Independent auditors' report on the review of interim financial information

To
The Board of Directors and Shareholders
Ultrapar Participações S.A.
São Paulo – SP

We have reviewed the individual and consolidated interim financial information of Ultrapar Participações S.A. (the Company), included in the Quarterly Financial Information - ITR of the Company for the quarter ended June 30, 2011, comprising the balance sheet as of June 30, 2011 and the respective statements of income and other comprehensive income for the three-month and six-month periods then ended, and changes in shareholders equity and cash flows for the six-month period then ended, including the summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation and fair presentation of these individual interim financial information in accordance with Committee for Accounting Pronouncement CPC 21 – Interim Financial Information and of the consolidated interim financial information in accordance with CPC 21 and the international standard IAS 34 – Interim Financial Reporting, as issued by the International Accounting Standards Board (IASB), as well as the presentation of these information consistent with rules issued by the Brazilian Securities and Exchange Commission (CVM), which are applicable to the preparation of the Quarterly Financial Information. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Brazilian and International review standards of interim financial information (NBC TR 2410 - Review of Interim Financial Information Performed by the Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might have been identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual Quarterly Financial Information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the Quarterly Financial Information described above, were not prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Financial Information and presented in a manner consistent with the rules of the Brazilian Securities and Exchange Commission (CVM).

Conclusion on the consolidated Quarterly Financial Information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the Quarterly Financial Information described above were not prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Financial Information and presented in a manner consistent with the rules issued by the Brazilian Securities and Exchange Commission (CVM).

Other matters

Statement of value added

We also reviewed the individual and consolidated interim information included in the statement of value added (DVA), for the quarter ended on June 30, 2011, which disclosure in the Quarterly Financial Information is required in accordance with regulations issued by Securities and Exchange Commission (CVM) applicable to the preparation of Quarterly Financial Information and supplementary information considered by IFRS, which does not require the disclosure of statement of value added (DVA). These statement were submitted to the same review procedures previously described and, based on our review, nothing has come to our attention that would lead us to believe that they have not been prepared, in all its material respects, in accordance with the Quarterly Financial Information taken as a whole.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Reais, unless otherwise stated)

1. Operations

Ultrapar Participações S.A. (“Company”), is a Company with headquarters at the Brigadeiro Luis Antônio Avenue, 1343 in São Paulo – SP, Brazil.

It engages in the investment of its own capital in services, commercial and industrial activities, including the subscription or acquisition of shares of other companies. Through its subsidiaries, it operates in the segments of liquefied petroleum gas - LPG distribution (“Ultragaz”), automotive fuels & lubricants distribution, and related businesses (“Ipiranga”), production and marketing of chemicals (“Oxitenó”), and storage services for liquid bulk (“Ultracargo”). The Company is also present in oil refining through its investment in Refinaria de Petróleo Riograndense S.A. (“RPR”).

2. Summary of significant accounting policies

Aiming at the convergence of the Brazilian accounting practices to the International Financial Reporting Standards (“IFRS”), during the years 2009 and 2010 the Brazilian Securities and Exchange Commission (“CVM”) issued several resolutions approving the Accounting Pronouncements Committee (“CPC”) pronouncements and established new accounting standards applicable to Brazil, effective in 2010 (“New BR GAAP”). These pronouncements are in accordance with the international accounting standards issued by the International Accounting Standards Board (“IASB”).

The interim financial information as of June 30, 2011 was prepared in accordance with Resolution CVM 581/09 (CPC 21) and International Accounting Standards (“IAS”) 34 - Interim Financial Reporting issued by IASB.

The Company’s individual interim financial information are stated according to the New BR GAAP, which differs from IFRS in two respects. IFRS does not require the equity method of accounting for the individual interim financial information of the parent company. Besides equity accounting, the parent company’s interim financial information in New BR GAAP contain another difference to IFRS, as expressly permitted by CPC 43 (R1), relating to the deferred charges, written off as of December 31, 2010, when such difference was eliminated.

