Item 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On April 26, 2007, SCANA Corporation (together with its subsidiaries, the “Company”) issued the press release attached hereto as Exhibit 99.1. The press release discloses a non-GAAP measure, GAAP-adjusted net earnings from operations, which in 2006 excludes from net income the effects of the Company’s adoption of Statement of Financial Accounting Standards 123(R), “Share-Based Payment.” The Company’s management believes that GAAP-adjusted net earnings from operations provides a meaningful representation of the Company’s fundamental earnings power and can aid in performing period-over-period financial analysis and comparison with peer group data. In management’s opinion, GAAP-adjusted net earnings from operations is a useful indicator of the financial results of the Company’s primary businesses. This measure is also a basis for management’s provision of earnings guidance and growth projections, and it is used by management in making resource allocation and other budgetary and operational decisions. This non-GAAP performance measure is not intended to replace the GAAP measure of net earnings, but is offered as a supplement to it.
