Item 9. Regulation FD Disclosure.

The following information is furnished pursuant to Item 9, Regulation FD Disclosure and Item 12, Disclosure of Results of Operations and Financial Condition. The Company redefined its business segments to reflect changes made to its management structure and the way it evaluates its businesses. The Company now operates as three business segments, consisting of a Bath Products segment, a Plumbing Products segment and a Rexair segment. The Bath Products segment manufactures whirlpool baths, spas, showers, sanitary ware, including sinks and toilets, and bathtubs for the residential construction and remodeling markets. The Plumbing Products segment manufactures professional grade drainage, water control, commercial brass and PEX piping products primarily for the commercial and institutional construction, renovation and facilities maintenance markets. The Rexair segment manufactures premium vacuum cleaner systems sold through independent distributors in the direct sales retail channel. The Bath Products segment and Plumbing Products segment were previously classified by management as the Bath & Plumbing Products segment.

In connection with the new classification of the Company's business segments, the Company has restated its (i) audited consolidated financial statements as of September 30, 2002 and 2001, and for the three fiscal years ended September 30, 2002, and unaudited condensed consolidated financial statements as of March 31, 2003, and for the six month periods ended March 31, 2003 and 2002, and (ii) Management's Discussion and Analysis of Financial Condition and Results of Operations for the six month periods ended March 31, 2003 and 2002 and for the three fiscal years ended September 30, 2002. Copies of these items are attached hereto as Exhibits 99.1 and 99.2, respectively, and are hereby incorporated by reference herein.

In addition, the Company is disclosing the following information with respect to its Plumbing Products segment. The Plumbing Products segment is comprised solely of results related to the Zurn business in fiscal 2002. However, prior period results for this segment include the results of various businesses and assets that were sold. The Company is providing the following financial information for the Plumbing Products segment for the periods presented:

	<u>2000</u>	<u>2001</u>
Revenues	\$354.0	\$272.0
Net income	(42.3)	48.7

In order to provide information on a more comparable basis, the Company is also providing the following data for the Zurn business on a stand alone basis:

	<u>2000</u>	<u>2001</u>
Revenues	\$250.0	\$259.0
Adjusted EBITDA	53.8	63.4

The Zurn data for the periods presented can be reconciled to the Plumbing Products segment data as follows:

Edgar Filing: JACUZZI BRANDS INC - Form 8-K

	Zurn	Selkirk Europe	Fire Protection	U.S. Brass	Total

For the Fiscal Year Ended September 30, 2001:					
Net income	\$ 55.7	\$ (0.2)	\$	\$ (6.8)	\$ 48.7
Operating income	55.7	(0.2)		(6.8)	48.7
Depreciation and amortization	7.7				7.7
Adjusted EBITDA	\$ 63.4	\$ (0.2)		\$ (6.8)	\$ 56.4

Adjusted EBITDA as presented above is a non-GAAP measure which is presented because we believe that it is a useful indicator of our ability to incur and service debt. Adjusted EBITDA should not be construed as an alternative to net income (loss) or operating income (loss) as an indicator of our performance, or as an alternative to cash flow from operating activities, investing activities or financing activities as measures of liquidity. Adjusted EBITDA, as we calculate it, may not be comparable to similarly-titled measures reported by other companies. We have presented adjusted EBITDA for Zurn on a stand-alone basis because we believe that, by eliminating the adjusted EBITDA of the various businesses in our Plumbing Segment that we have sold, we have provided investors with more comparable data relating to our Plumbing Segment on a continuing basis.

We have also recently undertaken a review of our accounting policy for the Rexair distribution network. The network has a book value of \$64 million as of March 31, 2003 and is currently accounted for as an indefinite-lived intangible asset pursuant to SFAS No. 142. We may treat this asset as having a finite life pursuant to SFAS No. 142 in future periods. In such an event, although the future charges would be non-cash

items, our profitability would be reduced in future periods, with the amount being dependent on the life we use.
