Registrant ( Gorman-Rupp or the Company ) designs, manufactures and sells pumps and related equipment (pump and motor controls) for use in water, wastewater, construction, industrial, petroleum, original equipment, agriculture, fire protection, heating, ventilating and air conditioning ( HVAC ), military and other liquid-handling applications.

**PRODUCTS**

The Company operates principally in one business segment, the manufacture and sale of pumps and related fluid control equipment and systems. The following table sets forth, for the years 2007 through 2009, the total net sales, income before income taxes and total assets (\$000 omitted) of the Company.

	2009	2008	2007
Net Sales	\$ 266,242	\$ 330,646	\$ 305,562
Income Before Income Taxes	27,255	40,494	35,383
Assets	249,424	231,538	211,534

The Company's product line consists of pump models ranging in size from 1/4 to 144 and ranging in rated capacity from less than one gallon per minute to in excess of 750,000 gallons per minute. The types of pumps which the Company produces include self priming centrifugal, standard centrifugal, magnetic drive centrifugal, axial and mixed flow, rotary gear, diaphragm, bellows and oscillating.

The pumps have drives that range from 1/35 horsepower electric motors up to much larger electric motors or internal combustion engines. Many of the larger units comprise encased, fully integrated sewage pumping stations. In certain cases, units are designed for the inclusion of customer-supplied drives.

The Company's larger pumps are sold principally for use in the construction, industrial, sewage and waste handling fields; for boosting low residential water pressure; for pumping refined petroleum products, including the ground refueling of aircraft; for fluid control in heating, ventilating and air conditioning (HVAC) applications; and for various agricultural purposes. Additionally, pumps manufactured for fire protection are used for sprinkler systems, fire hydrants, stand pipes, fog systems and deluge systems at hotels, banks, factories, airports, schools, public buildings and hundreds of other facilities throughout the world. Pumps are also utilized for dewatering and flood control purposes.

Many of the Company's smallest pumps are sold to customers for incorporation into such products as food processing, chemical, photo processing, waste treatment, HVAC equipment, appliances, solar heating, and for automated explosives detection systems in airports.

**ITEM 1. BUSINESS CONTINUED**

**MARKETING**

Except for government and export sales, the Company's pumps are marketed in the United States and Canada through a network of about 1,000 distributors, through manufacturers' representatives (for sales to many original equipment manufacturers), through third-party distributor catalogs, and by direct sales. The Company is continuously seeking alliances to further enhance marketing opportunities. Government sales are handled directly by the Company; and export sales are made primarily through foreign distributors and representatives. During 2009, 2008 and 2007, there were no shipments to any single customer that exceeded 10% of total net sales.

Gorman-Rupp continues to actively pursue international business opportunities and, in 2009, shipped its pumps to over 100 countries across the globe. In April 2007, the Company's wholly owned subsidiary, The Gorman-Rupp International Company, purchased a 90% controlling equity interest in Wavo Pompen B.V. located in The Netherlands, which was subsequently renamed Gorman-Rupp Europe B.V. The Company's foreign operations do not involve financial or other material risks due to their small size, both individually and collectively.

As a result of this active pursuit of international business, approximately \$96.4 million of 2009 sales were made to customers in over 100 countries outside the United States, as compared to \$103.2 million in 2008 and \$88.1 million in 2007. International sales represented 36%, 31% and 29% of total sales in 2009, 2008 and 2007, respectively. No sales made to customers in any one foreign country amounted to more than 5% of total sales during 2009, 2008 or 2007.

The Company continues its efforts to penetrate international markets principally by its aggressive response to worldwide pumping needs.

**COMPETITION**

Since the late 1990's, a number of consolidations have occurred within the highly competitive pump industry. As a consequence, numerous pump competitors now exist as subsidiaries, divisions or departments within larger corporations. Foreign-sourced pumps have also increasingly penetrated into the Company's domestic markets.

Gorman-Rupp estimates that 80 other domestic and global companies selling pumps and pump units compete in one or more of the lines of business and applications which comparable products of the Company are utilized.

International competitors are based mostly in Europe and Asia. Many pumps are specifically designed and engineered for a particular customer's application. The Company believes that proper application, product performance, and quality of delivery and service are the principal methods of competition, and attributes its success to its continued emphasis in these areas.

**PURCHASING AND PRODUCTION**

Virtually all materials, supplies, components and accessories used by the Company in the fabrication of its products, including all castings (for which most patterns are made and owned by the Company), structural steel, bar stock, motors, solenoids, engines, seals, and plastic and elastomeric components are purchased by the Company from other suppliers and manufacturers. No purchases are made under long-term contracts and the Company is not dependent upon a single source for any materials, supplies, components or accessories which are of material importance to its business.

