## RISK FACTORS

*You should carefully consider the risks described below and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2009, each of which is incorporated by reference into this prospectus supplement, before making a decision to invest in our notes. The risks and uncertainties described below and in the documents incorporated by reference are not the only ones facing our company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also materially adversely affect our business and operations.*

*If any of the matters included in the following risks were to occur, our business, financial condition, results of operations, cash flows or prospects could be materially adversely affected. In such case, you may lose all or part of your original investment.*

### **Our outstanding debt may impair our financial and operating flexibility.**

As of September 30, 2009, after giving effect to this offering and the anticipated use of the net proceeds therefrom and assuming the tender of all the notes in our concurrent tender offer (as if all of the foregoing had occurred on that date), we would have had approximately \$3.2 billion of debt outstanding, with \$750 million of available capacity under our senior unsecured revolving credit facility and \$400 million of available capacity under our secured receivables credit facility which matures on December 11, 2009. Except for outstanding letters of credit, bank guarantees and operating leases, we do not have any off-balance sheet financing arrangements in place or available. See Note 9 to our Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2008 and Note 5 to our Interim Consolidated Financial Statements in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2009 for further details related to our outstanding debt. See Note 4 to our Interim Consolidated Financial Statements in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2009 for further details related to our use of derivative financial instruments to manage our exposure to market risks for changes in interest rates and foreign currency. Our debt agreements contain various restrictive covenants. These restrictions could limit our ability to use operating cash flow in other areas of our business because we must use a portion of these funds to make principal and interest payments on our debt.

Our debt portfolio is sensitive to changes in interest rates. As of September 30, 2009, after giving effect to this offering and the anticipated use of the net proceeds therefrom and assuming the tender of all the notes in our concurrent tender offer (as if all the foregoing had occurred on that date) we would have had approximately \$1.2 billion of floating rate debt. In addition, any future borrowings by us under our senior unsecured revolving credit facility, the secured receivables credit facility or the issuance of other floating rate debt will expose us to additional interest rate risk. Interest on our secured receivables credit facility is based on rates that are intended to approximate commercial paper rates for highly-rated issuers. Interest rates on our senior unsecured revolving credit facility and term loan are also subject to a pricing schedule that fluctuates based on changes in our credit rating.

We have obtained ratings on our debt from Standard & Poor's Rating Services, Moody's Investors Service, Inc. and Fitch Ratings. There can be no assurance that any rating so assigned will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by a rating agency if in that rating agency's judgment future circumstances relating to the basis of the rating, such as adverse changes in our company or our industry, so warrant. If such ratings are lowered, the borrowing costs on our senior unsecured revolving credit facility, secured receivables facility and term loan would increase. Changes in our credit ratings, however, do not require repayment or acceleration of any of our debt.

We or our subsidiaries may incur additional indebtedness in the future. The notes offered hereby do not limit our or our subsidiary guarantors' ability to incur unsecured indebtedness. Our ability to make principal and interest payments will depend on our ability to generate cash in the future. If we incur additional debt, a greater portion of our cash flows may be needed to satisfy our debt service obligations and if we do not generate sufficient cash to meet our debt

service requirements, we may need to seek additional financing. In this case, it may be more difficult, or we may be unable, to obtain financing on terms that are acceptable to us. As a result, we would be more vulnerable to general adverse economic, industry and capital markets conditions as well as the other risks associated with indebtedness.

**Federal and state laws permit a court to void a guarantee issued by any of our subsidiaries if the court finds the guarantee to constitute a fraudulent conveyance.**

Our obligations under the notes are guaranteed by our subsidiaries to the extent described in this prospectus supplement. These guarantees are subject to various federal and state fraudulent conveyance laws enacted for the protection of creditors.

The issuance of a guarantee by any of our subsidiaries will constitute a fraudulent conveyance if:

the guarantee  
was incurred  
by the  
subsidiary  
with the  
intent to  
hinder, delay  
or defraud  
any present or  
future  
creditor; or

the subsidiary  
did not  
receive fair  
consideration  
for issuing the  
guarantee and  
such  
subsidiary (1)  
was insolvent  
or rendered  
insolvent by  
reason of the  
issuance of  
the guarantee,  
(2) was  
engaged or  
about to  
engage in a  
business or  
transaction  
for which the  
remaining  
assets of the  
subsidiary  
constituted  
unreasonably  
small capital  
to carry on its  
business or

(3) intended to incur debts beyond its ability to pay such debts as they matured.

Generally, an entity will be considered insolvent if:

the sum of its debts is greater than the fair value of its property;

the present fair value of its assets is less than the amount that it will be required to pay on its existing debts as they become due; or

it cannot pay its debts as they become due.

If a court finds a guarantee issued by a subsidiary of ours to constitute a fraudulent conveyance, the court could give a lower priority to, or subordinate, the claims of the notes against this subsidiary to the claims of other creditors of this subsidiary. In addition, a court could void all or part of the guarantee. To the extent the guarantee issued by a subsidiary of ours was voided as a fraudulent conveyance, the holders of our notes guaranteed by our subsidiary guarantors would cease to have any claim against the subsidiary and would be creditors solely of Quest Diagnostics and any other subsidiary guarantor that was not found to have made a fraudulent conveyance. Furthermore, a court may be more likely to find that guarantees issued by subsidiaries after the date the notes are issued constitute a fraudulent conveyance. See [Description of Notes Guarantees](#).

**Secured indebtedness and existing and future obligations of our subsidiaries that are not guarantors, including the issuance of preferred stock, will be effectively senior to the notes.**

The notes and the guarantees are senior unsecured obligations and therefore will be effectively subordinated to any of our or our subsidiary guarantors' secured obligations to the extent of the value of the assets securing such obligations. The indenture does not limit the amount of indebtedness that we and any of our subsidiary guarantors can incur, but does limit the amount of indebtedness our non-guarantor subsidiaries are permitted to incur (as described below). In addition, the indenture limits the amount of secured indebtedness pursuant to the covenant described under the heading "Description of Notes - Limitation on Liens." This covenant is subject to important exceptions described under such heading. As of September 30, 2009, after giving effect to this offering and the anticipated use of the net proceeds therefrom and assuming the tender of all the notes in our concurrent tender offer (as if all of the foregoing had occurred on that date), we and our subsidiary guarantors would have had outstanding \$7 million of secured debt.

We conduct our operations through subsidiaries, which generate a substantial portion of our operating income and cash flow. As a result, distributions or advances from our subsidiaries are a major source of funds necessary to meet our debt service and other obligations. Contractual provisions, laws or regulations, as well as any subsidiary's condition and operating requirements, may limit our ability to obtain cash required to pay our debt service and other obligations. The notes will be structurally subordinated to all existing and future obligations of our non-guarantor subsidiaries, including claims with respect to trade payables. In addition, the guarantees of our subsidiary guarantors will be structurally subordinated to all existing and future obligations of any non-guarantor subsidiary of Quest Diagnostics or a subsidiary guarantor, including claims with respect to trade payables. This means that holders of our notes as guaranteed by our subsidiary guarantors will have a junior position with respect to such obligations of our direct and indirect subsidiaries that are not subsidiary guarantors on the assets and earnings of such

subsidiaries. As of September 30, 2009, after giving effect to this offering and the anticipated use of the net proceeds therefrom and assuming the tender of all the notes in our concurrent tender offer (as if all of the foregoing had occurred on that date), our subsidiaries that are not guarantors would have had debt outstanding of \$114 million, of which \$100 million was incurred under our secured receivables credit facility.

Our non-guarantor subsidiaries are limited in the amount of indebtedness they are permitted to incur pursuant to the covenant described under **Description of Notes Limitation on Subsidiary Indebtedness and Preferred Stock**. This covenant is subject to important exceptions described under such heading. In addition, the guarantees of our subsidiary guarantors may be released in certain circumstances, which are described under the heading **Description of Notes Guarantees** or may be avoided or subordinated in favor of the subsidiary guarantors' other creditors as described in this prospectus supplement under the heading **Federal and state laws permit a court to void a guarantee issued by any of our subsidiaries if the court finds the guarantee to constitute a fraudulent conveyance**.

**CAUTIONARY STATEMENT FOR PURPOSES OF THE SAFE HARBOR  
PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995**

Some statements and disclosures in this prospectus supplement, or any accompanying prospectus and the documents incorporated herein or therein by reference are forward-looking statements. Forward-looking statements include all statements that do not relate solely to historical or current facts and can be identified by the use of words such as may, believe, will, expect, project, estimate, anticipate, plan or continue. These forward-looking statements are based on our current plans and expectations and are subject to a number of risks and uncertainties that could significantly cause our plans and expectations, including actual results, to differ materially from the forward-looking statements. The Private Securities Litigation Reform Act of 1995, or the Litigation Reform Act, provides a safe harbor for forward-looking statements to encourage companies to provide prospective information about their companies without fear of litigation.

We would like to take advantage of the safe harbor provisions of the Litigation Reform Act in connection with the forward-looking statements included, or incorporated by reference, in this document. Investors are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented, or incorporated by reference, in this document. The following important factors could cause our actual financial results to differ materially from those projected, forecasted or estimated by us in forward-looking statements:

- (a) Heightened competition from independent clinical testing companies, and from hospitals with respect to testing for non-patients and from physicians.
- (b) Increased pricing pressure from customers and payers.
- (c) A sustained decline in economic conditions, or turmoil in financial markets leading to lack of access to external capital over a sustained

period of time  
or on  
reasonable  
terms.

- (d) Impact of changes in payer mix, including any shift from fee-for-service to discounted or capitated fee arrangements.
  
- (e) Adverse actions by government or other third-party payers, including healthcare reform that focuses on reducing healthcare costs but does not recognize the value and importance to healthcare of diagnostic testing, unilateral reduction of fee schedules payable to us, competitive bidding, and an increase in the practice of negotiating for exclusive arrangements that involve aggressively priced capitated or fee-for-service payments by

health insurers  
or other  
payers.

