PROVIDENT FINANCIAL HOLDINGS  
REPORTS FIRST QUARTER RESULTS

Net Interest Margin Expands by 49 Basis Points

Operating Expenses Decline by 5%

Strong Capital Ratios Improve and Remain Significantly Above “Well-Capitalized” Regulatory Thresholds

Riverside, Calif. – October 23, 2008 – Provident Financial Holdings, Inc. (“Company”), NASDAQ GS: PROV, the holding company for Provident Savings Bank, F.S.B. (“Bank”), today announced first quarter earnings for the fiscal year ending June 30, 2009.

For the quarter ended September 30, 2008, the Company reported net income of \$329,000, or \$0.05 per diluted share (on 6.19 million weighted-average shares outstanding), compared to net income of \$612,000, or \$0.10 per diluted share (on 6.29 million weighted-average shares outstanding), in the comparable period a year ago. The decline in net income for the quarter ended September 30, 2008 was primarily attributable to an increase in the provision for loan losses, partly offset by an increase in net interest income (before the provision for loan losses), an increase in non-interest income and a decrease in operating expenses.

“We are pleased to report positive earnings in an economic environment that many have described as the worst in their careers,” said Craig G. Blunden, Chairman, President and Chief Executive Officer of the Company. “We will continue to take the

necessary steps to withstand the current operating environment and protect depositors and shareholders alike during these uncertain times.”

Return on average assets for the first quarter of fiscal 2009 was 0.08 percent, compared to 0.15 percent for the same period of fiscal 2008. Return on average stockholders’ equity for the first quarter of fiscal 2009 was 1.06 percent, compared to 1.91 percent for the comparable period of fiscal 2008.

On a sequential quarter basis, net income for the first quarter of fiscal 2009 increased by \$2.10 million, or 119 percent, to \$329,000 from a net loss of \$(1.75 million) in the fourth quarter of fiscal 2008; and diluted earnings per share increased \$0.33, or 118 percent, to \$0.05 from a loss of \$(0.28) in the fourth quarter of fiscal 2008. Return on average assets increased 51 basis points to 0.08 percent for the first quarter of fiscal 2009 from (0.43) percent in the fourth quarter of fiscal 2008 and return on average equity for the first quarter of fiscal 2009 was 1.06 percent, compared to (5.55) percent for the fourth quarter of fiscal 2008.

Net interest income before provision for loan losses increased by \$1.92 million, or 20 percent, to \$11.29 million in the first quarter of fiscal 2009 from \$9.37 million for the same period in fiscal 2008. Non-interest income increased \$1.10 million, or 80 percent, to \$2.48 million in the first quarter of fiscal 2009 from \$1.38 million in the comparable period of fiscal 2008. Non-interest expense decreased \$404,000, or five percent, to \$7.36 million in the first quarter of fiscal 2009 from \$7.77 million in the comparable period in fiscal 2008.

The average balance of loans outstanding increased by \$513,000 to \$1.38 billion in the first quarter of fiscal 2009 from \$1.37 billion in the same quarter of fiscal 2008,

while the average yield decreased by 25 basis points to 6.01 percent in the first quarter of fiscal 2009 from an average yield of 6.26 percent in the same quarter of fiscal 2008. The decrease in the average loan yield was primarily attributable to accrued interest income reversals on non-accrual loans and loan payoffs which had a higher average yield than the average yield of loans held for investment, partly offset by higher interest rates on newly originated loans. Total loans originated for investment in the first quarter of fiscal 2009 were \$13.4 million, which consisted primarily of single-family, commercial real estate and multi-family loans. This compares to total loans originated for investment of \$91.4 million (including \$42.2 million of loans purchased for investment) in the first quarter of fiscal 2008. The outstanding balance of "preferred loans" (multi-family, commercial real estate, construction and commercial business loans) increased by \$5.4 million, or one percent, to \$550.6 million at September 30, 2008 from \$545.2 million at September 30, 2007. Outstanding construction loans declined \$16.7 million, or 54 percent, to \$14.0 million at September 30, 2008 from \$30.7 million at September 30, 2007. The ratio of preferred loans to total loans held for investment increased to 41 percent at September 30, 2008 compared to 39 percent at September 30, 2007. Loan principal payments received in the first quarter of fiscal 2009 were \$50.9 million, compared to \$72.3 million in the same quarter of fiscal 2008.

Average deposits decreased by \$24.9 million to \$981.0 million and the average cost of deposits decreased by 81 basis points to 2.85 percent in the first quarter of fiscal 2009, compared to an average balance of \$1.01 billion and an average cost of 3.66 percent in the same quarter last year. Transaction account balances (core deposits) decreased by \$7.6 million, or two percent, to \$328.5 million at September 30, 2008 from

\$336.1 million at September 30, 2007. The decrease is primarily attributable to a decrease in savings and money market account balances, partly offset by an increase in checking account balances. Time deposits decreased by \$48.7 million, or seven percent, to \$627.3 million at September 30, 2008 compared to \$676.0 million at September 30, 2007. The decrease in time deposits is primarily attributable to the strategic decision to temper the interest rates the Bank pays on time deposits and compete less aggressively with those competitors paying higher than market rates. Also, it should be noted, that the Company does not have any brokered deposits.

