidiary pays annual commitment and other customary fees to the lenders, and advances by a lender under the A/R Facility accrue interest (i) at a reserve-adjusted LIBOR rate or a base rate equal to the highest of (a) the applicable lender's prime rate or (b) the federal funds rate plus 0.50%, if the lender is a committed lender, or (ii) based on commercial paper interest rates if the lender is a commercial paper conduit lender. Advances may be prepaid at any time without premium or penalty.

The A/R Facility contains various customary affirmative and negative covenants and default and termination provisions that provide for the acceleration of the advances under the A/R Facility in circumstances including, but not limited to, failure to pay interest or principal when due, breach of representation, warranty or covenant, certain insolvency events or failure to maintain the security interest in the trade receivables, and defaults under other material indebtedness.

Fair Value of Debt The Company utilized Level 2 inputs, as defined in the fair value hierarchy, to measure the fair value of the long-term debt, which, as of June 30, 2017 and December 31, 2016 was \$3.40 billion and \$3.16 billion, respectively. Management's fair value estimates were based on quoted prices for recent trades of NCR's long-term debt, quoted prices for similar instruments, and inquiries with certain investment communities.

4. INCOME TAXES

Income tax provisions for interim (quarterly) periods are based on an estimated annual effective income tax rate calculated separately from the effect of significant, infrequent or unusual items. Income tax expense was \$33 million and \$31 million for the three months ended June 30, 2017 and 2016, respectively. The increase in income tax expense was driven by an increase in income from continuing operations, partially offset by an increase in discrete benefits in

the three months ended June 30, 2017. Income tax expense was \$47 million and \$44 million for the six months ended June 30, 2017 and 2016, respectively. The increase in income tax expense was driven by an increase in income from continuing operations, partially offset by an increase in discrete benefits in the six months ended June 30, 2017. The increase in discrete benefits was primarily driven by the recognition of excess tax benefits of stock-based compensation awards in the income statement as a result of the adoption of the accounting standard update related to employee share-based payments. Refer to Note 1, "Basis of Presentation and Summary of Significant Accounting Policies" for additional discussion.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

5. STOCK COMPENSATION PLANS

As of June 30, 2017, the Company's primary type of stock-based compensation was restricted stock units. Stock-based compensation expenses for the following periods were:

In millions	Three months ended June 30, 2017		Six months ended June 30, 2017	
	2017	2016	2017	2016
Restricted stock units	\$21	\$16	\$39	\$29
Employee stock purchase plan	1	—	2	—
Stock-based compensation expense	22	16	41	29
Tax benefit	(6)	(4)	(12)	(8)
Total stock-based compensation expense (net of tax)	\$16	\$12	\$29	\$21

Stock-based compensation expense is recognized in the financial statements based upon fair value.

Restricted Stock Units As of June 30, 2017, the total unrecognized compensation cost of \$163 million related to unvested restricted stock grants is expected to be recognized over a weighted average period of approximately 1.2 years.

Employee Stock Purchase Plan Effective January 1, 2017, the Company amended its Employee Stock Purchase Plan ("ESPP") to provide employees a 15% discount on stock purchases using a three-month look-back feature where the discount is applied to the stock price that represents the lower of NCR's closing stock price on either the first day or the last day of each calendar quarter. Participants can contribute between 1% and 10% of their compensation.

For the three months ended June 30, 2017, employees purchased 0.1 million shares, at a discounted price of \$38.83. For the six months ended June 30, 2017, employees purchased 0.2 million shares. The intrinsic value of shares purchased during the three and six months ended June 30, 2017 was \$0.6 million and \$1.5 million, respectively. The intrinsic value is calculated as the difference between the market value on the date of purchase and the purchase price of the shares.

6. EMPLOYEE BENEFIT PLANS

Components of net periodic benefit cost (income) of the pension plans for the three months ended June 30 were as follows:

In millions	U.S. Pension Benefits		International Pension Benefits		Total Pension Benefits	
	2017	2016	2017	2016	2017	2016
Net service cost	\$ —	\$ —	\$ 2	\$ 2	\$ 2	\$ 2
Interest cost	18	22	5	7	23	29
Expected return on plan assets	(15)	(18)	(8)	(9)	(23)	(27)
Net periodic benefit cost (income)	\$ 3	\$ 4	\$ (1)	\$ —	\$ 2	\$ 4

Components of the net periodic benefit cost (income) of the pension plans for the the six months ended June 30 were as follow:

In millions	U.S. Pension Benefits		International Pension Benefits		Total Pension Benefits	
	2017	2016	2017	2016	2017	2016

Edgar Filing: NCR CORP - Form 10-Q

Net service cost	\$ —	\$ —	\$ 4	\$ 4	\$ 4	\$ 4
Interest cost	36	45	10	14	46	59
Expected return on plan assets	(29)	(36)	(17)	(18)	(46)	(54)
Net periodic benefit cost (income)	\$ 7	\$ 9	\$ (3)	\$ —	\$ 4	\$ 9

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

Effective January 1, 2017, we changed the method used to estimate the service and interest components of net periodic benefit cost (income) for our significant pension plans where yield curves are available. Previously, we estimated such cost components utilizing a single weighted-average discount rate derived from the yield curve used to measure the pension benefit obligation. The new methodology utilizes a full yield curve approach by applying the specific spot rates along the yield curve used in the determination of the pension benefit obligation to their underlying projected cash flows and provides a more precise measurement of service and interest costs by improving the correlation between projected cash flows and their corresponding spot rates. This change does not affect the measurement of our total benefit obligation and is applied prospectively as a change in estimate, beginning January 1, 2017.

The benefit from the postretirement plan for the three and six months ended June 30 was:

	Three months ended June 30, 2017		Six months ended June 30, 2016	
In millions	2017	2016	2017	2016
Amortization of:				
Prior service benefit	\$(2)	\$(3)	(3)	(7)
Actuarial loss	1	—	1	1
Net postretirement benefit	\$(1)	\$(3)	\$(2)	\$(6)

The cost of the postemployment plan for the three and six months ended June 30 was:

	Three months ended June 30, 2017		Six months ended June 30, 2016	
In millions	2017	2016	2017	2016
Net service cost	\$5	\$4	\$19	\$8
Interest cost	—	1	1	1
Amortization of:				
Prior service benefit	(1)	(2)	(2)	(3)
Actuarial gain	(1)	(1)	(2)	(2)
Net benefit cost	\$3	\$2	\$16	\$4
Restructuring severance cost	—	2	—	2
Total postemployment cost	\$3	\$4	\$16	\$6

Employer Contributions

Pension For the three and six months ended June 30, 2017, NCR contributed \$4 million and \$9 million, respectively, to its international pension plans. In 2017, NCR anticipates contributing an additional \$21 million to its international pension plans for a total of \$30 million.

Postretirement For the three and six months ended June 30, 2017, NCR contributed zero and \$1 million, respectively, to its U.S. postretirement plan. NCR anticipates contributing an additional \$2 million to its U.S. postretirement plan for a total of \$3 million in 2017.

Postemployment For the three and six months ended June 30, 2017, NCR contributed \$9 million and \$14 million, respectively, to its postemployment plans. NCR anticipates contributing an additional \$41 million to its postemployment plans for a total of \$55 million in 2017.

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

7. COMMITMENTS AND CONTINGENCIES

In the normal course of business, NCR is subject to various proceedings, lawsuits, claims and other matters, including, for example, those that relate to the environment and health and safety, labor and employment, employee benefits, import/export compliance, intellectual property, data privacy and security, product liability, commercial disputes and regulatory compliance, among others. Additionally, NCR is subject to diverse and complex laws and regulations, including those relating to corporate governance, public disclosure and reporting, environmental safety and the discharge of materials into the environment, product safety, import and export compliance, data privacy and security, antitrust and competition, government contracting, anti-corruption, and labor and human resources, which are rapidly changing and subject to many possible changes in the future. Compliance with these laws and regulations, including changes in accounting standards, taxation requirements, and federal securities laws among others, may create a substantial burden on, and substantially increase costs to NCR or could have an impact on NCR's future operating results. The Company has reflected all liabilities when a loss is considered probable and reasonably estimable in the Condensed Consolidated Financial Statements. We do not believe there is a reasonable possibility that losses exceeding amounts already recognized have been incurred, but there can be no assurances that the amounts required to satisfy alleged liabilities from such matters will not impact future operating results. Other than as stated below, the Company does not currently expect to incur material capital expenditures related to such matters. However, there can be no assurances that the actual amounts required to satisfy alleged liabilities from various lawsuits, claims, legal proceedings and other matters, including, but not limited to the Fox River and Kalamazoo River environmental matters and other matters discussed below, and to comply with applicable laws and regulations, will not exceed the amounts reflected in NCR's Condensed Consolidated Financial Statements or will not have a material adverse effect on its consolidated results of operations, capital expenditures, competitive position, financial condition or cash flows. In 2012, NCR received anonymous allegations from a purported whistleblower regarding certain aspects of the Company's business practices in China, the Middle East and Africa. The principal allegations received in 2012 related to the Company's compliance with the Foreign Corrupt Practices Act (FCPA) and federal regulations that prohibit U.S. persons from engaging in certain activities in Syria. As previously reported, the Company and its Board of Directors completed investigations with the assistance of experienced outside counsel and resolved a related shareholder derivative action.

With respect to the FCPA, the Company made a presentation to the staff of the Securities and Exchange Commission (SEC) and the U.S. Department of Justice (DOJ) providing the facts known to the Company related to the whistleblower's FCPA allegations, and advising the government that many of these allegations were unsubstantiated. With respect to the DOJ, the Company responded to its most recent requests for documents in 2014. On June 22, 2015, the SEC staff notified the Company that it did not intend to recommend an enforcement action against the Company with respect to these matters.

With respect to Syria, in 2012 NCR voluntarily notified the U.S. Treasury Department Office of Foreign Assets Control (OFAC) of potential violations and ceased operations in Syria, which were commercially insignificant. The notification related to confusion stemming from the Company's failure to register in Syria the transfer of the Company's Syrian branch to a foreign subsidiary and to deregister the Company's legacy Syrian branch, which was a branch of NCR Corporation. The Company applied for and received from OFAC various licenses that permitted the Company to take measures required to wind down its past operations in Syria. The last such license expired in April 2016, and in connection with that expiration the Company abandoned its remaining property in Syria, which was commercially insignificant, and ended the employment of its final two employees there, who had remained employed by the Company to assist with the execution of the Company's wind-down activities pursuant to authority granted by the OFAC licenses. The Company also submitted detailed reports to OFAC regarding this matter, including a description of the Company's comprehensive export control program and related remedial measures, and a description of the abandonment and related circumstances. In correspondence dated May 5, 2017, OFAC advised the Company it would not seek monetary penalties against the Company, and issued a so-called "cautionary letter" as a "final

enforcement response.”

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

In 2013 the Company entered into a subcontract with a prime contractor with respect to certain information technology components of two airport construction projects in Oman. In 2015 the prime contractor's contract with an Omani public agency was terminated for cause; the Company and the prime contractor (a joint venture) subsequently provided to each other notices of termination of the subcontract. The prime contractor subsequently filed liquidation proceedings in Oman. The Company had delivered and installed goods and services in the approximate amount of \$40 million as of 2015 when the various contracts were terminated, approximately half of which sum remains due and owing; under the terms of the subcontract, most of the payment obligations by the Omani public agency to the terminated prime contractor, and from the terminated prime contractor to the Company, had not at that time matured. The Company remains engaged in the construction projects, having been urged by the Omani public agency to enter into a new subcontract with a new prime contractor, which the Company did later in 2015. In 2016 the Company entered into a partial settlement agreement with the Omani public agency under which it was paid approximately half of the sums owed to it, in exchange for certain deliverables under the original subcontract. The Company has identified various avenues to pursue, against the prime contractor and others, including the parent of one of the joint venture partners in the terminated prime contractor, to obtain recoveries of the remaining amounts owed to it. Based on the status of negotiations and proceedings as of June 30, 2017, the Company continues to maintain a reserve of approximately \$20 million with respect to those portions of its claim that it considered did not meet the Company's standard for probable recovery.