- (f) The impact upon our testing volume and collected revenue or general or administrative expenses resulting from our compliance with Medicare and Medicaid administrative policies and requirements of third party payers. These include:
  - (1) the requirements of Medicare carriers to provide diagnosis codes for many commonly ordered tests and the possibility that third party payers will increasingly adopt similar requirements;
  - (2) the policy of the Centers for Medicare and Medicaid Services to limit Medicare reimbursement for tests contained in automated chemistry

panels to the amount that would have been paid if only the covered tests, determined on the basis of demonstrable medical necessity, had been ordered;

- (3) continued inconsistent practices among the different local carriers administering Medicare;

**RATIO OF EARNINGS TO FIXED CHARGES**

Set forth below is information concerning our historical ratio of earnings to fixed charges. This ratio shows the extent to which our business generates enough earnings after the payment of all expenses other than interest to make required interest payments on our debt.

For this purpose, earnings consist of pretax income from continuing operations plus fixed charges. Fixed charges consist of interest expense and one-third of rental expense, representing that portion of rental expense we deemed representative of an appropriate interest factor.

### **USE OF PROCEEDS**

We estimate that the net proceeds from this offering of notes, after deducting underwriting discounts but before deducting other expenses of the offering, will be approximately \$730 million.

To the extent all of the notes in our concurrent tender offer are tendered, we intend to use approximately \$518 million of the net proceeds from this offering to purchase those notes and pay related premiums, interest, fees and expenses. If fewer than all of the notes are tendered and the amount of net proceeds used to purchase those notes is less than \$500 million, we intend to use up to \$500 million to repurchase notes in our tender offer and repay amounts due in September 2011 and December 2011 under our term loan due May 2012. As of September 30, 2009, we had approximately \$1.1 billion of indebtedness outstanding under our term loan due May 2012 at a borrowing rate of LIBOR plus 0.50%, or 0.75%.

In addition, we are currently considering the potential cash acquisition of a diagnostics testing business. If we enter into a definitive agreement with respect to this acquisition, we would expect to use a portion of the remaining net proceeds from this offering to fund the purchase price of the acquisition in its entirety.

To the extent that any net proceeds from this offering remain after we repay indebtedness, as described above, and fund the potential acquisition, if consummated, we intend to use those net proceeds for general corporate purposes, including other acquisitions, capital expenditures, share repurchases and repayment of other indebtedness.

The following table should be read together with our consolidated financial statements and related notes and management's discussion and analysis of financial condition and results of operations included in our Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2009 and our Annual Report on Form 10-K for the year ended December 31, 2008, each of which is incorporated by reference into this prospectus supplement.

The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939. A copy of the Indenture is available for inspection at the office of the trustee.

Whenever we refer in this Description of Notes to terms defined in the Indenture below, such defined terms are incorporated herein by reference. As used in this Description of Notes, the terms we, our, us and Quest Diagnostics do not include any current or future subsidiary of Quest Diagnostics Incorporated, unless the context indicates otherwise.

### General

The Notes due 2020 will be initially limited to \$500,000,000 aggregate principal amount and will mature and become due and payable, together with any accrued and unpaid interest thereon, on January 30, 2020. The Notes due 2040 will be initially limited to \$250,000,000 aggregate principal amount and will mature and become due and payable, together with any accrued and unpaid interest thereon, on January 30, 2040.

Quest Diagnostics may from time to time, without the consent of the holders of the Notes, issue additional Notes of either series having the same ranking and the same interest rate, maturity and other terms as the Notes of the applicable series. Any additional Notes and the Notes of such series will generally constitute a single series under the Indenture. This type of offering is often referred to as a re-opening. Additional Notes may constitute a separate issuance for United States federal income tax purposes.

Notes of either series will bear interest at the annual rate noted on the cover page of this prospectus supplement. Interest will be payable semiannually on January 30 and July 30 of each year, beginning July 30, 2010. Interest on the Notes will be paid to holders of record on the January 15 or July 15 immediately before the applicable interest payment date.

The Notes do not provide for any sinking fund.

## Guarantees

Each Subsidiary Guarantor will fully and unconditionally guarantee, on a joint and several basis, the payment of the principal of, and any premium and interest on the Notes. The guarantees of the Notes will be endorsed on the Notes. In addition, each future domestic Subsidiary of Quest Diagnostics, or any Subsidiary Guarantor which has been released and discharged from its obligations under the guarantee of the Notes, will be required to guarantee Quest Diagnostics' obligations under the Notes, if such Subsidiary:

guarantees  
any  
Indebtedness  
of Quest  
Diagnostics  
when the  
amount of  
such  
Indebtedness,  
together with  
any other  
outstanding  
Indebtedness  
of Quest  
Diagnostics  
guaranteed by  
its  
Subsidiaries  
that are not  
Subsidiary  
Guarantors,  
exceeds \$50  
million in the  
aggregate at  
any time; or

incurs  
Indebtedness,  
unless such  
Indebtedness  
is permitted  
under the  
Limitation on  
Subsidiary  
Indebtedness  
and Preferred  
Stock  
covenant  
described  
below.

The Indenture provides that the obligations of each Subsidiary Guarantor under its guarantee will be limited so as to not constitute a fraudulent conveyance under any United States federal or state laws. Application of this clause could

limit the amount which holders of Notes may be entitled to collect under the guarantees. Holders, by their acceptance of the Notes, will have agreed to such limitations. See Risk Factors Federal and state laws permit a court to void a guarantee issued by any of our subsidiaries if the court finds the guarantee to constitute a fraudulent conveyance.

The guarantees of the Subsidiary Guarantors with respect to the Notes will remain in effect with respect to each Subsidiary Guarantor until the entire amount of principal of, premium, and interest on the Notes shall have been paid in full or otherwise discharged in accordance with the provisions of the Indenture; *provided, however*, that if (a) a Subsidiary Guarantor does not guarantee Indebtedness of Quest Diagnostics the amount of which, when added together with any other outstanding Indebtedness of Quest Diagnostics guaranteed by its Subsidiaries that are not Subsidiary Guarantors, would exceed \$50 million in the aggregate, excluding the Notes, and all outstanding Indebtedness of such Subsidiary Guarantor would have been permitted to be incurred under the Limitation on Subsidiary Indebtedness and Preferred Stock covenant described below measured at the time of the release and discharge as described in this paragraph, (b) the Notes are defeased and discharged as described under Defeasance or (c) all or substantially all of the assets of such Subsidiary Guarantor or all of the capital stock of such Subsidiary Guarantor is sold (including by issuance, merger, consolidation or otherwise) by Quest Diagnostics or any of its Subsidiaries, then in each case of (a), (b) or (c) above, such Subsidiary Guarantor or the corporation acquiring such assets (in the event of a sale or other disposition of all or substantially all of the assets or capital stock of such Subsidiary Guarantor) shall be released and discharged from its obligations under its guarantee of the Notes.

### **Seniority; Ranking**

The Notes will be senior unsecured obligations of Quest Diagnostics and will rank equally with other existing and future senior unsecured obligations of Quest Diagnostics. Each guarantee will be a senior unsecured obligation of the Subsidiary Guarantor issuing such guarantee and will rank equally with other existing and future senior unsecured obligations of such Subsidiary Guarantor. As of September 30, 2009, after giving effect to this offering and the anticipated use of the net proceeds therefrom and assuming the tender of all the notes in our concurrent tender offer (as if all of the foregoing had occurred on that date) Quest Diagnostics and the Subsidiary Guarantors would have had total debt outstanding of \$3.1 billion.

The Notes and the guarantees will be effectively subordinated to any secured obligations of Quest Diagnostics or Subsidiary Guarantors, as the case may be, to the extent of the value of the assets securing such obligations. The Indenture does not limit the amount of indebtedness that Quest Diagnostics and any of its subsidiary guarantors can incur, but does limit the amount of indebtedness its non-guarantor subsidiaries are permitted to incur (as described below). In addition, the Indenture limits the amount of secured indebtedness pursuant to the covenant described under the heading Limitation on Liens. This covenant is subject to important exceptions described under such heading. As of September 30, 2009, after giving effect to this offering and the anticipated use of the net proceeds therefrom and assuming the tender of all the notes in our concurrent tender offer (as if all of the foregoing had occurred on that date), Quest Diagnostics and the Subsidiary Guarantors would have had secured debt outstanding of \$7 million.

Quest Diagnostics conducts its operations through subsidiaries, which generate a substantial portion of its operating income and cash. As a result, distributions or advances from subsidiaries of Quest Diagnostics are a major source of funds necessary to meet its debt service and other obligations. Contractual provisions, laws or regulations, as well as any subsidiary's financial condition and operating requirements, may limit the ability of Quest Diagnostics to obtain cash required to pay Quest Diagnostics' debt service obligations, including payments on the Notes.

The Notes will be structurally subordinated to all existing and future obligations of Quest Diagnostics' subsidiaries that are not Subsidiary Guarantors, including claims with respect to trade payables. In addition, the guarantees of our Subsidiary Guarantors will be structurally subordinated to all existing and future obligations of any subsidiary of ours or a Subsidiary Guarantor that is not also a Subsidiary Guarantor, including claims with respect to trade payables. This means that holders of the Notes as guaranteed by the Subsidiary Guarantors will have a junior position to the claims of creditors of the direct and indirect subsidiaries of Quest Diagnostics which are not Subsidiary Guarantors on the assets and earnings of such subsidiaries. The non-guarantor subsidiaries of Quest Diagnostics are limited in the amount of Indebtedness they are permitted to incur pursuant to the covenant described under Limitation of Subsidiary Indebtedness and Preferred Stock. This covenant is subject to important exceptions described under such heading. In addition, the guarantees of the Subsidiary Guarantors may be released in certain circumstances, which are described under the heading Guarantees. As of September 30, 2009, after giving effect to this offering and the anticipated use of the net proceeds therefrom and assuming the tender of all the notes in our concurrent tender offer (as if all of the foregoing had occurred on that date), the non-guarantor subsidiaries of Quest Diagnostics would have had outstanding \$114 million of debt (including the current portion thereof) of which \$100 million was comprised of the Existing Receivables Credit Facility.

