 KNOCK-IN REVERSE EXCHANGEABLE(SM) SECURITIES DUE SEPTEMBER 28, 2007

This pricing supplement relates to four (4) separate offerings of securities (the "Securities"). Each Security offered is linked to one, and only one, Underlying Stock. You may participate in any of the four (4) Securities offerings or, at your election, in two or more of the offerings. This Pricing Supplement does not, however, allow you to purchase a Security linked to a basket of some or all of the Underlying Stocks described below.

The Securities do not guarantee any return of principal at maturity. Instead, the payout at maturity will be based on the performance of the Underlying Stock linked to each Security during the life of such Security, and in certain circumstances described below we will exchange each Security at maturity for a predetermined number of shares of the applicable Underlying Stock rather than return your principal investment in the Securities. THE MARKET VALUE OF THOSE SHARES OF UNDERLYING STOCK WILL BE LESS THAN THE PRINCIPAL AMOUNT OF EACH SECURITY AND COULD BE ZERO. ACCORDINGLY, YOU COULD LOSE SOME OR ALL OF YOUR INITIAL INVESTMENT.

PAYMENT AT MATURITY: The payment at maturity of each Security is based on the performance of the applicable Underlying Stock:

### SUMMARY OF GENERAL TERMS FOR EACH SECURITIES OFFERING

THIS PRICING SUPPLEMENT RELATES TO FOUR (4) SEPARATE OFFERINGS OF SECURITIES. EACH SECURITY OFFERED IS LINKED TO ONE, AND ONLY ONE, UNDERLYING STOCK. THE PURCHASER OF ANY OFFERING WILL ACQUIRE A SECURITY LINKED TO A SINGLE UNDERLYING STOCK, NOT TO A BASKET OR INDEX OF SOME OR ALL THE UNDERLYING STOCKS DESCRIBED HEREIN. YOU MAY PARTICIPATE IN ANY OF THE FOUR (4) OFFERINGS OR, AT YOUR ELECTION, IN SEVERAL OR ALL OFFERINGS.

THE FOLLOWING SUMMARY ANSWERS SOME QUESTIONS THAT YOU MIGHT HAVE REGARDING THE SECURITIES IN GENERAL TERMS ONLY. IT DOES NOT CONTAIN ALL THE INFORMATION THAT MAY BE IMPORTANT TO YOU. YOU SHOULD READ THE SUMMARY TOGETHER WITH THE MORE DETAILED INFORMATION THAT IS CONTAINED IN THE REST OF THIS PRICING SUPPLEMENT AND IN THE ACCOMPANYING PROSPECTUS AND PROSPECTUS SUPPLEMENT. YOU SHOULD CAREFULLY CONSIDER, AMONG OTHER THINGS, THE MATTERS SET FORTH IN "RISK FACTORS." IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

#### WHAT ARE THE SECURITIES?

The Securities are interest paying, non-principal protected securities issued by us, ABN AMRO Bank N.V., and are fully and unconditionally guaranteed by our parent company, ABN AMRO Holding N.V. The Securities are senior notes of ABN AMRO Bank N.V. and have a maturity of 6 months. These Securities combine certain features of debt and equity by offering a fixed interest rate on the principal amount while the payment at maturity is determined based on the performance of the applicable Underlying Stock. Therefore your principal is at risk.

The Securities have certain features that make them what we refer to as "Knock-in Reverse Exchangeable Securities." This means that if the closing price of the applicable Underlying Stock on the primary U.S. organized exchange or market for such Underlying Stock, which we refer to as the relevant exchange, never falls below a certain price level, which we call the knock-in level on any trading day from but not including the pricing date to and including the determination date (such period, the "Knock-in Period"), then we will pay you in cash the principal amount of each Security at maturity. On the other hand, if the closing price of the applicable Underlying Stock on the relevant exchange falls below the applicable knock-in level on any trading day during the Knock-in

## Edgar Filing: ABN AMRO BANK NV - Form 424B2

Period, then the payment at maturity will depend on the closing price of such Underlying Stock on the determination date. In this latter case, if the closing price of the applicable Underlying Stock on the determination date is equal to or greater than the applicable initial price, we will pay you in cash the principal amount of each Security you hold; if the closing price of the applicable Underlying Stock on the determination date is less than the applicable initial price, we will deliver to you, in exchange for each \$1,000 principal amount of Securities, a number of shares of such Underlying Stock equal to the applicable stock redemption amount.

