ITEM 1. BUSINESS

PROLOGIS TRUST

ProLogis Trust ("ProLogis") is a real estate investment trust ("REIT") that operates a global network of industrial distribution facilities. ProLogis owns (directly, through consolidated entities or through investments in other real estate entities accounted for under the equity method) 171.7 million square feet of industrial distribution facilities operating or under development in North America and Europe. Additionally, ProLogis owns, operates under lease agreements or has under development 369.9 million cubic feet of temperature-controlled distribution facilities (including 35.5 million cubic feet of dry distribution space located in temperature-controlled distribution facilities) located in the United States and Europe. This network of distribution facilities makes ProLogis the largest publicly held U.S.-based global owner and lessor of industrial distribution and temperature-controlled distribution facilities. The ProLogis Operating System(TM), comprised of the Market Services Group, the Global Services Group, the Global Development Group and the Integrated Solutions Group, combined with ProLogis' international network of distribution facilities, enables ProLogis to meet its customers' distribution space needs globally. ProLogis believes it has distinguished itself from its competition by developing an organizational structure and service delivery system built around its customers. ProLogis believes that its service approach, which combines international scope and expertise and a strong local presence in each of its target markets, makes it attractive to its targeted customer base that includes the largest global users of distribution facilities. ProLogis is organized under Maryland law and has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the "Code").

ProLogis' business strategy is designed to: (i) achieve long-term sustainable growth in cash flow; (ii) minimize the need to issue direct public debt or public equity capital; and (iii) increase the overall return on equity for shareholders. ProLogis has organized its business into three operating segments in order to achieve its objectives. For a discussion of certain financial information regarding each segment see Note 10 to ProLogis' Consolidated Financial Statements in Item 8. ProLogis' three operating segments are:

- Property Operations -- The long-term ownership, management and leasing of industrial distribution facilities in North America and Europe, primarily distribution space that is adaptable for both distribution and light manufacturing or assembly uses. This operating segment generates income

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

from rents and reimbursement of property operating expenses from unaffiliated customers and earns management fees from entities in which ProLogis has an ownership interest. As of December 31, 2000, in this operating segment ProLogis owned and operated (directly or through its consolidated and unconsolidated entities) 161.5 million square feet of operating facilities at an investment of \$6.0 billion. Of the total, 126.3 million square feet at an investment of \$4.3 billion are owned directly by ProLogis and its consolidated entities. Facilities in this operating segment located in North America aggregate 145.4 million square feet of the total with the remaining 16.1 million square feet located in Europe.

- Corporate Distribution Facilities Services Business ("CDFS Business") -- The development of industrial distribution facilities to be disposed of to unaffiliated customers or entities in which ProLogis has an ownership interest in North America and Europe or for a development fee for unaffiliated customers in North America and Europe. Income from this operating segment is derived from the profit resulting from the disposition of the facilities developed and from fees paid by customers for the development of facilities on their behalf. The development activities in this segment are performed directly by ProLogis, directly by a consolidated entity in which ProLogis recognizes substantially all of the economic benefits or through an unconsolidated entity, accounted for under the equity method, in which ProLogis recognizes substantially all of the economic benefits. Once an entity in which ProLogis has an ownership interest acquires the facilities from ProLogis or its consolidated and unconsolidated entities, the operations of these facilities and the management fees earned by ProLogis related to these facilities are reflected in ProLogis' property operations segment. As of December 31, 2000, ProLogis had (directly or through its consolidated and unconsolidated entities) 10.2 million square feet of distribution facilities under development with a total budgeted cost of \$491.4 million. Of the total,

1

8.7 million square feet at a total budgeted development cost of \$355.2 million were owned directly by ProLogis and its consolidated entity. Also, as of December 31, 2000, ProLogis owned or controlled (directly or through its consolidated and unconsolidated entities) 5,126 acres of land with the capacity for developing approximately 85.7 million square feet of distribution facilities. Of the total, 3,279 acres of land with the capacity for developing approximately 57.4 million square feet of distribution facilities were owned directly by ProLogis and its consolidated entity. Land positions in North America aggregated 2,385 acres with the remaining 2,741 acres located in Europe. Upon completion, ProLogis expects to dispose of the facilities developed to unaffiliated customers or to entities in which ProLogis has an ownership interest.

- Temperature-Controlled Distribution Operations -- The operation of temperature-controlled distribution facilities earning revenues from unaffiliated customers for various services associated with a temperature-controlled distribution environment. Such services include: (i) total supply chain management; (ii) management of customer inventory and related services, (i.e. case picking, sorting, labeling, shrink-wrapping and blast freezing); (iii) temperature-controlled product consolidation and transportation services; and (iv) third-party logistics services and facility management for leading grocery retailers. In this operating segment, ProLogis recognizes substantially all of the economic benefits of two companies that are accounted for under the equity method.

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

As of December 31, 2000, ProLogis' unconsolidated entities owned or operated under lease agreements 363.6 million cubic feet of temperature-controlled distribution space (including 35.5 million cubic feet of dry distribution space located in temperature-controlled distribution facilities) and had 6.3 million cubic feet of temperature-controlled distribution facilities under development. Of the total cubic feet in operation, 175.9 million cubic feet are located in the United States and 187.7 million cubic feet are located in Europe. The facilities under development are located in Anaheim (4.0 million cubic feet) and Houston (2.3 million cubic feet).

2000 OPERATING PERFORMANCE

Total funds from operations increased by \$56.5 million from \$320.2 million in 1999 to \$376.7 million in 2000. This increase was driven by ProLogis' successful operating and investment strategies. The contribution to total funds from operations by ProLogis' operating segments for 2000 and 1999 is as follows (see Note 10 to ProLogis' Consolidated Financial Statements in Item 8):

- 69.6% and 70.6% of total funds from operations is attributable to the property operations segment in 2000 and 1999, respectively;
- 27.5% and 20.3% of total funds from operations is attributable to the CDFS business segment in 2000 and 1999, respectively; and
- 2.9% and 9.1% of total funds from operations is attributable to the temperature-controlled distribution operations segment in 2000 and 1999, respectively.

Funds from operations is a performance measure used by REITs and it is defined and discussed in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations -- Liquidity of Capital Resources -- Funds from Operations".

ProLogis' net earnings attributable to Common Shares increased to \$157.7 million in 2000 from \$124.0 million in 1999. ProLogis generated earnings from operations of \$241.8 million in 2000, an increase of \$75.3 million over 1999. ProLogis' cash flow provided by operating activities for 2000 was \$336.8 million, an increase of \$65.4 million over 1999. See ProLogis' Consolidated Financial Statements in Item 8.

BUSINESS STRATEGY AND OPERATING SEGMENTS

Business Strategy

ProLogis was originally formed in 1991 with the objective of building a distribution and light manufacturing asset base at costs significantly below replacement cost and a land inventory for the future

development of industrial distribution facilities. Additionally, ProLogis intended to create a national operating company that would differentiate itself from its competition through its ability to meet a corporate customer's distribution facility requirements on a national, regional and local basis. In 1997, ProLogis expanded its property operations into Mexico and Europe to meet the needs of its targeted national and international customers as they expanded and reconfigured their distribution facility requirements globally. In December 1998, ProLogis added 54 operating facilities aggregating 5.2 million square feet in France to its European portfolio. To enhance its North American property operations and service platform, ProLogis completed a merger with Meridian

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

Industrial Trust Inc. ("Meridian"), a publicly held REIT, in 1999 adding 32.2 million square feet of operating facilities and 228 acres of land for future development to ProLogis' holdings. See Note 11 to ProLogis' Consolidated Financial Statements in Item 8.

Having established its core property operations business, in 1997 and 1998 ProLogis expanded its service platform by acquiring an international temperature-controlled distribution network. Additionally, the merger with Meridian added 15.2 million cubic feet of temperature-controlled distribution facilities to ProLogis' holdings in 1999. Also, to enhance its corporate distribution facilities services business, ProLogis acquired an industrial distribution facility development company with extensive holdings in the United Kingdom in August 1998.

To further its objective of increasing cash flows without raising additional capital through direct public debt and public equity offerings, ProLogis formed four ventures in 1999 and 2000. Each of the ventures owns operating facilities acquired primarily from ProLogis with equity contributed by third party investors. ProLogis maintains an ownership interest (from 20.0% to 50.0% as of December 31, 2000) in each of the ventures. ProLogis utilizes the ProLogis Operating System(TM) to provide asset and property management services to the ventures for a fee. In North America, ProLogis has an ownership interest in three ventures. These ventures own, on a combined basis, 20.9 million square feet of operating facilities at a combined investment of \$927.0 million as of December 31, 2000. ProLogis European Properties Fund, formed in 1999, has enabled ProLogis to take advantage of the growth opportunities in the European industrial distribution market by allowing ProLogis to access over 1.06 billion euros (the currency equivalent of approximately \$986.3 million as of December 31, 2000 based on currency exchange rates quoted by Reuters) of third party equity capital that has been committed by a group of institutional investors to ProLogis European Properties Fund through 2002. ProLogis European Properties Fund owns 14.4 million square feet of operating facilities at an investment of \$792.3 million as of December 31, 2000. See "Item 2. Properties -- Unconsolidated Entities -- Property Operations" and Note 4 to ProLogis' Consolidated Financial Statements in Item 8.

Also in 1999, ProLogis formed the Integrated Solutions Group (see "-- ProLogis Operating System(TM) -- Integrated Solutions Group") with the objective of increasing ProLogis' service income thereby growing cash flows in a less capital intensive manner. In 2000, ProLogis made investments in two logistics technology companies and began earning license fees for the non-exclusive use of the ProLogis Operating System(TM) by these companies.

ProLogis believes that its network of distribution facilities along with the ProLogis Operating System(TM) have positioned it to become the global leader in the industrial distribution facility industry. ProLogis' three operating segments are discussed in further detail below.

Property Operations Segment

Investments

In the property operations segment, ProLogis owned and operated (directly or through its consolidated and unconsolidated entities) 1,461 operating facilities aggregating 161.5 million square feet as of December 31, 2000. ProLogis' investment strategy with respect to the property operations segment is to focus primarily on generic distribution facilities with an average office finish level of less than 10%. ProLogis' distribution facilities are adaptable for both distribution and light manufacturing or assembly uses. ProLogis has invested in selected distribution markets in North America and Europe where it believes the distribution dynamics are strong and supply and demand factors allow for high occupancy levels and increasing rental rates. In making its

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

investment decisions, ProLogis evaluates market conditions that would indicate favorable

3

distribution growth prospects. Such conditions include: (i) growth in imports and exports; (ii) long-term cost and quality of labor advantages for domestic and international manufacturers (such as markets benefiting from the U.S./Mexico twin plant program); (iii) proximity to large regional and local population centers with good access to transportation networks; and (iv) a high ratio of distribution space per capita.

Property operations segment investment activities in 2000 included:

- During 2000, ProLogis European Properties Fund acquired operating facilities aggregating 11.2 million square feet and disposed of a 161,000 square foot operating facility. Of the operating facilities acquired in 2000, 9.6 million square feet were acquired from ProLogis or its consolidated and unconsolidated entities. These acquisitions include 60 facilities aggregating 6.6 million square feet owned by ProLogis European Properties S.a.r.l., a wholly owned entity of ProLogis until January 7, 2000 when ProLogis contributed 50.1% of its common stock to ProLogis European Properties Fund for an equity interest. The remaining 49.9% of the common stock of ProLogis European Properties S.a.r.l. was contributed to ProLogis European Properties Fund by ProLogis for an additional equity interest on January 7, 2001. As of December 31, 2000, ProLogis' ownership in ProLogis European Properties Fund was 34.4% (increasing to 45.6% as of January 7, 2001). See "Item 2. Properties -- Unconsolidated Entities -- Property Operations Segment" and Note 4 to ProLogis' Consolidated Financial Statements in Item 8.
- In North America, ProLogis North American Properties Fund I LLC and ProLogis Iowa I LLC ("ProLogis Principal") were formed in 2000. These ventures own 8.0 million and 0.4 million square feet of operating facilities, respectively, that were all previously owned by ProLogis or its consolidated entities. ProLogis California I LLC ("ProLogis California"), which was formed in 1999, grew from 11.5 million square feet of operating facilities as of December 31, 1999 to 12.4 million square feet of operating facilities as of December 31, 2000. The increase in 2000 is the net result of the acquisition of an additional operating facility from ProLogis, the completion of two developments and the disposition of three operating facilities.
- ProLogis acquired five operating facilities in 2000, four facilities aggregating 138,000 square feet located in Dallas and a 125,000 square foot facility located in Juarez, Mexico for a total investment of \$8.7 million. The four facilities in Dallas were acquired to complete a tax-deferred exchange transaction.

Operations

The property operations segment generated approximately 81% of ProLogis' total income in 2000 (including amounts recognized under the equity method with respect to ProLogis' unconsolidated entities). This operating segment generated approximately 85% and 94% of ProLogis' total income in 1999 and 1998, respectively, (including amounts recognized under the equity method with respect to ProLogis' unconsolidated entities). See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations -- Results of Operations -- Property Operations" and Notes 4 and 10 to ProLogis' Consolidated Financial Statements in Item 8.

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

Operational achievements in this operating segment in 2000 included:

- ProLogis' stabilized operating facilities aggregating 155.0 million square feet (including facilities owned by ProLogis and its consolidated and unconsolidated entities) was 96.2% leased (95.4% occupied) as of December 31, 2000. Also, as of December 31, 2000, ProLogis' total operating portfolio of 161.5 million square feet (including facilities owned by ProLogis and its consolidated and unconsolidated entities) was 94.1% leased (92.9% occupied). Stabilized facilities are those in which capital improvements, repositioning, new management and new marketing programs (or development and marketing, in the case of newly developed facilities) have been in effect for a sufficient period of time (generally 12 months) to achieve stabilized occupancy (typically 93%, but ranging from 90% to 95%, depending on the submarket and product type).
- During 2000, ProLogis and its consolidated and unconsolidated entities leased 36.3 million square feet of distribution space in 1,137 transactions. Rental rates on both new and renewed leases of previously

4

leased space increased 15.5% in 2000 and ProLogis' weighted average customer retention rate was 65.7% in 2000.

- ProLogis' "same store" portfolio of operating facilities (facilities owned by ProLogis and its consolidated and unconsolidated entities that were in operation throughout both 2000 and 1999) aggregated 105.6 million square feet. The net operating income (rental revenues less net rental expenses) of the "same store" portfolio increased by 5.94% in 2000 over 1999.

Market Presence

As of December 31, 2000, the operating facilities in the property operations segment that are owned by ProLogis (directly or through its consolidated entities) are located in 42 cities in 24 states and the District of Columbia in the United States, 4 cities in Mexico and 6 cities in 4 countries in Europe. No individual market represents more than 10% of ProLogis' total real estate assets. ProLogis' largest markets (based on cost) are Dallas/Fort Worth (9.2%), Chicago (7.3%), Atlanta (6.5%), San Francisco (South Bay) (5.4%), San Francisco (East Bay) (5.2%) and Houston (5.1%).

The 77 operating facilities owned by ProLogis California as of December 31, 2000 are all located in the Los Angeles/Orange County market. The 33 operating facilities owned by ProLogis North American Properties Fund I as of December 31, 2000 are located in 17 cities in 12 states. The three operating facilities owned by ProLogis Principal as of December 31, 2000 are all located in the Dallas/Ft. Worth market. The 104 operating facilities owned by ProLogis European Properties Fund (including facilities owned by ProLogis European Properties S.a.r.l.) as of December 31, 2000 are located in 15 cities in 6 countries in Europe (including 55 buildings in Paris, France). See "Item 2. Properties -- Facilities" and "Item 2. Properties -- Unconsolidated Entities -- Property Operations".