### Optional Redemption

At any time and from time to time, the Notes of each series will be redeemable, as a whole or in part, at the option of Quest Diagnostics, on at least 30 days, but not more than 60 days, prior notice mailed to the registered address of each holder of the Notes of the applicable series, at a redemption price equal to the greater of:

100% of  
principal  
amount of  
the Notes to  
be  
redeemed,  
and

the sum of  
the present

below)

consisting  
of twelve  
30-day  
months, at  
the  
Treasury  
Rate (as  
defined  
below)  
plus:  
25 basis points for the Notes due 2020, or

25 basis points for the Notes due 2040,

plus accrued interest to the date of redemption which has not been paid.

On and after the redemption date for the Notes of either series, interest will cease to accrue on the Notes of that series or any portion thereof called for redemption, unless Quest Diagnostics defaults in the payment of the redemption price and accrued interest. On or before the redemption date for the Notes of that series, Quest Diagnostics shall deposit with a paying agent, or the trustee, funds sufficient to pay the redemption price of and accrued interest on such Notes to be redeemed on such date. If less than all of the Notes of a series are to be redeemed, the Notes of that series to be redeemed shall be selected by the trustee by such method as the trustee shall deem fair and appropriate.

**Remaining Scheduled Payments** means, with respect to the Notes of either of the series to be redeemed, the remaining scheduled payments of the principal thereof and interest thereon that would be due after the related redemption date but for such redemption; *provided, however*, that, if such redemption date is not an interest payment date with respect to the Notes, the amount of the next succeeding scheduled interest payment thereon will be deemed to be reduced by the amount of interest accrued thereon to such redemption date.

**Treasury Rate** means, with respect to any redemption date for the Notes of either series:

The Treasury Rate will be calculated on the third business day preceding the redemption date.

**Comparable Treasury Issue** means the United States Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term of the Notes due 2020 or the Notes due 2040, as the case may be, to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the Notes.

**Independent Investment Banker** means one of the Reference Treasury Dealers, to be appointed by Quest Diagnostics.

Comparable Treasury Price means, with respect to any redemption date for the Notes:

the average  
of four  
Reference  
Treasury  
Dealer  
Quotations  
for that  
redemption  
date, after  
excluding

fewer than  
four  
Reference  
Treasury  
Dealer  
Quotations,  
the average  
of all  
quotations  
obtained by  
the trustee.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the trustee, of the bid and asked prices for the Comparable Treasury Issue, expressed in each case as a percentage of its principal amount, quoted in writing to the trustee by such Reference Treasury Dealer at 3:30 p.m., New York City time, on the third business day preceding such redemption date.

Reference Treasury Dealer means a primary U.S. Government securities dealer, which we refer to as Primary Treasury Dealer, selected by Quest Diagnostics.

### **Change of Control**

If a Change of Control Triggering Event occurs, unless Quest Diagnostics has exercised its option to redeem the Notes as described above, Quest Diagnostics will be required to make an offer (the Change of Control Offer) to each holder of the Notes to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) of that holder's Notes on the terms set forth in the Notes. In the Change of Control Offer, Quest Diagnostics will be required to offer payment in cash equal to 101% of the aggregate principal amount of Notes repurchased, plus accrued and unpaid interest, if any, on the Notes repurchased to the date of repurchase (the Change of Control Payment). Within

30 days following any Change of Control Triggering Event or, at Quest Diagnostics' option, prior to any Change of Control, but after public announcement of the transaction that constitutes or may constitute the Change of Control, a notice will be mailed to holders of the Notes describing the transaction that constitutes or may constitute the Change of Control Triggering Event and offering to repurchase the Notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed (the "Change of Control Payment Date"). The notice will, if mailed prior to the date of consummation of the Change of Control, state that the offer to purchase is conditioned on the Change of Control Triggering Event occurring on or prior to the Change of Control Payment Date.

S-18

---

On the Change of Control Payment Date, Quest Diagnostics will, to the extent lawful:

accept for  
payment all  
Notes or  
portions of  
Notes  
properly  
tendered  
pursuant to  
the Change  
of Control  
Offer;

deposit with  
the paying  
agent an  
amount equal  
to the  
Change of  
Control  
Payment in  
respect of all  
Notes or  
portions of  
Notes  
properly  
tendered; and

deliver or  
cause to be  
delivered to  
the trustee  
the Notes  
properly  
accepted  
together with  
an officers  
certificate  
stating the  
aggregate  
principal  
amount of  
Notes or  
portions of  
Notes being  
repurchased.

Quest Diagnostics will not be required to make a Change of Control Offer upon the occurrence of a Change of Control Triggering Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by Quest Diagnostics and the third party repurchases all Notes properly tendered and

not withdrawn under its offer. In addition, Quest Diagnostics will not repurchase any Notes if there has occurred and is continuing on the Change of Control Payment Date an event of default under the indenture, other than a default in the payment of the Change of Control Payment upon a Change of Control Triggering Event.

Quest Diagnostics will comply with the requirements of Rule 14e-1 under the Securities Exchange Act of 1934, as amended (the Exchange Act), and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any such securities laws or regulations conflict with the Change of Control Offer provisions of the Notes, Quest Diagnostics will comply with those securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control Offer provisions of the Notes by virtue of any such conflict. For purposes of the Change of Control Offer provisions of the Notes, the following terms will be applicable:

**Change of Control** means the occurrence of any of the following: (1) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any person (as that term is used in Section 13(d) (3) of the Exchange Act) (other than Quest Diagnostics or one of its subsidiaries) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of the voting stock of Quest Diagnostics or other voting stock into which the voting stock of Quest Diagnostics is reclassified, consolidated, exchanged or changed, measured by voting power rather than number of shares; (2) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or more series of related transactions, of all or substantially all of Quest Diagnostics' assets and the assets of its subsidiaries, taken as a whole, to one or more persons (as that term is defined in the indenture) (other than Quest Diagnostics or one of its subsidiaries); or (3) the first day on which a majority of the members of the Board of Directors of Quest Diagnostics are not Continuing Directors. Notwithstanding the foregoing, a transaction will not be deemed to involve a Change of Control if (1) Quest Diagnostics becomes a direct or indirect wholly-owned subsidiary of a holding company and (2)(A) the direct or indirect holders of the voting stock of such holding company immediately following that transaction are substantially the same as the holders of the voting stock of Quest Diagnostics immediately prior to that transaction or (B) immediately following that transaction no person (other than a holding company satisfying the requirements of this sentence) is the beneficial owner, directly or indirectly, of more than 50% of the voting stock of such holding company.

**Change of Control Triggering Event** means the occurrence of both a Change of Control and a Rating event.

**Continuing Directors** means, as of any date of determination, any member of Quest Diagnostics' Board of Directors who (1) was a member of such Board of Directors on the date the Notes were issued or (2) was nominated for election, elected or appointed to such Board of Directors with the approval of a majority of the Continuing Directors who were members of such Board of Directors at the time of such nomination, election or appointment (either by a specific vote or by approval of the proxy statement of Quest Diagnostics in which such member was named as a nominee for election as a director, without objection to such nomination).

**Fitch** means Fitch Ratings.

**Investment Grade Rating** means a rating equal to or higher than Baa3 (or the equivalent) by Moody's, BBB- (or the equivalent) by S&P and BBB- (or the equivalent) by Fitch, and the equivalent

investment grade credit rating from any additional rating agency or Rating Agencies selected by Quest Diagnostics.

Moody's means Moody's Investors Service, Inc.

Rating Agencies means (1) each of Moody's, S&P and Fitch; and (2) if any of Moody's, S&P or Fitch ceases to rate the Notes or fails to make a rating of the Notes publicly available for reasons outside of the control of Quest Diagnostics, a nationally recognized statistical rating organization within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by Quest Diagnostics (as certified by a resolution of the Board of Directors) as a replacement agency for Moody's, S&P or Fitch, or all of them, as the case may be.

Rating event means the rating on the Notes is lowered by at least two of the Rating Agencies and the Notes are rated below an Investment Grade Rating by at least two of the Rating Agencies on any day within the 60-day period (which 60-day period will be extended so long as the rating of the Notes is under publicly announced consideration for a possible downgrade by any of the Rating Agencies) after the earlier of (1) the occurrence of a Change of Control and (2) public notice of the occurrence of a Change of Control or the intention of Quest Diagnostics to effect a Change of Control; *provided, however*, that a rating event otherwise arising by virtue of a particular reduction in rating will not be deemed to have occurred in respect of a particular Change of Control (and thus will not be deemed a rating event for purposes of the definition of Change of Control Triggering Event) if the Rating Agencies making the reduction in rating to which this definition would otherwise apply do not announce or publicly confirm or inform the trustee in writing at its request or the request of Quest Diagnostics that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control has occurred at the time of the rating event).

S&P means Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc.

Voting stock means, with respect to any specified person (as that term is used in Section 13(d)(3) of the Exchange Act) as of any date, the capital stock of such person that is at the time entitled to vote generally in the election of the board of directors of such person.

### **Sinking Fund**

The Notes will not be entitled to the benefit of any sinking fund.

