ITEM 8.01 OTHER EVENTS

On September 7, 2007, Delphi Corporation (Delphi or the Company) filed a motion in the United States (U.S.) Bankruptcy Court for the Southern District of New York (the Bankruptcy Court) seeking authority to enter into a Warranty, Settlement, and Release Agreement (the Warranty Settlement Agreement) with General Motors Corporation (GM) to settle certain known warranty claims. Under the terms of the Warranty Settlement Agreement and subject to the approval of the Bankruptcy Court, Delphi will pay GM an estimated \$200 million, comprised of approximately \$130 million to be paid in cash over time as noted below, and up to approximately \$70 million to be paid in the form of delivery by Delphi to GM of replacement product. The Warranty Settlement Agreement settles all outstanding warranty claims and issues related to any component or assembly supplied by Delphi to GM, which as of August 10, 2007 are (a) known by GM, subject to certain specified exceptions, (b) believed by GM to be Delphi's responsibility in whole or in part, and (c) in GM's normal investigation process, or which should have been within that process, but were withheld for the purpose of pursuing a claim against Delphi. Included in the settlement are all warranty claims set forth in GM's amended proof of claim filed on July 31, 2006 in connection with Delphi's bankruptcy proceedings (GM's Proof of Claim). In addition, the Warranty Settlement Agreement limits Delphi's liability related to certain other warranty claims that have become known by GM on or after June 5, 2007, and generally prohibits both GM and Delphi from initiating actions against the other related to any warranty claims settled in the agreement.

Pursuant to the Warranty Settlement Agreement, Delphi has advised GM that upon entry of an order approving the agreement, Delphi's claims agent would be directed (a) to reduce the liquidated component relating to warranty claims contained in GM's Proof of Claim by \$530,081,671, which includes, among other things, those personal injury claims asserted in GM's Proof of Claim that relate to warranty claims settled in the agreement, and (b) to expunge with prejudice the unliquidated component relating to warranty claims asserted in its proof of claim. Nothing contained in the Warranty Settlement Agreement would be construed to reduce any amounts to be paid to GM pursuant to the terms of the Global Settlement Agreement and/or the Master Restructuring Agreement entered into by Delphi and GM and incorporated in Delphi's proposed plan of reorganization.

Delphi would pay the amounts due under the Warranty Settlement Agreement on or before November 1, 2007; provided that Delphi can elect to defer these payments until it receives payments from GM, on or about the time of its emergence from bankruptcy. In the event of such a deferral, GM would set-off these payments against the amounts then payable to Delphi by GM. In the event Delphi elects to defer these payments, GM would receive interest at the rate of 6% per annum on the payment from November 1, 2007, until such time as the amounts are paid by Delphi or set-off against amounts payable by GM.

More information regarding Delphi's bankruptcy proceedings and for a copy of the motion requesting approval of the GM Warranty Settlement Agreement, including the form of agreement filed with the Bankruptcy Court, is available on www.delphidocket.com.

FORWARD-LOOKING STATEMENTS

This Current Report on Form 8-K, including the exhibits being filed as part of this report, as well as other statements made by Delphi may contain forward-looking statements that reflect, when made, the Company's current views with respect to current events and financial performance. Such forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the Company's operations and business environment which may cause the actual results of the Company to be materially different from any future results, express or implied, by such forward-looking statements. In some cases, you can identify these statements by forward-looking words such as may, might, will, should, expects, plans, anticipates, believes, estimates, predicts, the negative of these terms and other comparable terminology. Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the following: the ability of the Company to continue as a going concern; the ability of the Company to operate pursuant to the terms of the debtor-in-possession financing facility; the terms of any reorganization plan ultimately confirmed; the Company's ability to obtain Bankruptcy Court approval with respect to motions in the chapter 11 cases prosecuted by it from time to time; the ability of the Company to prosecute, confirm and consummate one or more plans of reorganization with respect to the chapter 11 cases; the Company's ability to satisfy the terms and conditions of the new Equity Purchase

and Commitment Agreement; risks associated with third parties seeking and obtaining Bankruptcy Court approval to terminate or shorten the exclusivity period for the Company to propose and confirm one or more plans of reorganization, for the appointment of a chapter 11 trustee or to convert the cases to chapter 7 cases; the ability of the Company to obtain and maintain normal terms with vendors and service providers; the Company's ability to maintain contracts that are critical to its operations; the potential adverse impact of the chapter 11 cases on the Company's liquidity or results of operations; the ability of the Company to fund and execute its business plan (including the transformation plan described in Item 1. Business Potential Divestitures, Consolidations and Wind-Downs of the Annual Report on Form 10-K for the year ended December 31, 2006 filed with the U.S. Securities and Exchange Commission (the "SEC")) and to do so in

a timely manner; the ability of the Company to attract, motivate and/or retain key executives and associates; the ability of the Company to avoid or continue to operate during a strike, or partial work stoppage or slow down by any of its unionized employees and the ability of the Company to attract and retain customers. Additional factors that could affect future results are identified in the Company's Annual Report on Form 10-K for the year ended December 31, 2006, including the risk factors in Part I. Item 1A. Risk Factors, contained therein and the Company's quarterly periodic reports for the subsequent periods, including the risk factors in Part II. Item 1A. Risk Factors, contained therein, filed with the SEC. Delphi disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise. Similarly, these and other factors, including the terms of any reorganization plan ultimately confirmed, can affect the value of the Company's various prepetition liabilities, common stock and/or other equity securities. Additionally, no assurance can be given as to what values, if any, will be ascribed in the bankruptcy cases to each of these constituencies. A plan of reorganization could result in holders of Delphi's common stock receiving no distribution on account of their interest and cancellation of their interests. In addition, under certain conditions specified in the U.S. Bankruptcy Code, a plan of reorganization may be confirmed notwithstanding its rejection by an impaired class of creditors or equity holders and notwithstanding the fact that equity holders do not receive or retain property on account of their equity interests under the plan. In light of the foregoing, the Company considers the value of the common stock to be highly speculative and cautions equity holders that the stock may ultimately be determined to have little or no value. Accordingly, the Company urges that appropriate caution be exercised with respect to existing and future investments in Delphi's common stock or other equity interests or any claims relating to prepetition liabilities.