WHY IS THE INTEREST RATE ON THE SECURITIES HIGHER THAN THE INTEREST RATE PAYABLE ON YOUR CONVENTIONAL DEBT SECURITIES WITH THE SAME MATURITY?

The Securities offer a higher interest rate than the yield that would be payable on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating. This is because you, the investor in the Securities, indirectly sell a put option to us on the shares of the applicable Underlying Stock. The premium due to you for this put option is combined with a market interest rate on our senior debt to produce the higher interest rate on the Securities.

WHAT ARE THE CONSEQUENCES OF THE INDIRECT PUT OPTION THAT I HAVE SOLD YOU?

The put option you indirectly sell to us creates the feature of exchangeability. If the closing price of the applicable Underlying Stock on the relevant exchange falls below the applicable knock-in level on any trading day during the Knock-in Period, and on the determination date the closing price per share of such Underlying Stock is less than the applicable initial price, you will receive a fixed number of shares of such Underlying Stock for each Security you hold, which we call the stock redemption amount for such Underlying Stock. On the other hand, if the closing price of the applicable Underlying Stock on the relevant exchange falls below the applicable knock-in level, and on the determination date the closing price per shares of such Underlying Stock is equal to or greater than the applicable initial price, you will receive \$1,000 for each Security you hold. Because of the exchangeability of the Securities, and because we will determine whether you will receive cash or shares of Underlying Stock by reference to the closing price of the applicable Underlying Stock on the determination date, such securities are generally referred to as "reverse exchangeable

PS-3

securities." However, because this feature of exchangeability is created only if the closing price of the applicable Underlying Stock on the relevant exchange falls below the applicable knock-in level on any trading day during the Knock-in Period, we call the Securities "Knock-in Reverse Exchangeable Securities."

WHAT WILL I RECEIVE AT MATURITY OF THE SECURITIES?

The payment at maturity of each Security will depend on (i) whether or not the closing price of the Underlying Stock to which such Security is linked fell below the knock-in level on any trading day during the Knock-in Period, and if so, (ii) the closing price of the applicable Underlying Stock on the determination date. To determine closing prices, we look at the prices quoted by the relevant exchange.

- o If the closing price of the applicable Underlying Stock on the relevant exchange has not fallen below the applicable knock-in level on any trading day during the Knock-in Period, we will pay you the principal

## Edgar Filing: ABN AMRO BANK NV - Form 424B2

amount of each Security in cash.

- o If the closing price of the applicable Underlying Stock on the relevant exchange has fallen below the applicable knock-in level on any trading day during the Knock-in Period, we will either:
  - o deliver to you the applicable stock redemption amount, in exchange for each Security, in the event that the closing price of the applicable Underlying Stock is below the applicable initial price on the determination date; or
  - o pay you the principal amount of each Security in cash, in the event that the closing price of the applicable Underlying Stock is at or above the applicable initial price on the determination date.

The payment at maturity is subject to adjustment in certain circumstances, which we describe in "Description of Securities -- Adjustment Events."

HOW ARE THE STOCK REDEMPTION AMOUNT AND KNOCK-IN LEVEL DETERMINED FOR EACH OFFERING?

The stock redemption amount for each \$1,000 principal amount of any Security is equal to \$1,000 divided by the initial price of the Underlying Stock linked to such Security. The value of any fractional shares of such Underlying Stock that you are entitled to receive, after aggregating your total holdings of the Securities linked to such Underlying Stock, will be paid in cash based on the closing price of such Underlying Stock on the determination date.

The knock-in level with respect to any Underlying Stock is the percentage of the initial price of such Underlying Stock set forth on the cover of this Pricing Supplement.

The initial price and consequently the stock redemption amount and knock-in level with respect to each Underlying Stock are subject to adjustment for certain corporate events affecting such Underlying Stock, which we describe in "Description of Securities -- Adjustment Events."

WHAT INTEREST PAYMENTS CAN I EXPECT ON THE SECURITIES?

Each offering of Securities pays interest at the rate per annum for such offering set forth on the cover page of this Pricing Supplement. The interest rate for each offering of Securities is fixed at issue and is payable monthly in arrears. This means that irrespective of whether the Securities are exchanged at maturity for cash or shares, you will be entitled to monthly interest payments on the full principal amount of the Securities you hold, payable in cash.

CAN YOU GIVE ME AN EXAMPLE OF THE PAYMENT AT MATURITY?

