PART I. FINANCIAL INFORMATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles for complete financial statements.

In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments necessary to fairly present the financial position as of September 30, 2002 and the results of operations and cash flows for the three-month periods ended September 30, 2002 and 2001. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and notes included in the Company's latest Annual Report on Form 10-K. Results for the three-months ended September 30, 2002 are not necessarily indicative of results which may be experienced for the full fiscal year.

This document contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are inherently subject to risks and uncertainties which in many cases are beyond the control of the Company and which cannot be predicted or quantified. As a result, future events and actual results could differ materially from those set forth in, contemplated by, or underlying forward-looking statements. Such risks and uncertainties include but are not limited to economic conditions in general, sensitivity to industry conditions, competitive factors such as technology and pricing pressures, business conditions in the telecommunications and electronic equipment markets, international sales and operations, dependence on significant customers, increased material costs, risks and costs associated with acquisitions and divestitures, environmental matters and the risk that the Company's ultimate costs of doing business exceed present estimates. Further information on factors that could affect Magnetek's financial results can be found in the Company's filings with the Securities and Exchange Commission.

ITEM 1

MAGNETEK, INC.
CONDENSED CONSOLIDATED INCOME STATEMENTS
FOR THE THREE MONTHS ENDED
September 30, 2002 and 2001
(amounts in thousands, except per share data)

MAGNETEK, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2002
(All dollar amounts are in thousands)
(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting. Accordingly, they do not include all of the information and footnotes required by

Edgar Filing: MAGNETEK INC - Form 10-Q

generally accepted accounting principles for fiscal year end financial statements. For further information, refer to the financial statements and footnotes thereto included in the Company's Form 10-K for the year ended June 30, 2002 filed with the Securities and Exchange Commission.

The Company uses a fifty-two, fifty-three week fiscal year ending on the Sunday nearest to June 30. Fiscal quarters are the thirteen or fourteen week periods ending on the Sunday nearest September 30, December 31, March 31 and June 30. For clarity of presentation, all periods are presented as if they ended on the last day of the calendar period. The three-month periods ended September 30, 2002 and 2001 each contained thirteen weeks.

2. Summary of Significant Accounting Policies

Principles of Consolidation The consolidated financial statements include the accounts of Magnetek, Inc. and its subsidiaries (the "Company"). All significant inter-company accounts and transactions have been eliminated.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Management estimates are used in, but not limited to, accounting for accounts receivable allowances, inventory allowances, depreciation and amortization, asset impairment, pension benefits, contingencies and taxes. Due to inherent uncertainties in making estimates, actual circumstances could differ from our estimates resulting in a material adverse effect on the Company's financial position or results of operations.

Revenue Recognition The Company's policy is to record and recognize sales only upon shipment.

Inventories Inventories are stated at the lower of cost (first-in, first-out method) or market.

Property, Plant and Equipment Additions and improvement are capitalized at cost, whereas expenditures for maintenance and repair are charged to expense as incurred. Depreciation is provided for over the estimated useful lives of the respective assets (ranging from three to forty years) principally using the straight-line method.

Stock Compensation The Company has elected to use the intrinsic-value method of accounting as prescribed by Accounting Principles Board (APB) No. 25 "Accounting for Stock Issued to Employees" in accounting for stock based awards to employees. Under APB 25, the Company recognizes no compensation expense with respect to such awards when the exercise price is equal to or greater than the market price at the date of grant.

Pension Benefits The valuation of the Company's pension plan requires the use of assumptions and estimates that are used to develop actuarial valuations of expenses, assets and liabilities. These assumptions include discount rates, investment returns, projected salary increases and mortality rates. Changes in assumptions and future interest rates and investment returns could potentially have a material impact on the Company's expenses and related funding requirements.

7

Derivative Financial Instruments The Company uses derivative financial instruments to reduce financial market risks. These instruments are used to hedge foreign currency and interest rate market exposures. The Company does not use derivative financial instruments for speculative or trading purposes. The accounting policies for these instruments are based on the Company's designation of such instruments as hedging transactions. The criteria the Company uses for designating an instrument as a hedge include the instrument's effectiveness in risk reduction and the matching of the derivative to the underlying transaction. The resulting gains or losses are accounted for as part of the transactions being hedged, except for losses not expected to be recovered upon the completion of the hedge transaction, which are expensed.

