Dr. Reddy's to present six abstracts at the 63rd Scientific Sessions of the American Diabetes Association

Hyderabad, India, June 13 2003:

Dr. Reddy's will present six abstracts, representing its discovery research findings, at the 63rd Scientific Sessions of the American Diabetes Association being held from June 13-17, 2003, at New Orleans, USA.

The abstracts being presented will feature the progress of Dr. Reddy's discovery programme, which will include demonstration of preclinical efficacy and safety of the Company's pipeline compounds in development for treatment of type 2 diabetes, discovery of potential new diagnostic markers for onset of type 2 diabetes and mechanisms of accelerated cardiovascular disease in diabetics.

This is the third successive year that the Company's scientists are presenting their research findings at the ADA. The annual American Diabetes Association meetings are the premier platform for presentation of diabetes related research. The abstracts are peer-reviewed before being accepted for presentation.

The Company also announced that it will hold its Scientific Advisory Board meeting in New Orleans on June 24, 2003. The Board, consisting of international scientific opinion leaders, will review the progress in the Company's discovery research programme in the areas of diabetes, cardiovascular disease and inflammation. This will be followed by a clinical consortium meeting in Atlanta on June 18, 2003. The consortium will consist of a panel of international experts who will review the progress of and strategy for the clinical development of the company's anti-cancer molecules.

About Dr. Reddy's

Established in 1984, Dr. Reddy's Laboratories (NYSE: RDY) is an emerging global pharmaceutical company with proven research capabilities. The Company is vertically integrated with a presence across the pharmaceutical value chain. It produces finished dosage

forms, active pharmaceutical ingredients and biotechnology products and markets them globally, with focus on India, US, Europe and Russia. The Company conducts research in the areas of cancer, diabetes, cardiovascular, inflammation and bacterial infection.

This press release includes forward-looking statements, as defined in the U.S. Private Securities Litigation Reform Act of 1995. We have based these forward-looking statements on our current expectations and projections about future events. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results to differ materially. Such factors include, but are not limited to, changes in local and global economic conditions, our ability to successfully implement our strategy, the market acceptance of and demand for our products, our growth and expansion, technological change and our exposure to market risks. By their nature, these expectations and projections are only estimates and could be materially different from actual results in the future.

Notes to the Editor:

The American Diabetes Association is a leading nonprofit health organization based in the US and provides diabetes research, information and advocacy. The Scientific Sessions is an annual scientific meeting organized by the ADA. More than 8000 attendees are expected to attend the 63rd Scientific Sessions. The attendees would include physicians, scientists, and other healthcare professionals involved in diabetes research and care.

The sessions are designed to provide attendees with knowledge of basic and clinical diabetes research, opportunity to interact with world leaders in the field, and facilitate the exchange of cutting-edge research and treatment recommendations.