**Table of Contents**

**PART I CONTINUED**

**ITEM 1. BUSINESS CONTINUED**

The Company purchases motors for its polypropylene bellows pumps and magnetic drive pumps from several alternative vendors; and motor components for its large submersible pumps, and motors and engines for its pumps systems from a limited number of suppliers. Small motor requirements are also currently sourced from alternative suppliers.

The other production operations of the Company consist of the machining of castings, the cutting, shaping and welding of bar stock and structural members, the design and assembly of electrical control panels, the manufacture of a few minor components, and the assembling, painting and testing of its products. Virtually all of the Company's products are tested prior to shipment.

**OTHER ASPECTS**

As of December 31, 2009, the Company employed approximately 957 persons, of whom approximately 568 were hourly employees. The Company has no collective bargaining agreements, has never experienced a strike and considers its labor relations to be satisfactory.

Although the Company owns a number of patents, and several of them are important to its business, Gorman-Rupp believes that the business of the Company is not materially dependent upon any one or more patents. The Company's patents, trademarks and other intellectual property are adequate for its business purposes.

The backlog of orders at December 31, 2009 was valued at \$93.7 million compared to \$107.8 million at December 31, 2008. About 99% of the Company's backlog of unfilled orders is scheduled to be shipped during 2010, with the remainder during 2011.

**AVAILABLE INFORMATION**

The Company maintains a website accessible through its Internet address of [www.gormanrupp.com](http://www.gormanrupp.com). Gorman-Rupp makes available free of charge on or through [www.gormanrupp.com](http://www.gormanrupp.com) its Annual Report to Shareholders, its annual reports on Form 10-K, its quarterly reports on Form 10-Q, and its current reports on Form 8-K, and any amendments to those reports, as soon as reasonably practicable after those reports (and any amendments) are electronically filed with or furnished to the Securities and Exchange Commission (the Commission). As noted in Gorman-Rupp's Annual Report to Shareholders, a paper copy of the Company's Form 10-K is also available free of charge upon written request to the Company's Corporate Secretary. However, the information contained on the Company's website is not a part of this Form 10-K or any other report filed with or furnished to the Commission.

**ITEM 1A. RISK FACTORS**

***Market influences and cost pressures***

The overall pump industry is cyclical in nature, and some of its business activity is generally related to conditions in the durable goods and capital equipment markets. The Company cannot predict the timing or extent of future economic or market swings. Additionally, raw material and energy purchases are major drivers of costs in the manufacture of pumps, and these costs are highly unpredictable. While efforts are made to recoup higher production costs through increased prices, the future acceptability of such price increases by customers is not guaranteed due to the highly competitive market place.

**Table of Contents****PART I CONTINUED****ITEM 1A. RISK FACTORS CONTINUED*****Family ownership of common equity***

A substantial percentage of the Company's Common Shares is held by various members of the Gorman and Rupp families and their affiliates. These family holdings do not typically trade; therefore, the Common Shares, in part because of these circumstances, generally have a history of relatively thin trading experiences on the NYSE Amex Exchange.

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

The Company has not received any written comments from the Commission staff regarding its periodic or current reports under the Securities Exchange Act of 1934 within 180 days before the end of its fiscal year to which this Form 10-K relates.

**ITEM 2. PROPERTIES**

All of the production operations of the Company are conducted at its plants located in Mansfield and Bellville, Ohio; Toccoa, Georgia; Royersford, Pennsylvania; St. Thomas, Ontario, Canada; County Westmeath, Ireland; and Leeuwarden, The Netherlands. All of these properties, except the plants in Leeuwarden, The Netherlands and County Westmeath, Ireland are owned in fee without any material encumbrance. The Company similarly owns a facility in Sparks, Nevada comprising a training center and warehouse, and a former production plant in Oklahoma now used for warehousing and office space. In addition, the Company leases warehouse facilities in Bangkok, Thailand and Culemborg, The Netherlands to house pumps and pump parts. The Company's various production facilities and warehouses are described below in more detail.

- (1) The original production plant, located on a 26 acre site, was built in 1917 and has been expanded on several occasions, the latest in 1973. During the fourth quarter 2009, all operations from this facility were relocated to a newly constructed facility near the Mansfield Lahm Airport.
- (2) This facility, also situated on the foregoing 26 acre site, has been frequently expanded, most recently in 1994

and includes a modern testing facility.