ProLogis has sought to achieve significant market presence through the development and acquisition of distribution facilities and master-planned distribution parks in its target market cities and selected submarkets of those cities. The target market cities and submarkets are selected when ProLogis' market research indicates that the long-term demand for distribution and light manufacturing space is stable to strong. ProLogis defines market presence not only in terms of square feet of facilities and acres of development land owned, but also by the extent ProLogis has developed relationships with customers in

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

such markets. ProLogis' operating strategy is designed to meet the needs of today's distribution space users, which means providing functional, cost-effective facilities with a comprehensive level of service. ProLogis believes that by being a significant local owner and developer in a given market, it can generate high relative rental rates and occupancy levels, primarily because it has the ability to reduce turnover by meeting its customers' needs to either expand or contract. With its network of distribution facilities and land positions, ProLogis is able to either relocate customers within its existing inventory of distribution space or develop new facilities to meet the customer's needs.

A strong market presence provides ProLogis with increased access to potential leasing and CDFS business segment transactions. ProLogis' experience has been that many members of the industrial brokerage community and many corporate users are motivated to develop relationships with the significant owners and developers in a particular market to facilitate their respective distribution needs. Having the opportunity to compete for a large percentage of the distribution space requirements in each target market is a crucial factor in achieving ProLogis' operating objectives.

Competition

In general, there are numerous other industrial distribution facilities located in close proximity to ProLogis' facilities. The amount of rentable distribution space available in any market could have a material effect on ProLogis' ability to rent space and on the rents that ProLogis can charge. In addition, in many of ProLogis' submarkets, institutional investors and owners and developers of industrial distribution facilities (including other REITs) compete for the acquisition, development and leasing of distribution space. Many of these entities have substantial resources and experience. Competition for acquisition of existing distribution

5

facilities and land, both from institutional capital sources and from other REITs, has increased over the past several years.

Property Management

ProLogis provides active and effective property management to directly serve its customers at the local level; a strategy that ProLogis believes will enhance the long-term economic performance of its operating facilities and increase cash flow. ProLogis' property management group seeks to provide exceptional customer service and attention to customer needs by developing and implementing proprietary operating, recruiting and training systems to achieve consistent levels of performance and professionalism throughout the ProLogis network. Of the operating facilities owned by ProLogis (directly or by its consolidated and unconsolidated entities) as of December 31, 2000, ProLogis' property management group was managing 97.5% of the North American operating facilities and 100.0% of the European operating facilities.

Customers

One of ProLogis' objectives is to develop a customer base in each market that is diverse in terms of industry concentration and represents a broad spectrum of international, national, regional and local distribution space users. As of December 31, 2000, ProLogis (including its consolidated and unconsolidated entities) had over 3,500 customers in 150.1 million square feet of occupied distribution space. ProLogis believes that having a large number of customers with generic space requirements in each submarket reduces its exposure to overall occupancy declines. ProLogis' largest customer (based on rental

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

income) accounted for 1.5% of ProLogis' 2000 rental income (on an annualized basis) for the year ended December 31, 2000. The annualized base rent for ProLogis' 25 largest customers (based on rental income) accounted for 13.2% of ProLogis' 2000 rental income (on an annualized basis) for the year ended December 31, 2000.

Employees

ProLogis and its consolidated entities directly employ approximately 640 persons in North America and Europe. Of the total, approximately 350 employees are assigned directly to the property operations segment. ProLogis' other employees may provide assistance in this operating segment. ProLogis believes its relationship with its employees to be good. ProLogis' employees are not represented by a collective bargaining agreement.

Seasonal Nature of the Business

The demand for industrial distribution space is not seasonal.

Future Plans

ProLogis believes that its current level of investment in the property operations segment in North America enables it to serve its customers at a high level and increase returns to shareholders. ProLogis' business plan for the property operations segment in North America calls for the expansion of its network of operating facilities to: (i) address the specific expansion needs of its customers; (ii) enhance its market presence in specific submarkets; or (iii) take advantage of opportunities where ProLogis believes it has the ability to achieve favorable returns, including the formation of ventures such as ProLogis North American Properties Fund I that will acquire facilities developed within the CDFS business segment.

ProLogis' market research and customer feedback continue to reflect strong demand for distribution space in Europe as cross-border trade continues to increase and many companies continue to move toward consolidation and reconfiguration of their distribution networks. Consolidation and the emergence of dominant regional distribution centers have provided, and ProLogis believes will continue to provide, opportunities for ProLogis as a single-source pan-European provider of distribution facilities. Consequently, ProLogis' business plan for the property operations segment in Europe emphasizes growth in key distribution markets, primarily from the development of facilities within ProLogis' CDFS business segment that will be acquired by ProLogis European Properties Fund and then managed by ProLogis.

6

ProLogis intends to self-fund its future investment activities in the property operations segment in 2001 with operating cash flow and the proceeds from dispositions of facilities to third parties and real estate entities in which ProLogis maintains an ownership interest. See the discussion of factors that could affect the future plans of ProLogis and its consolidated and unconsolidated entities in the property operations segment at "Item 7. Management's Discussion and Analysis of Results of Operations and Financial Condition -- Risk Factors".

CDFS Business Segment

Investments

ProLogis operates its CDFS business segment in North America directly and through ProLogis Development Services Incorporated ("ProLogis Development

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

Services"), a consolidated entity in which ProLogis realizes substantially all of the economic benefits. See "Item 2. Properties -- Consolidated Entities -- ProLogis Development Services". In Europe (excluding the United Kingdom), ProLogis directly operates the CDFS business segment. In the United Kingdom, the CDFS business segment is operated by Kingspark S.A. and its wholly owned subsidiary, Kingspark Group Holdings Limited ("ProLogis Kingspark") (collectively "the Kingspark entities"). Kingspark S.A. is an unconsolidated entity in which ProLogis recognizes substantially all of the economic benefits under the equity method through its ownership of 100% of Kingspark S.A.'s non-voting preferred stock. See "Item 2. Properties -- Unconsolidated Entities -- CDFS Business" and Note 4 to ProLogis' Consolidated Financial Statements in Item 8.

Within this operating segment, ProLogis, ProLogis Development Services and the Kingspark entities develop distribution facilities with the intent to dispose of the facilities to customers, third parties or entities in which ProLogis maintains an ownership interest. Also within this operating segment, ProLogis, ProLogis Development Services and the Kingspark entities develop facilities for customers or third parties for a development fee. Proceeds from the disposition of these facilities are redeployed into land acquisitions and other development opportunities. ProLogis addresses specific needs of customers with respect to a specialized facility or the need to have a facility in a market that ProLogis does not consider to have favorable dynamics by developing the facility on a fee development basis or through a pre-sale agreement within this operating segment.

As of December 31, 2000, all of ProLogis' development activities were part of the CDFS business segment. As of December 31, 2000, ProLogis, ProLogis Development Services and the Kingspark entities had 10.2 million square feet of facilities under development with a total budgeted development cost of \$491.4 million. Of the total, 8.7 million square feet with a total budgeted development cost of \$355.2 million are owned directly by ProLogis and ProLogis Development Services. Facilities under development in North America aggregated 6.3 million square feet at a total budgeted cost of \$257.5 million and facilities under development in Europe aggregated 3.9 million square feet at a total budgeted cost of \$233.9 million. These facilities are being developed with the objective of disposing of the facility to a third party or to an entity in which ProLogis has an ownership interest. To the extent the facilities are acquired by entities in which ProLogis has an ownership interest, ProLogis' continuing interest in the operations of these facilities will be included in its property operations segment (see "-- Property Operations Segment"). ProLogis Development Services and the Kingspark entities also earn fees under development management agreements. During 2000, 2.7 million square feet were developed under such agreements generating development fees of \$11.5 million.

ProLogis, ProLogis Development Services and the Kingspark entities have land positions (land owned or controlled through option, letter of intent, development rights agreement or contingent contract) aggregating 5,126 acres with the capacity for developing approximately 85.7 million square feet of distribution facilities. Of the total land positions, 3,279 acres, with the capacity for developing approximately 57.4 million square feet of distribution facilities, are owned or controlled by ProLogis and ProLogis Development Services. Land positions in North America total 2,385 acres with the capacity for developing approximately 42.3 million square feet of distribution facilities and land positions in Europe total 2,741 acres with the capacity for developing approximately 43.4 million square feet of distribution facilities.

CDFS business segment investment activities in 2000 included:

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

- Development starts aggregated 13.7 million square feet at a total budgeted cost of \$651.6 million. Of the total, 12.6 million square feet at a total budgeted cost of \$509.8 million were started by ProLogis and ProLogis Development Services. Development starts in North America in 2000 aggregated 8.0 million square feet at a total budgeted cost of \$329.6 million and development starts in Europe aggregated 5.7 million square feet at a total budgeted cost of \$322.0 million.
- Development completions aggregated 15.2 million square feet at a total budgeted cost of \$736.9 million. Of the total, 13.1 million square feet at a total budgeted cost of \$512.0 million were completed by ProLogis and ProLogis Development Services. Development completions in North America in 2000 aggregated 9.8 million square feet at a total budgeted cost of \$360.2 million and development completions in Europe aggregated 5.4 million square feet at a total budgeted cost of \$376.7 million.
- Land acquisitions in 2000 aggregated 1,158 acres, 846 acres in North America and 312 acres in Europe. This land can be used for the development of approximately 24.3 million square feet of distribution facilities.

Operations

The primary source of income in the CDFS business segment is the profits from dispositions of facilities developed and development management fees earned by ProLogis Development Services and the Kingspark entities. In 2000, the CDFS business generated \$121.9 million of ProLogis' total income as compared to 1999 and 1998 when the CDFS business generated \$70.5 million and \$20.5 million of ProLogis' total income, respectively. As a percentage of total income, this operating segment has increased in each of the last three years (to 18.9% in 2000 from 12.4% and 5.6% in 1999 and 1998, respectively). ProLogis' share of the net earnings of the Kingspark entities recognized under the equity method is included in this segment's total income (\$43.8 million in 2000, \$23.9 million in 1999 and \$2.9 million for the period from acquisition on August 14, 1998 to December 31, 1998).

The CDFS business segment generated funds from operations of \$126.8 million in 2000 (\$60.4 million in North America and \$66.4 million in Europe); \$76.5 million in 1999 (\$28.9 million in North America and \$47.6 million in Europe); and \$22.2 million in 1998 (\$17.3 million in North America and \$4.9 million in Europe). See "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations -- Results of Operations -- CDFS Business", "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations -- Funds from Operations" and Notes 4 and 10 to ProLogis' Consolidated Financial Statements in Item 8.

Operational achievements in this operating segment in 2000 included:

- ProLogis, ProLogis Development Services and the Kingspark entities disposed of 11.8 million square feet of distribution facilities developed and land parcels generating net proceeds of \$672.4 million.
- ProLogis Development Services and the Kingspark entities developed 2.7 million square feet of distribution facilities on behalf of customers under development management agreements. Fees and other miscellaneous income in the CDFS business segment aggregated \$18.7 million in 2000.

Market Presence

ProLogis' CDFS business spans substantially all of ProLogis' property operations markets. As of December 31, 2000, ProLogis had facilities under development in 16 cities in 11 states and the District of Columbia in the United

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

States, 2 cities in Mexico and 8 cities in 4 countries in Europe. As of December 31, 2000, ProLogis' land positions were located in 30 cities in 19 states and the District of Columbia in the United States, 4 cities in Mexico and 8 cities in 7 countries in Europe.

8

Competition

There are a number of other national, regional and local developers engaged in industrial distribution facility development in the same North American markets that ProLogis conducts business. Competition for land acquisitions, from both institutional capital sources and other REITs, has increased over the past several years. The disposition market in North America is competitive and is driven by the supply of new developments, access to capital and interest rate levels.

ProLogis believes that there are no other REITs or pan-European real estate operating companies in direct competition with its operations in Europe. However, there are a number of local and regional developers in ProLogis' target markets. As in North America, the disposition market in Europe is competitive and driven by the supply of new developments, access to capital and interest rate levels. However, the formation of ProLogis European Properties Fund provides ProLogis and the Kingspark entities with a source of capital that will allow them to dispose of the facilities they develop in the CDFS business segment at independently appraised values.

ProLogis believes that it, ProLogis Development Services and the Kingspark entities have a significant competitive advantage based upon the strategic locations of the extensive land positions owned or under control. Also, as the only distribution facilities and services provider operating on a national and pan-European basis, ProLogis believes it has differentiated itself from many of its competitors.

Customers

ProLogis leverages off its existing customer relationships, primarily within the property operations segment and utilizes the ProLogis Operating System(TM) in identifying and marketing its CDFS business. See "-- Property Operations -- Customers" and "-- ProLogis Operating System(TM)".

Employees

ProLogis and its consolidated entities directly employ approximately 640 persons in North America and Europe. Of the total, approximately 90 employees are assigned directly to the CDFS business segment. ProLogis' other employees may provide assistance in this operating segment. ProLogis believes its relationship with its employees to be good. ProLogis' employees are not represented by a collective bargaining agreement.

The Kingspark entities employ approximately 60 persons and these employees do not participate in a collective bargaining agreement. The Kingspark entities believe their relationship with their employees to be good.

Seasonal Nature of the Business

The demand for the industrial distribution facilities that are developed by ProLogis' CDFS business is not impacted on a seasonal basis. However, the development process can be impeded by weather, particularly during the winter months in certain markets, which can potentially delay construction completions.

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

Future Plans

ProLogis' objective is to utilize the capital generated in the CDFS business to self-fund future CDFS business activities in North America and Europe. In addition, proceeds from the disposition of operating facilities in the property operations segment to third parties can also be re-invested in new development facilities within the CDFS business segment. ProLogis believes that the reconfiguration of supply chains, necessitated by the need for customers to add efficiencies within their distribution networks, in both North America and Europe could favorably impact demand for the distribution facilities and distribution-related services provided by ProLogis within its CDFS business segment. Additionally, a limited supply of new state-of-the-art distribution space in Europe could also provide opportunities within this operating segment. See the discussion of factors that could affect the future plans of ProLogis, ProLogis Development Services and the Kingspark entities in the CDFS business segment at "Item 7. Management's Discussion and Analysis of Results of Operations and Financial Condition -- Risk Factors".

Temperature-Controlled Distribution Operations

Investments

ProLogis recognizes substantially all of the economic benefits of ProLogis Logistics Services Incorporated ("ProLogis Logistics") through its ownership of 100% of ProLogis Logistics' preferred stock. ProLogis Logistics owns 100% of CS Integrated LLC ("CSI"), a temperature-controlled distribution company operating in the United States. As of December 31, 2000, CSI owned or operated under lease agreements 59 temperature-controlled distribution facilities aggregating 175.9 million cubic feet (including 35.5 million cubic feet of dry distribution space located in temperature-controlled distribution facilities) and had 6.3 million cubic feet under development in Anaheim (4.0 million cubic feet) and Houston (2.3 million cubic feet). Additionally, ProLogis recognizes substantially all of the economic benefits of Frigoscandia S.A. through its ownership of 100% of Frigoscandia S.A.'s preferred stock. Frigoscandia S.A. owns, through its wholly owned subsidiaries, 100% of Frigoscandia AB ("Frigoscandia"), a temperature-controlled distribution company operating in Europe. As of December 31, 2000, Frigoscandia owned or operated under lease agreements 89 temperature-controlled distribution facilities aggregating 187.7 million cubic feet in 10 European countries. ProLogis accounts for its investments in ProLogis Logistics/CSI and Frigoscandia S.A./Frigoscandia under the equity method. See "Item 2. Properties -- Unconsolidated Entities -- Temperature-Controlled Distribution Operations" and Note 4 to ProLogis' Consolidated Financial Statements in Item 8.