In June 2014, one of the Company's Brazilian subsidiaries, NCR Manaus, was notified of a Brazilian federal tax assessment of R168 million, or approximately \$51 million as of June 30, 2017, including penalties and interest regarding certain federal indirect taxes for 2010 through 2012. The assessment alleges improper importation of certain components into Brazil's free trade zone that would nullify related indirect tax incentives. We have not recorded an accrual for the assessment, as the Company believes it has a valid position regarding indirect taxes in Brazil and, as such, has filed an appeal. However, it is possible that the Company could be required to pay taxes, penalties and interest related to this matter, which could be material to the Company's Condensed Consolidated Financial Statements. The Company estimated the aggregate risk related to this matter to be zero to approximately \$73 million as of June 30, 2017.

Environmental Matters NCR's facilities and operations are subject to a wide range of environmental protection laws, and NCR has investigatory and remedial activities underway at a number of facilities that it currently owns or operates, or formerly owned or operated, to comply, or to determine compliance, with such laws. Also, NCR has been identified, either by a government agency or by a private party seeking contribution to site clean-up costs, as a potentially responsible party (PRP) at a number of sites pursuant to various state and federal laws, including the Federal Water Pollution Control Act, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and comparable state statutes. Other than the Fox River matter and the Kalamazoo River matter detailed below, we currently do not anticipate material expenses and liabilities from these environmental matters.

Fox River NCR is one of eight entities that were formally notified by governmental and other entities, such as local Native American tribes, that they are PRPs for environmental claims (under CERCLA and other statutes) arising out of the presence of polychlorinated biphenyls (PCBs) in sediments in the lower Fox River and in the Bay of Green Bay in Wisconsin. The other Fox River PRPs that received notices are Appleton Papers Inc. (API; now known as Appvion, Inc.), P.H. Glatfelter Company ("Glatfelter"), Georgia-Pacific Consumer Products LP (GP, successor to Fort James Operating Company), WTM I Co. (formerly Wisconsin Tissue Mills, now owned by Canal Corporation, formerly known as Chesapeake Corporation), CBC Corporation (formerly Riverside Paper Corporation), U.S. Paper Mills Corp. (owned by Sonoco Products Company), and Menasha Corporation. NCR was identified as a PRP because of alleged PCB discharges from two carbonless copy paper manufacturing facilities it previously owned, which were located along the Fox River. NCR sold its facilities in 1978 to API. Some parties contend that NCR is also responsible for PCB discharges from paper mills owned by other companies because NCR carbonless copy paper "broke" was allegedly purchased by those other mills as a raw material.

The United States Environmental Protection Agency (USEPA) and Wisconsin Department of Natural Resources (together, the Governments) developed clean-up plans for the upper and lower parts of the Fox River and for portions of the Bay of Green Bay. On November 13, 2007, the Governments issued a unilateral administrative order (the 2007 Order) under CERCLA to the eight original PRPs, requiring them to perform remedial work under the Governments' clean-up plan for the lower parts of the river (operable units 2 through 5). In April 2009, NCR and API formed a limited liability company (the LLC), which entered into an agreement with an environmental remediation contractor to perform the work at the Fox River site. In-water dredging and remediation under the clean-up plan commenced shortly thereafter.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

NCR and API, along with B.A.T Industries p.l.c. (BAT), share among themselves a portion of the cost of the Fox River clean-up and natural resource damages (NRD) based upon a 1998 agreement (the Cost Sharing Agreement), a 2005 arbitration award (subsequently confirmed as a judgment), and a September 30, 2014 Funding Agreement (the Funding Agreement). The Cost Sharing Agreement and the arbitration resolved disputes that arose out of the Company's 1978 sale of its Fox River facilities to API. The Cost Sharing Agreement and arbitration award resulted in a 45% share for NCR of the first \$75 million of such costs (a threshold that was reached in 2008), and a 40% share for amounts in excess of \$75 million. The Funding Agreement arose out of a 2012 to 2014 arbitration dispute between NCR and API, and provides for regular, ongoing funding of NCR-incurred Fox River remediation costs via contributions, made to a new limited liability corporation created by the Funding Agreement, by BAT, API and, for 2014, API's indemnitor Windward Prospects. The Funding Agreement creates an obligation on BAT and API to fund 50% of NCR's Fox River remediation costs from October 1, 2014 forward; the Funding Agreement also provides NCR opportunities to recoup, both indirectly from third parties and directly, the difference between BAT's and API's 60% obligation under the Cost Sharing Agreement and arbitration award on the one hand and their 50% payments under the Funding Agreement on the other, as well as the difference between the amount NCR received under the Funding Agreement and the amount owed to it under the Cost Sharing Agreement and arbitration award for the period from April 2012 through the end of September 2014.

Various litigation proceedings concerning the Fox River are pending or have been concluded, and have been described in detail in previous Forms 10-Q and 10-K. There are no material developments in any of those proceedings that remain pending. The previously scheduled trials in the contribution and enforcement actions remain stayed in view of the pending motion to approve a consent decree settlement (the CD settlement), which was described by the Company in its prior Form 10-Q. That settlement was negotiated by the federal and state governments and NCR, and if approved by the court is expected to resolve the remaining Fox River-related claims against the Company. The key components of the proposed CD settlement, a motion for approval of which is now pending before the Wisconsin federal court, include (1) the Company's commitment to complete the remediation of the Fox River, which is expected to be completed over 2017 and 2018; (2) the Company's conditional agreement to waive its contribution claims against the two remaining defendants in the case, GP and Glatfelter; (3) the Company's agreement not to appeal the trial court's decision on divisibility of harm; (4) the Governments' agreement to include in the settlement so-called "contribution protection" in the Company's favor as to GP's and Glatfelter's contribution claims against the Company, the effect of which will be to extinguish those claims; (5) the Governments' agreement not to pursue the Company for the Governments' past oversight costs; and (6) the Governments' agreement to exercise prosecutorial discretion in pursuing other parties for future oversight costs and long-term monitoring and maintenance, with the Company retaining so-called "backstop" liability in the event that the other parties fail to pay future oversight costs or to perform long-term monitoring and maintenance. Additionally, although certain state law claims by GP and Glatfelter against the Company may not be affected directly by the CD settlement, the CD settlement provides that the Company's contribution claims against those two parties will revive if those parties attempt to assert any claims against the Company relating to the Fox River, including any state law claims.

The court's decision on the revised consent decree is pending. With respect to 2017 remediation, the Company has agreed to perform the remediation obligations set forth in the CD settlement while the motion for approval is pending, and that remediation work is proceeding.

With respect to the Company's prior dispute with API, which was generally superseded by the Funding Agreement, the Company received timely payments as they came due under the Funding Agreement.

NCR's eventual remediation liability, followed by long-term monitoring, will depend on a number of factors. In establishing the reserve, NCR attempts to estimate a range of reasonably possible outcomes for each of these factors, although each range is itself uncertain. NCR uses its best estimate within the range, if that is possible. Where there is a range of equally possible outcomes, and there is no amount within that range that is considered to be a better estimate than any other amount, NCR uses the low end of the range. In general, the most significant factor is whether the Wisconsin court approves the CD settlement as submitted; apart from that, the significant factors include: (1) the total

remaining clean-up costs, including long-term monitoring following completion of the clean-up, and what parties are assigned to discharge the post-clean-up tasks; (2) total NRD for the site; (3) the share of clean-up costs and NRD that NCR will bear; (4) NCR's transaction and litigation costs to defend itself in this matter; and (5) the share of NCR's payments that API and/or BAT will bear, as discussed above. With respect to NRD, in connection with a certain settlement entered into by other PRPs, in the year ended December 31, 2015 the Government asked the court to allow it to withdraw the NRD claims it had prosecuted on behalf of NRD trustees, including those NRD claims asserted against the Company (the Government had represented it would do so in the course of presenting the settlement to the court for approval).

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

Calculation of the Company's Fox River reserve is subject to several complexities, and it is possible there could be additional changes to some elements of the reserve over upcoming periods, although the Company is unable to predict or estimate such changes at this time. There can be no assurance that the clean-up and related expenditures and liabilities will not have a material effect on NCR's capital expenditures, earnings, financial condition, cash flows, or competitive position. As of June 30, 2017, the net reserve for the Fox River matter was approximately \$18 million, compared to \$27 million as of December 31, 2016. The change in the net reserve is due to payments for clean-up activities and litigation costs. NCR contributes to the LLC in order to fund remediation activities and generally, by contract, has funded certain amounts of remediation expenses in advance. As of June 30, 2017 and December 31, 2016, approximately zero remained from this funding. NCR's reserve for the Fox River matter is reduced as the LLC makes payments to the remediation contractor and other vendors with respect to remediation activities.

Under a 1996 agreement, AT&T Corp. (AT&T) and Nokia (as the successor to Lucent Technologies and Alcatel-Lucent USA) are responsible severally (not jointly) for indemnifying NCR for certain portions of the amounts paid by NCR for the Fox River matter over a defined threshold and subject to certain offsets. (The agreement governs certain aspects of AT&T's divestiture of NCR and of what was then known as Lucent Technologies.) NCR's estimate of what AT&T and Nokia remain obligated to pay under the indemnity totaled approximately \$21 million and \$31 million as of June 30, 2017 and December 31, 2016, respectively, and is deducted in determining the net reserve discussed above.

Kalamazoo River In November 2010, USEPA issued a "general notice letter" to NCR with respect to the Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site (Kalamazoo River site) in Michigan. Three other companies - International Paper, Mead Corporation, and Consumers Energy - also received general notice letters at or about the same time. USEPA asserts that the site is contaminated by various substances, primarily PCBs, as a result of discharges by various paper mills located along the river. USEPA does not claim that the Company made direct discharges into the Kalamazoo River, and NCR never had facilities at or near the Kalamazoo River site, but indicated that "NCR may be liable under Section 107 of CERCLA ... as an arranger, who by contract or agreement, arranged for the disposal, treatment and/or transportation of hazardous substances at the Site." USEPA stated that it "may issue special notice letters to [NCR] and other PRPs for future RI/FS [remedial investigation / feasibility studies] and RD/RA [remedial design / remedial action] negotiations."

In connection with the Kalamazoo River site, in December 2010 the Company, along with two other defendants, was sued in federal court by three GP affiliate corporations in a contribution and cost recovery action for alleged pollution. The suit, pending in Michigan, asks that the Company pay a "fair portion" of these companies' costs. Various removal and remedial actions remain to be performed at the Kalamazoo River site, the costs for which have not been determined. The suit alleges that the Company is liable as an "arranger" under CERCLA. The initial phase of the case was tried in a Michigan federal court in February 2013; on September 26, 2013 the court issued a decision that held NCR was liable as an "arranger," as of at least March 1969. (PCB-containing carbonless copy paper was produced from approximately 1954 to April 1971, and the majority of contamination had occurred prior to 1969). NCR has preserved its right to appeal the September 2013 decision.

