## PART I

## Item 1. Description of Business

Patriot National Bancorp, Inc. ("Bancorp"), a Connecticut corporation, was organized in 1999 for the purpose of becoming a one-bank holding company (the "Reorganization") for Patriot National Bank, a national banking association headquartered in Stamford, Fairfield County, Connecticut (the "Bank"). Following receipt of regulatory and shareholder approvals, the Reorganization became effective as of the opening of business on December 1, 1999. Upon consummation of the Reorganization, each outstanding share of Common Stock, par value $\$ 2.00$ per share, of the Bank ("Bank Common Stock"), was converted into the right to receive one share of Common Stock, par value $\$ 2.00$ per share, of Bancorp ("Bancorp Common Stock"), and each outstanding option or warrant to purchase Bank Common Stock became an option or warrant to purchase an equal number of shares of Bancorp Common Stock.

The Bank was granted preliminary approval by the Comptroller of the Currency (the "OCC") on March 5, 1993. It received its charter and com-menced operations as a national bank on August 31, 1994. Since then, the Bank has opened branch offices in Greenwich and Old Greenwich, Connecticut, two branch offices in Norwalk, Connecticut, a second Stamford location, two branch offices in Wilton, Connecticut, a branch office in Darien, Connecticut and a branch office in Southport, Connecticut. The Bank recently received regulatory approval to open three branch offices, two in Fairfield, Connecticut and one in Milford, Connecticut.

On June 30, 1999, the Bank through its wholly-owned subsidiary, PinPat Acquisition Corporation, acquired all of the outstanding capital stock of Pinnacle Financial Corp., a Connecticut corporation, Pinnacle Financial Corp., a New Jersey corporation, and Pinnacle Financial Corp., a New York corporation (collectively, "Pinnacle"), a residential mortgage broker. Pinnacle surrendered its mortgage licenses and the mortgage brokerage business of Pinnacle is now conducted through the Patriot National Bank Residential Lending Group ("Residential Lending Group"), a division of the Bank. PinPat Acquisition Corporation is presently an inactive subsidiary of the Bank.

On March 11, 2003, Bancorp formed Patriot National Statutory Trust I (the "Trust") for the sole purpose of issuing trust preferred securities and investing the proceeds in subordinated debentures issued by Bancorp. Bancorp primarily invested the funds from the issuance of the debt in the Bank, which in turn used the proceeds to fund general operations of the Bank.

As of the date hereof, the only business of Bancorp is its ownership of all of the issued and outstanding capital stock of the Bank and the Trust. Except as specifically noted otherwise herein, the balance of the description of Bancorp's business is a description of the Bank's business.

The Bank conducts business at its main office located at 900 Bedford Street, Stamford, Connecticut and at branch offices located at: 838 High Ridge Road, Stamford, Connecticut, 100 Mason Street, Greenwich, Connecticut, 184 Sound Beach Avenue, Old Greenwich, Connecticut, 16 River Street and 365 Westport Avenue in Norwalk, Connecticut, One Danbury Road and 5 River Road in Wilton, Connecticut, 800 Post Road in Darien, Connecticut and

3695 Post Road in Southport, Connecticut. The Bank also operates loan origination offices at: 1177 Summer Street, Stamford, Connecticut, 200 Broad Hollow Road, Melville, New York and $4507^{\text {th }}$ Avenue, New York, New York.

The Bank offers a broad range of consumer and commercial banking services with an emphasis on serving the needs of individuals, small and medium-sized businesses and professionals. The Bank offers consumer and commercial deposit accounts that include: checking accounts, interest-bearing "NOW" accounts, insured money market accounts, time certificates of deposit, savings accounts and IRA's (Individual Retirement Accounts). Other services include money orders, traveler's checks, ATM's (automated teller machines), internet banking and debit cards. In addition, the Bank may in the future offer Keogh accounts and other financial services.

The Bank offers commercial real estate and construction loans to area businesses and developers. Real estate loans made to individuals include home mortgages, home improvement loans, bridge loans and home equity lines of credit. Other personal loans include lines of credit, installment loans and credit cards. Commercial loans offered to small and medium-sized businesses include secured and unsecured loans to service companies, real estate developers, manufacturers, restaurants, wholesalers, retailers and professionals doing business in the region. The Bank offers residential mortgages through its Residential Lending Group. The Residential Lending Group solicits and processes mortgage loan applications from consumers on behalf of permanent investors and originates loans for sale.

The Bank competes with a variety of financial institutions in its market area. Most have greater financial resources and capitalization, which gives them higher lending limits and the ability to conduct larger advertising campaigns to attract business. Generally the larger institutions offer services such as trust and international banking which the Bank is not equipped to offer directly. When the need arises, arrangements are made with correspondent institutions to provide such services. In the future, if the Bank desires to offer trust services, prior approval of the OCC will be required. To attract business in this competitive environment, the Bank relies on local promotional activities and personal contact by officers, directors and shareholders and on its ability to offer personalized services.

The customer base of the Bank is diversified so that there is not a concentration of either loans or deposits within a single industry, a group of industries, a single person or groups of people. The Bank is not dependent on one or a few major customers for either its deposit or lending activities, the loss of any one of which would have a material adverse effect on the business of the Bank.

Residents and businesses in Stamford, Greenwich, Norwalk, Wilton, Darien and Southport, Connecticut provide the majority of the Bank's deposits. The Bank has focused its attention on serving the segments of its market area historically served by community banks. The Bank competes in its market by providing a high level of personalized and responsive banking service for which the Bank believes there is a need. This area is bordered by New York State to the west, the Town of Ridgefield to the north, the Town of Bridgeport to the east, and the Long Island Sound to the south.
2

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10KSB

The Bank's loan customers extend beyond Stamford, Greenwich, Norwalk, Wilton, Darien and Southport to include nearby towns in Fairfield County, Connecticut, and towns in Westchester County, New York, although the Bank's loan business is not necessarily limited to these areas. The Bank's mortgage brokerage business is concentrated primarily in the areas surrounding its loan origination offices. While the Bank does not currently hold or intend to attract significant deposit or loan business from major corporations with headquarters in the Fairfield County area, the Bank believes that the service, professional and related busi-nesses which have been attracted to this area, as well as the individuals that reside in this area, represent current and potential customers of the Bank.

In the normal course of business and subject to applicable government regulations, the Bank invests a portion of its assets in investment securities, which may include certain debt and equity securities, including government securities. An objective of the Bank's investment policy is to seek to optimize its return on assets while limiting its exposure to interest rate movements and to maintain adequate levels of liquidity.

The Bank's employees perform most routine day-to-day banking transactions at the Bank. However, the Bank has entered into a number of arrangements with third parties for banking services such as correspondent banking, check clearing, data pro-cessing services, credit card processing and armored carrier service.

The cities of Stamford and Norwalk and the towns of Greenwich, Wilton, Darien, and Southport are presently served by approximately 182 branches of commercial banks and savings banks, most of which are offices of banks which have headquarters outside of the state or area or are subsidiaries of bank or financial holding companies whose headquarters are outside of the areas served by the Bank. In addition to banks with branches in the same areas as the Bank, there are numerous banks and financial institutions serving the communities surrounding these areas, which also draw customers from Stamford, Greenwich, Norwalk, Wilton, Darien and Southport, posing significant competition to the Bank for deposits and loans. Many of such banks and financial institutions are well established and well capitalized.

In recent years, intense market demands, economic pressures and significant legislative and regulatory actions have eroded banking industry classifications which were once clearly defined and have increased competition among banks, as well as other financial institutions. This increase in competition has caused banks and other financial service institutions to diversify their services and become more cost effective as a result of competition with one another and with new types of financial service companies, including non-bank competitors. The impact on Bancorp of federal legislation authorizing increased services by financial holding companies and interstate branching of banks has resulted in increased competition. These events have resulted in increasing homogeneity in the financial services offered by banks and other financial institutions. The impact on banks and other finan-cial institutions of these market dynamics and legislative and regulatory changes has been increased customer awareness of product and service dif-ferences among competitors and increased merger activity.

As a bank holding company, Bancorp's operations are subject to regulation, supervision and examination by the Board of Governors of the Federal Reserve Board (the "Federal Reserve
3

Board'). The Federal Reserve Board has established capital adequacy guidelines for bank holding companies that are similar to the OCC's capital guidelines applicable to the Bank. The Bank Holding Company Act of 1956, as amended (the "BHC Act"), limits the types of companies that a bank holding company may acquire or organize and the activities in which it or they may engage. In general, bank holding companies and their subsidiaries are only permitted to engage in, or acquire direct control of, any company engaged in banking or in a business so closely related to banking as to be a proper incident thereto. Federal legislation enacted in 1999 authorizes certain entities to register as financial holding companies. Registered financial holding companies are permitted to engage in businesses, including securities and investment banking businesses, which are prohibited to bank holding companies. While the creation of financial holding companies is evolving, to date there has been no significant impact on Bancorp.

Under the BHC Act, Bancorp is required to file annually with the Federal Reserve Board a report of its operations. Bancorp, the Bank and any other subsidiaries are subject to examination by the Federal Reserve Board. In addition, Bancorp will be required to obtain the prior approval of the Federal Reserve Board to acquire, with certain exceptions, more than $5 \%$ of the outstanding voting stock of any bank or bank holding company, to acquire all or substantially all of the assets of a bank or to merge or consolidate with another bank holding company. Moreover, Bancorp, the Bank and any other subsidiaries are prohibited from engaging in certain tying arrangements in connection with any extension of credit or provision of any property or services. The Bank is also subject to certain restrictions imposed by the Federal Reserve Act on issuing any extension of credit to Bancorp or any of its subsidiaries or making any investments in the stock or other securities thereof and on the taking of such stock or securities as collateral for loans to any borrower. If Bancorp wants to engage in businesses permitted to financial holding companies but not to bank holding companies, it would need to register with the Federal Reserve Board as a financial holding company.

The Federal Reserve Board has issued a policy statement on the payment of cash dividends by bank holding companies, which expresses the Federal Reserve Board's view that a bank holding company should pay cash dividends only to the extent that bank holding company's net income for the past year is sufficient to cover both the cash dividend and a rate of earnings retention that is consistent with the bank holding company's capital needs, asset quality and overall financial condition. The Federal Reserve Board has also indicated that it would be inappropriate for a company experiencing serious financial problems to borrow funds to pay dividends. Furthermore, under the prompt corrective action regulations adopted by the Federal Reserve Board pursuant to applicable law, the Federal Reserve Board may prohibit a bank holding company from paying any dividends if the bank holding company's bank subsidiary is classified as "undercapitalized."