In order to provide value-added supply chain management services to its customers, CSI and Frigoscandia leverage their existing temperature-controlled distribution facilities network with information technology investments that increase the velocity and visibility of inventory and information throughout the entire supply chain. CSI added 8.3 million cubic feet of operating capacity in 2000, including a 4.8 million cubic feet facility that was developed by CSI in Atlanta. Frigoscandia's operating capacity has remained virtually constant over the past three years (187.7 million as of December 31, 2000, 192.3 million as of December 31, 1999 and 192.0 million as of December 31, 1998). This trend reflects Frigoscandia's emphasis on serving its key customers through improvements and upgrades to technology systems and its existing facilities rather than increasing its operating capacity.

During 1999 and 2000, both CSI and Frigoscandia enhanced and improved their logistics information technology systems. These systems are being coordinated on

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

a global basis which enables CSI and Frigoscandia to maximize synergies within and between the North American operations and European operations, while still maintaining operational independence. CSI's non-asset based retail dedicated business segment, where CSI provides all warehouse logistics services to supermarket retailers in distribution facilities not owned by CSI, has enabled CSI to increase its revenues without significantly increasing its invested capital. Retail-dedicated revenues are earned through fees charged to the retailer based on volume with no fixed costs attributable to the retail-dedicated operations.

Operations

ProLogis recognizes its share of the net earnings of ProLogis Logistics/CSI and Frigoscandia S.A./ Frigoscandia under the equity method as a component of its total income. ProLogis' share of the net earnings of ProLogis Logistics/CSI was \$12.0 million in 2000, \$10.8 million in 1999 and \$7.3 million in 1998. In each year, 1998 to 2000, Frigoscandia S.A./Frigoscandia generated net losses with ProLogis' share aggregating \$20.3 million in 2000, \$4.4 million in 1999 and \$7.5 million in 1998.

ProLogis' share of the combined funds from operations of ProLogis Logistics/CSI and Frigoscandia S.A./Frigoscandia was \$27.0 million in 2000 as compared to \$46.1 million in 1999 and \$45.7 million in 1998. See "Item 7. Management's Discussion and Analysis of Results of Operations and Financial Condition -- Results of Operations -- Temperature-Controlled Distribution Operations", "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations -- Funds From Operations" and Notes 4 and 10 to ProLogis' Consolidated Financial Statements in Item 8.

10

Market Presence

Market presence in the temperature-controlled distribution industry is generally defined by the volume available for storage of frozen and chilled foods in addition to the transportation network in place to serve customers. ProLogis believes that CSI and Frigoscandia are well positioned to provide supply-chain management services to major food manufacturers and retailers across multiple markets. With 59 facilities aggregating 175.9 million cubic feet in operation (including 35.5 million cubic feet of dry distribution space operated in temperature-controlled distribution facilities), CSI has the third largest network in the United States (based on cubic feet in operation). CSI's largest markets (based on cubic feet in operation) are Phoenix (16.9%), Southern California (16.2%), Southeastern Pennsylvania (14.5%) and Atlanta (12.2%). Frigoscandia is the largest temperature-controlled distribution company in Europe with 89 facilities aggregating 187.7 million cubic feet in operation in 10 countries. Frigoscandia's largest markets (based on cubic feet in operation) are France (34.1%), the United Kingdom (24.5%) and Germany (13.7%).

Competition

ProLogis believes that the temperature-controlled distribution industry has significant barriers to entry due to its capital-intensive nature, which limits competition. In the United States, CSI competes directly with several national temperature-controlled distribution companies. However, CSI's primary competition in many markets is from local, and considerably smaller, warehouse operators. In Europe, Frigoscandia has a distinct advantage over its competitors as few other European temperature-controlled distribution companies have operations in more than one country (as compared to the 10 countries in which Frigoscandia operates). Additionally, Frigoscandia is the largest operator of temperature-controlled distribution facilities in Europe (based on cubic feet in

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

operation), with a temperature-controlled storage volume of approximately three times that of its closest competitor. Like CSI, Frigoscandia's primary competition in many markets is from local, and considerably smaller, warehouse operators.

Customers

CSI has approximately 950 customers including some of the nation's leading supermarket retailers in the United States. Of CSI's total revenues, approximately 69% were derived from its 25 largest customers and CSI's largest customer accounted for approximately 36% of its total revenues. Excluding the fees generated by CSI's retail-dedicated operations where CSI provides warehouse logistics services in the distribution facilities that are owned by the customer, the 25 largest customers accounted for approximately 48% of total revenues with the largest customer accounting for approximately 6% of total revenues. See "-- Investments".

Frigoscandia has approximately 7,000 customers. Of Frigoscandia's total revenues, approximately 49% were derived from its 25 largest customers and Frigoscandia's largest customer accounted for approximately 8% of its total revenues.

Employees

CSI and Frigoscandia directly employ all employees in the temperature-controlled distribution operations segment. CSI employs approximately 3,835 persons in the United States, of whom approximately 58% participate in collective bargaining agreements. Frigoscandia employs approximately 2,665 persons in 10 European countries, of whom approximately 80% participate in collective bargaining agreements. Both CSI and Frigoscandia believe their relationships with their employees to be good.

Seasonal Nature of the Business

Temperature-controlled distribution operations are seasonal, in that demand for temperature-controlled distribution facilities is stronger during the third quarter of the calendar year and is at its lowest level in the first quarter of the calendar year. The seasonal nature of temperature-controlled distribution operations coincides with the lower demand for frozen foods, such as ice cream, during the winter months and the timing of the harvests of various food crops in the third quarter of the year, which increases the demand for temperature-controlled storage capacity during that time.

11

Future Plans

There will be a continued strong emphasis in 2001 on the global marketing of the varied service offerings that CSI and Frigoscandia can provide to customers who can benefit from a single-source global temperature-controlled logistics provider. CSI and Frigoscandia will continue to leverage off their investments in information technology in 1999 and 2000 to increase their service offerings to customers, including integrated supply chain management and transportation services. Additionally, both companies will focus on operational issues to increase operating efficiencies in 2001. In particular, Frigoscandia is addressing occupancy issues and other operational issues including transportation services. See "Item 7. Management's Discussion and Analysis of Results of Operations and Financial Condition -- Results of Operations -- Temperature-Controlled Distribution Operations" for a discussion of operating performance of this business segment and see the discussion of factors that could affect the future plans of ProLogis, CSI and Frigoscandia at

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

"Item 7. Management's Discussion and Analysis of Results of Operations and Financial Condition -- Risk Factors".

ProLogis views its investments in CSI and Frigoscandia as a temperature-controlled distribution network delivering worldwide temperature-controlled logistics solutions to its United States and European customers. Expansion into new markets or within existing markets in the United States will be considered only to the extent that such expansion is necessary to enable CSI to expand its services to the major food manufacturers and retailers that operate across multiple markets. Expansion within the European operations will be considered on a limited basis to address specific customer needs. The funds for such expansions are expected to come principally from internally generated capital from this operating segment's operations.

FINANCING STRATEGY

In order to build its network of distribution facilities, ProLogis accessed the public debt and public equity markets through the second quarter of 1999. Since that time, ProLogis has funded its capital requirements primarily with internally generated funds from its operations and from the disposition of facilities to third parties and to entities in which ProLogis maintains an ownership interest. Additionally, ProLogis has utilized, and will continue to utilize, the borrowing capacity available through its unsecured lines of credit to finance investment opportunities pending completion of asset dispositions and, as needed, longer-term debt or equity financing arrangements.

ProLogis' financing activities in 2000 included:

- ProLogis, ProLogis Development Services and the Kingspark entities generated \$806.0 million of proceeds from the disposition of facilities and land parcels in 2000. These dispositions were primarily within the CDFS business segment (\$672.3 million of proceeds) but also included dispositions within the property operations segment (\$133.7 million of proceeds). Of the total proceeds of \$806.0 million, \$55.7 million was received in the form of equity interests in the entities acquiring the facilities.
- ProLogis restructured its U.S. dollar denominated revolving credit facilities during 2000. ProLogis' previous \$550.0 million unsecured line of credit was reduced to \$475.0 million, with the ability to increase the borrowing capacity to \$500.0 million. Additionally, provisions were included in the new agreement that allows for direct borrowings by ProLogis Development Services and ProLogis Logistics. Also, ProLogis increased its borrowing capacity under its U.S. dollar denominated discretionary line of credit from \$25.0 million to \$55.0 million (with the additional \$30.0 million of borrowings available only in foreign currency equivalents).
- The formation of ProLogis North American Properties Fund I provided ProLogis the opportunity to access over \$300.0 million of third party debt and equity capital, including 10-year secured, non-recourse debt financing of \$232.6 million within the venture.
- From September 1999 to December 31, 2000, ProLogis has accessed 325.6 million euros (the currency equivalent of approximately \$302.9 million as of December 31, 2000 based on currency exchange rates quoted by Reuters) of third party equity capital provided by a group of institutional investors to ProLogis European Properties Fund through 2002. As of December 31, 2000, an additional 734.7 million euros (the currency equivalent of approximately \$683.4 million as of December 31, 2000 based on

currency exchange rates quoted by Reuters) has been committed to ProLogis European Properties Fund by this investor group through 2002. This capital is to be used to fund acquisitions of operating facilities in Europe from ProLogis, the Kingspark entities or third parties.

ProLogis' revolving credit facilities (the U.S. dollar denominated unsecured borrowing arrangements aggregating \$530.0 million of capacity and ProLogis' multi-currency borrowing arrangement that allows for the currency equivalent of 325.0 million euros of borrowings) provide ProLogis with significant financial flexibility. As of December 31, 2000, ProLogis' outstanding combined revolving credit facility borrowings of \$439.8 million were at an average interest rate of 6.79% and ProLogis' total debt as a percentage of total undepreciated book capitalization (excluding accumulated comprehensive income adjustments) was 43.5%.

PROLOGIS OPERATING SYSTEM(TM)

The cornerstone of ProLogis' business strategy is the ProLogis Operating System(TM), comprised of the Market Services Group, the Global Services Group, the Global Development Group and the Integrated Solutions Group. The ProLogis Operating System(TM) is a customer service delivery system that has been designed to provide substantial benefits to existing and prospective ProLogis customers. The customer focus of the ProLogis Operating System(TM) provides for a high-quality service level and a single point of contact for distribution solutions on a global basis and positions ProLogis to build customer relationships that will generate additional business opportunities.

Market Services Group

The Market Services Group is comprised of approximately 350 property management and leasing employees including 20 market officers. ProLogis' market officers have extensive experience in marketing industrial distribution space and are responsible for understanding the needs of existing and prospective customers in their respective markets. To meet such needs, market officers utilize their extensive knowledge of local market conditions, including the cost and availability of alternative space, and are supported by their team of property management and leasing professionals. A key role of the market officers is assisting the Global Services Group in identifying ProLogis' customers with multiple market requirements. ProLogis believes that the market officers' access to national and pan-European ProLogis resources improves their ability to serve customers in the local market.

Market officers do not develop projects or borrow or commit capital. Their focus is strictly on managing the facilities in their markets, creating and maintaining relationships with distribution space users and industrial brokers, marketing ProLogis products and identifying potential acquisition, development and leasing opportunities in their target markets.

Global Services Group

The Global Services Group, comprised of 18 employees, is dedicated to providing service to the largest users of distribution space that ProLogis has identified as targeted customers, with the primary focus on making ProLogis the preferred provider of distribution space to these companies. The Global Services Group is headquartered in Denver and Amsterdam and has regional offices in Atlanta, Chicago and the New York City metropolitan area. ProLogis' multi-market presence permits it to accommodate the reconfiguration needs of its customers by relocating an existing customer within a market or between markets in North America or in Europe. ProLogis' development program, land inventory and existing

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

facilities allow the Global Services Group to assist existing and prospective customers whose growing business needs require them to expand their distribution facilities. The expansion can result in relocating the customer to larger ProLogis spaces or in developing a facility specifically for the customer.

Global Services Group professionals build long-term relationships with ProLogis' customers and provide a single point of contact for multi-location global users of distribution facilities to simplify and streamline the execution of such customers' distribution space plans. ProLogis' experience to date suggests that many major corporate customers are limiting the number of services providers that they work with to meet their

13

distribution facility requirements. An ancillary benefit of this extensive contact with customers is the ability to be on the forefront of international and national distribution and logistics trends.

Global Development Group

The Global Development Group, comprised of approximately 90 employees, focuses substantial research and development efforts on creating industry-leading distribution facilities and master-planned distribution parks. Members of the Global Development Group have extensive experience in the development and construction of generic facilities that will appeal to a wide variety of customers and the development of facilities that will meet a specific customers needs. ProLogis incorporates the latest technology with respect to building design and building systems and has developed consistent standards and procedures that it strictly adheres to in the development of all facilities.

The Global Development Group is comprised principally of architects, engineers and construction professionals who oversee every aspect of the land planning and building design processes. These professionals also monitor the construction process and oversee the performance of third-party general contractors. The Global Development Group's development specialists and project managers operate regionally to better serve their markets. The project managers supervise each project with oversight from ProLogis' management, pursuant to uniform standards, procedures and specifications that have been carefully designed to achieve consistent quality.

ProLogis believes the depth and breadth of experience within the Global Development Group enhances the effectiveness of the Global Services Group and provides the market officers in the Market Services Group with a distinct competitive advantage for development opportunities in their respective markets.

Integrated Solutions Group

The Integrated Solutions Group, currently comprised of three employees, coordinates a menu of value-added distribution-related services to customers, including network optimization tools, strategic site selection, business location services (including tax incentive analysis and tax negotiation consulting) and design consulting services. The Integrated Solutions Group was formed in August 1999 to allow ProLogis to address all areas of its customers' distribution needs. ProLogis believes that by offering these additional services, ProLogis will be able to deepen its customer relationships and increase cash flows with relatively small additional capital requirements.

PROLOGIS MANAGEMENT

ProLogis' success depends upon its management's ability to provide strategic and day-to-day management, research, investment analysis, acquisition

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

and due diligence, development, marketing, asset management, capital markets, asset disposition, management information systems support and legal and accounting services. ProLogis believes that the quality of its management should be assessed in light of the following factors:

- Management Depth -- ProLogis has several senior executives with the leadership, operational, investment and financial skills and experience to oversee the entire operation of the company. See "-- Executive Officers and Trustees" and "-- Senior Officers".
- Strategic Vision -- ProLogis' management has demonstrated a strategic vision in determining an operating and investment focus that has provided favorable initial yields and long-term growth prospects. ProLogis' business strategy has focused on acquiring (at prices below replacement cost) and developing an international distribution facility network and a land inventory at attractive prices in selected distribution markets. Through the ProLogis Operating System(TM), ProLogis believes it is the first international operating company that has been able to address and service a corporate customer's distribution space requirements on an international, national, regional and local basis. Additionally, since mid-1999, ProLogis has focused on self-funding its investment activities utilizing cash generated

14

by operations and the proceeds from the disposition of facilities, primarily to entities in which ProLogis maintains an ownership interest.