The average balance of borrowings, which primarily consists of Federal Home Loan Bank ("FHLB") of San Francisco advances, increased \$34.2 million to \$478.9 million while the average cost of advances decreased 64 basis points to 3.90 percent in the first quarter of fiscal 2009, compared to an average balance of \$444.7 million and an average cost of 4.54 percent in the same quarter of fiscal 2008. The decrease in the average cost of borrowings was primarily the result of maturing long-term advances which had a higher average cost than the average cost of new advances. Additionally, short-term advance interest rates have fallen as a result of Federal Open Market Committee actions.

The net interest margin during the first quarter of fiscal 2009 increased 49 basis points to 2.89 percent from 2.40 percent during the same quarter last year. On a sequential quarter basis, the net interest margin in the first quarter of fiscal 2009 decreased four basis points from 2.93 percent in the fourth quarter of fiscal 2008.

During the first quarter of fiscal 2009, the Company recorded a loan loss provision of \$5.73 million, compared to a loan loss provision of \$1.52 million during the

same period of fiscal 2008. The loan loss provision in the first quarter of fiscal 2009 was primarily attributable to loan classification downgrades in the loans held for investment portfolio, partly offset by a decrease in loans held for investment.

Non-performing assets increased to \$44.7 million, or 2.80 percent of total assets, at September 30, 2008, compared to \$32.5 million, or 1.99 percent of total assets at June 30, 2008 and \$20.6 million, or 1.28 percent of total assets, at September 30, 2007. The non-performing assets at September 30, 2008 were primarily comprised of 93 single-family loans held for investment (\$26.0 million), three multi-family loans held for investment (\$4.7 million), 10 construction loans held for investment (\$2.8 million), 12 single-family loans repurchased from, or unable to sell to investors (\$1.6 million) and real estate owned comprised of 34 single-family properties and 14 undeveloped lots acquired in the settlement of loans (\$8.9 million). Net charge-offs for the quarter ended September 30, 2008 were \$3.11 million or 0.90 percent of average loans receivable, compared to \$3.14 million or 0.89 percent of average loans receivable for the quarter ended June 30, 2008 and compared to \$765,000 or 0.22 percent of average loans receivable in the comparable quarter last year.

Classified assets at September 30, 2008 were \$63.0 million, comprised of \$13.7 million in the special mention category, \$40.4 million in the substandard category and \$8.9 million in real estate owned. Classified assets at June 30, 2008 were \$68.6 million, consisting of \$29.4 million in the special mention category, \$29.8 million in the substandard category and \$9.4 million in real estate owned. Classified assets declined at September 30, 2008 from the June 30, 2008 level primarily as a result of a classified construction loan participation (\$7.7 million), which was paid-in-full in September 2008.

For the quarter ended September 30, 2008, 10 loans for \$5.2 million were modified from their original terms, were re-underwritten at current market interest rates and were identified in our asset quality reports as Restructured Loans. As of September 30, 2008, a total of \$15.5 million of loans have been modified: 23 are classified as pass (\$8.1 million); two are classified as substandard and remain on accrual status (\$268,000); and 17 are classified as substandard on non-accrual status (\$7.1 million).

The allowance for loan losses was \$22.5 million at September 30, 2008, or 1.67 percent of gross loans held for investment, compared to \$19.9 million, or 1.43 percent of gross loans held for investment at June 30, 2008. The allowance for loan losses at September 30, 2008 includes \$10.2 million of specific loan loss reserves, compared to \$6.5 million of specific loan loss reserves at June 30, 2008. Management believes that the allowance for loan losses is sufficient to absorb potential losses inherent in loans held for investment.

The increase in non-interest income in the first quarter of fiscal 2009 compared to the same period of fiscal 2008 was primarily the result of an increase in the gain on sale of loans and the gain on the sale of investment securities (the common stock of Freddie Mac, Fannie Mae and another company).

The gain on sale of loans increased to \$1.19 million for the quarter ended September 30, 2008 from \$122,000 in the comparable quarter last year. The increase was due to a higher loan sale volume and a higher average loan sale margin. Total loans sold for the quarter ended September 30, 2008 were \$155.3 million, up 60 percent from \$96.8 million for the same quarter last year. The average loan sale margin for mortgage banking was 72 basis points for the quarter ended September 30, 2008, compared to 11

basis points in the comparable quarter last year. The gain on sale of loans includes a \$752,000 recourse provision on loans sold that are subject to repurchase for the first quarter of fiscal 2009, compared to a \$43,000 recourse provision recovery in the comparable quarter last year. The mortgage banking environment remains highly competitive and volatile as a result of the well-publicized deterioration of the single-family real estate market.

The volume of loans originated for sale increased \$66.5 million, or 67 percent, to \$166.0 million in the first quarter of fiscal 2009 from \$99.5 million during the same period last year, the result of better liquidity in the secondary mortgage markets particularly in FHA/VA loan products. Total loan originations (including loans originated for investment, loans purchased for investment and loans originated for sale) were \$179.4 million in the first quarter of fiscal 2009, a decrease of \$11.5 million, or six percent, from \$190.9 million in the same quarter of fiscal 2008. The decrease in total loan originations was primarily attributable to the decline in loan purchases.