A bank holding company is required to give the Federal Reserve Board prior written notice of any purchase or redemption of its outstanding equity securities if the gross consideration for the purchase or redemption, when combined with the net consideration paid for all such purchases or redemptions during the preceding 12 months, is equal to $10 \%$ or more of its consolidated retained earnings. The Federal Reserve Board may disapprove such a purchase or redemption if it determines that the proposal would constitute an unsafe or unsound practice or would violate
4
any law, regulation, Federal Reserve Board order, or any condition imposed by, or written agreement with, the Federal Reserve Board.

The Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994, ("Riegle-Neal Act") was enacted to ease restrictions on interstate banking. Effective September 29, 1995, the Riegle-Neal Act allows the Federal Reserve Board to approve an application of an adequately capitalized and adequately managed bank holding company to acquire control of, or acquire all or substantially all of the assets of, a bank located in a state other than such holding company's state, without regard to whether the transaction is prohibited by the laws of any state. The Federal Reserve Board may not approve the acquisition of a bank that has not been in existence for the minimum time period (not exceeding five years) specified by the statutory law of the host state. The Riegle-Neal Act also prohibits the Federal Reserve Board from approving an application if the applicant (and its depository institution affiliates) controls or would control more than $10 \%$ of the insured deposits in the United States or $30 \%$ or more of the deposits in the target bank's home state or in any state in which the target bank maintains a branch. The Riegle-Neal Act does not affect the authority of states to limit the percentage of total insured deposits in the state which may be held or controlled by a bank or bank holding company to the extent that such limitation does not discriminate against out-of-state banks or bank holding companies. Individual states may also waive the $30 \%$ statewide concentration limits contained in the Riegle-Neal Act. The Riegle-Neal Act also allows banks to establish branch offices in other than the bank's home state if the target state has "opted in" to interstate branching. Connecticut has "opted in"; New York has not, so at the present time the bank cannot establish a branch (deposit taking and loan making facility) in New York State except through the purchase of an existing New York bank or branch of a New York bank.

Bancorp is subject to capital adequacy rules and guidelines issued by the OCC, the Federal Reserve Board and the Federal Deposit Insurance Corporation ("FDIC"), and the Bank is subject to capital adequacy rules and guidelines issued by the OCC. These substantially identical rules and guidelines require Bancorp to maintain certain minimum ratios of capital to adjusted total assets and/or risk-weighted assets. Under the provisions of the Federal Deposit Insurance Corporation Improvements Act of 1991, the Federal regulatory agencies are required to implement and enforce these rules in a stringent manner. Bancorp is also subject to applicable provisions of Connecticut law insofar as they do not conflict with, or are not otherwise preempted by, Federal banking law.

Bancorp is subject to the reporting requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and, in accordance with the Exchange Act, files periodic reports, proxy statements and other information with the Securities and Exchange Commission (the "SEC").

The Bank's operations are subject to regulation, supervision and examination by the OCC and the FDIC.
Federal and state banking regulations regulate, among other things, the scope of the business of a bank, a bank holding company or a financial holding company, the investments a bank may make, deposit reserves a bank must maintain, the nature and amount of collateral for certain
5
loans a bank makes, the establishment of branches and the activities of a bank with respect to mergers and acquisitions. The Bank is a member of the Federal Reserve System and is subject to applicable provisions of the Federal Reserve Act and regulations thereunder. The Bank is subject to the federal regulations promulgated pursuant to the Financial Institutions Supervisory Act to prevent banks from engaging in unsafe and unsound practices, as well as various other federal and state laws and consumer protection laws. The Bank is also subject to the comprehensive provisions of the National Bank Act.

The OCC regulates the number and locations of the branch offices of a national bank. The OCC may only permit a national bank to maintain branches in locations and under the conditions imposed by state law upon state banks. At this time, applicable Connecticut banking laws do not impose any material restrictions on the establishment of branches by Connecticut banks throughout Connecticut.

The earnings and growth of Bancorp, the Bank and the banking industry are affected by the monetary and fiscal policies of the United States Government and its agencies, particularly the Federal Reserve Board. The Open Market Committee of the Federal Reserve Board implements national monetary policy to curb inflation and combat recession. The Federal Reserve Board uses its power to adjust interest rates in United States Government securities, the Discount Rate and deposit reserve retention rates. The actions of the Federal Reserve Board influence the growth of bank loans, investments and deposits. They also affect interest rates charged on loans and paid on deposits. The nature and impact of any future changes in monetary policies cannot be predicted.

In addition to other laws and regulations, Bancorp and the Bank are subject to the Community Reinvestment Act ("CRA"), which requires the Federal bank regulatory agencies, when considering certain applications involving Bancorp or the Bank, to consider Bancorp's and the Bank's record of helping to meet the credit needs of its entire community, including low- and moderate-income neighborhoods. The CRA was originally enacted because of concern over unfair treatment of prospective borrowers by banks and over unwarranted geographic differences in lending patterns. Existing banks have sought to comply with CRA in various ways; some banks have made use of more flexible lending criteria for certain types of loans and borrowers (consistent with the requirement to conduct safe and sound operations), while other banks have increased their efforts to make loans to help meet identified credit needs within the consumer community, such as those for home mortgages, home improvements and small business loans. For example, this may include participation in various government insured lending programs, such as Federal Housing Administration insured or Veterans Administration guaranteed mortgage loans, Small Business Administration loans, and participation in other types of lending programs such as high loan-to-value ratio conventional mortgage loans with private mortgage insurance. To date, the market area from which the Bank draws much of its business is Stamford, Greenwich, Norwalk, Wilton, Darien and Southport, which are characterized by a very diverse ethnic, economic and racial cross-section of the population. As the Bank expands further, the market areas served by the Bank will continue to evolve. Bancorp and the Bank have not and will not adopt any policies or practices, which discourage credit applications from, or unlawfully discriminate against, individuals or segments of the communities served by the Bank. 6

On October 26, 2001, the United and Strengthening America by Providing Tools Required to Intercept and Obstruct Terrorism Act of 2001, or the USA Patriot Act, was enacted to further strengthen domestic security following the September 11, 2001 attacks. This Act amends various federal banking laws, particularly the Bank Secrecy Act with the intent to curtail money laundering and other activities that might be undertaken to finance terrorist actions. The Act also requires that financial institutions in the United States enhance already established anti-money laundering policies, procedures and audit functions and ensure that controls are reasonably designed to detect instances of money laundering through certain correspondent or private banking accounts. Verification of customer identification, maintenance of said verification records and cross checking names of new customers against government lists of known or suspected terrorists is also required. The Patriot Act was recently reauthorized and modified with the enactment of The USA Patriot Act Improvement and Reauthorization Act of 2005.

On July 20, 2002, the Sarbanes-Oxley Act of 2002 was enacted, the primary purpose of which is to protect investors through improved corporate governance and responsibilities of and disclosures by public companies. The Act contains provisions for the limitations of services that external auditors may provide as well as requirements for the credentials of Audit Committee members. In addition, the principal executive and principal financial officers are required to certify in quarterly and annual reports that they have reviewed the report; and based on the officers' knowledge, the reports accurately present the financial condition and results of operations of the company and contain no untrue statement or omission of material fact. The officers also certify their responsibility for establishing and maintaining a system of internal controls which insure that all material information is made known to the officers; this certification also includes the evaluation of the effectiveness of disclosure controls and procedures and their impact upon financial reporting. Section 404 of the Act entitled Management Assessment of Internal Controls, requires that each annual report include an internal control report which states that it is the responsibility of management for establishing and maintaining an adequate internal control structure and procedures for financial reporting, as well as an assessment by management of the effectiveness of the internal control structure and procedures for financial reporting. This section further requires that the external auditors attest to, and report on, the assessment made by management. On September 21, 2005, the SEC extended the Section 404 compliance dates for non-accelerated filers (those issuers with non-affiliated public float of less than $\$ 75$ million) to fiscal years ending on or after July 15, 2007. Due to the burdens on smaller companies in designing and implementing compliance with this section, the SEC Advisory Committee on Smaller Public companies is considering recommendations for companies with market capitalization of less that $\$ 75$ million that may exempt these companies from certain requirements of Section 404.

Bancorp does not anticipate that compliance with applicable federal and state banking laws will have a material adverse effect on its business or the business of the Bank. Neither Bancorp nor the Bank has any material patents, trademarks, licenses, franchises, concessions and royalty agreements or labor contracts, other than the charter granted to the Bank by the OCC. The Bank has, however, registered the trademark "Patriot" and the corresponding logo with the State of Connecticut Trademark Office. Compliance by Bancorp and the Bank with federal, state and local provisions which have been enacted or adopted regulating or otherwise relating to the discharge of material into the environment is not expected to have a material effect upon the capital expenditures, earnings or competitive position of Bancorp. 7

As of December 31, 2005, Bancorp had 97 full-time employees and seven part-time employees. None of the employees of Bancorp is covered by a collective bargaining agreement.

## Item 2. Description of Properties

Patriot National Bancorp Inc.'s corporate headquarters and main branch banking office is located at 900 Bedford Street in Stamford, Connecticut. The building is leased by the Bank as are its nine other branch banking offices, three approved branch locations scheduled to open in 2006, one of which is currently under renovation, and three loan origination offices. The Bank also leases space at its main office for additional parking. Lease commencement dates for office locations range from July 1, 2002 to January 1, 2006 and lease expiration dates fall between June 30, 2007 and December 31, 2015. Subsequent to December 31, 2005 the Bank entered into two leases for new branch locations with lease expiration dates during 2016 and 2021; definitive expiration dates are dependent upon the determination of lease commencement dates. Most of the leases contain rent escalation provisions as well as renewal options for one or more periods.

The Bank has sublet and licensed excess space in three of its locations, two to an attorney and one to a retail eyeglass store. See also, "Item 12. Certain Relationships and Related Transactions."

All leased properties are in good condition.
Item 3. Legal Proceedings
Neither Bancorp nor the Bank has any pending legal proceedings, other than ordinary routine litigation incidental to its business, to which Bancorp or the Bank is a party or any of its property is subject.

Item 4. Submission of Matters to a Vote of Security Holders
During the fourth quarter of 2005, no matter was submitted to a vote of shareholders.

## PART II

## Item 5. Market for Common Equity, Related Shareholder Matters and Small Business Issuer Purchases of Equity Securities

## Market Information

Bancorp Common Stock is traded on the NASDAQ Small Cap Market under the Symbol "PNBK." On December 31, 2005, the last sale price for Bancorp Common Stock on NASDAQ Small Cap Market was $\$ 20.75$. 8

The following table sets forth the high and low sales price and dividends per share of Bancorp Common Stock for the last two fiscal years for each quarter as reported on the NASDAQ Small Cap Market.

## Holders

There were approximately 708 shareholders of record of Bancorp Common Stock as of December 31, 2005.

## Dividends

2001 marked the first year in which Bancorp paid a dividend on Bancorp Common Stock; since then, the Company has consistently paid dividends.