- Research Capability -- ProLogis divides its target market cities into numerous submarkets for analysis purposes. ProLogis' management has emphasized a submarket by submarket research-based approach in determining appropriate investment opportunities.
- Investment Committee Process -- An internal investment committee provides ProLogis with discipline and guidance to allow ProLogis to achieve its investment goals. The members of ProLogis' investment committee have extensive experience in the real estate industry. The internal investment committee evaluates all prospective investments pursuant to uniform underwriting criteria prior to submission of investment recommendations to the investment committee of ProLogis' Board of Trustees (the "Board").
- Acquisitions Capability/Due Diligence Process/Asset Dispositions -- ProLogis has experienced senior personnel who perform disciplined and thorough due diligence in determining whether potential investments and divestitures meet ProLogis' long-term objectives. ProLogis has developed extensive uniform systems and procedures for analysis and due diligence to ensure that it maximizes its investment and divestiture opportunities.
- Development Capability -- By internally developing projects, ProLogis has captured additional value that normally escapes through sales premiums paid to third party developers. ProLogis' development employees have significant development experience. ProLogis has engaged in substantial development of distribution facilities since its inception in 1991 (64.0 million square feet at a total investment of \$2.4 billion developed).
- Operating Capability -- ProLogis believes that management can substantially improve operating performance and achieve long-term sustainable growth in cash flow by actively and effectively managing assets. ProLogis conceived of and developed the ProLogis Operating System(TM) to effectively operate ProLogis' business and provide

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

customers with an exceptional level of coordinated, comprehensive services, including property management, leasing and development management services. ProLogis also provides comprehensive asset management services to entities in which ProLogis has an ownership interest.

- Capital Markets Capability -- ProLogis has been able to effectively raise public debt and public equity capital that has allowed it to achieve strong growth in cash flows from its investments. ProLogis enhances its ability to raise capital by its ability to effectively communicate ProLogis' business strategy and performance to investors and the financial media.

Previously, certain of ProLogis' administrative functions were supplemented by or provided by Security Capital Group Incorporated ("Security Capital"), ProLogis' largest shareholder, pursuant to an administrative services agreement. These functions included payroll and human resources, cash management, accounts payable, specified information systems support, research and insurance services. ProLogis began transferring these functions from Security Capital to ProLogis personnel during 2000. As of December 31, 2000, all functions except the cash management and certain information systems support functions had been assumed by ProLogis. These remaining functions are expected to be assumed by ProLogis personnel during the first quarter of 2001.

ENVIRONMENTAL MATTERS

Under various federal, state and local laws, ordinances and regulations, a current or previous owner, developer or operator of real estate may be liable for the costs of removal or remediation of certain hazardous or toxic substances at, on, under or in its property. The costs of removal or remediation of such substances could be substantial. Such laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release or presence of such hazardous substances. The presence of such substances may adversely affect the owner's ability to sell such real estate or to borrow using such real estate as collateral. ProLogis has not been notified by any governmental authority of any non-compliance, liability or other claim in connection with any of the properties owned or being acquired at December 31,

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

2000, and ProLogis is not aware of any environmental condition with respect to any of its properties that is likely to be material. ProLogis or the predecessor owners have subjected each of its properties to an environmental assessment (which does not involve invasive procedures such as soil sampling or ground water analysis) by independent consultants. While some of these assessments have led to further investigation and sampling, none of the environmental assessments has revealed, nor is ProLogis aware of, any environmental liability (including asbestos-related liability) that ProLogis believes would have a material adverse effect on its business, financial condition or results of operations. No assurance can be given, however, that these assessments and investigations reveal all potential environmental liabilities, that no prior owner or operator created any material environmental condition not known to ProLogis or the independent consultants or that future uses or conditions (including, without limitation, customer actions or changes in applicable environmental laws and regulations) will not result in unreimbursed costs relating to environmental liabilities.

INSURANCE COVERAGE

ProLogis and its consolidated and unconsolidated entities currently carry comprehensive insurance coverage including property, liability, fire, flood, earthquake, environmental, extended coverage and rental loss, as appropriate for the markets where each entities facilities and business operations are located. The insurance coverage contains policy specifications and insured limits customarily carried for similar facilities. ProLogis

19

believes its facilities and the facilities of its consolidated and unconsolidated entities are adequately insured; however, an uninsured loss could result in loss of capital investment and anticipated profits.

ITEM 2. PROPERTIES

INDUSTRIAL DISTRIBUTION FACILITIES

ProLogis and its consolidated entities (see -- "Consolidated Entities") have invested primarily in generic industrial distribution facilities with an average office finish level of less than 10%. Due to the costs associated with retrofitting customer spaces, service center product has been acquired only on a very limited basis, generally as part of portfolio acquisitions in which the majority of product being acquired was bulk distribution. ProLogis' industrial distribution facilities is typically used for storage, packaging, assembly, distribution and light manufacturing of consumer and industrial products.

- Distribution. -- ProLogis' distribution facilities are adaptable for both bulk distribution and light manufacturing or assembly uses. Based upon square footage, ProLogis' operating portfolio was comprised of 88.5% bulk distribution and 10.4% light manufacturing facilities as of December 31, 2000.
- Service Center and Other -- Under ProLogis' definition, service centers are multi-customer buildings that have a higher percentage of office space than distribution facilities and only have grade-level loading as opposed to truck dock loading. As of December 31, 2000, service center product constituted approximately 0.9% of the square feet in ProLogis' operating portfolio and other miscellaneous facilities, primarily office facilities acquired as part of portfolio acquisitions, constituted 0.2% of the square feet in ProLogis' operating portfolio.

GEOGRAPHIC DISTRIBUTION

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

ProLogis and its consolidated entities (see -- "Consolidated Entities") have direct ownership of 1,285 industrial distribution facilities (operating and under development) in North America and Europe as of December 31, 2000. In the United States, ProLogis' facilities are located in 42 cities in 24 states and the District of Columbia. ProLogis' facilities in Mexico are located in four cities. In Europe, ProLogis' facilities are located in 11 cities in 5 countries. The table below demonstrates the geographic distribution of ProLogis' portfolio (operating facilities and facilities under development). The table excludes land held for future development, which is less than 5% of ProLogis' total investment, based on cost as of December 31, 2000 and 1999. The table does not include facilities that are owned by ProLogis' unconsolidated entities which are discussed under "-- Unconsolidated Entities".

CONSOLIDATED ENTITIES

Partnerships

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

As of December 31, 2000, ProLogis held a majority interest in and controlled five partnerships (collectively, the "Partnerships"), which are consolidated with the accounts of ProLogis. Generally, pursuant to the Partnership agreements, ProLogis or one of its wholly owned entities, is the sole controlling general partner and has full responsibility for the management and control of the Partnerships. The limited partners have no authority to transact business for, or, except as noted below, participate in the management decisions of, the Partnerships. However, any decision to amend certain provisions of the applicable partnership agreement, to dissolve a Partnership prior to the term set forth in the applicable partnership agreement or to enter into certain extraordinary transactions would require the consent of all limited partners. Pursuant to the partnership agreements, ProLogis, or its wholly owned entity, as the case may be, may not voluntarily withdraw from the applicable Partnership or transfer or assign its interests in the Partnership without the consent of all of the limited partners thereto. The limited partners may freely transfer their Partnership units to affiliates, provided that such transfer does not cause a termination of the Partnership for federal income tax

27

purposes and does not cause ProLogis to cease to comply with requirements under the Code for qualification as a REIT. Each of the Partnership agreements grants to the limited partners the right to exchange their Partnership units for ProLogis common shares of beneficial interest, par value \$0.01 per share, ("Common Shares"), subject to certain conditions. For financial reporting purposes, the assets, liabilities, results of operations and cash flows of each of the Partnerships are included in ProLogis' consolidated financial statements, and the interests of the limited partners are reflected as minority interest. See Note 6 to ProLogis' Consolidated Financial Statements in Item 8. The Partnerships, which are part of the property operations segment, are as follows as of December 31, 2000:

ENTITY	FORMATION DATE	INVESTMENT IN REAL ESTATE (IN MILLIONS)	PROLOGIS' OWNERSHIP	LIMIT PARTNERSHI OUTSTAN

(1) These facilities cannot be sold, prior to the occurrence of certain events, without the consent of the limited partners thereto, other than in tax-deferred exchange transactions.

(2) Facilities are located in the San Francisco (both South Bay and East Bay) and Tampa markets.

(3) Convertible into Common Shares on a one for one basis.

(4) Facilities are located in the Charlotte, Dallas/Ft. Worth, Denver, El Paso, San Francisco (East Bay), St. Louis and Washington, D.C./Baltimore markets.

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

- (5) Facilities are located in the Chicago, Ft. Lauderdale/Miami, Norfolk, Orlando, San Antonio and Tampa markets.
- (6) ProLogis Limited Partnership-IV was formed through a cash contribution from a wholly owned subsidiary of ProLogis, ProLogis-IV, Inc., and the contribution of distribution facilities from the limited partner. ProLogis Limited Partnership-IV and ProLogis-IV, Inc. are legal entities separate and distinct from ProLogis, its affiliates and each other, and each has separate assets, liabilities, business functions and operations. The sole assets of ProLogis-IV, Inc. are its general partner advances to and its interest in ProLogis Limited Partnership-IV. As of December 31, 2000, ProLogis Limited Partnership-IV had outstanding borrowings from ProLogis-IV, Inc., of \$0.4 million and ProLogis-IV, Inc. had outstanding borrowings from ProLogis and its affiliates of \$0.4 million.
- (7) Facilities are located in the Akron, Cincinnati, Dallas/Ft. Worth, Ft. Lauderdale/Miami, I-95 New Jersey Corridor, Orlando and Tampa markets.
- (8) Acquired in merger with Meridian in March 1999. See Note 11 to ProLogis' Consolidated Financial Statements in Item 8.
- (9) Facility is located in the Los Angeles/Orange County market.
- (10) Convertible into Common Shares on a 1.1 for one basis, plus \$2.00.

ProLogis Development Services

ProLogis Development Services, which is part of the CDFS business segment, develops distribution facilities that are often disposed of to customers, third parties or entities in which ProLogis maintains an ownership interest. ProLogis Development Services also contracts on a fee basis to develop distribution facilities for customers or third parties. ProLogis owns 100% of the non-voting preferred stock of ProLogis Development Services representing a 95% interest in its earnings. ProLogis also advances mortgage loans to ProLogis Development Services to fund its acquisition, development and construction activities. A charitable trust owns 100% of the voting common stock of ProLogis Development Services but has no substantive role in the operations of ProLogis Development Services. Accordingly, ProLogis has control of ProLogis Develop-

28

ment Services and it is consolidated with ProLogis. ProLogis Development Services' real estate assets represented 9.7% of ProLogis' total real estate assets (at cost) as of December 31, 2000. ProLogis Development Services is not a qualified REIT subsidiary of ProLogis under the Code. Accordingly, provisions for federal and state income taxes are recognized, as appropriate. In October 2001, ProLogis acquired the voting common stock of ProLogis Development Services from the charitable trust for \$1.3 million. As a result, ProLogis owns all of the outstanding stock of ProLogis Development Services.

UNCONSOLIDATED ENTITIES

As of December 31, 2000, ProLogis' investments in and advances to unconsolidated entities totaled \$1.45 billion. These investments were structured to either allow ProLogis to comply with the requirements of the Code to qualify as a REIT or to further ProLogis' objective of increasing cash flows without raising additional capital through direct public debt and public equity offerings.

ProLogis invested in the non-voting preferred stock of certain entities that have ownership interests in companies that produce income that is not REIT

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

"qualifying" income (i.e., rental income and mortgage interest income) under the Code. To maintain its qualification as a REIT, ProLogis can collectively invest in these entities in amounts up to 25% of the fair market value of ProLogis' total assets, with a maximum per company investment of 5% of the fair market value of ProLogis' total assets. Of these investments, ProLogis Development Services, ProLogis Logistics, Frigoscandia S.A. and the Kingspark entities all own properties. ProLogis accounts for the investments in ProLogis Logistics, Frigoscandia S.A. and the Kingspark entities under the equity method. These entities' investments in properties are discussed under "-- CDFS Business" and "-- Temperature-Controlled Distribution Operations". ProLogis Development Services is consolidated with ProLogis. Properties owned by ProLogis Development Services are included in the tables in "-- Geographic Distribution" and "-- Facilities" and ProLogis Development Services is discussed in "-- Consolidated Entities -- ProLogis Development Services". See also "Item 7 -- Management's Discussion and Analysis of Financial Condition and Results of Operations -- New Tax Legislation".

The entities discussed below under "-- Property Operations" were all formed to allow ProLogis to generate capital for future development activities while still maintaining an ownership position in the facilities. All of ProLogis' unconsolidated entities are discussed in Note 4 to ProLogis' Consolidated Financial Statements in Item 8.

Property Operations

As of December 31, 2000, ProLogis had a 50.0% ownership interest in ProLogis California, a 34.4% ownership interest in ProLogis European Properties Fund, a 20.0% ownership interest in ProLogis North America Properties Fund I and a 20.0% ownership interest in ProLogis Principal. See "Item 1. Business -- Business Strategy and Operating Segments -- Property Operations Segment", "Item 7. Management's Discussion and Analysis of Financial Conditions and Results of Operations -- Results of Operations -- Property Operations" and Note 4 to ProLogis' Consolidated Financial Statements in Item 8.

PART III

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

AMENDED AND RESTATED INVESTOR AGREEMENT

ProLogis and Security Capital are parties to a Third Amended and Restated Investor Agreement, dated as of September 9, 1997 (the "Investor Agreement"). Pursuant to the Investor Agreement, Security Capital has the right, so long as it owns between 10% and 25% of the Common Shares, to nominate one person to the Board. So long as Security Capital owns 25% or more of the Common Shares, Security Capital will be entitled to nominate a proportionate number of persons to the Board subject to a maximum of three nominees if the size of the Board does not increase above the current size of ten Trustees. In addition, ProLogis is required to consult with Security Capital's nominees to the Board prior to taking any action with respect to the following: (i) finalization of the annual budget and substantial deviations therefrom; (ii) the acquisition or sale of assets in a single transaction or group of related transactions where the price exceeds \$25 million; (iii) any contract for investment, property management or leasing services; and (iv) any service contract providing for payments in excess of \$1.0 million. ProLogis has no obligation to follow the advice of Security Capital with respect to the foregoing matters.

Under the Investor Agreement, so long as it owns at least 25% of the Common Shares, Security Capital also has the right of prior approval with respect to the following matters: (i) the issuance of equity securities or securities convertible into equity securities (other than issuances in connection with option, dividend reinvestment and similar plans) for less than the fair market value of such securities; (ii) the issuance of any preferred shares which would result in the Fixed Charge Coverage Ratio (as defined therein) being less than 1.4 to 1.0; (iii) adopting any employee benefit plans under which Common Shares may be issued; and (iv) the compensation of senior officers of ProLogis; (v) the incurrence of additional indebtedness which would result in the Interest Expense Coverage Ratio (as defined therein) being less than 2.0 to 1.0.

ADMINISTRATIVE SERVICES AGREEMENT

ProLogis and a subsidiary of Security Capital entered into an administrative services agreement (the "ASA"), pursuant to which Security Capital provides ProLogis with certain administrative and other services with respect to certain aspects of ProLogis' business, as selected from time to time by ProLogis at its option. These services include, but are not limited to, payroll and human resources, cash management, accounts payable, specified information systems support, research and insurance services. These services are provided in exchange for a fee based on negotiated rates for each service provided. Total fees incurred under the ASA were \$2.5 million in 2000. ProLogis began transitioning these functions from Security Capital during 2000 and ProLogis has assumed substantially all of the functions previously provided by Security Capital. The ASA expired on December 31, 2000. Security Capital is

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

continuing to provide the services not yet assumed by ProLogis under a month-to-month agreement until the transition is completed, for which ProLogis paid \$820,995 through December 31, 2001. ProLogis believes that the terms and conditions of the administrative services agreement are as favorable as those that could have been obtained from unaffiliated third parties.

FINANCIAL ADVISORY FEES

Macquarie Capital Partners LLC (prior to January 2001 Security Capital Markets Group Incorporated), an affiliate of Security Capital, provided financial advisory and investment banking services to ProLogis. During 2000, ProLogis paid investment advisory fees of \$104,000 to Security Capital Markets Group Incorporated related to additional equity contributed by The New York State Common Retirement Fund to ProLogis California I LLC, a limited liability company whose members are ProLogis and The New York State Common Retirement Fund.