If, for example, in a hypothetical offering, the interest rate was 10% per annum, the initial price of a share of underlying stock was \$45.00 and the knock-in level for such offering was 80%, then the stock redemption amount would be 22.222 shares of underlying stock, or \$1,000 divided by \$45.00, and the knock-in level would be \$36.00, or 80% of the initial price.

If the closing price of that hypothetical underlying stock fell below the knock-in level of \$36.00 on any trading day during the Knock-in Period, then the payment at maturity would depend on the closing price of the underlying stock on the determination date. In this case, if the closing price of the underlying stock on the determination date is \$30.00 per share at maturity, which is below the initial price level, you would receive 22.222 shares of underlying stock for each \$1,000 principal amount of the securities. (In actuality, because we cannot deliver fractions of a share, you would receive on the maturity date for each

## Edgar Filing: ABN AMRO BANK NV - Form 424B2

\$1,000 principal amount of the

PS-4

securities 22 shares of underlying stock plus \$6.66 cash in lieu of 0.222 fractional shares, determined by multiplying 0.222 by \$30.00, the closing price per shares of underlying stock on the determination date.) In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum. IN THIS HYPOTHETICAL EXAMPLE, THE MARKET VALUE OF THOSE 22 SHARES OF UNDERLYING STOCK (INCLUDING THE CASH PAID IN LIEU OF FRACTIONAL SHARES) THAT WE WOULD DELIVER TO YOU AT MATURITY FOR EACH \$1,000 PRINCIPAL AMOUNT OF SECURITY WOULD BE \$666.66, WHICH IS LESS THAN THE PRINCIPAL AMOUNT OF \$1,000, AND YOU WOULD HAVE LOST A PORTION OF YOUR INITIAL INVESTMENT. If, on the other hand, the closing price of the underlying stock on the determination date is \$50.00 per share, which is above the initial price level, you will receive \$1,000 in cash for each \$1,000 principal amount of the securities regardless of the knock-in level having been breached. In addition, over the life of the Securities you would have received interest payments at a rate of 10% per annum.

Alternatively, if the closing price of the underlying stock never falls below \$36.00, which is the knock-in level, on any trading day during the Knock-in Period, at maturity you will receive \$1,000 in cash for each security you hold regardless of the closing price of the underlying stock on the determination date. In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum.

THIS EXAMPLE IS FOR ILLUSTRATIVE PURPOSES ONLY AND IS BASED ON A HYPOTHETICAL OFFERING. FOR EACH OFFERING OF SECURITIES, WE WILL SET THE INITIAL PRICE, KNOCK-IN LEVEL AND STOCK REDEMPTION AMOUNT (SUBJECT TO ADJUSTMENT FOR CERTAIN CORPORATE EVENTS AFFECTING THE APPLICABLE UNDERLYING STOCK) ON THE DATE WE PRICE THE SECURITIES, WHICH WE REFER TO AS THE PRICING DATE. IT IS NOT POSSIBLE, HOWEVER, TO PREDICT THE CLOSING PRICE OF ANY OF THE UNDERLYING STOCKS ON THE DETERMINATION DATE OR AT ANY TIME DURING THE LIFE OF THE SECURITIES.

In this Pricing Supplement, we have provided under the heading "Hypothetical Sensitivity Analysis of Total Return of the Securities at Maturity" the total return of owning securities of a hypothetical offering through maturity for various hypothetical closing prices of a hypothetical common stock on the determination date in the case where the knock-in level has been breached and in the case where the knock-in level has not been breached.

DO I GET ALL MY PRINCIPAL BACK AT MATURITY?

You are not guaranteed to receive any return of principal at maturity. If the closing price of the applicable Underlying Stock falls below the applicable knock-in level on any trading day during the Knock-in Period, and the closing price of such Underlying Stock is below the applicable initial price on the determination date, we will deliver to you shares of such Underlying Stock. The market value of the shares of such Underlying Stock at the time you receive those shares will be less than the principal amount of the Securities and could be zero.

IS THERE A LIMIT TO HOW MUCH I CAN EARN OVER THE LIFE OF THE SECURITIES?

Yes. The amount payable under the terms of the Securities will never exceed the principal amount of the Securities payable at maturity plus the applicable interest payments you earn over the life of the Securities.

DO I BENEFIT FROM ANY APPRECIATION IN THE UNDERLYING STOCK OVER THE LIFE OF THE

## Edgar Filing: ABN AMRO BANK NV - Form 424B2

SECURITIES?