Bancorp's ability to pay future dividends on its Common Stock depends on the Bank's ability to pay dividends to Bancorp. In accordance with OCC rules and regulations, the Bank may continue to pay dividends only if the total amount of all dividends that will be paid, including the proposed dividend, by the Bank in any calendar year does not exceed the total of the Bank's retained net income of that year to date, combined with the retained net income of the preceding two years, unless the proposed dividend is approved by the OCC. In addition, the OCC and/or the FDIC may impose further restrictions on dividends. Future dividends depend on many factors, including management's estimates of future earnings and Bancorp's need for capital.

## Recent Sales of Unregistered Securities

On October 26, 2005, the Company issued 1,375 shares of its common stock to its six outside directors. Pursuant to a new policy adopted by the Board in February 2005, outside directors serving on the board receive an annual award of the Company's common stock valued at $\$ 5,000$; the award is prorated for directors who have served less than a full year. Normally these shares would be issued and priced at the time of the annual meeting of shareholders; however, in 2005, the Company was actively involved in its rights offering preparation at the time of the annual meeting, and deferred issuance of the director stock until after that offering had been priced and completed. The shares have not been registered under the Securities Act of 1933 and therefore were issued in a private placement transaction exempt from registration under Section 4(2) of the Securities Act. For purposes of this transaction, the Company shares were valued at approximately $\$ 19.118$ per share, or a total value of $\$ 26,250$.
9

## Purchases of Equity Securities by the Small Business Issuer and Affiliated Purchasers

During the fourth quarter of 2005 there were no such purchases of Bancorp Common Stock.

(a) Plan of Operation

Not applicable since Bancorp has had revenues from operations in each of the last two fiscal years. 11
(b) Management's Discussion and Analysis of Financial Condition and Results of Operations

## Summary

Bancorp's subsidiary, Patriot National Bank established its tenth branch banking office in June of 2005. In addition, Bancorp successfully completed a shareholder rights offering during September 2005 resulting in an increase in common stock of $\$ 12.0$ million, $\$ 11.0$ million, net of offering fees and expenses. Eligible shareholders purchased $\$ 6.3$ million or 368,687 shares; standby investors purchased $\$ 5.7$ million or 337,196 shares.

Bancorp reported earnings of $\$ 1,407,000$ ( $\$ 0.52$ basic income per share and $\$ 0.51$ diluted income per share) for 2005 compared to $\$ 926,000$ ( $\$ 0.38$ basic income per share and $\$ 0.37$ diluted income per share) for 2004. Total assets ended the year at a new record high of $\$ 470.6$ million, an increase of $\$ 65.6$ million from December 31, 2004.

Net interest income for the year ended December 31, 2005 increased $\$ 3.2$ million or $28 \%$ to $\$ 14.9$ million as compared to $\$ 11.7$ million for the year ended December 31, 2004.

Total assets increased by $16 \%$ during the year as total loans increased from $\$ 263.9$ million at December 31, 2004 to $\$ 364.2$ million at December 31, 2005. The available for sale securities portfolio increased $\$ 2.4$ million or $3 \%$ to $\$ 78.7$ million from $\$ 76.3$ million at December 31, 2004. Loan growth was funded through deposit growth and a reduction in federal funds sold and short term investments. Deposits increased $\$ 52.1$ million to $\$ 419.1$ million at December 31, 2005; interest bearing deposits increased $\$ 45.9$ million, or $14 \%$, and non-interest bearing deposits increased $\$ 6.2$ million or $15 \%$. Shareholders' equity increased $\$ 11.6$ million; this increase is the result of the stock offering, the exercise of certain stock options and the increase in retained earnings from net income, net of dividend payments. The increase in shareholder's equity is partially offset by the increase in accumulated other comprehensive loss due to unrealized losses on the available for sale securities portfolio.

## FINANCIAL CONDITION

## Assets

Bancorp's total assets increased $\$ 65.6$ million or $16 \%$ from $\$ 405.0$ million at December 31, 2004 to $\$ 470.6$ million at December 31, 2005. The growth in total assets was funded primarily by deposit growth of $\$ 52.1$ million and $\$ 11.0$ million in capital raised through the rights offering. Federal funds sold and short term investments decreased $\$ 31.0$ million and $\$ 9.2$ million, respectively; these decreases were used to fund loan growth.
12

## Investments

The following table is a summary of Bancorp's investment portfolio at December 31 for the years shown.

|  |  | 2005 | 2004 | 2003 |  |
| :--- | ---: | ---: | ---: | ---: | ---: |
| U. S. Government Agency and | $\$$ | $16,476,684$ | $\$$ | $14,823,295$ | $\$$ |
| Sponsored Agency Obligations |  | $56,195,384$ | $11,865,618$ |  |  |
| Mortgage-backed securities |  | $6,000,000$ | $9,446,180$ | $66,696,465$ |  |
| Marketable equity securities |  | $1,022,300$ | 692,000 | $12,000,000$ |  |
| Federal Reserve Bank stock | $1,296,700$ | $1,296,700$ | $1,091,150$ |  |  |
| Federal Home Loan Bank stock | $\$$ | $80,991,068$ | $\$$ | $78,258,775$ | $\$$ |
| Total Investments | $92,330,500$ |  |  |  |  |

Total investments increased $\$ 2.7$ million to $\$ 81.0$ million; purchases of U.S. Government Agency and Sponsored Agency obligations and mortgage-backed securities were partially offset by principal payments on mortgage-backed securities and redeemed money market preferred equity instruments.

The following table presents the maturity distribution of available for sale investment securities at December 31, 2005 and the weighted average yield of such securities. The weighted average yields were calculated on the amortized cost and effective yields to maturity of each security.

|  | One year or less |  | Over oneOver <br> five |  |  |  |  |  |  | No maturity |  | Total | Weighted <br> Average <br> Yield |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  | through <br> five years | through ten years |  | Over ten years |  |  |  |  |  |  |
| U. S. Government Agency and |  |  |  |  |  |  |  |  |  |  |  |  |  |
| Sponsored Agency obligations | \$ | - | \$ | 16,999,341 | \$ | - | \$ | - | \$ | - | \$ | 16,999,341 | 3.59\% |
| Mortgage-backed securities |  | - |  | - |  | - |  | - |  | 57,453,614 |  | 57,453,614 | 4.33\% |
| Money market preferred |  |  |  |  |  |  |  |  |  |  |  |  |  |
| equity securities |  | - |  | - |  | - |  | - |  | 6,000,000 |  | 6,000,000 | 3.44\% |
| Total | \$ | - | \$ | 16,999,341 | \$ | - | \$ | - | \$ | 63,453,614 | \$ | 80,452,955 | 4.11\% |
| Weighted average yield |  | -\% |  | 3.59\% |  | - |  | - | \% | 4.25\% |  | 4.11 |  |

The following table presents a summary of investments for any issuer that exceeds $10 \%$ of shareholders' equity at December 31, 2005:

|  | Amortized <br> Cost | Fair <br> Value |  |
| :--- | ---: | ---: | ---: |
| Available for sale securities: |  |  |  |
| U.S. Government Agency and Sponsored | $\$$ | $16,999,341$ | $\$$ |
| Agency Obligations |  | $57,453,614$ | $16,476,684$ |
| U.S. Government Agency mortgage-backed securities |  |  |  |

## Loans

The following table is a summary of Bancorp's loan portfolio at December 31 for the years shown.

|  |  | 2005 | 2004 | 2003 |  |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Real Estate | $\$$ | $129,178,889$ | $\$$ | $106,771,441$ | $\$$ |
| Commercial |  | $77,391,833$ | $36,339,220$ |  |  |
| Residential | $107,232,587$ | $74,598,961$ | $21,772,959$ |  |  |
| Construction | $15,591,818$ | $17,562,523$ | $57,122,445$ |  |  |
| Commercial | $1,106,648$ | $1,386,709$ | $1,532,902$ |  |  |
| Consumer installment | $39,097,450$ | $30,874,894$ | $25,607,775$ |  |  |
| Consumer home equity | $369,599,225$ | $268,160,147$ | $218,237,025$ |  |  |
| Total Loans |  | 367,491 | 313,754 |  |  |
| Premiums |  | $(1,134,604)$ | $(1,117,556)$ | $(881,822)$ |  |
| Net deferred fees |  | $(4,588,335)$ | $(3,481,525)$ | $(2,934,675)$ |  |
| Allowance for loan losses | $\$$ | $364,243,777$ | $\$$ | $263,874,820$ | $\$$ |
| Loans, net |  |  | $214,420,528$ |  |  |

Bancorp's net loan portfolio increased $\$ 100.3$ million or $38 \%$ to $\$ 364.2$ million at December 31, 2005 from $\$ 263.9$ million at December 31, 2004. Loan growth was funded through an increase in total deposits as well as by reductions in federal funds sold and short term investments. At December 31, 2005, the net loan to deposit ratio was $87 \%$ and the net loan to asset ratio was $77 \%$. At December 31, 2004, the net loan to deposit ratio was $72 \%$, and the net loan to asset ratio was $65 \%$.

Despite a period of rising short term rates, the yield curve was relatively flat and longer term rates have remained lower; therefore, loan activity continued to remain strong and the volume of new loans far exceeded principal reductions and payoffs.
14

## Maturities and Sensitivities of Loans to Changes in Interest Rates

The following table presents the maturities of loans in Bancorp's portfolio at December 31, 2005, by type of loan:

| (thousands of dollars) |  | Due in one year or less |  | Due after one year through five years |  | Due after five years |  | Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Commercial real estate | \$ | 20,823 | \$ | 42,705 | \$ | 65,651 | \$ | 129,179 |
| Residential real estate |  | 3,055 |  | 4,034 |  | 70,303 |  | 77,392 |
| Construction loans |  | 68,074 |  | 35,866 |  | 3,293 |  | 107,233 |
| Commercial loans |  | 8,289 |  | 6,154 |  | 1,149 |  | 15,592 |
| Consumer installment |  | 1,016 |  | 90 |  | - |  | 1,106 |
| Consumer home equity |  | 35 |  | 6,048 |  | 33,014 |  | 39,097 |
| Total | \$ | 101,292 | \$ | 94,897 | \$ | 173,410 | \$ | 369,599 |
| Fixed rate loans | \$ | 5,503 | \$ | 20,955 | \$ | 3,405 | \$ | 29,863 |
| Variable rate loans |  | 95,789 |  | 73,942 |  | 170,005 |  | 339,736 |
| Total | \$ | 101,292 | \$ | 94,897 | \$ | 173,410 | \$ | 369,599 |

The following table presents loan concentrations at December 31, 2005:

| Category | Percentage | Dollars <br> Outstanding |
| :--- | ---: | ---: |
| (thousands of dollars) |  |  |