PROTECTION OF BUSINESS AGREEMENT

Prior to September 9, 2000, Security Capital and ProLogis were parties to a protection of business agreement which prohibited Security Capital and its affiliates from providing, anywhere within the United

33

States, directly or indirectly, management services to any entity that owns or operates real property that is or is planned to be used primarily for distribution and light manufacturing properties. The protection of business agreement terminated on September 9, 2000.

PARTNERSHIP AFFILIATIONS

As part of its acquisition program of industrial distribution facilities, ProLogis has consummated certain transactions pursuant to which it contributed cash, and third party partnerships contributed a portfolio of facilities, to ProLogis Limited Partnership -- I. Irving F. Lyons, III, President, Chief Investment Officer and Trustee of ProLogis, is a partner in ProLogis Limited Partnership -- I, holding an indirect 2.9% limited partnership interest (which could increase to 3.3% if the partnership meets certain distribution levels) valued at \$8,906,323, based on the December 31, 2001 closing price of Common Shares. Mr. Lyons also owns minority interests in a substantial amount of undeveloped industrial land near ProLogis' industrial distribution parks in the San Francisco Bay Area. ProLogis has purchased options and rights of first refusal with respect to all sales of land and build-to-suit opportunities involving this property. The ProLogis Limited Partnership -- I transaction and the prices for such options (which are fixed or determined pursuant to formulas) were negotiated at arm's length prior to Mr. Lyons' affiliation with ProLogis.

PREFERRED STOCK SUBSIDIARIES

ProLogis has invested in the non-voting preferred stock of certain entities that have ownership interests in companies that produce income that is not REIT qualifying income (i.e., rental income and mortgage interest income) under the Code. The voting common stock of these companies was held by four entities in which ProLogis did not have an ownership interest. ProLogis' largest shareholder, Security Capital Group Incorporated, had a non-controlling ownership interest in two of these entities. During 2000, certain amendments to the Code were passed that were to be effective in January 2001. The Code, as amended in 2001, would allow for ProLogis to have a voting ownership interest in these entities; however, many of the states in which ProLogis operates had not amended their income tax laws governing REITs to coincide with the amendments

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

made to the Code. For ProLogis to continue to qualify as a REIT under applicable state income tax laws, the non-voting preferred stock ownership structure had to continue after the Code amendments took effect in January 2001.

In anticipation of the changes in the Code, ProLogis began negotiating purchase agreements with the owners of the voting common stock in three of the entities. Rather than postpone the completion of these purchases pending changes to the state income tax laws governing REITs, the purchase of the voting common stock of each entity was completed with the voting interest in these entities acquired by Mr. K. Dane Brooksher, ProLogis' chairman and chief executive officer. The transactions through which Mr. Brooksher became an owner in these entities are further discussed below. The purchase of the voting common stock of one of the entities, ProLogis Development Services, was not completed until October 2001. As the state income tax laws governing REITs had been amended at that time, ProLogis directly acquired the voting common stock of this entity. ProLogis is currently evaluating the most effective manner in which it holds its investment in these entities as a result of the changes to applicable state income tax laws.

On January 5, 2001, a newly formed limited liability company, Kingspark LLC, of which Mr. Brooksher, ProLogis' chairman, is the voting member and ProLogis is the non-voting member, acquired the ordinary shares of Kingspark Holding S.A. (an entity in which ProLogis owns all of the non-voting preferred stock) from Kingspark Holdings LLC (a limited liability company in which unrelated third parties owned 100% of the voting interests and Security Capital owned 100% of the non-voting interests) for approximately \$8.1 million. The entire purchase price of \$8.1 million was funded by ProLogis either directly or through loans to Kingspark LLC or Mr. Brooksher. The ProLogis loan to Kingspark LLC was in the principal amount of \$7.3 million, is due January 5, 2006 and bears interest at an annual rate of 8%. ProLogis made a direct capital contribution to Kingspark LLC in the amount of \$770,973. Mr. Brooksher's \$40,557 capital contribution to Kingspark LLC was loaned to Mr. Brooksher by ProLogis, which recourse loan is payable on January 5, 2006 and bears interest at an annual rate of 8%. ProLogis owns 95% of the membership interests (all non-voting) and Mr. Brooksher owns 5% of the membership interests (all voting) of Kingspark LLC and Mr. Brooksher is

34

its managing member. Mr. Brooksher may transfer his membership interest, subject to certain conditions, including the approval of ProLogis. There are no provisions that give ProLogis the right to acquire Mr. Brooksher's membership interest. Mr. Brooksher will not receive any compensation in connection with being the managing member. His membership interest entitles him to dividends equal to 5% of the net cash flow of Kingspark LLC, as defined, if any. ProLogis structured the transaction in the manner described above to enable ProLogis to continue to qualify as a REIT under applicable state income tax laws. As the state income tax laws governing REITs were eventually changed in 2001 such that ProLogis would be able to own 100% of this entity, ProLogis is in the process of evaluating the most effective manner to restructure its investment in this entity.

Also on January 5, 2001, a newly formed limited liability company of which Mr. Brooksher is the voting member and ProLogis is the non-voting member, acquired the common shares of Frigoscandia S.A. and ProLogis Logistics Services Incorporated (both entities in which ProLogis owns all of the non-voting preferred stock) for an aggregate of approximately \$3.3 million. The common shares of Frigoscandia S.A. were owned by a limited liability company in which unrelated third parties owned 100% of the voting interests and Security Capital owned 100% of the non-voting interests. The common shares of ProLogis Logistics Services Incorporated were owned by a limited liability company in which

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

unrelated third parties owned all of the membership interest. Mr. Brooksher contributed \$50,000 to the capital of the newly formed limited liability company. ProLogis loaned CSI/Frigo LLC \$2.9 million, which loan is due January 5, 2011 and bears interest at an annual rate of 8%. ProLogis also made a capital contribution to CSI/Frigo LLC in the amount of \$404,545. ProLogis owns 89% of the membership interests (all non-voting) and Mr. Brooksher owns 11% of the membership interests (all voting) of CSI/Frigo LLC. Mr. Brooksher is the managing member of CSI/Frigo LLC. Additionally, ProLogis has a note agreement with CSI/Frigo LLC that allows ProLogis to participate in its earnings such that ProLogis will recognize 95% of the earnings of CSI/Frigo LLC. Mr. Brooksher may transfer his membership interest, subject to certain conditions, including the approval of ProLogis. There are no provisions that give ProLogis the right to acquire Mr. Brooksher's membership interest. Mr. Brooksher will not receive any compensation in connection with being the managing member. Mr. Brooksher's membership interest and the provisions of the participating note entitle him to dividends equal to 5% of the net cash flow of CSI/Frigo LLC, as defined, if any. ProLogis structured the transaction in the manner described above to enable ProLogis to continue to qualify as a REIT under applicable state income tax laws. As the state income tax laws governing REITs were eventually changed in 2001 such that ProLogis would be able to own 100% of this entity, ProLogis is in the process of evaluating the most effective manner to hold its investments in these entities given it's long-term objectives with respect to investments in this business segment and given that it does not control these entities.

As a result of the foregoing transactions, Mr. Brooksher has an effective 0.04% interest in the earnings of ProLogis Logistics Services Incorporated, an effective 0.25% interest in the earnings of Frigoscandia S.A. and an effective 0.25% interest in the earnings of Kingspark Holding S.A. Mr. Brooksher receives no compensation in connection with his interest in these companies.

In 2000, ProLogis invested in two technology companies whose income was not REIT qualifying income under the Code (amendments to the Code and state income tax laws governing REITs were not in effect at this time). These investments were structured whereby ProLogis would have only a non-voting preferred stock ownership interest. To complete the transactions, Mr. Brooksher acquired the voting ownership interest in each entity. These investments are discussed below.

In July 2000, ProLogis acquired an indirect interest in Vizional Technologies, Inc. (formerly GoWarehouse.com, Inc.). In order to facilitate the acquisition, ProLogis acquired all of the non-voting preferred stock of GoProLogis Incorporated ("GoProLogis"), representing a 98% interest in the earnings of GoProLogis. GoProLogis holds the direct investment in Vizional Technologies, Inc. Mr. Brooksher acquired all of the voting common stock of GoProLogis, representing a 2% interest in the earnings of GoProLogis and is entitled to receive dividends equal to 2% of the net cash flow of GoProLogis, as defined, if any. Mr. Brooksher contributed a \$1.1 million recourse promissory note to GoProLogis in exchange for his interest in the entity, which note is payable on July 18, 2005 and bears interest at an annual rate of 8%. Mr. Brooksher is not restricted from transferring his ownership interest in GoProLogis and ProLogis does not have the right to

35

acquire Mr. Brooksher's ownership interest in 2000. However, beginning in 2001, an option agreement does allow ProLogis to acquire Mr. Brooksher's ownership interest for a price equal to the outstanding principal amount of the promissory note plus accrued and unpaid interest. GoProLogis invested \$25.0 million in the preferred stock of Vizional Technologies. GoProLogis also received \$30.4 million of preferred stock of Vizional Technologies under a license agreement for the non-exclusive use of the ProLogis Operating System(TM) over a five-year period. ProLogis structured the transaction in the manner described above to enable

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

ProLogis to continue to qualify as a REIT under applicable state income tax laws. As the state income tax laws governing REITs were eventually changed in 2001 such that ProLogis would be able to own 100% of this entity, ProLogis is in the process of evaluating the most effective manner to restructure its investment in this entity.

In September 2000, ProLogis acquired an indirect interest in PhatPipe, Inc. In order to facilitate the acquisition, ProLogis acquired all of the non-voting preferred stock of ProLogis Broadband (1) Incorporated ("ProLogis PhatPipe"), representing a 98% interest in the earnings of ProLogis PhatPipe. ProLogis PhatPipe holds the direct investment in PhatPipe, Inc. Mr. Brooksher acquired all of the voting common stock of ProLogis PhatPipe, representing a 2% interest in the earnings of ProLogis PhatPipe and is entitled to receive dividends equal to 2% of the net cash flow of ProLogis PhatPipe, as defined, if any. Mr. Brooksher contributed an aggregate of \$122,449 principal amount of recourse promissory notes to ProLogis PhatPipe in exchange for his interest in the entity. A promissory note with the principal amount of \$71,429 is due September 20, 2005 and a promissory note with the principal amount of \$51,020 is due January 4, 2006. Both notes bear interest at an annual rate of 8%. Mr. Brooksher is not restricted from transferring his ownership interest in ProLogis PhatPipe and ProLogis does not have the right to acquire Mr. Brooksher's ownership interest in 2000. However, beginning in 2001, an option agreement does allow ProLogis to acquire Mr. Brooksher's ownership interest for a price equal to the outstanding principal amount of the promissory notes plus accrued and unpaid interest. ProLogis PhatPipe invested \$3.5 million in the preferred stock of PhatPipe, Inc. and has committed to fund a total of \$8.0 million in ProLogis PhatPipe by March 31, 2001 pursuant to the terms of a stock purchase agreement. ProLogis PhatPipe also received \$3.5 million of preferred stock of PhatPipe, Inc. under a license agreement for the non-exclusive use of the ProLogis Operating System(TM) over a three-year period. ProLogis structured the transaction in the manner described above to enable ProLogis to continue to qualify as a REIT under applicable state income tax laws. As the state income tax laws governing REITs were eventually changed in 2001 such that ProLogis would be able to own 100% of this entity, ProLogis is in the process of evaluating the most effective manner to restructure its investment in this entity.

LEASING TRANSACTIONS

ProLogis leases space to Security Capital and certain of its affiliates on market terms that management believes are no less favorable to ProLogis than those that could be obtained with unaffiliated third parties. ProLogis' rental income related to these leases were \$534,000, \$757,000, \$756,000, and \$717,000 for the years ended December 31, 2001, 2000, 1999, and 1998, respectively. As of December 31, 2000, 109,804 square feet were leased to related parties. The annualized rental revenue for these leases is \$763,000. As of December 31, 2001, 60,103 square feet were leased to related parties. The annualized rental revenue for these leases is \$472,000.

LOANS TO EXECUTIVE OFFICERS

In 1997, ProLogis made the following loans to the Named Executive Officers for the purchase price of Common Shares pursuant to the share purchase program which loans remain outstanding (balances as of March 15, 2001): Mr. Brooksher, \$1,862,600; Mr. Lyons, \$1,862,600; Mr. Rakowich, \$931,300; Mr. Seiple, \$931,300, and Mr. Watson, \$1,117,548. Each loan is full recourse to the executive officer and is secured by the purchased Common Shares. The loans bear interest at the lower of ProLogis' annual dividend yield on Common Shares or 6.0% per annum, and have a ten-year term. The loans will become due and payable (i) immediately upon the sale of the purchased Common Shares or ProLogis' termination of the executive officer's employment for cause, (ii) 180 days after ProLogis' termination of the executive officer's employment following a change in control,

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

(iii) 365 days after termination of the executive officer's employment by reason

36

of death, disability or retirement or (iv) 90 days after termination of the executive officer's employment for any other reason.

In 2001, ProLogis entered into a loan with K. Dane Brooksher. The proceeds of the loan were used by Mr. Brooksher to repay a loan from Security Capital which was made by Security Capital while Mr. Brooksher was an employee of Security Capital. Under the terms of the promissory note, ProLogis lent Mr. Brooksher \$474,997.50, which amount was due on January 31, 2002. A payment of \$237,500 on the principal amount was paid to ProLogis in January 2001 from the proceeds of Mr. Brooksher's target bonus for 2000. The balance was repaid by Mr. Brooksher from the proceeds of Mr. Brooksher's target bonus for 2001 in January 2002. Interest on the unpaid principal amount outstanding accrued at a floating rate per annum equal to ProLogis' line of credit rate charged by Bank of America (LIBOR plus 75 basis points). Accrued interest is due and payable semi-annually during the term of the loan beginning on January 4, 2001 and thereafter on each July 4 and January 4 until payment in full.

In 2001, ProLogis entered into a loan with Robert J. Watson. The proceeds of the loan were used by Mr. Watson to repay a loan from Security Capital which was made by Security Capital while Mr. Watson was an employee of Security Capital. Under the terms of the promissory note, ProLogis lent Mr. Watson \$90,000, which amount is due on September 1, 2003. Interest on the unpaid principal amount outstanding accrues at a floating rate per annum equal to ProLogis' line of credit rate charged by Bank of America (LIBOR plus 75 basis points). Accrued interest is due and payable annually during the term of the loan beginning on January 31, 2001 and thereafter on each January 31 until payment in full.

SPECIAL EQUITY AGREEMENT

In December 2000, ProLogis and Mr. Brooksher entered into a Special Equity Agreement. Pursuant to the agreement, the parties agreed that Mr. Brooksher would continue his employment with ProLogis through December 31, 2003. In connection with the agreement, ProLogis agreed that the expiration date of each existing option held by Mr. Brooksher under the 1997 Long-Term Incentive Plan shall be no later than the fifth anniversary of the first to occur of Mr. Brooksher's retirement, disability or death but in no event later than the tenth anniversary of the date on which the option was granted. ProLogis further agreed that the expiration date of each option granted in the future to Mr. Brooksher under the 1997 Long-Term Incentive Plan shall be no later than the fifth anniversary of the first to occur of Mr. Brooksher's retirement, disability, or death but in no event later than the tenth anniversary of the date on which the option was granted. Notwithstanding the foregoing, any dividend equivalent units granted with respect to options granted to or held by Mr. Brooksher will not be credited after the first anniversary of the first to occur of Mr. Brooksher's retirement, disability or death.