No. The amount paid at maturity for each \$1,000 principal amount of the Securities will not exceed \$1,000. As a result, if the applicable Underlying Stock has appreciated above its price level on the pricing date, the payment you will receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE SECURITIES THAT YOU HOLD AT THAT TIME.

WHAT IS THE MINIMUM REQUIRED PURCHASE?

You can purchase Securities in \$1,000 denominations or in integral multiples thereof.

IS THERE A SECONDARY MARKET FOR THE SECURITIES?

We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and, as such, information regarding independent market pricing for the Securities may be limited. You should be willing to hold your Securities until the maturity date.

Although it is not required to do so, we have been informed by our affiliate that when these offerings are complete, it intends to make purchases and sales of the Securities from time to time in off-exchange

PS-5

transactions. If our affiliate does make such a market in the Securities, it may stop doing so at any time.

In connection with any secondary market activity in the Securities, our affiliate may post indicative prices for the Securities on a designated website or via Bloomberg. However, our affiliate is not required to post such indicative prices and may stop doing so at any time. INVESTORS ARE ADVISED THAT ANY PRICES SHOWN ON ANY WEBSITE OR BLOOMBERG PAGE ARE INDICATIVE PRICES ONLY AND, AS SUCH, THERE CAN BE NO ASSURANCE THAT ANY TRADE COULD BE EXECUTED AT SUCH PRICES. Investors should contact their brokerage firm for further information.

In addition, the issue price of the Securities includes the selling agents' commissions paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging includes the profit component that our affiliate has charged in consideration for assuming the risks inherent in managing the hedging the transactions. The fact that the issue price of the Securities includes these commissions and hedging costs is expected to adversely affect the secondary market prices of the Securities. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Use of Proceeds."

WHERE CAN I FIND OUT MORE ABOUT THE ISSUERS OF THE UNDERLYING STOCKS?

Because each of the Underlying Stocks are registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the issuers of the Underlying Stocks are required to file periodically certain financial and other information specified by the Commission which is available to the public. You should read "The Underlying Stocks" in this Pricing Supplement to learn how to obtain public information regarding the Underlying Stocks and other important information. The historical highest closing price, lowest closing price and last day closing price of the Underlying Stocks for each quarter since 2003 are set forth under the heading "The Underlying Stocks" in this Pricing Supplement.

THE ISSUERS OF THE UNDERLYING STOCKS ARE NOT AFFILIATES OF OURS AND ARE NOT INVOLVED WITH THESE OFFERINGS IN ANY WAY. THE OBLIGATIONS REPRESENTED BY THE SECURITIES ARE OUR OBLIGATIONS, NOT THOSE OF THE UNDERLYING STOCKS ISSUERS. INVESTING IN THE SECURITIES IS NOT EQUIVALENT TO INVESTING IN THE SHARES OF AN ISSUER OF ANY OF THE UNDERLYING STOCKS.

WHO WILL DETERMINE WHETHER THE CLOSING PRICE OF EACH UNDERLYING STOCK HAS FALLEN BELOW THE APPLICABLE KNOCK-IN LEVEL, THE CLOSING PRICE OF EACH UNDERLYING STOCK ON THE DETERMINATION DATE, AND THE STOCK REDEMPTION AMOUNT AND THE INITIAL PRICE FOR EACH SUCH UNDERLYING STOCK?

We have appointed ABN AMRO Incorporated, which we refer to as AAI, to act as calculation agent for Wilmington Trust Company, the trustee for the Securities and Citibank, N.A., the securities administrator. As calculation agent, AAI will determine whether the closing price of each Underlying Stock has fallen below the applicable knock-in level, the closing price of each Underlying Stock on the determination date, and the stock redemption amount and the initial price for each such Underlying Stock. The calculation agent may adjust the initial price of any Underlying Stock and consequently the applicable stock redemption amount and applicable knock-in level, which we describe in the section called "Description of Securities -- Adjustment Events."

WHO INVESTS IN THE SECURITIES?

The Securities are not suitable for all investors. The Securities might be considered by investors who:

PS-6

- o seek a higher interest rate than the current dividend yield on the applicable Underlying Stock or the yield on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating;
- o are willing to accept the risk of owning equity in general and the applicable Underlying Stock in particular and the risk that they could lose their entire investment;
- o do not expect to participate in any appreciation in the price of the

## Edgar Filing: ABN AMRO BANK NV - Form 424B2

applicable Underlying Stock; and

- o and are willing to hold the Securities until maturity.