### **Limitation on Liens**

Other than as provided under Exempted Liens and Sale and Leaseback Transactions, Quest Diagnostics will not, and will not permit any Restricted Subsidiary to, create or assume any Indebtedness secured by any Lien on any Principal Property or shares of stock or Indebtedness of any Restricted Subsidiary, unless: (1) in the case of Quest Diagnostics, the Notes are secured by such Lien equally and ratably with, or prior to, the Indebtedness secured by such Lien, or (2) in the case of any Subsidiary Guarantor, such Subsidiary Guarantor's guarantee of the Notes is secured by such Lien equally and ratably with, or prior to, the Indebtedness secured by such Lien. ### **Merger, Consolidation or Sale of Assets**

Quest Diagnostics may merge or consolidate with another Person and may sell, transfer or lease all or substantially all of its assets to another Person if all the following conditions are met:

The merger,  
consolidation  
or sale of  
assets must  
not cause an  
event of  
default. See  
Events of  
Default. An  
event of  
default for  
this purpose  
would also  
include any  
event that

would be an  
event of  
default if the  
notice or time  
requirements  
were  
disregarded;

If Quest  
Diagnostics is  
not the  
surviving  
entity, the  
Person we  
would merge  
or consolidate  
with, or sell  
all or

all of our  
assets to,  
must  
expressly  
assume by  
supplemental  
indenture all  
of our  
obligations  
under the  
Notes and the

Indenture;  
and

Quest  
Diagnostics  
must deliver  
specific  
certification  
and  
documents to  
the trustee.

of default  
stating it is in

requiring that  
it remedy the  
breach. The  
notice must

aggregate  
principal  
amount of the  
Notes of that  
series;

An event of

Guarantor  
then has  
outstanding  
any  
Indebtedness  
shall occur  
and be

Any  
Subsidiary  
Guarantor  
repudiates its  
obligations  
under its  
guarantee of  
the Notes or,  
other than by  
reason of the  
termination of  
the Indenture  
or the release  
of any such  
guarantee in  
accordance  
with the  
Indenture, any  
such guarantee  
ceases to be in  
full force and  
effect or is  
declared null  
and void and  
such condition  
shall have  
continued for a  
period of 30  
days after  
written notice  
of such failure  
requiring  
Quest  
Diagnostics or  
the Subsidiary  
Guarantor to  
remedy the  
same shall  
have been  
given to Quest  
Diagnostics by  
the trustee or  
to Quest  
Diagnostics  
and the trustee  
by the holders  
of 25% in  
aggregate  
principal  
amount of the

Notes then  
outstanding; or

Quest  
Diagnostics or  
any Subsidiary  
Guarantor files  
for bankruptcy  
or certain other  
events of  
bankruptcy,  
insolvency or  
reorganization  
occur.

The trustee may withhold notice to the holders of Notes of any default (except in the payment of principal or interest) if it considers such withholding of notice to be in the best interests of the holders.

If an event of default with respect to the Notes of either series has occurred and has not been cured, the trustee or the holders of 25% in aggregate principal amount of the Notes of that series may declare the entire principal amount (and premium, if any) of, and all the accrued interest on the Notes of that series to be due and immediately payable. This is called a declaration of acceleration of maturity. If an event of default with respect to the Notes of either series occurs because of certain events in bankruptcy, insolvency or reorganization, the principal amount of the Notes of that series will be automatically accelerated, without any action by the trustee or any holder. Holders of a majority in principal amount of the Notes of either series may also waive certain past defaults under the Indenture on behalf of all of the holders of the Notes of that series. A declaration of acceleration of maturity with respect to the Notes of either series may be canceled, under specific circumstances, by the holders of at least a majority in principal amount of the Notes of that series.

Except in cases of default, where the trustee has some special duties, the trustee is not required to take any action under the Indenture at the request of any of the holders unless the holders offer the trustee protection reasonably satisfactory to it from expenses and liability called an indemnity. If indemnity reasonably satisfactory to the trustee is provided, the holders of a majority in principal amount of the Notes of either series may, with respect to the Notes of that series, direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. The trustee may refuse to follow those directions in certain circumstances. No delay or omission in exercising any right or remedy will be treated as a waiver of the right, remedy or event of default.

Before you are allowed to bypass the trustee and bring a lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the Notes of either series, the following must occur:

You must  
give the  
trustee  
written  
notice that  
an event of  
default has  
occurred  
and remains  
uncured;

The holders of at least 25% in principal amount of the outstanding Notes of that series must make a written request that the trustee take action because of the default and must offer the trustee indemnity reasonably satisfactory to it against the cost and other liabilities of taking that action;

The trustee must not have taken action for 60 days after receipt of the above notice and offer of indemnity; and

Holdings of a majority in principal amount of the Notes of that series must not have given the trustee a direction

inconsistent  
with the  
above  
notice.

However, you are entitled at any time to bring a lawsuit for the payment of money due on your Notes on or after the due date.

**Defeasance**

*Full Defeasance.* If there is a change in federal tax law, as described below, we can legally release ourselves and our Subsidiary Guarantors from any payment or other obligations on the Notes, called full defeasance, if we put in place the following other arrangements for you to be repaid:

We must  
deposit in  
trust for your  
benefit and  
the benefit of  
all other  
registered  
holders of  
the Notes a  
combination  
of money  
and U.S.  
government  
or U.S.  
government  
agency notes  
or bonds that  
will

generate  
enough cash  
to make  
interest,  
principal  
and any  
other  
payments  
on the  
Notes on  
their  
various due  
dates  
including,  
possibly,  
their earliest  
redemption  
date.

In order for  
us to effect  
a full  
defeasance,  
we must  
deliver to  
the trustee a  
legal  
opinion  
confirming  
that you  
will not  
recognize  
income,  
gain or loss  
for United  
States  
federal  
income tax  
purposes as  
a result of  
the  
defeasance  
and that you  
will not be  
taxed on the  
Notes any  
differently  
than if the  
defeasance  
had not  
occurred.

If we accomplish full defeasance, as described above, you would have to rely solely on the trust deposit for repayment on the Notes. You could not look to us or our Subsidiary Guarantors for repayment in the unlikely event of any shortfall. Conversely, the trust deposit would most likely be protected from claims of our lenders and other creditors if we ever become bankrupt or insolvent.

*Covenant Defeasance.* Under current federal tax law, we can make the same type of deposit described above and be released and cause our Subsidiary Guarantors to be released from the restrictive covenants in the Notes, if any. This is called covenant defeasance. In that event, you would lose the protection of those restrictive covenants but would gain the protection of having money and securities set aside in trust to repay the Notes. In order to achieve covenant defeasance, we must do the following:

We must  
deposit in  
trust for your  
benefit and  
the benefit of  
all other  
registered  
holders of  
the Notes a  
combination  
of money  
and U.S.  
government  
or U.S.  
government  
agency notes  
or bonds that  
will generate  
enough cash  
to make  
interest,  
principal and  
any other  
payments on  
the Notes on  
their various  
due dates.

We must  
deliver to the  
trustee a  
legal opinion  
confirming  
that under  
current  
United  
States  
federal  
income tax

law you will  
not  
recognize  
income, gain  
or loss for  
United States  
federal  
income tax  
purposes as a  
result of the  
covenant  
defeasance  
and that you  
will not be  
taxed on the  
Notes any  
differently  
than if the  
covenant  
defeasance  
had not  
occurred.

If we accomplish covenant defeasance, the following provisions of the Indenture and the Notes would no longer apply unless otherwise specified:

any  
promises of  
our  
Subsidiary  
Guarantors  
relating to  
their  
guarantees,  
the conduct  
of their  
business  
and any  
other  
covenants  
applicable  
to the series  
of Notes;

our  
promises  
regarding  
conduct of  
our  
business  
and other

matters and  
any other  
covenants  
applicable  
to the series  
of Notes;  
and

the  
definition  
of an event  
of default  
as a breach  
of such  
covenants.

If we accomplish covenant defeasance, you can still look to us and our Subsidiary Guarantors for repayment of the Notes if there were a shortfall in the trust deposit. In fact, if one of the remaining events of default occurred (such as our bankruptcy) and the Notes become immediately due and payable, there may be such a shortfall. Depending on the event causing the default, of course, you may not be able to obtain payment of the shortfall.

In order to exercise either full defeasance or covenant defeasance, we must comply with certain conditions, and no event or condition can exist that would prevent us and our Subsidiary Guarantors from making payments of principal, premium, and interest, if any, on the Notes of such series on the date the irrevocable deposit is made or at any time during the period ending on the 91st day after the deposit date.

#### **Notices**

With respect to the Notes, we and the trustee will send notices regarding the Notes only to registered holders, using their addresses as listed in the list of registered holders.

#### **Global Notes: Book-Entry System**

##### *Global Notes*

The Notes of each series will be represented by one or more fully registered global notes, without interest coupons and will be deposited upon issuance with the trustee as custodian for The Depository Trust

Company, New York, New York ( DTC ), and registered in the name of DTC or its nominee, in each case, for credit to an account of a direct or indirect participant as described below.

Except as set forth below, the global notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global notes may not be exchanged for definitive notes in registered certificated form ( certificated notes ) except in the limited circumstances described below. See Certain Book-Entry Procedures for the Global Notes.

Except in the limited circumstances described below, owners of beneficial interests in the global notes will not be entitled to receive physical delivery of notes in certificated form.

Transfers of beneficial interests in the global notes are subject to the applicable rules and procedures of DTC and its direct or indirect participants, which may change.

The Notes may be presented for registration of transfer and exchange at the offices of the trustee.

***Certain Book-Entry Procedures for the Global Notes***

All interests in the global notes will be subject to the operations and procedures of DTC, Euroclear and Clearstream Luxembourg. The descriptions of the operations and procedures of DTC, Euroclear and Clearstream Luxembourg set forth below are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to change by them from time to time. We obtained the information in this section and elsewhere in this prospectus supplement concerning DTC, Euroclear and Clearstream Luxembourg and their respective book-entry systems from sources that we believe are reliable, but we take no responsibility for the accuracy of any of this information, and investors are urged to contact the relevant system or its participants directly to discuss these matters.

*DTC*. DTC has advised us that it is:

a  
limited-purpose  
trust company  
organized under  
the laws of the  
State of New  
York;

a banking  
organization  
within the  
meaning of the  
New York State  
Banking Law;

a member of the  
Federal Reserve  
System;

a clearing  
corporation

within the  
meaning of the  
New York  
Uniform  
Commercial  
Code, as  
amended; and

a clearing  
agency  
registered  
pursuant to  
Section 17A of  
the Exchange  
Act.