(3) This facility is located on 3.4 acres adjacent to the Company's 26 acre site. This facility comprised human resources and advertising operations for the Mansfield Division, and the Company's training center. During the fourth quarter 2009, all operations from this facility were relocated to a newly constructed facility near the Mansfield Lahm Airport.

(4) This facility was built in 1920 and is located on 3.4 acres adjacent to the Company's 26 acre site. This facility was renovated in 1983. During the fourth quarter 2009, all operations from this facility were relocated to a newly constructed facility near the Mansfield Lahm Airport.

- (5) In 1997, the Company purchased 90 acres of undeveloped land near the Mansfield Lahm Airport for future expansion and consolidation of facilities for the Mansfield Division and the Corporate Office. In 1998, design work and site preparation began on the new consolidated facilities project. In 2000, the first phase of the manufacturing and warehousing facility was completed, and the machining, welding and fabrication operations of the Mansfield Division were relocated to this facility. Construction of the second phase began in the third quarter 2008. In the fourth quarter 2009, the second phase was completed, and most of the remaining operations of

the Mansfield Division and the Corporate offices were relocated to this facility.

- (6) This facility, which comprises the production operations of the Industries Division, is situated on an 8.5 acre site. The initial portion of this plant was built in 1953 and has been expanded on several occasions, most recently in 1973-74.
- (7) This facility, which supports Patterson Pump Company, is situated on a 31 acre site. Between 1989 and 2000, the facility was expanded on several occasions, including the addition of a modern 400,000 gallon testing facility and office.
- (8) This facility, which is adjacent to the main plant, is operated by Patterson Pump

Company and is utilized for light manufacturing and inventory warehousing purposes.

(9) The plant in St. Thomas, Ontario is operated by Gorman-Rupp of Canada, Ltd. It is situated on an 11 acre site and has undergone a number of expansions since it was established in 1960, the latest being completed in 1998.

(10) This leased manufacturing facility is occupied by Patterson Pump Ireland Limited and consists of 8,000 square feet of manufacturing space and 2,000 square feet of office space. The lease is for a 20 year term ending March 31, 2022, with certain lease termination options throughout the time period.

(11) This facility supports the operations of American Machine and Tool Co., Inc. of Pennsylvania. It is located on a 3.25 acre site and has undergone a number of expansions since it was established in 1962.

(12) This facility also supports the operations of American Machine and Tool Co., Inc. of Pennsylvania. It is located on a 2.2 acre site and has undergone two expansions since it was established in 1982. Ten thousand square feet of this facility was leased to an unrelated company under a 60 month agreement which ended April 1, 2009.

(13) The Oklahoma facility is located on 4.5 acres of land.

Originally built in 1973, the facility was expanded four times between 1978 and 1991. In 1980, a contiguous parcel of two acres of undeveloped land was purchased for future needs.

(14) This leased warehousing facility near Leeuwarden, The Netherlands is used by Gorman-Rupp Europe B.V. for storage of product, and by the Mansfield Division as a warehouse for distributing product principally to European customers. The ending date for the lease agreement is December 31, 2012.

(15) This leased warehousing facility near Leeuwarden, The Netherlands is used by Gorman-Rupp Europe B.V. for office facilities, the assembly of pumps and the storage of

product. The ending date for the lease agreement is December 31, 2012.

(16) This leased warehousing facility in Culemborg, The Netherlands is used by Gorman-Rupp Europe B.V. for storage of product. The ending date for the lease agreement is December 31, 2012.

(17) This leased warehousing facility in Culemborg, The Netherlands is used by Gorman-Rupp Europe B.V. for storage of product. The ending date for the lease agreement is July 31, 2012.

(18) The Nevada facility consists of office and warehouse space. The Company utilizes 13,000 square feet of the facility, and 13,000 square feet is leased on a month to month basis to

an unrelated party.

- (19) This leased warehousing facility is used by the Mansfield Division for distributing product principally to customers in Asia. The lease is on a month to month basis.

Gorman-Rupp considers its plants, machinery and equipment to be well maintained, in good operating condition and adequate for the present uses and business requirements of the Company.