## Critical Accounting Policies

In the ordinary course of business, Bancorp has made a number of estimates and assumptions relating to reporting results of operations and financial condition in preparing its financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ significantly from those estimates under different assumptions and conditions. The Company believes the following discussion addresses Bancorp's only critical accounting policy, which is the policy that is most important to the presentation of Bancorp's financial results. This policy requires management's most difficult, subjective and complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. 15

## Allowance for Loan Losses

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The allowance consists of specific, general and unallocated components. The specific component relates to loans that are considered impaired. A risk rating system is utilized to measure the adequacy of the general component of the allowance for loan losses. Under this system, each loan is assigned a risk rating between one and nine, which has a corresponding loan loss factor assigned, with a rating of "one" being the least risk and a rating of "nine" reflecting the most risk or a complete loss. Risk ratings are assigned based upon the recommendations of the credit analyst and originating loan officer and confirmed by the loan committee at the initiation of the transactions and are reviewed and changed, when necessary during the life of the loan. Loan loss reserve factors are multiplied against the balances in each risk rating category to arrive at the appropriate level for the allowance for loan losses. Loans assigned a risk rating of "six" or above are monitored more closely by the credit administration officers. The unallocated portion of the allowance reflects management's estimate of probable but undetected losses inherent in the portfolio; such estimates are influenced by uncertainties in economic conditions, delays in obtaining information, including unfavorable information about a borrower's financial condition, difficulty in identifying triggering events that correlate perfectly to subsequent loss rates, and risk factors that have not yet manifested themselves in loss allocation factors. Loan quality control is continually monitored by management subject to oversight by the board of directors through its members who serve on the loan committee and is also reviewed by the full board of directors on a monthly basis. The methodology for determining the adequacy of the allowance for loan losses is consistently applied; however, revisions may be made to the methodology and assumptions based on historical information related to charge-off and recovery experience and management's evaluation of the current loan portfolio.

Based upon this evaluation, management believes the allowance for loan losses of $\$ 4.6$ million, at December 31, 2005, which represents $1.25 \%$ of gross loans outstanding, is adequate, under prevailing economic conditions, to absorb losses on existing loans. At December 31, 2004, the allowance for loan losses was $\$ 3.5$ million or $1.31 \%$ of gross loans outstanding.

The accrual of interest income on loans is discontinued whenever reasonable doubt exists as to its collectibility and generally is discontinued when loans are past due 90 days, based on contractual terms, as to either principal or interest. When the accrual of interest income is discontinued, all previously accrued and uncollected interest is reversed against interest income.

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10KSB

The accrual of interest on loans past due 90 days or more, including impaired loans, may be continued if the loan is well secured, and it is believed all principal and accrued interest income due on the loan will be realized, and the loan is in the process of collection. A non-accrual loan is restored to an accrual status when it is no longer delinquent and collectibility of interest and principal is no longer in doubt.

Management considers all non-accrual loans and restructured loans to be impaired. In most cases, loan payments that are past due less than 90 days, based on contractual terms, are considered minor collection delays and the related loans are not considered to be impaired. The Bank considers consumer installment loans to be pools of smaller balance homogeneous loans, which are collectively evaluated for impairment.

Analysis of Allowance for Loan Losses

|  |  | (thousands of dollars) |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Non-Accrual. Past Due and Restructured Loans

The following table is a summary of non-accrual and past due loans at the end of each of the last five years.

|  | 2005 |  | 2004 |  | $2003$ |  | 2002 |  | 2001 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Loans delinquent over 90 |  |  |  |  |  |  |  |  |  |  |
| days still accruing | \$ | 275 | \$ | 373 | \$ | 165 | \$ | 1,172 | \$ | 1,300 |
| Non-accruing loans |  | 1,935 |  | 3,669 |  | 150 |  | 201 |  | 1,654 |
|  | \$ | 2,210 | \$ | 4,042 | \$ | 315 | \$ | 1,373 | \$ | 2,954 |
| \% of Total Loans |  | 0.60\% |  | 1.51\% |  | 0.14\% |  | 0.79\% |  | 2.14\% |
| \% of Total Assets |  | 0.47\% |  | 1.00\% |  | 0.09\% |  | 0.56\% |  | 1.46\% |
| Additional income on non-accrual |  |  |  |  |  |  |  |  |  |  |
| loans if recognized on an accrual |  |  |  |  |  |  |  |  |  |  |
| basis | \$ | 6 | \$ | 18 | \$ | 18 | \$ | 67 | \$ | 159 |

There were no loans in either 2005 or 2004 considered as "troubled debt restructurings."

## Potential Problem Loans

The $\$ 1.9$ million of non-accruing loans at December 31, 2005 is comprised of two loans, both of which are well collateralized and in the process of collection; both loans are current as to principal and interest payments.

At December 31, 2005, Bancorp had no loans other than those described above, as to which management has significant doubts as to the ability of the borrower to comply with the present repayment terms.
18

## Deposits

The following table is a summary of Bancorp's deposits at December 31 for each of the years shown.

|  |  | 2005 | 2004 | 2003 |  |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Non-interest bearing | $\$$ | $48,797,389$ | $\$$ | $42,584,120$ | $\$$ |
| Interest bearing |  |  | $30,477,295$ |  |  |
| Time certificates, less than $\$ 100,000$ |  | $168,565,756$ | $131,764,662$ | $92,574,784$ |  |
| Time certificates, $\$ 100,000$ or more | $98,440,248$ | $71,287,106$ | $50,793,863$ |  |  |
| Money market | $57,798,772$ | $72,450,663$ | $69,503,859$ |  |  |
| Savings | $20,089,889$ | $22,104,121$ | $23,792,811$ |  |  |
| NOW |  | $25,383,234$ | $26,814,653$ | $22,849,570$ |  |
| Total interest bearing |  | $370,277,899$ | $324,421,205$ | $259,514,887$ |  |
| Total deposits | $\$$ | $419,075,288$ | $\$$ | $367,005,325$ | $\$$ |

Total deposits increased $\$ 52.1$ million or $14 \%$ to $\$ 419.1$ million at December 31, 2005. Non-interest bearing deposits increased $\$ 6.2$ million or $15 \%$ to $\$ 48.8$ million at December 31, 2005; interest bearing deposits increased $\$ 45.9$ million or $14 \%$ to $\$ 370.3$ million at December 31, 2005. Based upon the Bank's continued expansion and the increased penetration into the areas served by the Bank, commercial demand accounts increased $\$ 2.6$ million, a $10 \%$ increase as compared to last year, and personal demand accounts increased $\$ 1.6$ million, an increase of $13 \%$ when compared to last year. During 2005, the Bank established its tenth branch banking office; this new office contributed significantly to the annual growth in deposits. The promotional campaign run in conjunction with the opening of the new branch was also a contributing factor to the growth of deposits in established branches. Certificates of deposit increased $\$ 64.0$ million which represents an increase of $32 \%$ when compared to last year; much of the growth in certificates of deposit is attributable to the promotional campaign run in conjunction with the new branch opening as well as to the transfer of funds from lower rate products, which decreased as compared to last year. The increase in certificates of deposit greater than $\$ 100$ thousand of $\$ 27.2$ million is the result of successful sales efforts and branch expansion; these balances do not include brokered deposits. Money market fund and savings accounts decreased $\$ 14.7$ million and $\$ 2.0$ million, respectively; a portion of these decreases represents transfers to certificates of deposit as a result of promotional campaigns and general increases in interest rates offered on certificates of deposit accounts. The Bank continues to offer attractive interest rates in the very competitive Fairfield County marketplace in order to attract additional deposits to fund loan growth.

As of December 31, 2005, the Bank's maturities of time deposits were:

|  | $\$ 100,000$ or <br> greater | Less than <br> $\$ 100,000$ | Totals |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: |
| (thousands of dollars) | $\$$ | 13,340 | $\$$ | 27,240 | $\$$ |
| Three months or less |  | 16,671 | 27,017 | 40,580 |  |
| Three to six months | 27,952 | 53,228 | 43,688 |  |  |
| Six months to one year | 40,477 | 61,081 | 101,558 |  |  |
| Over one year | $\$$ | 98,440 | $\$$ | 168,566 | $\$$ |
| Total |  |  | 267,006 |  |  |

## Borrowings

Borrowings increased $\$ 1.0$ million to $\$ 17.2$ million at December 31, 2005.
Borrowings are comprised of Federal Home Loan Bank Advances and junior subordinated debentures.
The following table sets forth short term borrowing amounts along with the respective interest rates and maturities:
Federal Home Loan Bank advances:

| Amount | Maturity | Rate | Average <br> amount outstanding |
| ---: | ---: | ---: | ---: |
| $\$ 5,000,000$ | $03 / 13 / 2006$ | $4.490 \%$ | $\$ 273,973$ |
| $1,000,000$ | $05 / 01 / 2006$ | $2.490 \%$ | $1,000,000$ |
| $\$ 6,000,000$ |  | $4.156 \%$ | $\$ 1,273,973$ |

The maximum amount of short term borrowings outstanding under Federal Home Loan Bank advances during 2005 was $\$ 15,000,000$.

## Other

The increase in premises and equipment is due primarily to the capitalized costs associated with leasehold improvements and equipment for a new branch office.

The increase in accrued interest receivable is due primarily to higher outstanding balances in loans at December 31, 2005 as compared to those in effect at December 31, 2004.

The increase in accrued expenses and other liabilities is due primarily to increases in accruals for income taxes, salaries and commissions, and higher balances in accrual estimates for other unpaid expenses.
20

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10KSB

## RESULTS OF OPERATIONS

For the year ended December 31, 2005, Bancorp earned $\$ 1,407,000$ ( $\$ 0.52$ basic income per share and $\$ 0.51$ diluted income per share) an increase of $52 \%$ as compared to 2004 when Bancorp earned $\$ 926,000$ ( $\$ 0.38$ basic income per share and $\$ 0.37$ diluted income per share). Net income for the commercial banking segment increased $\$ 462,000$ or $44 \%$ to $\$ 1.5$ million for the year ended December 31, 2005 from $\$ 1.1$ million for the year ended December 31, 2004; the net loss for the Residential Lending Segment decreased $14 \%$ or $\$ 18,000$ from a loss of $\$ 128,000$ for the year ended December 31, 2004 to a loss of $\$ 110,000$ for the year ended December 31, 2005.

Interest and dividend income increased $\$ 6.4$ million to $\$ 25.1$ million in 2005 as compared to 2004 when interest and dividend income was $\$ 18.7$ million. This increase is due primarily to the growth in the loan portfolio combined with a general increase in interest rates.

Interest expense increased $\$ 3.3$ million or $47 \%$ to $\$ 10.3$ million in 2005 compared to $\$ 7.0$ million in 2004. The increase in interest expense is due largely to the increase in total deposits as well as to a general increase in interest rates.