The Court did not determine NCR's share of the overall liability, which the Company believes should be de minimis, or how NCR's liability relates to the liability of other liable or potentially liable parties at the site. Relative shares of liability were tried to the court in a subsequent phase of the case; the trial concluded in December 2015, and posttrial briefing concluded in March 2016. The parties are awaiting the court's judgment. Prior to trial, in response to a motion filed by the Company, the court dismissed several portions of GP's claims as time-barred, with the result that the past costs being tried total to approximately \$50 million. The court may or may not also rule on the allocation of future costs. If the Company is found liable for money damages or otherwise with respect to the Kalamazoo River site, it would have claims against BAT and API under the Cost Sharing Agreement, the arbitration award, the judgment and the Funding Agreement discussed above in connection with the Fox River matter (the Funding Agreement may

provide partial reimbursement of such damages depending on the extent of certain recoveries, if any, against third parties under its terms). The Company would also have claims against AT&T and Nokia under the arrangement discussed above in connection with the Fox River matter.

Environmental-Related Insurance Recoveries In connection with the Fox River and other environmental sites, through June 30, 2017, NCR has received a combined gross total of approximately \$186 million in settlements reached with its principal insurance carriers. Portions of many of these settlements agreed in the 2010 through 2013 timeframe are payable to a law firm that litigated the claims on the Company's behalf. Some of the settlements cover not only the Fox River but also other environmental sites; some are limited to the Kalamazoo River site. Some of the settlements are directed to defense costs and some are directed to indemnity costs. Of the total amount collected to date with respect to the Fox River, \$9 million is subject to competing claims by API.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

Environmental Remediation Estimates It is difficult to estimate the future financial impact of environmental laws, including potential liabilities. NCR records environmental provisions when it is probable that a liability has been incurred and the amount or range of the liability is reasonably estimable. Provisions for estimated losses from environmental restoration and remediation are, depending on the site, based generally on internal and third-party environmental studies, estimates as to the number and participation level of other PRPs, the extent of contamination, estimated amounts for attorney and other fees, and the nature of required clean-up and restoration actions. Reserves are adjusted as further information develops or circumstances change. Management expects that the amounts reserved from time to time will be paid out over the period of investigation, negotiation, remediation and restoration for the applicable sites. The amounts provided for environmental matters in NCR's Condensed Consolidated Financial Statements are the estimated gross undiscounted amounts of such liabilities, without deductions for indemnity insurance, third-party indemnity claims or recoveries from other PRPs, except as qualified in the following sentences. Except for the sharing agreement with API described above with respect to a particular insurance settlement, in those cases where insurance carriers or third-party indemnitors have agreed to pay any amounts and management believes that collectability of such amounts is probable, the amounts are recorded in the Condensed Consolidated Financial Statements. For the Fox River site, as described above, assets relating to the AT&T and Nokia indemnities and to the API/BAT obligations are recorded as payment is supported by contractual agreements, public filings and/or payment history.

Guarantees and Product Warranties Guarantees associated with NCR's business activities are reviewed for appropriateness and impact to the Company's Condensed Consolidated Financial Statements. As of June 30, 2017 and December 31, 2016, NCR had no material obligations related to such guarantees, and therefore its Condensed Consolidated Financial Statements do not have any associated liability balance.

NCR provides its customers a standard manufacturer's warranty and records, at the time of the sale, a corresponding estimated liability for potential warranty costs. Estimated future obligations due to warranty claims are based upon historical factors, such as labor rates, average repair time, travel time, number of service calls per machine and cost of replacement parts. When a sale is consummated, the total customer revenue is recognized, provided that all revenue recognition criteria are otherwise satisfied, and the associated warranty liability is recorded using pre-established warranty percentages for the respective product classes.

From time to time, product design or quality corrections are accomplished through modification programs. When identified, associated costs of labor and parts for such programs are estimated and accrued as part of the warranty reserve.

The Company recorded the activity related to the warranty reserve for the six months ended June 30 as follows:

In millions	2017	2016
Warranty reserve liability		
Beginning balance as of January 1	\$27	\$24
Accruals for warranties issued	18	18
Settlements (in cash or in kind)	(21)	(20)
Ending balance as of June 30	\$24	\$22

In addition, NCR provides its customers with certain indemnification rights. In general, NCR agrees to indemnify the customer if a third party asserts patent or other infringement on the part of its customers for its use of the Company's products subject to certain conditions that are generally standard within the Company's industries. On limited occasions the Company will undertake additional indemnification obligations for business reasons. From time to time, NCR also enters into agreements in connection with its acquisition and divestiture activities that include

indemnification obligations by the Company. The fair value of these indemnification obligations is not readily determinable due to the conditional nature of the Company's potential obligations and the specific facts and circumstances involved with each particular agreement. The Company has not recorded a liability in connection with these indemnifications, and no current indemnification instance is material to the Company's financial position. Historically, any payments made by the Company under these types of agreements have not had a material effect on the Company's consolidated financial condition, results of operations or cash flows.

8. SERIES A CONVERTIBLE PREFERRED STOCK

On December 4, 2015, NCR issued 820,000 shares of Series A Convertible Preferred Stock to certain entities affiliated with The Blackstone Group L.P. for an aggregate purchase price of \$820 million, or \$1,000 per share, pursuant to an Investment Agreement between the Company and Blackstone, dated November 11, 2015. In connection with the issuance of the Series A Convertible Preferred Stock, the Company incurred direct and incremental expenses of \$26 million, including financial advisory fees, closing costs, legal expenses and other offering-related expenses. These direct and incremental expenses reduced the Series A Convertible Preferred Stock, and will be accreted through retained earnings as a deemed dividend from the date of issuance through the first possible known redemption date, March 16, 2024. Holders of Series A Convertible Preferred Stock are entitled to a cumulative dividend at the rate of 5.5% per annum, payable quarterly in arrears. During the three months ended June 30, 2017 and 2016, the Company paid dividends-in-kind of \$11 million, respectively, associated with the Series A Convertible Preferred Stock. During the six months ended June 30, 2017 and 2016, the Company paid dividends-in-kind of \$23 million, respectively, associated with the Series A Convertible Preferred Stock. As of June 30, 2017 and December 31, 2016, the Company had accrued dividends of \$3 million, respectively, associated with the Series A Convertible Preferred Stock. There were no cash dividends declared during the three and six months ended June 30, 2017 or 2016.

The Series A Convertible Preferred Stock is convertible at the option of the holders at any time into shares of common stock at a conversion price of \$30.00 per share, or a conversion rate of 33.333 shares of common stock per share of Series A Convertible Preferred Stock.

Under the Investment Agreement, Blackstone agreed not to sell or otherwise transfer its shares of Series A Convertible Preferred Stock (or any shares of common stock issued upon conversion thereof) without the Company's consent until June 4, 2017. In March 2017, we provided Blackstone with an early release from this lock-up, allowing Blackstone to sell approximately 49% of its shares of Series A Convertible Preferred Stock, and in return, Blackstone agreed to amend the Investment Agreement to extend the lock-up on the remaining 51% of its shares of Series A Convertible Preferred Stock for six months until December 1, 2017.

In connection with the early release of the lock-up, Blackstone offered for sale 342,000 shares of Series A Convertible Preferred Stock in an underwritten public offering. In addition, Blackstone converted 90,000 shares of Series A Convertible Preferred Stock into shares of our common stock and we repurchased those shares of common stock for \$48.47 per share. The underwritten offering and the stock repurchase were consummated on March 17, 2017.

The repurchase of the common shares immediately upon conversion is considered a redemption of the related preferred shares. As a result, the excess of the fair value of consideration transferred over the carrying value, of \$58 million, was included as a deemed dividend in adjusting the income from common stockholders in calculating earnings per share for the six months ended June 30, 2017. Additionally, we determined that the changes to the lock-up period were considered a modification of the Series A Convertible Preferred Stock. The impact of the modification, calculated as the difference in the fair value immediately before and immediately after the changes, of \$4 million, was included as a deemed dividend in adjusting the income from common stockholders in calculating earnings per share for the six months ended June 30, 2017. This adjustment was recorded as an increase to the Series A Convertible Preferred Shares and will reduce the accretion of the direct and incremental expenses associated with the original offering as described above. Refer to Note 10, "Earnings Per Share," for additional discussion.

As of June 30, 2017 and December 31, 2016, the maximum number of common shares that could be required to be issued upon conversion of the outstanding shares of Series A Convertible Preferred Stock was 26.7 million and 29.0 million shares, respectively.

9. STOCKHOLDERS' EQUITY

Changes in stockholders' equity in the six months ended June 30, 2017 were as follows:

in millions	NCR Stockholders' Equity	Non-Redeemable Noncontrolling Interests in Subsidiaries	Total Stockholders' Equity
Balance at December 31, 2016	\$ 695	\$ 4	\$ 699
Adoption of share-based compensation accounting standard update	39	—	39
Balance at January 1, 2017	734	4	738
Net income	159	1	160
Other comprehensive income	15	—	15
Repurchases of Company common stock	(350)) —	(350)
Series A convertible preferred stock dividends	(24)) —	(24)
Deemed dividend on modification of Series A convertible preferred stock	(4)) —	(4)
Redemption of Series A convertible preferred stock	87	—	87
Employee stock compensation expense	41	—	41
Tax withholdings related to vesting of stock based awards	(24)) —	(24)
Proceeds from employee stock plans	8	—	8
Balance at June 30, 2017	\$ 642	\$ 5	\$ 647

During the six months ended June 30, 2017, the Company repurchased 7.4 million shares of its common stock for \$350 million. Upon repurchase, the shares were retired. Refer to Note 8, "Series A Convertible Preferred Stock," for further discussion of the Series A Convertible Preferred Stock dividends, the deemed dividend on modification and the redemption of the Series A convertible preferred stock. Refer to Note 1, "Basis of Presentation and Summary of Significant Accounting Policies" for further discussion of the adoption of share-based compensation accounting standard update.

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

10. EARNINGS PER SHARE

Basic earnings per share (EPS) is calculated by dividing net income or loss attributable to NCR, less any dividends (declared or cumulative undeclared), deemed dividends, accretion or decrction, redemption or induced conversion on our Series A Convertible Preferred Stock, by the weighted average number of shares outstanding during the period.

In computing diluted EPS, we adjust the numerator used in the basic EPS computation, subject to anti-dilution requirements, to add back the dividends (declared or cumulative undeclared), deemed dividends, accretion or decrction, redemption or induced conversion on our Series A Convertible Preferred Stock. We adjust the denominator used in the basic EPS computation, subject to anti-dilution requirements, to include the dilution from potential shares related to the Series A Convertible Preferred Stock and stock-based compensation plans.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

The holders of Series A Convertible Preferred Stock and unvested restricted stock units do not have nonforfeitable rights to common stock dividends or common stock dividend equivalents. Accordingly, the Series A Convertible Preferred Stock and unvested restricted stock units do not qualify as participating securities. See Note 5, "Stock Compensation Plans," for share information on NCR's stock compensation plans.