DTC was created to hold securities for its participants (collectively, the participants ) and to facilitate the clearance and settlement of securities transactions between its participants through electronic book-entry changes to the accounts of its participants, thereby eliminating the need for physical transfer and delivery of certificates. DTC's participants include securities brokers and dealers (including some or all of the underwriters), banks and trust companies, clearing corporations and certain other organizations. Indirect access to DTC's system is also available to other entities such as Clearstream Luxembourg, Euroclear, banks, brokers, dealers and trust companies (collectively, the indirect participants ) that clear through or maintain a custodial relationship with a participant, either directly or indirectly. Investors who are not participants may beneficially own securities held by or on behalf of DTC only through participants or indirect participants in DTC.

*Clearstream Luxembourg.* Clearstream Luxembourg is incorporated under the laws of Luxembourg as a professional depository. Clearstream Luxembourg holds securities for its participating organizations ( Clearstream Luxembourg Participants ) and facilitates the clearance and settlement of securities transactions between Clearstream Luxembourg Participants through electronic book-entry changes in accounts of Clearstream Luxembourg Participants, thereby eliminating the need for physical movement of certificates. Clearstream Luxembourg provides Clearstream Luxembourg Participants with, among other things, services for safekeeping, administration, clearance and establishment of internationally traded securities and securities lending and borrowing. Clearstream Luxembourg interfaces with domestic markets in several countries. As a professional depository, Clearstream Luxembourg is subject to regulation by the Luxembourg Monetary Institute. Clearstream Luxembourg Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and

certain other organizations, and may include the underwriters. Indirect access to Clearstream Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Luxembourg Participant either directly or indirectly.

Distributions with respect to Notes held beneficially through Clearstream Luxembourg will be credited to cash accounts of Clearstream Luxembourg Participants in accordance with its rules and procedures to the extent received by the U.S. depository for Clearstream Luxembourg.

*Euroclear.* Euroclear was created in 1968 to hold securities for participants of Euroclear ( Euroclear Participants ) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the Euroclear Operator ), under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the Cooperative ). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is regulated and examined by the Belgian Banking Commission. Distributions of principal and interest with respect to Notes held through Euroclear or Clearstream Luxembourg will be credited to the cash accounts of Euroclear or Clearstream Luxembourg participants in accordance with the relevant system's rules and procedures, to the extent received by such system's depository.

Links have been established among DTC, Clearstream Luxembourg and Euroclear to facilitate the initial issuance of the Notes and cross-market transfers of the Notes associated with secondary market trading. DTC will be linked indirectly to Clearstream Luxembourg and Euroclear through the DTC accounts of their respective U.S. depositories.

*Book-Entry Procedures.* We expect that, pursuant to procedures established by DTC:

upon deposit  
of each  
global note,  
DTC will  
credit, on its  
book-entry  
registration  
and transfer  
system, the  
accounts of  
participants  
designated by  
the  
underwriters  
with an  
interest in  
that global  
note; and

ownership of  
beneficial  
interests in  
the global  
notes will be  
shown on,  
and the  
transfer of  
ownership  
interests in  
the global  
notes will be  
effected only  
through,  
records  
maintained  
by DTC  
(with respect  
to the  
interests of  
participants)  
and by  
participants  
and indirect  
participants  
(with respect  
to the  
interests of  
persons other  
than  
participants).

The laws of some jurisdictions may require that some purchasers of Notes take physical delivery of those Notes in definitive form. Accordingly, the ability to transfer beneficial interests in notes represented by a global note to those persons may be limited. In addition, because DTC can act only on behalf of its participants, who in turn act on behalf of persons who hold interests through participants, the ability of a person holding a beneficial interest in a global note to pledge or transfer that interest to persons or entities that do not participate in DTC's system, or to otherwise take actions in respect of that interest, may be affected by the lack of a physical note in respect of that interest.

So long as DTC or its nominee is the registered owner of a global note, DTC or that nominee, as the case may be, will be considered the sole legal owner or holder of the notes represented by that global note for all purposes of the Notes and the Indenture. Except as provided below, owners of beneficial interests in a global note (1) will not be entitled to have the Notes represented by that global note registered in their names, (2) will not receive or be entitled to receive physical delivery of certificated notes, and (3) will not be considered the owners or holders of the Notes represented by that beneficial interest under the indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee. Accordingly, each holder owning a beneficial interest in a global note must rely on the procedures of DTC and, if that holder is not a participant or an indirect participant, on the procedures of the participant through which that holder owns its interest, to exercise any rights of a holder of Notes under the Indenture or that

global note. We understand that under existing industry practice, in the event that we request any action of holders of notes, or a holder that is an owner of a beneficial interest in a global note desires to take any action that DTC, as the holder of that global note, is entitled to take, DTC would authorize the participants to take that action and the participants would authorize holders owning through those participants to take that action or would otherwise act upon the instruction of those holders. Neither we nor the Trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of notes by DTC, or for maintaining, supervising or reviewing any records of DTC relating to the Notes.

Payments with respect to the principal of and interest on a global note will be payable by the trustee to or at the direction of DTC or its nominee in its capacity as the registered holder of the global note under the Indenture. Under the terms of the Indenture, we and the trustee may treat the persons in whose names the Notes, including the global notes, are registered as the owners thereof for the purpose of receiving payment thereon and for any and all other purposes whatsoever. Accordingly, neither we nor the trustee has or will have any responsibility or liability for the payment of those amounts to owners of beneficial interests in a global note. Payments by the participants and the indirect participants to the owners of beneficial interests in a global note will be governed by standing instructions and customary industry practice and will be the responsibility of the participants and indirect participants and not of DTC.

Transfers between participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds. Transfers between participants in Euroclear or Clearstream Luxembourg will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Cross-market transfers between the participants in DTC, on the one hand, and Euroclear or Clearstream Luxembourg participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream Luxembourg, as the case may be, by its respective depository. However, those cross-market transactions will require delivery of instructions to Euroclear or Clearstream Luxembourg, as the case may be, by the counterparty in that system in accordance with the rules and procedures and within the established deadlines (Brussels time) of that system. Euroclear or Clearstream Luxembourg, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant global notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream Luxembourg participants may not deliver instructions directly to the depositories for Euroclear or Clearstream Luxembourg.

Although we understand that DTC, Euroclear and Clearstream Luxembourg have agreed to the foregoing procedures to facilitate transfers of interests in the global notes among participants in DTC, Euroclear and Clearstream Luxembourg, they are under no obligation to perform or to continue to perform those procedures, and those procedures may be discontinued at any time. Neither we nor the trustee will have any responsibility for the performance by DTC, Euroclear or Clearstream Luxembourg or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

#### ***Same-Day Settlement and Payment***

We will make payments in respect of the Notes represented by the global notes (including principal and interest) by wire transfer of immediately available funds to the accounts specified by the global note holder. We will make all payments of principal and interest with respect to certificated notes by wire transfer of immediately available funds to the accounts specified by the holders of the certificated notes or, if no such account is specified, by mailing a check to each such holder's registered address. The notes represented by the global notes are expected to trade in DTC's Same-Day Funds Settlement System.

Because of time zone differences, the securities account of a Euroclear or Clearstream Luxembourg participant purchasing an interest in a global note from a participant in DTC will be credited, and any such crediting will be

reported to the relevant Euroclear or Clearstream Luxembourg participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream Luxembourg) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream Luxembourg as a result of sales of interests in a global note by or through a Euroclear or Clearstream Luxembourg participant to a participant in DTC will be received with value on the

S-28

---

settlement date of DTC but will be available in the relevant Euroclear or Clearstream Luxembourg cash account only as of the business day for Euroclear or Clearstream Luxembourg following DTC's settlement date.

None of Quest Diagnostics, any underwriter or agent, the trustee or any applicable paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial interests in a global note, or for maintaining, supervising or reviewing any records.

### **Modification or Waiver**

There are three types of changes we can make to the Indenture and the Notes.

*Changes Requiring Your Approval.* First, there are changes that cannot be made to your Notes without your specific approval. Following is a list of those types of changes:

changing the  
stated maturity  
of the principal  
of or interest  
on the Notes;

reducing any  
amounts due  
on the Notes or  
payable upon  
acceleration of  
the maturity of  
the security  
following a  
default;

adversely  
affecting any  
right of  
repayment at  
the holder's  
option;

changing the  
place (except  
as otherwise  
described in  
this prospectus  
supplement) or  
currency of  
payment on the  
Notes;

impairing your  
right to sue for  
payment or to

convert or  
exchange  
Notes;

modifying the  
Notes to  
subordinate the  
Notes to other  
indebtedness;

reducing the  
percentage of  
holders of  
Notes whose  
consent is  
needed to  
modify or  
amend the  
Indenture;

reducing the  
percentage of  
holders of  
Notes whose  
consent is  
needed to  
waive  
compliance  
with certain  
provisions of  
the Indenture  
or to waive  
certain  
defaults;

reducing the  
requirements  
for quorum or  
voting with  
respect to the  
Notes;

modifying any  
other aspect of  
the provisions  
of the  
Indenture  
dealing with  
modification  
and waiver  
except to

increase the  
voting  
requirements;  
and

change in any  
of our  
obligations to  
pay additional  
amounts to  
holders with  
respect to taxes  
imposed on  
such holders in  
certain  
circumstances.

*Changes Requiring a Majority Vote.* The second type of change to the Indenture and the outstanding Notes is the kind that requires a vote in favor by holders of outstanding Notes owning a majority of the principal amount of Notes. Most changes fall into this category, except for clarifying changes and certain other changes that would not adversely affect holders of the outstanding Notes in any material respect. The same vote would be required for us and our Subsidiary Guarantors to obtain a waiver of all or part of certain covenants in the Indenture, or a waiver of a past default. However, we and our Subsidiary Guarantors cannot obtain a waiver of a payment default or any other aspect of the Indenture or the outstanding Notes listed in the category described previously under **Changes Requiring Your Approval** unless we and our Subsidiary Guarantors obtain your individual consent to the waiver.

*Changes Not Requiring Approval.* The third type of change does not require any vote by holders of outstanding Notes. This type is limited to clarifications, curing ambiguities, defects or inconsistencies and certain other changes that would not adversely affect holders of the outstanding Notes in any material respect. Qualifying or maintaining the qualification of the Indenture under the Trust Indenture Act does not require any vote by holders of Notes.