Noninterest income increased $\$ 527,000$ or $20 \%$ to $\$ 3.2$ million in 2005 as compared to $\$ 2.7$ million in 2004. Noninterest expenses for 2005 totaled $\$ 14.6$ million which represents an increase of $\$ 2.3$ million or $19 \%$ over the prior year. The higher operating costs were primarily the result of the full year impact in 2005 of the two branch offices opened in 2004, the new branch office opened in 2005 and increased commission expense.

The following are measurements relating to Bancorp's earnings.

|  | 2005 | 2004 | 2003 |
| :--- | ---: | ---: | ---: |
| Return on average assets | $.33 \%$ | $.26 \%$ | $.46 \%$ |
| Return on average equity | $6.00 \%$ | $4.74 \%$ | $7.09 \%$ |
| Dividend payout ratio | $29.81 \%$ | $35.26 \%$ | $20.54 \%$ |
| Average equity to average assets | $5.46 \%$ | $5.48 \%$ | $6.50 \%$ |
| Basic income per share | $\$ 0.52$ | $\$ 0.38$ | $\$ 0.56$ |
| Diluted income per share | $\$ 0.51$ | $\$ 0.37$ | $\$ 0.55$ |

## Interest income and expense

Bancorp's net interest income derived from the operations of the commercial banking segment increased $\$ 3.2$ million or $28 \%$, to $\$ 14.9$ million in 2005 from $\$ 11.7$ million in 2004. An increase in average earning assets of $\$ 72.0$ million, or $21 \%$, increased Bancorp's interest income $\$ 6.5$ million or $35 \%$ from $\$ 18.7$ million in 2004 to $\$ 25.1$ million in 2005. Average loans outstanding increased $\$ 76.8$ million, or $32 \%$, led by growth in construction and real estate loans, which reflects the continuing strength of the local real estate market. The increase in the yields on investments partially offset by a decrease in the volume of investments resulted in an increase in interest and dividends on investments of $\$ 342,000$. Higher yields on federal funds sold and short
22

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10KSB

term investments partially offset by a decrease in the average balances of both resulted in an increase in interest income of $\$ 127,000$ and $\$ 73,000$, respectively. Total average interest bearing liabilities increased by $\$ 60.4$ million or $20 \%$; average certificates of deposit and NOW accounts increased by $\$ 67.9$ million and $\$ 3.0$ million, respectively; average money market deposits and savings deposits decreased $\$ 2.3$ million and $\$ 1.9$ million, respectively; average FHLB advances and other borrowings decreased $\$ 3.8$ million and $\$ 2.4$ million respectively. Interest expense increased from $\$ 7.0$ million in 2004 to $\$ 10.3$ million in 2005. Interest expense on certificates of deposit increased $\$ 3.1$ million as a result of higher average outstanding balances combined with an increase in the cost of funds for that portfolio from $3.13 \%$ in 2004 to $3.58 \%$ in 2005 . Rising interest rates also contributed to the increase in the interest expense on subordinated debentures of $\$ 148,000$ or $39 \%$ from $\$ 380,000$ in 2004 to $\$ 528,000$ in 2005 resulting in an increase in the cost of the debt from $4.61 \%$ in 2004 to $6.40 \%$ in 2005.

## Provision for loan losses

The provision for loan losses charged to operations for the year ended December 31, 2005 of $\$ 1.1$ million represents an increase of $\$ 554,000$ when compared to the provision of $\$ 556,000$ for the year ended December 31, 2004. This increase is due to the loan growth and the credit risk factors applied against the portfolio and not to any adverse changes in the credit quality of the loan portfolio or in non-performing loans.

An analysis of the changes in the allowance for loan losses is presented under the discussion entitled "Allowance for Loan Losses."

## Noninterest income

Noninterest income increased $\$ 527,000$ or $20 \%$ from $\$ 2.7$ million in 2004 to $\$ 3.2$ million in 2005. An increase in the volume and size of loan transactions resulted in an increase in mortgage brokerage and referral fees of $\$ 386,000$ or $22 \%$ from $\$ 1.7$ million in 2004 to $\$ 2.1$ million in 2005. Increases in deposit accounts and transaction volumes resulted in an increase in fees and service charges of $\$ 97,000$ or $21 \%$ from $\$ 465,000$ for the year ended December 31, 2004 to $\$ 562,000$ for the year ended December 31, 2005. Other noninterest income increased $44 \%$ or $\$ 50,000$ to $\$ 161,000$ for the year ended December 31, 2005 from $\$ 111,000$ for the year ended December 31, 2004; this increase is due mainly to increased fees from debit card transactions and the settlement of an insurance claim. Noninterest income for the Residential Lending Group segment increased $\$ 752,000$ or $37 \%$ from $\$ 2.0$ million for the year ended December 31, 2004 to $\$ 2.8$ million for the year ended December 31, 2005; this increase is due to increases in the loan origination staff, the volume of transactions and the per transaction loan size, as well as to fees earned for commercial real estate and construction transactions referred to the commercial banking segment. Noninterest income for the commercial banking segment decreased $\$ 225,000$ or $33 \%$ from $\$ 682,000$ for the year ended December 31, 2004 to $\$ 457,000$ for the year ended December 31, 2005; increases in fees and service charges and other noninterest income of $\$ 97,000$ and $\$ 50,000$ respectively were more than offset by a decrease in fee income of $\$ 350,000$ due to intersegment transactions for referrals of loans from the Residential Lending Group segment that were booked into the portfolio of the commercial banking segment.
23

## Noninterest expenses

Noninterest expenses increased $\$ 2.3$ million in 2005 from $\$ 12.3$ million in 2004 to $\$ 14.6$ million in 2005. Salaries and benefits increased $\$ 1.5$ million or $19 \%$ in 2005 as compared to 2004, due primarily to staff additions resulting from the full year impact in 2005 of the two branches opened in 2004 and one branch opened in 2005 and higher levels of commissions as a direct result of the increase in the revenue generated by the residential lending group. Higher staffing levels and incentive compensation also resulted in higher payroll taxes, employee benefit costs and the expenses associated with training programs. Occupancy and equipment expenses increased $\$ 375,000$ from $\$ 1.7$ million in 2004 to $\$ 2.1$ million in 2005 ; this increase is due primarily to the full year impact in 2005 of opening two new branch offices in 2004 and of opening one branch in 2005. For the year ended December 31, 2005 data processing and other outside services increased $\$ 345,000$ or $22 \%$ to $\$ 2.1$ million from $\$ 1.7$ million for the year ended December 31, 2004; much of this increase is due to an increase in personnel placement fees, data processing expenses and information technology consulting. The increase in data processing expenses is a result of the growth in the branch network as well as to increases due to ongoing maintenance charges for the implementation of additional products and services. Noninterest expenses for the residential lending group segment of $\$ 3.0$ million represent an increase of $\$ 731,000$ or $33 \%$ as compared to $\$ 2.2$ million for the year ended December 31, 2004; much of this increase is related to increases in commission and production related compensation which relates to the increase in noninterest income for the year. Noninterest expenses for the commercial banking segment of $\$ 11.7$ million represent an increase of $\$ 1.6$ million or $16 \%$ as compared to $\$ 10.0$ million for the year ended December 31, 2004; these increases are due primarily to branch expansion, data processing and other outside services as described earlier.

Management believes that additional branch offices will contribute to the future growth and earnings of Bancorp. While the opening of these new branches will result in increased operating expenses, the openings will be strategically planned to maintain profitable operations.

Management regularly reviews loan and deposit rates and attempts to price Bancorp's products competitively. With the assistance of its investment advisors, Bancorp tracks its mix of asset/liability maturities and strives to maintain a reasonable match. Performance ratios are reviewed monthly by management and the Board and are used to set strategies.

## Income Taxes

The provision for income taxes of $\$ 957,000$ in 2005 and $\$ 633,000$ for 2004 represents the tax expense recognized for both federal and state income tax. The effective tax rate for both 2005 and 2004 was $40.5 \%$.

## LIQUIDITY

Bancorp's liquidity position was $20 \%$ and $33 \%$ at December 31, 2005 and 2004, respectively. The liquidity ratio is defined as the percentage of liquid assets to total assets. The following categories of assets as described in the accompanying balance sheets are considered liquid assets: cash and due from banks, federal funds sold, short-term investments and available-for-sale
24

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10KSB

securities. Liquidity is a measure of Bancorp's ability to generate adequate cash to meet financial obligations. The principal cash requirements of a financial institution are to cover increases in its loan portfolio and downward fluctuations in deposit accounts. Management believes Bancorp's short-term assets have sufficient liquidity to satisfy loan demand, cover potential fluctuations in deposit accounts and to meet other anticipated cash requirements.

## CAPITAL

The following table illustrates Bancorp's regulatory capital ratios for each of the years shown:

|  | December 31, |  |  |
| :--- | ---: | ---: | ---: |
|  | 2005 | 2004 | 2003 |
| Total Risk-Based Capital | $12.70 \%$ | $10.70 \%$ | $11.87 \%$ |
| Tier 1 Risk-Based Capital | $11.45 \%$ | $9.04 \%$ | $10.00 \%$ |
| Leverage Capital | $8.56 \%$ | $6.79 \%$ | $7.51 \%$ |

The following table illustrates the Bank's regulatory capital ratios for each of the years shown:

|  | December 31, |  |  |
| :--- | ---: | ---: | ---: |
|  | 2005 | 2004 | 2003 |
| Total Risk-Based Capital | $12.52 \%$ | $10.50 \%$ | $11.67 \%$ |
| Tier 1 Risk-Based Capital | $11.27 \%$ | $9.29 \%$ | $10.47 \%$ |
| Leverage Capital | $8.42 \%$ | $6.98 \%$ | $7.85 \%$ |

Capital adequacy is one of the most important factors used to determine the safety and soundness of individual banks and the banking system. Based on the above ratios, the Bank is considered to be "well capitalized" under applicable regulations. To be considered "well-capitalized," an institution must generally have a leverage capital ratio of at least $5 \%$, a Tier 1 risk-based capital ratio of at least $6 \%$ and a total risk-based capital ratio of at least $10 \%$.

The increase in capital ratios during 2005 was due primarily to the issuance of additional capital stock combined with the increase in retained earnings and partially offset by the growth of the Bank.

Management continuously assesses the adequacy of the Bank's capital with the goal to maintain its "well capitalized" classification. Management's strategic and capital plans contemplate various alternatives to raise additional capital to support the planned growth of the Bank which plans include the opening of additional branches in 2006.