You should carefully consider whether the Securities are suited to your particular circumstances before you decide to purchase them. In addition, we urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the Securities.

### WHAT ARE SOME OF THE RISKS IN OWNING THE SECURITIES?

Investing in the Securities involves a number of risks. We have described the most significant risks relating to the Securities under the heading "Risk Factors" in this Pricing Supplement which you should read before making an investment in the Securities.

Some selected risk considerations include:

- o CREDIT RISK. Because you are purchasing a security from us, you are assuming our credit risk. In addition, because the Securities are fully and unconditionally guaranteed by Holding, you are assuming the credit risk of Holding in the event that we fail to make any payment or delivery required by the terms of the Securities.
- o PRINCIPAL RISK. The Securities are not principal protected, which means there is no guaranteed return of principal. If the closing price of the applicable Underlying Stock falls below the applicable knock-in level on any trading day during the Knock-in Period and the closing price on the determination date is less than the applicable initial price, we will deliver to you a fixed number of shares of such Underlying Stock with a market value less than the principal amount of the Securities, which value may be zero.
- o LIQUIDITY AND MARKET RISK. We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be limited. The value of the Securities in the secondary market, if any, will be subject to many unpredictable factors, including then prevailing market conditions.

### WHAT IF I HAVE MORE QUESTIONS?

You should read the "Description of Securities" in this Pricing Supplement for a detailed description of the terms of the Securities. The Securities are senior notes issued as part of our ABN Notes(SM) program and guaranteed by Holding. The Securities offered by the Bank will constitute the Bank's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all our other present and future unsecured and unsubordinated obligations. The guarantee of Holding will constitute Holding's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all Holding's other present and future unsecured and unsubordinated obligations. You can find a general description of our ABN Notes(SM) program in the accompanying Prospectus Supplement. We also describe the basic features of this type of note in the sections called "Description of Notes" and "Notes Linked to Commodity Prices, Single Securities, Baskets of Securities or Indices".

You may contact our principal executive offices at Gustav Mahleraan 10, 1082 PP Amsterdam, The Netherlands. Our telephone number is (54-20) 628-9393.

RISK FACTORS

This section describes the most significant risks relating to the Securities. For a discussion of certain general risks associated with your investment in the Securities, please refer to the section entitled "Risk Factors" beginning on page S-3 of the accompanying prospectus supplement. YOU SHOULD CAREFULLY CONSIDER WHETHER THE SECURITIES ARE SUITED TO YOUR PARTICULAR CIRCUMSTANCES BEFORE YOU DECIDE TO PURCHASE THEM. IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

THE SECURITIES ARE NOT ORDINARY SENIOR NOTES; THERE IS NO GUARANTEED RETURN OF PRINCIPAL

The Securities combine limited features of debt and equity. The terms of the Securities differ from those of ordinary debt securities in that we will not pay you a fixed principal amount in cash at maturity if the closing price of the applicable Underlying Stock has fallen below the applicable knock-in level on any trading day during the Knock-in Period and, in addition, the closing price of the applicable Underlying Stock is below the applicable initial price on the determination date. In such event, we will exchange each Security you hold for a number of shares of the applicable Underlying Stock equal to the stock redemption amount. Such shares will have a market value of less than the principal amount of the Securities, and such value may be zero. You cannot predict the future performance of any Underlying Stock based on its historical performance. ACCORDINGLY, YOU COULD LOSE SOME OR ALL OF THE AMOUNT YOU INVEST IN THE SECURITIES.

THE SECURITIES WILL NOT PAY MORE THAN THE STATED PRINCIPAL AMOUNT AT MATURITY

The amount paid at maturity of the Securities in cash or shares of Underlying Stock will not exceed the principal amount of the Securities. If the closing price of the applicable Underlying Stock on the determination date is equal to or exceeds the applicable initial price (regardless of whether the applicable knock-in level has been previously breached), you will receive the principal amount of the Securities irrespective of any appreciation in the share price. You will not receive shares of the applicable Underlying Stock or any other asset equal to the value of the shares of the applicable Underlying Stock. As a result, if the applicable Underlying Stock has appreciated above its closing price level on the pricing date, the payment you will receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE SECURITIES THAT YOU HOLD AT THAT TIME.