The components of basic earnings per share are as follows:

In millions, except per share amounts	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Numerator				
Income from continuing operations	\$97	\$76	\$154	\$108
Series A convertible preferred stock dividends	(12)	(13)	(24)	(24)
Deemed dividend on modification of Series A convertible preferred stock	—	—	(4)	—
Deemed dividend on Series A convertible preferred stock redemption	—	—	(58)	—
Net income from continuing operations attributable to NCR common stockholders	85	63	68	84
Income from discontinued operations, net of tax	5	—	5	—
Net income attributable to NCR common stockholders	\$90	\$63	\$73	\$84
Denominator				
Basic weighted average number of shares outstanding	121.4	123.8	122.1	127.1
Basic earnings per share:				
From continuing operations	\$0.70	\$0.51	\$0.56	\$0.66
From discontinued operations	0.04	—	0.04	—
Total basic earnings per share	\$0.74	\$0.51	\$0.60	\$0.66

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

The components of diluted earnings per share are as follows:

In millions, except per share amounts	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Numerator				
Income from continuing operations	\$97	\$76	\$154	\$108
Series A convertible preferred stock dividends	—	—	(24)	(24)
Deemed dividend on modification of Series A convertible preferred stock	—	—	(4)	—
Deemed dividend on Series A convertible preferred stock redemption	—	—	(58)	—
Net income from continuing operations attributable to NCR common stockholders	97	76	68	84
Income from discontinued operations, net of tax	5	—	5	—
Net income attributable to NCR common stockholders	\$102	\$76	\$73	\$84
Basic weighted average number of shares outstanding	121.4	123.8	122.1	127.1
Dilutive effect of as-if converted Series A Convertible Preferred Stock	26.6	28.0	—	—
Dilutive effect of restricted stock units and employee stock options	4.7	2.7	5.1	2.5
Denominator - from continuing operations and total	152.7	154.5	127.2	129.6
Diluted earnings per share:				
From continuing operations	\$0.64	\$0.49	\$0.53	\$0.65
From discontinued operations	0.03	—	0.04	—
Total diluted earnings per share	\$0.67	\$0.49	\$0.57	\$0.65

For the three months ended June 30, 2017 and June 30, 2016, it was more dilutive to assume the Series A Convertible Preferred Stock was converted to common stock and therefore weighted average outstanding shares of common stock were adjusted by the as-if converted Series A Convertible Preferred Stock and the diluted earnings per share was calculated excluding the quarterly dividends.

For the three months ended June 30, 2017, weighted average restricted stock units of 0.8 million were excluded from the diluted share count because their effect would have been anti-dilutive.

For the six months ended June 30, 2017, shares related to the as-if converted Series A Convertible Preferred Stock were excluded from the diluted share count because their effect would have been anti-dilutive. The weighted shares related to as-if converted Series A Convertible Preferred Stock, considering the existing and redeemed shares, excluded were 27.7 million. Weighted average restricted stock units of 0.5 million were excluded from the diluted share count because their effect would have been anti-dilutive.

For the six months ended June 30, 2016, shares related to the as-if converted Series A Convertible Preferred Stock were excluded from the diluted share count because their effect would have been anti-dilutive. The weighted shares related to as-if converted Series A Convertible Preferred Stock, excluded were 27.8 million.

11. DERIVATIVES AND HEDGING INSTRUMENTS

NCR is exposed to risks associated with changes in foreign currency exchange rates and interest rates. NCR utilizes a variety of measures to monitor and manage these risks, including the use of derivative financial instruments. NCR has exposure to approximately 50 functional currencies. Since a substantial portion of our operations and revenue occur outside the U.S., and in currencies other than the U.S. Dollar, our results can be significantly impacted, both positively and negatively, by changes in foreign currency exchange rates.

Foreign Currency Exchange Risk

The accounting guidance for derivatives and hedging requires companies to recognize all derivative instruments as either assets or liabilities at fair value in the Condensed Consolidated Balance Sheets. The Company designates foreign exchange contracts as cash flow hedges of forecasted transactions when they are determined to be highly effective at inception.

Our risk management strategy includes hedging, on behalf of certain subsidiaries, a portion of our forecasted, non-functional currency denominated cash flows for a period of up to 15 months. As a result, some of the impact of currency fluctuations on non-functional currency denominated transactions (and hence on subsidiary operating income, as stated in the functional currency), is mitigated in the near term. The amount we hedge and the duration of hedge contracts may vary significantly. In the longer term (greater than 15 months), the subsidiaries are still subject to the effect of translating the functional currency results to U.S. Dollars. To manage our exposures and mitigate the impact of currency fluctuations on the operations of our foreign subsidiaries, we hedge our main transactional exposures through the use of foreign exchange forward and option contracts. This is primarily done through the hedging of foreign currency denominated inter-company inventory purchases by NCR's marketing units and the foreign currency denominated inputs to our manufacturing units. The related foreign exchange contracts are designated as highly effective cash flow hedges. The gains or losses on these hedges are deferred in accumulated other comprehensive income (AOCI) and reclassified to income when the underlying hedged transaction is recorded in earnings. As of June 30, 2017, the balance in AOCI related to foreign exchange derivative transactions was a gain of \$3 million, net of tax. The gains or losses from derivative contracts related to inventory purchases are recorded in cost of products when the inventory is sold to an unrelated third party.

We also utilize foreign exchange contracts to hedge our exposure of assets and liabilities denominated in non-functional currencies. We recognize the gains and losses on these types of hedges in earnings as exchange rates change. We do not enter into hedges for speculative purposes.

⁽¹⁾ The Company was party to an interest rate swap agreement that fixed the interest rate on a portion of the Company's LIBOR indexed floating rate borrowings under its Senior Secured Credit Facility through August 22, 2016.

In millions		Amount of Gain (Loss) Recognized in the Condensed Consolidated Statement of Operations Three months ended June 30	Six months ended June 30
Derivatives not Designated as Hedging Instruments	Location of Gain (Loss) Recognized in the Condensed Consolidated Statement of Operations	2016	2017
Foreign exchange contracts	Other (expense), net	\$(3)	\$(2)
Concentration of Credit Risk		2016	2017

NCR is potentially subject to concentrations of credit risk on accounts receivable and financial instruments such as hedging instruments and cash and cash equivalents. Credit risk includes the risk of nonperformance by counterparties. The maximum potential loss may exceed the amount recognized on the Condensed Consolidated Balance Sheets. Exposure to credit risk is managed through credit approvals, credit limits, selecting major international financial institutions (as counterparties to hedging transactions) and monitoring procedures. NCR's business often involves large transactions with customers, and if one or more of those customers were to default on its obligations under applicable contractual arrangements, the Company could be exposed to potentially significant losses. However, management believes that the reserves for potential losses are adequate. As of June 30, 2017, we did not have any significant concentration of credit risk related to financial instruments.

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

12. FAIR VALUE OF ASSETS AND LIABILITIES

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Assets and liabilities recorded at fair value on a recurring basis as of June 30, 2017 and December 31, 2016 are set forth as follows:

In millions	June 30, 2017	June 30, 2017 Quoted Prices in Active Markets for Identical Significant Assets Observable Inputs (Level 1) (Level 2)				Significant Unobservable Inputs (Level 3)
Assets:						
Deposits held in money market mutual funds ⁽¹⁾	\$ 3	\$ 3	\$	—	\$	—
Foreign exchange contracts ⁽²⁾	5	—	5		—	
Total	\$ 8	\$ 3	\$	5	\$	—
Liabilities:

Total	\$ 1	\$ —	\$	1	\$	—

In millions	December 31, 2016	December 31, 2016 Quoted Prices in Active Markets for Identical Significant Assets Observable Inputs (Level 1) (Level 2)				Significant Unobservable Inputs (Level 3)
Assets:						
Deposits held in money market mutual funds ⁽¹⁾	\$ 5	\$ 5	\$	—	\$	—
Foreign exchange contracts ⁽²⁾	19	—	19		—	
Total	\$ 24	\$ 5	\$	19	\$	—
Liabilities:						
Foreign exchange contracts ⁽³⁾	2	—	2		—	
Total	\$ 2	\$ —	\$	2	\$	—

⁽¹⁾ Included in Cash and cash equivalents in the Condensed Consolidated Balance Sheet.⁽²⁾ Included in Other current assets in the Condensed Consolidated Balance Sheet.⁽³⁾ Included in Other current liabilities in the Condensed Consolidated Balance Sheet.

Deposits Held in Money Market Mutual Funds A portion of the Company's excess cash is held in money market mutual funds which generate interest income based on prevailing market rates. Money market mutual fund holdings are measured at fair value using quoted market prices and are classified within Level 1 of the valuation hierarchy.

Foreign Exchange Contracts As a result of our global operating activities, we are exposed to risks from changes in foreign currency exchange rates, which may adversely affect our financial condition. To manage our exposures and mitigate the impact of currency fluctuations on our financial results, we hedge our primary transactional exposures

through the use of foreign exchange forward and option contracts. The foreign exchange contracts are valued using the market approach based on observable market transactions of forward rates and are classified within Level 2 of the valuation hierarchy.

Assets Measured at Fair Value on a Non-recurring Basis

From time to time, certain assets are measured at fair value on a nonrecurring basis using significant unobservable inputs (Level 3). NCR reviews the carrying values of investments when events and circumstances warrant and considers all available evidence in evaluating when declines in fair value are other-than-temporary declines. There were no impairment charges or material non-recurring fair value adjustments recorded during the three and six months ended June 30, 2017 and 2016.

13. SEGMENT INFORMATION AND CONCENTRATIONS

The Company manages and reports the following three segments:

Software - Our software portfolio includes industry-based software applications and application suites for the financial services, retail, hospitality and small business industries. We also offer other industry-oriented software applications, including cash management software, video banking software, fraud and loss-prevention applications, check and document imaging, remote-deposit capture and customer-facing digital banking applications for the financial services industry; and secure electronic and mobile payment solutions, sector-specific point of sale software applications, and back-office inventory and store and restaurant management software applications for the retail and hospitality industries. Additionally, we provide ongoing software support and maintenance services, as well as consulting and implementation services for our software solutions.

Services - Our global end-to-end services solutions include assessment and preparation, staging, installation, implementation, and maintenance and support for our hardware solutions. We also provide systems management and complete managed services for our product offerings. In addition, we provide servicing for third party networking products and computer hardware from select manufacturers.

Hardware - Our hardware solutions include our suite of financial-oriented self-service ATM-related hardware, and our retail- and hospitality-oriented point of sale terminal, self-checkout kiosk and related hardware. We also offer other self-service kiosks, such as self-check in/out kiosks for airlines, and wayfinding solutions for buildings and campuses.

These segments represent components of the Company for which separate financial information is available that is utilized on a regular basis by the chief operating decision maker in assessing segment performance and in allocating the Company's resources. Management evaluates the performance of the segments based on revenue and segment operating income. Assets are not allocated to segments, and thus are not included in the assessment of segment performance, and consequently, we do not disclose total assets by reportable segment.

The accounting policies used to determine the results of the operating segments are the same as those utilized for the consolidated financial statements as a whole. Intersegment sales and transfers are not material.

To maintain operating focus on business performance, non-operational items are excluded from the segment operating results utilized by our chief operating decision maker in evaluating segment performance and are separately delineated to reconcile back to total reported income from operations.

The following table presents revenue and operating income by segment:

In millions	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Revenue by segment				
Software	\$464	\$452	\$916	\$871

Services	588	574	1,145	1,117
Hardware ⁽¹⁾	541	594	1,010	1,076

15. RESTRUCTURING PLAN

In July 2014, we announced a restructuring plan to strategically reallocate resources so that we can focus on our higher-growth, higher-margin opportunities in the software-driven consumer transaction technologies industry. The program was centered on ensuring that our people and processes were aligned with our continued transformation and includes: rationalizing our product portfolio to eliminate overlap and redundancy; taking steps to end-of-life older commodity product lines that are costly to maintain and provide low margins; moving lower productivity services positions to our new centers of excellence due to the positive impact of services innovation; and reducing layers of management and organizing around divisions to improve decision-making, accountability and strategic execution. As of March 31, 2017 this plan was complete.