## MARKET RISK

Market risk is defined as the sensitivity of income to fluctuations in interest rates, foreign exchange rates, equity prices, commodity prices and other market-driven rates or prices. Based upon the nature of Bancorp's business, market risk is primarily limited to interest rate risk, which is the impact that changing interest rates have on current and future earnings.
25

Bancorp's goal is to maximize long term profitability while minimizing its exposure to interest rate fluctuations. The first priority is to structure and price Bancorp's assets and liabilities to maintain an acceptable interest rate spread while reducing the net effect of changes in interest rates. In order to accomplish this, the focus is on maintaining a proper balance between the timing and volume of assets and liabilities re-pricing within the balance sheet. One method of achieving this balance is to originate variable rate loans for the portfolio and purchase short term investments to offset the increasing short term re-pricing of the liability side of the balance sheet. In fact, a number of the interest bearing deposit products have no contractual maturity. Customers may withdraw funds from their accounts at any time and deposit balances may therefore run off unexpectedly due to changing market conditions. Additionally, loans and investments with longer term rate adjustment frequencies are matched against longer term deposits and borrowings to lock in a desirable spread.

The exposure to interest rate risk is monitored by the Management Asset and Liability Committee consisting of senior management personnel. The committee meets on a monthly basis, or more frequently, if needed. The committee reviews the interrelationships within the balance sheet to maximize net interest income within acceptable levels of risk. This committee reports to the Board of Directors on a monthly basis regarding its activities.

The Board Asset and Liability Committee ("ALCO") meets quarterly. ALCO monitors the interest rate risk analyses, reviews investment transactions during the period and determines compliance with Bank policies.

## Impact of Inflation and Changing Prices

Bancorp's financial statements have been prepared in terms of historical dollars, without considering changes in relative purchasing power of money over time due to inflation. Unlike most industrial companies, virtually all of the assets and liabilities of a financial institution are monetary in nature. As a result, interest rates have a more significant impact on a financial institution's performance than the effect of general levels of inflation. Interest rates do not necessarily move in the same direction or in the same magnitude as the prices of goods and services. Notwithstanding this, inflation can directly affect the value of loan collateral, in particular, real estate. Inflation, or disinflation, could significantly affect Bancorp's earnings in future periods.

## "Safe Harbor" Statement Under Private Securities Litigation Reform Act of 1995

Certain statements contained in Bancorp's public reports, including this report, and in particular in this "Management's Discussion and Analysis or Plan of Operation," may be forward looking and subject to a variety of risks and uncertainties. These factors include, but are not limited to, (1) changes in prevailing interest rates which would affect the interest earned on Bancorp's interest earning assets and the interest paid on its interest bearing liabilities, (2) the timing of repricing of Bancorp's interest earning assets and interest bearing liabilities, (3) the effect of changes in governmental monetary policy, (4) the effect of changes in regulations applicable to Bancorp and the Bank and the conduct of its business, (5) changes in competition among financial service companies, including possible further encroachment of non-banks on services
traditionally provided by banks and the impact of federal legislation, (6) the ability of competitors which are larger than Bancorp to provide products and services which it is impracticable for Bancorp to provide, (7) the effect of Bancorp's opening of branches, and (8) the effect of any decision by Bancorp to engage in any business not historically operated by it. Other such factors may be described in Bancorp's other filings with the SEC.

Although Bancorp believes that it offers the loan and deposit products and has the resources needed for continued success, future revenues and interest spreads and yields cannot be reliably predicted. These trends may cause Bancorp to adjust its operations in the future. Because of the foregoing and other factors, recent trends should not be considered reliable indicators of future financial results or stock prices.

## Item 7. Financial Statements

The consolidated balance sheets of Bancorp as of December 31, 2005 and December 31, 2004 and the related consolidated statements of income, shareholders' equity and cash flows for the years ended December 31, 2005 and December 31, 2004, together with the report thereon of McGladrey \& Pullen, LLP dated March 8, 2006, are included as part of this Form 10-KSB in the "Financial Report" following page 33 hereof.

## Item 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Not applicable.

## Item 8A. Controls and Procedures

Based on an evaluation of the effectiveness of Bancorp's disclosure controls and procedures performed by Bancorp's management, with the participation of Bancorp's Chief Executive Officer and its Chief Financial Officer as of the end of the period covered by this report, Bancorp's Chief Executive Officer and Chief Financial Officer concluded that Bancorp's disclosure controls and procedures have been effective.

As used herein, "disclosure controls and procedures" mean controls and other procedures of Bancorp that are designed to ensure that information required to be disclosed by Bancorp in the reports that it files or submits under the Securities Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by Bancorp in the reports that it files or submits under the Securities Exchange Act is accumulated and communicated to Bancorp's management, including its principal executive, and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in Bancorp's internal control over financial reporting identified in connection with the evaluation described in the preceding paragraph that occurred during
27

Bancorp's fiscal year ended December 31, 2005 that has materially affected, or is reasonably likely to materially affect, Bancorp's internal control over financial reporting.

Item 8B. Other Information
Not applicable

## PART III

## Item 9. Directors and Executive Officers of the Registrant

The information required by Items 401 and 405 of Regulation S-B is incorporated into this Form 10-KSB by reference to Bancorp's definitive proxy statement (the "Definitive Proxy Statement") for its 2006 Annual Meeting of Shareholders, to be filed within 120 days following December 31, 2005.

The Company has adopted a Code of Ethics for its senior financial officers. The information required by Item 406 is contained in Exhibit 14 to this Form $10-\mathrm{KSB}$. A copy of this Code of Ethics will be provided to any person so requesting by writing to Patriot National Bancorp, Inc., 900 Bedford Street, Stamford, Connecticut 06901, Attn: Robert F. O'Connell, Chief Financial Officer.

## Item 10. Executive Compensation

The information required by Item 402 of Regulation S-B is incorporated into this Form 10-KSB by reference to the Definitive Proxy Statement.

## Item 11. Security Ownership of Certain Beneficial Owners and Management

The information required by Item 201(d) and Item 403 of Regulation S-B is incorporated into this Form 10-KSB by reference to the Definitive Proxy Statement.

## Item 12. Certain Relationships and Related Transactions

The information required by Item 404 of Regulation S-B is incorporated into this Form 10-KSB by reference to the Definitive Proxy Statement.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors
Patriot National Bancorp, Inc. and Subsidiary
Stamford, Connecticut

We have audited the accompanying consolidated balance sheets of Patriot National Bancorp, Inc. and Subsidiary (the "Company") as of December 31, 2005 and 2004, and the related consolidated statements of income, shareholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Patriot National Bancorp, Inc. and Subsidiary as of December 31, 2005 and 2004, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

# PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY 

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2005 and 2004

## Note 1. Nature of Operations and Summary of Significant Accounting Policies

Patriot National Bancorp, Inc. (the "Company"), a Connecticut corporation, is a bank holding company that was organized in 1999. On December 1, 1999, all the issued and outstanding shares of Patriot National Bank (the "Bank") were converted into Company common stock and the Bank became a wholly owned subsidiary of the Company. The Bank is a nationally chartered commercial bank whose deposits are insured under the Bank Insurance Fund, which is administered by the Federal Deposit Insurance Corporation. The Bank provides a full range of banking services to commercial and consumer customers through its main office in Stamford, Connecticut, and nine branch offices in Fairfield County, Connecticut. The Bank's customers are concentrated in Fairfield County, Connecticut and Westchester County, New York. The Bank also conducts mortgage brokerage operations through offices in Connecticut and New York through its Residential Lending Group.

On March 11, 2003, the Company formed Patriot National Statutory Trust I (the "Trust") for the purpose of issuing trust preferred securities and investing the proceeds in subordinated debentures issued by the Company, and on March 26, 2003, the first series of trust preferred securities were issued. In accordance with FASB Interpretation No. 46R, "Consolidation of Variable Interest Entities," ("FIN 46R") the Trust is not included in the Company's consolidated financial statement.

The following is a summary of the Company's significant accounting policies:

## Significant group concentrations of credit risk

Most of the Company's activities are with customers located within Fairfield County, Connecticut and Westchester County, New York. Note 3 discusses the types of securities in which the Company invests. Note 4 discusses the types of lending in which the Company engages. The Company does not have any significant concentrations to any one industry or customer.

## Principles of consolidation and basis of financial statement presentation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, the Bank, and the Bank's wholly owned subsidiary, PinPat Acquisition Corporation (currently inactive); and have been prepared in accordance with accounting principles generally accepted in the United States of America and general practices within the banking industry. All significant intercompany balances and transactions have been eliminated. In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities, as of the balance sheet date and reported amounts of revenues and expenses for the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses and the evaluation of goodwill for impairment.

# PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY 

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, Continued
December 31, 2005 and 2004

## Cash and cash equivalents

Cash and due from banks, Federal funds sold and short-term investments are recognized as cash equivalents in the consolidated financial statements. Federal funds sold generally mature in one day. For purposes of reporting cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. Cash flows from loans and deposits are reported net. The Company maintains amounts due from banks and Federal funds sold which, at times, may exceed Federally insured limits. The Company has not experienced any losses from such concentrations. The short-term investment represents an investment in a money market mutual fund of a single issuer.

## Investments in debt and marketable equity securities

Management determines the appropriate classification of securities at the date individual investment securities are acquired, and the appropriateness of such classification is reassessed at each balance sheet date.

Debt securities, if any, that management has the positive intent and ability to hold to maturity are classified as "held to maturity" and are recorded at amortized cost. "Trading" securities, if any, are carried at fair value with unrealized gains and losses recognized in earnings. Securities not classified as held to maturity or trading, including equity securities with readily determinable fair values, are classified as "available for sale" and recorded at fair value, with unrealized gains and losses excluded from earnings and reported in other comprehensive income, net of taxes.

Purchase premiums and discounts are recognized in interest income using the interest method over the lives of the securities. Declines in the fair value of available for sale and held to maturity securities below their cost that are deemed to be other than temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method.

The sale of a held to maturity security within three months of its maturity date or after collection of at least $85 \%$ of the principal outstanding at the time the security was acquired is considered a maturity for purposes of classification and disclosure.

## Loans held for sale

Loans held for sale are those loans the Company has the intent to sell in the foreseeable future, and are carried at the lower of aggregate cost or market value. Gains and losses on sales of loans are recognized at the trade dates, and are determined by the difference between the sales proceeds and the carrying value of the loans. Loans are sold with servicing released.
8

# PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY 

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, Continued
December 31, 2005 and 2004

## Loans receivable

Loans receivable are stated at their current unpaid principal balances and are net of the allowance for loan losses, net deferred loan origination fees and purchased loan premiums and discounts. The Company has the ability and intent to hold its loans for the foreseeable future or until maturity or payoff.

Management considers all nonaccrual loans and restructured loans to be impaired. In most cases, loan payments that are past due less than 90 days, based on contractual terms, are considered minor collection delays, and the related loans are not considered to be impaired. The Company considers consumer installment loans to be pools of smaller balance homogeneous loans, which are collectively evaluated for impairment.

A loan is classified as a restructured loan when certain concessions have been made to the original contractual terms, such as reductions in interest rates or deferral of interest or principal payments, due to the borrower's financial condition.