Recent Accounting Pronouncements In June 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations", and SFAS No. 142, "Goodwill and Other Intangible Assets".

SFAS No. 141 supercedes APB Opinion No. 16, "Business Combinations", and SFAS No. 38, "Accounting for Preacquisition Contingencies of Purchased Enterprises". SFAS No. 141 requires that all business combinations initiated after June 30, 2001 be accounted for under the purchase method. The Company's acquisition in May 2002 of LAB Communications, Inc. was accounted for under the purchase method in accordance with SFAS No. 141.

Under SFAS No. 142, goodwill is no longer amortized but is subject to annual impairment tests, or interim impairment tests if certain indicators arise. Intangible assets with indefinite lives are also no longer subject to amortization. Other intangible assets continue to be amortized

Edgar Filing: MAGNETEK INC - Form 10-Q

over their useful lives. The Company applied the new rules for accounting for goodwill and other intangible assets beginning in fiscal year 2002 and found no indication of impairment as of the adoption date.

At the end of the first quarter of fiscal 2003, the Company had goodwill of \$95.6 million resulting from acquisitions, including \$36.4 million related to acquisitions made within the past two fiscal years in the telecommunications industry. As a result of the decline in the Company's market capitalization in the first quarter of fiscal 2003 and the continuing decline in the telecommunications market, the Company intends to perform an interim test for goodwill impairment in accordance with SFAS No. 142. Upon completing the interim test, the Company intends to record the resulting impairment charge, if any, in the second quarter of fiscal 2003, which ends on December 31, 2002.

In August 2001, SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", which supercedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of" and the accounting and reporting provision of APB Opinion No. 30, "Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual, and Infrequently Occurring Events and Transactions" was issued. SFAS No. 144 is effective for fiscal years beginning after December 15, 2001 and removes goodwill from its scope and clarified other implementation issues related to SFAS No. 121. SFAS No. 144 also provides a single framework for evaluating long-lived assets to be disposed of by sale. The adoption of SFAS No. 144 did not have a material impact on the Company's results of operations or financial position.

In July 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities", which nullified Emerging Issues Task Force (EITF) Issue 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)". SFAS No. 146 requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. Under EITF 94-3, a liability for an exit cost was recognized at the date of an entity's commitment to an exit plan. The provisions of this Statement are effective for exit or disposal activities that are initiated after December 31, 2002. The Company does not expect the adoption of SFAS 146 to have a material impact on its results of operations or financial position.

8

3. Inventories

Inventories at September 30, 2002 and June 30, 2002 consist of the following:

	September 30	June 30
Raw materials and stock parts	\$ 27,169	\$ 29,201
Work-in-process	13,558	10,747
Finished goods	5,215	5,390
	<u>\$ 45,942</u>	<u>\$ 45,338</u>

4. Commitments and Contingencies

The Company is a party to a number of product liability lawsuits, many of which involve fires allegedly caused by defective lighting ballasts. All of these cases are being defended by the Company, and management believes that its insurers will bear all liability, except for applicable deductibles, and that none of these proceedings individually or in the aggregate will have a material effect on the Company. In June 2001 the Company sold its Lighting business.

The Company is frequently named, along with numerous other defendants, in asbestos-related lawsuits. While the outcome of these cases cannot be predicted with certainty, the Company is aggressively seeking to be dismissed from them and does not believe the proceedings, individually or in the aggregate, will have a material adverse effect on its finances or operations. The Company has never produced asbestos-containing products and is either contractually indemnified against liability for asbestos-related claims or believes that it has no liability for such claims, all of which arise from business operations the Company acquired but no longer owns.

In April 1998, Ole K. Nilssen filed a lawsuit in the U.S. District Court for the Northern District of Illinois alleging infringement by the Company of seven of his patents pertaining to electronic ballast technology. Mr. Nilssen seeks unspecified damages and injunctive relief to preclude the Company from making, using or selling products allegedly infringing his patents. The Company denies that any of its products infringe any valid patent and has filed a response asserting its affirmative defenses, as well as a counterclaim for a judicial declaration that its

products do not infringe the patents asserted by Nilssen and also that the asserted patents are invalid. The Company intends to vigorously defend against Nilssen's claims and although it cannot predict the outcome of the lawsuit, management does not believe that the financial impact of this matter will be material.