Pursuant to the Special Equity Agreement, ProLogis also agreed to grant Mr. Brooksher on December 31, 2000, 167,500 restricted share units under the 1997 Long-Term Incentive Plan. The restricted share units granted to Mr. Brooksher will vest in equal installments on December 31, 2004, 2005, 2006, and 2007, subject to earlier vesting upon a change in control (as defined in the 1997 Long-Term Incentive Plan). Prior to settlement of the restricted share units, dividends will be paid with respect to the restricted share units. The restricted share units will be settled in Common Shares.

PROLOGIS TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2000

1. DESCRIPTION OF BUSINESS:

ProLogis Trust ("ProLogis") is a publicly held real estate investment trust ("REIT") that owns and operates a network of industrial distribution facilities in North America and Europe. The ProLogis Operating System(TM), comprised of the Market Services Group, the Global Services Group, the Global Development Group and the Integrated Solutions Group, utilizes ProLogis' international network of distribution facilities to meet its customers' distribution space needs globally. ProLogis has organized its business into three operating segments: property operations, corporate distribution facilities services business ("CDFS business") and temperature-controlled distribution operations. See Note 10.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Principles of Financial Presentation

The accounts of ProLogis, its wholly owned subsidiaries and its majority owned and controlled partnerships are consolidated in the accompanying financial statements. All material intercompany transactions have been eliminated. Certain amounts included in the consolidated financial statements for prior years have been reclassified to conform to the 2000 financial statement presentation.

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

REIT Organization Status

In January 1993, ProLogis was formed as a Maryland REIT and has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the "Code").

REITs are not generally required to pay federal income taxes if minimum distribution and income, asset and shareholder tests are met. During 2000, 1999 and 1998, ProLogis was in compliance with the REIT requirements. Thus, no federal income tax provision has been reflected in the accompanying consolidated

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

financial statements for ProLogis and its wholly owned subsidiaries which are qualified REIT subsidiaries. The foreign countries that ProLogis operates in do not recognize REITs under their respective tax laws. Accordingly, ProLogis has recognized foreign country income taxes in its results of operations, as applicable.

Real Estate and Depreciation

Real estate is carried at cost, which is not in excess of estimated fair market value. Costs directly associated with the successful acquisition, renovation or development of real estate are capitalized. Direct costs associated with unsuccessful acquisitions are expensed at the time the pursuit is abandoned.

Depreciation is computed over the estimated useful lives of depreciable property on a straight-line basis: 7 years for capital improvements, 10 years for tenant improvements, 30 years for acquired facilities and 40 years for facilities developed by ProLogis.

ProLogis' management periodically reviews long-lived assets (primarily real estate and investments in unconsolidated entities) that it owns and operates for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. In accordance with the provisions of Statement of Financial Accounting Standards ("SFAS") No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of," management's review

45

PROLOGIS TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) DECEMBER 31, 2000

involves comparing current and future operating performance of the assets, the most significant of which is undiscounted operating cash flows, to the carrying value of the assets. Based on this analysis, a provision for possible loss is recognized if necessary. In management's opinion, long-lived assets, primarily real estate assets and investments in unconsolidated entities, are not carried at amounts in excess of their estimated realizable values. Long-lived assets (primarily real estate and investments in unconsolidated entities) to be disposed of, if any, are reported at the lower of their carrying amount or fair value less cost to sell.

ProLogis acquired certain real estate through the formation of partnerships (as discussed in Note 6) wherein ProLogis contributed cash and the limited partners contributed real estate in exchange for partnership units which are ultimately exchangeable for ProLogis common shares of beneficial interest, \$0.01 par value ("Common Shares"). In consolidating the partnerships' assets, real estate cost includes the estimated fair value attributable to the limited partners' interests as of the acquisition dates.

ProLogis Development Services Incorporated ("ProLogis Development Services") is a subsidiary of ProLogis that operates in the CDFS business. See Note 10. ProLogis owns 100% of the non-voting preferred stock of ProLogis Development Services representing a 95% interest in its earnings. A charitable trust owns 100% of the voting common stock of ProLogis Development Services but has no substantive role in the operations of ProLogis Development Services. Accordingly, ProLogis has control of ProLogis Development Services and it is consolidated with ProLogis. ProLogis Development Services is not a qualified REIT subsidiary of ProLogis under the Code. Accordingly, provisions for federal and state income taxes are recognized, as appropriate.

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

Capitalization Policy

Renovations and improvements to real estate assets are capitalized and depreciated over their estimated useful lives. Repairs and maintenance costs are expensed as incurred to the extent they are not acquisition-related renovation costs identified during ProLogis' pre-acquisition due diligence.

General and administrative costs incurred for development (including land acquisitions), renovation and leasing activities that are incremental and identifiable to a specific activity are capitalized. Prior to April 1, 1998, ProLogis also capitalized direct and incremental management costs incurred in connection with the acquisition of existing operating facilities. In accordance with Emerging Issues Task Force Issue 97-11, "Accounting for Internal Costs Relating to Real Estate Property Acquisitions," which was effective on April 1, 1998, such costs are no longer capitalized.

Costs capitalized to real estate are depreciated over the estimated useful lives of the real estate. Costs capitalized related to leasing activities are included with other assets and are amortized over the lease term. ProLogis' average lease term is between four and five years.

ProLogis capitalizes interest costs incurred during the land development or construction period of qualifying projects.

Unconsolidated Entities

ProLogis' investments in certain entities are accounted for under the equity method. Accordingly, these investments are recognized at ProLogis' cost as adjusted for ProLogis' proportionate share of the earnings or losses of the companies, distributions received and other basis adjustments, as appropriate. ProLogis' proportionate share of the earnings or losses of these companies is recognized in income. See Note 4.

46

PROLOGIS TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) DECEMBER 31, 2000

Cash and Cash Equivalents

ProLogis considers all cash on hand, demand deposits with financial institutions and short-term, highly liquid investments with original maturities of three months or less to be cash equivalents.

Costs of Raising Capital

Costs incurred in connection with the issuance of shares are deducted from shareholders' equity. Costs incurred in connection with the incurrence or renewal of debt are capitalized, included with other assets, and amortized over the term of the related loan or the renewal term.

Minority Interest

ProLogis acquired a controlling interest in five partnerships that owned real estate, which are now consolidated in ProLogis' financial statements. These five partnerships are ProLogis Limited Partnership -- I, ProLogis Limited Partnership -- II, ProLogis Limited Partnership -- III, ProLogis Limited Partnership -- IV and Meridian Realty Partners Limited Partnership. The acquisition of the controlling interest resulted in a step-up to fair value of

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

the real estate owned by the partnerships. Therefore, the minority interest in the partnerships has been stated at each holders' respective share of the fair value of the real estate at the date of acquisition, as adjusted for subsequent earnings, contributions and distributions. Common Shares issued upon exchange of limited partnership units are accounted for at the cost of the minority interest surrendered.

Financial Instruments

In the normal course of business, ProLogis uses certain derivative financial instruments for the purpose of foreign currency exchange rate and interest rate risk management. To qualify for hedge accounting, the derivative instruments used for risk management purposes must effectively reduce the risk exposure that they are designed to hedge. For instruments associated with the hedge of anticipated transactions, hedge effectiveness criteria also require that the occurrence of the underlying transactions be probable. Instruments meeting these hedging criteria are formally designated as hedges at the inception of the contract. Those risk management instruments not meeting these criteria are accounted for at fair value with changes in fair value recognized immediately in net income. See Note 16.

In assessing the fair value of its financial instruments, both derivative and non-derivative, ProLogis uses a variety of methods and assumptions that are based on market conditions and risks existing at each balance sheet date. Primarily, ProLogis uses quoted market prices or quotes from brokers or dealers for the same or similar instruments. These values represent a general approximation of possible value and may never actually be realized. See Note 16.

ProLogis adopted SFAS No. 133, "Accounting for Derivative Instruments and for Hedging Activities," as amended, on January 1, 2001. SFAS No. 133 provides comprehensive guidelines for the recognition and measurement of derivatives and hedging activities and, specifically, requires all derivatives to be recorded on the balance sheet at fair value as an asset or liability, with an offset to accumulated other comprehensive income or income. As discussed in Note 16, ProLogis' only derivative financial instruments, the foreign currency put option contracts, were marked to market through income as of December 31, 2000. These contracts also do not qualify for hedge accounting treatment under SFAS No. 133, therefore, ProLogis will continue to mark these contracts to market through income in 2001. ProLogis' unconsolidated entities also adopted SFAS No. 133 on January 1, 2001. The effect to ProLogis of their adoption of SFAS No. 133 was immaterial as these entities utilize derivative financial instruments on a limited basis.

PROLOGIS TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) DECEMBER 31, 2000

Foreign Currency Exchange Gains or Losses

ProLogis' consolidated subsidiaries whose functional currency is not the U.S. dollar translate their financial statements into U.S. dollars. Assets and liabilities are translated at the exchange rate in effect as of the financial statement date. Income statement accounts are translated using the average exchange rate for the period. Income statement accounts that represent significant, nonrecurring transactions are translated at the rate in effect as of the date of the transaction. Gains and losses resulting from the translation are included in accumulated other comprehensive income as a separate component of shareholders' equity. ProLogis and its foreign subsidiaries have certain transactions denominated in currencies other than their functional currency. In

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

these instances, nonmonetary assets and liabilities are reflected at the historical exchange rate, monetary assets and liabilities are remeasured at the exchange rate in effect at the end of the period, and income statement accounts are remeasured at the average exchange rate for the period. Gains and losses from remeasurement are included in ProLogis' results of operations. In addition, gains or losses are recorded in the income statement when a transaction with a third party, denominated in a currency other than the functional currency, is settled and the functional currency cash flows realized are more or less than expected based upon the exchange rate in effect when the transaction was initiated.

The net foreign currency exchange gains and losses recognized in ProLogis' results of operations were as follows for the periods indicated (in thousands of U.S. dollars):

	YEAR ENDED DECEMBER 31,		
	2000	1999	1998

	=====	=====	=====

(1) ProLogis entered into foreign currency put option contracts related to its operations in Europe for 2000 and 1999. These put option contracts do not qualify for hedge accounting treatment; therefore, ProLogis marks these contracts to market as of the end of the applicable accounting period. Upon settlement, the mark to market adjustments are reversed and the total realized gain or loss is recognized. See Note 16.

Revenue Recognition

ProLogis leases its operating facilities under operating leases and recognizes the total lease payments provided for under the leases on a straight-line basis over the lease term. A provision for possible loss is made when collection of receivables is considered doubtful.

Gains or losses on the disposition of real estate are recorded when the recognition criteria set forth under GAAP have been met, generally at the time title is transferred and ProLogis has no future obligations under the contract.

Rental Expenses

Rental expenses include costs of on-site and property management personnel, utilities, repairs and maintenance, property insurance and real estate taxes, net of amounts recovered from tenants under the terms of the respective leases.

Stock-Based Compensation

ProLogis adopted SFAS No. 123, "Accounting for Stock-Based Compensation," which allows ProLogis to continue to account for its various stock-based compensation plans using Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. Under APB No. 25, if the exercise price of the stock options issued equals or exceeds the market price of the underlying stock on the date of grant, no compensation expense is recognized. Certain pro forma earnings per share disclosures required by SFAS No. 123 are presented in Note 13.

Cost of Start-Up Activities

Statement of Position ("SOP") 98-5 "Reporting on the Costs of Start-Up Activities," which requires that costs associated with organization, pre-opening, and start-up activities be expensed as incurred was adopted by ProLogis on January 1, 1999. Through December 31, 1998, ProLogis capitalized costs associated with start-up activities and amortized such costs over an appropriate period, generally five years. ProLogis expensed all unamortized organization and start-up costs, approximating \$1.4 million, as a cumulative effect of a change in accounting principle as of January 1, 1999. Subsequent to that date, such costs incurred have been expensed.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) DECEMBER 31, 2000

As of December 31, 2000, ProLogis had invested \$19.9 million in the non-voting preferred stock of ProLogis Logistics and had the following notes and mortgage notes receivable outstanding:

- \$157.8 million unsecured note from ProLogis Logistics; interest at 8.0% per annum; due on April 2002;

The voting common stock of ProLogis Logistics, representing a 5% interest in the earnings of ProLogis Logistics, was owned by an unrelated party until January 5, 2001, when it was purchased for \$2.1 million by CSI/Frigo LLC, a limited liability company whose members are ProLogis and K. Dane Brooksher, ProLogis' chairman. CSI/Frigo LLC also acquired the voting common stock of Frigoscandia Holding S.A. ("Frigoscandia S.A."). Additionally, ProLogis has a note agreement with CSI/Frigo LLC that allows ProLogis to participate in its earnings such that ProLogis will recognize 95% of the earnings of CSI/Frigo LLC. There are no provisions that give ProLogis the right to acquire Mr. Brooksher's membership interest. Mr. Brooksher does not receive any compensation in connection with his ownership interest or in connection with being the managing member. Mr. Brooksher's membership interest and the provisions of the participating note entitle him to dividends equal to 5% of the net cash flow of CSI/Frigo LLC, as defined, if any. Mr. Brooksher invested \$50,000 in CSI/Frigo LLC. The voting common stock of Frigoscandia S.A. was owned by a limited liability company in which unrelated parties owned 100% of the voting interests and Security Capital owned 100% of the non-voting interests until January 5, 2001, when the voting common stock was purchased for \$1.2 million by CSI/Frigo LLC. See Note 15.

As of December 31, 2000, Frigoscandia had a multi-currency revolving credit agreement in the currency equivalent of 360.0 million Deutsche marks through a consortium of 11 European banks. The loan will be due on March 31, 2001 and bears interest at the relevant index (LIBOR or Euribor based on the currency borrowed) plus 1.15%. Frigoscandia is negotiating a new credit agreement that will provide for the currency equivalent of 185.0 million euros of borrowing capacity with interest charged at the relevant index plus 0.90%, to mature on December 31, 2001. ProLogis will guarantee 100% of the borrowings under the new agreement.

Kingspark S.A.

ProLogis owns 100% of the non-voting preferred stock of Kingspark S.A., representing a 95% interest in the earnings of Kingspark S.A. On August 14, 1998, Kingspark S.A., a Luxembourg company, acquired an industrial distribution facility development company operating in the United Kingdom, Kingspark Group Holdings Limited ("ProLogis Kingspark") (collectively "the Kingspark entities"). As of December 31, 2000, the Kingspark entities had 1.6 million square feet of operating facilities at an investment of \$139.2 million and 1.5 million square feet of facilities under development with a total budgeted cost of \$136.2 million. 28.3 million square feet of facilities.

As of December 31, 2000, ProLogis had invested \$24.0 million in the non-voting preferred stock of Kingspark S.A. and had the following notes and mortgage notes receivable outstanding:

- 187.3 million pounds sterling (the currency equivalent of approximately \$280.1 million as of December 31, 2000) outstanding on an unsecured loan facility from ProLogis to the Kingspark entities that provides for borrowings of up to 200 million pounds sterling (the currency equivalent of approximately \$299.0 million as of December 31, 2000); interest at 8.0% per annum; due on demand;
- \$129.3 million unsecured note from Kingspark S.A.; interest at 5.0% per annum; due on demand;
- 42.0 million pound sterling (the currency equivalent of approximately \$62.9 million, as of December 31, 2000) mortgage note from ProLogis Kingspark; secured by land parcels; interest at 8.0% per annum; due on demand; and

The voting common stock of Kingspark S.A. was owned by a limited liability company, in which unrelated third parties owned 100% of the voting interests and Security Capital owned 100% of the non-voting interests. On January 5, 2001, this voting common stock was acquired by a limited liability company. ProLogis

owns 95% of the membership interests (all non-voting) and Mr. Brooksher owns 5% of the membership interests (all voting) of the company acquiring the common stock and Mr. Brooksher is its managing member. The entire purchase price of \$8.1 million was funded by ProLogis either directly or through loans to Kingspark LLC or Mr. Brooksher. Mr. Brooksher may transfer his membership interest, subject to certain conditions, including the approval of ProLogis. There are no provisions that give ProLogis the right to acquire Mr. Brooksher's membership interest. Mr. Brooksher does not receive any compensation in connection with his ownership interest or in connection with being the managing member. Mr. Brooksher's membership interest entitles him to dividends equal to 5% of the net cash flow of Kingspark LLC, as defined, if any. This transaction did not result in ProLogis acquiring control of the Kingspark entities, as ProLogis does not have a direct interest in the voting interests of Kingspark LLC or the Kingspark entities, therefore, ProLogis will continue to account for its investment in these entities under the equity method. See Note 15.