The Company’s consolidated interim financial information are stated according to the IFRS, issued by IASB. The consolidated interim financial information as of 2010, previously reported in New BRGAAP (in accordance with CPC 43), is being presented considering the deferred charges written off in the IFRS initial adoption (in accordance with CPC 43 R1). See Note 28 for further detail of deferred charges amortization effects in the income statements in the period of 2010.

The accounting policies described below were applied by the Company and its subsidiaries in a consistent manner for all periods presented in these Company and consolidated interim financial information.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Reais, unless otherwise stated)

a. Recognition of income

Revenue from sales and costs are recognized when all risks and benefits associated with the products are transferred to the purchaser. Revenue from services provided and their costs are recognized when the services are provided. Costs of products sold and services provided include goods (mainly fuels/lubricants and LPG), raw materials (chemicals and petrochemicals) and production, distribution, storage and filling costs.

b. Cash equivalents

Include short-term highly-liquid investments that are readily convertible into a known amount of cash and are subject to an insignificant risk of change in value. See Note 4 for further detail on cash equivalents of the Company and its subsidiaries.

c. Financial instruments

In accordance with IAS 39 (CPC 38, 39 and 40), the financial instruments of the Company and its subsidiaries were classified into the following categories:

Measured at fair value through profit or loss: financial assets held for trading, that is, purchased or created primarily for the purpose of sale or repurchase in the short term, and derivatives. Changes in fair value are recorded as profit or loss, and the balances are stated at fair value.

Held to maturity: non-derivative financial assets with fixed or determinable payments, with fixed maturities for which the entity has the positive intent and ability to hold to maturity. The interest earned is recorded as income, and balances are stated at acquisition cost plus the interest earned.

Available for sale: non-derivative financial assets that are designated as available for sale or that were not classified into other categories. The interest earned is recorded as income, and the balances are stated at fair value. Differences between fair value and acquisition cost plus the interest earned are recorded in a specific account of the shareholders' equity. Gains and losses recorded in the shareholders' equity are included in income, in case of prepayment.

Loans and receivables: non-derivative financial instruments with fixed or determinable payments or receipts, not quoted in active markets, except: (i) those which the entity intends to sell immediately or in the short term and which the entity classified as measured at fair value through profit or loss; (ii) those classified as available for sale; or (iii) those the holder of which cannot substantially recover its initial investment for reasons other than credit deterioration. The interest earned is recorded as income, and balances are stated at acquisition cost plus the interest earned.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Reais, unless otherwise stated)

The Company and its subsidiaries designate certain derivative financial instruments used to hedge against changes in interest rates and variations in the exchange rate as cash flow hedge. In the case of derivatives designed to hedge cash flows against changes caused by the variation in interest rates, the difference between the fair value of the financial instrument and its updated cost is recognized as a valuation adjustment in the shareholders' equity, not affecting the income statement of the Company and its subsidiaries. In the case of foreign exchange derivatives designated by subsidiary RPR for hedge of future cash flows, the effect of variation in the derivative is posted to the valuation adjustment in shareholders' equity until the time when the hedged item affects the income statement. The difference between the fair value of the derivative and updated cost is recognized directly in income of the subsidiary.

The Company and its subsidiaries designate derivative financial instruments used to compensate variations due to changes in interest rates in the market value of contracted debt in Reais as fair value hedge. Such variations, as well as the difference between the derivative financial instrument fair value and its updated cost, are recognized in the income.

For further detail on financial instruments of the Company and its subsidiaries, see Notes 4, 14, and 20.

d. Current and non-current assets

The trade accounts receivable are recorded at the amount invoiced, adjusted to the present value if applicable, including all direct taxes of the Company and its subsidiaries.

Allowance for doubtful accounts is calculated based on estimated losses and is set at an amount deemed by management to be sufficient to cover any loss on realization of accounts receivable.

Inventories are stated at the lower of average acquisition or production cost, and replacement cost or net realizable value.

The other assets are stated at the lower of cost and realizable value, including, if applicable, the interest earned, monetary changes and changes in exchange rates incurred or less a provision for loss and, if applicable, adjustment to present value (see Note 2.r).