WE DO NOT INTEND TO LIST THE SECURITIES ON ANY SECURITIES EXCHANGE; SECONDARY TRADING MAY BE LIMITED

You should be willing to hold your Securities until the maturity date. We do not intend to list the Securities on any securities exchange; accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be limited. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Securities easily. Upon completion of the offering, our affiliate has informed us that it intends to purchase and sell the Securities from time to time in off-exchange transactions, but it is not required to do so. If our affiliate does make such a market in the Securities, it may stop doing so at any time. In addition, to the extent the total principal amount of the Securities being offered is not purchased by investors in any of the offerings, one or more of our affiliates has agreed to purchase the unsold portion for its

## Edgar Filing: ABN AMRO BANK NV - Form 424B2

own investment. Such affiliate or affiliates intend to hold the Securities for investment for at least 30 days, which may affect the supply of Securities available for secondary trading and therefore adversely affect the price of the Securities in any secondary trading.

### MARKET PRICE OF THE SECURITIES INFLUENCED BY MANY UNPREDICTABLE FACTORS

The value of the Securities may move up and down between the date you purchase them and the determination date when the calculation agent determines the amount to be paid to the holders of the Securities on the maturity date.

Several factors, many of which are beyond our control, will influence the value of the Securities, including:

PS-8

- o the market price of the applicable Underlying Stock, in particular, whether the market price of such Underlying Stock has fallen below the applicable knock-in level;
- o the volatility (frequency and magnitude of changes) in the price of the applicable Underlying Stock;
- o the dividend rate on the applicable Underlying Stock. While dividend payments on the applicable Underlying Stock, if any, are not paid to holders of the Securities linked to such Underlying Stock, such payments may have an influence on the market price of the applicable Underlying Stock and therefore on the Securities linked to such Underlying Stock;
- o interest and yield rates in the market;
- o economic, financial, political and regulatory or judicial events that affect the stock markets generally and which may affect the closing price of the applicable Underlying Stock and/or the Securities;
- o the time remaining to the maturity of the Securities; and
- o the creditworthiness of the Bank as issuer of the Securities and Holding as the guarantor of the Bank's obligations under the Securities. Any person who purchases the Securities is relying upon the creditworthiness of the Bank and Holding and has no rights against any other person. The Securities constitute the general, unsecured and unsubordinated contractual obligations of the Bank and Holding.

Some or all of these factors will influence the price that you will receive if you sell your Securities in the secondary market, if any, prior to maturity. For example, you may have to sell your Securities at a substantial discount from the principal amount if at the time of sale the market price of the applicable Underlying Stock is at, below, or not sufficiently above the applicable knock-in level. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices."

### THE INCLUSION OF COMMISSIONS AND COST OF HEDGING IN THE ISSUE PRICE IS LIKELY TO ADVERSELY AFFECT SECONDARY MARKET PRICES

Assuming no change in market conditions or any other relevant factors, the price, if any, at which the selling agents are willing to purchase Securities in secondary market transactions will likely be lower than the issue price, since the issue price included, and secondary market prices are likely to exclude,

## Edgar Filing: ABN AMRO BANK NV - Form 424B2

commissions paid with respect to the Securities, as well as the profit component included in the cost of hedging our obligations under the Securities. In addition, any such prices may differ from values determined by pricing models used by the selling agents, as a result of dealer discounts, mark-ups or other transaction costs.

AN INCREASE IN THE VALUE OF THE APPLICABLE UNDERLYING STOCK WILL NOT INCREASE THE RETURN ON YOUR INVESTMENT

Owning a Security linked to an Underlying Stock is not the same as owning such Underlying Stock. Accordingly, the market value of your Securities may not have a direct relationship with the market price of the applicable Underlying Stock, and changes in the market price of the applicable Underlying Stock may not result in a comparable change in the market value of your Securities. If the price per share of applicable Underlying Stock increases above the applicable initial price, the market value of the Securities may not increase. It is also possible for the price per share of applicable Underlying Stock to increase while the market price of the Securities declines.

POTENTIAL CONFLICTS OF INTEREST; NO SECURITY INTEREST IN THE UNDERLYING STOCK HELD BY US

We and our affiliates may carry out hedging activities that minimize our risks related to the Securities, including trading in the Underlying Stocks. In particular, on or prior to the date of this Pricing Supplement, we, through our affiliates, hedged our anticipated exposure in connection with the Securities by taking positions in the Underlying Stocks, options contracts on Underlying Stocks listed on major securities markets, and/or other instruments that we deemed appropriate in connection with such hedging. Such hedging is carried out in a manner designed to minimize any impact on the price of the Underlying Stocks. Our purchase activity, however, could potentially have increased

PS-9

the initial price of any of the Underlying Stocks, and therefore inadvertently increased the level below which we would be required to deliver to you at maturity shares of such Underlying Stock, which, in turn, would have a value less than the principal amount of your Securities.