The Company had no related charges recorded in the three and six months ended June 30, 2017 and a total charge of \$8 million and \$10 million recorded in the three and six months ended June 30, 2016, respectively.

Charges related to the restructuring plan for the the three and six months ended June 30 were:

	Three months ended June 30 2017	Six months ended June 30 2016
In millions		
Severance and other employee-related costs		
ASC 712 charges included in restructuring-related charges	\$ —	\$ —
ASC 420 charges included in restructuring-related charges	(2)	(2)
Inventory-related charges		
Charges included in cost of services	4	4
Asset-related charges		
External and internal use software impairment charges included in restructuring-related charges	1	2
Other exit costs		
Other exit costs included in restructuring-related charges	3	4
Total restructuring charges	\$ —	\$ —

The results by segment, as disclosed in Note 13, “Segment Information and Concentrations,” exclude the impact of these costs, which is consistent with the manner by which management assesses the performance and evaluates the results of each segment. The following table summarizes the total liabilities relating to the restructuring plan, which are included on the Condensed Consolidated Balance Sheets in other current liabilities.

In millions	2017	2016
Employee Severance and Other Exit Costs		
Beginning balance as of January 1	\$ 1	\$ 20
Cost recognized during the period	—	6
Change in estimated payments	—	(2)
Utilization	(1)	(16)
Ending balance as of June 30	\$ —	\$ 8

16. SUPPLEMENTAL FINANCIAL INFORMATION

The components of accounts receivable are summarized as follows:

In millions	June 30, December 2017 31, 2016	
Accounts receivable		
Trade	\$ 1,321	\$ 1,266
Other	39	57
Accounts receivable, gross	1,360	1,323
Less: allowance for doubtful accounts	(39)	(41)
Total accounts receivable, net	\$ 1,321	\$ 1,282

The components of inventory are summarized as follows:

In millions	June 30, December 2017 31, 2016	
Inventories		
Work in process and raw materials	\$ 203	\$ 154
Finished goods	219	149
Service parts	406	396
Total inventories	\$ 828	\$ 699

17. CONDENSED CONSOLIDATING SUPPLEMENTAL GUARANTOR INFORMATION

The Company's 5.00% Notes, 4.625% Notes, 5.875% Notes and 6.375% Notes are guaranteed by the Company's subsidiary, NCR International, Inc. (Guarantor Subsidiary), which is 100% owned by the Company and has guaranteed fully and unconditionally the obligations to pay principal and interest for these senior unsecured notes. The guarantees are subject to release under certain circumstances as described below:

- the designation of the Guarantor Subsidiary as an unrestricted subsidiary under the indenture governing the notes;
- the release of the Guarantor Subsidiary from its guarantee under the Senior Secured Credit Facility;
- the release or discharge of the indebtedness that required the guarantee of the notes by the Guarantor Subsidiary;
- the permitted sale or other disposition of the Guarantor Subsidiary to a third party; and
- the Company's exercise of its legal defeasance option of its covenant defeasance option under the indenture governing the notes.

Refer to Note 3, "Debt Obligations," for additional information.

In connection with the previously completed registered exchange offers for the 5.00% Notes, 4.625% Notes, 5.875% Notes and 6.375% Notes, the Company is required to comply with Rule 3-10 of SEC Regulation S-X (Rule 3-10), and has therefore included the accompanying Condensed Consolidating Financial Statements in accordance with Rule 3-10(f) of SEC Regulation S-X.

The following supplemental information sets forth, on a consolidating basis, the condensed statements of operations and comprehensive income (loss), the condensed balance sheets and the condensed statements of cash flows for the parent issuer of these senior unsecured notes, for the Guarantor Subsidiary and for the Company and all of its consolidated subsidiaries.

Item MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
2. OPERATIONS (MD&A)

Overview

The following were the significant events for the second quarter of 2017, each of which is discussed more fully in later sections of this MD&A:

- Revenue decreased approximately 2% from the prior year period, and increased 3% excluding unfavorable foreign currency impacts and adjusting for the divestiture of our Interactive Printer Solutions (IPS) business;
- Software revenue increased 3% from the prior year period, driven by cloud growth of 9%; and
- Gross margin rate expanded 160 basis points to 29.1% as a result of strength in our Services and Hardware segments.

Our long-term strategy is built on being a global technology solutions company that uses software and value-added endpoints, coupled with higher-margin services and a focus on cloud and mobile, to help our customers deliver on the promise of an omni-channel experience.

To deliver on our strategy in 2017, we are focused on sales enablement, services transformation, evolving our software business model, investing in innovation and cultivating our culture and team.

Sales Enablement - Providing our sales force with the training, tools and processes necessary for consultative selling, supported by a strong solutions management function that innovates the way in which we go to market, and expanding our organization of channel partners.

Services Transformation - Driving improved services performance by focusing on a higher mix of managed services, improving our productivity and efficiency, expanding our remote diagnostics and repair capabilities and creating greater discipline in our product lifecycle management.

Evolving our Business Model - Continuing the shift in our business model to provide innovative end-to-end software platform solutions for our customers, with best in class software support while keeping an efficient cost structure to create competitive advantage.

Investing in Innovation - Optimizing our operating model and prioritizing investments in areas with the greatest potential for profitable growth, such as cloud solutions and professional, managed and other services.

Cultivating our Culture and Team - Organizing and recruiting with an eye toward the future, and investing in, training and developing our employees to accelerate the delivery of our innovative solutions and to focus on the needs of our customers and changes in consumer behavior.

We plan, in advancing our strategy, to continue to manage our costs effectively, to selectively pursue strategic acquisitions that promote growth and improve gross margin, and to selectively penetrate market adjacencies in single and emerging growth industry segments.

Potentially significant risks to the execution of our initiatives include the strength of demand for automated teller machines and other financial services hardware; domestic and global economic and credit conditions including, in particular, uncertainty in the "BRIC" economies and economic sanctions against Russia, the determination by Britain to exit the European Union, the potential for changes to global or regional trade agreements or the imposition of protectionist trade policies, and the imposition of import or export tariffs or border adjustments; strengthening of the U.S. Dollar resulting in unfavorable foreign currency impacts; collectability difficulties in subcontracting relationships in Middle East and Africa; the possibility of disruptions in or problems with our data center hosting facilities; cybersecurity risks and compliance with data privacy and protection requirements; competition that can drive further price erosion and the potential loss of market share; difficulties associated with the introduction of products in new

markets; market adoption of our products by customers; and management and servicing of our existing indebtedness.

⁽¹⁾ The tables above each include a presentation of period-over-period revenue growth or decline on an adjusted constant currency basis, which is a non-GAAP measure that excludes the effects of foreign currency fluctuations and the impact of the IPS divestiture. We calculate this information by translating prior period revenue growth at current period monthly average exchange rates and by excluding the prior period results of the divested IPS business for the comparable period after the completion of the sale. We believe that examining period-over-period revenue growth or decline excluding foreign currency fluctuations and adjusting for the impact of the IPS divestiture is useful for assessing the underlying performance of our business, and our management uses revenue growth adjusted for constant currency and the impact of the IPS divestiture to evaluate period-over-period operating performance. This non-GAAP measure should not be considered a substitute for, or superior to, period-over-period revenue growth under GAAP.

The following table provides a reconciliation of geographic theater revenue percentage growth (GAAP) to revenue percentage growth adjusted constant currency (non-GAAP) for the three months ended June 30, 2017:

Revenue

For the three months ended June 30, 2017 compared to the three months ended June 30, 2016, revenue decreased 2% mainly due to the impact of the IPS divestiture. Excluding the impact of unfavorable foreign currency exchange rates and the IPS divestiture, revenue increased in all segments. Unfavorable foreign currency exchange rates and the IPS divestiture impacted the revenue comparison by 2% and 3%, respectively.

Software revenue increased 3% driven by growth in cloud and professional services. Services revenue increased 2% due to growth in both hardware maintenance and managed and implementation services. Hardware revenue decreased 9% due to the impact of the IPS divestiture in the prior year. In the three months ended June 30, 2016, Hardware revenue included \$52 million for the IPS operations, other than MEA. Excluding the impact of the IPS divestiture and unfavorable foreign currency exchange rates, Hardware revenue increased 1% due to growth in Self-Checkout (SCO) and Point-of-Sale (POS) revenue, partially offset by declines in Automated Teller Machine (ATM) revenue.

For the six months ended June 30, 2017 compared to the six months ended June 30, 2016, revenue was flat. Excluding the impact of unfavorable foreign currency exchange rates and the IPS divestiture, revenue increased in all segments. Unfavorable foreign exchange rates and the IPS divestiture impacted the revenue comparison by 1% and 5%, respectively.

Software revenue increased 5% driven by growth in software license, cloud, and professional services. Services revenue increased 3% due to growth in both hardware maintenance and managed and implementation services. Hardware revenue decreased 6% due to the impact of the IPS divestiture in the prior year. In the six months ended June 30, 2016, Hardware revenue included \$124 million for the IPS operations, other than MEA. Excluding the impact of the IPS divestiture and unfavorable foreign currency exchange rates, Hardware revenue increased 7% due to growth in SCO and POS revenue, partially offset by declines in ATM revenue.

Table of Contents

Gross Margin

Gross margin as a percentage of revenue in the three months ended June 30, 2017 was 29.1% compared to 27.5% in the three months ended June 30, 2016. Gross margin as a percentage of revenue expanded in our Services and Hardware segments, which reflects the results of our strategic focus on business transformation, a positive shift in revenue mix, and productivity and efficiency gains. The overall gross margin rate expansion was partially offset by a decline in our Software segment. The decline in Software gross margin rate was due to lower software license revenue partially offset by improved efficiency and scale in software maintenance and cloud.

Gross margin as a percentage of revenue in the six months ended June 30, 2017 was 28.5% compared to 27.0% in the six months ended June 30, 2016. Gross margin as a percentage of revenue expanded in our Services and Hardware segments, partially offset by a decline in our Software segment. The consolidated gross margin rate expansion was a result of our strategic focus, a positive shift in revenue mix, and productivity and efficiency gains.

Operating Expenses

Selling, general and administrative expenses were \$227 million, or 14.2% as a percentage of revenue, in the three months ended June 30, 2017 as compared to \$229 million, or 14.1% as a percentage of revenue, in the three months ended June 30, 2016. Selling, general and administrative expenses in the three months ended June 30, 2017 included \$16 million of acquisition-related amortization of intangibles, \$3 million of costs related to our business transformation initiative and \$1 million of acquisition-related costs. Selling, general, and administrative expenses in the three months ended June 30, 2016 included \$17 million of acquisition-related amortization of intangibles, \$3 million of restructuring as well as costs related to our business transformation initiative and \$1 million of acquisition-related costs. Excluding these items, selling, general and administrative expenses increased slightly from 12.8% of revenue in the three months ended June 30, 2016 to 13.0% of revenue in the three months ended June 30, 2017.

Selling, general and administrative expenses were \$456 million, or 14.8% as a percentage of revenue, in the six months ended June 30, 2017 as compared to \$453 million, or 14.8% as a percentage of revenue, in the six months ended June 30, 2016. Selling, general and administrative expenses in the six months ended June 30, 2017 included \$32 million of acquisition-related amortization of intangibles, \$7 million of costs related to our business transformation initiative and \$2 million of acquisition-related costs. Selling, general, and administrative expenses in the six months ended June 30, 2016 included \$33 million of acquisition-related amortization of intangibles, \$5 million of restructuring as well as costs related to our business transformation initiative and \$3 million of acquisition-related costs. Excluding these items, selling, general and administrative expenses increased slightly from 13.4% of revenue in the six months ended June 30, 2016 to 13.5% of revenue in the six months ended June 30, 2017.