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Reais, unless otherwise stated)

e. Investments

Investments in subsidiaries are valued by the equity method of accounting in the interim financial information of the parent company.

Investments in companies in which management has a significant influence or in which it holds 20% or more of the voting stock, or that are part of a group under shared control are also accounted for the equity method of accounting (see Note 11). In the consolidated interim financial information the investments under shared control are consolidated proportionally by the Company (See Note 3).

The other investments are stated at acquisition cost less provision for loss, unless the loss is considered temporary.

f. Property, plant and equipment

Recorded at acquisition or construction cost, including financial charges incurred on property, plant and equipment under construction, as well as maintenance costs resulting from scheduled plant outages and estimated costs to remove, to decommission or to restore assets. Property, plant and equipment acquired before December 31, 1997 are adjusted for inflation as of that date.

Depreciation is calculated using the straight-line method, for the periods mentioned in Note 12, taking into account the economic life of the assets, and are periodically revised.

Leasehold improvements are depreciated over the shorter of the contract term and useful/economic life of the property.

g. Financial leases

• Finance leases

Certain lease contracts transfer substantially all the risks and benefits associated with the ownership of an asset to the Company and its subsidiaries. These contracts are characterized as finance leases, and assets thereunder are stated at fair value or, if lower, present value of the minimum payments under the relevant contracts. The items recognized as assets are depreciated at the depreciation rates applicable to each group of assets in accordance with Note 12. Financial charges under the finance lease contracts are allocated to income over the contract term, based on the amortized cost and actual interest rate method (see Note 14.g).

• Operating leases

There are lease transactions where the risks and benefits associated with the ownership of the asset are not transferred and where the purchase option at the end of the contract is equivalent to the market value of the leased asset. Payments made under an operating lease contract are recognized as expenses in the income statement on a straight-line basis over the term of the lease contract, in accordance with Note 21.d).

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Reais, unless otherwise stated)

h. Intangible assets

Intangible assets include assets acquired by the Company and its subsidiaries from third parties, according to the main criteria below (see Note 13):

- Goodwill is carried net of accumulated amortization as of December 31, 2008, when it ceased to be amortized. Goodwill generated as from January 1, 2009 is shown as intangible asset corresponding to the positive difference between the amount paid or payable to the seller and the fair value of the assets and liabilities of the acquired entity, and is tested annually to verify the existence of probable losses (impairment). In accordance with IFRS 3(R), goodwill is allocated to the respective cash generating units for impairment testing purposes.
- Bonus disbursements as provided in Ipiranga's agreements with reseller gas stations and major consumers are recorded when incurred and amortized according to the term of the agreement.
- Other intangible assets acquired from third parties, such as software, technology and commercial property rights, are measured at the total acquisition cost less accumulated amortization expenses.

The Company and its subsidiaries have not recorded intangible assets that were created internally or that have an indefinite useful life, except for goodwill.

i. Current and non-current liabilities

Current and noncurrent liabilities are stated at known or calculable amounts plus, if applicable, related charges, monetary changes and changes in exchange rates incurred until the date of the interim financial information. When applicable, the current and noncurrent liabilities are recorded in present value based on interest rates that reflect the term, currency and risk of each transaction. Transaction costs incurred and directly attributable to the activities necessary for contracting debt or loans or by issuing debt bonds, as well as premiums in the issuance of debentures and other debt or equity instruments, are appropriated to their instrument and amortized to income over their term.

j. Income and social contribution taxes on profit

Current and deferred income tax (IRPJ) and social contribution (CSLL) are calculated based on the current rates of income tax and social contribution on profit, including the value of tax incentives, as stated in Note 9.b).