The Company has from time to time discovered the existence of hazardous substances at certain of its facilities. In response, the Company conducts remediation activities to bring its facilities into compliance with applicable laws and regulations. The Company's remediation activities for fiscal 2002 did not involve material expenditures, and the Company does not expect its expenditures for fiscal 2003 to be material. The Company has also been identified by the United States Environmental Protection Agency and certain state agencies as a potentially responsible party for cleanup costs associated with alleged past waste disposal practices at several facilities and offsite locations. Its remediation activities as a potentially responsible party were not material for fiscal 2002 and are not expected to be material for fiscal 2003. Although the materiality of future expenditures for environmental activities may be affected by the level and type of contamination, the extent and nature of cleanup activities required by governmental authorities, the nature of the Company's alleged connection to the contaminated sites, the number and financial resources of other potentially responsible parties, the availability of indemnification rights against third parties and the identification of additional contaminated sites, the Company's estimated share of liability, if any, for environmental remediation is not expected to be material.

In connection with certain divestitures, the Company has agreed, from time to time, to indemnify buyers with respect to environmental liabilities associated with the divested operations, subject to various conditions and limitations. Expenditures related to the Company's indemnification obligations were not material in fiscal 2002 and are not expected to be material in fiscal 2003. Although future expenditures pursuant to such indemnification obligations could be material, depending upon the extent and nature of subsequently discovered contamination, the Company does not expect its obligations to require material expenditures.

Prior to the Company's purchase of Century Electric, Inc. ("Century Electric") in 1986, Century Electric acquired a business from Gould Inc. ("Gould") in May 1983 that included a leasehold interest in a fractional horsepower electric motor manufacturing facility located in McMinnville, Tennessee. In connection with this acquisition, Gould agreed to indemnify Century Electric from and against liabilities and expenses arising out of the handling and cleanup of certain waste materials, including but not limited to cleaning up any polychlorinated biphenyls ("PCBs") at the McMinnville facility (the "1983 Indemnity").

Investigation has revealed the presence of PCBs and other substances, including solvents, in the soil and in the groundwater underlying the facility and in certain offsite soil, sediment and biota samples. Century Electric notified the Tennessee Department of Environment and Conservation, Division of Superfund, of the test results from its investigation and the McMinnville plant is listed as a Tennessee Inactive Hazardous Waste Substance Site. A report on the site was presented to the Tennessee legislature and community officials and plant employees were notified of the presence of contaminants at the McMinnville facility. In 1995, Gould completed an interim remedial excavation and disposal of onsite soil containing PCBs. Gould also conducted a preliminary investigation and cleanup of certain onsite and offsite contamination. The cost of any further investigation and cleanup of onsite and offsite contamination cannot presently be determined, but the Company believes such costs (including ancillary costs) are covered by the 1983 Indemnity. The Company sold its leasehold interest in the McMinnville plant and while the Company believes that Gould will continue to perform substantially under its indemnity obligations, Gould's substantial failure to perform such obligations could have a material adverse effect on the Company's financial position or results of operations.

The Company acquired the stock of Universal Manufacturing Company ("Universal") from a predecessor of Fruit of the Loom ("FOL"), and the predecessor agreed to indemnify the Company against certain environmental liabilities arising from Universal's pre-acquisition activities. Environmental liabilities covered by the indemnification agreement include completion of additional cleanup activities, if any, at the Bridgeport, Connecticut facility (recently sold in connection with the sale of the transformer business) and defense and indemnification against liability related to offsite disposal locations where Magnetek may have a share of potential response costs. In 1999 FOL filed a petition for Reorganization under Chapter 11 of the Bankruptcy Code and the Company filed a proof of claim in the proceeding for obligations related to the environmental indemnification agreement. The Company believes that FOL has substantially completed the clean-up obligations required by the indemnification agreement. In November 2001, the Company and FOL entered into an agreement involving the allocation of certain potential tax credits and Magnetek withdrew its claims in the bankruptcy proceeding. FOL's ability to set aside any remaining obligations to the states of Connecticut and New Jersey through bankruptcy, or the discovery of additional environmental contamination at the Bridgeport facility, could have an adverse effect on the Company's financial position or results of operations.