Research and development expenses were \$58 million, or 3.6% as a percentage of revenue, in the three months ended June 30, 2017 as compared to \$50 million, or 3.1% as a percentage of revenue, in the three months ended June 30, 2016. Research and development expenses in the three months ended June 30, 2017 included \$1 million of costs related to our business transformation initiative. Excluding this cost, research and development expenses as a percentage of revenue increased from 3.1% in the three months ended June 30, 2016 to 3.6% in the three months ended June 30, 2017. The increase in research and development expenses was driven by planned incremental investments to further advance our software and hardware solutions.

Research and development expenses were \$125 million, or 4.1% as a percentage of revenue, in the six months ended June 30, 2017 as compared to \$103 million, or 3.4% as a percentage of revenue, in the six months ended June 30, 2016. Research and development expenses in the six months ended June 30, 2017 included \$4 million of costs related

to our business transformation initiative. Excluding this cost, research and development expenses as a percentage of revenue increased from 3.4% in the six months ended June 30, 2016 to 3.9% in the six months ended June 30, 2017. The increase in research and development expenses was driven by planned incremental investments to further advance our software and hardware solutions.

In the three months ended June 30, 2017, restructuring-related charges were zero. In the three months ended June 30, 2016, restructuring-related charges were \$4 million, including \$3 million of other exit costs and \$1 million of asset-related charges.

In the six months ended June 30, 2017, restructuring-related charges were zero. In the six months ended June 30, 2016, restructuring-related charges were \$6 million, including \$4 million of other exit costs and \$2 million of asset-related charges.

Interest and Other Expense Items

Interest expense was \$41 million in the three months ended June 30, 2017 compared to \$43 million in the three months ended June 30, 2016.

Interest expense was \$80 million in the six months ended June 30, 2017 compared to \$89 million in the six months ended June 30, 2016. Interest expense in the six months ended June 30, 2016 included a \$4 million write-off of deferred financing fees associated with the amendment of the senior secured credit facility.

Other expense, net was \$7 million in the three months ended June 30, 2017 compared to \$15 million in the three months ended June 30, 2016. Other expense, net in the three months ended June 30, 2017 and 2016 included \$6 million and \$10 million, respectively, of losses from foreign currency remeasurement and foreign exchange contracts not designated as hedging instruments.

Table of Contents

Other expense, net was \$14 million in the six months ended June 30, 2017 compared to \$25 million in the six months ended June 30, 2016. Other expense, net in the six months ended June 30, 2017 and 2016 included \$10 million and \$18 million, respectively, of losses from foreign currency remeasurement and foreign exchange contracts not designated as hedging instruments.

Provision for Income Taxes

Income tax provisions for interim periods are based on an estimated annual effective income tax rate calculated separately from the effect of significant, infrequent or unusual items. Income tax expense was \$33 million and \$31 million for the three months ended June 30, 2017 and 2016, respectively. The increase in income tax expense was driven by an increase in income from continuing operations, partially offset by an increase in discrete benefits in the three months ended June 30, 2017.

Income tax expense was \$47 million and \$44 million for the six months ended June 30, 2017 and 2016, respectively. The increase in income tax expense was driven by an increase in income from continuing operations, partially offset by an increase in discrete benefits in the six months ended June 30, 2017. The increase in discrete benefits was primarily driven by the recognition of excess tax benefits of stock based compensation awards in the income statement as a result of the adoption of the accounting standard related to employee share-based payments. Refer to Note 1, "Basis of Presentation and Summary of Significant Accounting Policies" for additional discussion.

The Company anticipates potential periodic volatility in future effective tax rates for the continuing impact of excess tax benefits or shortfalls resulting from stock based compensation awards. Additionally, NCR is subject to numerous federal, state and foreign tax audits. While NCR believes that appropriate reserves exist for issues that might arise from these audits, should these audits be settled, the resulting tax effect could impact the tax provision and cash flows in 2017 or future periods. The Company regularly reviews our deferred tax assets for recoverability based on the evaluation of positive and negative evidence; given current earnings and anticipated future earnings at certain subsidiaries, the Company believes that there is a reasonable possibility sufficient positive evidence may become available that would allow the release of a valuation allowance within the next twelve months.

Table of Contents

Income from Discontinued Operations

In the three and six months ended June 30, 2017 income from discontinued operations was \$5 million, net of tax, compared to zero in the three and six months ended June 30, 2016. The increase in income from discontinued operations was driven by an insurance settlement received in the second quarter of 2017.

Revenue and Operating Income by Segment

The Company manages and reports the following three segments:

Software - Our software portfolio includes industry-based software applications and application suites for the financial services, retail, hospitality and small business industries. We also offer other industry-oriented software applications including cash management software, video banking software, fraud and loss prevention applications, check and document imaging, remote-deposit capture and customer-facing digital banking applications for the financial services industry; and secure electronic and mobile payment solutions, sector-specific point of sale software applications, and back-office inventory and store and restaurant management applications for the retail and hospitality industries. Additionally, we provide ongoing software support and maintenance services, as well as consulting and implementation services for our software solutions.

Services - Our global end-to-end services solutions include assessment and preparation, staging, installation, implementation, and maintenance and support for our hardware solutions. We also provide systems management and complete managed services for our product offerings. In addition, we provide servicing for third party networking products and computer hardware from select manufacturers.

Hardware - Our hardware solutions include our suite of financial-oriented self-service ATM-related hardware, and our retail- and hospitality-oriented POS terminal and self-checkout kiosk and related hardware. We also offer other self-service kiosks, such as self-check in/out kiosks for airlines, and wayfinding solutions for buildings and campuses.

Each of these segments derives its revenue by selling in the sales regions in which NCR operates. Segments are measured for profitability by the Company's chief operating decision maker based on revenue and segment operating income. For purposes of discussing our operating results by segment, we exclude the impact of certain non-operational items from segment operating income, consistent with the manner by which management reviews each segment, evaluates performance, and reports our segment results under GAAP. This format is useful to investors because it allows analysis and comparability of operating trends. It also includes the same information that is used by NCR management to make decisions regarding the segments and to assess our financial performance. Our segment results are reconciled to total Company results reported under GAAP in Note 13, "Segment Information and Concentrations," of the Notes to Condensed Consolidated Financial Statements.

In the segment discussions below, we have disclosed the impact of foreign currency fluctuations and the IPS divestiture as it relates to our segment revenue due to its significance during the quarter.

Software Segment

The following table shows the Software segment revenue and operating income for the three and six months ended June 30:

	Three months ended June 30		Six months ended June 30	
In millions	2017	2016	2017	2016
Revenue	\$464	\$452	\$916	\$871
Operating income	\$128	\$144	\$253	\$259
Operating income as a percentage of revenue	27.6 %	31.9 %	27.6 %	29.7 %

In the three months ended June 30, 2017 compared to the three months ended June 30, 2016, Software revenue increased 3%, driven by growth in cloud and professional services revenue, which were up 9% and 3%, respectively. Cloud revenue growth was due to prior period bookings and professional services revenue grew due to demand for the Company's channel transformation and digital enablement solutions. Foreign currency fluctuations did not have a significant impact on the revenue comparison.

In the six months ended June 30, 2017 compared to the six months ended June 30, 2016, Software revenue increased 5%, driven by growth in software license, up 9%, cloud, up 7%, and professional services revenue, up 4%. Software license growth was primarily due to continued demand for the Company's channel transformation solutions. Cloud revenue grew due to prior period bookings. Professional services revenue grew due to demand for the Company's channel transformation and digital enablement solutions. Foreign currency fluctuations had a 1% negative impact on the revenue comparison.

Operating income decreased in the three and six months ended June 30, 2017 compared to the three and six months ended June 30, 2016. The decrease in operating income was driven by the mix of Software revenue as well as an increase in expenses primarily related to research and development.

Services Segment

The following table shows the Services segment revenue and operating income for the three and six months ended June 30:

	Three months ended June 30		Six months ended June 30	
In millions	2017	2016	2017	2016
Revenue	\$588	\$574	\$1,145	\$1,117
Operating income	\$75	\$49	\$120	\$83
Operating income as a percentage of revenue	12.8 %	8.5 %	10.5 %	7.4 %

In the three and six months ended June 30, 2017 compared to the three and six months ended June 30, 2016, Services revenue increased 2% and 3%, respectively, driven by growth in hardware maintenance revenue as a result of improving trends for the Company's channel transformation solutions, combined with increased managed and implementation services revenue. In the three and six months ended June 30, 2017 foreign currency fluctuations had an unfavorable impact on the revenue comparison of 2% and 1%, respectively.

Operating income increased in the three and six months ended June 30, 2017 compared to the three and six months ended June 30, 2016 primarily due to business process improvement initiatives and a mix shift of higher value services.

Table of Contents

Hardware Segment

The following table shows the Hardware segment revenue and operating income for the three and six months ended June 30:

	Three months ended June 30		Six months ended June 30	
In millions	2017	2016	2017	2016
Revenue	\$541	\$594	\$1,010	\$1,076
Operating income	\$12	\$14	\$2	\$4
Operating income as a percentage of revenue	2.2 %	2.4 %	0.2 %	0.4 %

In the three months ended June 30, 2017 compared to the three months ended June 30, 2016, Hardware revenue decreased 9%, driven primarily by the impact of the IPS divestiture in the prior year. In the three months ended June 30, 2016, Hardware revenue included \$52 million for the results of IPS operations, other than MEA. Excluding the impact of the IPS divestiture and unfavorable foreign currency exchange rates, Hardware revenue increased due to growth in SCO and POS revenue partially offset by declines in ATM revenue. SCO and POS revenue increased due to higher demand for the Company's store transformation solutions and new product offerings. Foreign currency fluctuations and the sale of the IPS business had an unfavorable impact on the revenue comparison of 1% and 9%, respectively.

In the six months ended June 30, 2017 compared to the six months ended June 30, 2016, Hardware revenue decreased 6%, driven primarily by the impact of the IPS divestiture in the prior year. In the six months ended June 30, 2016, Hardware revenue included \$124 million for the results of IPS operations, other than MEA. Excluding the impact of the IPS divestiture, Hardware revenue increased 7% due to growth in SCO and POS revenue partially offset by declines in ATM revenue. SCO and POS revenue increased due to higher demand for the Company's store transformation solutions and new product offerings. Foreign currency fluctuations and the sale of the IPS business had an unfavorable impact on the revenue comparison of zero and 13%, respectively.

Operating income declined in the three and six months ended June 30, 2017 compared to the three and six months ended June 30, 2016 driven by lower revenue.

Financial Condition, Liquidity, and Capital Resources

Cash provided by operating activities was \$138 million in the six months ended June 30, 2017 compared to \$144 million in the six months ended June 30, 2016. The decrease in cash provided by operating activities was due to higher working capital needs in anticipation of higher sales volume in the second half of the year.