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Reais, unless otherwise stated)

k. Assets retirement obligation – fuel tanks

This provision corresponds to the legal obligation to remove Ipiranga's underground fuel tanks located at Ipiranga-branded gas stations after a certain period. The estimated amount of the obligation to remove this fuel tank is recorded as a liability when tanks are installed. The amount is recorded in property, plant and equipment and depreciated over the respective useful life of the tanks. The amounts recognized as a liability are adjusted until the respective tank is removed (see Note 16). The estimated removal cost is revised periodically.

l. Provision for contingencies

A provision for contingencies is created for quantifiable contingent risks, when chance of loss is more-likely-than-not in the opinion of management and internal and external legal counsel, and the amounts are recorded based on evaluation of the outcomes of the legal proceedings (see Note 21.a).

m. Actuarial obligation for post-employment benefits

Reserves for actuarial liabilities for post-employment benefits granted and to be granted to employees, retirees, and pensioners are based on an actuarial calculation prepared by an independent actuary, using the projected unit credit method, as described in Note 22.b).

n. Transactions in foreign currency

Transactions in foreign currency carried out by the Company or its subsidiaries are translated into their functional currency at the exchange rate prevailing on the date of each transaction. Outstanding monetary assets and liabilities of the Company and its subsidiaries are translated at the exchange rate prevailing on the balance sheet date. The effect of the difference between those exchange rates is recognized in income until their realization.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Reais, unless otherwise stated)

o. Basis for translation of interim financial information of foreign-based subsidiaries

Assets and liabilities of the subsidiaries Oxiteno México S.A. de C.V. and its subsidiaries, located in Mexico (functional currency: Mexican Peso), and Oxiteno Andina, C.A., located in Venezuela (functional currency: Bolivares Fortes), denominated in currencies other than that of the Company (functional currency: Real), are translated at the exchange rate in effect on the date of the interim financial information. Gains and losses resulting from changes in these foreign investments are directly recognized in the shareholders' equity as cumulative translation adjustments and will be recognized as income if these investments are disposed of. The recorded balance in other comprehensive income and presented in the shareholders' equity as cumulative translation adjustments as of June 30, 2011 was R\$ 19,828 of exchange rate loss (R\$ 18,597 loss as of December 31, 2010).

For IFRS purposes, based on IAS 29, from 2010, Venezuela is regarded as a hyperinflationary economy. As a result, the interim financial information of Oxiteno Andina C.A. were adjusted by the Venezuelan Consumer Price Index (CPI).

Assets and liabilities of the other foreign subsidiaries, which do not have administrative autonomy, are considered extended activities of the parent company and are translated at the exchange rate in effect by the end of the respective period. Gains and losses resulting from changes in these foreign investments are directly recognized as financial income. The loss recognized as income as of June 30, 2011 amounted to R\$ 857 (R\$ 860 gain as of June 30, 2010).

p. Use of judgment

The interim financial information require the use of judgment and estimates for the accounting of certain assets, liabilities and results. In these estimates, the Company and subsidiaries' management use the best information available at the time of preparation of the interim financial information, as well as the experience of past and current events, also considering assumptions regarding future events. The interim financial information therefore include estimates related mainly to determining the fair value of financial instruments (Notes 4, 14 and 20), the determination of provisions for income taxes (Note 9), the useful life of property, plants and equipments (Note 12), recovery value of long-lived assets (Note 13), provisions for tax, civil and labor liabilities (Note 21.a) and estimates for the preparation of actuarial reports (Note 22). The actual result of the transactions and information may differ from estimates.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Reais, unless otherwise stated)

q. Impairment of assets

The Company reviews, at least annually, the carrying value of assets for their possible impairment and whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use or disposal. In cases where future expected cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of these assets. The factors considered by the Company in performing this assessment include current operating results, trends, and prospects, as well as the effects of obsolescence, demand, competition, and other economic factors. No impairment was recorded in the abovementioned periods.

r. Adjustment to present value

The subsidiaries booked the adjustment to present value of ICMS credit balances on property, plant and equipment (CIAP – see Note 7). The Company and its subsidiaries reviewed all items classified as long-term and, where relevant, short-term assets and liabilities and did not identify the need to adjust other balances to present value.

s. Statements of value added

The Company and its subsidiaries prepare the statements of value added, individual and consolidated, according to CPC 09 - Statement of Value Added, as an integral part of the New BR GAAP interim financial information as applicable to public companies, while for IFRS purposes they represent additional financial information.