**ITEM 3. LEGAL PROCEEDINGS**

For more than ten years, numerous business entities in the pump and fluid-handling industries, as well as a multitude of companies in many other industries, have been targeted in a series of lawsuits in several jurisdictions by various individuals seeking redress to claimed injury as a result of the entities' alleged use of asbestos in their products. The Company and two of its subsidiaries remain drawn into this mass-scaled litigation, typically as one of hundreds of co-defendants in a particular proceeding. (The vast majority of these cases are against Patterson Pump Company.) The allegations in the lawsuits involving the Company and/or its subsidiaries are vague, general and speculative, and most cases have not advanced beyond the early stage of discovery. In certain situations, the plaintiffs have voluntarily dismissed the Company and/or its subsidiaries from some of the lawsuits after the plaintiffs have acknowledged that there is no basis for their claims. In other situations, the Company and/or its subsidiaries have been dismissed from some of the lawsuits as a result of court rulings in favor of motions to dismiss and/or motions for summary judgment. In thirty-two cases, the Company and/or its subsidiaries have entered into nominal economic settlements recommended and paid for by insurers, coupled with dismissal of the lawsuits. Insurers of the Company have engaged legal counsel to represent the Company and its subsidiaries and to protect their interests.

In addition, the Company and/or its subsidiaries are parties in a small number of legal proceedings arising out of the ordinary course of business. Management does not currently believe that these proceedings, or the industry-wide asbestos litigation, will materially impact the Company's results of operations, liquidity or financial condition.

**ITEM 9A. CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. An evaluation was carried out under the supervision and with the participation of the Company's Management, including the principal executive officer and the principal financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report on Form 10-K. Based on that evaluation, the principal executive officer and the principal financial officer have concluded that the Company's disclosure controls and procedures maintained effective internal control over financial reporting as of December 31, 2009.

**Management's Report on Internal Control over Financial Reporting**

There were no material weaknesses identified at any Division or Subsidiary of the Company during 2009. The 2009 Report of Management on Internal Control over Financial Reporting and the related Report of Independent Registered Public Accounting Firm on Internal Control over Financial Reporting are incorporated herein by this reference from pages 28 and 29 of the Company's 2009 Annual Report to Shareholders.

**Changes in Internal Control over Financial Reporting**

There were no other changes in the Company's disclosure controls and procedures that occurred during the most recent fiscal year that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. Subsequent to the date of the evaluation, there have been no significant changes in the Company's disclosure controls and procedures that could significantly affect the Company's internal control over financial reporting.

**ITEM 9B. OTHER INFORMATION**

The Company has no information required to be disclosed in a report on Form 8-K during the fourth quarter of the year covered by this report on Form 10-K that has not otherwise been reported on a Form 8-K.

**ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE CONTINUED**

With respect to executive officers, attention is directed to Part I of this Form 10-K.

The Company has adopted a Code of Ethics that applies to its President and Chief Executive Officer and Chief Financial Officer (as well as to all employees, officers and Directors). The Code of Ethics is set forth as an exhibit to this Form 10-K. In addition, the Code of Ethics is posted on the Company's website accessible through its Internet address of [www.gormanrupp.com](http://www.gormanrupp.com) (under the heading "Investor Relations" and the sub-heading "Corporate Governance").

**ITEM 11. EXECUTIVE COMPENSATION**

Attention is directed to the sections "Board of Directors and Directors' Committees", "Executive Compensation", "Compensation Discussion and Analysis", "Pension Benefits" and "Compensation Committee Report" in the Company's definitive Notice of 2010 Annual Meeting of Shareholders and related Proxy Statement (filed pursuant to Regulation 14A not later than 120 days after the end of the fiscal year covered by this Form 10-K), which are incorporated herein by this reference.

**ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS**

Attention is directed to the sections "Principal Shareholders", "Election of Directors" and "Shareholdings by Named Executive Officers" in the Company's definitive Notice of 2010 Annual Meeting of Shareholders and related Proxy Statement (filed pursuant to Regulation 14A not later than 120 days after the end of the fiscal year covered by this Form 10-K), which are incorporated herein by this reference.

On May 22, 1997, the Company's Board of Directors adopted a Non-Employee Directors' Compensation Plan. This Plan became effective without shareholder approval and constitutes the Company's only equity compensation plan. The Plan provides (originally through 2006) for share compensation for regular services performed by each of the Company's non-employee Directors. In addition to cash compensation, non-employee Directors receive an automatic award of 500 Common Shares (from the Company's treasury) on each July 1. On July 27, 2006, the Company's Board of Directors adopted a resolution extending the Non-Employee Directors' Compensation plan for an additional term until the earlier of (i) May 21, 2017, (ii) at such time as all of the Company's Common Shares authorized for award under the Plan and registered under Form S-8 Registration Statement No. 333-30159 shall have been awarded and issued, (iii) at such time as the Company deregisters any Common Shares not issued under the foregoing Registration Statement, or (iv) at such time as the Plan is terminated by action of the Board of Directors. The number of Common Shares which may be awarded under the Plan cannot exceed 50,000, subject to certain conditions (e.g., stock splits, stock dividends).