Through our affiliates, we are likely to modify our hedge position throughout the life of the Securities by purchasing and selling the Underlying Stocks, options contracts on the Underlying Stocks listed on major securities markets or positions in other securities or instruments that we may wish to use in connection with such hedging. Although we have no reason to believe that our hedging activity or other trading activities that we, or any of our affiliates, engage in or may engage in has had or will have a material impact on the price of the any of the Underlying Stocks, we cannot give you any assurance that we have not or will not affect such price as a result of our hedging or trading activities. It is possible that we or one of more of our affiliates could receive substantial returns from these hedging activities while the value of the Securities may decline. We or one or more of our affiliates may also engage in trading the Underlying Stocks and other investments relating to the issuers of the Underlying Stocks on a regular basis as part of our or its general broker-dealer and other businesses, for proprietary accounts, for other accounts under management or to facilitate transactions for customers, including block transactions. Any of these activities could adversely affect the price of any of the Underlying Stocks and, therefore, the value of the Securities. We or one or more of our affiliates may also issue or underwrite other securities or financial or derivative instruments with returns linked or related to changes in

## Edgar Filing: ABN AMRO BANK NV - Form 424B2

the value of the Underlying Stocks. By introducing competing products into the marketplace in this manner, we or one or more of our affiliates could adversely effect the value of the Securities. It is also possible that any advisory services that we or our affiliates provide in the course of any business with any of the issuers of the Underlying Stocks or its affiliates could lead to actions on the part of the issuer of the stock which might adversely affect the value of such Underlying Stock.

The indenture governing the Securities does not contain any restrictions on our ability or the ability of any of our affiliates to sell, pledge or otherwise convey all or any portion of the Underlying Stocks acquired by us or our affiliates. Neither we nor Holding nor any of our affiliates will pledge or otherwise hold any Underlying Stock for the benefit of holders of the Securities in order to enable the holders to exchange their Securities for shares of the applicable Underlying Stock under any circumstances. Consequently, in the event of a bankruptcy, insolvency or liquidation involving us or Holding, as the case may be, any Underlying Stock that we or Holding own will be subject to the claims of our creditors or Holding's creditors generally and will not be available specifically for the benefit of the holders of the Securities.

### NO SHAREHOLDER RIGHTS IN THE UNDERLYING STOCK

As a holder of the Securities, you will not have voting rights or rights to receive dividends or other distributions or other rights that holders of any Underlying Stock would have.

Because neither we nor Holding nor any of our affiliates are affiliated with any of the issuers of the Underlying Stocks, we have no ability to control or predict the actions of such issuers, including any corporate actions of the type that would require the calculation agent to adjust the applicable initial price and consequently the applicable knock-in level and applicable stock redemption amount, and have no ability to control the public disclosure of these corporate actions or any other events or circumstances affecting such issuers. THE ISSUERS OF THE UNDERLYING STOCKS ARE NOT INVOLVED IN THE OFFER OF THE SECURITIES IN ANY WAY AND HAVE NO OBLIGATION TO CONSIDER YOUR INTEREST AS AN OWNER OF THE SECURITIES IN TAKING ANY CORPORATE ACTIONS THAT MIGHT AFFECT THE VALUE OF YOUR SECURITIES. NONE OF THE MONEY YOU PAY FOR THE SECURITIES WILL GO TO ANY OF THE ISSUERS OF THE UNDERLYING STOCKS.

### INFORMATION REGARDING THE ISSUERS OF THE UNDERLYING STOCKS

Neither we nor Holding nor any of our affiliates assume any responsibility for the adequacy of the information about the issuers of the Underlying Stocks contained in this Pricing Supplement or in any of such issuers' publicly available filings. AS AN INVESTOR IN THE SECURITIES, YOU SHOULD MAKE YOUR OWN INVESTIGATION INTO THESE ISSUERS. NEITHER WE NOR HOLDING NOR ANY OF OUR AFFILIATES HAVE ANY AFFILIATION WITH THE ISSUERS OF THE UNDERLYING STOCKS, AND ARE NOT RESPONSIBLE FOR SUCH ISSUERS' PUBLIC DISCLOSURE OF INFORMATION, WHETHER CONTAINED IN SEC FILINGS OR OTHERWISE.