### **Satisfaction and Discharge**

The Indenture will cease to be of further effect, and we and our Subsidiary Guarantors will be deemed to have satisfied and discharged the Indenture with respect to the Notes, when the following conditions have been satisfied:

all Notes not previously delivered to the trustee for cancellation have become due and payable or will become due and payable at their stated maturity or on a redemption date within one year;

we deposit with the trustee, in trust, funds sufficient to pay the entire indebtedness on the Notes that had not been previously delivered for cancellation, for the principal and interest to the date of the deposit (for Notes that have become due and payable) or to the stated maturity or the redemption date, as the case may be (for Notes that have not become due

and payable);

we have paid  
or caused to  
be paid all  
other sums  
payable  
under the  
Indenture;  
and

we have  
delivered to  
the trustee an  
officer's  
certificate  
and opinion  
of counsel,  
each stating  
that all these  
conditions  
have been  
complied  
with.

We will remain obligated to provide for registration of transfer and exchange and to provide notices of redemption.

### **The Trustee**

The trustee will be The Bank of New York Mellon (formerly, The Bank of New York). The Bank of New York Mellon also will be the initial paying agent and registrar for the Notes. The Bank of New York Mellon is also the trustee and note registrar for our 5.125% senior notes due 2010, our 7.5% senior notes due 2011, our 5.45% senior notes due 2015, our 6.40% senior notes due 2017 and our 6.95% senior notes due 2037.

The Indenture provides that, except during the continuance of an event of default under the Indenture, the trustee under the Indenture will perform only such duties as are specifically set forth in the Indenture. Under the Indenture, the holders of a majority in outstanding principal amount of the Notes will have the right to direct the time, method and place of conducting any proceeding or exercising any remedy available to the trustee under the Indenture, subject to certain exceptions. If an event of default has occurred and is continuing, the trustee under the Indenture will exercise such rights and powers vested in it under the Indenture and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The Indenture and provisions of the Trust Indenture Act incorporated by reference in the Indenture contain limitations on the rights of the trustee under such Indenture, should it become a creditor of our company, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The trustee under the Indenture is permitted to engage in other transactions. However, if the trustee under the Indenture acquires any prohibited conflicting interest, it must eliminate the conflict or resign.

The trustee may resign or be removed and a successor trustee may be appointed.

### **Governing Law**

## UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of the material United States federal income tax consequences, relevant to the purchase, ownership and disposition of the Notes, but does not purport to be a complete analysis of all potential tax effects. The discussion is based upon the Internal Revenue Code of 1986, as amended (the Code), United States Treasury Regulations issued thereunder, Internal Revenue Service (IRS) rulings and pronouncements and judicial decisions now in effect, all of which are subject to change at any time. Any such change may be applied retroactively in a manner that could adversely affect a beneficial owner of the Notes. This discussion does not address all of the United States federal income tax consequences that may be relevant to a beneficial owner of the Notes in light of its particular circumstances or to beneficial owners of the Notes subject to special rules, such as certain financial institutions, U.S. expatriates, insurance companies, dealers in securities or foreign currencies, traders in securities,

United States Holders (as defined below) whose functional currency is not the U.S. dollar, partnerships and other pass through entities and their beneficial owners, tax-exempt organizations and persons holding the notes as part of a straddle, hedge, conversion transaction or other integrated transaction. In addition, this discussion is limited to beneficial owners of the Notes that purchase the Notes for cash in this offering at a price equal to their issue price within the meaning of Section 1273 of the Code. Moreover, the effect of any applicable state, local or foreign tax laws and any as part of United States federal tax law other than law pertaining to income taxation, is not discussed in this summary. The discussion deals only with Notes held as capital assets within the meaning of Section 1221 of the Code.

As used in this prospectus supplement, United States Holder means a beneficial owner of the Notes that is for United States federal income tax purposes:

an individual  
who is a  
citizen or  
resident of the  
United States;

a corporation  
or other entity  
taxable as a  
corporation  
created or  
organized in or  
under the laws  
of the United  
States, any  
State thereof  
or the District  
of Columbia;

an estate the  
income of  
which is  
subject to  
United States  
federal income  
tax regardless  
of its source;  
or

a trust, if a United States court can exercise primary supervision over the administration of the trust and one or more United States persons can control all substantial trust decisions, or if the trust was in existence on August 20, 1996 and has elected to continue to be treated as a United States person.

A non-United States Holder is a beneficial owner of Notes that is neither a United States Holder nor a partnership or other entity treated as a partnership for United States federal income tax purposes.

If a beneficial owner of the Notes is a partnership or other entity treated as a partnership for United States federal income tax purposes, the tax treatment of the partnership and each partner in such partnership generally will depend on the activities of the partnership and the status of the partner. Partnerships that hold Notes, and partners in such partnerships, should consult their own tax advisors.

**Prospective investors should consult their own tax advisors with regard to the application of the tax consequences discussed below to their particular situations as well as the application of any state, local, foreign or other tax laws, including gift and estate tax laws.**

## **United States Holders**

### *Interest*

Payments of stated interest on the Notes will be taxable to a United States Holder as ordinary income at the time that such payments are received or accrued, in accordance with such United States Holder's regular method of accounting for United States federal income tax purposes.

### *Sale or Other Taxable Disposition of the Notes*

A United States Holder will recognize gain or loss on the sale, exchange (including, in certain circumstances, a deemed exchange as a result of an assumption by any Person of our obligations under the Notes and the Indenture as described under Description of Notes Merger, Consolidation or Sale of Assets ), redemption, retirement or other taxable

disposition of a Note in an amount equal to the difference

S-33

---

between the amount realized upon the disposition (less any portion allocable to any accrued and unpaid interest, which will be taxable as ordinary interest income to the extent not previously included in gross income) and the United States Holder's tax basis in the Note. Such gain or loss generally will be a capital gain or loss, and will be a long-term capital gain or loss if the United States Holder has held the Note for more than one year at the time of the disposition. A United States Holder's tax basis in a Note generally will be the price such holder paid for the Note. Long-term capital gains of individuals generally are eligible for reduced rates of United States federal income tax. (Such rates are scheduled to increase on January 1, 2011). The deductibility of capital losses is subject to limitations under the Code.

*Backup Withholding*

A United States Holder may be subject to backup withholding tax, currently at a 28% rate, when such holder receives interest and principal payments on the Notes, or upon the proceeds received from the sale or other disposition of such Notes. Certain United States Holders (including, among others, corporations and certain tax-exempt organizations) generally are exempt from backup withholding. A non-exempt United States Holder will be subject to this backup withholding tax if such holder:

fails to  
furnish its  
taxpayer  
identification  
number  
( TIN ), which,  
for an  
individual,  
ordinarily is  
his or her  
social  
security  
number;

furnishes an  
incorrect  
TIN;

is notified by  
the IRS that  
the United  
States Holder  
has failed to  
properly  
report  
payments of  
interest or  
dividends; or

fails to  
certify, under  
penalties of  
perjury, that  
the United

States Holder  
is a United  
States person,  
has furnished  
a correct TIN  
and that the  
IRS has not  
notified the  
United States  
Holder that it  
is subject to  
backup  
withholding.

United States Holders should consult their personal tax advisors regarding their qualification for an exemption from backup withholding and the procedures for obtaining such an exemption, if applicable. The backup withholding tax is not an additional tax and United States Holders may use amounts withheld as a refund or credit against their United States federal income tax liability so long as the requisite information is timely furnished to the IRS.

### **Non-United States Holders**

#### *Interest Payments and Gains from Dispositions*

Interest paid to a non-United States Holder generally will not be subject to United States federal income tax, and United States federal withholding tax of 30% (or, if applicable, a lower treaty rate) will not apply, provided:

such holder  
does not  
directly or  
indirectly,  
actually or  
constructively,  
own 10% or  
more of our  
voting stock;

such holder is  
not a  
controlled  
foreign  
corporation  
that is related  
to us through  
sufficient stock  
ownership and  
is not a bank  
that receives  
the interest on  
an extension of  
credit made  
pursuant to a

loan agreement entered into in the ordinary course of its trade or business;

such interest is not effectively connected with a trade or business conducted by the non-United States Holder within the United States; and

either (1) the non-United States Holder certifies to us or our paying agent, under penalties of perjury, that it is not a United States person within the meaning of the Code and provides its name and address, or (2) a securities clearing organization, bank or other financial institution that holds customers securities in the ordinary course of its trade or business and holds the Notes on behalf of the non-United

States Holder certifies to us or our paying agent under penalties of perjury that it, or the financial institution between it and the non-United States Holder, has received from the non-United States Holder a statement, under penalties of perjury, that such non-United States Holder is not a United States person and provides us or our paying agent with a copy of this statement.

S-34

---

If you cannot satisfy the requirements described above, payments of interest made to you will be subject to the 30% United States federal withholding tax, unless you provide us or our paying agent with a properly executed (1) IRS Form W-8BEN (or other applicable form) claiming an exemption from or reduction in withholding under the benefit of an applicable tax treaty or (2) IRS Form W-8ECI (or other applicable form) stating that interest paid on your Note is not subject to withholding tax because it is effectively connected with your conduct of a trade or business in the United States. The certification requirement described above may require a non-United States Holder that provides an IRS form to also provide its TIN. Prospective investors should consult their tax advisors regarding the certification requirements for non-United States Holders.

A non-United States Holder generally will not be subject to United States federal income or withholding tax on gain and any accrued interest recognized on the sale, exchange, redemption, retirement or other disposition of a Note unless (1) such gain is effectively connected with a trade or business conducted by the non- United States Holder within the United States (and, if required by an applicable income tax treaty, is attributable to a United States permanent establishment maintained by the non-United States Holder), (2) such holder is an individual who was present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met (in which case, except as otherwise provided by an applicable income tax treaty, such gain, which may be offset by United States source capital losses, generally will be subject to a flat 30% United States federal income tax, even though the holder is not considered a resident alien under the Code) or (3) in the case of accrued interest, such accrued interest does not qualify for the exemption from United States federal income tax and United States federal withholding tax discussed above.