NCR's management uses a non-GAAP measure called "free cash flow" to assess the financial performance of the Company. We define free cash flow as net cash provided by (used in) operating activities and cash provided by (used in) discontinued operations, less capital expenditures for property, plant and equipment, less additions to capitalized software, plus discretionary pension contributions and settlements. We believe free cash flow information is useful for investors because it relates the operating cash flows from the Company's continuing and discontinued operations to the capital that is spent to continue and improve business operations. In particular, free cash flow indicates the amount of cash available after capital expenditures for, among other things, investments in the Company's existing businesses, strategic acquisitions, repurchases of NCR stock and repayment of debt obligations. Free cash flow does not represent the residual cash flow available for discretionary expenditures, since there may be other non-discretionary expenditures that are not deducted from the measure. Free cash flow does not have a uniform definition under GAAP, and therefore NCR's definition may differ from other companies' definitions of this measure. This non-GAAP measure should not be considered a substitute for, or superior to, cash flows from operating activities under GAAP. The table

Edgar Filing: NCR CORP - Form 10-Q

below reconciles net cash provided by operating activities to NCR's non-GAAP measure of free cash flow for the six months ended June 30:

	Six months ended June 30	
In millions	2017	2016
Net cash provided by operating activities	\$138	\$144
Less: Expenditures for property, plant and equipment	(43)	(24)
Less: Additions to capitalized software	(84)	(74)
Net cash used in discontinued operations	(5)	(20)
Free cash flow (non-GAAP)	\$6	\$26

Table of Contents

The increase in expenditures for property, plant and equipment was primarily due to tenant improvements in our new world headquarters, a majority of which are reimbursed by the lessor and included in net cash provided by operating activities. The change in cash flows from discontinued operations from the prior year was due to decreased litigation payments related to the Fox River and Kalamazoo River environmental matters as well as an insurance settlement received in the second quarter of 2017.

Financing activities and certain other investing activities are not included in our calculation of free cash flow. Other investing activities primarily include business acquisitions, divestitures and investments as well as proceeds from the sale of property, plant and equipment.

Our financing activities primarily include proceeds from employee stock plans, repurchases of NCR common stock and borrowings and repayments of credit facilities and notes. During the six months ended June 30, 2017 and 2016, we repurchased a total of \$350 million and \$250 million, respectively, of our common stock. During the six months ended June 30, 2017 and 2016, proceeds from employee stock plans were \$8 million and \$6 million, respectively. During the six months ended June 30, 2017 and 2016, we paid \$24 million and \$7 million, respectively, of tax withholding payments on behalf of employees for stock based awards that vested.

Long Term Borrowings As of June 30, 2017, our senior secured credit facility consisted of a term loan facility with an aggregate outstanding principal balance of \$844 million, and a revolving credit facility in an aggregate principal amount of \$1.1 billion, of which \$40 million was outstanding. Additionally, the revolving credit facility has up to \$400 million available to certain foreign subsidiaries. Loans under the revolving credit facility are available in U.S. Dollars, Euros and Pound Sterling. The revolving credit facility also allows a portion of the availability to be used for outstanding letters of credit, and as of June 30, 2017, there were no letters of credit outstanding. As of December 31, 2016, the outstanding principal balance of the term loan facility was \$866 million and the outstanding balance on the revolving facility was zero.

As of June 30, 2017 and December 31, 2016, we had outstanding \$700 million in aggregate principal balance of 6.375% senior unsecured notes due in 2023, \$600 million in aggregate principal balance of 5.00% senior unsecured notes due in 2022, \$500 million in aggregate principal balance of 4.625% senior unsecured notes due in 2021 and \$400 million in aggregate principal balance of 5.875% senior unsecured notes due in 2021.

Our revolving trade receivables securitization facility provides the Company with up to \$200 million in funding based on the availability of eligible receivables and other customary factors and conditions. As of June 30, 2017 and December 31, 2016, the Company had \$200 million and zero, respectively, outstanding under the facility.

Employee Benefit Plans In 2017, we expect to make contributions of \$30 million to our international pension plans, \$55 million to our postemployment plan and \$3 million to our postretirement plan. For additional information, refer to Note 6, "Employee Benefit Plans," of the Notes to the Condensed Consolidated Financial Statements.

Restructuring Program In July 2014, we announced a restructuring plan to strategically reallocate resources so that we can focus on higher-growth, higher-margin opportunities in the software-driven consumer transaction technologies industry and as of March 31, 2017, this plan was complete. Refer to Note 15, "Restructuring Plan," of the Notes to the Condensed Consolidated Financial Statements for additional discussion on our restructuring plan.

However, we remain focused on continuing our transformation by improving sales execution, increasing customer services productivity and loyalty, making software our business and optimizing our cost structure. We may identify additional restructuring activities as we operationalize the transformation initiatives.

Series A Convertible Preferred Stock On December 4, 2015, NCR issued 820,000 shares of Series A Convertible Preferred Stock to certain entities affiliated with the Blackstone Group L.P. for an aggregate purchase price of \$820 million, or \$1,000 per share, pursuant to an Investment Agreement between the Company and Blackstone, dated November 11, 2015. In connection with the issuance of the Series A Convertible Preferred Stock, the Company incurred direct and incremental expenses of \$26 million. These direct and incremental expenses reduced the Series A Convertible Preferred Stock, and will be accreted through retained earnings as a deemed dividend from the date of issuance through the first possible known redemption date, March 16, 2024. Holders of Series A Convertible Preferred Stock are entitled to a cumulative dividend at the rate of 5.5% per annum, payable quarterly in arrears. During the three months ended June 30, 2017 and 2016, the Company paid dividends-in-kind of \$11 million, respectively, associated with the Series A Convertible Preferred Stock. During the six months ended June 30, 2017 and 2016, the Company paid dividends-in-kind of \$23 million, respectively, associated with the Series A Convertible Preferred Stock. As of June 30, 2017 and December 31, 2016, the Company had accrued dividends of \$3 million, respectively, associated with the Series A Convertible Preferred Stock. There were no cash dividends declared during the three and six months ended June 30, 2017 or 2016.

Table of Contents

The Series A Convertible Preferred Stock is convertible at the option of the holders at any time into shares of common stock at a conversion price of \$30.00 per share, or a conversion rate of 33.333 shares of common stock per share of Series A Convertible Preferred Stock.

Under the Investment Agreement, Blackstone agreed not to sell or otherwise transfer its shares of Series A Convertible Preferred Stock (or any shares of common stock issued upon conversion thereof) without the Company's consent until June 4, 2017. In March 2017, we provided Blackstone with an early release from this lock-up, allowing Blackstone to sell approximately 49% of its shares of Series A Convertible Preferred Stock, and in return, Blackstone agreed to amend the Investment Agreement to extend the lock-up on the remaining 51% of its shares of Series A Convertible Preferred Stock for six months until December 1, 2017.

In connection with the early release of the lock-up, Blackstone offered for sale 342,000 shares of Series A Convertible Preferred Stock in an underwritten public offering. In addition, Blackstone converted 90,000 shares of Series A Convertible Preferred Stock into shares of our common stock and we repurchased those shares of common stock for \$48.47 per share. The underwritten offering and the stock repurchase were consummated on March 17, 2017.

As of June 30, 2017 and December 31, 2016, the maximum number of common shares that could be required to be issued upon conversion of the outstanding shares of the Series A Convertible Preferred Stock was 26.7 million and 29.0 million shares, respectively.

Cash and Cash Equivalents Held by Foreign Subsidiaries Cash and cash equivalents held by the Company's foreign subsidiaries at June 30, 2017 and December 31, 2016 were \$358 million and \$428 million, respectively. Under current tax laws and regulations, if cash and cash equivalents and short-term investments held outside the U.S. are distributed to the U.S. in the form of dividends or otherwise, we may be subject to additional U.S. income taxes and foreign withholding taxes, which could be significant.

Table of Contents

Summary As of June 30, 2017, our cash and cash equivalents totaled \$377 million and our total debt was \$3.28 billion. As of June 30, 2017, our borrowing capacity under the revolving credit facility was approximately \$1.1 billion, and under our trade receivables securitization facility was zero, as it was fully drawn. Our ability to generate positive cash flows from operations is dependent on general economic conditions, competitive pressures, and other business and risk factors described in Item 1A of Part I of the Company's 2016 Annual Report on Form 10-K and Item 1A of Part II of this Quarterly Report on Form 10-Q. If we are unable to generate sufficient cash flows from operations, or otherwise comply with the terms of our credit facilities or senior unsecured notes, we may be required to seek additional financing alternatives.

We believe that we have sufficient liquidity based on our current cash position, cash flows from operations and existing financing to meet our required pension, postemployment, and postretirement plan contributions, remediation and other payments related to the Fox River and Kalamazoo River environmental matters, debt servicing obligations, and our operating requirements for the next twelve months.

Contractual and Other Commercial Commitments

Since the filing of our 2016 Form 10-K, there have been no significant changes in our contractual and other commercial obligations, other than an increase of approximately \$57 million related to a new lease agreement signed in Europe. The lease term is expected to commence in 2019, with projected cash payments of approximately \$3 million in 2019, \$11 million in 2020-2021 and \$43 million in 2022 and thereafter.

The Company's uncertain tax positions are not expected to have a significant impact on liquidity or sources and uses of capital resources. Our product warranties are discussed in Note 7, "Commitments and Contingencies," of the Notes to Condensed Consolidated Financial Statements.

Critical Accounting Policies and Estimates

As described in Note 1, "Basis of Presentation and Summary of Significant Accounting Policies," of the Notes to Condensed Consolidated Financial Statements, we adopted an accounting standard update for share-based compensation effective January 1, 2017. Accordingly, we now record excess tax benefits resulting from stock based awards to employees in the Condensed Consolidated Statements of Operations, at the time the awards vest, as a component of the provision for income taxes. Additionally, our Condensed Consolidated Statements of Cash Flows will present excess tax benefits, if any, as an operating activity.

Management reassessed the critical accounting policies as disclosed in our 2016 Form 10-K and determined that, other than the change in accounting for share-based compensation, there were no changes to our critical accounting policies in the six months ended June 30, 2017. Also, there were no significant changes in our estimates associated with those policies.

New Accounting Pronouncements

See discussion in Note 1, "Basis of Presentation and Summary of Significant Accounting Policies" of the Notes to Condensed Consolidated Financial Statements for new accounting pronouncements.

Forward-Looking Statements

This quarterly report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements use words such as “expect,” “anticipate,” “outlook,” “intend,” “believe,” “will,” “should,” “would,” “could” and words of similar meaning. Statements that describe or relate to NCR’s plans, goals, intentions, strategies or financial outlook, and statements that do not relate to historical or current fact, are examples of forward-looking statements. Forward-looking statements are based on our current beliefs, expectations and assumptions, which may not prove to be accurate, and involve a number of known and unknown risks and uncertainties, many of which are out of NCR’s control. Forward-looking statements are not guarantees of future performance, and there are a number of important factors that could cause actual outcomes and results to differ materially from the results contemplated by such forward-looking statements, including those factors relating to: the strength of demand for ATMs and other financial services hardware; domestic and global economic and credit conditions including, in particular, those resulting from uncertainty in the “BRIC” economies, economic sanctions against Russia, the determination by Britain to exit the European Union, the potential for changes to global or regional trade agreements or the imposition of protectionist trade policies, and the imposition of import or export tariffs or border adjustments; the impact of our indebtedness and its terms on our financial and operating activities; the impact of the terms of our strategic relationship with Blackstone and our Series A Convertible Preferred Stock; the transformation of our business model and our ability to sell higher-margin software and services; the possibility of disruptions in or problems with our data center hosting facilities; cybersecurity risks and compliance with data privacy and protection requirements; foreign currency fluctuations; our ability to successfully introduce new solutions and compete in the information technology industry; our ability to improve execution in our sales and services organizations; defects or errors in our products; manufacturing disruptions; collectability difficulties in subcontracting relationships in Emerging Industries; the historical seasonality of our sales; the availability and success of acquisitions, divestitures and alliances, including the divestiture of our Interactive Printer Solutions business; our pension strategy and underfunded pension obligation; the success of our restructuring plans and cost reduction initiatives; tax rates; reliance on third party suppliers; development and protection of intellectual property; workforce turnover and the ability to attract and retain skilled employees; environmental exposures from our historical and ongoing manufacturing activities; and uncertainties with regard to regulations, lawsuits, claims and other matters across various jurisdictions. Additional information concerning these and other factors can be found in the Company’s filings with the U.S. Securities and Exchange Commission, including the Company’s most recent annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K. Any forward-looking statement speaks only as of the date on which it is made. The Company does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Information About NCR

NCR encourages investors to visit its web site (<http://www.ncr.com>) which is updated regularly with financial and other important information about NCR. The contents of the Company’s web site are not incorporated into this quarterly report or the Company’s other filings with the U.S. Securities and Exchange Commission.