Twenty five real estate owned properties were sold for a net loss of \$(133,000) in the quarter ended September 30, 2008 compared to four real estate owned properties sold for a net gain of \$61,000 in the same quarter last year. As of September 30, 2008, the real estate owned balance was \$8.9 million (48 properties), compared to \$9.4 million (45 properties) at June 30, 2008.

The decrease in non-interest expense was primarily the result of decreases in compensation and other operating expenses, partly offset by increases in deposit insurance premiums and regulatory assessments. The decrease in compensation expense was the result of fewer mortgage banking personnel in the first quarter of fiscal 2009

compared to the same quarter of fiscal 2008 and lower ESOP expenses compared to the same quarter of fiscal 2008. Total ESOP expenses in the first quarter of fiscal 2009 decreased \$338,000, or 71 percent, to \$136,000 from \$474,000 in the same period of fiscal 2008, resulting from a lower average stock price and fewer shares allocated. The Company's efficiency ratio improved to 53 percent in the first quarter of fiscal 2009 from 72 percent in the first quarter of fiscal 2008. The improvement was the net result of an increase in net interest income, an increase in non-interest income and a decrease in non-interest expense.

The effective income tax rate for the first quarter of fiscal 2009 was 51.1 percent, compared to the effective income tax rate of 58.1 percent in the same quarter last year. The lower income tax rate was primarily the result of a lower percentage of permanent tax differences relative to income before taxes. The Company believes that the effective income tax rate applied in the first quarter of fiscal 2009 reflects its current income tax obligations.

As of September 30, 2008 the Bank exceeded all regulatory capital requirements and is deemed "well-capitalized" with Tangible Capital, Core Capital, Total Risk-Based Capital and Tier 1 Risk-Based Capital ratios of 7.42 percent, 7.42 percent, 12.96 percent and 11.71 percent, respectively. These ratios have improved from 7.19 percent, 7.19 percent, 12.25 percent and 10.99 percent, respectively, at June 30, 2008 and are well above the minimum required ratios to be deemed "well-capitalized" (5.00 percent for Core Capital, 10.00 percent for Total Risk-Based Capital and 6.00 percent for Tier 1 Risk-Based Capital). The Company did not repurchase any common stock during the quarter ended September 30, 2008.

The Bank currently operates 14 retail/business banking offices in Riverside County and San Bernardino County (Inland Empire), including the newly opened Iris Plaza office in Moreno Valley, California. Provident Bank Mortgage operates wholesale loan production offices in Pleasanton and Rancho Cucamonga, California and retail loan production offices in Glendora and Riverside, California.

The Company will host a conference call for institutional investors and bank analysts on Tuesday, October 28, 2008 at 9:00 a.m. (Pacific Time) to discuss its financial results. The conference call can be accessed by dialing (800) 398-9379 and requesting the Provident Financial Holdings Earnings Release Conference Call. An audio replay of the conference call will be available through Tuesday, November 4, 2008 by dialing (800) 475-6701 and referencing access code number 963505.

#### Safe-Harbor Statement

This press release and the conference call noted above contain statements that the Company believes are "forward-looking statements." These statements relate to the Company's financial condition, results of operations, plans, objectives, future performance or business. You should not place undue reliance on these statements, as they are subject to risks and uncertainties. When considering these forward-looking statements, you should keep in mind these risks and uncertainties, as well as any cautionary statements the Company may make. Moreover, you should treat these statements as speaking only as of the date they are made and based only on information then actually known to the Company. There are a number of important factors that could cause future results to differ materially from historical performance and these forward-looking statements. Factors which could cause actual results to differ materially include, but are not limited to, the credit risks of lending activities, including changes in the level and trend of loan delinquencies and write-offs; changes in general economic conditions, either nationally or in our market areas; changes in the levels of general interest rates, deposit interest rates, our net interest margin and funding sources; fluctuations in the demand for loans, the number of unsold homes and other properties and fluctuations in real estate values in our market areas; results of examinations of us by the Office of Thrift Supervision and our bank subsidiary by the Federal Deposit Insurance Corporation, the Office of Thrift Supervision or other regulatory authorities, including the possibility that any such regulatory authority may, among other things, require us to increase our reserve for loan losses or to write-down assets; our ability to control operating costs and expenses; our ability to implement our branch expansion strategy; our ability to successfully integrate any assets, liabilities, customers, systems, and management personnel we have acquired or may in the future acquire into our operations and our ability to realize related revenue synergies and cost savings within expected time frames and any goodwill charges related thereto; our ability to manage loan delinquency rates; our ability to retain key members of our senior management team; costs and effects of litigation, including settlements and judgments; increased competitive pressures among financial services companies; changes in consumer spending, borrowing and savings habits; legislative or regulatory changes that adversely affect

our business; adverse changes in the securities markets; inability of key third-party providers to perform their obligations to us; changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the Financial Accounting Standards Board; war or terrorist activities; other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing, products and services and other risks detailed in the Company's reports filed with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2008.