If interest on the Notes or gain from a disposition of the Notes is effectively connected with a non-United States Holder's conduct of a United States trade or business (and, if required by an applicable income tax treaty, is attributable to a United States permanent establishment maintained by the non-United States Holder), the non-United States Holder generally will be subject to United States federal income tax on the interest or gain on a net basis in the same manner as United States Holders. For effectively-connected interest, the 30% withholding tax described above will not apply (assuming an appropriate certification is timely provided). A foreign corporation that is a holder of a Note also may be subject to a branch profits tax equal to 30% of its effectively connected earnings and profits for the taxable year, subject to certain adjustments, unless it qualifies for a lower rate under an applicable income tax treaty.

#### *Backup Withholding and Information Reporting*

Backup withholding and information reporting generally will not apply to payments made by us or our paying agents, in their capacities as such, to a non-United States Holder of a Note if the holder has provided the required certification that it is not a United States person as described above, provided that neither we nor our paying agent has actual knowledge that the holder is a United States person. However, we or our paying agent may be required to report to the IRS and to non-United States Holders payments of interest on the Notes and the amount of tax, if any, withheld with respect to those payments. Copies of the information returns reporting such interest payments and any withholding may also be made available to the tax authorities in the country in which such non-United States Holders reside under the provisions of a treaty or agreement.

If a non-United States Holder sells a Note outside the United States through a non-U.S. office of a non-U.S. broker and the sales proceeds are paid to the non-United States Holder outside the United States, then backup withholding and information reporting generally will not apply to that payment. However, information reporting, but not backup withholding, will apply to a payment of sales proceeds, even if that payment is made outside the United States, if a non-United States Holder sells a Note through a non-U.S. office of a broker that is:

a United  
States  
person;

a controlled  
foreign  
corporation  
for United  
States  
federal  
income tax  
purposes;

a foreign  
person 50%  
or more of  
whose gross  
income is  
effectively  
connected  
with a  
United  
States trade  
or business  
for a  
specified  
three-year  
period; or

S-35

---

a foreign partnership, if at any time during its tax year, one or more of its partners are United States persons, as defined in Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership or if, at any time during its tax year, the foreign partnership is engaged in a United States trade or business;

unless such broker has documentary evidence in its possession of the non-United States Holder's foreign status and has no knowledge to the contrary, or the non-United States Holder otherwise establishes an exemption.

Payment of the proceeds from a disposition by a non-United States Holder of a Note made to or through the United States office of a broker will be subject to information reporting and backup withholding unless the non-United States Holder certifies that it is not a United States person or otherwise establishes an exemption from information reporting and backup withholding.

Non-United States Holders should consult their own tax advisors regarding application of backup withholding in their particular circumstance and the availability of and procedure for obtaining an exemption from backup withholding under current Treasury Regulations. Any amounts withheld under the backup withholding rules from a payment to a non-United States Holder will be allowed as a refund or a credit against the holder's United States federal income tax liability, provided the required information is timely furnished to the IRS.

The underwriters are offering the notes subject to their acceptance of the notes from us and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the notes offered by this prospectus supplement are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all the notes offered by this prospectus supplement if any such notes are taken.

The underwriters initially propose to offer part of the notes directly to the public at the public offering prices set forth on the cover page of this prospectus supplement and may offer the notes to certain dealers at a price that represents a concession not in excess of 0.400% of the principal amount of the Notes due 2020 and 0.500% of the principal amount of the Notes due 2040. Any such dealers may resell any notes purchased from the underwriters to certain other brokers or dealers at a discount not to exceed 0.250% of the principal amount of the Notes due 2020 and 0.250% of the principal amount of the Notes due 2040. After the initial offering of the notes, the offering price and other selling terms may from time to time be varied by the representatives.

The estimated offering expenses payable by us, exclusive of the underwriting discount, are approximately \$1.5 million.

In order to facilitate the offering of the notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the prices of the notes. Specifically, the underwriters may over-allot in connection with the offering, creating short positions in the notes for their own account. In addition, to cover over-allotments or to stabilize the prices of the notes, the underwriters may bid for, and purchase notes on the open market. Finally, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the notes in the offering, if the syndicate repurchases previously distributed notes in transactions to cover syndicate short positions, in stabilization transactions or otherwise. Any of these activities may stabilize or maintain the market price of the notes above independent market

levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended.

Prior to the offering, there have been no active markets for the notes. The underwriters have advised us that certain of the underwriters presently intend to make markets in the notes as permitted by applicable laws and regulations. Such underwriters are not obligated, however, to make the markets in the notes and any such market making may be discontinued at any time at the discretion of such underwriters. Accordingly, no assurance can be given as to the liquidity of, or trading markets for, the notes.

The prospectus as supplemented by this prospectus supplement in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering. The representatives may agree to allocate a number of notes of each series to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters that may make Internet distributions on the same basis as other allocations.

### **Conflict of Interest**

The underwriters and their affiliates have from time to time provided, and expect to provide in the future, investment banking, commercial banking and other financial transactions with us and our affiliates, for which they have received and may continue to receive customary fees and commissions. In particular, certain of the underwriters and/or their affiliates may be lenders under our term loan due May 2012 and/or holders of any notes tendered in our concurrent tender offer, and may therefore receive more than 5% of the net proceeds of this offering by reason of the repayment of such debt and/or the purchase of the notes tendered in our concurrent tender offer. See Use of Proceeds. Therefore, one or more of the underwriters may be deemed to have a conflict of interest with us within the meaning of Rule 2720. Accordingly, this offering will be conducted in accordance with Rule 2720.

- (c) to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospective Directive) subject to obtaining the prior consent of the representatives for any such offer; or
- (d) in any other circumstances which do not require the publication by

the Issuer of a  
prospectus  
pursuant to  
Article 3 of the  
Prospectus  
Directive.

For the purposes of this provision, the expression an offer of notes to the public in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe the notes, as the same may be varied in that Member State by any measure

## **QUEST DIAGNOSTICS INCORPORATED**

### **The Company**

We are the nation's leading provider of diagnostic testing, information and services, providing insights that enable physicians and other healthcare professionals to make decisions to improve health. We offer patients and physicians the broadest access to diagnostic laboratory services through our nationwide network of laboratories and our own patient service centers. We provide interpretive consultation through the largest medical and scientific staff in the industry, with approximately 900 M.D. s and Ph.D. s around the country. We are the leading provider of esoteric testing, including gene-based testing, the leading provider of anatomic pathology services, including dermatopathology, and the leading provider of testing for drugs of abuse. We are also a leading provider of testing for clinical trials and risk assessment services for the life insurance industry. We empower healthcare organizations and clinicians with state-of-the-art information technology solutions that can improve patient care and medical practice.

During 2006, we generated net revenues of \$6.3 billion and processed approximately 151 million requisitions for testing. Each requisition form accompanies a patient specimen, indicating the tests to be performed and the party to be

billed for the tests. Our customers include patients, physicians, hospitals, employers, governmental institutions and other commercial clinical laboratories. On May 31, 2007, we acquired AmeriPath Group Holdings, Inc., the ultimate parent of AmeriPath, Inc., which generated net revenues of \$752 million during 2006.

We operate a nationwide network of greater than 2,100 of our own patient service centers, principal clinical laboratories located in more than 30 major metropolitan areas throughout the United States and approximately 150 smaller rapid response laboratories (including, in each case, facilities operated at our joint ventures). We provide full esoteric testing services, including gene-based testing, on both coasts through our Quest Diagnostics Nichols Institute laboratory facilities, located in San Juan Capistrano, California and Chantilly, Virginia, and through our Specialty Laboratories facility located in Valencia, California, as well as infectious and immunologic disease testing through our Focus Diagnostics laboratory facility, located in Cypress, California. Our AmeriPath subsidiary operates 40 outpatient anatomic pathology laboratories and provides inpatient anatomic pathology and medical director services for approximately 200 hospitals throughout the country. We also have laboratory facilities in Mexico City, Mexico, San Juan, Puerto Rico and Heston, England.

We are a Delaware corporation. We are the successor to MetPath Inc., a New York corporation that was organized in 1967. From 1982 to 1996, we were a subsidiary of Corning Incorporated, or Corning. On December 31, 1996, Corning distributed all of the outstanding shares of our common stock to the stockholders of Corning. In August 1999, we completed the acquisition of SmithKline Beecham Clinical Laboratories, Inc., or SBCL, which operated the clinical laboratory business of SmithKline Beecham plc, or SmithKline Beecham.

Our principal executive offices are located at 1290 Wall Street West, Lyndhurst, New Jersey 07071, telephone number: (201) 393-5000.

**CAUTIONARY STATEMENT FOR PURPOSES OF THE SAFE HARBOR  
PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995**

Some statements and disclosures in this prospectus, or any accompanying prospectus supplement and the documents incorporated herein or therein by reference are forward-looking statements. Forward-looking statements include all statements that do not relate solely to historical or current facts and can be identified by the use of words such as may, believe, will, expect, project, estimate, anticipate, plan or continue. These forward-looking statements are based on our current plans and expectations and are subject to a number of risks and uncertainties that could significantly cause our plans and expectations, including actual results, to differ materially from the forward-looking statements. The Private Securities Litigation Reform Act of 1995, or the Litigation Reform Act, provides a safe harbor for forward-looking statements to encourage companies to provide prospective information about their companies without fear of litigation.

We would like to take advantage of the safe harbor provisions of the Litigation Reform Act in connection with the forward-looking statements included or incorporated by reference in this document. Investors are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented or incorporated by reference in this document. The following important factors could cause our actual financial results to differ materially from those projected, forecasted or estimated by us in forward-looking statements:

- (a) Heightened competition, including increased pricing pressure, competition from hospitals, and competition from physicians.
- (b) Impact of changes in payer mix, including any shift from fee-for-service to capitated fee arrangements.
- (c) Adverse actions by government or other third-party payers, including unilateral reduction of fee

schedules payable to us, competitive bidding, an increase in the practice of negotiating for exclusive arrangements that involve aggressively priced capitated or fee for service payments by healthcare insurers or other payers and threats by third-party payers against physicians and patients that effectively eliminate their choice to use an out-of-network provider under preferred provider organization and similar plans.