t. New pronouncements not yet adopted

Some standards, amendments and interpretations to IFRS issued by IASB have not yet taken effect for the period ended June 30, 2011:

- Limited exemption from Comparative IFRS 7 Disclosures for First-time Adopters.
- Improvements to IFRS 2010.
- IFRS 9 Financial Instruments
- Prepayment of a minimum fund requirement (Amendment to IFRIC 14)
- Amendments to IAS 32 Classification of rights issues
- Amendments to IAS 19 - Employee Benefits
- Consolidated Financial Statements - IFRS 10
- Joint Arrangements- IFRS 11
- Disclosure of Interests in Other Entities- IFRS 12
- Fair Value Measurement - IFRS 13
- Amendments to IAS 1 -Presentation of Financial Statements

CPC has not yet issued statements equivalent to the above IFRS pronouncement, but is expected to do so before the date they become effective. The early adoption of IFRS pronouncements is subject to prior approval of the CVM.

The Company and its subsidiaries have not estimated the impact of these new standards on their interim financial information.

On August 10, 2011 the Company's Board of Directors authorized the conclusion of these interim financial information.

3. Principles of consolidation and investments in affiliates

The consolidated interim financial information were prepared following the basic principles of consolidation established by IFRS. Investments of one company in the other, balances of asset and liability accounts and revenues and expenses were eliminated, as well as the effects of transactions conducted between the companies. The non-controlling interests in subsidiaries is indicated in the interim financial information.

The consolidated interim financial information include the following direct and indirect subsidiaries:

(*)The Company maintains a shared equity interest in these companies, whose articles of organization establish a joint control. These joint ventures are recognized by the Company using proportionate consolidation, as allowed by IAS 31.

RPR is primarily engaged in oil refining, Maxfácil Participações S.A. is primarily engaged in the management of Ipiranga-branded credit cards, and União Vopak Armazéns Gerais Ltda. is primarily engaged in liquid bulk storage in the port of Paranaguá.

Business combination – Acquisition of Distribuidora Nacional de Petróleo Ltda. (“DNP”)

On November 1, 2010, the Company, through its subsidiary Ipiranga Produtos de Petróleo S.A. (“IPP”), acquired a 100% equity interest in DNP. The total acquisition amount, after working capital adjustment, was of R\$ 73,427. This acquisition reinforces the strategy of expansion, initiated with the acquisition of Texaco, to the midwest, northeast and north of Brazil where the consumption growth has been above the national average and the market share of Ipiranga is lower than that in the south and southeast.

The acquisition cost was allocated among the identified assets acquired and liabilities assumed, valued at fair value. During the process of identification of assets and liabilities, intangible assets which were not recognized in the acquired entity’s books were also taken into account. The goodwill based on expected future earnings is R\$ 16,699. The value added for assets acquired, which was determined based on a report prepared by an independent appraiser, is R\$ 54,349, which reflects the difference between the market value and the book value of the assets.

The table below summarizes the fair values of the assets acquired and liabilities assumed as of the completion of the acquisition:

	R\$
Current assets	
Cash and cash equivalents	2,322
Trade accounts receivable	15,295
Inventories	18,003
Other	9,672
	45,292
Non-current assets	
Property, plant and equipment	15,977
Intangible	46,650
Other	8,254
Goodwill	16,699
	87,580
Total assets acquired and goodwill	132,872

4. Financial assets

Financial assets, excluding cash and bank deposits, are substantially represented by money invested: (i) in Brazil, in debentures, certificates of deposit of first-rate financial institutions linked to the Interbank Certificate of Deposit (“CDI”) and in Federal government bonds; (ii) abroad, in certificates of deposits of first-rate financial institutions and in short-term investment funds with a portfolio composed of bonds issued by the U.S. Government; and (iii) currency and interest rate hedging instruments.

• Cash and cash equivalents

Cash and cash equivalents are considered: (i) cash and bank deposits, and (ii) short-term investments, highly liquid, readily convertibles to a known amount of cash and which are subject to an insignificant risk of value change.