Impaired loans are measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or, as a practical expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent. The amount of impairment, if any, and any subsequent changes are recorded as adjustments to the allowance for loan losses. A loan is impaired when it is probable the Company will be unable to collect all contractual principal and interest payments due in accordance with the terms of the loan agreement.

## Allowance for loan losses

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The allowance consists of specific, general and unallocated components. The specific component relates to loans that are considered impaired. For impaired loans, an allowance is established when the discounted cash flows (or collateral value or observable market price) of the impaired loan is lower than the carrying value of that loan. A risk rating system is utilized to measure the general component of the allowance for loan losses. Under this system, each loan is assigned a risk rating between one and nine, which has a corresponding loan loss factor assigned, with a rating of "one" being the least risk and a rating
9

# PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY 

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, Continued
December 31, 2005 and 2004
of "nine" reflecting the most risk or a complete loss. Risk ratings are assigned based upon the recommendations of the credit analyst and the originating loan officer and confirmed by the loan committee at the initiation of the transactions and are reviewed and changed, when necessary, during the life of the loan. Loan loss reserve factors are multiplied against the balances in each risk rating category to arrive at the appropriate level for the allowance for loan losses. Loans assigned a risk rating of "six" or above are monitored more closely by the credit administration officers and loan committee.

The unallocated portion of the allowance reflects management's estimate of probable but undetected losses inherent in the portfolio; such estimates are influenced by uncertainties in economic conditions, delays in obtaining information, including unfavorable information about a borrower's financial condition, difficulty in identifying triggering events that correlate perfectly to subsequent loss rates, and risk factors that have not yet manifested themselves in loss allocation factors.

The Company's real estate loans are collateralized by real estate located principally in Fairfield County, Connecticut and Westchester County, New York, and accordingly, the ultimate collectibility of a substantial portion of the Company's loan portfolio is susceptible to changes in regional real estate market conditions.

## Interest and fees on loans

Interest on loans is accrued and included in operating income based on contractual rates applied to principal amounts outstanding. The accrual of interest income is discontinued whenever reasonable doubt exists as to its collectibility and generally is discontinued when loans are past due 90 days, based on contractual terms, as to either principal or interest. When the accrual of interest income is discontinued, all previously accrued and uncollected interest is reversed against interest income. The accrual of interest on loans past due 90 days or more, including impaired loans, may be continued if the loan is well secured, and it is believed all principal and accrued interest income due on the loan will be realized, and the loan is in the process of collection. A nonaccrual loan is restored to an accrual status when it is no longer delinquent and collectibility of interest and principal is no longer in doubt. Interest collected on nonaccrual loans and impaired loans is recognized only to the extent cash payments are received, and may be recorded as a reduction to principal if the collectibility of all loan principal is unlikely.

Loan origination fees and direct loan origination costs are deferred and amortized as an adjustment to the loan's yield, generally over the contractual life of the loan, utilizing the interest method.

## Loan brokerage activities

The Company receives loan brokerage fees for soliciting and processing conventional loan applications on behalf of permanent investors. Brokerage fee income is recognized upon closing of loans for permanent investors.

## Transfers of financial assets

Transfers of financial assets are accounted for as sales, when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been isolated from the Company, (2) the transferee obtains the right to pledge or exchange the transferred

# PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY 

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, Continued
December 31, 2005 and 2004
assets and no condition both constrains the transferee from taking advantage of that right and provides more than a trivial benefit for the transferor, and (3) the transferor does not maintain effective control over the transferred assets through either (a) an agreement that both entitles and obligates the transferor to repurchase or redeem the assets before maturity or (b) the ability to unilaterally cause the holder to return specific assets, other than through a cleanup call.

## Other real estate owned

Other real estate owned, if any, consists of properties acquired through, or in lieu of, loan foreclosure or other proceedings and is initially recorded at fair value at the date of foreclosure, which establishes a new cost basis. After foreclosure, the properties are held for sale and are carried at the lower of cost or fair value less estimated costs of disposal. Any write-down to fair value at the time of acquisition is charged to the allowance for loan losses. Properties are evaluated regularly to ensure the recorded amounts are supported by current fair values, and valuation allowances are recorded as necessary to reduce the carrying amount to fair value less estimated cost of disposal. Revenue and expense from the operation of other real estate owned and valuation allowances are included in operations. Costs relating to the development and improvement of the property are capitalized, subject to the limit of fair value of the collateral. Gains or losses are included in operations upon disposal.

## Premises and equipment

Premises and equipment are stated at cost for purchased assets, and at the lower of fair value or the net present value of the minimum lease payments required over the term of the lease for assets under capital leases, net of accumulated depreciation and amortization. Leasehold improvements are capitalized and amortized over the shorter of the terms of the related leases or the estimated economic lives of the improvements. Depreciation is charged to operations using the straight-line method over the estimated useful lives of the related assets which range from three to ten years. Amortization of premises under capital leases is charged to operations using the straight-line method over the life of the lease. Gains and losses on dispositions are recognized upon realization. Maintenance and repairs are expensed as incurred and improvements are capitalized.

## Impairment of assets

Long-lived assets, which are held and used by the Company, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If impairment is indicated by that review, the asset is written down to its estimated fair value through a charge to noninterest expense.

## Goodwill

Goodwill represents the cost in excess of net assets of businesses acquired and is tested for impairment annually, or more frequently under prescribed conditions.

# PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY 

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, Continued
December 31, 2005 and 2004

## Income taxes

The Company recognizes income taxes under the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

## Related party transactions

Directors and officers of the Company and the Bank and their affiliates have been customers of and have had transactions with the Bank, and it is expected that such persons will continue to have such transactions in the future. Management believes that all deposit accounts, loans, services and commitments comprising such transactions were made in the ordinary course of business, and on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other customers who are not directors or officers. In the opinion of management, the transactions with related parties did not involve more than normal risks of collectibility or favored treatment or terms, or present other unfavorable features. Note 15 contains details regarding related party transactions.

## Earnings per share

Basic earnings per share represents income available to common stockholders and is computed by dividing net income by the weighted-average number of common shares outstanding. Diluted earnings per share reflects additional common shares that would have been outstanding if potential dilutive common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the Company relate to outstanding stock options and warrants, and are determined using the treasury stock method.

## Stock compensation plans

Statement of Financial Accounting Standards (SFAS) No. 123, "Accounting for Stock-Based Compensation," encourages all entities to adopt a fair value based method of accounting for employee stock compensation plans, whereby compensation cost is measured at the grant date based on the value of the award and is recognized over the service period, which is usually the vesting period. However, it also allows an entity to continue to measure compensation cost for those plans using the intrinsic value based method of accounting prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," whereby compensation cost is the excess, if any, of the quoted market price of the stock at the grant date (or other measurement date) over the amount an employee must pay to acquire the stock. Stock options issued under the Company's stock option plan, and stock warrants issued, have no intrinsic value at the grant date, and under Opinion No. 25 no compensation cost is recognized for
12

# PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY 

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, Continued
December 31, 2005 and 2004
them. The Company has elected to continue with the accounting methodology in Opinion No. 25 and, as a result, provides pro forma disclosures of net income and earnings per share and other disclosures, as if the fair value based method of accounting had been applied. There is no proforma disclosure required for 2005 and 2004, because no compensation cost related to stock options and warrants was attributed to those periods. See "Recent Accounting Pronouncements" below for developments regarding accounting for stock compensation plans.

## Comprehensive income

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Although certain changes in assets and liabilities, such as unrealized gains and losses on available for sale securities, are reported as a separate component of the shareholders' equity section of the consolidated balance sheets, such items, along with net income, are components of comprehensive income.

## Fair values of financial instruments

The following methods and assumptions were used by the Company in estimating the fair value of its financial instruments:

## Cash and due from banks, federal funds sold, short-term investments and accrued interest and dividends receivable

The carrying amount is a reasonable estimate of fair value.

## Securities

Fair values, excluding restricted Federal Reserve Bank stock and Federal Home Loan Bank stock, are based on quoted market prices or dealer quotes, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities. The carrying values of the Federal Reserve Bank stock and Federal Home Loan Bank stock approximate fair value based on the redemption provisions of the related stock.

## Loans receivable

For variable rate loans which reprice frequently, and have no significant changes in credit risk, fair value is based on the loans' carrying value. The fair value of fixed rate loans is estimated by discounting the future cash flows using the year end rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities.

## Deposits

The fair value of demand deposits, regular savings and certain money market deposits is the amount payable on demand at the reporting date. The fair value of certificates of deposit and other time deposits is estimated using a discounted cash flow calculation that applies interest rates currently being offered for deposits of similar remaining maturities to a schedule of aggregated expected maturities on such deposits.

# PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY 

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, Continued
December 31, 2005 and 2004

## Borrowings

For variable rate borrowings which reprice frequently, and short-term borrowings, fair value is based on carrying value. The fair value of fixed rate borrowings is estimated by discounting the future cash flows using current interest rates for similar available borrowings with the same remaining maturities.

## Off-balance-sheet instruments

Fair values for the Company's off-balance-sheet instruments (lending commitments and standby letters of credit) are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing.

## Recent accounting pronouncements

In December 2003, the Accounting Standards Executive Committee of the AICPA issued Statement of Position No. 03-3 ("SOP 03-3"), "Accounting for Certain Loans or Debt Securities Acquired in a Transfer." SOP 03-3 addresses the accounting for differences between contractual cash flows and the cash flows expected to be collected from purchased loans or debt securities if those differences are attributable, in part, to credit quality. SOP 03-3 requires purchased loans and debt securities to be recorded initially at fair value based on the present value of the cash flows expected to be collected with no carryover of any valuation allowance previously recognized by the seller. Interest income should be recognized based on the effective yield from the cash flows expected to be collected. To the extent that the purchased loans or debt securities experience subsequent deterioration in credit quality, a valuation allowance would be established for any additional cash flows that are not expected to be received. However, if subsequently more cash flows are expected to be received than originally estimated, the effective yield would be adjusted on a prospective basis. SOP 03-3 was effective for loans and debt securities acquired after December 31, 2004. This Statement had no impact on the Company's financial statements.

On September 30, 2004, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position ("FSP") Emerging Issues Task Force ("EITF") Issue No. 03-1-1 delaying the effective date of paragraphs 10-20 of EITF 03-1, "The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments," which provides guidance for determining the meaning of "other-than-temporarily impaired" and its application to certain debt and equity securities within the scope of SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities," and investments accounted for under the cost method. The guidance requires that investments which have declined in value due to credit concerns or solely due to changes in interest rates must be recorded as other-than-temporarily impaired unless the Company can assert and demonstrate its intention to hold the security for a period of time sufficient to allow for a recovery of fair value up to or beyond the cost of the investment which might mean maturity. The delay of the effective date of EITF 03-1 was superseded by the issuance on November 3, 2005 of FSP 115-1, "The Meaning of Other-Than-Temporarily Impaired and Its Application to Certain Investments." This FSP nullified paragraphs 10-18 of EITF 03-1, carried forward certain requirements of EITF 03-1 relating to cost method investments, carried forward certain disclosure requirements of EITF 03-1 and references existing
14

# PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY 

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, Continued
December 31, 2005 and 2004
other-than-temporary impairment guidance. The requirements of this FSP had no effect on the Company's financial statements.

