ITEM 8.01 -- OTHER EVENTS.

DUSA Pharmaceuticals, Inc. ("DUSA") issued a press release on October 20, 2005, attached to and made a part of this report, announcing the final results from an independent investigator study using Levulan(R) (aminolevulinic acid HCl)

## Edgar Filing: DUSA PHARMACEUTICALS INC - Form 8-K

photodynamic therapy together with intense pulsed light (IPL) for the treatment of photodamaged skin. The report was published in the October 2005 issue of the American Medical Association journal 'Archives of Dermatology'. DUSA provided Levulan(R) and financial support for the study.

Except for historical information, this news release contains certain forward-looking statements that involve known and unknown risk and uncertainties, which may cause actual results to differ materially from any future results, performance or achievements expressed or implied by the statements made. These forward-looking statements relate to the results from DUSA's own on-going study and the expectations for the timing of those results. The risks and factors that may cause differing results include the regulatory process, the results of ongoing clinical studies, continued funding for the on-going and future studies, and other risks identified in DUSA's SEC filings from time to time.