- (d) The impact upon our testing volume and collected revenue or general or administrative expenses resulting from our compliance with Medicare and Medicaid administrative policies and requirements of third-party

payers. These include:

- (1) the requirements of Medicare carriers to provide diagnosis codes for many commonly ordered tests and the possibility that third-party payers will increasingly adopt similar requirements;
- (2) the policy of the Centers for Medicare and Medicaid Services to limit Medicare reimbursement for tests contained in automated chemistry panels to the amount that would have been paid if only the covered tests, determined on the basis of demonstrable medical necessity, had been ordered;
- (3) continued inconsistent practices among the different local carriers administering

Medicare;

- (4) inability to obtain from patients an advance beneficiary notice form for tests that cannot be billed without prior receipt of the form;
- (5) the potential need to monitor charges and lower certain fees to Medicare to comply with the Office of the Inspector General's proposed rule pertaining to exclusion of providers for submitting claims to Medicare containing charges that are substantially in excess of the provider's usual charges; and
- (6) increased challenges in operating as a non-contracted provider with respect to healthcare insurers.
- (e) Adverse results from pending or future

government investigations, lawsuits or private actions. These include, in particular, significant monetary damages, loss or suspension of licenses, and/or suspension or exclusion from the Medicare and Medicaid programs and/or criminal penalties.

- (f) Failure to efficiently integrate acquired businesses and to manage the costs related to any such integration, or to retain key technical, medical and management personnel.

- (g) Inability to obtain professional liability or other insurance coverage or a material increase in premiums for such coverage or reserves for self-insurance.
- (h) Denial of certification under the Clinical Laboratory Improvement Amendments of 1988, or CLIA, or denial of other licenses for any of our clinical laboratories under the CLIA standards, revocation or suspension of the right to bill the Medicare and Medicaid programs or other adverse regulatory actions by federal, state and local agencies.
- (i) Changes in federal, state or local laws or regulations, including changes that result in new or increased federal or state regulation of commercial clinical laboratories, including regulation by the Food and Drug Administration.
- (j) Inability to achieve expected benefits from our acquisitions of other businesses.

- (k) Inability to achieve additional benefits from our Six Sigma and standardization initiatives.
- (l) Adverse publicity and news coverage about the clinical laboratory industry or us.
- (m) Computer or other IT system failures that affect our ability to perform tests, report test results or properly bill customers, including potential failures resulting from the standardization of our IT systems and other system conversions, telecommunications failures, malicious human acts (such as electronic break-ins or computer viruses) or natural disasters.
- (n) Development of technologies that substantially alter the practice of laboratory medicine, including technology changes that lead to the development of more cost-effective tests such as (1) point-of-care tests that can be performed by physicians in their offices, (2) esoteric tests that can be

performed by hospitals in their own laboratories or (3) home testing that can be carried out without requiring the services of clinical laboratories.

- (o) Issuance of patents or other property rights to our competitors or others that could prevent, limit or interfere with our ability to develop, perform or sell our tests or operate our business.
- (p) Development of tests by our competitors or others which we may not be able to license, or usage of our technology or similar technologies or our trade secrets by competitors, any of which could negatively affect our competitive position.
- (q) Regulatory delay or inability to commercialize newly licensed tests or technologies or to obtain appropriate reimbursements for such tests.
- (r) Inability to obtain or maintain adequate patent and other proprietary rights protections of our products and

services or to successfully enforce our proprietary rights.

- (s) Impact of any national healthcare information network and the adoption of standards for health information technology interoperability that are incompatible with existing software and hardware infrastructure requiring widespread replacement of systems and/or software.
- (t) The impact of the privacy regulations, security regulations and standards for electronic transactions regulations issued under the Health Insurance Portability and Accountability Act of 1996 and any applicable state laws or regulations.
- (u) Inability to promptly or properly bill for our services or to obtain appropriate payments for services that we do bill.
- (v) Changes in interest rates and changes in our credit ratings from Standard & Poor's Rating

Services and  
Moody's Investor  
Services causing an  
unfavorable impact  
on our cost of and  
access to capital.

- (w) Inability to hire and retain qualified personnel or the loss of the services of one or more of our key senior management personnel.
- (x) Terrorist and other criminal activities, hurricanes, earthquakes or other natural disasters, which could affect our customers, transportation or systems, or our facilities, and for which insurance may not adequately reimburse us.

**USE OF PROCEEDS**

Except as may be described otherwise in a prospectus supplement or pricing supplement, we will add the net proceeds from the sale of the securities under this prospectus to our general funds and will use them for general corporate purposes, which may include, among other things, funding acquisitions or reducing or refinancing indebtedness.

**RATIO OF EARNINGS TO FIXED CHARGES**

Set forth below is information concerning the historical ratio of earnings to fixed charges for Quest Diagnostics. This ratio shows the extent to which our business generates enough earnings after the payment of all expenses other than interest to make required interest payments on our debt.

For this purpose, earnings consist of pretax income from continuing operations plus fixed charges. Fixed charges consist of interest expense and one-third of rental expense, representing that portion of rental expense we deemed representative of an appropriate interest factor.

We will refer to the debt securities and the guarantees of the debt securities or any combination of those securities, proposed to be sold under this prospectus and the applicable prospectus supplement or pricing supplement as the securities.

Because we are a well-known seasoned issuer, as defined in Rule 405 of the Securities Act of 1933, as amended, we may add to and offer additional securities including secondary securities and guarantees of securities by filing a prospectus supplement or term sheet with the SEC at the time of the offer.

The prospectus supplement or pricing supplement may also add to or change information contained in this prospectus. If so, the prospectus supplement or pricing supplement should be read as superseding this prospectus. You should read both this prospectus and any prospectus supplement or pricing supplement together with additional information described under the heading **Where You Can Find More Information**.

The prospectus supplement or pricing supplement to be provided with this prospectus will describe the terms of any securities that we offer and any initial offering price to the public in that offering, the purchase price and net proceeds that we will receive and the other specific terms related to our offering of the securities. For more details on the terms of the securities, you should read the exhibits filed with or incorporated by reference in our registration statement, of which this prospectus is a part.

**DESCRIPTION OF SENIOR DEBT SECURITIES  
AND GUARANTEES OF SENIOR DEBT SECURITIES**

We may issue senior debt securities from time to time in one or more distinct series. We may also issue guarantees of our senior debt securities from time to time.

As required by U.S. federal law for all bonds and notes of companies that are publicly offered, the senior debt securities will be governed by a document called an indenture. An indenture is a contract between us and a financial institution, in this case, The Bank of New York, acting as trustee on your behalf, or other trustee we may select. The indenture will be subject to and governed by the Trust Indenture Act of 1939.

We have filed the indenture as an exhibit to our Securities Act filings and Exchange Act reports that we have filed with the SEC. See [Where You Can Find More Information](#) for information on how to obtain a copy of the indenture.

The senior debt securities will be issued under an indenture dated as of June 27, 2001 as supplemented by a first supplemental indenture, dated as of June 27, 2001, each among Quest Diagnostics, as issuer, the Initial Subsidiary Guarantors, as guarantors, and The Bank of New York, as trustee, as further supplemented by a second supplemental indenture, dated as of November 26, 2001, among Quest Diagnostics, the Subsidiary Guarantors and The Bank of New York, as further supplemented by a third supplemental indenture, dated as of April 4, 2002, among Quest Diagnostics, the additional Subsidiary Guarantors and The Bank of New York, as further supplemented by a fourth supplemental indenture, dated as of March 19, 2003, among Quest Diagnostics, the additional Subsidiary Guarantors and The Bank of New York, as further supplemented by a fifth supplemental indenture, dated as of April 16, 2004, among Quest Diagnostics, the additional Subsidiary Guarantors and The Bank of New York, as further supplemented by a sixth supplemental indenture, dated as of October 31, 2005, among Quest Diagnostics, the additional Subsidiary Guarantors and The Bank of New York, as further supplemented by a seventh supplemental indenture, dated as of November 21, 2005, among Quest Diagnostics, the additional Subsidiary Guarantors and The Bank of New York and as further supplemented by an eighth supplemental indenture, dated as of July 31, 2006, among Quest Diagnostics, the additional Subsidiary Guarantors and The Bank of New York and as further supplemented by the ninth supplemental indenture dated September 30, 2006, among Quest Diagnostics, the additional Subsidiary Guarantors and The Bank of New York (collectively, the Indenture ). The Indenture for the senior debt securities may also be modified by future supplemental indentures. The terms of the senior debt securities include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939. A copy of the Indenture is available for inspection at the office of the trustee.

## **PLAN OF DISTRIBUTION**

We may sell the securities to or through agents or underwriters or directly to one or more purchasers.

### **By Agents**

We may use agents to sell the securities. The agents will agree to use their reasonable best efforts to solicit purchases of the period of their appointment.

### **By Underwriters**

We may sell the securities to underwriters. The underwriters may resell the securities in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the securities will be subject to certain conditions. Each underwriter will be obligated to purchase all the securities allocated to it under the underwriting agreement. The underwriters may change any initial public offering price and any discounts or concessions they give to dealers.

### **Direct Sales**

We may sell securities directly to investors. In this case, no underwriters or agents would be involved.

As one of the means of direct issuance of securities, we may utilize the services of any available electronic auction system to conduct an electronic dutch auction of the offered securities among potential purchasers who are eligible to participate in the auction of those offered securities, if so described in the prospectus supplement or pricing supplement.

### **General Information**

Any underwriters or agents will be identified and their compensation described in a prospectus supplement or pricing supplement.

We may have agreements with the underwriters, dealers and agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act or to contribute to payments they may be required to make.

Underwriters, dealers and agents may engage in transactions with, or perform services for, us or our subsidiaries in the ordinary course of their business.