ProLogis Kingspark has a line of credit agreement with a bank in the United Kingdom. The line of credit agreement provides for borrowings of up to 15.0 million pounds sterling (the currency equivalent of approximately \$22.4 million as of December 31, 2000) and has been guaranteed by ProLogis. As of December 31, 2000, no borrowings were outstanding on the line of credit. However, as of December 31, 2000, ProLogis Kingspark had the currency equivalent of approximately \$13.8 million of letters of credit outstanding that reduce the amount of available borrowings on the line of credit.

6. MINORITY INTEREST:

Minority interest represents the limited partners' interests in real estate partnerships controlled by ProLogis. With respect to each of the partnerships either ProLogis or a subsidiary of ProLogis is the sole general partner with all management powers over the business and affairs of the partnership. The limited partners of each partnership generally do not have the right to participate in or exercise management control over the business and affairs of the partnership. With respect to each partnership the general partner may not, without the written consent of all of the limited partners, take any action that would prevent such partnership from conducting its business, possess the property of the partnership, admit an additional partner or subject a limited partner to the liability of a general partner.

As of December 31, 2000, ProLogis or a subsidiary of ProLogis is the controlling general partner in five partnerships. In each of these partnerships, the limited partners are entitled to exchange partnership units for Common Shares. Additionally, the limited partners are entitled to receive preferential cumulative quarterly distributions per unit equal to the quarterly distributions in respect of Common Shares. The five partnerships as of December 31, 2000 are as follows:

ENTITY	FORMATION DATE	INVESTMENT IN REAL ESTATE (IN MILLIONS)	PROLOGIS' OWNERSHIP	LIMIT PARTNERSHI OUTSTAN
-----	-----	-----	-----	-----
ProLogis Limited Partnership-I(1)	1993	\$211.0	68.70%	4,520,
ProLogis Limited Partnership-II	1994	\$ 58.3	97.80%	90,

ProLogis Limited Partnership-IV(3)	1994	\$103.9	98.50%	68,
Meridian Realty Partners Limited Partnership	(4)	\$ 10.4	88.00%	29,

(1) These facilities cannot be sold, prior to the occurrence of certain events, without the consent of the limited partners thereto, other than in tax-deferred exchanges.

(2) Convertible into Common Shares on a one for one basis.

(3) ProLogis Limited Partnership-IV was formed through a cash contribution from a wholly owned subsidiary of ProLogis, ProLogis-IV, Inc. and the contribution of industrial distribution facilities from the limited partner. ProLogis Limited Partnership-IV and ProLogis-IV, Inc. are legal entities separate and distinct from ProLogis, its affiliates and each other, and each has separate assets, liabilities, business functions and operations. The sole assets of ProLogis-IV, Inc. are its general partner advances to and its interest in ProLogis Limited Partnership-IV. As of December 31, 2000, ProLogis Limited Partnership-IV had outstanding borrowings from ProLogis-IV,

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

Inc., of \$0.4 million and ProLogis-IV, Inc. had outstanding borrowings from ProLogis and its affiliates of \$0.4 million.

(4) Acquired in merger with Meridian. See Note 11.

(5) Convertible into Common Shares on a 1.1 for one basis, plus \$2.00.

For financial reporting purposes, the assets, liabilities, results of operations and cash flows of each of the five partnerships are included in ProLogis' consolidated financial statements, and the interests of the limited partners are reflected as minority interest.

7. SHAREHOLDERS' EQUITY:

Shares Authorized

As of December 31, 2000, 275,000,000 shares were authorized. ProLogis' Board of Trustees (the "Board") may increase the number of authorized shares and may classify or reclassify any unissued shares of

ProLogis stock from time to time by setting or changing the preferences, conversion or other rights, voting powers, restrictions, limitations as of distributions, qualifications and terms or conditions of redemption of such shares.

Preferred Shares

As of December 31, 2000, ProLogis had four series of cumulative redeemable preferred shares of beneficial interest outstanding (Series A, C, D and E) and one series of cumulative convertible redeemable preferred shares of beneficial interest outstanding (Series B). The Series B preferred shares are convertible at any time, unless previously redeemed, at the option of the holders thereof into Common Shares at a conversion price of \$19.50 per share (equivalent to a conversion rate of 1.282 Common Shares for each Series B preferred share).

Holders of each series of preferred shares have, subject to certain conditions, limited voting rights. The holders of the preferred shares are entitled to receive cumulative preferential dividends based upon each series' respective liquidation preference. Such dividends are payable quarterly in arrears on the last day of March, June, September and December for all series of preferred shares, with the exception of Series E, which are payable quarterly on the last day of January, April, July and October, when, and if, declared by the Board, out of funds legally available for payment of dividends. After the respective redemption dates, each series can be redeemed for a cash redemption price which (other than the portion consisting of accrued and unpaid dividends) is payable solely out of the sales proceeds of other capital shares of ProLogis, which may include shares of other series of preferred shares. With respect to payment of dividends, each series of preferred shares ranks on parity with ProLogis' other series of preferred shares.

ProLogis' preferred shares as of December 31, 2000 are summarized as follows:

68

PROLOGIS TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) DECEMBER 31, 2000

(3) ProLogis will redeem these shares on March 20, 2001.

Recent Developments

On January 11, 2001, ProLogis announced a Common Share repurchase program under which it may repurchase up to \$100.0 million of its Common Shares. The Common Shares will be repurchased from time to time in the open market and in privately negotiated transactions, depending on market prices and other conditions. On February 12, 2001 ProLogis announced its call for redemption of all outstanding Series B cumulative convertible redeemable preferred shares at a price of \$25.00 per share, plus \$0.442 in accrued and unpaid dividends, for an aggregate redemption price of \$25.442 per preferred share. The redemption date is March 20, 2001. On or prior to March 13, 2001, the Series B preferred shares could be converted into Common Shares at a conversion rate of 1.282 Common Shares for each Series B preferred share.

Issuance of Common Shares

During 2000, ProLogis generated net proceeds of \$30.3 million from the issuance of 1,479,000 Common Shares under its 1999 Dividend Reinvestment and Share Purchase Plan and issuance of 163,000 Common Shares under long-term compensation plans. See Note 13. In addition, ProLogis issued: (i) 602,000 Common Shares in connection with the acquisition agreement for the Kingspark

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

entities (see Note 4); (ii) 980,000 Common Shares upon conversion of 765,000 cumulative convertible redeemable Series B preferred shares; and (iii) 238,000 Common Shares to the holders of 216,000 convertible limited partnership units.

Shelf Registration

ProLogis has a shelf registration statement on file with the Securities and Exchange Commission that allows ProLogis to issue securities in the form of debt securities, preferred shares, Common Shares, rights to purchase Common Shares and preferred share purchase rights on an as-needed basis. These \$608.0 million of shelf-registered securities are available for issuance, subject to ProLogis' ability to effect an offering on satisfactory terms.

Ownership Restrictions and Significant Shareholder

For ProLogis to qualify as a REIT under the Code, not more than 50% in value of its outstanding shares of stock may be owned by five or fewer individuals at any time during the last half of ProLogis' taxable year. Therefore, ProLogis' Declaration of Trust restricts beneficial ownership (or ownership generally attributed to a person under the REIT tax rules) of ProLogis' outstanding shares by a single person, or persons acting as a group, to 9.8% of ProLogis' outstanding shares. This provision assists ProLogis in protecting and preserving its REIT status and protects the interest of shareholders in takeover transactions by preventing the acquisition of a substantial block of shares.

Shares owned by a person or group of persons in excess of these limits are subject to redemption by ProLogis. The provision does not apply where a majority of the Board, in its sole and absolute discretion, waives such limit after determining that the status of ProLogis as a REIT for federal income tax purposes will not be jeopardized or the disqualification of ProLogis as a REIT is advantageous to the shareholders.

Security Capital is exempt from the ownership restrictions described above. Security Capital owned 30.2% the outstanding Common Shares as of December 31, 2000. For tax purposes, Security Capital's ownership is attributed to its shareholders.

PROLOGIS TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) DECEMBER 31, 2000

Dividend Reinvestment and Share Purchase Plan

In March 1995, ProLogis adopted a Dividend Reinvestment and Share Purchase Plan (the "1995 Plan"), which commenced in April 1995. The 1995 Plan allowed holders of Common Shares the opportunity to acquire additional Common Shares by automatically reinvesting distributions. Holders of Common Shares who do not participate in the 1995 Plan continue to receive distributions as declared. The 1995 Plan also allowed participating holders of Common Shares to purchase a limited number of additional Common Shares by making optional cash payments, without payment of any brokerage commission or service charge. Common Shares are acquired pursuant to the 1995 Plan at a price equal to 98% of the market price of such Common Shares, without payment of any brokerage commission or service charge.

The 1995 Plan was amended in June 1999 by the 1999 Dividend Reinvestment and Share Purchase Plan (the "1999 Plan"). The primary change effective with the 1999 Plan allows persons who are not holders of Common Shares to participate in

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

the share purchase plan.

Shareholder Purchase Rights

On December 7, 1993, the Board declared a dividend of one preferred share purchase right ("Right") for each outstanding Common Share to be distributed to all holders of record of the Common Shares on December 31, 1993. Each Right entitles the registered holder to purchase one-hundredth of a Participating Preferred Share for an exercise price of \$40.00 per one-hundredth of a Participating Preferred Share, subject to adjustment as provided in the Rights Agreement. The Rights will generally be exercisable only if a person or group (other than certain affiliates of ProLogis) acquires 20% or more of the Common Shares or announces a tender offer for 25% or more of the Common Shares. Under certain circumstances, upon a shareholder acquisition of 20% or more of the Common Shares (other than certain affiliates of ProLogis), each Right will entitle the holder to purchase, at the Right's then-current exercise price, a number of Common Shares having a market value of twice the Right's exercise price. The acquisition of ProLogis pursuant to certain mergers or other business transactions will entitle each holder of a Right to purchase, at the Right's then-current exercise price, a number of the acquiring company's common shares having a market value at that time equal to twice the Right's exercise price. The Rights held by certain 20% shareholders will not be exercisable. The Rights will expire on December 7, 2003, unless the expiration date of the Rights is extended, and the Rights are subject to redemption at a price of \$0.01 per Right under certain circumstances.

ProLogis' tax return for the year ended December 31, 2000 has not been filed. The taxability information for 2000 is based upon the best available data. ProLogis' tax returns for prior years have not been examined by the Internal Revenue Service. Consequently, the taxability of distributions and dividends is subject to change.

11. MERGER WITH MERIDIAN

On March 30, 1999, Meridian Industrial Trust, Inc. ("Meridian"), a publicly traded REIT that owned industrial distribution facilities in the United States, was merged with and into ProLogis. In accordance with the terms of the Agreement and Plan of Merger dated as of November 16, 1998, as amended (the "Merger Agreement"), the approximately 33.8 million outstanding shares of Meridian common stock were exchanged (on a 1.1 for one basis) into approximately 37.2 million ProLogis Common Shares. In addition, the holders of Meridian common stock received \$2.00 in cash per outstanding share, approximately \$67.6 million in total.

The holders of Meridian's Series D cumulative redeemable preferred stock received a new series of ProLogis cumulative redeemable preferred shares, Series E preferred shares, on a one for one basis. The Series E preferred shares have an 8.75% annual dividend rate (\$2.1875 per share) and an aggregate liquidation value of \$50.0 million. The total purchase price of Meridian was approximately \$1.54 billion, which included the assumption of the outstanding debt and liabilities of Meridian as of March 30, 1999 and the issuance of

approximately 1.1 million stock options each to acquire 1.1 ProLogis Common Shares and \$2.00 in cash. The assets acquired from Meridian included approximately \$1.42 billion of real estate assets, an interest in a temperature-controlled distribution business of \$28.7 million and cash and other assets aggregating \$72.3 million. The transaction was structured as a tax-free merger and was accounted for under the purchase method.

The following summarized pro forma unaudited information represents the combined historical operating results of ProLogis and Meridian with the appropriate purchase accounting adjustments, assuming the merger with Meridian had occurred on January 1, 1998. The pro forma financial information presented is not necessarily indicative of what ProLogis' actual operating results would have been had ProLogis and Meridian constituted a single entity during such periods (in thousands, except per share amounts):

13. LONG-TERM COMPENSATION

Long-Term Incentive Plan and Share Option Plan for Outside Trustees

ProLogis has a long-term incentive plan (the "Incentive Plan"), which includes an employee share purchase plan, a stock option plan, a restricted

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

share unit plan and a performance share plan. No more than 14,600,000 Common Shares in the aggregate may be awarded under the Incentive Plan and no individual may be granted awards with respect to more than 500,000 Common Shares in any one-year period. The Incentive Plan has a 10-year term. Additionally, ProLogis has 500,000 Common Shares authorized for issuance under its Share Option Plan for Outside Trustees (the "Outside Trustees Plan"). As of December 31, 2000, 4,382,000 Common Shares remain to be issued under the Incentive Plan and 406,000 Common Shares remain to be issued under the Outside Trustees Plan.

Employee Share Purchase Plan

Under the employee share purchase plan certain employees of ProLogis purchased 1,356,834 Common Shares on September 8, 1997 at a price of \$21.21875 per share. ProLogis financed 95% of the total purchase price through ten-year, recourse notes to the participants aggregating \$27.3 million. The loans, which have been recognized as a deduction from shareholders' equity, bear interest at the lower of ProLogis' annual dividend yield on Common Shares or 6% per annum. The loans are secured by the Common Shares purchased. For each Common Share purchased, participants were granted two options to purchase Common Shares at a price of \$21.21875. As of December 31, 2000, there were 930,807 Common Shares securing the

ProLogis did not recognize compensation expense in 2000, 1999 or 1998 related to stock options granted as the exercise price of all options granted was equal to the average of the high and low market price on the date of grant. Had compensation expense for these plans been determined using an option valuation model as provided in SFAS No. 123, ProLogis net earnings attributable to Common Shares and net earnings per Common Share would change as follows:

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

	YEAR ENDED DECEMBER 31,

Since stock options vest over several years and additional grants are likely to be made in future years, the pro forma compensation cost may not be representative of that to be expected in future years.

Restricted Share Units ("RSUs")

RSUs in the form of Common Shares are awarded at a rate of one Common Share per RSU from time to time to employees of ProLogis. The RSUs are valued on the award date based upon the market price of the Common Shares on that date. ProLogis recognizes the value of the RSUs awarded over the applicable vesting period as compensation expense. As of December 31, 2000, there were 587,500 RSUs outstanding at a total value of \$12.6 million, of which \$4.4 million has been expensed. As of December 31, 2000, 166,250 of the outstanding RSUs are vested. The remaining RSUs will vest as follows:

2004.....	41,875

Performance Share Plan

Under the performance share plan certain employees are awarded Common Shares if performance criteria is met. On December 31, 2000, 174,675 Common Shares valued at \$3.9 million were awarded under the plan, based upon the criteria established for 2000. The entire award will vest on December 31, 2002. ProLogis will recognize the related compensation expense over the two-year vesting period beginning January 1, 2001.