Table of Contents

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk

We are exposed to market risks primarily from changes in foreign currency exchange rates and interest rates. It is our policy to manage our foreign exchange exposure and debt structure in order to manage capital costs, control financial risks and maintain financial flexibility over the long term. In managing market risks, we employ derivatives according to documented policies and procedures, including foreign currency contracts and interest rate swaps. We do not use derivatives for trading or speculative purposes.

Foreign Exchange Risk

Since a substantial portion of our operations and revenue occur outside the United States, and in currencies other than the U.S. Dollar, our results can be significantly impacted by changes in foreign currency exchange rates. We have exposure to approximately 50 functional currencies and are exposed to foreign currency exchange risk with respect to our sales, profits and assets and liabilities denominated in currencies other than the U.S. Dollar. Although we use financial instruments to hedge certain foreign currency risks, we are not fully protected against foreign currency fluctuations and our reported results of operations could be affected by changes in foreign currency exchange rates. To manage our exposures and mitigate the impact of currency fluctuations on the operations of our foreign subsidiaries, we hedge our main transactional exposures through the use of foreign exchange forward and option contracts. These foreign exchange contracts are designated as highly effective cash flow hedges. This is primarily done through the hedging of foreign currency denominated inter-company inventory purchases by the marketing units. All of these transactions are forecasted. We also use derivatives not designated as hedging instruments consisting primarily of forward contracts to hedge foreign currency denominated balance sheet exposures. For these derivatives we recognize gains and losses in the same period as the remeasurement losses and gains of the related foreign currency-denominated exposures.

We utilize non-exchange traded financial instruments, such as foreign exchange forward and option contracts, that we purchase exclusively from highly rated financial institutions. We record these contracts on our balance sheet at fair market value based upon market price quotations from the financial institutions. We do not enter into non-exchange traded contracts that require the use of fair value estimation techniques, but if we did, they could have a material impact on our financial results.

For purposes of analyzing potential risk, we use sensitivity analysis to quantify potential impacts that market rate changes may have on the fair values of our hedge portfolio related to firmly committed or forecasted transactions. The sensitivity analysis represents the hypothetical changes in value of the hedge position and does not reflect the related gain or loss on the forecasted underlying transaction. A 10% appreciation or depreciation in the value of the U.S. Dollar against foreign currencies from the prevailing market rates would have resulted in a corresponding increase or decrease of \$11 million as of June 30, 2017 in the fair value of the hedge portfolio. The Company expects that any increase or decrease in the fair value of the portfolio would be substantially offset by increases or decreases in the underlying exposures being hedged.

The U.S. Dollar was stronger in the second quarter of 2017 compared to the second quarter of 2016 based on comparable weighted averages for our functional currencies. This had an unfavorable impact of 2% on second quarter 2017 revenue versus second quarter 2016 revenue. This excludes the effects of our hedging activities and, therefore, does not reflect the actual impact of fluctuations in exchange rates on our operating income.

Interest Rate Risk

We are subject to interest rate risk principally in relation to variable-rate debt. Approximately 67% of our borrowings were on a fixed rate basis as of June 30, 2017. The increase in pre-tax interest expense for the six months ended June 30, 2017 from a hypothetical 100 basis point increase in variable interest rates would be approximately \$6 million.

Table of Contents

Concentrations of Credit Risk

We are potentially subject to concentrations of credit risk on accounts receivable and financial instruments, such as hedging instruments and cash and cash equivalents. Credit risk includes the risk of nonperformance by counterparties. The maximum potential loss may exceed the amount recognized on the balance sheet. Exposure to credit risk is managed through credit approvals, credit limits, selecting major international financial institutions (as counterparties to hedging transactions) and monitoring procedures. Our business often involves large transactions with customers for which we do not require collateral. If one or more of those customers were to default in its obligations under applicable contractual arrangements, we could be exposed to potentially significant losses. Moreover, a prolonged downturn in the global economy could have an adverse impact on the ability of our customers to pay their obligations on a timely basis. We believe that the reserves for potential losses are adequate. As of June 30, 2017, we did not have any significant concentration of credit risk related to financial instruments.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

NCR has established disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the Exchange Act)) to provide reasonable assurance that information required to be disclosed by NCR in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to provide reasonable assurance that information required to be disclosed by NCR in the reports that it files or submits under the Exchange Act is accumulated and communicated to NCR's management, including its Chief Executive and Chief Financial Officers, as appropriate to allow timely decisions regarding required disclosure. Based on their evaluation as of the end of the second quarter of 2017, conducted under their supervision and with the participation of management, the Company's Chief Executive and Chief Financial Officers have concluded that NCR's disclosure controls and procedures are effective to meet such objectives and that NCR's disclosure controls and procedures adequately alert them on a timely basis to material information relating to the Company (including its consolidated subsidiaries) required to be included in NCR's Exchange Act filings.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the three months ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Part II. Other Information

Item 1. LEGAL PROCEEDINGS

The information required by this item is included in Note 7, "Commitments and Contingencies," of the Notes to Condensed Consolidated Financial Statements in this quarterly report and is incorporated herein by reference.

Item 1A. RISK FACTORS

There have been no material changes to the risk factors previously disclosed in Part I, Item 1A ("Risk Factors") of the Company's 2016 Annual Report on Form 10-K.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On October 19, 2016, the Board approved a share repurchase program, with no expiration from the date of authorization, for the systematic repurchase of the Company's common stock to offset the dilutive effects of the Company's employee stock purchase plan, equity awards and in-kind dividends on the Company's Series A Convertible Preferred Stock. Availability under this program accrues quarterly based on the average value of dilutive issuances during the quarter.

On March 12, 2017, the Board approved a second share repurchase program that provides for the repurchase of up to \$300 million of the Company's common stock.

No shares were repurchased under these programs during the three months ended June 30, 2017.

As of June 30, 2017, \$300 million was available for repurchases under the March 2017 program, and approximately \$143 million was available for repurchases under the October 2016 dilution offset program. The timing and amount of repurchases under these programs depend upon market conditions and may be made from time to time in open market purchases, privately negotiated transactions, accelerated stock repurchase programs, issuer self-tender offers or otherwise. The repurchases will be made in compliance with applicable securities laws and may be discontinued at any time.

The Company occasionally purchases vested restricted stock or exercised stock options at the current market price to cover withholding taxes. For the three months ended June 30, 2017, 28,032 shares were purchased at an average price of \$43.04 per share.

The Company's ability to repurchase its common stock is restricted under the Company's senior secured credit facility and terms of the indentures for the Company's senior unsecured notes, which prohibit certain share repurchases, including during the occurrence of an event of default, and establish limits on the amount that the Company is permitted to allocate to share repurchases and other restricted payments. The limitations are calculated using formulas based generally on 50% of the Company's consolidated net income for the period beginning in the third quarter of 2012 through the end of the most recently ended fiscal quarter, subject to certain other adjustments and deductions, with certain prescribed minimums. These formulas are described in greater detail in the Company's senior secured credit facility and the indentures for the Company's senior unsecured notes, each of which is filed with the SEC.

Item 6. EXHIBITS

- 2.1 Separation and Distribution Agreement, dated as of August 27, 2007, between NCR Corporation and Teradata Corporation (Exhibit 10.1 to the Current Report on Form 8-K of Teradata Corporation dated September 6, 2007).

- 3.1 Articles of Amendment and Restatement of NCR Corporation (incorporated by reference to Exhibit 3.1 to the Quarterly Report on Form 10-Q of NCR Corporation for the quarter ended June 30, 2016).
- 3.2 Bylaws of NCR Corporation, as amended and restated on October 11, 2016 (incorporated by reference to Exhibit 3.2 to the Current Report on Form 8-K of NCR Corporation dated October 11, 2016).
- 4.1 Common Stock Certificate of NCR Corporation (incorporated by reference to Exhibit 4.1 from the NCR Corporation Annual Report on Form 10-K for the year ended December 31, 1999).
- 4.2 Indenture, dated September 17, 2012, among NCR Corporation, as issuer, NCR International Inc. and Radiant Systems Inc. as subsidiary guarantors and U.S. Bank National Association, as trustee (incorporated by reference to Exhibit 4.01 to the Current Report on Form 8-K of NCR Corporation dated September 17, 2012).
- 4.3 Indenture, dated December 18, 2012, among NCR Corporation, as issuer, NCR International Inc. and Radiant Systems Inc. as subsidiary guarantors and U.S. Bank National Association, as trustee (incorporated by reference to Exhibit 4.01 to the Current Report on Form 8-K of NCR Corporation filed December 18, 2012).
- 4.4 Indenture, dated December 19, 2013, between NCR Escrow Corp. and U.S. Bank National Association relating to the \$400 million aggregate principal amount of 5.875% senior notes due 2021 (the “5.875% Notes”) (incorporated by reference to Exhibit 4.1 to the Current Report on Form 8-K of NCR Corporation dated December 19, 2013 (the “December 19, 2013 Form 8-K”)).
- 4.5 First Supplemental Indenture relating to the 5.875% Notes, dated January 10, 2014, among NCR Corporation, NCR International, Inc. and U.S. Bank National Association, as trustee (incorporated by reference to Exhibit 4.1 to the Current Report on Form 8-K of NCR Corporation dated January 10, 2014 (the “January 10, 2014 Form 8-K”)).
- 4.6 Indenture, dated December 19, 2013, between NCR Escrow Corp. and U.S. Bank National Association relating to the \$700 million aggregate principal amount of 6.375% senior notes due 2023 (the “6.375% Notes”) (incorporated by reference to Exhibit 4.2 to the December 19, 2013 Form 8-K).
- 4.7 First Supplemental Indenture relating to the 6.375% Notes, dated January 10, 2014, among NCR Corporation, NCR International, Inc. and U.S. Bank National Association, as trustee (incorporated by reference to Exhibit 4.2 to the January 10, 2014 Form 8-K).
- 10.1 Form of 2017 Director Restricted Stock Unit Grant Statement under the NCR Corporation 2013 Stock Incentive Plan (the “2013 Stock Incentive Plan”) and NCR Corporation 2017 Stock Incentive Plan (the “2017 Stock Incentive Plan”).
- 10.2 Form of 2017 Stock Option Award Agreement under the 2013 Stock Incentive Plan and 2017 Stock Incentive Plan.
- 31.1 Certification pursuant to Rule 13a-14(a) and Rule 15d-14(a) of the Securities Exchange Act of 1934.
- 31.2 Certification pursuant to Rule 13a-14(a) and Rule 15d-14(a) of the Securities Exchange Act of 1934.
- 32 Certification pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 101 Financials in XBRL Format.