In December 2004, the FASB published FASB Statement No. 123 (revised 2004), "Share-Based Payment" ("SFAS 123(R)"). SFAS 123(R) requires that the compensation cost relating to share-based payment transactions, including grants of employee stock options, be recognized in financial statements. That cost will be measured based on the fair value of the equity or liability instruments issued. SFAS $123(\mathrm{R})$ covers a wide range of share-based compensation arrangements including stock options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. SFAS $123(\mathrm{R})$ is a replacement of FASB Statement No. 123, "Accounting for Stock-Based Compensation," and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees," and its related interpretive guidance (APB 25).

The effect of SFAS 123(R) will be to require entities to measure the cost of employee services received in exchange for shared-based payments using the grant-date fair value of the award, and to recognize the cost over the period the employee is required to provide services for the award. SFAS 123(R) permits entities to use any option-pricing model that meets the fair value objective in the Statement.

The Company will be required to apply SFAS $123(\mathrm{R})$ as of the beginning of its first interim period that begins after December 15, 2005, which will be the quarter ending March 31, 2006.

SFAS 123(R) allows two methods for determining the effects of the transition: the modified prospective transition method and the modified retrospective method of transition. Under the modified prospective transition method, an entity would use the fair value based accounting method for all employee awards granted, modified, or settled after the effective date. As of the effective date, compensation cost related to the non-vested portion of awards outstanding as of that date would be based on the grant-date fair value of those awards as calculated under the original provisions of Statement No. 123; that is, an entity would not remeasure the grant-date fair value estimate of the unvested portion of awards granted prior to the effective date. An entity will have the further option to either apply SFAS 123(R) to all quarters in the fiscal year of adoption. Under the modified retrospective method of transition, an entity would revise its previously issued financial statements to recognize employee compensation cost for prior periods presented in accordance with the original provisions of Statement No. 123. The Company will adopt the modified transition method effective January 1, 2006. The adoption of this Statement will have no effect on the Company's financial statements as there are no unvested share-based awards at January 1, 2006.

In May 2005, the FASB issued Statement of Financial Accounting Standards No. 154 ("SFAS 154"), "Accounting Changes and Error Corrections," replacing APB Opinion No. 20 and FASB Statement No. 3, which changes the treatment and reporting requirements for both accounting errors and changes of accounting principles, and provides guidance on determining the treatment of the retrospective application of a change. This Statement applies to all voluntary changes in accounting principles. At this time, management believes this Statement will have no impact on the Company's financial statements.
15

## PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, Continued
December 31, 2005 and 2004

Note 2. Restrictions on Cash and Due From Banks
The Company is required to maintain reserves against its respective transaction accounts and non-personal time deposits. At December 31, 2005 and 2004, the Bank was required to have cash and liquid assets of approximately $\$ 3,566,000$ and $\$ 2,820,000$, respectively, to meet these requirements. In addition, at December 31, 2005 and 2004, the Company was required to maintain $\$ 25,000$ in the Federal Reserve Bank for clearing purposes.

Note 3. Available for Sale Securities
The amortized cost, gross unrealized gains, gross unrealized losses and approximate fair values of available for sale securities at December 31, 2005 and 2004 are as follows:

## PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, Continued
December 31, 2005 and 2004

The following table presents the Company's available for sale securities' gross unrealized losses and fair value, aggregated by the length of time the individual securities have been in a continuous loss position, at December 31, 2005 and 2004:

| 2005 L | Less Than 12 Months |  |  | 12 Months or More |  |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Fair Value |  | ealized Loss | Fair <br> Value |  | realized <br> Loss | Fair Value | Unrealized Loss |
| U.S. Government agency and |  |  |  |  |  |  |  |  |
| sponsored agency |  |  |  |  |  |  |  |  |
| obligations | \$ | 1,985,625 | \$ (13,716) | \$ 14,491,059 | \$ | $(508,941)$ | \$ 16,476,684 | $(522,657)$ |
| Mortgage-backed securities |  | 27,846,559 | $(459,646)$ | 25,315,920 |  | $(800,914)$ | 53,162,479 | $(1,260,560)$ |
| Totals |  | 29,832,184 | \$ (473,362) | \$ 39,806,979 |  | $(1,309,855)$ | \$ 69,639,163 | \$ (1,783,217) |

At December 31, 2005, forty-three securities have unrealized losses with aggregate depreciation of $2.5 \%$ from the Company's amortized cost. There were no securities with unrealized losses greater than $5 \%$ of amortized cost.

Management believes that none of the unrealized losses on available for sale securities are other than temporary due to the fact that they relate to debt and mortgage-backed securities issued by U.S. Government agencies and Government sponsored agencies, which the Company has both the intent and ability to hold until maturity or until the fair value fully recovers. Additionally, management considers the issuers of the securities to be financially sound, and expects to receive all contractual principal and interest related to these investments.

At December 31, 2005 and 2004, available for sale securities with a carrying value of $\$ 1,486,000$ and $\$ 1,280,000$, respectively, were pledged to secure obligations under municipal deposits.

The amortized cost and fair value of available for sale debt securities at December 31, 2005 by contractual maturity are presented below. Actual maturities of mortgage-backed securities may differ from contractual maturities because the mortgages underlying the securities may be called or repaid without any penalties. Because mortgage-backed securities are not due at a single maturity date, they are not included in the maturity categories in the following maturity summary.
17

|  | $\mathbf{2 0 0 5}$ | 2004 |  |  |
| :--- | ---: | ---: | ---: | ---: |
| Real estate: | $\$$ | $\mathbf{1 2 9 , 1 7 8 , 8 8 9}$ | $\$$ | $106,771,441$ |
| Commercial |  | $\mathbf{7 7 , 3 9 1 , 8 3 3}$ | $36,965,661$ |  |
| Residential | $\mathbf{1 0 7 , 2 3 2 , 5 8 7}$ | $74,598,919$ |  |  |
| Construction | $\mathbf{1 5 , 5 9 1 , 8 1 8}$ | $17,562,523$ |  |  |
| Commercial | $\mathbf{1 , 1 0 6 , 6 4 8}$ | $1,386,709$ |  |  |
| Consumer installment | $\mathbf{3 9 , 0 9 7 , 4 5 0}$ | $30,874,894$ |  |  |
| Consumer home equity | $\mathbf{3 6 9 , 5 9 9 , 2 2 5}$ | $268,160,147$ |  |  |
| Total loans | $\mathbf{3 6 7 , 4 9 1}$ | 313,754 |  |  |
| Premiums on purchased loans | $\mathbf{( 1 , 1 3 4 , 6 0 4 )}$ | $(1,117,556)$ |  |  |
| Net deferred loan fees |  | $\mathbf{( 4 , 5 8 8 , 3 3 5})$ | $(3,481,525)$ |  |
| Allowance for loan losses | $\$$ | $\mathbf{3 6 4 , 2 4 3 , 7 7 7}$ | $\$$ | $263,874,820$ |

The changes in the allowance for loan losses for the years ended December 31, 2005 and 2004 are as follows:
20052004

| Balance, beginning of year | $\$$ | $\mathbf{3 , 4 8 1 , 5 2 5}$ | $\$$ | $2,934,675$ |
| :--- | ---: | ---: | ---: | ---: |
| Provision for loan losses |  | $\mathbf{1 , 1 1 0 , 0 0 0}$ | 556,000 |  |
| Recoveries of loans previously charged-off |  | $\mathbf{-}$ | $(\mathbf{3 , 1 9 0}$ | $(9,150)$ |
| Loans charged-off | $\$$ | $\mathbf{4 , 5 8 8 , 3 3 5}$ | $\$$ | $3,481,525$ |
| Balance, end of year |  |  |  |  |

At December 31, 2005 and 2004, the unpaid principal balances of loans delinquent 90 days or more were $\$ 274,622$ and $\$ 522,751$, respectively, and the unpaid principal balances of loans placed on nonaccrual status were $\$ 1,934,614$ and $\$ 3,669,148$, respectively. If nonaccrual loans had been performing in 18

December 31, 2005 and 2004
accordance with their original terms, the Company would have recorded approximately $\$ 6,000$ and $\$ 18,000$, respectively, of additional income during the years ended December 31, 2005 and 2004.

The following information relates to impaired loans as of and for the years ended December 31, 2005 and 2004:

|  |  | 2005 |  | 2004 |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Loans receivable for which there is a related allowance for <br> credit losses | $\$$ |  | - | $\$$ | 150,000 |
| Loans receivable for which there is no related allowance for <br> credit losses | $\$$ | $1,934,614$ | $\$$ | $3,519,148$ |  |
| Allowance for credit losses related to impaired loans | $\$$ |  | - | $\$$ | 22,500 |
| Average recorded investment in impaired loans | $\$$ | $2,668,531$ | $\$$ | $2,990,191$ |  |

During 2005 and 2004, interest income collected and recognized on impaired loans was $\$ 223,261$ and $\$ 184,565$, respectively. The Company has no commitments to lend additional funds to borrowers whose loans are impaired.

The Company's lending activities are conducted principally in Fairfield County, Connecticut and Westchester County, New York. The Company grants commercial real estate loans, commercial business loans and a variety of consumer loans. In addition, the Company grants loans for the construction of residential homes, residential developments and for land development projects. All residential and commercial mortgage loans are collateralized by first or second mortgages on real estate. The ability and willingness of borrowers to satisfy their loan obligations is dependent in large part upon the status of the regional economy and regional real estate market. Accordingly, the ultimate collectibility of a substantial portion of the loan portfolio and the recovery of a substantial portion of any resulting real estate acquired is susceptible to changes in market conditions.

The Company has established credit policies applicable to each type of lending activity in which it engages, evaluates the creditworthiness of each customer and, in most cases, extends credit of up to $75 \%$ of the market value of the collateral at the date of the credit extension depending on the Company's evaluation of the borrowers' creditworthiness and type of collateral. The market value of collateral is monitored on an ongoing basis and additional collateral is obtained when warranted. Real estate is the primary form of collateral. Other important forms of collateral are accounts receivable, inventory, other business assets, marketable securities and time deposits. While collateral provides assurance as a secondary source of repayment, the Company ordinarily requires the primary source of repayment to be based on the borrower's ability to generate continuing cash flows.