Edgar Filing: MAGNETEK INC - Form 10-Q

For the fiscal quarters ended September 30, 2002 and 2001, comprehensive income consisted of the following:

	2002	2001
Net income	\$ 15,743	\$ 1,082
Currency translation adjustment	(427)	4,079
Comprehensive income	\$ 15,316	\$ 5,161

6. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share for the three months ended September 30, 2002 and 2001.

	Fiscal Year	
	2003	2002
Basic earnings per share:		
Net Income	\$ 15,743	\$ 1,082
Weighted average shares for basic earnings per share	23,512	22,542
Basic earnings per share	\$ 0.67	\$ 0.05
Diluted earnings per share:		
Net Income	\$ 15,743	\$ 1,082
Weighted average shares for basic earnings per share	23,512	22,542
Effect of dilutive stock options		436
Weighted average shares for diluted earnings per share	23,512	22,978
Diluted earnings per share	\$ 0.67	\$ 0.05

7. Other Long-term Obligations

Effective September 30, 2002, the Company terminated its retiree medical plan. In accordance with SFAS No. 106, "Employers Accounting for Postretirement Benefits Other Than Pensions," the Company recognized the cost of postretirement medical benefits on an accrual basis over the working lives of employees expected to receive such benefits. As a result of the plan termination, the Company recorded a reduction in other long-term obligations and a corresponding pre-tax gain in the amount of \$27.8 million. The impact to net income was \$17.2 million, or \$0.73 on a per share basis.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Critical Accounting Policies

The following discussion and analysis of our financial condition and results of operations is based upon our condensed consolidated financial statements. In preparing financial statements in conformity with accounting principles generally accepted in the United States, we must make estimates and assumptions that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results could differ from those estimates. For additional information regarding our critical accounting policies and significant assumptions, refer to Note 2 of Notes to Condensed Consolidated Financial Statements, or to the footnotes included in our Form 10-K for the year ended June 30, 2002 filed with the Securities and Exchange Commission.

Edgar Filing: MAGNETEK INC - Form 10-Q

Three Months Ended September 30, 2002 and 2001

Net Sales and Gross Profit

Net sales for the first quarter of fiscal 2003 were \$42.8 million, a decrease of 18.4% from the first quarter of fiscal 2002 sales of \$52.5 million. Revenues continue to be adversely affected by weakness in the general economy, and more specifically by continued weakness in telecommunications and information technology markets. We believe the slowdown in telecommunications may continue at least through fiscal 2003. Accordingly we have focused on gaining share in all addressed markets and on new product introductions in industrial and consumer markets. We expect our second quarter revenue to increase over the first quarter due to higher revenues in markets other than telecommunications.

Our current year first quarter gross profit was \$9.8 million, or 22.8% of sales, versus \$11.8 million, or 22.6% of sales in the first quarter of fiscal 2002. This reduction was primarily due to lower sales of telecom systems and power supplies, and start up expenses associated with our new manufacturing operation in China, partially offset by reductions in direct labor and manufacturing overhead expenses from plant consolidations and headcount reductions.

Research and Development, Selling, General and Administrative

We continued to increase our investment in research and development (R&D). R&D expense was \$2.5 million, or 5.8% of sales, in the first quarter of fiscal 2003 compared to \$2.4 million, or 4.6% of sales, in fiscal 2002. We continue to invest in new power-electronic platforms and applications and expand the breadth of existing product lines. We also increased spending in new product development aimed at consumer markets.

Selling, general and administrative (SG&A) expense was \$9.5 million (22.1% of sales) in the first three months of fiscal 2003 versus \$7.8 million (14.9% of sales) in the first three months of fiscal 2002. This increase was due primarily to increased marketing expense as well as increased pension expense. Our first quarter fiscal 2003 selling expenses were \$4.3 million, versus \$3.5 million in the first quarter of fiscal 2002, due to increased spending to improve our sales capabilities and increased advertising expenses. Our marketing focus is to gain greater share of available telecom systems business, increase brand awareness and develop our domestic OEM and distribution sales channels. Our first quarter fiscal 2003 pension expense was \$0.4 million compared to a prior year first quarter income amount of \$0.3 million. We expect this higher level of pension expense to occur throughout fiscal 2003.