Dividend Equivalent Units ("DEUs")

DEUs in the form of Common Shares are awarded at a rate of one Common Share per DEU on December 31st of each year that the underlying stock options, RSUs or performance shares are outstanding. The DEUs vest to the same extent the underlying award vests. The DEUs are valued on the award date based upon the market price of the Common Shares on that date and ProLogis recognizes that value as compensation expense over the underlying vesting period of the related award. Of the total RSUs outstanding, 167,500 RSUs do not earn DEUs but rather earn dividends at ProLogis' current Common Share distribution rate. As of December 31, 2000, there were 492,319 DEUs outstanding, of which 53,501 were vested. The DEUs outstanding have a total value of \$10.5 million, of which \$2.8 million has been expensed as of December 31, 2000.

401(k) Savings Plan and Trust

ProLogis has a 401(k) Savings Plan and Trust ("401(k) Plan"), that provides for matching employer contributions in Common Shares of 50 cents for every dollar contributed by an employee, up to 6% of the employees' annual compensation (within the statutory compensation limit). The vesting of contributed Common Shares is based on the employees' years of service, with 20% vesting each year of service, over a five-year period. Through December 31, 2000, no Common Shares have been issued under the 401(k) Plan as all matching contributions have been made with Common Shares purchased in the public market. A total of 190,000 Common Shares have been authorized for issuance under the 401(k) Plan.

PROLOGIS TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) DECEMBER 31, 2000

Nonqualified Savings Plan

Effective January 1, 1998, ProLogis established the Nonqualified Savings Plan to provide benefits for a select group of management. The purpose of this plan is to allow highly compensated employees the opportunity to defer the receipt and income taxation of a certain portion of their compensation in excess of the amount permitted under the 401(k) Plan. ProLogis will match the lesser of (a) 50% of the sum of deferrals under both the 401(k) Plan and this plan, and (b) 3% of total compensation up to certain levels. The matching account will vest in the same manner as the 401(k) Plan.

15. RELATED PARTY TRANSACTIONS:

ProLogis leases space to Security Capital and certain of its affiliates on market terms that management believes are no less favorable to ProLogis than those that could be obtained with unaffiliated third parties.

ProLogis' rental income related to these leases were \$757,000, \$756,000 and \$717,000 for the years ended December 31, 2000, 1999 and 1998, respectively. As of December 31, 2000, 109,804 square feet were leased to related parties. The annualized rental revenues for these leases are \$763,000.

On September 8, 1997, ProLogis and Security Capital entered into an administrative services agreement (the "ASA"). Under the ASA, Security Capital

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

provided ProLogis with certain administrative and other services as determined by ProLogis (certain services originally provided under the ASA were transferred to ProLogis employees). ProLogis' fees under the ASA were \$2.5 million, \$3.5 million and \$3.7 million for 2000,

1999 and 1998, respectively. Of these fees, \$0.4 million, \$0.6 million and \$0.7 million were capitalized in 2000, 1999 and 1998, respectively. ProLogis recognizes the ASA fees related to property management activities as a component of rental expenses. ProLogis began transitioning these functions from Security Capital during 2000 and, as of December 31, 2000, ProLogis had assumed substantially all of the functions previously provided by Security Capital. The ASA expired on December 31, 2000. Security Capital is continuing to provide the services net yet assumed by ProLogis under a month-to-month agreement until the transition is completed.

During 2000, ProLogis paid investment advisory fees of \$104,000 to Security Capital Markets Group Incorporated, a registered broker-dealer subsidiary of Security Capital, related to additional equity contributed by NYSCRF to ProLogis California during 2000 (see Note 4). During 1999, ProLogis paid investment advisory fees to Security Capital Markets Group aggregating \$15.6 million. The fees were incurred in connection with the merger with Meridian (\$1.54 billion purchase price -- see Note 11), the formation of ProLogis California which generated \$148.2 million of outside equity capital to ProLogis (see Note 4) and the formation of the ProLogis European Properties Fund (the currency equivalent of over \$1 billion as of December 31, 1999 of third party capital invested or committed -- see Note 4).

ProLogis has invested in the non-voting preferred stock of certain entities that have ownership interests in companies that produce income that is not REIT qualifying income (i.e., rental income and mortgage interest income) under the Code. The voting common stock of these companies was held by four entities in which ProLogis did not have an ownership interest. ProLogis' largest shareholder, Security Capital, had a non-controlling ownership interest in two of these entities. During 2000, certain amendments to the Code were passed that were to be effective in January 2001. The Code, as amended in 2001, would allow for ProLogis to have a voting ownership interest in these entities; however, many of the states in which ProLogis operates had not amended their income tax laws governing REITs to coincide with the amendments made to the Code. For ProLogis to continue to qualify as a REIT under applicable state income tax laws, the non-voting preferred stock ownership structure had to continue after the Code amendments took effect in January 2001.

In anticipation of the changes in the Code, ProLogis began negotiating purchase agreements with the owners of the voting common stock in three of the entities. Rather than postpone the completion of these purchases pending changes to the state income tax laws governing REITs, the purchase of the voting common stock of each entity was completed with the voting interest in these entities acquired by Mr. K. Dane Brooksher, ProLogis' chairman and chief executive officer. The transactions through which Mr. Brooksher became an owner in these entities are further discussed below.

On January 5, 2001, a newly formed limited liability company, Kingspark LLC, of which Mr. Brooksher, ProLogis' chairman, is the voting member and ProLogis is the non-voting member, acquired the ordinary shares of Kingspark S.A. (an entity in which ProLogis owns all of the non-voting preferred stock)

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

from Kingspark Holdings LLC (a limited liability company in which unrelated third parties owned 100% of the voting interests and Security Capital owned 100% of the non-voting interests) for approximately \$8.1 million. Mr. Brooksher's \$40,557 capital contribution to the newly formed limited liability company was loaned to Mr. Brooksher by ProLogis, which recourse loan is payable on January 5, 2006 and bears interest at an annual rate of 8%. ProLogis owns 95% of the membership interests (all non-voting) and Mr. Brooksher owns 5% of the membership interests (all voting) of Kingspark LLC and Mr. Brooksher is its managing member. Mr. Brooksher may transfer his membership interest, subject to certain conditions, including the approval of ProLogis. There are no provisions that give ProLogis the right to acquire Mr. Brooksher's membership interest. Mr. Brooksher will not receive any compensation in connection with being the managing member. His membership interest entitles him to dividends equal to 5% of the net cash flow of Kingspark LLC, as defined, if any. ProLogis structured the transaction in the manner described above to enable ProLogis to continue to qualify as a REIT under applicable state income tax laws.

Also on January 5, 2001, a newly formed limited liability company of which Mr. Brooksher is the voting member and ProLogis is the non-voting member, acquired the common shares of Frigoscandia S.A. and ProLogis Logistics (both entities in which ProLogis owns all of the non-voting preferred stock) for an aggregate of approximately \$3.3 million. The common shares of Frigoscandia S.A. were owned by a limited liability company in which unrelated third parties owned 100% of the voting interests and Security Capital owned 100% of the non-voting interests. The common shares of ProLogis Logistics were owned by a limited liability company in which unrelated third parties owned all of the membership interest. Mr. Brooksher contributed \$50,000 to the capital of the newly formed limited liability company. ProLogis owns 89% of the membership interests (all non-voting) and Mr. Brooksher owns 11% of the membership interests (all voting) of CSI/Frigo LLC. Mr. Brooksher is the managing member of CSI/Frigo LLC. Additionally, ProLogis has a note agreement with CSI/Frigo LLC that allows ProLogis to participate in its earnings such that ProLogis will recognize 95% of the earnings of CSI/Frigo LLC. Mr. Brooksher may transfer his membership interest, subject to certain conditions, including the approval of ProLogis. There are no provisions that give ProLogis the right to acquire Mr. Brooksher's membership interest. Mr. Brooksher will not receive any compensation in connection with being the managing member. Mr. Brooksher's membership interest and the provisions of the participating note entitle him to dividends equal to 5% of the net cash flow of CSI/Frigo LLC, as defined, if any. ProLogis structured the transaction in the manner described above to enable ProLogis to continue to qualify as a REIT under applicable state income tax laws.

As a result of the foregoing transactions, Mr. Brooksher has an effective 0.04% interest in the earnings of ProLogis Logistics, an effective 0.25% interest in the earnings of Frigoscandia S.A. and an effective 0.25% interest in the earnings of Kingspark S.A. Mr. Brooksher receives no compensation in connection with his interest in these companies.

In 2000, ProLogis invested in two technology companies whose income was not REIT qualifying income under the Code (amendments to the Code and state income tax laws governing REITs were not in effect at this time). These investments were structured whereby ProLogis would have only a non-voting preferred stock ownership interest. To complete the transactions, Mr. Brooksher acquired the voting ownership interest in each entity. These investments are discussed below.

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

In July 2000, ProLogis acquired an indirect interest in Vizional Technologies. In order to facilitate the acquisition, ProLogis acquired all of the non-voting preferred stock of GoProLogis, representing a 98% interest in the earnings of GoProLogis. GoProLogis holds the direct investment in Vizional Technologies. Mr. Brooksher acquired all of the voting common stock of GoProLogis, representing a 2% interest in the earnings of GoProLogis and is entitled to receive dividends equal to 2% of the net cash flow of GoProLogis, as defined, if any. Mr. Brooksher contributed a \$1.1 million recourse promissory note to GoProLogis in exchange for his interest in the entity, which note is payable on July 18, 2005 and bears interest at an annual rate of 8%. Mr. Brooksher is not restricted from transferring his ownership interest in GoProLogis and ProLogis does not have the right to acquire Mr. Brooksher's ownership interest in 2000. However, beginning in 2001, an option agreement does allow ProLogis to acquire Mr. Brooksher's ownership interest. GoProLogis invested \$25.0 million in the preferred stock of Vizional Technologies. GoProLogis also received \$30.4 million of preferred stock of Vizional Technologies under a license agreement for the non-exclusive use of the ProLogis Operating System(TM) over a five-year period. ProLogis structured the transaction in the manner described above to enable ProLogis to continue to qualify as a REIT under applicable state income tax laws.

In September 2000, ProLogis acquired an indirect interest in PhatPipe. In order to facilitate the acquisition, ProLogis acquired all of the non-voting preferred stock of ProLogis PhatPipe, representing a 98% interest in the earnings of ProLogis PhatPipe. ProLogis PhatPipe holds the direct investment in PhatPipe. Mr. Brooksher acquired all of the voting common stock of ProLogis PhatPipe, representing a 2% interest in the earnings of ProLogis PhatPipe and is entitled to receive dividends equal to 2% of the net cash flow of

84

ProLogis PhatPipe, as defined, if any. Mr. Brooksher contributed an aggregate of \$122,449 principal amount of recourse promissory notes to ProLogis PhatPipe in exchange for his interest in the entity. A promissory note with the principal amount of \$71,429 is due September 20, 2005 and a promissory note with the principal amount of \$51,020 is due January 4, 2006. Both notes bear interest at an annual rate of 8%. Mr. Brooksher is not restricted from transferring his ownership interest in ProLogis PhatPipe and ProLogis does not have the right to acquire Mr. Brooksher's ownership interest in 2000. However, beginning in 2001, an option agreement does allow ProLogis to acquire Mr. Brooksher's ownership interest. ProLogis PhatPipe invested \$3.5 million in the preferred stock of PhatPipe, Inc. and has committed to fund a total of \$8.0 million in ProLogis PhatPipe by March 31, 2001 pursuant to the terms of a stock purchase agreement. ProLogis PhatPipe also received \$3.5 million of preferred stock of PhatPipe, Inc. under a license agreement for the non-exclusive use of the ProLogis Operating System(TM) over a three-year period. ProLogis structured the transaction in the manner described above to enable ProLogis to continue to qualify as a REIT under applicable state income tax laws.

16. FINANCIAL INSTRUMENTS:

Fair Value of Financial Instruments

The following estimates of the fair value of financial instruments have been determined by ProLogis using available market information and valuation methodologies believed to be appropriate for these purposes. Considerable judgment and a high degree of subjectivity are involved in developing these

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

estimates and, accordingly, they are not necessarily indicative of amounts ProLogis would realize upon disposition.

As of December 31, 2000 and 1999, the carrying amounts of certain financial instruments employed by ProLogis, including cash and cash equivalents, accounts receivable, accounts payable and accrued expenses were representative of their fair values because of the short-term maturity of these instruments. Similarly, the carrying values of the lines of credit balances approximate fair value as of those dates since the interest rate fluctuates based on published market rates. As of December 31, 2000 and 1999, the fair values of the senior unsecured debt and the secured debt (including mortgage notes, assessment bonds and securitized debt) have been estimated based upon quoted market prices for the same or similar issues or by discounting the future cash flows using rates currently available for debt with similar terms and maturities. The differences in the fair value of ProLogis' senior unsecured debt and secured debt from the carrying value in the table below are the result of differences in the interest rates available to ProLogis as of December 31, 2000 and 1999, from the interest rates in effect at the dates of issuance. The senior unsecured debt and many of the secured debt issues contain pre-payment penalties or yield maintenance provisions which would make the cost of refinancing exceed the benefit of refinancing at the lower rates.

As of December 31, 2000 and 1999, the fair value of ProLogis' derivative financial instruments are the amounts at which they could be settled, based on quoted market prices or estimates obtained from brokers or dealers.

Derivative Financial Instruments

ProLogis uses derivative financial instruments as hedges to manage well-defined risk associated with interest and foreign currency rate fluctuations on existing or anticipated obligations and transactions. ProLogis does not use derivative financial instruments for trading purposes.

Edgar Filing: PROLOGIS TRUST - Form 10-K/A

The primary risks associated with derivative instruments are market risk and credit risk. Market risk is defined as the potential for loss in the value of the derivative due to adverse changes in market prices (interest rates or foreign currency rates). The use of derivative financial instruments allows ProLogis to manage the risks of increases in interest rates and fluctuations in foreign currency exchange rates with respect to the effects these fluctuations would have on ProLogis' income and cash flows.

Credit risk is the risk that one of the parties to a derivative contract fails to perform or meet their financial obligation under the contract. ProLogis does not obtain collateral to support financial instruments subject to credit risk but monitors the credit standing of counterparties. ProLogis does not anticipate non-performance by any of the counterparties to its derivative contracts. Should a counterparty fail to perform, however, ProLogis would incur a financial loss to the extent of the positive fair market value of the derivative instruments, if any.

The following table summarizes the activity in derivative financial instruments for the years ended December 31, 2000 and 1999 (in millions):

- (1) ProLogis entered into foreign currency put option contracts during 2000 and 1999 related to its operations in Europe. The put option contracts provide ProLogis with the option to exchange euros for U.S. dollars

at a fixed exchange rate such that if the euro were to depreciate against the U.S. dollar to predetermined levels as set by the contracts, ProLogis could exercise its options and mitigate its foreign currency exchange losses. The notional amounts of the put option contracts represent the U.S. dollar equivalent related to the put option contracts with notional amounts of 47.1 million euros and 23.0 million euros as of December 31, 2000 and 1999, respectively. The outstanding contracts do not qualify for hedge accounting treatment and were marked to market through income as of December

17. COMMITMENTS AND CONTINGENCIES:

Environmental Matters

All of the facilities acquired by ProLogis have been subjected to environmental reviews by ProLogis or predecessor owners. While some of these assessments have led to further investigation and sampling, none of the environmental assessments has revealed, nor is ProLogis aware of any environmental liability (including asbestos related liability) that ProLogis believes would have a material adverse effect on ProLogis' business, financial condition or results of operations.