### LIMITED ANTIDILUTION PROTECTION

AAI, as calculation agent, will adjust the initial price and consequently the stock redemption amount and knock-in level for certain events affecting an Underlying Stock, such as stock splits and corporate actions. The calculation agent is not required to make an adjustment for every corporate action which affects an Underlying Stock. For example, the calculation agent is not required

## Edgar Filing: ABN AMRO BANK NV - Form 424B2

to make any adjustments if the issuer of an Underlying Stock or anyone else makes a partial tender or partial exchange offer for such Underlying Stock. IF AN EVENT OCCURS THAT DOES NOT REQUIRE THE CALCULATION AGENT TO ADJUST THE AMOUNT OF SHARES OF THE APPLICABLE UNDERLYING STOCK PAYABLE AT MATURITY, THE MARKET PRICE OF THE SECURITIES MAY BE MATERIALLY AND ADVERSELY AFFECTED.

### HOLDINGS OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES

Certain of our affiliates have agreed to purchase for investment any portion of the Securities that has not been purchased by investors in any of these offerings, which they intend to hold for a period of at least 30 days. As a result, upon completion of these offerings, our affiliates may own a portion of the Securities which significantly exceeds 10% of the total aggregate principal amount. Circumstances may occur in which our interests or those of our affiliates could be in conflict with your interests.

In addition, if a substantial portion of the Securities linked to an Underlying Stock and held by our affiliates were to be offered for sale in the secondary market, if any, following this offering, the market price of the Securities linked to such Underlying Stock may fall. The negative effect of such sales on the price of the Securities linked to such Underlying Stock could be more pronounced if secondary trading in such Securities is limited or illiquid.

### POTENTIAL CONFLICTS OF INTEREST BETWEEN HOLDERS OF SECURITIES AND THE CALCULATION AGENT

As calculation agent, AAI will calculate the payout to you at maturity of the Securities. AAI and other affiliates may carry out hedging activities related to the Securities, including trading in the Underlying Stocks, as well as in other instruments related to the Underlying Stocks. AAI and some of our other affiliates also trade the Underlying Stocks on a regular basis as part of their general broker dealer businesses. Any of these activities could influence AAI's determinations as calculation agent and any such trading activity could potentially affect the price of the Underlying Stocks and, accordingly could affect the payout on the Securities. AAI IS AN AFFILIATE OF ABN AMRO BANK N.V.

In addition, if certain reorganization events occur as defined under "Description of Securities--Adjustment Events" the calculation agent may adjust the applicable initial price and consequently the applicable knock-in level and applicable stock redemption amount to reflect the new securities issued in such reorganization event. The calculation agent may make such adjustment based on its assessment of the market value and volatility of those new securities, which may adversely affect the value of the Securities. The calculation agent's adjustment to the Securities may be influenced by, among other things, our or our affiliates' hedging transactions with respect to the Securities and our or their ability to hedge our obligations under the Securities following those reorganization events. While we do not currently anticipate the occurrence of a reorganization event, there can be no assurance that a reorganization event will not occur or that the calculation agent's adjustments upon a reorganization event will not adversely affect the value of the Securities.

Moreover, the issue price of the Securities includes the agents' commissions and certain costs of hedging our obligations under the Securities. Our affiliates through which we hedge our obligations under the Securities expect to make a profit. Since hedging our obligations entails risk and may be influenced by market forces beyond our affiliates' control, such hedging may result in a profit that is more or less than initially projected.

### TAX TREATMENT

You should also consider the tax consequences of investing in the Securities. Significant aspects of the tax treatment of the Securities are

## Edgar Filing: ABN AMRO BANK NV - Form 424B2

uncertain. We do not plan to request a ruling from the U.S. Internal Revenue Service (the "IRS") or from the Dutch authorities regarding the tax treatment of the Securities, and the IRS, the Dutch authorities or a court may not agree with the tax treatment described in the accompanying Prospectus Supplement. Please read carefully the sections entitled "United States Federal Taxation" (and in particular the subsection entitled

PS-11

"--Mandatorily Exchangeable Notes--Reverse Exchangeable and Knock-in Reverse Exchangeable Securities") and "Taxation in the Netherlands" in the accompanying Prospectus Supplement. You should consult your tax advisor about your own situation.