First quarter fiscal 2003 results include a nonrecurring pre-tax gain of \$27.8 million related to the termination of our retiree medical plan. The financial impact in future fiscal quarters will be a reduction of income from operations of approximately \$0.4 million, due to elimination of the amortization credit associated with the related liability. However, we will realize a positive quarterly

12

cash impact of approximately the same amount. We have reviewed, and will continue to review, all benefit programs to ensure that they are appropriate given the competitive environment and the current size of the company. Excluding this gain we had a loss from operations of \$2.2 million in the first quarter of fiscal 2003, compared with income from operations of \$1.6 million in the first quarter of fiscal 2002.

Interest and Other Expense (Income)

Interest expense was \$0.2 million in the first quarter of fiscal 2003 compared to interest expense of \$0.1 million in the first quarter of fiscal 2002. In the first quarter of fiscal 2002, we recorded \$0.2 million of other income related to final purchase price adjustments on the sale of our standard drives business.

Net Income

We recorded an after-tax profit of \$15.7 million, including the impact of the nonrecurring gain, in the first quarter of fiscal 2003, compared to an after-tax profit of \$1.1 million in the first quarter of fiscal 2002. Excluding the nonrecurring gain, we would have recorded an after-tax loss of \$1.4 million. The tax provision in the first quarter of fiscal 2003 was \$9.6 million (38% effective rate) versus \$0.7 million (38% effective rate) in the first quarter of fiscal 2002. We expect the effective tax rate to be 38% throughout fiscal year 2003.

Liquidity and Capital Resources

Edgar Filing: MAGNETEK INC - Form 10-Q

As of September 30, 2002, long-term borrowings (including current portion) were \$3.8 million, a reduction of \$0.3 million from borrowings of \$4.1 million as of June 30, 2002. We have an agreement with a group of banks to provide up to \$40.0 million under a revolving loan facility. Available borrowings are based upon specific levels of domestic accounts receivable and inventories as measured on a quarterly basis. This facility also supports the issuance of letters of credit. As of September 30, 2002, we had \$31.2 million of available borrowings under the facility. Additionally, our European subsidiary maintains borrowing arrangements with local banks, primarily to support working capital needs. No amounts were outstanding at September 30, 2002 under any of our bank lending agreements.

Capital expenditures in the first quarter of fiscal 2003 were \$1.1 million, and we anticipate that our capital expenditures for the fiscal year will be less than \$8.0 million.

We did not repurchase any shares of our common stock during the first quarter of fiscal 2003.

As a result of the decline in stock market equity values over the past six months, the accumulated benefit obligation of our defined benefit pension plan exceeds plan assets as of the end of September 30, 2002. The amount and timing of future contributions to the plan are dependent upon values in equity and fixed income markets, and to a lesser extent, the level of interest rates. While no contributions are mandated, we may elect to make contributions to the plan during fiscal 2003.

Based upon current plans and business conditions, management believes that borrowing capacity under our revolving loan facilities and internally generated cash flows will be sufficient to fund anticipated working capital needs, capital expenditures, and other near-term commitments during the next twelve months.

ITEM 3

QUALITATIVE AND QUANTITATIVE DISCLOSURE ABOUT MARKET RISK

The Company is exposed to market risks in the areas of foreign exchange and interest rates. To mitigate the effect of such risks, the Company selectively utilizes specific financial instruments.

13

Company policy clearly prohibits the use of such financial instruments for trading or speculative purposes. There have been no material changes in the reported market risks since that reported in the Company's Annual Report on Form 10-K dated June 30, 2002.

ITEM 4

CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation of the Company's disclosure controls and procedures was performed by management within 90 days of the filing of this report, with the participation of the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO). Based on this evaluation, the CEO and CFO believe the Company's disclosure controls and procedures are effective as of September 30, 2002.

Changes in Internal Controls

In the quarter ended September 30, 2002, there were no significant changes in the Company's internal controls or in other factors that could significantly affect these controls, including any corrective actions with regard to significant deficiencies and material weaknesses.

14

PART II OTHER INFORMATION

ITEM 1. Legal Proceedings

See Part I, Item 1, Note 4.
